PROCEEDINGS AND DEBATES OF THE 98th CONGRESS, FIRST SESSION

SENATE—*Thursday, August 4, 1983*

(Legislative day of Monday, August 1, 1983)

The Senate met at 9:30 a.m., on the expiration of the recess, and was called to order by the President pro tempore (Mr. THURMOND).

The PRESIDENT pro tempore. Our prayer today will be offered by the son of our Senate Chaplain, the Reverend Richard Christian Halverson, Jr., pastor, Chesterbrook Presbyterian Church, Falls Church, Va.

PRAYER

The Reverend Richard Christian Halverson, Jr., offered the following prayer:

Let us pray.

God our Creator, as the Members of this powerful political body endeavor to enact bills and legislation for the welfare of our country, a sense of helplessness often accompanies their long hours of hard work.

Conflicting interests, philosophies, and ways of working frequently clash on the floor or bog down in the bureaucracy. Undoubtedly, human elements of pride, ambition, divisiveness, and ignorance enter in to further aggravate the deliberative process.

In the midst of the futility to which the created order has been subjected, we are mindful, Lord, that You desire to increase Your influence throughout the nations. We are aware that Your creative initiative does not depend upon our worthiness but, rather, on Your merciful good will to men.

Believing this, we boldly ask that You reach down into the raw material of this assembly to form structures for peace and justice. Breathe life into the divergent gifts and opinions of the Members of this organism in a united spirit of compassion for the poor, the widow, the outcast, and the foreigner. Apply Your shoulder to the vast, immovable machinery of government to mobilize this land for the rights of all humans and the stewardship of life.

Do this, we pray, that the world may know that the Nation which honors the living God, regardless of her faults, shall be mightily blessed and a blessing to others. We make this humanly impossible request in the name of the man, Jesus Christ, who, by God's power, is reported to have worked miracles. Amen.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDENT pro tempore. The majority leader is recognized.

Mr. BAKER. I thank the Chair.

GET-WELL WISHES TO REVEREND HALVERSON

Mr. BAKER. Mr. President, I am sure I speak for every Member of the Senate when I welcome our distinguished Chaplain this morning, the son of the Senate Chaplain. All of us wish him well in his concern for his father's health.

Perhaps all Members of the Senate do not know that Dr. Halverson, the Senate Chaplain, was hospitalized for diagnostic work and other complications. We will be mindful of the state of his health and join our guest Chaplain this morning, as well as the family of Reverend. Halverson, in wishing him well in this physical ordeal.

PREADJOURNMENT MEDITATION

Mr. BAKER. Mr. President, I dare to look ahead to the time when I can announce—which I cannot now announce—that we are about to have the last vote before the August recess. Before great cheering breaks out, as offices on Capitol Hill hear those remarks, let me reiterate that that is a hypothesis. That is our desire, but it has not yet been obtained.

I look forward to the time when I can announce that there will be no more rollcall votes before the August recess.

I see a scene then unfolding. I see my colleagues on both sides of the aisle, my good friends, as they leave this place and strain the portals of this building and they dive into their automobiles and drive toward——

Mr. BYRD. West Virginia.

Mr. BAKER. Toward places in this province, and I speak now of National Airport, the gateway to our Nation, and the mitigation of our cares and concerns.

Mr. President, I do not blame them for that. I can now envision, in my mind's eye, remarks such as, "Thank God that's over," and other public policy-minded statements.

However, Mr. President, I also urge them to do something that I did last evening as I was driving home—that is, to look out the window and see a most remarkable sight.

Mr. BYRD. You were not driving down Pennsylvania Avenue.

Mr. BAKER. No, I was not driving down Pennsylvania Avenue. That is also a remarkable sight.

Mr. President, I hope Members will take one moment to take a peek at this magnificent city—not only the monumental grounds and structures and buildings, but most especially at the lawns, the gardens, the parks, the trees, and the flowers that are kept up by the National Park Service.

The Park Service has always done an absolutely remarkable job of maintaining the monument areas, the Capitol, the Mall, the Washington Monument, the Lincoln Memorial, the Jefferson Memorial, and the other hallowed places from the secular standpoint. But I think this year they must have outdone themselves.

As I looked out the car window, I saw the marigolds suddenly appear in full flower. They were the same height and shape to within a centimeter and were lined up like they were marching to their first day of school, all polished and dressed and ready for the season.

Mr. President, the geraniums are there. I do not understand how you can have virtually acres of geraniums,

● This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

all bearing what appear to be the same number of blossoms, of precisely the same shade of red, spaced so precisely and accurately that the Army Corps of Engineers must have used a transit and a level to put them in those locations.

Mr. President, whatever was done, it adds a sense of grandeur, a sense of order, a sense of accomplishment, a sense of duty, and a sense of pride, not only in this city but also in the distinguished bureaucracy that makes this city run, and most especially the National Park Service.

So I say to my good friends and colleagues, as you flee from these precincts, as you climb out the windows and throw your burdens to the winds and drive toward the expressway leading to West Virginia or the airport leading to Tennessee, take a look at those magnificent grounds and gardens and think that nobody has ever done it so well as the National Park Service.

(Mr. JEPSEN assumed the chair.)

Mr. BYRD. Mr. President, will the majority leader yield?

Mr. BAKER. I yield.

Mr. BYRD. The majority leader's eloquence on this day reminds me of the eloquence of his late father-in-law, Senator Everett Dirksen. It sounds like one of Ev Dirksen's speeches, with the mention of the marigolds and the word pictures that Senator Dirksen used to paint.

I compliment the majority leader on his statement. I think it is a fine thing to say about the Capital City.

I apologize for interrupting the majority leader.

Mr. BAKER. Mr. President, it was no interruption at all. I am grateful to my friend the majority leader.

I will say something absolutely facetious, but some may think I have taken up pagan beliefs.

Maybe these remarks and that state of mind, and particularly the reference to the marigold—which was so near and dear to Senator Dirksen's heart, and for which he campaigned so long to make the national flower—stem from the fact that I am wearing his watch.

Senator GOLDWATER looked at my wrist the other day and saw the gold bracelet and said, "Not you, too."

I said, "No, it's a gold Rolex watch."

I did not pay a bit of attention to it until my esteemed father-in-law and great friend, Senator Dirksen, passed away and the estate tax was paid on it.

Then I realized it was a matter of great worth, and I have worn it ever since. But it is a source of great inspiration for me, Mr. President, and one of these days before I leave the Senate, who knows, I may take up that battle in a serious and sustained way to designate the marigold as the national flower.

I am sure there will be rustlings in heaven if I were to do that, and I may indeed.

THE SERGEANT AT ARMS

Mr. BAKER. Mr. President, on Tuesday of this week, I had the unfortunate duty of informing the Senate Republican Conference of the impending resignation of Howard Liebengood, the Sergeant at Arms. Frankly, I found that making that announcement was most difficult for me. I have great respect and admiration for Howard Liebengood. I have known him for many years. He has been a valued member of my staff before he became an officer of the Senate.

Howard Liebengood and I have worked together for over a decade. He has been a wise and responsible counselor, an insightful and diligent legislative analyst, and a sincere and trusted friend.

As Sergeant at Arms, Howard distingiushed himself immediately. Overseeing more than 1,300 employees and a $65 million budget, he emerged as one of the Senate's most capable and adept managers.

Howard Liebengood was born in Plymouth, Ind., in 1942. He received a political science degree from Kansas State University in 1964 and a law degree from Vanderbilt University in 1967. He was a captain in the Army Military Police Corps from 1968 to 1970, receiving the Bronze Star for services in the Republic of Vietnam in 1969. Upon returning to the States, Howard entered private law practice in Nashville and remained there until he came to Washington to work on the Senate Watergate Committee as assistant minority counsel. It was during this time that I came to appreciate the talents of Howard Liebengood.

In 1975, Howard became a consultant to me on the Church committee which investigated intelligence operations, and I still remember his intellectual astuteness during briefings. A year later, Howard became the first minority staff director of the Senate Intelligence Committee, until I became minority leader and persuaded him to join my staff as legislative counsel.

It is with deep personal regret that I speak of Howard's departure from the Senate, but it is also with great appreciation and fondness that I wish him the best of luck in his new venture in the private sector.

Mr. President, I am pleased to say that the Republican Caucus has instructed me to nominate Howard Liebengood's assistant, Larry Smith, who is presently the Deputy Sergeant at Arms, to succeed Howard Liebengood. This is a matter I will address to the Senate in due course in consultation with the minority leader.

Larry Smith has served as Deputy Sergeant at Arms since March of 1981. He has worked on the staff of Senator HATFIELD and has served as minority staff director of the Senate Committee on Rules and Administration during the time that Senator HATFIELD was the ranking minority member of that committee.

On behalf of the entire Senate, I wish to congratulate Larry Smith on this nomination to be the Sergeant at Arms. He has my support and blessings, and I hope the approval of the Senate, to take up those important duties and follow in the good example of Howard Lienbengood.

Mr. THURMOND. Mr. President, will the distinguished Senator yield?

Mr. BAKER. I yield.

Mr. THURMOND. Mr. President, I join with the majority leader in expressing appreciation for the great work that has been done here in the position of Sergeant at Arms by Howard Liebengood.

In my 29 years in the Senate, I do not think I have known a Sergeant at Arms who has performed his duties in a more capable manner or in a more dedicated manner.

I personally feel we have been very fortunate to have had this fine gentleman in this position. I regret to see him leave, but I wish him well in the important new work he undertakes.

I also say that I feel that the Deputy Sergeant at Arms, Mr. Smith, who will take over, is a very competent gentleman and he will fulfill his duties in a highly efficient manner.

Mr. BAKER. Mr. President, I thank the distinguished President pro tempore, as I am sure Mr. Liebengood does.

I apologize to the minority leader and other Members of the Senate for overrunning my time.

I now yield the floor.

Mr. BYRD. I thank the majority leader.

RECOGNITION OF THE MINORITY LEADER

The PRESIDING OFFICER (Mr. GORTON). The minority leader is recognized.

CHAPLAIN HALVERSON

Mr. BYRD. Mr. President, the distinguished majority leader has already referred to our Senate Chaplin, and I wish to say that I learned with some distress recently that Dr. Richard C. Halverson had suffered a mild heart attack on Monday night.

Fortunately, he is doing fine, resting comfortably and expects to be released from the hospital in a few days.

Our Senate Chaplin is the kindest of men, always cheerful and always concerned over the spiritual well-being of

the employees of the Senate, and those of us who serve in this great body. He from time to time stops by my Capitol office to wish me and my staff a good, and blessed day.

He never sees me that he does not tell me that he loves me, and I think he is a good man. He lives his life in accordance with a verse from 1 John, Chapter 4, verse 16:

God is love; and he that dwelleth in love dwelleth in God, and God in him.

Our Chaplain, as I say often speaks of love.

He tries to make the teachings of God relevant to our everyday lives, and that attempt is reflected in the simple elegence of his day-to-day prayers here as we open the Senate.

Dr. Halverson was a pillar of strength to me during a time of crisis last year when I lost my young grandson in a senseless tragedy.

Dr. Halverson performed the memorial service at that time, and I shall never forget his words of comfort, so applicable and soothing at a time when I would have believed that nothing could be soothing.

Our thoughts and prayers are with our friend Dr. Richard C. Halverson at this time, and we look forward to his speedy return to us.

I am pleased, as the majority leader was pleased, to note that in Dr. Halverson's absence, Dr. Halverson's son, Richard C. Halverson, Jr., has given the morning prayer today and has been giving the morning prayer daily.

Mr. President, I ask unanimous consent to have printed an article entitled "Keepers of the Congressional Faith" from the August 3 edition of the Washington Post.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Aug. 3, 1983]

KEEPERS OF THE CONGRESSIONAL FAITH: THE WORKS OF REVS. HALVERSON & FORD

(By Paul M. Barrett)

Senate Chaplain Richard C. Halverson frets about partisan strife on Capitol Hill—so much so that during the 1982 lame duck session he took his concern to the Senate floor.

"Humpty Dumpty sat on the wall," the Rev. Halverson reminded some of the nation's most powerful men and women in his invocation one morning. "Humpty Dumpty had a great fall. All the king's horses and all the king's men couldn't put Humpty Dumpty together again. Dear God, don't let the Senate come apart . . ."

A vaudeville performer before he entered the Presbyterian church, Halverson, 67, relishes the opportunity to zing his politic parishioners with "relevant prayers." But he gets serious very quickly when asked what the $57,494-a-year Senate chaplain does in addition to giving his daily one-minute invocation.

"That's the only official required duty," he concedes, "but there's much more to the job of watching over this group."

Congress has hired preachers since its inception, but only in recent years have the two houses retained full-time chaplains. Last month, ruling on a Nebraska suit, the Supreme Court affirmed the constitutionality of legislatures hiring chaplains. The decision focused attention on Halverson and his $67,200-a-year House counterpart, the Rev. James D. Ford, though neither man will comment directly on the case.

"I do my work best by not being a defendant," says Ford, 52, a five-year veteran of the Hill.

Says Halverson, who arrived in 1981: "We're needed here."

The chaplains explain that their days are filled with building dedications and congressional prayer breakfasts, meetings with visiting foreign delegations and an occasional wedding or funeral.

Ford, who unlike Halverson wears a clerical collar, emphasizes that "a chaplain is on call at all times"—and for all sorts of crises.

For example, says Ford, when House Majority Leader Jim Wright recently had some friends up from Texas, they found themselves short on entertainment.

"They needed an extra harmonica player for a duet [with Wright] to play 'The Saints Go Marching In.' Well, I happen to play harmonica, and I was happy to join."

Most important of all, the chaplains agree, is their responsibility to minister to the steady stream of troubled souls who seek their advice on personal and political matters.

"I could write the most interesting book that will never be written," says Ford, 52, smiling. He says he has counseled representatives considering a run at the Senate and those running from trouble in the House.

His congregants' insecurities and improprieties, will, however, remain confidential.

Journalists "ask about specifics, Abscam and so on—what I said to people then," says Ford. "Those things are sacred, a trust. They can't be told by me or by any minister."

Halverson is equally tight-lipped about naming those who visit his cramped office in the Hart Senate Office Building, saying only that his parishioners fear terribly for their privacy.

"You remember what happened to Sen. [Thomas] Eagleton [D.-Mo.] when he was running for vice president and word got out that he had had therapy," Halverson says. "I don't know that opponents would take advantage of it, but they're all sensitive to that type of thing."

In the 1950s, Halverson had a church in Hollywood that many movie stars attended, so he is especially sensitive to the pressures on "all people who live their lives in glass houses . . . They have a tendency to believe their own publicity—senators just like actors."

Sen. Mark Hatfield (R-Ore.) often consults with Halverson when they attend the weekly Senate prayer breakfast. "There are many times when a concerned, compassionate ear is important," says Hatfield. "I know there are many, especially staffers, who seek out his counsel."

Rep. Ted Weiss (D-N.Y.) praises Ford for being "quite sensitive to the fact that he represents all religions and denominations here."

Weiss, a Jew, says Ford recently sought him out, "somewhat chagrined," after a fundamentalist Christian guest preacher delivered "a particulary strident prayer."

"He wanted to reassure me that the guy might be popular at home, in a parochial setting, but that he could not adjust well to another setting."

The chaplains received strong support from many members during the recent constitutional challenge before the Supreme Court. But the Rev. Robert Drinan, a former representative who is a Jesuit priest and now teaches law at Georgetown University, says "the presence of chaplains is not one of those pressing issues" in Congress.

"I myself don't feel strongly either way," adds Drinan. "I'm not sure it's all that important whether they're there or not."

Like many of their predecessors, Ford and Halverson had high political connections before they were asked to serve Congress. Halverson preached to many legislators at the Fourth Presbyterian Church in Bethesda for 23 years. Ford, a Lutheran, served at the pleasure of the president for 18 years as chaplain at West Point.

They say they have no desire to influence legislation, commenting only when asked and even then with considerable caution.

"I would say right away that I oppose abortion," says Halverson. "But I also believe very strongly that God endowed us with free will and the responsibility for free choice. I am not here to make up [the senators'] minds for them."

A chaplain's prayers, says Halverson, are "directed to God, not to the senators." Yet a careful listener can not help noticing Halverson's efforts to frame worldly matters, such as security leaks, in a broader perspective.

"Lord God," he began one recent offering, "Thou art acquainted with all our ways. For Thee no plans are classified."

Halverson says he keeps in mind one political prayer that failed to enlighten a crucial listener. Preaching in the White House in 1969, while still a minister in Bethesda, he warned Richard Nixon of politicians "who take responsibility so seriously that they think they can do it all themselves, without God."

"That's where I felt, frankly, Richard Nixon was then," says Halverson. "I felt he didn't like it, didn't listen."

Could the whole Watergate coverup have been prevented if Halverson had broken through to Nixon?

The pastor shrugs, then frowns. He says, "I often wish that somehow he had had more humility. It remains a good lesson."

REAGAN BEATS THE PRESS

Mr. BYRD. Mr. President, I ask unanimous consent to have printed in the RECORD an article appearing in the Washington Post dated August 2 by Joseph Kraft entitled "Reagan Beats the Press."

There being no objection, the article was ordered to be printed in the RECORD, as follows:

REAGAN BEATS THE PRESS

(By Joseph Kraft)

"Zero for Reagan and minus six for the press" is the way one former Cabinet officer summed up the televised news conference on Central America last week. That is roughly my own appraisal, but whatever the score, the session provided an illuminating guide to weaknesses in both quarters.

Journalists, being equipped to deal mainly with coherence, cannot come to grips with a leader addicted to romantic fantasy. The result is not good for anybody—even the president.

The occupational weakness of those of us in the news media should be obvious. Despite the recent canonization of anchorpersons, the fact is that we are not scholars or even experts. We cannot, accordingly be original sources of light. We depend, heavily if not entirely, or what other people tell us.

Our professional skill lies in judging sources, and in fitting bits and pieces of evidence into coherent patterns. We know how to listen, and to hear what is not said. Our bent is for sensing and showing contradictions. We are experts in the credibility gap.

The thrust of journalistic probing, limited as it is, engages most presidents where they live. When Richard Nixon told us all the lies during the Watergate days, he showed it by physical signs almost as gross as the lengthening of Pinocchio's nose. Jerry Ford's reluctance to acknowledge he had misunderstood a question about Poland in one of the presidential debates may have cost him the 1976 election. Jimmy Carter diminishes his presidency to this day by preferring consistency to an acknowledgment that at the end of 1979 his administration turned sharply toward toughness in both economic and foreign policy.

But Ronald Reagan is something else. He spent most of his life in the world of makebelieve. He is accustomed to playing parts as though they were the real thing. He works from scripts, and the Gen. Custer script comes as easily to him as the Sitting Bull script.

So he lacks the normal concern of political leaders for consistency, coherence and accuracy. He depends on memory for statistics, and regularly gets them wrong. He cites the record in support of things that never happened.

Last September, for example, he said of abortion: "I think the fact that children have been born even down to the three-month stage and have lived, the record shows, to become normal human beings."

Judy Mann of The Washington Post checked up. As it developed, there was no record of any baby's surviving a birth only 12 or 13 weeks after conception. The minimum period was twice that—26 weeks.

But usually the presidential nonsense is drowned out amid the whir of helicopter blades. Or else explained away by the White House. It is very hard to challenge pleasant fictions without seeming harsh to a public that likes Reagan. So there is a tendency to smile indulgently. Witness the press conference of July 26.

It came after a steady drumbeat of reports of a U.S. military buildup in Central America. So almost all the questions centered around the dangers of war.

Reagan ducked aside by asserting over and over again in various ways that "the United States stands firmly on the side of peace." He kissed off the military presence as "maneuvers of the kind we've been holding regularly and for years." At first glance, that looked awfully clever. The president had sensed in advance the thrust of questioning and shifted his ground. The artillery of the press never touched him.

But a second glance registers a different impression. For it is absurd to think of the military presence being mounted around Central America by this country as routine exercises. Three battle groups built around two aircraft carriers and the battleship New Jersey are involved. That constitutes something like a quarter of the fleet on active station. It probably brings to bear more firepower than was used for such major engagements in the Pacific war as the batte of Iow Jima.

In response to a question, Reagan said: "I don't know the number of ships involved." One has to wonder whether he was told, and, if not, why he didn't ask.

Either way, there is misrepresentation and self-bamboozlement. Reagan thinks—if that is the word—wishfully. He counts hopes as facts. Since he doesn't harbor ill feeling toward minorities, he cannot conceive that the impersonal consequences of his policy do them damage. Since he sympathizes with people who have experienced poverty, he finds it hard to imagine that his economic policies hurt the poor. Since he wants peace, he supposes—like those who blundered in August 1914—there cannot be war.

Nothing catastrophic, to be sure, seems likely to happen in Central America. The administration, under pressure from Congress and the press, is retreating from its harsh stand. But do any of us benefit if the leader of the most important country in the world gives serious people the impression he is out of touch with reality? A mere windbag?

PRESIDENT REAGAN AND HUNGER

Mr. BYRD. Mr. President, Tuesday, the President expressed his bewilderment at press reports that increasing numbers of Americans are going hungry. In an August 2 memorandum to White House Counselor Edwin Meese, the President said:

* * * I have seen reports in the press in past weeks of Americans going hungry. I am deeply concerned by these stories, because I know the suffering that each of these incidents represents. At the same time, I admit to being perplexed by these accounts * * *.

The President announced his decision to organize a task force to "examine the extent of America's hunger problem, to determine its causes, and to recommend specific solutions." It is the President's hope that this task force "will help solve the problem of hunger in America once and for all."

Mr. President, I am also concerned and perplexed. I am concerned about why President Reagan has been so slow to recognize that hunger is a problem in America today, and perplexed by the fact that the President needs a special task force to explain to him the causes of this devastating and shameful problem.

The reasons why hunger is once again a growing problem in America are painfully evident. The dominant economic event of the past 2½ years was a long and deep recession which left many Americans unemployed and in dire financial straits. Though economic recovery has now begun to take hold, many Americans still find themselves being left behind.

In December of 1982, the civilian unemployment rate reached a post-World War II high of 10.8 percent. Though unemployment has declined in recent months, more than 11 million Americans remained unemployed in June of this year. The unemployment rate in my own State of West Virginia now stands at 18.2 percent.

In June, the average duration of unemployment climbed to an alltime record 22 weeks, and the number of persons unemployed for 27 weeks or more rose to 2.95 million.

The number of Americans employed only part time, due to economic reasons, stood at 5.7 million in June.

The number of discouraged workers, those unemployed persons who have discontinued looking for work because they no longer believe they can find employment, stood at 1.7 million in the second quarter of 1983.

Thus far, the economic recovery has failed to improve, to even the slightest degree, the fortunes of millions of Americans. Furthermore, deep cuts by the administration in a variety of Federal assistance programs have seriously diminished the ability of many lower income Americans to secure many of the basic necessities of life, including food.

In 1983, according to the Congressional Budget Office, the tax and benefit changes achieved by the administration during its first 2 years in office will result in a net loss of $310 for the average family earning less than $10,000 a year.

In 1982, according to the General Accounting Office, Federal expenditures for domestic food assistance declined by $590 million, or 3.7 percent—the first such drop since 1969—measured in constant dollars, to offset the effects of inflation, food assistance outlays declined by $1.23 billion, or 7.4 percent.

In 1981 and 1982, according to the Congressional Budget Office, the administration successfully cut food stamp and child nutrition outlays for fiscal years 1982 through 1985 by $12.3 billion, or 16.7 percent.

In 1981, according to the U.S. Department of Agriculture, the administration successfully enacted changes in the food stamp and child nutrition programs which have since resulted in the termination of 800,000 people from the food stamp program, 3 million students from the school lunch program, and 500,000 students from the school breakfast programs.

The reasons why hunger is a growing problem within the United States are not hard to see. At the same time the President was announcing the formation of his task force on hunger, the U.S. Census Bureau was announcing that the number of persons living below the poverty line rose to 15 percent in 1982, the highest level since 1965. Clearly, cutting back on Federal food and nutrition assistance while poverty is climbing higher and higher can only add to the problem of hunger.

Yet, in its fiscal year 1984 budget plan, the administration continued to

attack Federal programs targeting nutrition assistance on low-income Americans. According to the Congressional Budget Office, the President's fiscal year 1984 budget proposals would:

Require the termination of over 600,000 low-income pregnant women, infants, and children from the WIC program.

Cut more than $300 million from Federal child nutrition programs currently targeted on low-income children.

Reduce the food stamp benefits of 4.9 million households, or 63 percent of all households receiving food stamp assistance.

Reduce the food stamp benefits of 80 percent of the poorest households receiving food stamp assistance—those with incomes below half of the poverty line.

Reduce the food stamp benefits of 1 million elderly and handicapped households receiving food stamp assistance by an average of $250.

Since entering office in 1981, the administration has continually worked to reduce Federal food and nutrition assistance. The first thing the President should do if he wants to reduce hunger in America is to rethink his own administration's harsh and shortsighted budget cuts. It should not take a national commission to tell the President what is abundantly clear to nearly everyone else—that his own economic and budgetary policies are in large part responsible for the hunger and misery that today is the lot of too many Americans.

After 2½ years at the helm, it is going to take more from the President than the formation of a task force to solve the problem of hunger in America. It is going to take action. The Nation, and particularly the hungry, are waiting.

Mr. President, I ask unanimous consent to have printed in the RECORD an editorial from the New York Times of today, August 4, 1983, titled "The President's Perplexity."

There being no objection, the editorial was ordered to be printed in the RECORD, as follows:

[From the New York Times, Aug. 4, 1983]

THE PRESIDENT'S PERPLEXITY

That Ronald Reagan is "disturbed" or "saddened" by reports of hunger in the United States should come as no surprise. But why is he, as he puts it, "perplexed"?

It could hardly have come as a shock to him when the Agriculture Department announced recently that two or three million children from eligible poor families are missing out on school lunch benefits. Last year 2,700 schools had to drop out of the school lunch program, most of them forced off by new rules promoted by the White House.

Was Mr. Reagan unaware that just as 1.2 million more people were becoming eligible for food stamps last fall and winter his Office of Management and Budget was figuring out ways to cut the program's funds?

Doesn't he realize that holding the WIC (Women-Infants-Children) program at its present level, with no correction for inflation, deprives millions of needy people of its benefits?

Did he miss the observation of the Congressional Budget Office that recent Administration attempts to reduce erroneous food stamp payments had little to do with accuracy but created much inequity? Didn't he hear mayors from all over the country last spring talking about hunger in their cities—and about how the poorly operated giveaways of cheese, butter and grain were only a small bandage on a big wound?

It shouldn't take a 90-day study to resolve the President's perplexity. The hungry in America have not been hard to find or hear about.

RETIREMENT OF HELEN HOLT

Mr. BYRD. Mr President, I have learned that Helen Holt, a dedicated public servant, a distinguished West Virginian, and my friend, has retired from service in the Federal Government. I would like to take a moment to recognize her and her accomplishments and to offer thanks on behalf of the citizens of West Virginia and of the Nation, whom she has served so well during the past 30 years.

When Helen Holt retired this year from the Department of Housing and Urban Development, she was special adviser for the elderly, serving as principal adviser in the Department on matters pertaining to the elderly. She had been at HUD and FHA since 1960, when she established and directed the FHA section 232 nursing home program. Under her program more than 1,000 modern nursing homes with more than 100,000 beds were established, although the mortgage insurance program did not cost American taxpayers anything. Her program was to a large degree responsible for the marked improvement in standards of our Nation's nursing homes during the 1960's and 1970's. Our Nation moved away from the unsafe, inefficient nursing homes where older people were shut away to modern facilities better suited to humane care of the elderly.

At HUD Helen Holt has helped our Nation meet the housing needs of the elderly, and she has served as an effective advocate for women in Government. Her work at HUD was so successful that her presidential appointment was extended under the last 7 administrations—Eisenhower through Reagan—possibly a record, I think.

Before working at HUD Mrs. Holt had a very distinguished public service career in West Virginia. She served as Secretary of State of West Virginia. She also served as Assistant Commissioner for Public Institutions, and as a member of the West Virginia House of Delegates, representing Lewis County and serving on committees on budget, education, and municipalities.

Helen Holt has a masters of science degree in biology from Northwestern University and has also studied at the University of Missouri, Woods Hole Marine Biological Laboratory, and the University of North Carolina. She has taught college chemistry and biology. She was married to the late Senator Rush D. Holt, an outstanding Member of this body who, as the Senator from West Virginia, was the youngest person ever elected to the U.S. Senate, since 1913.

Mrs. Holt continues to be active in civic affairs. She has served as a member of the Defense Advisory Committee on Women in the Service and as a delegate to a number of boards and advisory councils on housing and aging. She has been district, State, or national president of a variety of organizations, including the AAUW, the Federation of Business and Professional Women's Clubs, the West Virginia State Society, and Executive Women in Government. Helen Holt was selected as Executive Women in Government. Helen Holt was selected as daughter of the year by the West Virginia State Society. (That is a honor similar to one I am proud to have received, Son of the Year of the West Virginia State Society in 1963.) Helen Holt was also selected Potomac B.P.W. Professional Woman of the Year, and the International Women's Year Achievement Award "West Virginia Woman of the Decade." She has raised three children and is a very devoted member of the Board of Trustees of the National Presbyterian Church.

Mr. President, I am sure that you can understand why we West Virginians are proud to claim Helen Holt and why we are very appreciative that she has devoted her talents to public service. She is a very charming and gracious woman who wins friends and admirers wherever she goes. I hope you will join me in wishing her well in her retirement. She will, I am sure, continue to make real contributions to our Nation.

ORDER OF PROCEDURE

Mr. BYRD. Mr. President, the majority leader asked me to put in a quorum upon completion of my remarks, so I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The Assistant Secretary of the Senate proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Mr. President, there are special orders this morning in favor of Senators THURMOND, PROXMIRE, BUMPERS, and WEICKER. I regret to say that I have not been on the

floor at all times. Have any of the special orders been executed?

The PRESIDING OFFICER. None have been executed.

VITIATION OF SPECIAL ORDER FOR SENATOR THURMOND

Mr. BAKER. Mr. President, I am advised now that the distinguished Senator from South Carolina, the President pro tempore, Senator THURMOND, has no further need for his special order. I ask unanimous consent that it be vitiated.

The PRESIDING OFFICER. Without objection, it is so ordered.

ROUTINE MORNING BUSINESS

Mr. BAKER. Mr. President, the next speaker, Senator PROXMIRE, is not yet here. I ask unanimous consent that I may suggest the absence of a quorum without it charging against Senator PROXMIRE's time or any of the special orders.

Mr. BYRD. Will the distinguished majority leader withhold that and allow me 2 or 3 minutes for morning business?

Mr. BAKER. Yes. Mr. President, let me do it this way instead.

Mr. President, I ask unanimous consent that there now be a period for the transaction of routine morning business in which Senators may speak for not more than 5 minutes each and will extend no longer than 11:30 a.m. I further ask unanimous consent that as and when Senators arrive on the floor to claim their special orders they may do so without further action by the Senate and that they may do so in the order previously entered and without the time restriction in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Mr. President, I understand the minority leader wishes to transact morning business. I yield the floor.

Mr. BYRD. Mr. President, I thank the majority leader.

A VISION DEFERRED

Mr. BYRD. Mr. President, I rise today to call the attention of the Senate to an article entitled "A Vision Deferred" in the July 1983 issue of Columbia magazine written by Ceil Cleveland, the magazine's editor in chief. The article is dedicated to highlighting the exemplary life and career of our distinguished colleague Senator CLAIBORNE PELL of Rhode Island. This year, Senator PELL was the recipient of the honorary LL.D. degree from Columbia University at commencement and was the alumni federation's commencement day luncheon speaker. I know all Senators will join me in extending the heartiest of well deserved congratulations to our friend Senator PELL on this notable occasion.

I, myself, have had the good fortune to know and work with CLAIBORNE PELL here in the Senate over the years and have always held his friendship and learned counsel in the highest regard. Therefore, I can personally attest to the article's veracity when it states that "CLAIBORNE PELL commands a position of power and influence enjoyed by few of his Senate colleagues."

As the article indicates, Senator PELL's history in the Senate has been characterized by forward thinking. When CLAIBORNE PELL first won his Senate seat 22 years ago, by garnering the largest plurality in his State's history, he won on the slogan that he was "a forward thinking Democrat." The accuracy of this description is easily demonstrated by the record of his legislative accomplishments. He has authored such diverse and progressive legislation as the 1963 Arts and Humanities Foundation Act (which led to the establishment of the National Endowment for the Arts and for the Humanities), the Grand Transportation Act of 1965 (which led to the creation of the metroliner), the National Sea Grant College and Program Act of 1966, and the legislation creating the basic educational opportunity grants (the famous Pell grants).

Senator PELL, the ranking member of the Senate Committee on Foreign Relations, has said:

I have a seven-word definition of my job and my life: "Translate ideas into events, and help people."

This tall, slim, self-abasing, humble, and quiet gentleman from Rhode Island has certainly done more to assist humanity in the 64 years of his life than many would deem possible. From the time when he was age 22 and went abroad to help Europeans in concentration camps and was twice arrested by the Nazis to the grand accomplishments of his 22 years in the Senate, CLAIBORNE PELL has effectively served mankind. Obvioulsy he is highly deserving of this award from Columbia University and this article in his honor. I congratulate the Senator and his family on this occasion.

I ask unanimous consent that the Columbia magazine article be printed in the RECORD at this point.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From Columbia, July 1983]

A VISION DEFERRED

(By Ceil Cleveland)

On a wall of his outer office in the Russell Senate Building is a poster depicting historic New England structures that reads: "Turn a corner in Rhode Island and you turn back the pages of history." This quaint boast might lead one to think that Senator CLAIBORNE PELL of Rhode Island lives more in the past than in the present or future. Yet Senator PELL, whose work is rooted in "the lessons of history," calls himself "a forward thinking Democrat." He ran on that slogan twenty-two years ago, when he captured the seat of retiring Senator Theodore Francis Green by the largest plurality in the state's history.

Since that time, PELL's own history in the Senate has been characterized by forward thinking. As an early spokesman against the war in Vietnam, he was called "New England's leading dove," and his position today as a quietly persistent antiwar leader was most recently evidenced in his strong support of a mutual nuclear arms freeze and weapons reduction agreement with the Soviet Union. In late March, the sixty-four-year-old Senator faced an audience in his home state with these words: "The Reagan 'zero option' is like a heads-we-win, tails-you-lose proposal to the Soviets. Our first priority must be to stop weapons productions." If we do not, he said, "it is more than likely that we will have a nuclear exchange in my lifetime."

In the years between his warnings to those who would "exceed an advisory capacity in Vietnam" and his recent statements about the current administration's "dangerous" proposals to the Soviets, Senator PELL has perhaps originated more forward-thinking legislation than has anyone else in the Senate, and in diverse areas—the use of seabeds, support for the arts and humanities and to Vietnamese refugees, rail transportation, and aid for disadvantaged students.

Perhaps those in academic circles know Senator PELL best as the author of the Basic Educational Opportunity Grants (B.E.O.G.) that now bear his name. He was chairman of the Senate Labor and Human Resources Subcommittee on Education and the original sponsor of the grants, which were signed into law in 1972. In the early 80's, the Pell grants ran up against the Reagan Administration's campaign to cap federal funds for college students. After a battle that matched university administrators, parents, and students against the Administration, a new compromise has apparently been reached in the so-called "self-help" proposal. The net result, says PELL's assistant, David Evans, will be to benefit a few students in low-cost institutions, but those in institutions such as Columbia will suffer. In Senator PELL's view, "the very poor youngsters will have a little more money, but those in the lower and middle-income groups will have less."

In an address to the Alumni Federation, Commencement Day, 1983, PELL noted that at the end of the last decade he had stressed that "we would soon be able to turn from a fulfilled promise of educational opportunity for all Americans to attaining an education of excellence for all. That was more than three years before the National Commission on Excellence in Education even existed, let alone issued its very somber report on the present state of American education. Ironically, the fact that my vision of excellence now has been deferred is a direct consequence of the shift in our national priorities away from education toward defense."

In his office in the Capitol, which, like his office in the Senate building, is decorated with hundreds of photographs and sketches—many of which feature his four children and four grandchildren—Senator Pell says he became interested in the funding of education while studying at Columbia for the Master of Arts degree he received in 1945, "finishing it with the G.I. Bill." He qualified for the bill because he had joined the Coast Guard four months before the

attack on Pearl Harbor, beginning his military service as a ship's cook.

The Pell family's connection with Columbia goes back to the days of King's College: A stained glass window in the cupola of St. Paul's Chapel bearing the family coat of arms (*Deus Amici Et Nos*) is a gift to the memory of Philip Pell, Class of 1770. "Our Tory origins have eroded a bit with the passage of time," Pell told the Columbia alumni group.

Senator Pell was born in New York City into a socially prominent Newport family with a distinguished record of public service. His father, Herbert C. Pell, who also attended Columbia and lectured here, was a congressman, Democratic state chairman, and minister to Hungary and Portugal. Forebears include five members of the Senate or House and James Knox Polk's vice president, George Mifflin Dallas. A Thomas Sully portrait of Dallas hangs over a leather couch in the senator's Capitol office.

The Pell family "has been here forever," says the senator, and "at the time of the Revolution there were Pells on both sides." It was Thomas Pell's marriage to the daughter of an Indian chief that led to the family's holding title to Pelham and New Rochelle, their estate, "from both the British and Indian sides," says Pell. The family sold New Rochelle to the Huguenots, but kept Pelham Manor. Fort Ticonderoga, in upstate New York, was purchased from Columbia College and Union College and University in Schenectedy in 1820 by William Ferris Pell.

Senator Pell says he came to politics because "I always wanted to work in a service occupation—maybe as a professor, a publisher, an editor, a clergyman. I was a diplomat [he was with the U.S. embassy in Czechoslovakia in 1946–47, establishing the U.S. Consulate General in Bratislava and was later vice consul in Genoa in 1949], and it seemed a natural progression to politics."

At age twenty-two, Pell went abroad to help Europeans who had been in concentration camps (he was twice arrested by the Nazis) and was sent by the Portuguese Red Cross across France and Spain in an ambulance loaded with packages for prisoners of war. An article he wrote about that experience in 1941 shows his attention to detail and his concrete narrative style. He noted that French townspeople were "frankly anti-German" but that those in rural areas "conceived by accident, raised in ignorance, and dying in poverty . . . were self-sufficient and did not care who ruled France as long as they ruled their barnyards." In Spain, "every man in the north . . . hungry and discontented, carries a gun across his shoulders as casually as a New York worker wears a wrist watch." (The Pell family, it appears, has contributed to the development of our language as well as our culture. Senator Pell's great-grand-uncle Pierre Lorillard, who lived in Tuxedo Park, in Orange County, New York, in the late 1880s, is said to have originated the custom of changing from a tailcoat to a smoking jacket after dinner; thus the term "tuxedo" came to be applied to a jacket less formal than a tailcoat. Another forebear, John Pell, a seventeenth-century mathematician, brought the division sign [÷] into our mathematics vocabulary.)

Since December 1944, Pell 1has been married to Nuala O'Donnell, great-granddaughter of the founder of the Great Atlantic and Pacific Tea Company. Both Pells speak French and perfected their Italian during a Foreign Service tour of Italy; he knows Portuguese as well.

The day after winning the Democratic primary in Rhode Island. PELL, then forty-one, was described by The New York Times as "slightly over six feet tall, slim, with wavy dark brown hair, and might be mistaken for a screen actor after the pattern of Henry Fonda." Twenty-two years later, the senator stands just as tall, is slim, has wavy hair now entirely white (photographs show that he once has a white mustache), and might be mistaken for a screen actor of the patrician type. His trimness at age sixty-four may be partially attributed to his daily jogging. On his wall is a clipping attesting that he ran second in the senior division of the 6.2-mile race in Providence in 1980, in which seven hundred runners competed.

The Pells, who live in a Colonial mansion in Georgetown and at "Pelican Ledge" in Newport, play tennis and sail (his campaigning is done both door-to-door and boat-to-boat), and PELL claims that he is "probably the only senator licensed to operate a motorcycle."

The senator is the author of three books and is honorary vice president of the American Bible Society, and he routinely presents a Bible to each new president. When he proffered it to Jimmy Carter, the President thanked him politely but added, "I've already read it." Senator PELL, also a reader, has a preference for history and government, and his offices are crammed with books. He is also a talented writer (he was once vice president of the North American Newspaper Alliance, Inc.), and his "Power and Policy: America's Role in World Affairs" (W. W. Norton, 1972), is a thoroughly readable and balanced book. "To the student of diplomacy," he writes, "nothing seems clearer than this: Every nation's foreign policy should be based on that nation's true interests, to the inclusion of sentiment, nostalgia, or evangelical fervor."

PELL goes on to say that "if the first lesson of history is that foreign policy should be—but often is not—based on true and ever-changing national interests, the second important lesson is this: Wars, big or little, are at least as natural to man as peace, but they are not inevitable." Conflicts between nations can be cooled down, he says, but historical examples are difficult to trace because these are the "wars that never were." One instance in our own history is the "series of peaceful settlements with England of disputes over the American northeastern frontier following the War of 1812. Ill feeling and a long series of crises continued between the two countries for decades after the war, but renewed warfare was successfully avoided until ulimately arbitration became a habit."

A third major lesson of diplomatic history "is that international agreements are honored only so long as each participant considers it in his national interests to do so; in other words, so long as the costs of violating the agreement exceed whatever benefits might be expected from the violation." In accord with his own knowledge of diplomatic history is PELL's position on a mutual nuclear freeze and weapons reduction agreement with the Soviet Union: "People don't like to talk about a nuclear exchange, but it's clear that the Soviets aren't interested in being incinerated either."

The breadth of Senator PELL's interest and skills has undoubtedly contributed to the diversity of the legislation he has introduced. Some examples: He was the author of the National Sea Grant College and Program Act of 1966 "to enable us to develop the oceans in the same way the Land Grant College Act of 1865 developed American agriculture." He was the original force behind federal legislation to crack down on the combination of moving vehicle and alcohol, and his set of tough drunk-driving measures was signed into law last year. He was chiefly responsible for the Grand Transportation Act of 1965, which brought about a dramatic improvement in passenger rail transportation in the Northeast Corridor from Boston to Washington; upgrading of the roadbed and tracks made possible smoother, faster rides, and the act led to the creation of the Metroliner. PELL says he would still like "to vacuum people out of the sky and off the highways" and make the subway system a model of high-speed transportation. His book "Megalopolis Unbound" (1966), an account of his one-man crusade, was described by New York Times book reviewer Clive Entwistle as "a demonstration of what one determined and far-sighted senator can do for his contemporaries, for future generations, and for himself."

Another proof of Senator PELL's farsightedness is his having introduced the 1963 Arts and Humanities Foundation Act, which led to the establishment of the National Endowment for the Arts (NEA) and for the Humanities (NEH). Reflecting on that act in 1979, PELL told a Washington Star reporter that he had lost voter support by becoming identified with the arts and by participating in a much-publicized conflict with Ronald Berman, chairman of NEH, in 1976. The way to the voters' hearts in the sixties, he had found, was not through the arts: "Arts were not respectable. People didn't want their children to be artists. If I'd been interested in my political betterment, I would never have gone into the arts, because I got more political hassle and drawbacks . . . than benefit from it." Today, however, PELL says he is still committed to the arts, no matter how politically unpopular they are, and still believes in "grassroots participation" in the "enriching process and products of humanistic studies." He says he is " the only member of Congress still surviving who put through the Arts and Humanities act and the bill to create an Institute for Museum Services." He has also cosponsored a bill proposing a National Art Bank through which the government would purchase works of living American artists and lend them to federal buildings all over the country.

Had Senator PELL been interested only in his own political betterment, he would not have spoken out for racial integration in the schools in an election year when racial violence was erupting in three integrated Rhode Island high schools. But although his position on equality in education hurt him in an industrial, heavily democratic state rapidly swinging toward the right, he was reelected to a third term in the Senate—and then to a fourth in 1978.

The Senator has said, "I have a seven-word definition of my job and of my life: 'Translate ideas into events, and help people.'" In a speech to the Senate in 1971, PELL condemned anti-Semitism in the Soviet Union: "Our common conscience still bears the scars of our silence in the nineteen-thirties; history must not record that in the nineteen-seventies we again closed our eyes and our hearts to the persecution of the Jewish people." Three years later he spoke out for détente with the Soviet Union: "I am under no illusions as to any sun and light behind the Iron Curtain. But at least people there are alive and leading reasonably normal lives. It is not the scorched area

it could be in a World War Three." PELL's regard for the world's people is epitomized in the motto on his office wall, attributed to George Washington: "To bigotry no sanction! To persecution no assistance!"

An extension of this regard is his concern for the environment. As early as 1967, he called for international control of the oceans and the prohibiting of weapons placement in the ocean floor, a resolution incorporated into the 1972 Seabeds Arms Control Treaty, which was signed by eighty-seven nations. In 1973 he introduced a bill opposing the potential military use of environmental modification "from simple rainmaking to possible earthquake stimulating, steering of ocean currents, or tidal wave stimulating." He deplores "tampering with natural forces," including the cloud-seeding used to alter rainfall in Southeast Asia; he calls this "weather warfare."

Senator PELL does not want to see weapons systems in outer space. Four years ago he proposed that no country, or body within a country, undertake any major project that could have an adverse effect on the environment of another nation or global common area without having first filed an international environment assessment with the United Nations. The need for an international environment treaty is based says PELL, "on my expectation that science and technology are going to be increasingly looked to for solutions to the problems of meeting the food, energy, resource, and transportation needs of a rapidly growing world population. I am concerned, however, that any misconceived or badly controlled application of technology could have far-reaching and often uncertain effects on many parts of the world."

PELL considers the United Nations Conference on the Law of the Sea (1976), involving some one hundred and forty nations and dealing with issues affecting more than two-thirds of the earth's surface, the "most important multilateral negotiation since the San Francisco Conference in 1945, which drew up the United Nations Charter."

The ranking minority member of the Committee on Foreign Relations, PELL says that today "arms negotiations dwarf every other problem. If we are not successful there, it doesn't matter whether we have or do not have a depression." Of President Reagan, he says: "He is an honest man; he believes what he says. But he is a realist and has shown a willingness to compromise—the mark of a sensible course. I hope he will change course on this issue, or it will lead to disaster."

He told the Senate in January 1982, "All of us passengers on Planet Earth have an equal interest in seeking to prevent a nuclear exchange."

CLAIBORNE PELL commands a position of power and influence enjoyed by few of his Senate colleagues. Much of his legislation has benefitted higher education, transportation, the arts and humanities, and the uses of our environment. It is an interesting measure of the man's far-sightedness that although many of his proposals are considered controversial when he presents them, they are often—sometimes years later—adopted as policy; his "forward thinking" frequently enables him to anticipate the moods of various segments of society.

After his first election, PELL was quoted in the Congressional Quarterly Almanac (1960) as saying, "This is the type of life, the type of work, I've always had in the back of my mind since I was twenty." Nearly a quarter of a century later he maintains that, although his vision of educational excellence has been deferred, he will continue working to preserve the history and to ensure the survival of all of us passengers on Planet Earth.

(Senator PELL was awarded the honorary LL.D. degree from Columbia University at commencement, May 17, 1983, and was the Alumni Federation's Commencement Day Luncheon speaker. A graduate of Princeton (B.A., cum laude, 1940), he received the M.A. degree in international administration from Columbia in 1946.)

(Mrs. HAWKINS assumed the chair.)

THE CONTADORA PROCESS

Mr. ROBERT C. BYRD. Madam President, at this Tuesday's conference luncheon the Senate Democratic Conference, which is the conference of all Democratic Senators, adopted the following resolution without dissent:

The Senate Democratic Conference hereby endorses the Contadora process, for which President Reagan expressed "strong support" in his letter of July 26, 1983, to the President of Panama.

Members of this side of the aisle support and encouraged the peace initiative which have been undertaken by Panama, Colombia, Mexico, and Venezuela. The resolution we passed is a formal expression of that support.

Last week, the distinguished ranking minority members of the Senate Foreign Relations Committee, Senator CLAIBORNE PELL, authored a thoughful opinion piece in the Los Angeles Times which also commended the attempt to achieve a peaceful settlement in Central America undertaken by the Contadora Group.

I ask unanimous consent that the entire text of Senator PELL's op-ed piece be printed in the RECORD at this point.

There being no objection, the text was ordered to be printed in the RECORD, as follows:

THERE IS A WAY OFF "THE SLIPPERY SLOPE"—LATIN AMERICA CRISIS NEEDS CONCILIATORY GESTURES ON BOTH SIDES

(By Claiborne Pell)

President Reagan's press conference Tuesday exposed a basis contradiction in his Administration's policy toward Central America that, if not corrected, will lead to the Americanization of the conflict in that area.

On the one hand, the President supported the mediation efforts of the so-called Contadora group (the governments of Mexico, Colombia, Venezuela and Panama), and said that he was "encouraged by some recent statements from Nicaragua and Cuba that seem to indicate that they, too, now recognize the merit to regional negotiations."

On the other hand, he defended the dangerous course of gunboat diplomacy on which he has embarked, and he refused to rule out the use of U.S. troops against Nicaragua.

Despite his rhetoric in support of a negotiated solution to the turmoil in Central America, the President's actions in dispatching ships and troops to the area suggest that in fact he has opted for a policy of military intimidation instead of diplomatic conciliation.

His show of military force can only be interpreted as a repudiation of the Contadora group's most recent proposal for negotiations and a dismissal of Nicaragua's willingness, for the first time, to engage in multilateral negotiations that would include discussion of arms flows to Salvadoran rebels. Two consequences harmful to U.S. interests are possible.

First of all, I fear that the Contadora group may quietly withdraw from the scene. And Nicaraguan hard-liners, sensitive to the thought of negotiating under the shadow of U.S. guns, may force a retraction of the Sandinista government's offer. Reviving the possibility of negotiations under those circumstances would be difficult, if not impossible.

Second, I fear that the presence of U.S. ships and 4,000 U.S. troops in Honduras could serve as a protective cover for a serious attempt, by forces sympathetic to the former Somoza regime, to overthrow the Sandinista government. And one misstep at sea or on land could lead to direct involvement of U.S. forces in a conflict in which the American people clearly want no part.

Even if these dire consequences do not occur, the Administration's show of force is unlikely to achieve anything except to raise questions about what the next U.S. military move will be and how long our friends in the region will tolerate such action.

However, it is one thing to criticize what the Administration is doing. It is quite another to present credible alternatives. So what is to be done?

Most immediately, the Administration should scale down the size of the planned exercises to conform more nearly to those that have taken place in the area since 1965. This should be the prelude for a test of the sincerity of Nicaragua and Cuba: an invitation to participate in a conference under the auspices of the Contadora group.

If this effort fails, the question of Nicaraguan transgressions and the appropriate regional response should be placed before the Organization of American States. That is what was done quite successfully during the Cuban missile crisis of 1962. We only court the enmity of our neighbors in the hemisphere by going it alone.

Similarly, in El Salvador, we should be fostering a totally unconditional dialogue between the government and the guerrillas—a dialogue not restricted to the question of participation in elections. In view of past U.S. actions to overthrow democratically elected Marxist governments in Chile and Guatemala, it would not be unreasonable for the guerrillas to want to talk about more than the details of elections.

In the longer term, we must face up to the fact that the basic security problems in Central America—and in all Latin America for that matter—are primarily economic, social and political, not military. Furthermore, these problems are indigenous to each country in the area, and are not imposed from outside. Even the most diehard opponents of the Castro and Sandinista regimes cannot deny that they were internally nurtured responses to domestic problems.

The solutions to the region's problems are, logically, economic and social development, serious attention to human rights and political dialogue—including the resumption of formal diplomatic relations between the United States and Cuba. Even where there is external support for insurgency, as in El Salvador, the underlying problems are do-

mestic, and no amount of military aid or advisers can remove the problems on which the insurgents feed.

The Administration's Caribbean Basin Initiative and the Kissinger commission are welcome, although belated, responses to these problems. But the depth of commitment to the approaches implied in these initiatives is called into question by the Administration's preference for saber-rattling.

The need to shift the focus of U.S. policy in Central America does not mean that we should be blind to the external forces that are exploiting the misery and repression in the area for their own ends. There is a need, as the President has said, to provide a "shield of democracy."

But, as with Vietnam, the American people will not bear the burden for such a shield if the threat to democracy is exaggerated and it alternatives to military action have not been seriously pursued.

Mr. BYRD. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The Assistant Secretary of the Senate proceeded to call the roll.

Mr. BUMPERS. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECOGNITION OF SENATOR BUMPERS

The PRESIDING OFFICER. Under the previous order, the Senator from Arkansas (Mr. BUMPERS) is recognized for not to exceed 15 minutes.

S. 1766—AMENDING THE JUDICIAL REVIEW PROVISIONS OF THE ADMINISTRATIVE PROCEDURE ACT

Mr. BUMPERS. Madam President, I am today introducing a bill to amend the judicial review provisions of the Administrative Procedure Act. I hope this measure, which has come to be generally known as the Bumpers amendment will have the support of every Member of the Senate. I can make that broad assertion, Madam President, because essentially this same bill, which embodies ideas I have worked for since 1975, was passed unanimously by the Senate just last year. And I am proud to say that I am joined by Senators QUAYLE, NUNN, HEFLIN, DECONCINI, SIMPSON, and GRASSLEY in offering this bill. Last year this body approved my judicial review amendments as section 5 of S. 1080. That bill, which was our major effort at regulatory reform last Congress, unfortunately never saw action in the House. The need for regulatory reform, however, has not diminished. It has, in fact, increased greatly.

Now is an especially appropriate time to consider the Bumpers amendment. I say this because of the great concern which has been expressed in both the House and the Senate over the impact of the Supreme Court's recent decision in Immigration and Naturalization Service against Chadha, holding unconstitutional the so-called legislative veto. Whatever one thinks about the merits of that decision and the legislative veto—and I admit to always having been a critic of the legislative veto—the fact is that it had become an established part of the system of checks and balances over the exercise of power by the Federal bureaucracy. Unless we substitute other controls the removal of congressional review over rulemaking by the unelected agency chiefs will only increase the potential for the abuse of executive power by countless, nameless, faceless administrators whose decisions have such a tremendous impact on the lives of all Americans.

A great variety of legislative responses to the Chadha decision has been suggested, and more will undoubtedly be forthcoming. In my judgment, however, no one thus far has offered a comprehensive answer, one which will adequately guarantee that the vast Federal bureaucracy is held accountable for its decisions. I have concluded, therefore, that this is an especially appropriate and important time to enact an amendment to the Administrative Procedure Act, that basic law which governs procedures in all Federal agencies, which will increase the degree of scrutiny which is applied to agency decisions when they are reviewed in the Federal courts.

POLICY

The rationale for this bill is readily understandable and basic. It is a basic constitutional rule that in our representative democracy, the legislative power shall be exercised by elected representatives and not by unelected bureaucrats who are not responsible to the electorate. The delegation doctrine—that constitutional doctrine which permits us in Congress to delegate to agencies the power to make rules necessary to carry out the legislative mandate—presumes that there will be methods for controlling this delegated power. Indeed, without such control the agencies would be the judges of their own actions. The fox in the henhouse. Such a result is contrary to the principle set out by Mr. Justice Reed in Social Security Board against Nierotko: "An agency may not finally determine the limits of its statutory power. That is a judicial function." 327 U.S. 358, 369 (1946).

This bill will strengthen the Administrative Procedure Act's intended protection against regulatory actions which are arbitrary and capricious, and it will do this in four important ways. First, in agency actions known as informal rulemaking, this law will require that the facts which all the reason for the rule be shown to have substantial support in the agency's rulemaking file. Second, the opening words of section 706 state: "The reviewing court shall independently decide all relevant questions of law." The addition of this one word, "independently," will significantly change existing law to insure that individuals stand on equal footing with the regulators when challenging them in court.

Third, the burden will be placed on the agency in litigation to show that the actions it has taken are within the scope of the jurisdiction and authority specifically delegated to the agency by the statutes which created the agency. That is to say, the courts will no longer be able to indulge in the presumption that, "if the agency did it, it must be within its power." Instead, the agency will have to affirmatively show that it was authorized by Congress to act in a particular case and to take the actions which it took.

The court will have to be satisfied that the particular area is one where the language of the act shows clearly that Congress intended action by the agency, or, if the language is ambiguous, then the agency action must be based on other verifiable legislative intent.

Fourth and finally, and vitally, the courts are to accord no presumption in favor of or against an agency's interpretation of the law. Again, the court, not the agency, should be the ultimate interpreter of the law, and the Bumpers amendment makes this clear.

This last provision is intended to correct what I have long seen as an anomaly in the law. I have always thought it peculiar that the courts have so often stated that they will, on a close question, defer to an agency's expertise on questions of law. I say this is an anomaly because I take seriously Chief Justice Marshall's famous statement in Marbury against Madison that, "It is emphatically the province and duty of the judicial department to say what the law is." It seems to me that the Federal courts have abdicated this duty when they defer to an agency's interpretation of the law which the agency is charged with enforcing. It is the courts, not the agencies, which are charged under the Constitution with the duty to resolve legal questions necessary to the decision of cases before them. I do not doubt that the regulatory agencies are entitled to some degree of respect on questions of fact and policy in their respective areas of responsibility. But the present judicial doctrine of deference to administrative bureaucrats on questions of law goes a long way toward the evil of which Bishop Hoadly warned in his sermon before the King on March 13, 1717:

> Whoever hath an absolute to interpret any written or spoken laws, it is he who is truly the lawgiver, to all intents and purposes, and not the person who first spoke or wrote them.

I urge the Senate to act expeditiously to enact this important reform into law.

LEGAL ANALYSIS OF THE BUMPERS AMENDMENT

One primary mechanism for control of agency discretion is the requirement that when the legislature delegates power, it must establish an "intelligible principle" to govern the delegation, and that the judiciary will hold invalid actions which are not authorized by the statutory delegation. Indeed, a number of recent opinions by members of the Supreme Court have underscored that need by emphasizing that absent clear Congressional guidelines as to the limits of delegated power and clear Congressional guidelines as to how, once delegated, the power is to be used, the purported grant may be unconstitutional. For example, *Industrial Union Dep't., AFL-CIO* v. *American Petroleum Inst.*, 448 U.S. 607, , (1980) (Rehnquist, J. concurring) (concluding that § 6(b)(5) of the Occupational Safety and Health Act violates "the doctrine against uncanalized delegations of legislative power"); *American Textile Manufacturers Institute, Inc.* v. *Donovan*, 49 U.S.L.W. 4729, , (U.S. June 16, 1981) (Rehnquist, J., dissenting). Moreover, once Congress has done its duty by establishing such principles, the courts must do their duty by holding invalid actions which are not authorized by that statutory delegation. In the words of Mr. Justice Reed, "An agency may not finally determine the limits of its statutory power. That is a judicial function" *Social Security Board* v. *Nierotko*, 327 U.S. 358, 369 (1946).

It is appropriate for Congress to underscore this principle that the courts, and not agencies, make the final decisions as to the extent of agency jurisdiction or authority. Moreover, other experiences with judicial review during the past decade demonstrate the need for additional Congressional guidance to the courts on other aspects of the review of agency rules. In certain cases, the courts have given undue deference to agency interpretations of Congressional intent in construing statutory provisions or terms. This judicially created doctrine of deference, which in certain instances is applied as virtual presumption of correctness of all interpretations of law by an agency, imposes unfair burdens on citizens in appeals of agency rules and undermines the proper role of the courts. This amendment disapproves of this doctrine. The courts should not presume that the agencies are correct in their interpretations of the law, whether derived from the Constitution, the organic statutes and implementing regulations, procedural statutes, such as the Administrative Procedure Act, or Federal common law where it exists.

The first change made by subsection 5(b) is the insertion of the word "independently" in the introductory sentence of section 706 of title 5, United States Code ("the reviewing court shall independently decide all relevant questions of law, interpret constitutional and statutory provisions, and determine the meaning or applicability of the terms of an agency action"). This modification applies to all the duties of a reviewing court set out in that sentence and is intended to reemphasize the primary role of the courts in interpreting all sources of law involved in the review of agency rules.

The addition of a new clause (F) to section 706(a)(2) provides a separate, clarified standard for review of certain factual determinations in informal rulemakings. Relying on the analysis in Recommendation 74-4 of the Administrative Conference, 1 C.F.R. § 305.74-4 (1980), clasue 2(F) requires substantial support for factual determinations in informal rulemaking when (1) the determination of fact is necessary to the rule, (that is, where the rule would fail to satisfy the "arbitrary, capricious, [or] an abuse of discretion" criterion or where the rule would be in excess of the agency's authority, absent such a finding of fact), or (2) the finding of fact is an "asserted" basis for the rule, (that is, where the agency relies on the finding as part of its rationale for the policy choice reflected in the rule).

Under clause 2(F) the "substantial support" must be found in "the rule making file, viewed as a whole." Section 706 in its present form does not specifically prescribe the standard of review for factual issues raised in review of rules promulgated under section 553 procedures. Courts have thus had to apply the "arbitrary, capricious, [or] an abuse of discretion" test to these factual issues. Many have looked for analogy to the "substantial evidence" standard now applicable to review of rulemakings "on the record" and have formulated an equivalent standard requiring a court to take a "hard look" at agency factual determination. Other courts have reviewed factual issues in a variety of ways, none easily defined.

The "substantial support" criterion is based on the precedents of judicial review provisions in recent enabling statutes that follow the logic of the "hard look" line of cases. For example, Toxic Substances Control Act, 15 U.S.C. § 2618(c)(B)(i); Federal Trade Commission Act, as amended, 15 U.S.C. § 57a(e)(3)(A). The courts, in applying this standard should essentially follow the criteria discussed by the Supreme Court in *Universal Camera Corp.* v. *NLRB*, 340 U.S. 471, 487-88 (1951) and *Consolvo* v. *FMC*, 383 U.S. 607, 619-20 (1966). Later circuit cases such as *Greater Boston Television Corp.* v. *FCC*, 444 F.2d 841, 851 (D.C. Cir. 1970) characterize the Court's role as making certain that the agency took a "hard look" at the salient problems and "genuinely engaged in reasoned decisions-making." Others, citing the Supreme Court's decision in *Citizens to Preserve Overton Park, Inc.* v. *Volpe*, 401 U.S. 402 (1971), have held that "the grounds upon which the agency acted must be clearly disclosed in, and substantiated by the record." *Appalachian Power Co.* v. *Train*, 545 F.2d 1351, 1356 (4th Cir. 1976). See *Sierra Club* v. *Costle*, No. 79-1565 (D.C. Cir. April 29, 1981) ("If the agency's decision is not based on substantial evidence it will be held to be arbitrary and capricious." *Id.* slip op. at 32 n. 67.). The words "substantial support" are also intended to require that the data or materials in the record on which the agency based its factual determinations must be reliable and credible even though they do not necessarily satisfy the rules of evidence applied in judicial proceedings.

Earlier versions of this amendment used the words "substantial evidence" rather than "substantial support" in clause (2)(F). The change in language here is meant to negate any implication that the intent of these amendments is to require indirectly the use of trial-type procedures in informal rulemaking. Procedural requirements for informal rulemaking will be found in other provisions of the A.P.A., such as in our amendments to section 553, and in constitutional and common law considerations of fairness. It is not intended that the words "substantial support" imply that agencies must use procedures beyond those required by law elsewhere.

Finally, "substantial support" standard in new clause (2)(F) recognizes that there is a distinction between an exercise of discretion (policy choice) by the agency, which remains subject to the "arbitrary, capricious, [or] an abuse of discretion" standard of clause 2(A), and the factual foundation for such a choice.

The final change of subsection 5(b) adds a new subsection (c) to section 706 of title 5, United States Code. The first sentence of new subsection (c) of section 706 directs the courts to play a more active role in policing regulatory power by closely construing statutes which transfer regulatory authority to administrators. The Supreme Court has followed this approach in recent decisions. *FCC* v. *Midwest Video Corp.*, 440 U.S. 689 (1979); *NLRB* v. *Catholic Bishops of Chicago*, 440 U.S. 490 (1979). See also *Kent* v. *Dulles*, 357 U.S. 116 (1958); *National Cable Television Assn. Inc.* v. *United States*, 415 U.S. 336 (1974); Schwartz, Administrative Law cases during 1979, 32 Ad. L. Rev. 441, 413-415 (1980).

Thus, subsection (c) emphasizes the responsibility of reviewing courts to

make sure that agencies do not exceed the jurisdiction or authority conferred on them by statute. Many people, in the Congress and in the public at large, believe that when Federal regulators seek to intrude into areas not contemplated by the authorizing statute, reviewing courts are too lenient in judging whether an agency has imposed an unauthorized regulatory burden on the citizen. Courts already vigorously and carefully discharging their responsibility may not have to alter their practice. In this respect, subsection (c) embodies a legislative solution similar to that employed by the Congress when it enacted the Administrative Procedure Act and the Taft-Hartley Act in 1946 and 1947. That story is recounted in Justice Frankfurter's opinion for the Court in *Universal Camera Corp.* v. *National Labor Relations Board,* 340 U.S. 474 (1951). The following conclusion reached by the Court in that case is equally applicable to this subsection:

[E]nactment of these statutes does not require every Court of Appeals to alter its practice. Some—perhaps a majority—have always applied the attitude reflected in this legislation. To explore whether a particular court should or should not alter its practice would only divert attention from the application of the standard now prescribed to a futile inquiry into the nature of the test formerly used by a particular court.

Under subsection (c), a court must determine that the agency's authority to act has been granted expressly in the organic statute or, in the event of ambiguity, by reference to the statute's legislative history or other contemporary materials relevant to ascertaining legislative intent. This provision is intended to underscore the duty of the courts to insure that agencies do not transcend the boundaries of the authority delegated by Congress. Indeed, for a court to allow an agency to go beyond these boundaries would be "an unwarranted judicial intrusion upon the legislative sphere wholly at odds with the democratic processes of lawmaking contemplated by the Constitution." *Lubrizol Corp.* v. *EPA,* 562 F.2d 607, 620 (D.C. Cir. 1977). See *City of Palestine* v. *United States,* 559 F.2d 408, 414 (5th Cir. 1977); *National Nutritional Foods Ass'n* v. *Matthews,* 557 F.2d 325, 326, (2d Cir. 1976).

Since by its terms, new subsection (c) of section 706 is applicable only to "determinations concerning statutory jurisdiction or authority under clause (2)(C)" of section 706(a), it does not govern review of agency action that allegedly violates other clauses of section 706(a)(2). Thus, for example, an agency's failure to comply with its own regulations might not be "in accordance with law", but would not be in excess of the agency's statutory jurisdiction or authority within the meaning of subsection (c). Likewise, review of agency action which allegedly violates the clause (B) language "contrary to constitutional right," the clause (C) language "short of statutory right," or the clause (D) language "without observance of procedure required by law" would not be subject to the requirements of subsection (c).

In the broadest sense, of course, an agency many be said to exceed its "jurisdiction or authority" whenever it acts improperly. As already noted, those words are not used in the expansive sense in this legislation. "Jurisdiction" is to be given its conventional meaning of the capacity or power to act concerning a subject matter, area of activity or class of persons or firms. E.g., *N.L.R.B.* v. *The Catholic Bishop of Chicago,* 440 U.S. 490 (1979).

The word "authority" is sometimes regarded as synonym for "jurisdiction". As used in subsection (c), however, it has a broader significance. When an agency's action is alleged to be in excess of its statutory authority, the issue will be the meaning of the statute, which is a judicial question to be decided by the court. Subsection (c) directs the court to make sure that the agency's assertion of authority is supported by the language of the statute or other evidence of ascertainable legislative intent. E.g. *F.C.C.* v. *National Citizens Committee for Broadcasting,* 436 U.S. 775 (1978). In that case, the FCC issued regulations prohibiting common ownership of broadcast stations and daily newspapers in the same market. In the terminology of subsection (c), issuance of the regulation would be within the FCC's "jurisdiction"—over broadcast licensees, and the question for decision on review, as the Supreme Court stated at the outset of its opinion, would be "whether these regulations . . . exceed the Commission's authority under the Communications Act," id. at 779, thus triggering the provisions of subsection (c). On the other hand, if the Commission has concluded that the Communications Act did not authorize it to take into account a licensee's ownership of other media facilities, subsection (c) would not be applicable, because in such a case the consequence of the Commission's conclusion would be a lessening rather than an increase of regulation. In such a situation, those contending that the Commission was required to take into account the factor of ownership of other media would in effect be arguing that the Commission's failure to do so was, in the words of clause (C), "short of statutory right." But agency action short of statutory rights is not subject to the requirements the first sentence of subsection (c), because by its specific terms the sentence applies only to a determination concerning jurisdiction or authority. Action allegedly short of statutory right, of course, would be subject to judicial review pursuant to section 706(a)(2)(C).

The phrase, "in the event of ambiguity," reflects recognition that if a court looks only at the words of a statute, there may be ambiguity concerning the agency's jurisdiciton or authority not only because the statute may be couched in broad terms, but also because a literal interpretation of the relevant statutory provision would produce an anomalous result. In *United Housing Federation, Inc.* v. *Forman,* 421 U.S. 837 (1975), for example, the lower court held that shares of stock in a cooperative housing project were securities. The Supreme Court reversed, rejecting the "literal approach" that "the sale of shares called 'stock' must be considered a security transaction simply because the statutory definition of a security includes the words 'and . . . stock'." [Id. at 848. The Court said that it was "guided by a traditional canon of statutory construction: "[A] thing may be within the letter of the statute and yet not within the statute, because not within its spirit, nor within the intention of its makers." Id, at 849. Thus while courts may resort to the statute as a whole and its legislative history to ascertain the legislative will, the bill would prohibit abuses of post-hoc legislative history. *Consumer Product Safety Comm'n* v. *GTE Sylvania, Inc.,* 447 U.S. 102 (1980).

The requirement that the court's decision concerning an agency's jurisdiction or authority be based on the language of the statute or other evidence of "ascertainable legislative intent," reflects the intention of the committee that an extension of an agency's jurisdiction or authority beyond that expressed in the language of the statute must be based on facts or materials in the statute's legislative history that can be discerned, identified, and discussed by the reviewing court. Subsection (c) requires more than surmise, more than a lack of evidence which would negate the extension. It requires, instead, identifiable materials which provide support for the extension.

Under subsection (c) an asserted extension of jurisdiction or authority that is unsupported by the language of the statute may not be upheld merely on the ground that the legislative history is not illuminating and the agency has made a determination that the court finds reasonable. Accordingly, under this amendment, a reviewing court could not properly uphold an extension of agency authority beyond that expressed in the statutory language on the ground that the extension "is reasonable and is not prohibited by the statute" or that the extension "is reasonable and is consistent with the statute." Subsection (c)'s requirement of affirmative evidence is not met by an absence of contradictory evidence. Reasonableness and con-

sistency with the statutory purpose are not the equivalent of evidence of ascertainable legislative intent.

Subsection (c) directs reviewing courts to play a more active role than some courts have in the past by carefully construing statutes which transfer regulatory power to administrative agencies. In complying with the subsection, reviewing courts should take a hard look at assertions of regulatory jurisdiction or authority which an agency seeks to justify by the argument that the asserted power is granted by implication. In the exercise of its reviewing responsibility, the court will make use of all appropriate materials for ascertaining the legislative will and will be influenced as well by the nature of the asserted power. If, for example, the agency is seeking to assert a basic or significant extension of authority, the reviewing court should not uphold the extension unless it is conscientiously convinced that the statute and relevant legal materials demonstrate that Congress addressed the issue, and that the statute does contain the authority asserted by the agency. On the other hand, if the asserted authority at issue relates to an interstitial or minor matter, the reviewing court might well conclude that although Congress had not addressed the specific issue, the matter is of such a character that sensible administration necessarily requires exercise of such an implementing authority and therefore that a fair construction of the statute and relevant legislative materials lead the reviewing court to conclude that Congress has conferred the necessary authority.

In imposing a duty on the court to ascertain the statutory basis for agency jurisdiction or authority it is not intended to impose a burden on them to act sua sponte. Those seeking review of a rule must still raise the question of jurisdiction or authority, but once raised, the burden of persuasion passes to the person asserting that agency jurisdiction exists. This is not a revolutionary change. It is consistent with the constitutional premise that delegations of legislative power to unelected officials are to be narrowly construed. It is also far easier to prove the affirmative, that an agency has jurisdiction, than to prove the negative, that it does not. This is consistent with other sections of this legislation which require an agency to include a statement of specific statutory authority under which the rule is proposed and of the congressional intent specifically sought to be achieved by the rule in the notice of proposed rulemaking, and which require an agency to include in the statement of basis and purpose a memorandum of law supporting the determinations of the agency that the final rule is within the authority delegated by Congress and is consistent with congressional intent.

The second sentence of new subsection (c) of section 706 is intended to make clear the Congress' intent that the courts perform, and perform diligently, their traditional role as the ultimate and impartial interpreters of the law. It is designed to insure that, as to questions of law, the agency and those seeking review stand on equal footing before the court without bias, preference, or deference to either and without any presumption in support of or against agency action. The only exception is for questions of jurisdiction or authority. Where such an issue is raised on review, the first sentence of subsection (c) imposes the burden on the proponent of agency jurisdiction to demonstrate that Congress has delegated to the agency the authority to act. The word "other" in the second sentence of new subsection (c) makes clear that the general rule of the second sentence is not to be read to lessen the obligations imposed by the preceding sentence on the proponent of agency jurisdiction and authority.

When a citizen challenges an agency's rule or order in the courts, the odds should not be stacked against him by judicial presumptions in favor of the agency. The judicially created doctrine of deference to agency interpretations of law, which some courts have elevated to a virtual presumption of correctness, places the bureaucratic thumb on the scales of justice, weighting them against the citizen. This amendment intends to reestablish an equal balance.

These amendments do, however, leave room for proper reliance on agency expertise where it actually exists. It is not intended to preclude judicial consideration of an agency's legal interpretation. This interpretation will be one element of the process of independent judicial examination. Nonetheless, the effect of any agency interpretation of law on the court's own interpretation should not depend on some general rule of deference of presumption of validity. Rather, in examining an agency interpretation of law, the court should evaluate "the thoroughness exhibited in [the agency's] consideration, the validity of its reasoning, its consistency with earlier and later pronouncements, and all those factors which give its power to persuade, of lacking power to control." *Skidmore* v. *Swift & Co.*, 323 U.S. 134, 140 (1944). The court should also weigh any countervailing factors bearing on the validity of the agency's legal position.

Accordingly, under this amendment, a reviewing court may not proceed on the assumption that it should uphold an agency's statutory construction merely because that construction is not unreasonable or not irrational. The second sentence of paragraph (c), rejects the view expressed in *Udall* v. *Tallman*, 308 U.S. 1, 16 (1965), and other cases that a court should defer to an agency's interpretation of a statutory or regulatory term even though it is not the only reasonable interpretation or even one that a court would have reached. Instead, the courts are to regard the interpretation of law as a question which they must decide. See e.g., *Coca-Cola Co.* v. *Atchison Topeka & Santa Fe Ry.*, 608 F.2d 113 (5th Cir. 1979); *Bituminous Coal Operators Ass'n.* v. *Secretary of Interior*, 547 F.2d 240 (4th Cir. 1977); and *Beryllium Corp.* v. *United States*, 449 F.2d 362 (Ct. Cl. 1971).

In providing that the "no presumption" criterion will apply only to questions of law, the intent is to preserve the existing "arbitrary, capricious, [or] an abuse of discretion" standard of section 706 with respect to policy determinations made within the permissible limits of agency discretion. In addition, the "no presumption criterion" does not apply to questions of fact, which are covered by the "substantial support" criterion.

Some issues will involve mixed questions of law and policy, or law and fact. But the difficulties in parsing and reviewing such issues under differing criteria now exist under section 706 in its present form. Thus this revision of section 706 does not create an obligation for the courts to wrestle with a new categorization. Despite the difficulties inherent in this task, courts can and do distinguish factual and policy from legal questions when reviewing agency action. E.g., *Sweringen Aviation Corp.* v. *NLRB*, 568 F.2d 458, 463 (5th Cir. 1978); *Getty Oil Co.* v. *DOE*, 478 F. Supp. 523, 527 (C.D. Cal. 1978). Moreover, courts generally have to distinguish legal from factual issues when hearing appeals from lower court rulings, since different standards of appellate review govern resolution of each category of issues on appeal. E.g., *Buchanan* v. *United States Postal Service*, 508 F.2d 259, 267 n. 24 (5th Cir. 1975); *Crosby* v. *United States*, 496 F.2d 1384, 1389 (5th Cir. 1974); *Rockwood & Co.* v. *Adams*, 486 F.2d 110, 112 (10th Cir. 1973). By establishing clear standards for review of the various components of agency decision, these amendments will simplify the task of the courts.

These changes to section 706 will not cause any dramatic upheaval in the process of judicial review of agency actions. These amendments to section 706 are not intended to affect any applicable rule of law which provides that in a civil or criminal action reliance on an agency rule or order is a defense. Thus, a defendant who has acted in compliance with an agency rule or order would continue to have any protection the law now provides even if the rule or order is subsequently found to be invalid.

It is expected that whenever an agency rule or order is challenged in a civil action where a private party is suing under an express or implied right of action for violation of an agency rule—arguably not a "proceeding for judicial enforcement" within the meaning of section 706—the court will apply the same standards of review as those set forth in section 706. This is not meant to imply any new standing or right of a defendant to challenge the validity of an agency rule or order. Thus, only if and to the extent that a rule can be reviewed by the court in the action would the reviewing court be expected to apply the same section 706 tests of lawfulness of agency action.

The "no presumption" criterion does not suspend the effectiveness of rules during the pendency of an appeal. This criterion affects only the judicial review of legal issues raised in appeals of agency action. Pending the outcome of that judicial review, the rule or agency action at issue would remain in effect unless, as under current law, a court issues a stay of the effectiveness of a particular agency action pending appeal. 5 U.S.C. section 705. This requirement would not be changed by the amendment.

While this amendment applies to the judicial review of questions arising under the existing and future organic acts of Congress where the general standards for judicial review as previously articulated in section 706 have been applicable, it is not intended either to change any settled judicial interpretation existing at the date of enactment as to the boundaries of a particular agency's jurisdiction or authority determined by a Federal appellate court, or to unsettle any res judicata or collateral estoppel effects of final prior court decisions on substantive legal questions.

The ultimate objective of these amendments to section 706 is to make sure that the pace, scope, and substance of regulation conform to the timetable and map established by elected representatives, rather than by an unelected bureaucracy. Since courts do not act on their own initiative, citizens have an important role to play in assuring the attainment of that objective. In protecting their individual interests they can also help to protect the public interest.

In addition, closer judicial reading of the statutory authority of agencies, perhaps producing decisions that agencies have no authority to act in some situations, will be an incentive for the Congress to "canalize" more specifically its delegations of law making power to agencies. "Congress defaulted when it left it up to an agency to do what the 'public interest' indicated should be done." W. Douglas, "Go East Young Man" 217 (1974). See J. Skelly Wright, Book Review, 81 Yale L. J. 575 (1972) ("There is every reason to believe that, with a slight nudge from the courts, Congress would eagerly reassume its rightful role as the author of meaningful organic charters for administrative agencies." Id. at 584.).

Indeed, as one critic of agency behavior put it, likening agencies unconstrained by statutes to Plato's philosopher-king:

[O]ur whole constitutional structure has been erected upon the assumption that the king not only is capable of doing wrong, but also is more likely to do wrong than other men if he is left unrestrained. We must not today judge those in possession of governmental power more favorably than did our ancestors, with the presumption that they can do no wrong. On the contrary, if there is any presumption, it should be against the holders of power, and increasing as the power increases. In the field of administrative law, historic responsibility can never make up for the want of legal responsibility. Schwartz, "Of Administrators and Philosopher-Kings: The Republic, The Laws, And Delegations of Power," 72 Nw. U.L. Rev. 443, 450 (1977).

Madam President, I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1766

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, Title 5, United States Code, Section 706 is amended to read as follows:

"§ 706. Scope of Review.

"(a) To the extent necessary to decision and when presented, the reviewing court shall independently decide all relevant questions of law, interpret constitutional and statutory provisions, and determine the meaning or applicability of the terms of an agency action. The reviewing court shall—

"(1) compel agency action unlawfully withheld or unreasonably delayed; and

"(2) hold unlawful and set aside agency action, findings, and conclusions found to be—

(A) arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law;

(B) contrary to constitutional right, power, privilege, or immunity;

(C) in excess of statutory jurisdiction, authority, or limitations, or short of statutory right;

(D) without observance of procedure required by law;

(E) unsupported by substantial evidence in a proceeding subject to sections 556 and 557 of this title or otherwise reviewed on the record of an agency hearing provided by statute; or

(F) without substantial support in the rule making file, viewed as a whole, for the asserted or necessary factual basis, as distinguished from the policy or legal basis, of a rule adopted in a proceeding subject to section 553 of this title; or

(G) unwarranted by the facts to the extent that the facts are subject to trial de novo by the reviewing court.

"(b) In making the foregoing determinations, the court shall review the whole record or those parts of it cited by a party, and due account shall be taken of the rule of prejudicial error.

"(c) In making determinations concerning statutory jurisdiction or authority under clause (2)(C) of subsection (a) of this section, the court shall require that the action by the agency is within the scope of the agency jurisdiction or authority on the basis the language of the statute or, in the event of ambiguity, other evidence of ascertainable legislative intent. In making determinations on other questions of law, the court shall not accord any presumption in favor of or against agency action.

Mr. GRASSLEY. Mr. President, I now rise in support of the introduction of the Bumpers amendment, named after its originator, the distinguished Senator from Arkansas.

This section amends the Administrative Procedure Act in these respects:

Reviewing courts are instructed to make independent determinations on all questions of law whether they be jurisdictional, constitutional or procedural. No presumption of validity will attach to agency regulations. The court will be the final arbiter as to whether an agency has gone beyond congressional intent in taking certain actions.

In addition, the reviewing court shall set aside agency regulations where substantial support is lacking for the necessary factual determinations which provide the basis for the rule. This will assure the promulgation of necessary regulations while preventing those which are overburdensome and unjustified.

Senator BUMPERS first introduced similar legislation in 1975. It was reintroduced in the 95th and 96th Congresses. At this point, I would like to reiterate my long-term support for this section demonstrated by my introduction of the amendment in the House in 1979 and the fact that I was fortunate enough to chair the hearings on the amendment held last Congress before the Subcommittee on Agency Administration of the Senate Judiciary Committee.

On September 7, 1979, the Senate adopted a similar proposal as a part of the Federal Courts Improvement Act. The House Judiciary Committee approved the Bumpers amendment with only one dissenting vote on September 17, 1980, as part of a comprehensive regulatory reform package. However, neither of these bills incorporating the amendment was ever finally enacted into law.

It has been demonstrated, through the extensive hearing process, that this legislation is necessary now more than ever. Testimony elicited before the Subcommittee on Agency Administration indicated that great deference has been given to various agencies in delineating their own authority. This function is clearly one for the courts, not for the agency. Examples have been given time and time again of agencies taking broad statutory lan-

guage and construing it to justify certain agency action clearly going beyond congressional intent. The purpose of this legislation is not to allow courts to constantly second guess policy decisions properly made by agencies but instead to return to the courts the role of final arbiter of questions of law. It has always been the courts job to construe statutes and to determine whether an agency is operating within its statutory authority.

The other major criticism raised against this concept is that it may result in increased litigation. This fear is unfounded. What it will result in is promulgation of more responsible rules. As Mr. Neil Kennedy, former Senate Legal Counsel, indicated in his testimony, agency lawyers "are going to have to live with this provision and advise their agencies" accordingly. "This should result in no more litigation than at present and you may have fewer rules * * * and better * * * more modest and realistic rules." Mr. Kennedy continued, "* * * after the experience of the last years, I would ask, is that bad?"

I ask the same question and believe the answer is obvious. The most recent figure on the cost of regulations to America's economy is $126 billion annually. If we translate that figure into personal terms, Federal regulations cost about $575 per capita each year or $2,290 per four-member family. This is without question a contributing factor to the serious inflation problems we are facing today. Excessive regulation is eating away at the capital investment which instead should be flowing into new production.

If we expect American industry to increase production or even remain operational it is time for serious reevaluation of our regulatory system. Adoption of the Bumpers amendment is just one aspect of this process. This, along with the passage of a comprehensive regulatory reform bill, will restore the balance of power to the three branches of Government enumerated in the Constitution and return the bureaucracy to its proper function of administering the law.

RECOGNITION OF SENATOR PROXMIRE

The PRESIDING OFFICER. Under the previous order, the Senator from Wisconsin (Mr. PROXMIRE) is recognized for not to exceed 15 minutes.

DEFICITS AND MIRACLES

Mr. PROXMIRE. Madam President, I recently ran across a study entitled "Government Deficit Spending and its Effects on Prices of Financial Assets." That has never been publicly released. The Treasury Department prepared this study in May, when the deficit reached the unprecedented sum of $161.8 billion, and that for only 8 months of the fiscal year. That is an annual rate of well over $200 billion.

The Treasury is traditionally one of the most conservative Federal departments, a home away from home for Wall Street bankers. Given this tradition and the administration's rhetoric, I expected the study to be a Phillippic against deficits, concluding that those odious red numbers boosted interest rates, slowed economic growth, and possibly even signified a certain looseness of moral purpose.

Imagine my surprise when I discovered that the study came to exactly the opposite conclusions. Here are some of the eye-opening results quoted directly from the study—and I quote verbatim:

> One can only speculate on what might be the effect of continuing deficits on prices of financial assets and, more fundamentally, on economic growth.
>
> What can be deduced, therefore, is that the secular trend of deficits, if kept at a sustainable level (that is, not resulting in an explosive growth of debt-to-GNP ratio) may be more conducive to economic growth than if the corresponding amount of funds were raised by taxing the productive factors in the economy.
>
> Finally, even if one were to accept the proposition that continuing high deficit-to-GNP ratios cause high interest rates, one could not conclude that these high interest rates will unavoidably result in slow economic growth.

Put in plain English, Madam President, the Treasury is now saying that large, continuing deficits may be just what the economic doctor ordered. They may increase economic growth. They do not cause high interest rates. Even if they did, these high interest rates may not hurt the economy.

Let us pause for a moment to marvel at this conversion. Remember the story of Saul's conversion on the road to Damascus. Saul may have been a tough nut to crack. He may even have been one of the most hard-hearted sinners of his day. He was one man, alone with his wickedness, but the story of his conversion has been handed down from generation to generation for nearly 2,000 years.

Now we are witnessing the conversion of an institution. Here we see the redoubtable Treasury Department, reeking with rectitude, suddenly wriggling into a peek-a-boo blouse, dabbing on a seductive scent, and chasing after a debonair deficit. It is as though Whistler's mother stood up, threw open that prim, black dress and revealed a shocking-pink string bikini.

This study so astonished me, Madam President, that it sent me into a reverie, where I beheld other miraculous conversions: Mr. Casper Weinberger, "Cap the Knife," arising from his grindstone with a gleaming knife in hand, which he uses to slash the fat in the military budget. Mr. David Stockman coming out of the woodshed and sitting gingerly at a spinning wheel, where he begins to reweave the safety net. Mr. James Watt joining Greenpeace and being last seen in the bow of a small rubber raft, shaking his fist at a whaler. But enough; that last one snapped me out of it. Some visions are beyond that pale, even in a reverie.

Still, when the Treasury embraces large deficits, anything and everything becomes possible. Perhaps, just perhaps, the Age of Miracles is still with us.

TO STOP NUCLEAR WAR WE NEED COOPERATION, AND NEGOTIATION NOT STAR WARS

Mr. PROXMIRE. Madam President, President Reagan last March proposed that this country consider pressing ahead with our advanced technology to build an impenetrable net in space that would permit us to intercept and shoot down any missile that might be fired against this country by the Soviet Union or anyone else. Since then Representative KRAMER, a Republican representative from Colorado, has introduced the Peoples' Protection Act of 1983. The Kramer bill would establish a new Federal agency to develop directed-energy systems to set up a United Space Command to deploy and operate all strategic defensive systems, and transfer military space shuttles from NASA to the Pentagon. Mr. KRAMER says he wants to make nuclear weapons obsolete.

That is a great purpose, Madam President. Almost every human being on Earth would favor such a purpose. But sadly, such an agency, like the Reagan Star Wars scenario, would be far more likely to bring a war closer rather than make it less likely. Only a few days ago, the Air Force is said to have successfully tested a laser to shoot down missiles. A successful laser against missiles or satellites would be quite a technological breakthrough in the nuclear arms race now.

This is exactly the kind of activity the Kramer bill would foster and fund. It would accelerate the development of laser, particle beam and microwave weapons that would destroy enemy missiles. I suppose we have rarely, if ever, in the last 50 years had any new weapons developed that were not, on their development, touted, pushed, advertised as necessary to bring peace, weapons to bring peace.

Our lasers presumably would shoot down incoming missiles that otherwise might blow up our cities and kill millions of Americans. What is wrong with that? What is wrong, of course, is what the Congress discovered more than 10 years ago when we ratified the Anti-Ballistic Missile Treaty with the Soviet Union. Congress ratified that treaty to stop the development of weapons by the United States and Russia that were designed for the ex-

press purpose of sparing each country the terrible consequences of an enemy attack with nuclear missiles.

We recognized that, like any other defensive weapons including lasers, the offensive provoked by the weapon would easily, quickly, and much more cheaply overpower the defensive weapons. Further, lasers could be used and would be used when fully developed to knock out satellites, the arms control eyes and ears of both countries. A laser defense, like an antiballistic missile defense, might give a temporary but false sense of security. If any principle surely prevails, especially in nuclear war, it is that the country that chooses to go on the offense can choose the time, the place, the mode, and the means of attack and, other things being roughly equal, will always have the overwhelming advantage. We no more need lasers or particle beams or any other new weapon any more than we need the MX. We need to negotiate a freeze on all, and I mean all—that is all—I will spell it, a-l-l—all nuclear weapons of all kinds.

Senator DAVID PRYOR of Arkansas put it best the other day when he made his fight against our funding a new nerve gas program. He said, "on weapon after weapon, cause after cause, this seems to be the mentality of this city, of this town, of this administration, of this Congress, all of us—let us build more, so that ultimately we can have less."

I think Senator PRYOR had it just right.

The Worldwatch Institute—a Washington think tank—has it right when they argue: "Nonweapons such as sensors, communications systems, and computers have become as important to the strategic balance as weapons improvements * * *. New information technologies are driving the strategic arms race between the United States and the Soviet Union to a higher level of danger and instability."

I am happy to say that the Institute comes out at exactly the place I do, and the American people, based on every inquiry do too—that is, we need a comprehensive freeze on new strategic weapons testing: We need a ban on weapons in space. We need an international satellite monitoring agency, and we need more cooperative research by the superpowers. Cooperative research by the superpowers? What am I saying? I am saying that we should cooperate with the Soviet Union on technological measures to strengthen arms control—exactly. And why not? Heaven knows we have a common interest. We both want to survive. We both want to stop a nuclear war. We are indeed ahead of the Soviet Union in nuclear weapons technology. But we have and they have the capacity to destroy the adversary totally. Only negotiations and verified agreements will stop that destruction. All the scientific research, all the weapons development, all the deployment in the world will not stop that destruction.

The arms race will hasten it. Mutual scientific cooperative research between the United States and the Soviet Union, research aimed specifically at improved means of verification and inspection with the end of stopping nuclear weapons technology from overwhelming and destroying us. That is what we need.

Madam President, I ask unanimous consent that an article by Brad Knickerbocker of the Christian Science Monitor that appeared on August 1 and from which I have quoted extensively in this speech be printed at this point in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Christian Science Monitor, Aug. 1, 1983.]

'STAR WARS' AND OCEAN WARS TACTICS: GOOD DEFENSE OR NOT?

Within the planetary war machine at its most advanced, unstable state may lie the embryo of a new security order.—Daniel Deudney, Worldwatch Institute

(By Brad Knickerbocker)

The film "WarGames" may be one of the summer's hotest diversions. But nuclear war by accident or design—especially fought in or from space—is an incresingly serious and controversial subject in Washington.

A few days ago, the Air Force successfully tested a laser to shoot down missiles. A dozen members of Congress are pushing a "People Protection Act" to reorganize and accelerate the development of laser, particle-beam, and microwave weapons (called "directed energy" devices) that would destroy enemy ballistic missiles, à la President Reagan's "Star Wars" speech of last March.

The Pentagon is scheduled to test its first antisatellite weapon this fall. But congressional skeptics, fearful of a new round in the arms race, are urging that antisatellite weapons testing be delayed. More than 100 house members recently wrote the President on this subject, and a group of prominent scientists also has asked Reagan to seek a moratorium by the United States and the Soviet Union on antisatellite testing.

Behind all of this is the concern that efforts to control nuclear araments are being overtaken by advancing technology.

In a thoughtful and detailed just-released study, the Worldwatch Institute, a Washington-based think tank, reports that the "transparency revolution" is overtaking the ability to conceal strategic systems. By this the report means that the growing network of satellites, seismic detectors, underwater acoustic arrays, and long-range radars can find almost any potential military target.

The inability to hide land-based missiles, strategic bombers, and their controlling facilities is driving the nuclear superpowers in two dangerous directions: toward computer-controlled "launch on warning" (firing your missiles as soon as incoming enemy ICBMs have been detected); and into the "global commons" of sea and space.

"Nonweapons such as sensors, communications systems, and computers have become as important to the strategic balance as weapons improvements," this report warns. "As a result, the measure of military strength has shifted away from the power and speed of weapons to the ability to detect and target the enemy's forces and to hide and communicate with one's own . . . New information technologies are driving the strategic arms race between the United States and the Soviet Union to a higher level of danger and instability."

Some see such technologies as the way for a nation to defend itself against nuclear attack. The "High Frontier" group, headed by retired Army Lt. Gen. Daniel Graham (former director of the Defense Intelligence Agency), supports this idea. President Reagan urged more research and development in this direction in his controversial March speech.

On Capitol Hill, a group of lawmakers is promoting space as the new area for national defense and urging the Pentagon to speed up its development and deployment plans for space-based weapons and other systems.

Rep. Ken Kramer (R) of Colorado has introduced the "People Protection Act of 1983." This would establish a new federal agency to develop directed-energy systems, set up a Unified Space Command to deploy and operate all strategic defensive systems, and transfer military space shuttles from NASA to the Pentagon.

In a talk supportive of President Reagan's spring speech, Mr. Kramer told a Capitol Hill group last week, "my ultimate hope with this legislation . . . is to make nuclear weapons obsolete."

Others say it is impossible to totally defend against nuclear attack. There is always the chance that a few ballistic missile warheads could penetrate any defense systems, some experts say, or that foreign agents could hide nuclear devices around the country.

In his book "Fate of the Earth," Jonathan Schell concludes that we must disband nation-states and form a world government. But in the new Worldwatch report, senior researcher Daniel Deudney says this is not necessary.

"The same transparency technologies now pushing the superpower military competition to its most dangerous level can be used to construct an alternative security system," he says.

Mr. Deudney proposes a comprehensive freeze on new strategic weapons testing, a ban on weapons in space, an international satellite monitoring agency (as proposed by France but rejected by the US and the Soviet Union), and more cooperative scientific research between the superpowers.

He urges a "pacification of the commons," including the oceans, where submarine-free zones and submarine sanctuaries could be established. He says, high-energy physics, oceanography, space sciences, and aeronautics are logical starting points for scientific cooperation.

At present, the US is clearly ahead in submarine and antisubmarine technology, as well as in most other military-related technologies, according to the Pentagon. But in most areas the Soviet Union is striving to catch up, particularly in the "transparency revolution" that is adding to nuclear instability.

"To begin fashioning a real security system, the superpowers must abandon their outdated and illusory ideas about military security," writes Deudney. "Controls established now can prevent deployment of weapons in space and avoid the vastly more difficult task of regulating them once they are there."

THE NAZI HOLOCAUST: LET US NOT FORGET

Mr. PROXMIRE. Madam President, I recently noted an article in the Washington Post indicating that in the final hectic days of World War II, the Nazis began a systematic "rewriting of history" in order to escape blame for the war. According to the Post, "It . . . appears evident that the Germans were engaged in a meticulous preparation of a case to justify their foreign policy vis-a-vis the countries concerned. "It seems that the Nazis were attempting to create evidence" to protect high officials from war crimes charges."

I am very disturbed by this. There seems to be a growing trend to obscure, ignore, or forget what happened in Europe from 1933 to 1945. I do not think a matter as grave as genocide should be forgotten. In fact, this issue ought to be kept in the fore. People should be reminded and taught the lesson of World War II and Hitler's Europe so that it may never be repeated.

Unfortunately, it seems to me that this lesson is beginning to be forgotten by some. Just this year, the forged Hitler Diaries appeared. Many, including John Chancellor of NBC news, felt that it might be an effort by Nazi sympathizers to create a new, different more innocent Hitler and Nazi Germany than was actually the case. Many others feel that the Nazi lesson is being lost on the new generation who did not live through the Hitler years and do not truly know of the horrors. There is fear that severe economic problems could drive some nations to Nazi-like dictatorships.

We must not let this happen. In 1948, we made the initial effort in the process to outlaw genocide. The United States was among the foremost creators of the Genocide Convention. We signed the treaty, as well. Yet, we have not come near to finishing the process. Our great body has failed to ratify. If the lesson of genocide is not to be lost, we must ratify now.

S. 1779—HAZARDOUS WASTE REDUCTION ACT

Mr. PROXMIRE. Madam President, each year we generate between 41 and 54 million tons of hazardous waste in this country.

As much as 75 percent of that waste could be safely treated, recycled, or incinerated, with technologies that are known today, or could be brought into production within 5 years.

Yet 4 out of every 5 tons of hazardous waste that we produce—despite all the publicity about Love Canal and the Stringfellow acid pits—is probably headed for a landfill.

Why? Because landfills are still the cheapest disposal option, despite all the regulations designed to make them safer.

Federal policy up to now has focused on the short-term problem—regulating the storage, transportation, and disposal of hazardous waste. It is time to take the next step forward by trying to cut down on the sheer volume of waste that we dispose of every year.

Part of the problem is the fee system that is used to raise the chemical industry's contribution to the Federal Superfund program to pay for the cleanup of abandoned hazardous waste sites. Under the current arrangement, the industry is assessed a fee on chemical feedstocks used in the manufacturing process. Since there is no direct relationship between feedstocks and the volume of hazardous waste that is produced, the current law does not provide any incentive to reduce waste generation.

Today, I am introducing the Hazardous Waste Reduction Act, which proposes to finance the Superfund through fees that would be levied on the land disposal of hazardous waste. This bill distinguishes between toxic and nontoxic hazardous wastes, which are already separated into categories under regulations established pursuant to the Resource Conservation and Recovery Act. Toxic hazardous waste would be taxed at $75 per ton, while nontoxic hazardous wastes, generally exhibiting ignitable, corrosive, or reactive characteristics, would be taxed at $25 per ton. No fees would be charged for the treatment, incineration, or recycling of hazardous waste. The fee system would supplement—not replace—existing Federal regulations governing the disposal of hazardous waste.

The Hazardous Waste Reduction Act provides what is now lacking from Federal hazardous waste policy: An economic disincentive to hazardous waste generation. Conversely, it should provide a needed stimulus to those industries that offer an alternative to land disposal.

Such a fee or tax on waste has real advantages over more cumbersome direct regulation, which must balance controls on the output of the waste source, the level of hazard the waste poses, the avoidance measures already adopted, and the protective measures taken by the potential victims. Under such a direct system of regulation, the danger of bureaucratic inefficiency and error is large. A fee or tax system on the waste itself is much more automatic.

Most importantly, a tax on hazardous waste makes the waste generator realize what the real price of hazardous waste is, and weigh it against the costs of additional or new treatment methods that could reduce the amount of waste generated. The waste generator will begin to find a real financial need to cut back on waste and/or adopt new treatment methods in order to reduce his fee.

This act has been introduced in the House as H.R. 3129 by Congresswoman CLAUDINE SCHNEIDER and Congressman RON WYDEN. It was drafted after meetings with Chemical Manufacturer's Association and the Hazardous Waste Treatment Council, whose suggestions were incorporated into the act. This concept of a waste disposal fee system has been endorsed by the Chemical Manufacturer's Association, the National Wildlife Federation, Environmental Action, and the Environmental Policy Center.

I send the bill to the desk and ask for its appropriate referral.

Madam President, I ask unanimous consent that a statement in connection with the bill and a Wall Street Journal editorial of Thursday, June 30, 1983, entitled "Fearing New Love Canal, Chemical Firms Stress Safer Disposal of Hazardous Waste," be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

THE HAZARDOUS WASTE REDUCTION ACT

BILL SUMMARY

The Hazardous Waste Reduction Act begins with the premise that federal policy should discourage the land disposal of hazardous waste. Every year, the U.S. generates between 41 and 54 million tons of hazardous waste, of which 80 percent ends up in landfills. Even under current federal regulations, landfills remain the cheapest disposal option. As a result, environmentally preferable alternatives like recycling and the treatment of waste materials are unable to secure a foothold in the market.

CURRENT FEDERAL POLICY

This bill proposes to change the basis under which fees are collected from the chemical industry for the Superfund, which finances the cleanup of abandoned hazardous waste sites. Under current law, the fees are collected on chemical feedstocks that provide the raw material for the manufacturing process. Because the raw material used often bears no relationship to the hazardous waste created as a byproduct, the Superfund fee structure does not act to discourage waste generation.

The current Federal program provides more disincentives than incentives for waste reduction. Many critics of this approach feel that the fund should have been financed through a "tail-end" fee on hazardous waste generation, rather than on "front-end" feedstock materials that only indirectly lead to hazardous waste.

HAZARDOUS WASTE FEES

This bill would extend the Superfund for a ten-year period, beginning in 1985 when the current law expires. The fee structure used to finance the Superfund would be levied on hazardous waste generation, replacing the current fees on chemical feedstocks. The bill distinguishes between toxic and non-toxic hazardous waste, two broad categories, using the definitions developed under the Resource Conservation and Recovery Act. The land disposal of toxic waste would be taxed at $75 per ton, while the land disposal of non-toxic hazardous waste

would be taxed at $25 per ton. The rates would double after the first five years of enactment. On-site and off-site land disposal would be taxed at the same rate, but no fees would be charged for recycling, incineration, or the treatment of hazardous waste.

STATE GRANTS

The bill would earmark $200 million from the revenues raised by the waste fees to pay for EPA's program of grants to states for enforcement of hazardous waste laws, and to help locate and classify the thousands of abandoned waste sites not covered by the Superfund. The grants could also be used to provide technical assistance to small manufacturers interested in developing a recycling or treatment capacity.

AUDITS BY INSPECTOR GENERAL

The bill provides for an annual audit of the Superfund program by the Inspector General, to ensure that Superfund monies are spent for the purposes for which they are intended. Provision is made for automatic reimbursement of the Superfund if any funds have been diverted to other programs.

WASTE QUANTITY ASSESSMENT PROGRAM

The bill directs the Administrator of the EPA to develop and implement methods to estimate the quantities of hazardous waste that are generated in each calendar year.

[From the Wall Street Journal, June 30, 1983]

FEARING NEW LOVE CANAL, CHEMICAL FIRMS STRESS SAFER DISPOSAL OF HAZARDOUS WASTE

(By Ann Hughey)

It was over a decade ago, but Charles Brookes still can recall the horror he felt the day he was shown aerial photographs of W.R. Grace & Co.'s Curtis Bay, Md., plant. Mr. Brookes, Grace's senior vice president for environmental policy, says the photographs—intended for office decoration—revealed a "two-square-mile red blotch staring at us."

The blotch was produced by a chemical that Grace had been dumping into the Chesapeake Bay. When Mr. Brookes ordered a subordinate to "do something about the pollution," he says, the man returned with a new set of photographs, the red areas neatly airbrushed out. "That was his solution," Mr. Brookes says, adding that the employee later left the company.

When the dumping had begun several years earlier, Mr. Brookes explains, the chemical was thought to be innocuous. In fact, he says, "it turned out to be causing a lot of damage" to marine life. He adds: "That was 1970. We didn't think about these things."

These days, it seems, chemical companies can think of little else. The nightmares of Love Canal in upstate New York and Times Beach, Mo., have made the safe disposal of hazardous waste one of the industry's top priorities—"a motherhood issue," according to a spokesman for the Chemical Manufacturers Association. Although other industries—mining and metals, for example—produce their share of hazardous waste, it is the chemical industry that is most closely linked in the public mind with such pollution. And with hazardous waste as explosive a political issue today as nuclear power, the chemical industry has become a leader in the search for safer, more efficient ways to dispose of modern technology's poisonous byproducts.

PROBLEMS AHEAD

Chemical concerns that once casually discharged poisons into the environment now spend billions of dollars each year complying with environmental laws. Some have found unexpected rewards in doing so: Grace, for example, spent $1 million for a facility at Curtis Bay to capture the offending chemical and discovered that by recycling, rather than dumping, the waste, it could save $150,000 a month.

Despite major strides in hazardous-waste management in the past decade, chemical-industry executives concede that some of the stickiest problems lie ahead. In particular, concern is rising about the long-term effectiveness and availability of landfills, where some 80% of the nation's hazardous waste is currently stored.

Public opposition to landfills is stiffening. Recent discoveries of scores of dump sites where poisons have lingered undetected for a generation, the Environmental Protection Agency scandals and what the chemical industry delicately calls its "public-relations problem" have made hazardous-waste dumps unwelcome in most communities. One 1980 poll showed that most people don't want such landfills within 100 miles of their homes. Currently, 462 hazardous-waste land-fills are scattered about the country, according to the EPA. Last year, 50 were closed, while the EPA approved only one new one.

Most of the nation's output of toxic waste finds its way into this shrinking land area. According to the Office of Technology Assessment, the annual volume of waste includes the estimated 255 million to 275 million tons regulated by federal and state agencies, as well as unknown millions of tons generated by small operators exempt from regulations. The office, an arm of Congress, estimates that it costs U.S. industry and government together between $4 billion and $5 billion each year to manage and regulate that waste, a sum that is expected to soar to $12 billion annually by 1990.

"PERPETUAL CARE"

Not only are landfills in short supply, but their continued use poses worrisome potential liabilities for waste producers. By law, a company can be held responsible for its hazardous wastes indefinitely, whether it disposes of them itself or subcontracts the job out to a third party. In a recent report, the National Research Council suggests that companies may be held accountable for the "perpetual care and monitoring (of landfills) for a period that, realistically, may exceed 500 years."

Experts doubt that even the best of today's landfills will be up to the job. Plastic sheeting and clay are the most common barriers used to keep dangerous chemicals from seeping into the water table. Grace's Mr. Brookes says that an impermeable, thick clay barrier is "probably OK," but he admits to "squeamish feelings about depending on plastic membranes for eternity." Landfills can also settle, cracking or breaking the clay seal. Seepage collection systems designed to catch spillage aren't likely to stand up for 500 years.

Noting growing evidence that land disposal of hazardous waste isn't providing protection against ground-water contamination, a recent report issued by the House Commitee on Energy and Commerce warned that in many cases, landfilling "poses grave threats to public health and the environment."

Such concerns led Rohm & Haas Co.'s chairman, Vincent L. Gregory, to tell shareholders at the Philadelphia-based chemical maker's recent annual meeting, "I believe that the days of waste disposal in landfills are numbered." Explaining that Rohm & Hass is searching for alternative disposal methods, he warned, "It's complicated, and it's going to be expensive."

Most of his counterparts in the industry, however, can't conceive of a world without landfills. Some hazardous wastes—notably heavy metals—can't be destroyed; the best that can be done is to neutralize them by, for example, mixing them with concrete. Storage space must be found for the resulting concrete blocks, as well as for the stubborn sludges and residues from incineration or biological and chemical neutralization processes.

DETOXIFYING WASTES

Talk of doing away with landfills altogether "is sticking your head in the sand," declares Geraldine Cox, an official of the Chemical Manufacturers Association. Closing all landfills would mean forgoing "the technology that leads to that waste," says Sam Gusman, a former senior executive at Rohm & Haas who now works for the Conservation Foundation, an environmental group.

Increasingly, however, big companies are attempting to detoxify waste before dumping it, willy-nilly, into a landfill. "You're much better off destroying it now than worrying about the problem it might cause 20 or 50 years from now," says Robert C. Forney, executive vice president of Du Pont Co.

The cost of such detoxification, while high, is modest compared with the potential bill for cleaning up a contaminated waste site. In a recent report, the Office of Technology Assessment estimates that it would have cost $2 million to properly dispose of the waste dumped at Love Canal years ago. By contrast, the report says, the ultimate cost of cleaning up the contamination is expected to exceed $100 million, no counting some $2 billion in lawsuits that have resulted from the incident.

Du Pont, Dow Chemical Co. and other large-volume chemical producers have invested in elaborate, high-temperature incinerators that can destroy much of their liquid and solid waste, thereby preventing poisons from escaping into the environment. One such device cost Du Pont $16 million to build in the mid-1970s and $3 million a year to run.

While the cost of incineration varies widely, depending on the amount of fuel needed and whether it is done in-house or subcontracted, it tends to be more expensive than land filling. By one rough estimate, incineration costs between $50 and $500 a ton, compared with $20 to $200 a ton for landfilling.

BIOLOGICAL TREATMENT

Another alternative is biological treatment of waste. At Du Pont's Chambers Works facility near its Wilmington, Del., headquarters, toxic waste is pumped into three huge vats of bacteria and carbon particles. Oxygen bubbles up through the black liquid as the bacteria consume the waste. Thus neutralized, the wastes are then compacted and incinerated and the residue is put in a landfill. The treatment plant and landfill are located on a 700-acre tract of company land where, Du Pont officials are fond of pointing out, ducks, geese and deer apparently flourish.

Sometimes, waste can be reused. A decade ago, Monsanto Co. disposed of a caustic solution produced in the manufacture of chemicals for the paper industry by channeling it into a solar evaporation pond at its Baxley, Ga., plant. Periodically, the solids

were dredged from the pond and either dumped in a landfill or simply "covered up with some dirt," according to Alan W. Thompson, the manager of environmental affairs for Monsanto's Polymer Products unit. When it became apparent that such methods weren't "a very good idea," Mr. Thompson says, the company began shipping the sludge to a hazardous-waste landfill operated by a third party. Now Monsanto sells some of the caustic solution to a New Jersey waste-disposal company that uses it to neutralize acid waste. Even though Monsanto pays to transport the waste to New Jersey, its net saving over disposal costs is $40,000 a year.

Other companies are saving money by recycling chemicals. Rohm & Haas's research laboratory in Spring House, Pa., formerly discarded leftover chemicals when projects were completed. Now a computer maintains an inventory of every chemical in the lab and leftovers are saved. The lab's waste output has been reduced by one-third as a result. Similarly, one Minnesota Mining & Manufacturing Co. plant saved $30,000 a year by collecting and recycling an acid.

REFORMULATING PRODUCTS

Another goal is to reduce waste by reformulating products and manufacturing processes. At Union Carbide, development of a more energy-efficient way to make polyethylene yielded the side benefit of eliminating the five pounds per ton of waste previously produced during manufacture.

3M says it saved $150,000 a year by redesigning one division's manufacturing equipment to eliminate use of a lead and graphite mixture that produced 4,200 pounds of waste sludge a year. Monsanto made a slight change in its method of making an adhesive and turned what had been waste into part of the product—without altering its properties. Monsanto officials estimate that the company saves several hundred thousand dollars a year in waste-disposal costs as a result.

Philip Palmer, a senior environmental engineer at Du Pont, describes the reduction and disposal of hazardous wastes as "a lot of different little problems." Many people, he says, harbor the misconception that it is possible to "do something magic" to hazardous wastes, when in fact there "isn't going to be any single technical panacea."

Chemical-company officials are stung by the public's failure to credit them for recent advances in hazardous-waste management. "You don't read much about the guys who did it right," one says. The bad publicity is especially hard to swallow, they say, given the fact that the chemical industry produces only a portion of the nation's hazardous waste. "Steel and aluminum and metals have far more environmental problems than the chemical industry," grumbles Rohm & Haas's Mr. Gregory.

Big chemical companies worry that the industry's image will continue to be tarnished by small waste producers who, lacking their resources and unscrutinized by government agencies, fail to safely dispose of toxic waste. Du Pont's Mr. Forney asks: "Who sprayed dioxin on the roads at Times Beach? Not a Dow or a Du Pont."

But attitudes are slow to change even at some large companies with sufficient resources. W. R. Grace, for example, still turns over most of its toxic waste to a subcontractor for disposal—a policy generally considered to be less prudent than disposing of it in-house. Mr. Brookes says he has studied the feasibility of a companywide incineration program. But because Grace produces only a fraction of the waste of, say, a Du Pont—and at far-flung locations—he says "I couldn't put together a package that made any sense at all." Moreover, he says the attention of top management often isn't caught by waste-disposal problems. Meanwhile, Mr. Brookes says he has nightmares about waste drums stamped "W. R. Grace" turning up in some scandal-plagued dumpsite.

THE FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE REFORM ACT OF 1983

Mr. PROXMIRE. Mr. President, today along with Senators LEAHY, METZENBAUM, and CRANSTON I am introducing the "Federal Insecticide, Fungicide, and Rodenticide Reform Act." An identical bill is being introduced simultaneously in the House by Congressmen HARKIN, BROWN, JEFFORDS, HEFTEL, and many others.

Over the last year, Congressman GEORGE BROWN has held a series of hearings before the House Agriculture Subcommittee on major flaws and loopholes in our current system of pesticide regulation, yet in testimony before both House and Senate committees, EPA indicated it was still business-as-usual with their administration of pesticide programs. Recently, large numbers of newspaper and magazine articles and radio and television programs have been devoted to pesticide testing scandals, accidental contaminations and other catastrophes caused by a pesticide program that gives the illusion of safety with very little protection.

My bill tightens up existing pesticide laws without imposing any new programs or costs on either farmers or pesticide producers, in fact it may even reduce some costs of widely used products. Instead, the bill simplifies the pesticide program so it can be more effective in protecting the public health. The current law squanders EPA's time and resources, causing Agency indecision and inefficiency, including inadequate review of industry supplied health and safety data.

While the pesticide regulatory program must be reasonable, cost effective, and equitable, this is no reason to compromise its basic goals—protecting the public health.

Only with passage of this pesticide reform measure will the public continue to accept the risks of pesticide use. Having no reform bill would be as harmful to agricultural interests as it would be to public health and the environment.

Several sections of the bill are especially important. Chief among them is a provision which deals with the most serious loophole in existing pesticide practices—a lack of reliable, current health and safety information. This is especially true with respect to the older pesticides, some dating back to the 1940's, which were registered before the development of the safeguards contained in the 1972 Pesticides Act. Manufacturers of these products must be required to bring these products into line with the modern data requirements applicable to newer pesticides. This was clearly the intent of the 1972 act, yet the policy was never implemented. In fact, the large majority of the most commonly used pesticides do not comply with the most vital data requirements.

For example, according to an investigation by the House Department Operations, Research, and Foreign Agriculture Subcommittee, at least 60 percent of major pesticides have not been tested for their potential to cause cancer. Over 90 percent of pesticides now in use have not been tested for their potential to cause genetic mutations and at least 70 percent of major pesticides in use have never been tested for their potential to cause birth defects. Yet the Agency continues to foster the impression that it is protecting public health. Nothing could be further from the truth.

The Federal Insecticide, Fungicide, and Rodenticide Reform Act contains provisions addressing the problem of faked test data. As the recent case of industrial biotest so horrifying demonstrates, the pesticide program is totally dependent on the accuracy of tests performed by private testing laboratories. Several hundred industrial biotests were fabricated, distorted or otherwise compromised. Yet most of the pesticides whose registrations depended on this data are still on the market. My bill would make it easier to remove such pesticides from sale.

The Federal Insecticide, Fungicide, and Rodenticide Reform Act will also close a number of loopholes in the statute, including the abuse of emergency provisions contained in sections 18 and 24 of FIFRA which are often used to circumvent the requirements of the act. Not every situation can be an emergency, and this bill provides a means to limit these provisions.

One final section of this bill merits special comment, and that is access by the public to agency decisionmaking. In the last few years, EPA has conducted closed meetings and made back-door deals with individual chemical companies and pesticide industry trade associations.

In addition, the agency has acquiesced to industry demands to create new areas of secret, confidential data. My bill exposes agency policies and procedures to the light of public scrutiny and brings more fairness into the process.

Mr. President, this bill is supported by a coalition of over 20 major farm, environmental, labor, and church groups. I urge the Senate Agriculture Committee to hold hearings on it as soon as possible.

I ask unanimous consent that the text of the bill, a basic explanation of the Federal Insecticide, Fungicide, and Rodenticide Reform Act, and an article on the IBT testing scandal from the Amicus Journal be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1774

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Federal Insecticide, Fungicide, and Rodenticide Reform Act".

REFERENCES TO THE FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT

SEC. 2. Except as otherwise specifically provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.).

DEFINITIONS

SEC. 3. (a) Section 2(a) (7 U.S.C. 136(a)) is amended—

(1) by striking out "and" at the end of paragraph (3);

(2) by striking out the period at the end and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following new paragraph:

"(5) in the case of any pesticide, an ingredient which will endanger human beings.".

(b) Section 2(e) (7 U.S.C. 136(e)) is amended—

(1) in paragraph (1)—

(A) by striking out "or supervise the use of" in the first sentence; and

(B) by striking out "use" in the second sentence and inserting in lieu thereof "uses";

(2) by striking out "or supervises the use of" each place it appears in paragraphs (2) and (3); and

(3) by striking out paragraph (4).

(c) Section 2(n) (7 U.S.C. 1367(n)) is amended—

(1) by striking paragraph (1) and inserting in lieu thereof—

"(1) the name of any inert ingredient and the name and percentage of each active ingredient, and the total percentage of all inert ingredients, in the pesticide; and".

(d) Section 2(bb) (7 U.S.C. 136(bb)) is amended by striking out "man or".

(e) Section 2 (7 U.S.C. 136) is further amended by adding at the end thereof the following new subsections:

"(ff) DATA GAP.—The term 'data gap' means any study information, or data required by the guidelines issued pursuant to section 3(c)(2), or other action determined by the Administrator to be necessary to make the determinations required under section 3(g), which (1) has not been submitted to the Agency, or (2) has been submitted to the Agency but which the Administrator determines does not satisfy the requirements of an adequate scientific study or is inconsistent with sound scientific principles. In making the determination required under clause (2) of the preceding sentence, the Administrator shall examine, at a minimum, the protocols, documentation of the conduct and analysis of the study, and the results of the study to determine whether the study fulfills the data requirement for which the study was submitted to the Administration.".

REGISTRATION OF PESTICIDES

SEC. 4. (a) Section 3(c) (7 U.S.C. 136a(c)) is amended—

(1) In paragraph (2)(A)—

(A) by striking out "shall revise" in the first sentence and inserting in lieu thereof "may revise";

(B) by inserting after the first sentence the following new sentence: "The Administrator shall (i) require sufficient information under the guidelines to enable the Administrator to assess pursuant to the standards prescribed in this Act the risks and benefits of pesticides (including relevant data on toxicity, exposure of workers and nonworkers, product and residue chemistry, environmental fate, product efficacy, and hazards to wildlife), (ii) impose, to the extent practicable, uniform and consistent data requirements under the guidelines, and (iii) grant an individual waiver from, or variance in data requirements or protocols under, the guidelines only after public notice and comment and only if the advisability of the waiver or variance is clearly established.";

(C) by striking out "he" each place it appears in the third sentence (after the amendment made by subclause (B)) and inserting in lieu thereof "the Administrator"; and

(D) by striking out the last sentence and inserting in lieu thereof the following new sentence: "Except as provided in section 10, during and after the comment period referred to in section 3(c)(4), data submitted to the Administrator in support of a petition to establish a tolerance or in support of an application for registration, and any other scientific information which is relevant to registration actions taken by the Administrator, shall be made available to the public in an expeditious manner.";

(2) amending subsection 6(c)(2)(B) to read as follows:

"(B) Additional data to support existing registration.—

"(1) If the Administrator determines, pursuant to section 3(g) or otherwise) that additional data are required to maintain in effect an existing registration of a pesticide product (or a category of products) containing a particular active ingredient, the Administrator shall notify all existing registrants of the pesticide to which the determination relates and publish a list of such registrants and of such data requirements in the Federal Register. The notice shall specify the data required, the date by which the data shall be submitted, and the procedure for obtaining rulings by the Administrator on questions concerning the applicability of the notice to various registrants or concerning the nature of the data required to be submitted.

"(ii) Each registrant of such a pesticide product to whom the notice is applicable shall provide evidence within 120 days after receipt of the notification specified in clause (i) of this subparagraph that it is taking the appropriate steps prescribed by the Administrator to secure the required data. If more than one registrant is subject to the notice, such steps shall include entering into a joint data development arrangement, unless the registrants subject to the notice unanimously agree otherwise. The joint data developers shall furnish to the Administrator the name, address, and telephone number of the person to whom inquiries concerning the arrangement should be addressed. As an initial cost of participation the joint data developers shall divide equally 25 percent of the estimated total cost of producing the required data or each shall pay $100,000, whichever is less. The balance of the cost of producing the data shall be paid by the joint data developers as needed, and shall be shared by each joint data developer on the basis of its United States market participation for the pesticide being tested, based on total pounds of active ingredient equivalent sold or used annually. Each joint data developer's market participation shall be adjusted during the period of the data development so that the most recent sales figures are used to compute each member's market share for the purpose of determining its share of the remaining cost of producing the required data. Each of the joint data developers shall submit adequate evidence of its annual market participation to an independent auditor for each of the years during the period of the joint data development. Such independent auditor shall be chosen by the joint data developers. The auditor's decisions and determinations shall be final and binding on each of the joint data developers. If further data are required by the Administrator under this paragraph, either before or after the additional data that were originally requested have been submitted, the same formula and procedure specified in this paragraph shall apply as if the subsequent request were the initial request for data. Any registrant who shares in the cost of producing the data shall be entitled to receive a copy of the data, and to examine and rely upon such data in support of maintenance of such registration.

"(iii) Notwithstanding any other provision of this Act, if a registrant who is subject to the notice from the Administrator, within the 120-day period prescribed in clause (ii) of this subparagraph, fails to enter into a joint data development arrangement under that clause, or fails to take appropriate steps to secure and submit the required data, or fails to comply with the terms of a joint data development arrangement, the Administrator shall issue a notice of intent to suspend such registrant's registration of the pesticide for which additional data are required. The Administrator may include in the notice of intent to suspend such provisions as the Administrator deems appropriate concerning the continued sale and use of existing stocks of such pesticide. Any suspension proposed under this subparagraph shall become final and effective at the end of 30 days from receipt by the registrant of the notice of intent to suspend, unless during that time a request for hearing is made by a person adversely affected by the notice, or the registrant has satisifed the Administrator that the registrant has complied fully with the requirements that served as a basis for the notice of intent to suspend. If a hearing is requested, a hearing shall be conducted under section 6(d) of this Act. The only matters for resolution at that hearing shall be whether the Administrator had a valid and reasonable basis for requiring the additional data, whether the registrant has failed to take the action that served as the basis for the notice of intent to suspend the registration of the pesticide product for which additional data is required, and whether the Administrator's determination with respect to the disposition of existing stocks is consistent with this Act. If a hearing is held, a determination shall be made within 75 days after receipt of a request for such hearing, and the decision made after completion of such hearing shall be final. Any registration suspended under

this subparagraph shall be reinstated by the Administrator if the Administrator determines that the registrant has complied fully with the requirements that served as a basis for the suspension of the registration.

"(iv) Subject to the provisions of clause (vi) of this subparagraph, data submitted under this subparagraph (before or after the effective date of the Federal Insecticide, Fungicide, and Rodenticide Reform Act) shall not be considered by the Administrator to support any application for registration, amended registration, reregistration or experimental use permit on behalf of any person other than the joint data developers for a period of 15 years after the data are submitted, unless any such person has reimbursed the joint data developers by paying a share of the real cost of producing the data in proportion to the number of persons sharing in such costs. Upon payment, such person shall be considered to be an original participant and shall share in all rights and be bound by all obligations entered into by the original data developers. Such reimbursement shall be made to the original participants based on the percentage of the overall monetary participation in the joint data development arrangement.

"(v) The provisions of this clause shall apply to health and safety data submitted voluntarily by a registrant or applicant at any time after September 30, 1978, to replace data which such person deems scientifically insufficient under generally accepted good laboratory practices or test standards. In order to obtain the rights provided by this clause and clause (iv) of this subparagraph with respect to such data, a registrant or applicant undertaking such a replacement study shall notify the Administrator that the replacement study is being performed or has been performed. The Administrator shall publish any such notification in the Federal Register promptly after its receipt, and shall state therein whether the validity of the study is under review and any determinations as to its validity which have been made. Each person who, as of the date of publication, is a registrant or an applicant for registration of any product containing the active ingredient which is the subject of the study shall have the opportunity to participate in a joint data development arrangement as provided in clause (ii) of this subparagraph. If a registrant or applicant of record as of the date of publication of the notice informs the person undertaking the study, within 90 days of the date of publication, of the registrant or applicant's decision to voluntarily participate, the registrant or applicant shall have the rights and duties of a joint data developer as described in clauses (ii), (iii), and (iv) of this subparagraph.

"(vi) With respect to any study which has been or is being performed in response to a request for additional data issued under this subparagraph between September 30, 1978, and the date of enactment of the Federal Insecticide, Fungicide, and Rodenticide Reform Act, any person who on such date of enactment is the registrant of a product of the type to which that request applies but who is not already a party to an agreement to share in the cost of performing that study shall be entitled to enter into a joint data development arrangement with any person or group which is performing or has performed that study, under which arrangement such person shall have the rights and duties of a joint data developer as follows: In the case where a study is being performed by two or more persons under a joint data development agreement, a registrant who wishes to avail himself of the rights provided by the clause shall be bound by the terms of such agreement; and in all other cases, a registrant who wishes to avail himself of the rights provided by this clause shall share in the cost of producing the data as provided in clause (iv) of this subparagraph and shall be subject to the provisions of clause (iii) of this subparagraph: *Provided*, That any registrant who wishes to be availed of the rights provided by this clause shall, not later than 120 days after date of enactment of the National Pesticide Hazard Prevention Act, submit an irrevocable offer to enter into such an arrangement to the person or group which is performing or has performed the study.".

"(3) by striking out "30" in the second sentence of paragraph (4) and inserting in lieu thereof "ninety";

"(4) in paragraph (5)—

(A) by inserting "with respect to both active and inert ingredients, and makes written findings" after "determines" in the first sentence;

(B) by striking out "and" at the end of subparagraph (C) of the first sentence;

(C) by striking out "generally" in subparagraph (D) of the first sentence;

(D) by striking out the period at the end of the first sentence and inserting in lieu thereof "; and";

(E) by adding after subparagraph (D) in the first sentence the following new subparagraph:

"(E) when used in accordance with widespread and commonly recognized practice it will not endanger human beings (including children who are permitted under the Fair Labor Standards Act (20 U.S.C. 201 et seq.) to work in areas treated with pesticides).";

(F) by inserting after the first sentence the following new sentence flush to the margin: "In determining whether a pesticide will endanger human beings under subparagraph (E) of the preceding sentence, the Administrator shall consider the potential chronic effects of the pesticide on human beings (including oncogenicity, mutagenicity, fetotocicity, reproductive effects, and behaviorial effects).."; and

(G) by striking out the second to the last sentence and inserting at the end of the paragraph the following new sentences: "If the Administrator determines that the requirements of this paragraph are satisfied, the Administrator shall publish in the Federal Register notice of the determination and a summary of the factual basis and reasons therefor. Upon publication of the notice, a person adversely affected by the notice (including a person opposed to the registration and use of the pesticide) shall have the same remedies as are provided to a person adversely affected by a notice under section 6(b).";

(5) by striking out "may" in the first sentence of paragraph (6) and inserting in lieu thereof "shall";

(6) in Paragraph (7)—

(A) by striking out "and" at the end of clause (1) of the first sentence of subparagraph (A);

(B) by inserting before the period at the end of the first sentence of subparagraph (A) the following: ", and (iii) a use of the pesticide has not been canceled or suspended under section 6, or voluntarily withdrawn if the Administrator determines that the voluntary withdrawal of the pesticide was associated with concern over potential adverse human health or environmental consequences of the pesticide"; and

(C) by adding at the end of subparagraph (C) the following new sentence: "Subject to section 10, the Administrator shall make available to the public data submitted in support of a conditional registration under this subparagraph (including a list of the outstanding tests to be performed on the pesticides and the timetables for the performance of the tests)."; and (7) by striking out paragraph (8).

(b) Section 3(d) (7 U.S.C. 136a(d)) is amended—

(1) in paragraph (1)—

(A) by striking out "generally" in subparagraph (B);

(B) by inserting "or contamination of ground water," after "applicator," in the matter preceding clause (1) of subparagraph (C);

(C) by striking out "or under the direct supervision of" subparagraph (C)(i);

(D) by inserting "(including contamination of ground water)" after "environment" in the first sentence of subparagraph (C)(ii); and

(E) by inserting after the first sentence of subparagraph (C)(ii) the following new sentence: "In establishing such other restrictions, the Administrator shall specifically consider the seasonal, soil-specific, and hydrogeologic characteristics of the location in which the pesticide will be applied."; and

(2) by inserting "(including contamination of ground water)" after "environment" in the first sentence of paragraph (2).

(c) Section 3(f) (7 U.S.C. 136a(f)) is amended—

(1) by inserting "registration of an active ingredient that has been registered under subsection (c) of this Act, or reregistered under subsection (g) since October 21, 1972" after "a pesticide" in the proviso of paragraph (2); and

(2) in paragraph (3)—

(A) by inserting "and States" before the period at the end of the caption; and

(B) by inserting "or with any State" before the period at the end thereof.

(d) Subsection (g) of section 3 (7 U.S.C. 135a(g)) is amended to read as follows:

"(g) REREGISTRATION OF PESTICIDES.—

(1) The Administrator shall accomplish the reregistration of all pesticides in accordance with this subsection.

"(2)(A) Within one hundred and twenty days after the date of the enactment of the Federal Insecticide, Fungicide, and Rodenticide Reform Act, the Administrator shall publish in the Federal Register a list of pesticide active ingredients not reregistered since September 31, 1978, in the order of their priority for reregistration under this Act.

"(B) In establishing the list, the Administrator shall—

"(i) give the highest priority on the list to pesticides used in substantial volumes that result in a postharvest residue in or on food or feed crops or in post application residues in potable ground water; and

"(ii) include among the pesticides accorded the highest priority on the list the pesticides shown to cause mutagenic effects in an appropriately designed and conducted experiment using a bacterial test system.

"(C) The establishment of the list by the Administrator shall not be subject to judicial review.

"(3) In accordance with the schedule prescribed in subparagraph 2(A) above, the Administrator shall examine the information in the files of the Environmental Protection Agency which relates to pesticide active ingredients included in the list described in

paragraph (2), identify any data gaps in the information, and publish in the Federal Register a notice of the data gaps at the same time the list required under subparagraph 2(A) above is published. Within one year of publishing the list and data gaps, the Administrator shall issue letters pursuant to section 3(c)(2)(B) requiring registrants to fulfill as expeditiously as possible any data gaps identified pursuant to subparagraph (A) above.

"(4) If the Administrator with respect to a pesticide active ingredient does not take the actions required under paragraphs (3) above, and if there are outstanding data gaps on a pesticide active ingredient, the Administrator shall issue pursuant to subsection (c)(2)(B)(iv) a notice of intent to suspend the registration of pesticides containing the ingredient.

"(5)(A) In accordance with the schedule specified by the Administrator under section 3(c)(2)(B), but in no event later than three years after the date of the publication under subparagraph (3) of the notice of data gaps with respect to a pesticide active ingredient, a registrant of the ingredient shall—

"(i) conduct such studies as the Administrator determines are necessary to fill the data gaps identified in the notice; and

"(ii) report the results of the studies to the Administrator, unless additional time, not to exceed one year, is required to carry out range finding or other preparatory studies needed to conduct a scientifically acceptable long-term experiment.

"(B) If a registrant does not comply with subparagraph (A) above, the Administrator shall issue pursuant to section (c)(2)(B)(iv) a notice of intent to suspend the registrant's registrations of the active ingredient.".

(e) Section 3 (7 U.S.C. 136a) is amended by adding at the end thereof the following new subsection:

"(h) INERT INGREDIENTS.—No later than June 30, 1984, the Administrator shall issue regulations which require a registrant to conduct tests on the inert ingredients in pesticide product formulations to determine if the ingredients may cause an unreasonable adverse effect on man or the environment, either alone, or synergistically with the active ingredient or other inert ingredients contained in the formulation. Information on the toxicity of inert ingredients shall be subject to disclosure under the provisions of section 10 of this Act: *Provided,* That the Administrator shall not disclose the percentage of each inert ingredient in a given pesticide formulation unless the Administrator has determined that such disclosure in necessary in the public interest.".

SEC. 5. Section 4(a)(1)) (7 U.S.C. 136b(a)(1) is amended—

(1) by striking out "and shall not require private applicators to take any examination to establish competency in the use of pesticides" in the proviso of the first sentence; and

(2) by striking out "*: Provided, however*" in the seventh sentence and all that follows through the end of the eighth sentence and inserting in lieu thereof a period.

EXPERIMENTAL USE PERMITS

SEC. 6. (a) Section 5(a) (7 U.S.C. 136c(a)) is amended by inserting after the fifth sentence the following new sentence: "The Administrator may not issue an experimental use permit for a use of a pesticide if the use has been voluntarily withdrawn for health or environmental reasons, cancelled, or suspended pursuant to this Act and other registered pesticides or pest control practices are available to control the pest damage which the pesticide is designed to control.".

(b) Section 5(e) (7 U.S.C. 136c(e)) is amended—

(1) by striking out "may" and inserting in lieu thereof "shall";

(2) by striking out "or" the second place it appears; and

(3) by inserting before the period at the end thereof the following: ", or that the use of the pesticide in accordance with the permit will not yield data or information which is useful in satisfying registration requirements imposed by section 3".

ADMINISTRATIVE REVIEW

SEC. 7. (a) Section 6(a) is amended by adding a new subsection (3) as follows:

"(3) If at any time after the registration of a pesticide or the establishment of a tolerance it appears to the Administrator that false, misleading, or inaccurate information has been submitted by the registrant to the Agency in support of such registration or tolerance, the Administrator may immediately issue a notice of intent to cancel such registration or revoke such tolerances. In the event that a hearing is held pursuant to such notice, the issues shall be limited to a determination of whether false, misleading, or inaccurate information was submitted to the Agency: *Provided,* That the registration or tolerance shall not be cancelled or revoked if the registrant establishes that such information is not presently material to the findings required under section 3(c)5. The hearing shall be concluded within 90 days after issuance of the notice and the Administrator's final decision shall be issued within 30 days of completion of the hearings.".

(b) Section 6(b) (7 U.S.C. 136d(b)) is amended—

(1) in the first sentence—

(A) by striking out "generally";

(B) by inserting "or may reasonably be expected to endanger human beings (including children who are permitted under the Fair Labor Standards Act (29 U.S.C. 201 et seq.) to work in areas treated with pesticides)" after "environment"; and

(C) by striking out "may" and inserting in lieu thereof "shall"; and

(2) by inserting before the period at the end of the ninth sentence the following: "(including a registrant, a user of the pesticide, or a member of the public with or without an economic interest in the continuation of the registration of the pesticide)".

(c) Section 6(d) (7 U.S.C. 136d(d)) is amended by inserting after the first sentence the following new sentence: "If a hearing is held to consider the registration of a previously cancelled pesticide use, the scope of the hearing shall be limited to an examination of the data and evidence not available to the Administrator at the termination of the hearing held under section 6(a) or 6(b), or upon issuance of a cancellation decision.".

(d) Section 6 (7 U.S.C. 136d) is amended by adding at the end thereof the following new subsection:

"(g) EFFECT OF CANCELLATION, SUSPENSION, OR WITHDRAWAL.—If the registration of a pesticide has been cancelled, suspended, or voluntarily withdrawn, if the Administrator determines that the voluntary withdrawal of the registration was associated with concern over potential adverse human health or environmental consequences of the pesticide, the pesticide shall not be eligible for registration or conditional registration under section 3, an experimental use permit under section 5, or a special local needs registration under section 24(c) for the use or uses for which the registration has been cancelled, suspended or voluntarily withdrawn, unless the Administrator finds that—

"(1) another registered pesticide or other feasible alternative to the pesticide is not available to control the pest damage the pesticide is designed to control;

"(2) the pest damage has increased substantially, or is a new pest infestation since the cancellation, suspension, or withdrawal of the pesticide causing, or threatening to cause significant damage; and

"(3) data is available to the Administrator which demonstrates that the pesticide will effectively control the damage or infestation.".

STANDARDS APPLICABLE TO PESTICIDE APPLICATORS

SEC. 8. Subsection (a) of section 11 (7 U.S.C. 136i(a)) is amended to read as follows:

"(a) IN GENERAL.—The Administrator shall issue regulations which require a commercial applicator to maintain records, and file annual reports or other records, concerning pesticide use by the applicator, including the time, location, quantities, mixtures, application rates and equipment, and any such other information as the Administrator determines necessary to carry out this Act.".

INDEMNITIES

SEC. 9. Section 15 (7 U.S.C. 136m) is repealed, except for any indemnification actions underway before enactment of the National Pesticide Hazard Reduction Act.

CITIZEN SUITS

SEC. 10. The Act (7 U.S.C. 136 et seq.) is amended by inserting after section 16 (7 U.S.C. 136n) the following new section:

"SEC. 16A. CITIZEN SUITS.—

"(a) IN GENERAL.—

"(1) Except as provided in subsection (b), a person may commence a civil action for damages or equitable relief, or both—

"(A) against a person (including (i) the United States, and (ii) any other governmental instrumentality or agency to the extent permitted by the eleventh amendment to the Constitution of the United States) who is alleged to be in violation of this Act; or

"(B) against the Administrator where there is alleged a failure of the Administrator to perform any act or duty under this Act which is not discretionary with the Administration.

"(2) The district courts of the United States shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties—

"(A) to enforce this Act;

"(B) to order the Administrator to perform an act or duty described in paragraph (1)(B); and

"(C) to apply any appropriate civil or criminal penalty provided under this Act.

"(b) NOTICE.—

"(1)(A) An action may not be commenced under this section against a person, other than the Administrator—

"(i) prior to sixty days after the date the plaintiff has given notice of the alleged violation to the Administrator, the State in which the alleged violation occurs, and the defendant; or

"(ii) if the Administrator or a State has commenced and is diligently prosecuting a civil or criminal action in a Federal or State court to require compliance with this Act.

"(B) A person may intervene in an action described in subparagraph (A)(ii) as a matter of right.

"(2) Except as provided in subsection (f) and unless the violation poses an imminent hazard to human beings or the environment, an action may not be commenced under this section against the Administrator prior to sixty days after the date the plaintiff has given notice of the alleged violation to the Administrator.

"(3) A person shall provide notice under this subsection in such manner as the Administrator shall prescribe by regulation.

"(c) CERTAIN UNLAWFUL ACTS.—

"(1) An action alleging a violation of section 12(a)(1) may be brought under this section only in the judicial district in which the violation has occurred.

"(2) If the Administrator is not a party to an action described in paragraph (1), the Administration may intervene in the action as a matter of right.

"(d) COSTS OF LITIGATION.—A court may award the costs of litigation (including reasonable attorney and export witness fees) to a prevailing party, other than the United States, in an action brought under this section.

"(e) LEGAL AND EQUITABLE RELIEF NOT RESTRICTED.—Nothing in this section shall restrict a right which a person may have to any legal or equitable relief for a violation of this Act by another person.

"(f) CIVIL ACTION BY STATE GOVERNORS.—If the Administrator has failed to enforce this Act in a State and the failure causes an adverse effect on the public health or welfare of another State, the Governor of the other State may at any time commence a civil action against the Administration under this section.".

IMPORTS AND EXPORTS

SEC. 11. The first sentence of section 17(b) (7 U.S.C. 135o(b)) is amended by inserting "whether voluntary, involuntary, or pursuant to settlement," after "be effective".

EXEMPTION OF FEDERAL OR STATE AGENCIES

SEC. 12. Section 18 (7 U.S.C. 136p) is amended to read as follows:

"Sec. 18. Exemption of Federal or State Agencies.

"(a) REQUESTS.—A Federal or State agency may request the Administrator to exempt the agency from any provision of this Act in accordance with this section.

"(b) EXEMPTIONS.—

"(1) Except as provided in paragraph (2), the Administrator may grant a requested exemption if the Administrator determines that the exemption is necessary to prevent or substantially mitigate an imminent and substantial danger to public health or welfare.

"(2) The Administrator may not grant an exemption which would permit the sale or distribution of a pesticide for a use for which it is not registered under this Act if—

"(A) another pesticide is registered under this Act for that use, unless the applicant for the emergency exemption demonstrates that the registered pesticide is ineffective or cannot be made available for that use;

"(B) the Administrator determines that there is another pest control practice which could be used for the same purpose and would produce a less detrimental effect on the public health, welfare, or environment. For the purposes of this subsection, the term "pest control practice" including both a means of controlling a pest without using a pesticide, and the use of a pesticide which is registered for another use or uses.

"(c) LENGTH AND RENEWAL.—An exemption under this section may not be issued for more than one year or renewed more than twice.

"(d) CONSULTATION.—In determining whether to grant an exemption under this section, the Administrator may consult with appropriate State or Federal officials, including those with responsibilities in areas such as agriculture, public health, and fish and wildlife protection.

"(e) PUBLIC COMMENT.—Unless the Administrator determines it is necessary to grant an exemption within 48 hours as prescribed in paragraph (g) below, the Administrator shall publish notice of the application for an emergency exemption in the Federal Register within 10 days of receipt of the application. Information contained in the application for an emergency exemption that is requested by a member of the public within 10 days of the notice of the application in the Federal Register must be provided at least 10 days prior to the Administrator's decision with respect to the application. In making a determination on the application, the Administrator shall consider any information provided to the Administrator by a member of the public. The Administrator shall publish in the Federal Register in a timely manner his decision and the reasons therefor.

"(f) DISCLOSURE OF INFORMATION CONTAINED IN EMERGENCY EXEMPTION APPLICATIONS.—All information submitted to the Administrator in support of an application for an emergency exemption shall be disclosed by the Administrator to any member of the public within 30 days of receipt of a request for such information.

"(g) PRIOR APPROVAL OF THE ADMINISTRATOR.—In no case may this section permit an unregistered use of a pesticide without the prior approval of the Administrator: *Provided,* That the Administrator must act upon an application for an emergency exemption within 48 hours if he concurs with the applicant that extraordinary emergency circumstances exist where immediate pest control measures are necessary to prevent imminent and substantial harm to man, the environment, or the public welfare.".

RESEARCH AND MONITORING

SEC. 13. Section 20 is amended by—

(1) amending subsections (b) and (c) to read as follows:

"(b) NATIONAL MONITORING PLAN.—In consultation with the Scientific Advisory Panel established by section 25(d) of this Act, and the Science Advisory Board established under the Environmental Research and Development and Demonstration Authorization Act of 1978, the Administrator shall formulate and periodically revise, in cooperation with other Federal, State, or local agencies, a comprehensive national plan for monitoring pesticides. This plan shall include provision for the collection, storage, interpretation, and dissemination of data on quantities of pesticides used, by active ingredient, by crop, and by geographical area; on human exposure to pesticides, including direct and indirect exposure to applicators, farmworkers, homeowners, and others associated with or residing near application sites, and indirect exposure via food, drinking water, and other sources; on existing environmental loadings of pesticide residues, including specifically air, soils, surface water, ground water, sediments, man, plants, and animals; on trends in residues; and on identifying and preventing potential problems. The plan shall be reviewed at least every five years and updated as appropriate. To the extent feasible, the monitoring plan shall incorporate and make use of existing data collection efforts by EPA or other Federal, State, or local agencies.

"(c) MONITORING.—The Administrator shall undertake such monitoring in air, soil, surface water, ground water, sediments, man, plants, and animals, as may be necessary for the implementation of this Act and of the national pesticide monitoring plan. The Administrator shall establish procedures for the monitoring of man and animals and their environment for incidental pesticide exposure, including, but not limited to, the quantification of incidental human and environmental pesticide pollution and the secular trends thereof, and identification of the sources of contamination and their relationship to human and environmental effects. Such activities shall be carried out in cooperation with other Federal, State, and local agencies. The Administrator shall assure the quality of all data.".

(2) adding new subsections (d), (e), (f), and (g) to read as follows:

"(d) The Administrator shall make available to the public the monitoring data in a timely and useful way.

"(e) The Administrator is hereby authorized to request other agencies to expand or extend existing data collection activities as necessary for the implementation of this Act and of the national pesticides monitoring plan. The Administrator is further authorized to pay reasonable funds for such data.

"(f) The plan required by subsection (b) shall be proposed by rule not later than June 1, 1984, and shall go into effect not later than October 1, 1984, upon which date the Administrator shall be undertaking the monitoring activities required under subsection (c).

"(g) Provided that the purposes of the National Monitoring Plan for pesticides and the requirements of subsection (f) of this section are carried out, nothing in this section shall prevent the Administrator from making pesticides monitoring a part of a more comprehensive agency monitoring program.".

SOLICITATION OF COMMENTS

SEC. 14. Section 21(b) (7 U.S.C. 136s(b)) is amended by striking out "may, at his discretion," and inserting in lieu thereof "shall".

DELEGATION AND COOPERATION

SEC. 15. Section 22 (7 U.S.C. 136t) is amended by adding at the end thereof the following new subsection:

"(c) OCCUPATIONAL SAFETY OR HEALTH STANDARDS.—In exercising any authority under this Act, the Administrator shall not, for purposes of section 4(b)(1) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 653(b)(1)), be considered to be exercising statutory authority to prescribe or enforce standards or regulations affecting occupational safety or health.".

AUTHORITY OF STATES

SEC. 16. (a) Section 24(b) (7 U.S.C. 136v(b)) is amended—

(1) by striking out "Such" and inserting in lieu thereof "(1) Except as provided in paragraph (2), the"; and

(2) by adding at the end thereof the following new paragraph:

"(2) A State may impose or continue in effect requirements for labeling or packaging in order to enforce a prohibition on the use of a federally registered pesticide or device in the State. If a State imposes or

continues in effect the requirements, the State shall require that the prohibited use be stated on the labeling or packaging and shall notify the Administrator of the action and the reasons for the action. The Administrator shall keep a record of the requirements and make the record available to the public.".

(b) Section 24(c) (7 U.S.C. 136v(c)) is amended—

(1) by striking out "federally registered pesticides" in the first sentence of paragraph (1) and inserting in lieu thereof "pesticides which are registered under paragraph (5) or (7)(A) of section 3(c) and";

(2) in paragraph (2)—

(A) by striking out "for more than ninety days if disapproved by the Administrator within that period" in the first sentence and inserting in lieu thereof "until ninety days have elapsed after the date on which the Administrator is notified by a State of the intent of the State to issue the registration";

(B) by inserting after the first sentence the following new sentence: "If the Administrator disapproves the registration during the ninety day period, the registration shall not become effective."; and

(C) by striking out "(A) on the basis of lack of essentially of a pesticide or (B)" in the last sentence;

(3) in paragraph (3)—

(A) by striking out "or" in the second sentence and inserting in lieu thereof "that";

(B) by inserting after "hazard," in the second sentence the following: "or that the registration is unnecessary to meet special local needs and therefore the registrant should apply for registration under section 3(c)(5),";

(C) by striking out "may" in the second sentence and inserting in lieu there of "shall"; and

(D) by adding at the end thereof the following new sentence: "If more than five States provide under this subsection for the registration of a new or additional use of a pesticide to meet the same special local need, there shall be a rebuttable presumption that a special local need does not exist for purposes of this subsection.";

(4) by striking out "may" in the first sentence of paragraph (4) and inserting in lieu thereof "shall"; and

(5) by adding at the end thereof the following new paragraphs:

"(5) A registration issued by a State under this subsection shall expire after a five-year period. At the end of each five-year period, the State may issue a new registration in accordance with this subsection.

"(6) If a special local need registration has not been used, or has lapsed, the State authority initially granting the registration must so inform the Administrator.".

AUTHORITY OF ADMINISTRATOR

SEC. 17. (a) Section 25(d) (7 U.S.C. 136w(d)) is amended by inserting after the eighth sentence the following new sentences: "In appointing members to the panel, the Administrator shall attempt to appoint members from the fields of agricultural economics, entomology, plant pathology, animal pathology, epidemiology, and ecology and to avoid the appointment of members from similar disciplines. The Administrator shall appoint each member of the panel for a three-year term and stagger the appointments such that the terms of no more than three members expire during the same year.".

(b) Section 25 (7 U.S.C. 136w) is amended by adding at the end thereof the following new subsection:

"(f) REGULATIONS CONCERNING PESTICIDE USE.—

"(1) As soon as practicable, but in no event later than one year, after the date of the enactment of the Federal Insecticide, Fungicide, and Rodenticide Reform Act, the Administrator shall issue regulations which require the safe use of pesticides and the protection of individuals present in the vicinity of areas treated with pesticides.

"(2) The regulation shall require—

"(A) the protection of individuals present in the vicinity of areas treated with pesticides taking into account—

"(i) the expected levels and effects of exposure to pesticides;

"(ii) the need to establish buffer zones to protect the individuals from the overspray and drift of pesticide applications;

"(iii) the need to provide adequate advance warning to individuals present in the areas; and

"(iv) the need for adequate field posting of pesticide applications;

"(B) the documentation of pesticide applications by applicators and access to the documents by interested parties;

"(C) the safe storage, warehousing, and disposal of pesticides and pesticide containers; and

"(D) the reporting of harm caused by pesticides to man and the environment.".

STATE PRIMARY ENFORCEMENT RESPONSIBILILTY

SEC. 18. (a) Section 26(a)(1) (7 U.S.C. 136w-1(a)(1)) is amended by inserting "which are at least as stringent as sections 12 and 25" after "regulations".

(b) Section 26 (7 U.S.C. 136w-1) is amended by adding at the end thereof the following new subsection:

"(d) In order to maintain primary enforcement responsibility for pesticide use violations, a State which has the responsibility on the date of the enactment of the Federal Insecticide, Fungicide, and Rodenticide Reform Act must meet the requirements of subsection (a)(1) within two years after such date.".

FEES

SEC. 19. The Act (7 U.S.C. 136 et seq.) is amended by adding at the end thereof the following new section:

"SEC. 32. FEES.—

"No later than one hundred and twenty days after the date of the enactment of the Federal Insecticide, Fungicide, and Rodenticide Reform Act, the Administrator shall require persons—

"(1) in order to register or reregister a pesticide or receive other services under sections 3, 5, 18, and 24(c), to pay such fees to the Administrator as the Administrator determines will be sufficient over a reasonable period of time to establish and maintain a fully self-supportive registration process under this Act; and

"(2) in order to receive services under sections 6, 7, 8, 9, and 13, to pay such fees to the Administrator as the Administrator determines will be sufficient to defray the costs of the services.".

EMPLOYEE PROTECTION

SEC. 20. The Act (7 U.S.C. 136 et seq.) (as amended by section 20 of this Act) is amended by adding at the end thereof the following new section:

"SEC. 33. EMPLOYEE PROTECTION.—

"(a) IN GENERAL.—An employer may not discharge an employee, or otherwise discriminate against an employee with respect to the compensation, terms, conditions, or privileges of employment of the employee, on the ground that the employee has—

"(1) commenced, caused to be commenced, or is about to commence or cause to be commenced a proceeding under this Act;

"(2) testified or is about to testify in any such proceeding; or

"(3) assisted, participated, or is about to assist or participate in any manner in such a proceeding or in any other action undertaken to carry out this Act.

"(b) REMEDY.—

"(1)(A) Within thirty days after the occurrence of an alleged violation of this Act, an employee who believes that the employee has been discharged or otherwise discriminated against by a person in violation of subsection (a) may file a complaint with the Secretary of Labor (hereinafter in this section referred to as the 'Secretary') alleging the discharge or discrimination.

"(B) Upon receipt of the complaint, the Secretary shall notify the person alleged to have committed the violation of the filing of the complaint.

"(2)(A)(i) Upon receipt of a complaint filed under paragraph (1), the Secretary shall conduct an investigation of the violation alleged in the complaint.

"(ii) Within thirty 'days after the receipt of the complaint, the Secretary shall complete the investigation and notify in writing the complainant and the person alleged to have committed the violation of the results of the investigation conducted pursuant to clause (1).

"(iii) Within ninety days after the receipt of the complaint, unless the proceeding on the complaint is terminated by the Secretary on the basis of settlement entered into between the Secretary and the person alleged to have committed the violation, the Secretary shall issue an order providing the relief prescribed by subparagraph (B) or denying the complaint.

"(iv) An order of the Secretary under this subparagraph shall be made on the record after notice and opportunity for an agency hearing.

"(v) The Secretary may not enter into a settlement terminating a proceeding on a complaint without the participation and consent of the complainant.

"(B)(i) If the Secretary receives in accordance with paragraph (l) a complaint of a violation of subsection (a) and determines that the violation has occurred, the Secretary shall order the person who committed the violation to—

"(I) take affirmative action to abate the violation;

"(II) reinstate the complainant to the former position of the complainant, together with the compensation (including back pay), terms, conditions, and privileges of the employment of the complainant;

"(III) pay the complainant compensatory damages; and

"(IV) where appropriate, pay the complainant exemplary damages.

"(ii) If the Secretary issues an order described in clause (i), the Secretary shall, at the request of the complainant, assess against the person against whom the order is issued a sum equal to the amount of all costs and expenses (including attorney's fees) reasonably incurred (as determined by the Secretary) by the complainant for, or in connection with, the bringing of the complaint upon which the order was based and remit the sum to the complainant.

"(c) REVIEW.—

"(1)(A) Within sixty days after the issuance of an order described in subsection (b), an employee or employer adversely affected or aggrieved by the order may obtain review of the order in the United States Court of Appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred.

"(B) The review shall be conducted in accordance with chapter 7 of title 5, United States Code.

"(2) If an order of the Secretary is eligible for review under paragraph (1), the order shall not be subject to judicial review in a criminal or other civil proceeding.

"(d) ENFORCEMENT.—

"(1) If a person fails to comply with an order issued under subsection (b)(2), the Secretary shall file a civil action in the United States district court for the district in which the violation as found to occur to enforce the order.

"(2) A district court shall have jurisdiction to grant all appropriate relief (including injunctive relief and compensatory and exemplary damages) in an action brought under this subsection.

"(3) A civil action brought under this subsection shall be heard and decided expeditiously.

"(e) EXCLUSION.—Subsection (a) shall not apply with respect to an employee who, acting without direction from the employer of the employee, deliberately causes a violation of this Act."

INDOOR EXPOSURE

"SEC. 21. Section 25(c) (7 U.S.C. 136w(c)) is amended—

(1) in paragraph (5) by striking "and";

(2) in paragraph (6) by striking the period at the end of the paragraph and substituting in lieu thereof ";" and

(3) by adding a new paragraph (7) as follows:

"(7) to estabish and enforce standards for indoor human exposure to pesticides.".

CONFORMING AMENDMENTS

SEC. 22. The table of contents contained in section 1(b) (7 U.S.C. 116 note) is amended—

(1) by striking out the item relating to paragraph (4) of section 2(e);

(2) by adding at the end of the items relating to section 2 the following:

"(ff) Data gap.";

(3) by striking out the item relating to paragraph (8) of section 3(c);

(4) by inserting "and States" before the period at the end of the item relating to section 3(f)(3);

(5) by adding at the end of the items relating to section 3 the following:

"(h) Insert ingredients.";

(6) by adding at the end of the items relating to section 6(a) the following:

"(3) Actions in response to false, incomplete, or inaccurate data.";

(7) by adding at the end of the items relating to section 6 the following:

"(g) Effect of cancellation, suspension, or withdrawal.";

(8) by striking out the items relating to section 15;

(9) by inserting after the items relating to section 16 the following:

"Sec. 16A. Citizen suits.

"(a) In general.

"(b) Notice.

"(c) Certain unlawful acts.

"(d) Cost of litigation.

"(e) Legal and equitable relief not restricted.

"(f) Civil action by State governors.";

(10) by striking out the items relating to section 18 and inserting in lieu thereof the following:

"Sec. 18. Exemption of Federal or State agencies.

"(a) Requests.

"(b) Exemptions.

"(c) Length and renewal.

"(d) Consultation.

"(e) Public comment.";

(11) by adding at the end of the items relating to section 22 the following:

"(c) Occupational safety or health standards.";

(12) by adding at the end of the items relating to section 25 the following:

"(f) Regulations concerning pesticide use."; and

(13) by adding at the end thereof the following:

"Sec. 32. Fees.

"Sec. 33. Employee protection.

"(a) In general.

"(b) Remedy.

"(c) Review.

"(d) Enforcement.

"(e) Exclusion.".

BRIEF EXPLANATION OF THE "FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE REFORM ACT"

Section 1 contains the title of the bill. Section 2 states that all amendments altering an existing statute refer to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), unless otherwise specified.

Section 3 contains several changes in definition of basic terms in FIFRA. An additional clause is added to the definition of "active ingredient," stating that the definition shall include an ingredient of a pesticide which will endanger human beings. The primary intent of this change is to allow the Administrator to require data on inert ingredients, to consider potential adverse impacts from inert ingredients in reading regulatory decisions under FIFRA, to list inert ingredients on the label, and to state and enforce pesticide use restrictions specified because of the potential toxicity of inert ingredients. (Several other sections of the "Pesticide Hazard Prevention Act" contain other amendments to FIFRA clarifying how specific provisions of FIFRA shall apply to inert ingredients.)

Section 3 also changes the definitions of "certified," "private," and "commercial" applicators. In all three cases, a clause is eliminated that allows a certified applicator to "supervise the use of" a restricted use pesticide applied by another person. The definition specifying what it means to apply a restricted use pesticide "under the direct supervision of a certified applicator" is deleted. Accordingly, all applicators of restricted use pesticides must be certified under the provisions of section 4 of FIFRA.

The definition of "ingredient statement," which must appear on pesticide labels, is extended to include the name of toxic inert ingredient, in addition to the name and percentage of active ingredients. The definition does not require the percentage of each inert ingredient to be specified in order to help protect from potential competitors the exact formula of pesticide products.

The definition of "unreasonable adverse effects on the environment," the basic standard governing nearly all regulatory decisions under FIFRA, is changed by deleting references to adverse effects on man. The "adverse impacts" standard would still apply to environmental impacts. Elsewhere in this Act, a "will endanger human health" standard is specified for adverse effects on man.

A definition of the term "data gap" is added to the statute. A "data gap" exists when a data requirement prescribed by the Administrator applicable to a given active ingredient or pesticide product has not been satisfied by pesticide registrants through submission of a valid study which has been conducted according to an experimental design judged to be acceptable in response to the data requirement. The definition also specified the criteria the Administrator shall apply in judging whether a given study satisfies a data requirement. These include the study protocols, documentation of the conduct and analysis of the study, and the results of the study.

Section 4 contains a number of extensive amendments to section 3 of FIFRA. Section 4(a)(1) of this Act alters the provision stating the Administrator "shall revise" the guidelines specifying what data shall be required in support of a registration to "may revise." This change is intended to grant the Administrator greater discretion. A provision is added which clarifies what information the Administrator shall require in support of pesticide registrations. "Pursuant to the standards in this Act," the Administrator shall require sufficient information to assess the risks and benefits of pesticides. Such data requirements shall be applied uniformly and consistently to the extent practicable. Waivers or variation in data requirements may be granted only if the advisability of the waiver or variation is clearly established, taking into account public comments received pursuant to a notice proposing such an action. The term "he" is replaced throughout this paragraph by "the Administrator."

Subsection 4(a)(1)(D) of this Act changes the provisions of FIFRA pertaining to the disclosure of information submitted to the Administrator in support of a pesticide registration. Under current law, the Administrator is required within 30 days of granting a registration to make available to the public, subject to the provisions of section 10 of FIFRA, the data submitted by registrants relevant to the registration actions. This Act establishes elsewhere a 90 day comment period after receipt of an application for registration of a pesticide containing a new active ingredient or a changed use pattern of previously registered active ingredient. Section 4(a)(1)(D) of this Act specifies that the Administrator shall make available to the public in an expeditious manner the data submitted in support of such registration applications, or petitions to establish tolerances. Hence, data would be disclosable subject to the provisions of section 10 prior to granting registrations or establishing tolerances during the period the Administrator is evaluating the pertinent applications.

Subsection 4(a)(2) of this Act contains a substantial rewrite of section 3(c)(2)(B) of FIFRA. The amendment is substantially identical to the language contained in H.R. 5203, the bill which passed the House August 11, 1982. This section of FIFRA specifies the procedures and provisions governing the joint development and sharing of "defensive data" as required by the Administrator to fill a data gap. The new provisions would:

(1) Allow registrants 120 days to respond to an EPA data request, rather than the present 90 days;

(2) Require, rather than permit, registrants to enter into joint data development arrangements, unless all registrants agree otherwise;

(3) Establish a cost-sharing arrangement under which each of the joint data developers would pay an initial cost of $100,000 or divide equally 25 percent of the estimated total cost, whichever is less, and pay the balance of the costs as needed on a pro rata basis, according to individual United States market share of the pesticide in question. Each participant's share would be determined by an independent auditor, based on the most recent available sales figures;

(4) Provide for suspension of the registration of any registrant that fails to enter into a joint data development arrangement for the products for which the additional data are requested, and make such arrangement enforceable in a Federal district court action instituted by any of the participants;

(5) Expand the scope of hearings provided for registrants who appeal such suspensions to allow consideration of whether the Administrator had a valid and reasonable basis for requiring the additional data. Now such hearings are restricted to considering whether the registrant has failed to take the action required to provide the requested data and whether the suspension order provides for disposition of existing stocks consistent with the Act. Other hearing provisions would be unchanged;

(6) Provide a 15-year period of protection for defensive data, following the date the data were submitted, during which time any party could obtain the right to use defensive data by joining the joint data development group and reimbursing the previous members of the group. The new member would pay a share of the total data cost in proportion to the number of persons sharing in such cost. The payment then would be distributed among the previous group members according to the amount of their contribution;

(7) Provide for data submitted by a registrant after September 30, 1978, to replace previous data that are deemed scientifically insufficient by generally accepted standards to be treated in the same way as defensive data requested by EPA, except that other registrants would be entitled, but not required, to participate in joint data development arrangements; and

(8) Provide a transition between current procedures and the new procedures of this amendment by giving persons, who had received notices from EPA asking for additional data to support existing registrations, the right to compel joint data development with other registrants currently performing testing. This option must be exercised within 120 days after enactment of the bill.

Subsection 4(a)(3) of this Act extends the comment period from 30 to 90 days for persons wanting to comment on applications for registration. Subsection 4(a)(4) adds a requirement that the Administrator shall, when registering a pesticide, make a written determination with respect to the active and inert ingredients of a pesticide. Another change specifies that the determination shall be that the pesticide, when used in accordance with widespread and commonly recognized practices, "will not cause unreasonable adverse effects on the environment," instead of "will not generally cause . . ." as under existing law. A new subparagraph (E) is added establishing the new "will endanger" standard applicable to a pesticide's potential hazards to man. The Administrator is further directed to consider a full range of potential chronic health effects in determining whether a pesticide "will endanger" human beings.

Subsection 4(a)(b) of this Act eliminates the Administrator's existing authority to waive efficacy data requirements. A new provision is added requiring the Administrator to publish in the Federal Register a summary of the factual basis supporting registration actions. Persons adversely affected or opposed to registration actions are granted the same remedies to initiate judicial review of the action as specified in section (6) of FIFRA.

Subsection 4(a)(5) of this Act removes the Administrator's discretionary authority to deny registrations when the basic requirements of paragraph (5) are not met. The clause "the Administrator may refuse to register a pesticide" is changed to "the Administrator shall . . .".

Subsection 4(a)(6) of this Act alters when the Administrator may grant a conditional registration for a pesticide under section 3(c)(7) of FIFRA. The new provision prohibits the Administrator from granting a conditional registration for a use of a pesticide which has previously been cancelled or suspended. The same prohibition applies if a registration was voluntarily withdrawn, if the Administrator determines that the voluntary withdrawal was associated with concern over potential adverse effects of the pesticide. Another provision is added requiring the Administrator to make available to the public, subject to section 10 of FIFRA, the data submitted in support of a conditional registration, along with a list of outstanding tests to be performed on the pesticide and the timetable governing completion and submission of the tests.

Subsection 4(a)(7) of this Act strikes the so-called "Grassley-Allen" amendment pertaining to the conditions which must be met before initiating an interim administrative review (formerly known as an RPAR review, now called a Special Review). The Grassley-Allen amendment prohibits the Administrator from initiating a Special Review, unless the Administrator has "a validated test or other significant evidence raising prudent concerns of unreasonable adverse risk to man or the environment."

Subsection 4(b) amends the provisions pertaining to classification of pesticides under section 3(d) of FIFRA. The Administrator may classify a pesticide for general use when it "will not cause unreasonable adverse effects . . ." rather than when it "will generally not cause . . .". The Administrator is further directed in all decisions pertaining to classification to consider the potential contamination of groundwater in determining whether a pesticide should be classified for restricted use. The allowance in section 3(d)(1)(c)(ii) that a restricted use pesticide may be applied "under the direct supervision" of a certified applicator is eliminated.

Subsection 4(c) amends the "miscellaneous" provisions in section 3(f) of FIFRA. Under current law, a pesticide registration is prima facie evidence that a pesticide is in compliance with the Act, unless a cancellation proceeding is in effect. This provision is amended to provide that registration of a pesticide constitutes such evidence only if the active ingredient has been registered after enactment of this Act or re-registered since October 21, 1972, and provided that a cancellation proceeding is not in process and that no required studies are outstanding. The Administrator is granted authority to consult any state, in addition to other federal agencies, in connection with regulatory action under FIFRA.

Subsection 4(g) extensively amends the provision of FIFRA requiring that pesticides be re-registered "in the most expeditious manner practicable.". The new provision requires the Administrator to publish in the Federal Register a list of pesticide active ingredients not re-registered since September 31, 1978, in order of their priority for re-registration. The list is to be published by 120 days after the date enactment of this Act. In establishing the order of the list, the Administrator is directed to give highest priority to pesticides used in high volumes on food or feed crops, and to pesticides shown to cause mutagenic effects in an appropriately designed study using a bacterial test system. The establishment of the list shall not be subject to judicial review.

Following the same schedule, the Administrator is required to also publish in the Federal Register a list of all data gaps by active ingredient. Within one year of publication of the list of active ingredients and data gaps, the Administrator is required to initiate steps under section 3(c)(2)(B) to fill the data gaps as expeditiously as possible.

Subsection 4(g)(4) requires the Administrator to issue a notice of intent to suspend a pesticide's registration if there are outstanding data gaps on the pesticide and the Administrator has failed to include the ingredient on the re-registration priority list. Subsection 4(g)(5) stipulates that a registrant must conduct studies to fill data gaps and report the results of the studies to the Administrator within three years after the publication of the list and data gaps under paragraph (3) above. Data gaps shall be filled according to the schedule specified in the 3(c)(2)(B) letters sent to registrants. When a short-term study is needed to establish appropriate dosage levels in a chronic feeding study, up to an additional year is provided for reporting the results of the chronic study to the Administrator. The Administrator is directed to issue a notice of intent to suspend a pesticide's registrations if the prescribed schedule for filling data gaps is not followed.

Subsection 4(e) adds a new subsection 3(h) dealing with inert ingredients. The Administrator is required to issue regulations specifying what tests shall be undertaken on inert ingredients. Information on inert ingredients may be disclosed under the provisions of section 10, provided that the Administrator may not disclose the percentage of each toxic inert ingredient unless such disclosure is necessary in the public interest.

Section 5 changes the requirements that must be met by persons seeking certification to apply restricted use pesticides. The amendment eliminates the existing clauses that prohibit a state from requiring a written examination as part of the certification process.

Section 6 of this Act restricts the Administrator from granting an experimental use permit for a use of a pesticide under section 5(a) of FIFRA if the use has previously been canceled, suspended, or voluntarily withdrawn for health or environmental reasons (unless there are no available alternatives). The discretion of the Administrator to suspend an experimental use permit if the terms of the permit are violated or inadequate to avoid unreasonable adverse effects on the environment is eliminated by changing "may revoke" to "shall revoke." In addition, the Administrator is required to revoke a permit if he finds that the permit will not yield data useful in satisfying section 3 registration requirements.

Section 7 of this Act amends the administrative review and suspension provisions contained in Section 6 of FIFRA. A new subsection (3) is added to the section 6(a) of

FIFRA. This provision authorizes the Administrator to immediately issue a notice of intent to cancel a pesticide's registrations, or revoke tolerances, if it appears to the Administrator that false, misleading, or inaccurate information has been submitted in support of the registrations or tolerances. If a hearing is held pursuant to the notice, the issues for resolution shall be limited to whether false, misleading, or inaccurate information was submitted to the Administrator. The Administrator is prohibited from canceling a registration or revoking a tolerance if other valid data has been submitted to the Agency to replace the questionable data. The hearing shall be concluded within 90 days of issuance of the notice, and the Administrator's final decision is required 30 days after completion of the hearing.

Subsection 7(b) of this Act amends section 6(b) of FIFRA. The term "generally" is struck in the provision stating that the Administrator may issue a notice of intent to hold a hearing or cancel a pesticide's regulation because it appears to the Administrator that a pesticide "generally causes unreasonable adverse effects" when used in accordance with widespread and commonly recognized practices. The "will endanger" standard applicable to human health effects is added in the provision discussed previously in this paragraph, with specific mention of potential harm to children permitted to work in areas treated with pesticides. The "may issue a notice of intent. . ." is amended to read "shall issue. . .". The standing of a citizen, company, or public interest group to initiate and participate in a hearing under FIFRA section 6(a) or 6(b) is restored by adding a clause clarifying that a "person adversely affected by the notice" may include pesticide users, pesticide registrants, or a member of the public with or without an economic interest in the terms of the cancellation notice. Subsection 7(c) of this Act restricts the scope of a hearing held to consider data not available to the Administrator either when the registration of a previously cancelled use of a pesticide to cancellation hearing was terminated or when the cancellation decision was issued.

Subsection 7(d) adds a new section entitled "Effect of Cancellation, Suspension, or Withdrawal" of a pesticide registration. When a use or uses of a pesticide have been cancelled, suspended, or voluntarily withdrawn because of health or environmental concerns, such use or uses shall not be eligible for registration under sections 3, 5, or 24(c) of FIFRA, unless there are no alternatives to control new or expanding pest infestation. The Administrator must also have data demonstrating that the pesticide will effectively control the pest infestation.

Subsection 8 of this Act amends the reporting requirements applicable to pesticide applicators as specified in section 11 of FIFRA. The Administrator is authorized to issue regulations requiring commercial applicators to maintain records and file annual reports with the Agency regarding the time, place, quantities, and mixtures of pesticides applied, and any other information the Administrator determines is necessary.

Section 9 repeals the indemnification provisions of FIFRA which require the Administrator to compensate persons who suffer loses as a result of a suspension or cancellation of a pesticide (except for any current cases in which the indemnification procedures have already been initiated).

Section 10 of this Act establishes a private right to sue for damages or equitable relief, or both in the district courts of the U.S. A suit may be brought against a person, company, government agency, or the Administrator. An action may not be commenced under this section against a person or company, other than the Administrator, prior to sixty days after notice of the alleged violation has been made to the Administrator, the state, and the defendant. An action may also not proceed if the Administrator or state has commenced and is diligently prosecuting a civil or criminal action on the alleged violation. Legal provisions pertaining to the location, timing, and nature of unlawful acts subject to private suits under this section are specified. A court may award the costs of litigation to a prevailing party, other than the U.S. A governor of a state is granted authority to sue the Administrator under this section.

Section 11 of this Act amends the "Imports and Exports" section of FIFRA. The section 17(b) foreign government notification requirement is extended to include cases where a pesticide's registration has been voluntarily withdrawn.

Section 12 of this Act extensively amends the "Emergency Exemption" provision contained in section 18 of FIFRA. The Administrator is authorized to grant an exemption to a state or federal agency from the provisions of FIFRA when such an exemption is necessary to prevent or substantially mitigate an imminent and substantial danger to public health or welfare. An exemption for use of a pesticide may not be granted if there is an efficacious registered pesticide available to fill the pest control need for which the exemption is sought, or if an alternative pest control technology is available.

Subsection 12(c) of this Act limits the time period for an emergency exemption to one year, and allows for no more than two renewals. The Administrator is required to publish notice in the Federal Register within 10 days of applications for emergency exemptions, and to consider public comments received on the applications, unless the Administrator determines that it is necessary to grant an exemption within 48 hours of receipt of the application because of extraordinary emergency circumstances. The Administrator is further directed to disclose to the public all information contained in an application for an emergency exemption within 30 days of receipt of a request for such information. The Administrator is also required to publish in the Federal Register in a timely manner his decision and the reasons therefor.

Subsection 12(g) of this Act states that in no case may section 18 of FIFRA authorize an unregistered use of a pesticide without the prior approval of the Administrator. In extraordinary emergencies, the Administrator must act on an application for an emergency exemption within 48 hours of receipt.

Section 13 of this Act amends the research and monitoring provisions contained in section 20 of FIFRA. The amendment contains additional specificity regarding the content of the national monitoring plan called for in section 20(b) of FIFRA. The plan shall be proposed by rule not later than June 1, 1984, and effective not later than October 1, 1984. The Administrator is further required to assure the quality of data collected pursuant to the plan, and is authorized to make available the monitoring data to the public in a timely and useful way.

Section 14 of this Act amends Subsection 21(b) of FIFRA requiring that the Administrator "shall", rather than "may, at his discretion", solicit the views of all interested parties on actions taken under this Act.

Section 15 of this Act transfers responsibility for regulating occupational exposure to pesticides to the Occupational Safety and Health Administration.

Section 16 of this Act amends Section 24(b) and (c) of FIFRA pertaining to the authority of states to regulate the sale and use of pesticides. A state is authorized to impose or continue in effect requirements for pesticide labelling or packaging in order to enforce a prohibition on the use of a federally registered pesticide or device in the state. The Administrator must be notified of such requirements, and keep a record of them available for public inspection.

Section 24(c) of FIFRA is amended to refer to "pesticides which are registered under paragraph (5) or 7(A) of section 3(c) . . .", rather than to "federally registered pesticides . . .". The effective date for a registration under section 24(c) is changed to ninety days after the date on which the Administrator is notified by a state of the state's intention to issue the registration, assuming the Administrator does not disapprove the use during the ninety day period. The clause prohibiting the Administrator from disapproving a section 24(c) registration on the grounds of a lack of essentiality is eliminated. The Administrator is also authorized to deny a section 24(c) registration if the pesticide use is unnecessary to meet special local needs. The Administrators discretion to disapprove a special local need registration that is inconsistent with the Federal Food, Drug, and Cosmetic Act is eliminated by changing "may immediately disapprove the registration" to "shall immediately disapprove . . .".

Subsection 16(b)(3)(D) specifies that a rebuttable presumption shall arise that a special local need for a pesticide does not exist if five or more states seek the same pesticide for the same special local need. The discretion of the Administrator to suspend the authority of a state to issue registrations under section 24(c) is eliminated when the Administrator determines a state is not capable of exercising adequate controls to assure that state registrations are granted in accordance with the provisions of FIFRA. This change is brought about by changing "may suspend the authority" to "shall suspend . . ." A new subsection is added stipulating that special local need registrations shall expire after five years, and may be reissued in accord with this subsection.

Section 17 of this Act amends the provisions pertaining to the appointment of members to the Scientific Advisory Panel. The amendment directs the Administrator to appoint the seven panel members from several different disciplines, and to stagger the three year terms so that the terms of no more than three panel members expire in any year.

Subsection 17(b) of this Act establishes a new requirement that the Administrator promulgate within one year regulations concerning the safe use of pesticides. The regulations shall require measures that protect individuals in the vicinity of pesticide applications, including steps to guard against exposure to pesticide drift from aerial applications. Posting areas where pesticides are to be applied, and other warnings are among the protective measures the Administrator should consider.

Section 18 of this Act amends the provisions delegating to states primary responsibility for carrying out programs to enforce FIFRA. States are required to administer an

enforcement program "at least as stringent as sections 12 and 25" of FIFRA. This change would allow states to impose enforcement provisions and regulations more stringent than reguired by federal law. A new subsection (d) is added which grants states two years to adopt an enforcement program responsive to the new requirements and regulations established pursuant to the National Pesticide Hazard Prevention Act.

Section 19 of this Act adds a new section 32 to FIFRA. This section directs the Administrator to collect fees for registration actions under FIFRA. The fees shall be set at a level sufficient to make the pesticide program self-supporting.

Section 20 of this Act introduces another new section to FIFRA addressing the protections governing employees who have commenced actions, testified, or otherwise participated in an enforcement action or complaint under FIFRA. Remedies patterned after employees protection provisions in other statutes are specified, including the right to file and pursue a complaint with the Secretary of Labor.

Section 21 of this Act authorizes the Administrator "to establish and enforce standards for indoor human exposure to pesticides."

Section 22 of this Act contains several changes in the FIFRA statute's table of contents necessitated by the "Federal Insecticide, Fungicide, and Rodenticide Reform Act."

FAKING IT—THE CASE AGAINST INDUSTRIAL BIO-TEST LABORATORIES

(By Keith Schneider)

Within the fervid, unseemly world that was Industrial Bio-Test Laboratories, the place where things turned gruesome was a room they called the "Swamp." In 1970, IBT's directors installed a Hoeltge automatic watering system for one large animal feeding room midway through Number Three building. Although it was designed to fill drinking bottles and flush wastes from hundreds of rodent cages, the equipment rarely worked properly. Faulty nozzles sprayed the room with a continuing chilly mist, showering the caged animals. Water streamed off cages and racks, submerging the floor under a four-inch deep pool. Mice regularly drowned in their feeding troughs. Rats died of exposure. No technician entered the Swamp without rubber boots, and many wore masks to protect themselves from the hideous stench of disease and death.

During the course of a two-year feeding study, involving more than 200 animals, the mortality rate in the Swamp reached 80 percent. Worst of all was cleaning the cages. Dead rats and mice, technicians later told federal investigators, decomposed so rapidly in the Swamp that their bodies oozed through wire cage bottoms and lay in purple puddles on the dropping trays.

It was in conditions like these in the Swamp and four other major animal feeding areas that IBT conducted thousands of critical research projects for nearly every major American chemical and drug manufacturer, dozens of foreign concerns, and several federal agencies as well. Nearly half of IBT's studies were used to support federal registrations of a mammoth array of products: insecticides, herbicides, food additives, chemicals for water treatment, cosmetics, pharmaceuticals soaps and bleaches, even coloring for ice cream.

One of the nation's oldest independent laboratories, during its last decade IBT was also the largest, performing more than 1,500 studies in its main facility in Northbrook, Illinois, twenty-five miles north of Chicago, and in two satellite laboratories in Neillsville, Wisconsin, and Decatur, Illinois. It has been estimated that between 35 and 40 percent of all toxicology tests in the country were conducted by IBT.

Still, for all its prosperity and spurious prestige, IBT's business crumbled rapidly starting in 1976, when at the zenith of the lab's corporate strength, investigators from the U.S. Food and Drug Administration (FDA) uncovered what they allege is the most massive scientific fraud ever committed in the United States, and perhaps the world.

In May 1981, after a five-year joint FDA-Justice Department probe, Dr. Joseph C. Calandra, IBT's president, and three of his top associates—Dr. Paul Wright, section head for rat toxicology; Dr. Moreno Keplinger, manager of toxicology; and James B. Plank, senior group leader for rat toxicology—were indicted in Chicago by a special federal grand jury. Each defendant is accused of eight counts of conducting and distributing fake scientific research and then of attempting to cover up the scheme. After several postponements, the IBT trial is scheduled to begin April 4. If convicted on all counts, each defendant faces up to forty years in prison and fines totaling over $40,000.

U.S. attorneys in Chicago say the IBT prosecution will be torturous. Calandra and the other defendants claim they are innocent, and they have hired the Midwest's finest trial attorneys to make their case. In the months since the indictment, the defendants have filed stacks of legal motions seeking dismissal of the charges. They insist that FDA and Justice Department agents "harassed, abused, misled, bullied, intimidated and coerced" key witnesses, in order to prove their case. Chief FDA investigator Carlton Sharp is accused of "abuse of the grand jury," because he knowlingly presented "false, misleading and inflammatory" statements during his two grand jury appearances.

Similar tactics were employed by defense attorneys in two cases prosecuted several years ago by U.S. attorneys in Chicago with distressing results. In the first case, the government gained an eleven-count indictment in 1977 against Velsicol Chemical for concealing key scientific results on the carcinogenicity of the restricted insecticides chlordane and heptachlor. The case was dismissed in 1979 on procedural grounds. U.S. attorneys were turned away one more time in 1980 in a case against G. D. Searle, a major pharmaceutical manufacturer, accused of falsifying scientific research. In that case, Chicago prosecutors could not gain an indictment.

In the IBT case, however, the prosecutors successfully have answered each motion. Now that it is ready for trial, Frederick Branding, a former federal prosecutor who recently left the Chicago office, calls it "one of the most important cases ever investigated out of this office."

During the trial, which is expected to last at least six weeks, prosecutors hope not only to prove the defendants' guilt, but will also outline a pattern of chemical company knowledge of fraudulent research taking place at IBT. They will also attempt to prove that those practices were promoted by chemical company executives in order to secure results that would pass registration standards at the FDA and the U.S. Environmental Protection Agency (EPA). Said one Justice Department investigator: "IBT became the largest testing lab in the country, because companies knew this was the place to get the results they wanted."

A primary example, prosecutors allege, is the case of defendant Dr. Paul Wright. Before he started work at IBT in March 1971, Wright was employed as a toxicologist by Monsanto in St. Louis. Prosecutors say Wright went to IBT to manage Monsanto's contract to test the safety of TCC, the company's anti-bacterial agent widely used in popular deodorant sprays. TCC was under suspicion by the FDA for causing testicular atrophy in laboratory rats fed the compound. At the same time, Monsanto was counting on TCC as a major product to replace hexachlorophene, another anti-bacterial chemical just withdrawn from the American market. Monsanto needed a "clean" IBT study to convince FDA that TCC was safe so the agency would grant them a registration to increase the levels of TCC in deodorant soaps.

Wright stayed at IBT for eighteen months, to supervise most of the TCC research then returned to Monsanto where he was named its manager of toxicology for its department of medicine and environmental health. While at Monsanto, according to prosecutors and witnesses, Wright wrote several critical sections of the final TCC summary report and pressured a key IBT scientist into changing his finding that TCC did, in fact, cause testicular atrophy in laboratory rats. The sections Wright authored were included in IBT's summary report which was sent to the FDA. The agency eventually approved the new higher levels is some deodorant soaps. Millions of pounds more of TCC are now manufactured each year by Monsanto as a result.

IBT's test on TCC was just one of 22,000 toxicology studies the lab performed in the quarter century it operated. Since late 1979, pathologists at FDA, EPA, and in Canada and Sweden, have undertaken an immense and complex program of auditing IBT studies. They have determined that more than 10,000 were used to register products for the American market, and they consider nearly 2,000 as primary research. Most of these were for 325 insecticides and herbicides. The vast majority have been declared by American and Canadian scientists to be "invalid."

CAPTAN

Until recently, the details of the joint investigation were untouchable as prosecuting attorneys, defendants, and witnesses declined to comment pending the outcome of the case. Last December, however, as part of a motion to dismiss made by Calandra's attorneys, almost 1,000 pages of secret grand jury testimony and related documents were entered as testimony in U.S. District Court, publicly revealing for the first time the nauseating saga of IBT's demise.

Most infuriating is the legacy left by IBT's scandal. There are few Americans who do not make daily contact with chemicals IBT tested and declared "safe" chiefly from pesticide residues contained in their food and water. Since the scheme was first pinpointed, some of those chemicals have been declared by federal agencies to be hazardous to human health and environment. Many others are accused by researchers across the country of causing illnesses and environmental contamination.

On this continent and in Europe, health authorities have begun to take regulatory action against chemicals registered with IBT data. Sweden recently outlawed eight IBT pesticides. Last year, after studying IBT data on 113 pesticides, Canada outlawed six and severely restricted application of the fungicide captan. In the United States, the EPA's final summary report on 212 pesticides registered with IBT data is due to be released in May, according to Kevin Keany, an official in the Office of Pesticide Programs (OPP). In other actions, the EPA has suspended the use of the herbicide Silvex, and canceled most uses of the insecticides toxaphene and DBCP, all of which were registered with extensive IBT data. Still, one thing is all too clear: the magnitude of the IBT scandal may never be known, and its effect is likely to carry on for generations.

There is nothing remarkable in the way Frontage Road runs alongside Interstate 94 in Northbrook. Like a hundred other two-lane industrialized corridors across America, Frontage Road is home to a dull array of squat motels, three-story corporate headquarters, and small manufacturing plants.

It was here in 1953 that Joe Calandra established IBT. Then a 35-year-old graduate of the Northwestern University School of Medicine, the young Calandra, according to colleagues, was a man of high scientific standards who also knew how to make a dollar. Calandra could foresee that a toxicology lab which contacted its services was very much a growth business of the future.

All signals pointed that way. The federal government was increasing the standards required for registration. Manufacturers, pressed to account for the safety of their products, needed firms to prepare the scientific research. And Calandra, from the start, had a real prize for a client: the Pentagon.

SILVEX

Between 1953 and 1977, in an effort to discover better ways to preserve food for troops during war, the Pentagon paid IBT more than $8 million to carry out a long-term study in which irradiated beef was fed to mice and rats. The Pentagon was not the only U.S. agency to contract IBT's services. In the early 1970s, the National Institute of Drug Abuse spent $972,000 on four long-term feeding studies, one of which was to test the toxicity of methadone. The FDA too was a client. In 1974, the agency spent slightly more than $400,000 on four tests of their own.

IBT grew quickly. Behind the first two administration buildings stood four nearly identical animal buildings, long and low, used to house IBT's horde of rats, mice, guinea pigs, dogs, and chickens.

Throughout the 1950s and early 1960s, IBT's growth lagged far behind the demand for its services. The lab's reputation circulated quickly through the science and development areas of corporate America. IBT's work was good, they said. It was moderately priced. Most importantly, it passed examination in Washington. While its finances were closely guarded, several estimates put IBT's revenues in the mid-1960s at close to $2 million annually, enough to attract the attention of the officers of Nalco Chemical (1981 revenues: $665.5 million), a specialty chemicals manufacturer based in Oak Brook, Illinois. In 1966, Nalco bought IBT from Calandra for a reported $4.5 million.

Backed by Nalco's millions, Calandra began a program of expansion to turn his pioneering lab into America's largest chemical testing firm. Two smaller satellite labs were built. In 1970, construction began on a $2 million, four-story research building on the Frontage Road site. Calandra was also making several important staff appointments. Dr. Moreno Keplinger was named manager of toxicology in 1970, followed by James Plank's being named as group leader of rat toxicology. In March 1971, Paul Wright joined the staff from Monsanto, and in August, Dr. Donovan E. Gordon became IBT's pathologist.

During the same period, events were occurring in Washington which turned a river of business IBT's way. The environmental movement, an infant in the early 1960s, had matured by the end of the decade, compelling President Nixon to establish the EPA in 1970. With the agency came publication of dramatically more stringent regulations for pesticide registration and use, requiring a broad range of scientific studies. Thought even the largest companies like Dow prided themselves in maintaining laboratories of their own, they too contracted with IBT.

IBT thought it was ready for the new business and welcomed all its new clients. But it was soon in the position of having much more than it could handle.

If they were not so serious, the continuing slapstick events at IBT might seem humorous. The first time Manny Reyna, an animal technican at IBT, was ordered out on a mouse hunt, he thought it was a joke. Armed with a plastic squeeze bottle filled with chloroform and outfitted in thick gloves and a white lab coat, Reyna joined a squad of technicians in a search and-destroy mission for rats and mice running wild at IBT.

DBCP

Soon after he was hired at IBT in May 1971, Reyna realized that not all the rodents he tended finished their lives in cages. Every week, dozens of research mice and rats squeezed through the bent wires of IBT's mangled cages, raced across the long wooden racks and dropped to the grimmy floor to breed with wild rodents living behind tall stacks of animal bedding piled in the corners of the lab's feeding rooms. During the night mice climbed back up on the racks to feed on spilled food and feces, and they persisted in poking their snouts through the bottom of cages. "For some reason, they would cannibalize the toes of the animals that were standing on the wire," Reyan testified in his grand jury appearance. "In the morning we would see where the toes had been chewed off. So, you know, we were at a loss as to what to do. . . . It was a never-ending battle."

The only temporary solution was a mouse hunt. For hours the armed squad would flush rodents from cover and douse them as they skittered past. "The animals were very wild," Reyna testified. "They would run from humans. So our only chance was to slow them down with the chloroform." Once snared, technicians sacrificed their bounty, throwing the carcasses into plastic bags, then tossing the mess onto trash heaps behind the animal buildings.

Reyna had other choice stories for federal investigators. More than once, he said, rats on two-year feeding studies were fed the wrong compound, something IBT never reported to its sponsors. Then there was the time the air conditioner in the brand new research building quit, and technicans hauled half a ton of ice to the third floor, setting up fans behind the blocks to cool hundreds of animals housed there. "It made a mess, and of course the temperature didn't change but a degree or two," Reyna said.

Occasionally, mouse hunts would get out of hand. During the course of the Pentagon's irradiated beef study Reyna claimed the hunt became so enthusiastic that chololorm fumes killed dozens of caged reseach mice. "I don't know how many mice died that were on tests," he said. "It was just amazing; it was a substantial number like 50." Was the test halted or was its sponsor notified? "No, the test continued," according to Reyna. "I think they just filled in the gaps."

SENCOR

Wherever Reyna looked there were follies to be witnessed. One of his responsibilities was keeping track of frozen tissues which needed to be stored in the main freezer upon arrival from IBT's satellite labs. One day a panel truck backed up to IBT's receiving dock loaded with twenty-five or thirty boxes of frozen tissues. Later Reyna found out that Gerald Kennedy, a high IBT official, had arranged with a meat processor in Wisconsin to butcher hogs involved in a skin burn test at the Neillsville lab. "So he had all of this meat processed and sent to us evidently under the guise of being sample tissue for a sponsor," Reyna told federal agents. "Meanwhile, I had to just about nail that freezer door shut to keep it from popping open. I mean that freezer was just packed."

The Justice Department's prosecution, headed by Deputy Chief of Special Prosecutions Scott Lassar, involves fraudulent research alleged to have been conducted on four compounds: the insecticide Nemacur and the herbicide Sencor produced by Chemagro, now owned by Mobay Chemical; the drug Naprosyn manufactured by Syntex to treat arthritis swelling; and Monsanto's anti-bacterial agent TCC.

On April 14, 1971, IBT began two long-term feeding studies for Chemagro's newest agriculture chemicals. The company hoped that Nemacur would compete with Dow and Shell's popular soil fumigant DBCP. Sencor was a multi-purpose herbicide.

Chemagro's protocols for the two studies called for feeding two groups of mice for eighteen months. In addition, a control group would be established and fed a known animal carcinogen, in order to make comparisons with the results found in animals fed the test compounds.

On June 19, 1972, IBT sacrificed Chemagro's mice studies, fourteen months after they began. This was not reported to the company until the summer of 1977, when IBT's testing activities had nearly come to a halt.

In late July or early August, Philip Smith, then a 25-year-old technician at IBT, was assigned by Dr. Wright to prepare the final summary report for the two studies. At the same time, Wright handed Smith a completed mortality table detailing the number of mice that had died and the dates of their deaths. It showed that almost no mice died prematurely. Smith told the grand jury that he knew immediately that the table had been faked. How? Michael Black, the technician who tended to the feeding study, had told Smith that the mortality of the mice on Chemagro's tests had been enormous. In fact, Wright ordered 1,000 new mice to take the place of mice that died during the test and specifically ordered Black not to report the addition in his records. Attorneys for Monsanto said Wright would not comment

use directly before or during games is natural but often inaccurate, especially in the case of cocaine, "It's the most insidious," the doctor said, "because you can't detect someone using it. You can go to the water fountain in the dugout or stand in the outfield and snort a line and nobody knows if you're careful enough to brush it off your mustache."

Dr. Pursch said that talented professionals, regardless of their field, separate their jobs and their habit as long as they can but that eventually their addiction encroaches on their work time. "Every doctor I've ever treated says he never harmed a patient," Dr. Pursch said. "Every priest says he never fell asleep in the confessional. All of us who are conscientious take pride in our jobs. Even to ourselves we want to say it never affected our work. It takes two or three years before a person can get honest about that."

Dr. Pursch said he faulted coaches and sports administrators for ignoring addicted athletes for too long, letting them go until they failed to appear at the ball park, which is a late sign of trouble. Interviews with coaches and general managers, even the most well-meaning and experienced, largely supported his contention. Frank Layden, the general manager in Utah who eventually confronted Drew with his addiction, said he recognizes drug-using athletes by their tardiness, absence or financial difficulties, not be their play. Bob Ferry, the general manager of the Washington Bullets who waived John Lucas, a confessed cocaine user, also cited lateness and requests for loans rather than performance as the telltale signs. Tommy Lasorda, manager of the Dodgers who has twice lost Steve Howe to drug rehabilitation, said he detected nothing and then launched into a tirade on the pointlessness of hiding from life's responsibilities.

"You have a tendency not to see it when it's your own team," Layden said. "It's like the fixes. Some of the greatest coaches in the game didn't know their teams were dumping games. When a player plays a poor game, what's wrong? Maybe they have a little flu. You keep putting it aside. Maybe our eyes are not focused on what they shoud be."

Herzog, who recently welcomed Lonnie Smith back from a stay in a drug rehabilitation center, showed a sophisticated eye. "There are personality changes," Herzog said. "The guy is all of a sudden a different person. Then there are performance changes. He's lazy. He's drowsy, tired all the time."

The addicted athlete affects the course of the game in other ways than his own reduced performance. Often, as in the case of Smith and Howe, he removes himself from the lineup to seek treatment. "The team may play a little harder," Herzog said. "But you can't tell how many games it costs you. You have to look at it as any other injury."

Before the point of acknowledging a problem, an athlete involved with drugs can subtly influence the team's cohesiveness. "He starts getting away from the guys because he doen't feel comfortable around them," said Larry Brown, the former Nets Coach now at the University of Kansas. Brown's former pro players included David Thompson and Michael Ray Richardson, both of whom have undergone treatment for cocaine use.

"He doesn't deal with people who are straight in the same way. He feels they're scrutinizing him, judging him," Brown said.

"One bad apple can spoil the whole bunch," said Drew. "You can influence other people to use drugs because misery loves company. I didn't try to force it on anyone but I used to hold resentment toward the guys who didn't do it."

"Usually on a team there are a few leaders, people who form opinions, set morale," said Dr. Barry Brody, a psychologist who runs a California clinic for athletes. "When one of them is involved, the whole thrust of the team is reduced by their inability to play as they once played."

The head-in-the-sand attitude of so many coaches and general managers seems to result from a combination of ignorance and fear of tarnishing the image of professional sports, which markets its heroes as the idols of American youth. "Being secretive, are you protecting the image or are you protecting the player?" asked Larry Brown. "It's so difficult when you're concerned with the image of the league and also trying to help these guys. It seems that one thing is fighting the other."

"There's a self-interest in hoping you can keep it under the rug," said Larry Fleisher, the head of the N.B.A. Players Association. "It's natural to feel it would be wonderful if this didn't exist."

Many people involved in sports believe it is an unfair burden to expect athletes to behave better than people in other professions, an unfair raction to be outraged by an addicted quarterback but tolerant of an addicted movie star or lawyer. "In this industry players tend to be viewed not as human beings but as symbols," said one players' association official who asked not to be identified. "That's not fair and that pressure causes further problems."

Tony Attanasio, an agent who represents Howe, blamed childhood fantasies of fans for the unreasonable expectations of athletes. "The vicarious relationship is very strong," Attanasio said. "It makes the public say he's playing a game, making a million dollars and he gets in trouble and that's disgusting."

"When you combine the salaries and racism with the use of drugs there's a very negative image," said Fleisher, citing 1980 article in The Los Angeles Times that said that 40 to 75 percent of N.B.A. players were using cocaine. "The reaction was 'What the hell do you expect from a bunch of overpaid black guys? They're using the money we spend on tickets to snort cocaine.'"

The sports executives interviewed said that their fans had been very supportive of confessed drug and alcohol users who sought treatment and returned to the lineup. None acknowledged a loss of attendance or a public relations effort to mute criticism. But Fleisher predicted that the public disapproval will eventually have financial ramifications apart from the box office: in canceled endorsement contracts for offending athletes or in reluctance on the part of the television networks to spend millions on games that their advertisers don't want to be associated with.

For the time being, however, that is not the focus of concern in league offices or among the people who run the players unions. The labor leaders are seeking ways to help their afflicted members, setting up confidential telephone hotlines and assembling lists of reputable doctors and rehabilitation centers. They are also preparing for what could be a new set of collective bargaining issues: Whether teams are required to pay salaries to addicts like Howe who require repeat rehabilitation, whether publicly disciplining drug users violates their right to confidentiality and how to insure that marginal players receive the same quality of care as stars.

The league officials, for their part, are concerned that addicted athletes are dealing with organized crime figures and vulnerable to gamblers who might seek their cooperation in fixing games. None of those interviewed acknowledged encountering such a situation, but all—including doctors and law enforcement officials—hypothesized that such athletes could be compromised because of their acute financial distress caused by an expensive cocaine habit and their fear of being exposed. Each league and several individual teams now have security directors, usually former F.B.I. agents, who work with a nationwide network of freelance law enforcement officers. The leagues also arrange or encourage seminars to educate players, coaches and team officials.

"We can't say that a particular player went that route," said Tony Vaccarino, the F.B.I.'s coordinator for gambling and sports bribery investigation and a frequent locker-room lecturer. "But we know the way illegal gamblers conduct their business. A player has a definite edge in knowing what's going on with his team and that's valuable information if he needs money to support his habit. Also, we emphasize extortion a great deal, people threatening to expose them. They are very much a target for that kind of activity."

Dr. Brown said this problem has not surfaced in conversations with his patients. "My guess is it would have because in treatment they talk about anything and everything," he said. "But I know that they do deal with the worst of the underworld in getting the drugs, and if you're hard up for money you'd be more susceptible."

"We have not seen any linkage between drug matters and gambling in the N.F.L.," said Pete Rozelle, the league's commissioner, "but I agree that it could happen in the future."

Dr. Pursch said that such wariness is reasonable, but he found a side benefit to the addicted athlete's acute financial distress. "Often what drives them into treatment is the financial ruin of cocain," he said.

And, once they seek help, Dr. Pursch said, their cure rate is higher than that of the general public. "They do better," the doctor said, "provided you can tie their motivation to recover to their job. They can be tremendously successful if you utilize and garner their innate sense of discipline."

Mrs. HAWKINS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CHILES. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMENDING DR. ALICE MITCHELL RIVLIN FOR SERVICE AS DIRECTOR OF THE CONGRESSIONAL BUDGET OFFICE

Mr. CHILES. Mr. President, I am submitting a resolution (S. Con. Res. 61) today on behalf of myself, Senator BYRD, Senator DOMENICI, and Senators BAUCUS, BIDEN, BINGAMAN, BRADLEY, BUMPERS, BURDICK, CRANSTON, DECON-

games of the season for their involvement with cocaine.

Rozelle said:

NFL's priorities often are and must be different in degree from those of the authorities who enforce federal and state narcotic laws. The game itself can be honored or dishonored by its own participants. The obligations of personal conduct are not just owed to the league. They are owed as well to the players, the team, to every other NFL player and to the public on whose approval and support the game and the livelihood of all those associated with it ultimately depend.

In announcing the suspensions, Rozelle acknowledged the special status enjoyed by NFL players:

NFL players occupy a unique position in the eyes of the public. They are object of admiration and emulation by countless fans, particularly young people.

According to research by the New York Times, at least 42 professional athletes have sought treatment for alcoholism or drug dependency since 1977, and at least 23 have been convicted of drug or alcohol-related crimes.

The figures were compiled from published accounts of such incidents in the past 6 years involving current and former players in professional baseball, basketball, football and hockey. Five of those who spent time in residential rehabilitation facilities were also convicted of crimes.

Of the athletes who sought medical help for their problems, 15 were baseball players, 7 basketball players, 18 football players and 2 hockey players. Of those convicted, 5 played baseball, 2 basketball, 14 football and 2 hockey. There are also five football players who have been indicted.

Of the 42 athletes who have spent time in rehabilitation centers, 24 have received treatment in the past year. Of those found guilty of crimes, six have been convicted since July 1982.

I applaud Commissioner Rozelle's tougher stand on drug abuse and believe that it would greatly benefit football and the public.

I ask unanimous consent that a July 25, 1983, New York Times article by Jane Gross entitled "Drug Addiction: The Cost to Sports Keeps Growing" be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the New York Times, July 25, 1983]

DRUG ADDICTION: THE COST TO SPORTS KEEPS GROWING

(By Jane Gross)

Whitey Herzog, the field manager and former general manager of the St. Louis Cardinals, is one of baseball's premier traders, and in recent years a new set of issues has cropped up in the course of his wheeling and dealing. "Is he clean?" is a question Herzog said he has been hearing more often these days. "What's the way they say it now?" Herzog said. "Oh, yeah—'Does he have a chemical imbalance?' "

The questions arise because more and more athletes are surfacing as drug and alcohol abusers, either because they admit their addiction and enter rehabilitation centers, or because they are implicated by people accused of dealing drugs or are themselves arrested. And the questions have urgency because the athletes' addiction affects sports in a variety of ways. It alters their on-field performance because of physical deterioration and emotional stress. It alters the way fans perceive their heroes and thus threatens the image of leagues and teams that promote themselves as wholesome entertainment. And it raises the specter that gamblers might alter the outcome of games with the cooperation of athletes who are desperate for money and vulnerable to extortion.

Despite the rash of publicly reported cases, most sports executives and athletes insist their problem is no more serious than the one facing society at large. But Dr. Joseph Pursch, who has treated many addicted athletes at the Care Unit Hospital in Orange, Calif., differs with that belief and offers an explanantion. "If you ask me if there's a higher incidence than in the normal population, the answer is probably yes," Dr. Pursch said, "but there's a reason for that. The average alcohol or drug abuser in this country is male, upwardly mobile and between 18 and 45 years of age. That's an athlete. Athletes fit the profile 100 percent."

All the athletes and doctors interviewed who are familiar with addiction agree that the performance of a drug or alcohol abuser is adversely and progressively influenced. And they say that even if an athlete's use is limited to social situations, as most of them claim, they are hampered by residual effects of the toxins in their body, by the morning-after effects of a night spent partying and by increasing preoccupation with satisfying and disguising their habit.

"If you use coke, say," said Dr. Torrey Brown, a Baltimore physician who is a medical consultant to the National Basketball Association, "you stay up all night and then spend the morning finding some for the next night, so you're useless from 7 to 9. You're worrying about money, worrying about people following you, worrying about finding your drug. You're wiped out for other reasons than the drug's direct effects."

"Emotionally, they're a mess," Dr. Pursch said. "They are preoccupied with guilt. Their home life is a mess, and maybe they have legal problems. They have temper outbursts and are very irritable. They're very likely angry with themselves because their arms and legs are not doing what they want them to do and they know why."

"It's a job messing around with drugs," said John Drew, a rehabilitated cocaine user who plays basketball for the Utah Jazz. "When you're trying to play basketball and get drugs, too, something's slipping. I was drained emotionally. It took a lot of energy."

"You're just not there 100 percent," said Tim Raines, a member of the Montreal Expos baseball team who has been treated for cocaine addiction. "When you become addicted you tend not to care about anything but making sure you take care of your habit. It doesn't matter who you hurt or what you do to get it."

The doctors and athletes interviewed also agreed that a professional athlete, because of his extraordinary condition, may remain fit for longer than an average addict. Nonetheless, the doctors and athletes said, physical deterioration will eventually occur, manifesting itself in different ways depending on the substance being abused, the duration and the quantity.

"When I first started doing it, I always thought I was the same performer," said Raines. "But the longer and longer you get into it the worse it makes you. You get weaker and lose all control of yourself. Eventually, I felt like a totally different performer out there."

"You're dealing with a disease that tells you you don't have a disease," said Drew, "so at first you still feel you're doing what you always did. Everybody else can see it but you can't. Over a long period of time, though, the drugs will destory you physically. It takes awhile, but it will get you."

The effects of alcohol—according to information provided by Dr. Pursch, Dr. Brown and Dr. Walter Riker, a consultant to the National Football League—are the easiest to recognize, either in an inebriated or, more often, a hungover athlete. He may be late or absent for a practice or game, tired, or half-hearted in his effort. As a result of minerals lost in dehydration, his coordination, vision, hearing and balance may be impaired.

The effect of marijuana, the doctors said, include additional perceptual changes and are longer lasting because the toxins are stored in the body's fat cells for as much as 10 hours in an occasional user and far longer in a chronic user. Distortions in the sense of distance and time, in baseball for example, can make it difficult to turn a double play, steal a base, judge a ball in the outfield, hit or pitch. The sense of dreamy well-being, even indolence, can reduce motivation and concentration.

Cocaine is the most addictive and least detectable of the three, the doctors explained, and will similarly affect perception, accuracy and coordination. The drug's stimulation of the central nervous system and the feeling of enhanced strength and mental capability lasts only for 25 or 30 minutes. "Halfway through a game you're minus the cocaine and in withdrawal," Dr. Pursch said. "Your muscles cramp, you're depressed and you're preoccupied. There's only room for one thought: 'How soon can I get to some coke?' You become a marginal performer."

Raines, a speedy outfielder, said that the cocaine had demonstrable effects on his perception. "A ball coming straight at me, I couldn't judge how close it was," he said. "With base stealing, it messes up your concentration as far as watching the pitcher is concerned. Your reactions are slower. Sometimes I thought I had started to run before I actually started to run."

Carl Eller, the former Minnesota Viking defensive end whose addiction drove him into bankruptcy in 1980 and who now operates his own business and is a consultant to the N.F.L., has reported that cocaine robbed him of upper body strength, stamina and sense of intimidation. Don Reese, the former Dolphin, Saint and Charger defensive lineman who has twice served time for cocaine-related offenses, acknowledged in a first-person story in Sports Illustrated magazine in 1982 that in the late stages of his career he was playing "in a stupor much of the time," with "the whole stadium blacked out."

Of all the athletes who have told their addiction stories publicly, only Reese has described drug use—by himself and his teammates—at the stadium before and during games, a charge subsequently disputed by his teammates. Dr. Pursch said the denial of

for use in orchards as a soil fumigant to kill tiny worms that fed on root systems, both companies voluntarily suspended production of DBCP. In 1978, a two-year carcinogenicity study undertaken by the NCI concluded that DBCP was a powerful stomach carcinogen in mice and rats fed DBCP, and also produced breast cancer in rats fed the compound. A year later, the EPA canceled all uses of DBCP, save for Hawaii's pineapple crop.

Carbaryl—A member of the carbamate family of insecticides, carbaryl was one of nineteen chemicals cited in a landmark HEW report in 1969 and accused of causing carcinogenic tumors, birth defects, and other serious health problems. The HEW commission wrote that carbaryl "should be immediately restricted to prevent risk of human exposure." Manufactured by Union Carbide since 1958, nearly a billion pounds of carbaryl have been sold, about half overseas. In the United States, use now averages an estimated 60 million pounds annually for a wide range of activities, including some brands of flea collars, sprays and powders for pets, and in spraying for gypsy moth infestations from Maine to Maryland. Carbaryl has been targeted by researchers as a danger to human health and the environment chiefly because of its proven ability to cause mutations in the fetuses of dogs, guinea pigs, and rabbits. Several years ago, the International Agency for Research on Cancer (IARC) studied carbaryl and found it to be a carcinogen. In 1980, EPA's Edwin L. Johnson, director of the Office of Pesticide Programs, surprised agency scientists and ignited an internal furor, when he halted EPA's plan to remove carbaryl from the market. Johnson . . . concluded that the "overall weight of evidence does not indicate that risk criteria have been met or exceeded." Around the nation, where carbaryl use is heavy, critics are not so sure. Says Dr. Ruth Shearer, a widely respected geneticist from Issaquah, Washington: "In my opinion, carbaryl presents a definite risk to human health if applied in residential areas or other areas where human exposure is inevitable."

Other popular pesticides which have been registered with IBT data include:

Paraquat—A noxious herbicide which has been accused of causing hundreds of severe respiratory disorders around the nation as its use in U.S. nurseries and in marijuana eradication increases.

Cacodylic Acid—The primary ingredient in the Vietnam-era defoliant Agent Blue, cacodylic acid production is increasing as timber companies move to replace Silvex and the outlawed herbicide 2,4 5-T, a component of Agent Orange.

Permethrin—Though it has yet to receive full registration from the EPA, this insecticide, manufactured by FMC and ICI Americas, is suspected by EPA pathologists, including Dr. Adrian Gross, of being a carcinogen. Currently, permethrin has a conditional registration and millions of pounds are supplied to applicators under the EPA's controversial "emergency exemption" clause.

Harvade—Uniroyal's disputed cotton defoliant was recently discovered by California officials to be a potential carcinogen. Lori Johnson, chief of the California Agriculture Department's pesticide division, is currently studying new data on Harvade and is considering a full reevaluation of the herbicide's registration there.

In Canada, manufacturers of 113 IBT pesticides were asked to duplicate the research or face cancellation of their products. Makers of three herbicides and three insecticides chose not to, and Canada removed those products from the marketplace last year. Those chemicals are:

Allidochlor—A Monsanto herbicide used in clearing weeds from onion fields.

Chlorbromuron—Another herbicide manufactured by the Swiss firm Ciba-Geigy, and used in carrot fields.

Cynazine—A herbicide contained in Shell's Bladex line of weed killers and outlawed for use in Canadian corn fields.

Phosphamidon—A Ciba-Geigy insecticide sold by Chevron in Canada and California.

Bianapacryl—Manufactured by the German firm Hoechst as a mitacide.

Dialliphos—Another mitacide manufactured by a subsidiary of Hercules Chemical.

RECOGNITION OF SENATOR WEICKER

The PRESIDING OFFICER (Mr. ABDNOR). Under the previous order, the Senator from Connecticut (Mr. WEICKER) is recognized for not to exceed 15 minutes.

TRIBUTE TO JOHN JAY McCLOY

Mr. WEICKER. Mr. President, I rise this morning to pay tribute to a man of unparelleled ability and accomplishment, John Jay McCloy.

The story is told of a dinner held by Justice Felix Frankfurter prior to World War II, attended by members of the Cabinet and then Assistant Secretary of War McCloy. Remaining silent through the entire evening's discussion about what the U.S. role should be in the European war, McCloy was asked by Frankfurter to state his opinion. He said, "Well, I think we should be the arsenal for democracy." With that sentence, he gave birth to a phrase that became a theme used by President Roosevelt to strengthen the resolve of the American people for the challenges of the years ahead. Jack McCloy has dedicated his life to building up, and being an invaluable part of that arsenal.

Mr. President, we own an unpayable debt to that generation of Americans who planned, fought, sacrificed, and achieved in the perilous years before, during, and after World War II. The courage and idealism of that group of Americans to see and to do right has improved the lives of literally billions of residents of this planet. Jack McCloy, his own statements to the contrary not withstanding, is one of the monumental figures of that generation.

Any attempt to describe the span and scope of his career almost certainly risks significant omissions and boggling the mind of any listener. I cite only a few highlights here. As Assistant Secretary of War under Henry Stimson, he was instrumental in America's preparation of her industrial based for the war years. He faithfully executed countless climactic instructions given to him by Secretary Stimson and President Roosevelt during the war. In a miraculous feat of political and economic skill Jack McCloy masterminded the establishment of the World Bank as one of its first presidents. He succeeded in what was perhaps one of the greatest diplomatic challenges of the postwar era, the reconstruction of Germany, as its High Commissioner and U.S. Military Governor. Returning to private life, he presided over the formation of one of the world's largest financial institutions, Chase Manhattan Bank. He served on the Warren Commission which investigated the assassination of John F. Kennedy. In all, as a private citizen or Government official, he has served nine U.S. Presidents. As Chairman of the Board of the Ford Foundation, the Council of Foreign Relations and Amherst College he has made a broad contribution to the quality of American life.

Perhaps Jack McCloy's greatest asset was his deep understanding of source and use of American power. He knew that the "arsenal of democracy" included far more than military hardware. His commitment to "what is right, what makes sense, what is fair," his understanding how business should relate to society's other institutions and his plain and simple ability to get things done are assets which served him well and which he contributed to the betterment of the United States and the world.

Mr. President, for over 40 years Jack McCloy has been an indispensable weapon in that "arsenal of democracy" he spoke about in the 1940's. With men and women of his caliber and integrity in positions of leadership, we are strong beyond the greatest aspirations of any opponent of the United States. As a Senator from Connecticut, I take this opportunity to say how proud our State and Nation are of the career and contribution of Jack McCloy. At a time when men and women of wealth and ability run from government, leaving the Nation poorer, Jack McCloy can take tremendous pride in the thousands of hours he has contributed to enriching the United States of America.

Mrs. HAWKINS addressed the Chair.

The PRESIDING OFFICER. The Senator from Florida is recognized.

DRUG ADDICTION: THE COST TO SPORTS KEEPS GROWING

Mrs. HAWKINS. Mr. President, on July 25, 1983, National Football League Commissioner Pete Rozelle suspended four players, Pete Johnson and Ross Browner of the Cincinnati Bengals, E. J. Junior of the St. Louis Cardinals and Greg Stemrick of the New Orleans Saints, for the first four

Gross said in a recent interview. "Now, any pathologist knows that rats and mice on these long-term studies develop cancer naturally and will have a certain level of mortality. IBT's study said the rats were all clean."

CAPTAN

With one of the government's best and most tenacious pathologists on the case, IBT's scheme unraveled quickly. On April 11, 1976, Gross made his first visit to IBT to look at the raw data for the Naprosyn report. He returned on July 12. During these visits Gross saw for the first time IBT's use of the TBD/TDA acronym. He also saw that rats listed as dead in one section of the study, suddenly reappeared alive in another section. "Now IBT did some strange and unusual things," Gross says, "but bringing back the dead wasn't one of them."

Gross's first visit set off a near panic at IBT. A week after he left, Calandra called a staff meeting in which fourteen employees were present. He notified them of the visit, and announced formation of an IBT audit group to research raw data on several studies. His plan was to minimize the damage, confine the FDA's investigation to a few specific studies, and emerge at the end with his lab's reputation and its lucrative business intact. By 1976, according to New York Stock Exchange reports filed by Nalco, IBT had revenues exceeding $9.5 million annually.

But Calandra's plan did not work. Not only was the FDA interested in Naprosyn, it also began probing the TCC study and several others prepared for an array of manufacturers. The EPA was notified, and it began pulling IBT studies and noticing faults. By the end of the summer Calandra and his staff were shuttling between Chicago and Washington for intensive meetings with the FDA.

BIANAPACRYL

Convinced that Calandra was not going to cooperate, the FDA began making plans for a criminal prosecution. To insure that the prosecution would be successful, the agency needed to secure IBT's internal documents. The FDA has no subpeona power, so in 1977 it turned the case over to the Justice Department. In a January 5, 1977, memo to his superiors, Adrian Gross warned them to act fast. He was worried that IBT would destroy incriminating evidence. "I believe immediate action on our part is indicated," Gross wrote.

But IBT already had begun a program of shredding data, according to Gross and other investigators. Much of the raw data for IBT's studies on the herbicide 2,4-D was destroyed, federal agents say. And data for at least six other pesticides is missing. Moreover, agents are convinced that hundreds of letters between Calandra and company officials showing chemical company knowledge of IBT's fraud were also destroyed. Nevertheless, many suggestive leads remained when the Justice Department finally seized 30,000 IBT documents.

Through the years, six corporations have sued IBT and Nalco for breach of contract. All have settled out of court, and as part of the settlement the amount of dollar damages has remained secret. A seventh suit, brought by shareholders of Syntex, claiming significant losses when the FDA's investigation was announced and Syntex stock plummeted, was won by the plaintiff in U.S. District Court in New York. Paid damages against IBT, Nalco and Syntex amounted to $2.8 million.

Joseph Calandra stepped down as IBT's president in March 1977. He still lives in the Chicago area and teaches pathology as a full professor at the Northwestern University School of Medicine. Paul Wright continues to work for Monsanto. James Plank left IBT a month after Calandra and is living in the Buffalo area. Moreno Keplinger left IBT and, according to his attorney, is working as a consultant in the Chicago area.

DIALLIPHOS

As for IBT, there are nine people still working at the Frontage Road site, validating research for former clients who may still have questions. One of them is Donovan Gordon. The satellite labs have been sold, and the main lab is on the market. Asking price: $2.7 million. The rats have been shipped out and the Swamp is just a room with a concrete floor. Looking at IBT now, it appears as torpid as any other building on the street. Then the images come rushing back—rats in puddles, mice drowning, filthy animal rooms—and with them a realization that what occurred here was worse than we may ever know.

IBT Approved Pesticides

(By Keith Schnieder)

The aftermath of the Industrial Bio-Test Laboratories' ordeal reaches deep into the lives of most Americans. Residues from hundreds of pesticides tested for safety by IBT appear in measurable quantities in virtually everything Americans eat and much of what they drink. These pesticides have contaminated groundwater supplies and reservoirs, polluted streams and rivers, and have been implicated in a host of serious health problems. What follows is a partial list of widely applied pesticides, declared by IBT researchers to be nonhazardous, though subsequent studies by the EPA, Canadian health authorities, state health agencies, and independent researchers have raised doubts.

Toxaphene—Like DDT, aldrin, and dieldrin (which have been banned by the EPA), toxaphene is a member of the deadly chlorinated hydrocarbon family of insecticides. First produced in 1947, during much of its production life toxaphene was among the nation's most popular pest killers. In the mid-1970s, more than 100 million pounds of the compound were produced annually, primarily for use on the South's cotton crops. The EPA's files contain several studies by IBT declaring toxaphene harmless. But in 1979, the National Cancer Institute (NCI) finished a two-year rodent feeding study which found toxaphene caused liver cancer in male and female rats. In more recent studies by the EPA, dangerous levels of toxaphene were discoverd in the tissue of freshwater fish living in lakes and streams thousands of miles from the closest point of application. In October 1982, the EPA canceled most uses of toxaphene. The chemical's major manufacturers, though, will be allowed to sell their remaining stocks for several legal uses, including dipping cattle and sheep into vats of toxaphene for parasite control.

Silvex—A member of the controversial phenoxy herbicide family developed in 1943 at Fort Detrick Maryland, for possible use in chemcial and biological warfare, Silvex has been a target of environmentalists for decades. In the West, indiscriminant use of Silvex is believed to be the cause of widespread stream contamination and the loss of livestock. In Florida, a recent Florida State University study found Silvex in trace amounts in the tissue of a third of all dormitory students and one quarter of the football team. In 1979, the EPA abrubtly suspended all uses of Silvex in the Northwest. But Silvex continues to be used in preparing rice fields, weed control in sugar cane planting, and for range and pasture use.

2,4-D—Contained in the Vietnam-era defoliants Agent White and Agent Orange, some 70 to 80 million pounds of this phenoxy herbicide are sprayed each year on vast stretches of forest and for roadside weed control. IBT Performed at least six studies on 2,4-D which have proved to be invalid after IBT officials, in 1977, shredded the raw data the lab had stored for the chemcial's manufacturers. Though the herbicide's primary manufacturers, including Dow Chemical, insist 2,4-D is one of the "safest chemicals ever made," it has been charged by environmentalists and scientists with causing fetal deformities and miscarriages where its use is heaviest. Independent research has determined that 2,4-D is capable of inducing mutations in laboratory mice even at the lowest dose levels. Moreover, a Department of Health, Education and Welfare study in the early 1970s found evidence that 2,4-D "produced teratogenic effects on one or more mammalian species and its use should be restricted." In 1980, the California Department of Health Services, in an evaluation of 2,4-D, concluded in a published report that exposure to the herbicide through skin absorption could cause nervous system disorders. the EPA has taken no action to limit the use of 2,4-D, and Dow, along with several other manufacturers, is promoting more extensive uses, particularly in aquatic weed control.

Captan—First produced in 1951, captan is an effective fungicide used in treating seeds, on greenhouse plants, and contained in chemicals for household use. The chemical's two major manufacturers, Chevron and Stauffer Chemical, produce an estimated 10 million pounds each year. IBT prepared twelve studies on captan for Chevron, all of which have been ruled invalid. In addition, Canadian health authorities secured five internal memos which indicated several summary pages of IBT captan reports were rewritten after Chevron company officials complained about the number of mutations IBT pathologists found in the tests. Recent Canadian studies show captan causes cancer, birth defects, and genetic damage in laboratory animals, and Canada's health and welfare department severely restricted captan's use there last year. In this country, captan has been on a list with roughly forty other pesticides which the EPA toxicologists suspect of causing cancer and mutations. Currently a benefit-and-risk analysis is underway at EPA. Until it is completed, agency officials say no regulatory action will be taken against captan.

DBCP—In the summer of 1962, IBT produced several studies for Shell Chemical to test whether research animals could survive large doses of DBCP, a popular fumigant first introduced in 1955. According to EPA researchers, the IBT studies showed DBCP to be far less poisonous than the chemical later turned out to be. In 1977, DBCP was shown to be the cause of sterility in male workers at a Occidental Chemical plant in Lathrop, California. California health officials, who found dangerously high levels of the chemical in groundwater miles from the plant, suspended the use of DBCP in the state the same year. Though Shell and the DOW Chemical manufactured roughly 20 million pounds of DBCP annually, chiefly

animal deaths during the study's first six months.

At about the same time, a technician by the name of David Penner who worked in the Swamp was told by Wright to replace dead individually-caged rats in the Swamp with animals gang-caged across the hall. Penner was expressly forbidden to make reports of the switch. Penner was also told to order new rats from a supply house and to start an extra group of animals, later named the "research study" group, which would be used to replace dead animals.

One of the organs for TCC that FDA had identified were the testicles of male rats. In June 1972, a year after the TCC study had begun, pathologist Gordon began the first in a series of microscopic examinations of testicular tissues taken from some sacrificed rats. Gordon's first evaluation from the highest dose males revealed that TCC did cause testicular lesions. When he reported the finding to Wright, Gordon was told to take tissues from medium-and low-dose group males as well. During the next few months, Gordon found degenerative changes in these groups, but concluded that lesions in the low-dose group were not related to TCC.

If Monsanto and Wright drew a breath of relief, Gordon was never aware of it. The following November, Monsanto would be meeting with a FDA panel studying TCC to talk about TCC's safety. Company officials wanted to make certain that Gordon, who would also be at the meeting, would back them up. So on October 11, 1972, a few days after Wright left IBT, Gordon was summoned to a meeting in Des Plaines, Illinois, to discuss TCC with Dan Roman and Ira Hill, two Monsanto scientists. They grilled Gordon about his TCC findings, and instructed him on how important it was to emphasize "a good presentation" to the FDA panel on TCC.

On November 18, Gordon was accompanied by Hill and Roman to FDA headquarters in Rockville, Maryland. On the plane, they again discussed Gordon's presentation. Once there, Gordon performed to their expectation. Minutes of the meeting record that the pathologist never mentioned the treatment-related effects he had found.

AT IBT, during the same period, Gerald Kennedy replaced Wright as section head for rat toxicology. Within days of his appointment, Manny Reyna briefed Kennedy on all the problems technicians were having with the TCC study. Rats in the Swamp were dying in droves. Kennedy was not surprised, but he was concerned enough to bring the matter to Moreno Keplinger's attention. The men toured the Swamp, and Kennedy testified that "on at least one occasion" Calandra joined Kennedy in a tour of the Swamp.

When the TCC animals were sacrificed in July 1973, Kennedy was assigned to write the final report. Kennedy looked at the raw data tables and decided they were a hopeless mess. He told Keplinger "the study would be impossible to report without disclosing all of its inadequacies." Keplinger "clearly understood and acknowledged" Kennedy's dilemma, but told him to emphasize Gordon's pathology findings and to "downplay the study organization, animal disposition, and mortality."

On October 6, 1973, Calandra, Keplinger, and Kennedy met with Paul Wright, now back with Monsanto. Wright had been responsible for the TCC study for its first fourteen or fifteen months, Kennedy testified, and was well aware of the problems of the Swamp. Kennedy also told the grand jury that after Wright left IBT, "he and Dr. Keplinger had kept in constant contact while the study was being run."

HARVADE

The meeting lasted for hours. Of particular concern was Gordon's findings, reported in a preliminary report, that testicular lesions caused by TCC were found in rats fed large and small doses of the compound. Wright was extremely upset with the findings. He told the group that age, nutrition, the conditions of the rats, and stress could account for the effect, and he urged Calandra and Keplinger to convince Gordon to change his conclusions.

Between October and February, Kennedy, assisted by Keplinger and Gordon, worked on the final report which was mailed to Monsanto on March 21, 1974. There was no further word about it until October 10, 1974, when Wright wrote to Keplinger requesting the pathology data and tissues for rats fed the lowest doses.

In late December or early January 1975, Calandra called a staff meeting to discuss the TCC study. It was attended by Keplinger, Gordon, Jim Plank, Kennedy, and Dr. Florence Kinoshita, a toxicologist who joined IBT's staff in September 1973. Just the year before Dr. Kinoshita had been a member of the FDA panel investigating the compound's effect on laboratory animals.

When all the participants entered the room, Calandra raised the TCC final report over his head, slammed it down on the table and said, "This thing isn't worth the paper it was printed on." Calandra then launched a long discussion of the report. "Dr. Calandra was extremely concerned," Kennedy said. "He did not want to admit to the FDA that the study report could not be substantiated by the raw data, i.e. the study organization was false, the mortality table was false, the purpose and use of the so-called research animals was false, etc." It was decided that Dr. Kinoshita was to prepare a revision of the TCC records.

Still, the most important conflict in the study continued to be Gordon's findings. On January 22, 1975, Paul Wright and Dan Roman returned to IBT for another meeting with Calandra, Keplinger, Plank, Gordon, and Kennedy. Again, Gordon's conclusions were criticized as unfounded. A month later, on February 21, 1975, virtually the same group convened again at IBT and again the same problems were discussed. By this time Kinoshita had completed her revision, and it was handed to the Monsanto staff members before they left IBT.

Monsanto continued to be dissatisfied with the pathology sections. On August 25, 1975, Calandra directed Dr. Gordon to meet with Dr. William Ribelin, an independent pathologist hired by Monsanto to review the tissue slides, in Madison, Wisconsin. Gordon knew Ribelin and the two scientist agreed to meet alone for lunch before convening with Wright and another Monsanto official in an afternoon meeting.

Over lunch, Ribelin and Gordon compared notes on the TCC issues and agreed that "there was a treatment related effect involving all three treatment groups," Gordon said. Ribelin also gave Gordon a handwritten copy of his report for Monsanto in which he stated his conclusions, and cautioned Gordon to keep the report secret. Later in the day, the scientists met with Wright and told him that testicular lesions in all three dose groups were caused by TCC.

Finally, in late January 1976, Calandra called Gordon into his office to discuss the lesions. Like Wright, Calandra tried to convince Gordon that the lesions could be explained instead as manifestations of age or stress or the condition of the rats during the study. Gordon did not agree. Then Calandra hit him with a last solution. He asked Gordon if there had been significant decomposition in the rats he studied? Gordon answered that in some animals there had been decomposition but in others there was very little. Calandra paused a moment and then told Gordon that he was going to remove the pathologist's findings from the report and say instead that decomposition "precluded meaningful evaluation of the testicular tissues." In short, IBT would report that the tissues could not be examined, because the tissues had rotted.

"It was my opinion at that time, and is today, that postmortem data were removed from the report, because they incriminated the TCC compound," Gordon told the grand jury.

CARBARYL

On February 3, 1976, Gordon was called to Calandra's office for a showdown. Waiting for him there were Keplinger and Kinoshita. They handed him a copy of the TCC final report, now in its second revision. Calandra told him to sign it and Gordon complied. "I did not want to leave IBT at that time, so I succumbed to my boss's interpretation . . . even though I knew he had not examined the slides," Gordon said.

The next day, according to Kinoshita's grand jury testimony, Dan Roman hand-delivered a revision to the pathology section "written by Dr. Wright." In substance, the revision stated that there were no lesions found on male rats fed the lowest doses of TCC and that some pathology review was prevented by decomposition. Kinoshita and Keplinger stayed with Roman in the administration building conference room while they waited for Wright's revision to be typed into the final report.

On May 10, 1976, IBT mailed the TCC report to Monsanto. It had been backdated to March 21, 1974, to appear as though there had been no changes. On May 11, Monsanto mailed the report to the FDA. The agency eventually approved higher levels of TCC in deodorant soap. Millions of pounds of the chemical are manufactured annually, though Monsanto insists a person would have to eat two dozen bars of Dial soap every day for years to be in danger of a toxic reaction to TCC.

Dr. Adrian Gross, then a pathologist with the FDA, was the first to put his finger on IBT in April, 1976. Several writers have described the event as a matter of chance, but that is only part of the story. Nine months earlier, Senator Edward M. Kennedy began the first of a series of historic and sensational hearings on Capitol Hill in which it was publicly disclosed that scientific research being conducted by the nation's drug industry was being deliberately falsified. The following January, officials of the EPA admitted that they were finding evidence of the same kind of shoddy scientific research in their files. It was in this atmosphere that Gross initiated a program of random spot checks of recent testing reports submitted by manufacturers to the FDA. One of the reports pulled from the files was IBT's Naprosyn study.

As soon as Gross looked at the mortality tables, he suspected something was wrong. "None of the rats had developed cancer,"

on these or any other allegations until the trial.

During the first week of August, after Smith completed the reports, he was called into the office of Moreno Keplinger where he learned of another problem. Dr. Wright was waiting there too. Keplinger told Smith he was worried about the results from the control group for the Chemagro studies. So few mice had survived that the results from the control group did not really demonstrate the animals' susceptibility to developing cancer.

Keplinger said he was not going to report the study. Instead, he had a solution. IBT had just completed a long-term mouse study for another company, and the control group for that study had been painted with benzidine. It did not matter that Chemagro's protocol called for feeding benzidine to mice. Smith said, Keplinger simply calculated that the amount of benzidine painted on the skins of the mice was comparable to a dietary level of 1,000 parts per million. Smith testified he was instructed to recalculate the control group figures and inset them into the chemagro reports.

On August 15, 1972, IBT mailed the reports to the company. A year later, Smith was summoned to the office of Gerald Kennedy who had worked at IBT since 1964 and was Smith's immediate supervisor. Kennedy told Smith that Chemagro was having trouble with their reports. A Canadian regulatory agency, suspicious of the results, wanted to see complete lists of raw data for animal mortality. Smith testified that Kennedy instructed him to use the mortality table which Wright had given him as "gospel" in determining the numbers for the Canadians. Kennedy, in an interview with FDA agents in September 1980, said "he did not really tell Smith to go back and fabricate the morality table, but rather, it would have to remain internally consistent . . . and that it was up to Smith to figure it out."

That is precisely what Smith did, spending at least 60 percent of his time during the next four or five months formulating a cogent numbering system that would pass Canadian inspection. In December 1973, Smith finished and IBT mailed its response to Chemagro. IBT's report was accepted by both Canadian officials and the EPA. Nemacur and Sencor were registered for use in the United States in 1976. Later the EPA ruled the tests invalid and asked Mobay to repeat them. In April 1982, duplicate mouse studies were mailed to the EPA, reviewed, and regarded as satisfactory by EPA toxicologists. Both chemicals are widely applied across the country.

One of the companies attracted to IBT during its expansion period was Syntex, a pharmaceutical manufacturer based in Palo Alto, California. In the late 1960s, Syntex scientists developed a drug called Naprosyn which they hoped would revolutionize arthritis treatment. In March 1969, a small group of Syntex leaders visited Calandra in Northbrook and toured IBT's facilities. Several months later they signed a contract with IBT for a twenty-four month rat feeding study, which included detailed protocols for blood chemistry and urinalysis data to be recorded throughout the course of the study and at the time of final sacrifice. In November 1969, IBT began the study. In September 1971, just twenty-two months later, IBT sacrificed the Naprosyn rats. This was not reported to Syntex until 1976, when the FDA alerted corporate officers.

NEMACUR

Once again, Phil Smith was assigned to write the final report. But in October, when he began working on the blood and urine sections, he could not find the data. He searched in the animal department files and found nothing. Then he went to the clinical pathology lab and found a file containing blood and urine data through the fifteenth month of study, and a note which said the final blood and urine work had been postponed. Smith tracked down Ron Greco, the manager of the lab, to find out what it all meant. Greco was not sure, So the two men pored through the lab looking for the data, searching the freezer for serum samples, scrutinizing scheduling records, looking in slide files and time charge records. Nothing. When they were finished, the men "concluded that the final blood and urine work had not been conducted."

During the next week, Smith completed a hand-written rough draft of the report and left the data tables for the blood and urine tests blank. Smith testified that he took the uncompleted report to Wright's office, told him the tests had not been done, and said he would not sign the report.

It was standard procedure at IBT for those whose names appeared on the signature pages of final reports to receive copies in the company mail. So it is not hard to imagine Smith's surprise when he received the Naprosyn report, opened it to the summary tables for blood and urine data and "saw that the values were reported for these tests." Then he turned to the signature page and was shocked to see his name written in. Things got even stranger a few days later when Smith's rough draft was returned from IBT's typing pool. He turned to the blood and urine summary tables and discovered they were filled in by what Smith "recognized as Mr. Plank's handwriting and some [data] in what I recognized as Dr. Wright's handwriting."

NAPROSYN

In an interview with FDA agents in May 1980, James Plank "denied that he knowingly inserted false information in this report when he prepared it." Plank did identify his handwriting from the rough draft and said he prepared some of the tables. But Plank advised the FDA that he was sharing an office with Wright at the time and "he was often given reports to plug in the data by Dr. Wright."

The numbers juggling, however, did not satisfy Syntex. In mid-November 1971, two weeks after IBT mailed the Naprosyn report to Palo Alto, Dr. Robert Hill, a Syntex toxicologist fired off a letter of reprimand to Calandra. "From past experience I am convinced that the report would be rejected by regulatory agencies in the United States, United Kingdom, Canada, and Germany," Hill wrote. "Would you please see the report is corrected and returned at the earliest."

To revise the report, Keplinger asked IBT's pathologist, Donovan Gordon, to evaluate stomach tissues taken from the Naprosyn group. Through his microscope, Gordon saw lesions on the tissues caused by anemia and which he concluded were "induced by the drug." To support his findings, he wanted to look at the raw blood and urine data. He called Dr. James Von Druska, supervisor for the Clinical Pathology Lab, and asked him to send the data over.

After another thorough search of the pathology lab, Von Druska called Gordon and told him the data could not be located. As a result, Gordon referred to the numbers published in IBT's final Naprosyn report, and when he saw that all the values appeared normal, he revised his conclusion, stating that the animals died of lesions common to the stomachs of lab rats.

Meanwhile, back at the clinical pathology lab, enough questions had been asked about the missing data that Von Druska consulted with Gordon, telling him it appeared the work had not been done, yet the numbers appeared in the report. The two men decided to bring the problem to Moreno Keplinger.

Dr. Keplinger did not seem overly concerned, Gordon told the grand jury. He listened briefly to the men who had come to his office, and then waved them out. "I'll take care of it," Keplinger said.

In early 1972, IBT revised the Naprosyn report for Syntex and included an appendix detailing Gordon's tissue findings. They mailed the package on March 3, 1972. Three weeks later Syntex mailed the reports to the FDA, and were granted a registration soon after. Syntex has repeated the rat feeding study, and Naprosyn is currently one of the company's major sellers.

TCC

In early June 1971, two months after he arrived at IBT, Paul Wright called Phil Smith into his office. He told Smith IBT was starting four new long-term rat feeding studies, one of which Smith later learned was for Monsanto's TCC. The study protocol called for feeding low, medium, and high doses of the compounds to 210 individually caged rats housed in the Swamp. In addition, a large control group would be "gang-caged" in the room across the hall from the Swamp.

Almost from the start, the TCC study was a disaster. IBT technicians used a curious acronym on internal mortality sheets when they found dead rats in their cages. In the column next to the rats' cage number, they would mark "TBD/TDA." It meant "too badly decomposed/technician destroyed animal."

Under ideal lab conditions, the most critical factor in chronic feeding studies is to find out why animals died. Was the test compound responsible? Or was there some other reason? Only careful autopsies and microscopic pathological evaluation could determine the true cause of death. But dead animals were so commonplace at IBT, that most were simply taken from their cages and thrown away without examination. Within weeks of the start of the TCC research in the Swamp, the familiar acronym, TBD/TDA, began appearing all over the internal summary sheets.

Manny Reyna was concerned enough about the conditions of the TCC animals in the Swamp that he alerted Paul Wright to the malodorous catastrophe. "He acknowledged the problem," Reyna testified, "and said there was little that could be done."

It is also clear from the grand jury testimony that Calandra, Keplinger, and James Plank were also aware of the conditions in the Swamp. In fact, Calandra was known to call the room "Plank's Folly," because it had been Plank's idea to install the watering system. Still, for at least three years after the system was built, according to grand jury documents, dozens of tests were conducted in the Swamp while it remained a turgid den of death.

Eight months into the TCC study, in February or March 1972, Wright assigned Smith to prepare a six-month status report. Wright also handed Smith summary mortality tables which incredulously reported no

CINI, DIXON, DODD, EAGLETON, EXON, FORD, HART, HEFLIN, HOLLINGS, HUDDLESTON, JACKSON, JOHNSTON, KENNEDY, LAUTENBERG, LEAHY, LONG, MATSUNAGA, MELCHER, METZENBAUM, MOYNIHAN, NUNN, PELL, PROXMIRE, PRYOR, RANDOLPH, RIEGLE, SARBANES, SASSER, STENNIS, ZORINSKY, DOLE, and ABNOR.

Mr. President, I am honored to sponsor this resolution, together with the distinguished chairman of the Budget Committee, Senator Domenici, commending Dr. Alice Rivlin for her landmark service as the first Director of the Congressional Budget Office.

I am pleased that Chairman DOMENICI is standing with me today on this resolution. I think it underscores the bipartisan nature of this tribute to Dr. Rivlin for a job extremely well done.

Dr. Rivlin was "present at the creation" of the Budget Office, and she has been there ever since. As she leaves to continue her service to the Nation at the Brookings Institution, she takes with her the esteem of the Congress, the respect of economic experts, and the thanks of people throughout the country for her objectivity and skill.

When Dr. Rivlin was chosen to head the new Budget Office back in the mid-1970's, many were skeptical that Congress could live with a budget. Many others were dubious that Congress would respond to the vision of a private citizen, unelected, and more in tune with the mandates of her profession than electoral mandates.

As it turned out, Dr. Rivlin was exactly the person, with exactly the approach necessary to make the budget process work. She was a trailblazer, the one who explored the uncharted grounds of untested procedure, and helped turn the Budget Act into a living process.

At the outset, she was hemmed in on all sides by politics, editorial writers, and economists all with different views, and each with a separate ax to grind. To succeed, she used the only tool possible to convince the skeptics—strict objectivity. Her estimates and projections were sometimes challenged by opponents, but her integrity was never in doubt. She infused a fine sense of credibility in the work of the Office by being her own person, and reaching conclusions established by the facts.

This kind of practice can create a long list of adversaries. But her critics made their cases on philosophy, never on questions of professional ability. On the countless occasions she appeared before congressional committees, Dr. Rivlin spoke with the kind of authority derived from scrupulous research by the top-flight staff she assembled.

Mr. President, years ago, the Frenchman, Andre Malraux said, "In art, you don't invent, you find out." In a professional sense, that—perhaps better than anything else—describes the approach Alice Rivlin took to budget analysis. She sought the best advice available, then let the facts find the answer. She did not believe it was her job to invent, but rather to find out. And that style of management carried the budget process through its hard, young years.

Dr. Rivlin leaves behind a strong institution, a Congressional Budget Office that works. The path her successors must follow will still be difficult, but at least there is a path to follow. Dr. Rivlin was the pathfinder.

Mr. President, I ask unanimous consent that the text of the concurrent resolution be printed in the RECORD.

There being no objection, the text of the concurrent resolution was ordered to be printed in the RECORD, AS FOLLOWS:

S. CON. RES. 61

To commend Dr. Alice Mitchell Rivlin for her service as Director of the Congressional Budget Office.

Whereas Dr. Alice Mitchell Rivlin has served with dedication and distinction as the first Director of the Congressional Budget Office since 1975;

Whereas under the leadership of Dr. Rivlin, the Congressional Budget Office has become an indispensable, professional, nonpartisan organization that has consistently supplied Congress with timely and objective forecasts of economic conditions, projections of Federal spending and revenues, options for reducing the Federal deficit, and objective analyses of important public policy issues;

Whereas the direction by Dr. Rivlin of the Congressional Budget Office has fulfilled the intent of the framers of the Congressional Budget Act to create a capability within Congress to analyze budgetary information independently from the executive branch, thereby making the Office a vital support agency of the Congress;

Whereas Dr. Rivlin is nationally recognized as an eminent authority on economic and budgetary issues, has earned the respect and admiration of her colleagues in business and Government, and has brought credit to herself, the Congressional Budget Office and the Congress: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That the Congress of the United States expresses gratitude to Dr. Alice Mitchell Rivlin for her dedicated service as Director of the Congressional Budget Office and wishes her continued success.

SEC. 2. The Secretary of the Senate shall transmit a copy of this resolution to Dr. Alice Mitchell Rivlin.

Mr. DOMENICI. Mr. President, I am pleased to join with my friend from Florida and other Senators in commending Dr. Alice Rivlin for her outstanding performance as the first director of the Congressional Budget Office. Under her leadership, the Congressional Budget Office has achieved a national reputation for the highest quality objective analysis and we in the Congress have been the beneficiaries.

I would particularly like to commend Dr. Rivlin for her extraordinary leadership in assembling one of the finest research organizations in the Government and for her loyalty to both this organization and the Congress. Dr. Rivlin has served as CBO Director well beyond the end of her term at the request of both Houses of Congress and now she is free to pursue the interests she has set aside for so long.

I would also like to point out Mr. President, that not only do we recognize Dr. Rivlin's unusual ability here in Congress, but many others in the research community at large have honored her. I think that we all should be proud that the MacArthur Foundation has recognized her accomplishments in economics and public affairs and has awarded her a large endowment that she may use to further her own creative endeavors.

Clearly, Dr. Rivlin is an unusual and highly qualified economist and administrator. We shall all miss her.

Mr. President, I ask my friend from Florida if it would be possible to leave the resolution open for additional cosponsors until such time as it leaves the desk or is called up.

Mr. CHILES. Mr. President, I ask unanimous consent that the resolution be held at the desk until 5 o'clock this afternoon so that additional cosponsors may be added.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. Mr. President, will the Senator add Senator DOLE as an original cosponsor?

Mr. CHILES. Mr. President, I ask unanimous consent that Senator DOLE be added as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. I thank the Senator.

Mr. CHILES. I thank my friend from New Mexico.

Mr. BYRD. Mr. President, today I am joining Senator CHILES in introducing a resolution of commendation for Dr. Alice Rivlin, who will leave her post as Director of the Congressional Budget Office at the end of the month.

Dr. Rivlin has served as the first, and so far only, Director of the CBO since its creation in 1975. In the 8 years under her leadership, the CBO has become an indispensable tool of the Congress in budgetary matters. Its professional staff and expertise in a range of fiscal and economic issues is widely respected and it has given Congress the ability to analyze budgetary information independently from the executive branch. This last fact has contributed greatly to the credibility of the entire congressional budget process.

When Dr. Rivlin was first appointed as Director, the CBO was a vision in

the minds of the framers of the Budget Act. She was able to blend the often conflicting views of what the CBO should be into a professisonal organization that has served the budget process and the Congress well. I have no doubt that without the objective, nonpartisan information supplied by CBO, the budget process would be mired in conflicting numbers, confusing alternatives, and splintered factions. It is a tribute to her leadership and the staff she assembled that even when there is disagreement over the numbers, there is general agreement that a non-CBO number carries little weight.

Mr. President, the past several years have been especially difficult for the budget process. No one knows this more than the Director of CBO. Yet throughout the period, CBO continued to supply Congress with professional information and advice on budget issues. As difficult as the budget process has been, it would have been chaotic without the help of the Congressional Budget Office.

We are in the debt of Dr. Rivlin for establishing CBO's reputation for honesty and integrity in dealing with budget issues. She has performed her duties with dedication and distinction for the past 8 years and I think she deserves our thanks for a job well done and our wishes for her continued success.

Mr. SASSER. Mr. President, since 1977, I have served on the Senate Budget Committee. In those 6 years, I have had the honor of working with Dr. Alice Rivlin in her capacity as Director of the Congressional Budget Office.

Over the years, Dr. Rivlin has been a strong beacon of light in the sometimes murky undercurrent of budget authorities, outlays, technical adjustments, functional categories, and other concepts which are peculiar to the world of the budgeteer.

As the first Director of the Congressional Budget Office, and someone intimately involved with the evolution of the congressional budget process, Dr. Rivlin has been an invaluable resource to Congress and she will be sorely missed.

Dr. Rivlin has earned the respect of her colleagues in business and Government and has transformed that respect into admiration for the office and the process she has so ably served.

Dr. Rivlin is now returning to the Bookings Institution where I am confident she will continue to shine as one of the top experts in the budgetary field. I would like to congratulate Dr. Rivlin on being awarded a grant from the prestigious MacArthur Foundation and I would like to extend my personal thanks and gratitude for the work she has done. Good luck in your new endeavors.

Mr. HOLLINGS. Mr. President, I would like to join my colleagues in commending Dr. Alice M. Rivlin upon her retirement as the Director of the Congressional Budget Office. She has been a dedicated and determined director who took a fledgling organization and turned it into a professional and modern budget office.

Like myself, Dr. Rivlin has been a "charter" member of the budget process. Since 1975, we have seen that process grow and mature. And while there may be problems with the budget process today, one of them is not the Congressional Budget Office. Indeed, one of the main reasons for the success of congressional budgeting has been the CBO. Under Dr. Rivlin, Congress has had access to impartial and bipartisan budget and policy analyses. Under Dr. Rivlin, the legislative branch has become independent of the executive branch in matters of fiscal and budgetary policy. That is no small feat.

I might also add a personal note. When I became the chairman of the Budget Committee in 1980, it was in the middle of the deliberations on the first budget resolution. It was a hectic, busy, and confusing time as we, in the Senate, put together a prudent budget that included the first serious reconciliation bill in our history. I came to understand firsthand the importance of Dr. Rivlin and the CBO. With their undivided attention and assistance, I survived my first resolution as chairman and the Congress survived its first reconciliation bill. Again, no small feat.

Dr. Rivlin deserves more than just a thank you from all of us. It is my hope that the Congressional Budget Office will express its gratitude by continuing its pursuit of excellence and impartiality. Here in Congress, I hope that we show Dr. Rivlin that we have learned from her—that there are no easy choices in budgeting but there are no ways to avoid making choices if we are to live up to our responsibilities to this Nation.

I wish Dr. Rivlin success and happiness in all of her future pursuits. We will all miss her.

Mr. FORD. Mr. President, Dr. Alice M. Rivlin, director of the Congressional Budget Office, has announced her desire to retire from Capitol Hill and pursue her formidable skills as an economist in the private sector. The Members of Congress owe Dr. Rivlin an enormous debt.

As the first Director of the Congressional Budget Office, Dr. Rivlin was assigned the difficult task of building the initial staff and setting professional standards for this new office. In performing the duties placed on the office by the Congressional Budget Act of 1974, Dr. Rivlin has consistently displayed high intelligence, sensitivity, and all-around excellent judgment. We, who have relied on her reports and advice, shall sorely miss her. The extent to which Congress has come to rely on the Congressional Budget Office, I believe is a great tribute to Dr. Rivlin.

I wish Dr. Rivlin continued success and happiness as she undertakes her new responsibilities with the Brookings Institute.

● Mr. RIEGLE. Mr. President, I am pleased to join in support of this resolution to commend the outstanding achievements of Dr. Alice Rivlin as Director of the Congressional Budget Office.

By 1975, when Dr. Rivlin was called to become the first Director of the Congresssional Budget Office, she had already established a national reputation as a leading economist. After earning a doctorate in economics from Harvard University, she came to Washington as a research fellow at the Brookings Institution. She was subsequently recruited by the Johnson administration to help establish the first Planning and Evaluation Office in the then Department of Health, Education, and Welfare.

Three years later, she returned to the Brookings Institution where she came to be known widely as one of the country's most lucid and insightful economists. She was particularly respected for her analysis of the economic impact of the Federal budget. For 3 years she was one of the principle authors of the annual Brookings analysis of the Federal budget, Setting National Priorities.

Through her work prior to 1975, Alice Rivlin achieved a stature that made her the ideal candidate to become the first Director of the new Congressional Budget Office. She will be known as the founder of that important agency and one of the leading builders of the congressional budget process.

It is difficult now to remember the early days of the Congressional Budget Office, so influential has that agency become in the intervening years.

The Congressional Budget Act proposed a sweeping change in the institutions of Congress and in the procedures with which Congress affects the Government's impact on the economy. Congress had decided for the first time to establish the capacity to analyze the budgetary impact of all legislation reported from committee, to project the 5-year implications of spending and revenue decisions, to carry out more comprehensive analyses of Federal program choices and to bring more discipline and coherence to fiscal policy's impact on the economy. The Congressional Budget Office was to serve as the principal analytic arm of Congress in that reform.

Now that the Congressional Budget Office is a firmly established part of the Federal Government it is easy to underestimate the difficulty and complexity of the task that Alice Rivlin was given. Prior to 1975, proponents of legislation—in each administration, within the Congress and outside of Government—could ignore the costs of their proposals or tailor their budgetary estimates to serve partisan objectives. In less able hands than those of Alice Rivlin the establishment of the Congressional Budget Office could easily have foundered. Some doubted that the job could be accomplished at all.

Alice Rivlin moved quickly and surely to assemble a superior staff. Within a few short months, under her leadership, the Congressional Budget Office had become the most competent and affective source of analysis on the Federal budget. Today the Congressional Budget Office stands as one of the Nation's most distinguished centers of public policy analysis.

The full measure of Alice Rivlin's abilities becomes apparent when we realize that her achievement was accomplished during 8 years in which the Nation was subjected to wrenching economic and political stress. During that entire period, virtually every responsible observer held the Congressional Budget Office in high respect for its forthrightness, its professionalism, and its nonpartisanship.

As a member of the Senate Budget Committee, I know that Dr. Rivlin has had to work in the face of substantial partisan pressures throughout her tenure.

Alice Rivlin has set a standard of performance that will challenge other leaders in Government for years to come.

Alice Rivlin has truly performed a great service for her country. She has done so with rare professionalism and grace. She has our profound respect and deep gratitude.

I want to express to her my warm, personal congratulations on a task well done and my sincere best wishes for the great work that, I am sure, lies before her.●

Mr. CHILES. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CRITICAL AGRICULTURAL MATERIALS ACT

Mr. DOLE. Mr. President, I am just sort of passing through the Chamber. I thought maybe the farm bill might be up. Apparently the same people who were blocking it are still blocking it. It is unfortunate that it will cost the wheat producers probably $1 billion. I would still hope that those who are particularly concerned about the wheat section would take a look at the proposal discussed last night at length with a number of Senators, staff members, and with the Secretary of Agriculture. We have tried to obtain some figures to see just how it breaks down.

Without congressional action, and just talking now about wheat, there will be a 30-percent acreage reduction and 20 percent PIK with a 75 percent PIK payment and a $4.45 target price. The proposed compromise would be a 25-percent acreage reduction, a 25-percent PIK, and an 82.5 PIK payment and a $4.38 target price.

I would say in that proposed compromise the administration did not sign off on the 82.5. They are still holding firm on the 80 percent payment.

The compromise would yield $823 million more in net farm returns for the 1984 crop year, and there would be $181 million more in Government outlays in fiscal years 1984—86 with the higher target price in the compromise and with the 82.5 percent payment rate rather than 80 percent. So we are looking at about $1 billion, and in fact a little over.

Several members of the Senate Agriculture Committee are objecting to bringing up the bill.

I really believe if all those who were concerned about the producers would take a pencil and figure out the alternatives for the wheat producers, the feedgrain producers, the rice producers and the cotton producers, and determine how they are "better off," in a sense, so far as income is concerned, they would certainly, and I believe very quickly, agree with the so-called compromise that was proposed and is now not opposed, I must say, by the National Association of Wheat Growers. In fact, the wheat growers in my State, the State association, supports the compromise, positively supports the compromise, and I think there are other wheat grower associations which will.

There are obviously other farmers who are not members of that organization, the Grange, whatever, who may have a different view.

But the wheat growers do reflect the views of thousands of wheat producers in the wheat belt. They have withdrawn their opposition. They have indicated, I believe, that this compromise has the best hope of satisfying the largest number of producers, still indicating some responsibility as far as reducing the cost of agricultural programs.

Again, I assume if we want to reduce the cost more, if we do not have any compromise, that may be another $1 billion in savings, depending upon the accuracy of the figures furnished by the USDA.

It seems rather obvious to me that any chance to work this out today will probably be between 0 and 1 percent on a scale of 100. It does not look very encouraging. Apparently those who had reservations still have reservations. I think those who are going to be the victims of this indecision and unwillingness to cooperate will not be those of us in the Senate but it will be the producers in our States.

There is still time but unless we are in session most of the night and all day tomorrow there will not be time.

There is one other option that has not been tried. That would be to separate the dairy legislation from the remainder of the package. Again, I understand that would be objected to and opposed by the administration. It is something I know the distinguished Senator from Kentucky would support and I think others working on the dairy bill, as the Senator from Kentucky has been working for a long time, might want to pass the dairy section. When it comes to separating the provisions, I think we have an administration objection. They feel, with some justification, I feel, that there ought to be a package and the package ought to include at least a partial freeze of target prices on wheat, feed grains, rice, and cotton.

Mr. HUDDLESTON. Will the Senator yield?

Mr. DOLE. I yield.

Mr. HUDDLESTON. I commend the Senator from Kansas for his efforts over a period of weeks to try to resolve what appears to be an impasse so far as moving the farm legislation. It has been before the Senate now for quite some time, having been reported out of the Agriculture Committee of the Senate.

The strategy that the Senator from Kansas has mentioned, from the viewpoint of the administration, is insisting that this legislation move as a package, that is, that the provision relating to the freezing of the grain target prices as well as the other two elements of the bill, one affecting the dairy program and one affecting the tobacco program, must go as one piece.

There are those in the Senate representing the major wheat-producing States who have expressed serious concern about the target price freeze on wheat and grains, given the fact that income on America's farms is now at approximately $18 billion a year and that compares with a farm net income of just 3 years ago of some $32 billion per year, creating a tremendous cash flow problem for our American farmers as they try to service the debt that they have.

I can understand the reluctance of those representing large grain produc-

ing States to in any way further reduce that cash flow, although I personally have been constrained to believe that the tremendous cost of our farm programs put all of them in jeopardy. Perhaps the time has come, given the fact that the inflation rate has reduced substantially, for a freeze in the target price level. Nevertheless, I do not represent a State that has the massive production of these grains as those who have expressed that concern here on the Senate floor.

I think it is interesting to point out that while the net income of American farmers is some $18 billion, the cost of the programs of the Federal Government exceed that amount and are in the neighborhood of $21 billion per year.

This is something that I think all of us who are interested in agricultural production in this country, which is, in my judgment, the greatest asset that the United States has, must give some thought to, and must try to find some way to work ourselves out of this kind of costly situation.

As I indicated, I think any program, whether it is tobacco, grain, dairy, sugar, or any other program that becomes excessively costly to the American taxpayer, given the fiscal restraints that we are trying to operate under in the Congress and the looming deficits that we are faced with, comes into jeopardy.

I know we all want to protect to the fullest extent possible the income of the American farmer.

I do want to point out that those who have opposed the grain target price freeze have not been obstructionists as far as moving ahead with the one element of this compromise, one element of the farm bill that is before us that is in general agreement; that is the dairy provision. Anyone who looks at the dairy situation, the tremendous cost to the Federal Government of one program that is now approaching $3 billion in costs and, at the same time, creating unheard of surpluses—anyone who looks at those facts knows that that program needs some adjustment.

No element of the agriculture community is a monolithic element. There is no one solution that is satisfactory to all producers of dairy products, for instance. To reach a compromise required, as the Senator from Kansas knows, a great many meetings held many weeks ago—meetings of Members of this body on both sides of the aisle, Members of the House from both parties, members of the Department of Agriculture, and representatives of the various segments of the dairy industry. This compromise was hammered out.

It is one that I think can rightly be characterized as a program that will do the two things that need to be done. One is reduce the surplus production; the other is to maintain sufficient income for the dairy producer that we do not drive thousands, maybe hundreds of thousands of them, out of business. So those who have objected to the target price freeze have not in any way objected to breaking out from that package of farm legislation the dairy provisions, presenting them on the floor, and sending them over to the House.

I know there will be several amendments. There are several Members of the Senate who have several approaches to the dairy products and their amendments to be dealt with. That legislation could be handled, I think, fairly expeditiously. They would be attached to a House bill and conceivably, a conference could be held and that legislation finally enacted and sent to the President. I think it would be a great step forward if we could do that, a great improvement over the current situation, one that would give a great deal of confidence to the dairy industry and allow them to proceed with this process and do something about the overproduction that exists now in that field.

The alternative to that, the one which Mr. Stockman at OMB and the Secretary have embraced, is to proceed with the authority they have to add the two 50-cent assessements on dairy products. This is not satisfactory from a couple of very important standpoints. First, it is resented by the dairy industry. It does, in fact, comprise a tax on milk, singling out that product among other farm products. It has not in any way demonstrated that it would do anything to reduce production, because what usually happens when the farmer finds his check is reduced by 50 cents is then he just produces a little bit more to make up for that cash deficit and we have more production and the Government is buying more dairy products that it cannot use itself, cannot even give away.

Perhaps even worse, it provides absolutely no benefit, none whatsoever, to the consumer. It does not reduce the price of the product on the grocery shelf by a cent, and consequently, it does not help promote the sale of that product and help eliminate some of the surplus that we have and the consumer continues to pay the same price. So that does not seem to me to be a logical nor a satisfactory alternative to passing the comprehensive bill that has been carefully worked out and crafted, taking into account the interests of producers from one end of this country to the other, taking into account the consumer, taking into account the tremendous financial burden the program is placing on the taxpayers of the United States.

As I say, those who have been against and reluctant to accept any kind of reduction in the increases built into the present farm bill for the target prices of grain are not at all opposed to moving forward with a milk program if that can be accomplished. The Senator from Kansas has correctly stated that the administration is not willing for that to occur without the grain target price freeze counted with it. That has made it virtually impossible to move this important piece of legislation at this late hour.

I think that is unfortunate. I suppose that negotiations will continue. Efforts will go forward for a few more hours, at least, to see whether or not there is any way to get around this impasse. I hope we can. I hope we can move with that. I believe the Senate is ready. I know those who have worked so hard on this dairy program on both sides of the aisle are ready to go forward with it. I believe we could dispose of it today.

But we cannot get to it unless we can have the concurrence of the administration that the grain target price freeze is not included with it. Whether that can be accomplished, as the Senator from Kansas has said, is still a question in major doubt.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BOSCHWITZ). Without objection, it is so ordered.

Mr. DOLE. Mr. President, I have here a 65-page compromise that I would be happy to have passed by unanimous consent, but I do not think I shall ask that at this point. I think it would be very helpful to American agriculture, but I do not believe we are going to accomplish much today. I would like to include in the RECORD at least an indication that we have satisfied—I mentioned last night in our meeting with other Senators that there were seven requests made by the representatives of the wheat growers. Their first request is with reference to the target pricing compromise; the second request is relating to a PIK payments compromise; third, that the advance deficiency payments be agreed upon; storage payment was agreed upon; the July 1, 1985, wheat program announcement—that was announced yesterday or the day before; the request for haying and grazing has been modified. That would be limited to grazing. And some assurance that increased payments resulting from a loan decrease will not be subject to a payment limitation. That would have been offered as part of the package.

I suggest that there is still time. There is very little time, but I think if all those of us who represent wheat producers would take 5 minutes to sit

down and take a look at option A and option B or the compromise, they would find out that their constituents in any wheat producing State are going to be much better off under the compromise.

The very wheat producers who are going to be better off are going to be denied the opportunity because some who represent wheat-producing States will not let us proceed with the bill. As we add it up, it is about a billion dollars that we are going to subtract from wheat growers' income. Those figures may not be accurate, but at least they are the best figures we have. They are from the U.S. Department of Agriculture.

It just seems to me that we have missed an opportunity or are about to miss an opportunity. I share the concern expressed by the Senator from Kentucky isofar as the dairy legislation is concerned. There is general agreement on dairy legislation, but there is reluctance on the part of the administration to bring that up and not get anything in return. So we have cost the wheat producers a billion dollars by inaction and who knows what other costs will be inflicted upon the producers because we have some who will not let us proceed on farm legislation?

Mr. LEAHY. Mr. President, will the Senator yield?

Mr. DOLE. I was about to yield the floor.

Mr. LEAHY. Mr. President, I must admit that there are few times in the 9 years I have been in the Senate that I felt as discouraged as I do this morning in hearing the comments being made. Last night I thought there was a slight hope, a slight window of hope, that we might get somewhere at least on the dairy compromise. We worked out a program of legislation. The distinguished Senator from Kansas was involved in that compromise, the distinguished Presiding Officer, the distinguished Senator from Kentucky (Mr. HUDDLESTON), who has just spoken. We ended up with legislation that would cut the cost of the dairy program—we are talking now about cutting money, not adding it—$1.4 billion next year and would reduce milk surplus purchases by the Commodity Credit Corporation from an estimated 16.3 billion pounds to .5 billion pounds over the same time period. It is a fair, workable, effective bill. Last night those Senators most interested in this program met. I felt the room included all Senators before we finished. But we met in the Vice President's office, again with the distinguished Presiding Officer, the distinguished Senator from Kansas, with the Secretary of Agriculture. Notwithstanding a few amendments that some might offer to the dairy bill, we realized that we had enough votes to pass the compromise.

I have discussed it this morning with my distinguished House colleague from Vermont. I thought there was a possibility, had we been able to get the dairy compromise out of the Senate, perhaps attached to an already-passed bill—and we have at least one agriculture bill from the House that we all agree on; in fact, we passed it in the supplemental appropriations bill—the House would have accepted it and the matter could have gone down to the President this afternoon or this evening and $1.4 billion would have been saved.

Even more importantly, a lot of individual family farms would have been saved. We are not talking about some kind of abstract, giant, conglomerate corporation. We are talking about individual men and women running family farms, whether in Vermont, Wisconsin, Minnesota, California, Mississippi, Florida, or any other State. What we are trying to do is put together a piece of legislation that would guarantee not only their viability but the economic viability of these family dairy farms that are so important to the social and economic fabric of our country.

In last night's meeting, I also said to the Secretary of Agriculture that I find it, indeed, unfortunate that the administration, which has so much to gain by this bill, with the support that it would have in the Senate, felt it had to hold up any such dairy compromise from coming to a vote on the Senate floor until they are able to work out something on the wheat program.

We could not seem to get across to them that when we made this bipartisan agreement on dairy—and it was truly bipartisan from the first meeting in my office months ago with the Secretary of Agriculture, several Republican Senators, several Democratic Senators, straight through all the other meetings we had, meetings in the distinguished Presiding Officer's office, meetings in the majority leader's office and meetings in the Vice President's office on at least two occasions with the Secretary of Agriculture, meetings in the Secretary of the Senate's office—we had a bipartisan program designed to save money, decrease production, increase consumption, and save family farms.

The distinguished majority leader gave more of his time than anybody could have asked in trying to help us get that through. And what happened? The administration keeps insisting now even when we finally have such a compromise, when we built the compromise, when we are ready to go on the floor, we are ready to pass it, "We want to tie that to target prices on wheat."

That was never in the agreement. Nobody, Republican or Democratic, ever made that as part of the agreement. What the administration did not seem to understand, and I stressed again to them last night, is that that does not get one more vote one way or the other on their wheat program. What they ought to do is let the dairy matter no longer be hostage, let it go forward, "let dairy be dairy." To paraphrase a favorite phrase of the administration. We could pass that, save money, and continue to work on the wheat matter. Somwhow they have this kamikaze idea that they must tie the two together so that both will go down in flames instead of only one.

I yield to the majority leader.

Mr. BAKER. If the Senator will yield to me, I will refrain from saying thing like "the milk of human kindness" and "grain is the staff of life." Instead, what I will do is ask unanimous consent, since we have already gone beyond it, that the time for the transaction of routine morning business be extended until 1 p.m. and Senators may be permitted to speak for 15 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. I thank the Chair I thank the Senator for yielding to me for that purpose.

Mr. LEAHY. I say to the distinguished majority leader and my good friend from Tennessee that it has been a great temptation on the part of this Senator to use some of those same metaphors. I am not sure that the temptation can be resisted throughout the day. As the day wears on, such metaphors will work their way onto the Senate floor. Perhaps though, because of the kindness of our distinguished staff members, they will never work their way into the CONGRESSIONAL RECORD, but they may well work their way onto the floor. They certainly will not work their way into the press because they have more important things to write. Most of them are now busily writing their articles about how the Congress is about to go off on a vacation, which will be filed with their editors as they themselves leave for Martha's Vineyard or Atlantic City or wherever else they may go on vacation uttering a fervent prayer of thanksgiving that the Congress does do this every 2 years. It not only gives them something to write on each year but also gives them a chance to be off with their families, too, except for one member of the press who was foolish enough to agree to come along and follow one of us on scheduled meetings and speeches back in our home State.

Back to more serious things, however, Mr. President—and I am most serious—I think it is an absolute shame that this intractable position is apparently going to win out on the Senate floor today. It is not only bad policy. It is pigheadedness that will end up costing the American taxpayers hundreds

of millions of dollars more than they otherwise would have had to pay. It accomplishes absolutely nothing legislatively. It shows a total ignorance on the part of some of how the legislative process works, certainly a total nonrealization of how the Senate works. It is something they should realize because, after all, their own party is in the majority. They have been told by both Republican and Democratic Members that it is not going to work. The pigheadedness has won out, apparently. The efforts of Republican and Democratic Senators and Republican and Democratic House Members is going to be for naught.

Each of us can live with that. Our time has been spent here and apparently now has been wasted. But I wonder how many of the family farms that will go out of business as a result of this can live with it.

A lot of people are going to feel far more than frustration. They are going to feel the real threat of bankruptcy, the real threat of losing the lands for which they have worked hard.

I am sorry this has happened. I am sorry such an agreement could not be reached. I again commend my colleagues on both sides of the aisle who have tried to put the agreement together.

I wish that someday OMB could see the human element and not just the numbers, especially when the numbers go against them. For a quixotic point they have maintained there, somehow thinking that they will direct the legislative flow in the U.S. Senate in a way they have been advised will not work, and in doing so a good farm program is destroyed. The ability not only to help individual dairy farmers but also to bring some rationality to a dairy program which we all agree has grown out of bounds is also lost. All that has gone down the tubes.

I think the American farmer should cry, "Shame on that," and should point the finger of blame where it belongs.

THE FARM PROGRAM

Mr. MELCHER. Mr. President, the administration's recommendation to revise the farm programs with immediate action now to cut target prices for wheat, corn, feed grains, cotton, and rice is an admission that the cost tabulated so far for the payment-in-kind (PIK) program of at least $12 billion has not accomplished its goal of reducing grain supplies anywhere near the level the Department of Agriculture has desired.

PIK has idled millions of acres of productive land, most of which lacks a conservation program, but has transferred billions of dollars to farmers for agreeing not to produce crops on the idled acres.

Now the administration has come forward with their proposal to adjust part of the agricultural program target prices that affects four basic commodities.

Last December, when the Department of Agriculture Secretary John Block advocated hasty action by Congress to legislate the PIK program to add it to agricultural policy, he was unable to present details on how it would fit in with other other facets of American agricultural policy.

Item. Would the payment limitation of $50,000 per any one farm apply?

Item. Would conservation practices be a part of the PIK payment agreement for the agricultural conservation program?

Item. Would the PIK payment be at 70, 75, or 80 percent of the normal crop yield?

Item. Would the PIK contracts interfere with the farmer-held reserve or the emergency grain reserve?

Item. Would PIK payment be used to subsidize foreign sales or U.S. surplus commodities?

Item. What would be the cost of the PIK program and would it be so large as to jeopardize the public support for farm programs in general?

The answers to these questions were either not available or were indefinite and fuzzy.

I resisted the quick passage of a bill for PIK before Christmas.

I did ask the Secretary to review the PIK program proposals in depth with Members of Congress, both House and Senate, and with agricultural production leaders throughout the country and make a proposal for a PIK bill to be considered by Congress in January and if it had the proper guidelines and dovetailed with existing farm programs to be enacted into law.

To be fair to Secretary Block, he believed it was essential to act quickly in order to set the PIK plan in motion and available for farmer operators to sign PIK contracts in February and March. That judgement by Secretary Block and the administration was received gratefully by the farmers that sign contracts in order to receive the payments who are then able to pay their bills.

A review of agricultural policy at this point is timely. I do advocate prompt action but not shots in the dark. Farm income is down and wheat farmers in particular are producing wheat below the cost of their production. Foreign sales may increase in the Soviet Union and mainland China because of the recently agreed to Soviet long-term agreement and the resolution of textile quotas upon which China insisted before resumption of purchases of American grains. But the strong U.S. dollar in relationship to other foreign currencies still hampers the viability of the sales to other countries of American grain. This problem must be addressed immediately but its resolution is still in the future which will dramatically affect market prices and foreign sales for American grain next year. To the extent that foreign grain sales increase, the cost of the farm program will decline. But it is too early to estimate that effect at this time.

Second, the administration has been reluctant to plan and program food for peace, concessionary sales of surplus commodities to foreign countries, and has just now become more active in distribution of American surplus foods to the inadequately nourished, financially hard-pressed households here in this country.

The use of American food products for Mexico or other Central American countries has been used gingerly. Food will buy us more friends, solve more unrest than grants or concessionary sales of armaments abroad. Food policy both domestic and foreign has been penny-wise and pound-foolish.

We have had enough experience with PIK and other farm programs to use American agricultural productivity in a wiser way than we have in the past. Secretary Block and the administration have an opportunity to propound policy corrections.

Congress has an opportunity and responsibility to produce positive long-range production for domestic use and foreign sales. So far, our policy has been shortsighted, emphasizing too much production curtailment and neglecting opportunities for turning America's agricultural abundance into a positive asset.

As to the quick fix to freeze target prices now as the Secretary advocates, I doubt its effectiveness. I resist it until a comprehensive and more constructive farm program is before us to put guidelines on PIK, and additionally changes to enhance the utilization of food here at home, and increased the export of American grains and cereals.

That is the recipe for a sound agricultural policy and it will help the American economy and lower farm program costs.

SALUTE TO SPAFFORD CHILDREN'S CENTER

Mr. JACKSON. Mr. President, the continuing difficulties, differences, and violence that make it so hard to achieve lasting peace throughout the Middle East cause all of us concern. It is uppermost in our minds and all too often the news is discouraging. One problem is solved, another surfaces, Sometimes the problems seem insurmountable.

Yet amid all of this, but far from the headlines or controversy, is a beacon of hope that has endured in the Amer-

ican colony in Jerusalem for more than 100 years.

I speak of the Spafford Children's Center and want to take this moment to join my distinguished colleague from Washington, Mr. GORTON, in recognizing the tangible work of the center, as well as its symbolic contribution to the cause of peace and understanding in the Middle East.

The center provides health care, food, clothing, medicine, immunizations, and nutrition counseling to 28,000 of the poorest children and families of Jerusalem. Its modest $150,000 annual budget comes entirely from private contributions—much of it through the work of the Spafford Children's Center Association headquartered in Bellevue, Wash., and directed by Georgette Lind. Her husband, Peter Lind, is a fourth-generation member of the Spafford family which started the center in 1881.

The really marvelous thing about the center is the fact that Jews, Christians, and Moslems work side by side. Jewish doctors treat Christians and Moslems. Arab doctors treat Jewish children.

"Reconciliation and unity" between peoples regardless of race or religion is the center's credo. The atmosphere at the center has been described as an "oasis of peace."

It gives me a great deal of pleasure to salute the center, its staff, and supporters for their years and years of tireless service and for giving all of us continued hope that peace can be achieved throughout the region.

The story of the Spafford Children's Center is best told in a number of articles that have been written about it. So that my colleagues and other readers of the CONGRESSIONAL RECORD may become better acquainted with the center and its work, I ask unanimous consent that two of these articles be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Seattle Times, Mar. 9, 1983]

CHILDREN AIDED IN JERUSALEM WITH A BOOST FROM BELLEVUE

(By Marshall Wilson)

In an early morning telephone call Monday from Jerusalem, Anna Grace Lind reported—"it's cold, we have a lot of patients and we're running out of money."

Anna Grace Lind was talking with her daughter-in-law, Georgette Lind of Bellevue, and her distress call concerned the Spafford Children's Center where 20,000 children and 5,000 families in Jerusalem depend on getting medical attention each year.

In turn, the center counts on the Spafford Children's Center Association, the Bellevue-based national organization, for money to stay open.

The budget is modest—$150,000 a year to care for all those children and families. But the nonprofit group's total budget is raised exclusively through private contributions.

Peter Lind, a Bellevue attorney and Georgette's husband, is a fourth-generation member of the Spafford family which started the center for child care in the American Colony in Jerusalem in 1881. He is chairman of the board of the association; Georgette is the secretary.

Religion is not part of the center's treatment. Jewish doctors care for Christians and Moslems. Arab doctors treat Jewish children. No one is turned away.

The center's focus on children started under the saddest of conditions.

In 1873, Anna Spafford and four small daughters were en route to America aboard the Ville du Havre, the largest trans-Atlantic liner of the day.

In midocean, on a beautiful calm night, a sailing ship rammed the Havre and split the vessel in two. It sank in 15 minutes. Anna Spafford was one of 57 people rescued but her little girls drowned.

Her husband, Horatio, traveled from Chicago to meet his grieving wife in New York. They were to have two more children, Horatio Jr., who soon died of scarlet fever, and a daughter, Bertha.

In 1881, after the death of their son, the Spaffords went to Jerusalem as "a pilgrimage."

They settled in the old part of the city and, with a few other American friends, founded the American Colony in Jerusalem. During World War I they opened a soup kitchen and fed 2,400 starving people each day.

Always neutral in political upheavals in that troublesome part of the world, they were able to live peacefully during the days of the Turks, the British Mandate, when Arabs were in control and since the establishment of Israel.

Their daughter, Bertha, nursed both Turkish and British wounded during the war. It was Bertha, with her compassion for an orphaned child during the Christmas of 1925, who initiated the Spafford Children's Hospital or "Baby Home."

Until 1967, the Spafford Children's Hospital was the only such hospital in the Old City of Jerusalem. Today, with new Israeli hospitals, it focuses on preventative medicine.

Spafford Center has a pediatric clinic, day care center, an infant welfare station, laboratory services, prenatal clinic and specialized clinics such as endocrinology, dermatology, neurology and physiotherapy.

"For more than 58 years, the Spafford Children's Center has provided medical services, food, shelter, clothing and counseling to the neediest children and families of the Holy Land, regardless of race or religion," said Anna Grace Lind, daughter of Bertha Spafford.

Lowell Thomas, traveler and commentator, led the fund raising for the association for 12 years before his death. Thomas once described Bertha Spafford Vester as "My Most Unforgettable Character" in a Reader's Digest article.

Thomas, wearied by illness, turned over fund-raising activities to the Rev. Oral Roberts. It was an unsuccessful transition.

After a couple of years, in which few funds were sent to Jerusalem, Roberts handed the job back. Peter Lind took over and, since headquarters follows the residence of the chairman of the board, Spafford Children's Center now looks to Bellevue for support.

Georgette Lind said this week that Spafford has been unable to get back the list of contributors they had when Roberts was heading up financial drives.

For two years, under Roberts' fund raising, Spafford continued operations primarily from reserve funds. Those reserves are gone now.

"We'll do it," Peter Lind said. "We'll keep knocking on doors, keep our hands out."

Georgette and Peter Lind will be going on a tour of the Holy Land in October. A percentage of their fee will go to Spafford.

For volunteering, to make a donation, to join the Holy Land tour or for any additional information, call Help for the Children in the Holy Land, 455-4240.

"We're looking for volunteers for a variety of positions," Georgette Lind said. "Tasks, include office help, media research, speaker's bureau and fund-raising newsletter assistance."

Georgette Lind is now busy on her second year of fund-raising. At a fall fund-raiser in Seattle works of original art were auctioned off, including strips by syndicated cartoonist George Smith who does the "The Smith Family."

One of the strips by Smith was held out from the auction because it represents what Spafford is all about, according to Barbara Lindsey of Bellevue who is heading up the latest fund raiser.

The strip's star child asks why people of different races, religions and backgrounds cannot get along.

The answer: Something's missing—love.

[From the Jerusalem Post Weekly]

A TRADITION OF SERVICE

(By Helga Dudman)

Her mother received the Order of the Jordan Star from King Hussein, the only woman chosen for this honour. Last week Anna Grace Vester Lind accepted the honour of "Distinguished Citizen of Jerusalem" from Mayor Teddy Kollek, in the presence of President Katzir. There is no contradiction betwen the two awards, as both were made for service to the Arab children of East Jerusalem.

The remarkable point is that three generations of women are involved in this Jerusalem pattern. Here is Mrs. Lind's grandmother, speaking 81 years ago, almost to the day:

"The changes in Jerusalem are wonderful! Ten years ago there were only 4,000 Jews in Jerusalem. Now there are 40,000 and they are building outside the city walls . . ." Anna Spafford was testifying in court, and her words were reported by the "Chicago Daily News" of May 14, 1895. Explaining why her American Protestant family had moved to Jerusalem 14 years earlier, she said: "We wished to be there when God brought the Jews back."

In today's troubled atmosphere, the Municipality's decision to honour Mrs. Lind reflects the unity of Jerusalem as the undivided capital of Israel, and also as a city central to three faiths. The institution she directs—the Spafford Children's Centre in the Old City—is dedicated solely to the welfare of Arab children, and has cared for thousands each year for over half a century.

Its staff is directed by an Arab doctor, and the nurses and technicians are Arab and Armenian. But five Jewish doctors from West Jerusalem hospitals hold specialized clinics on a regular schedule, and on a volunteer basis. One of them, Dr. Hanna Leszynsky of Bikur Holim, saw her first patient at the Spafford Centre on July 6, 1967.

Long before then—in 1925, when the project started—Dr. Helena Kagan, Israel's first pediatrician, began caring for Arab

babies at the Spafford establishment. She continued to do so for over 23 years, until the British insisted she was no longer safe from Arab violence in the Old City. As would be obvious to anyone who knows her, Dr. Kagan was the first civilian to visit the Spafford Centre after the Six Day War.

Foreign journalists and medical investigators—not to mention Israelis—may wish to note the close working relationship between the Centre and Shaare Zedek Hospital, which takes patients at special rates. Dr. S. Freier, head of Shaare Zedek's Pediatrics Department, is one of the specialists who holds a weekly clinic at the Spafford Centre. The others are Drs. Dorman, Robinson, Amir, and Leszynsky.

On behalf of the Arab population, the Centre also cooperates fully with the Ministry of Health and is always available for special emergencies. For instance, when a minor polio epidemic broke out in Gaza and the Israeli authorities encouraged general immunization, the Centre's nurses were asked to help, and extra volunteers coped with the extra pressure.

"I never intended to do anything like this work. I inherited it." Mrs. Lind told The Post recently. In a report on the institution's work, she has written, "We continue to serve the people of Jerusalem, probably in a different way from our grandparents, but with, we hope, the same concern, compassion, and love."

This leads back to the links in the strange saga of an American family which a chain of events brought to Jerusalem nearly a century ago, and illuminates the differences in which three generations react to changing historical and personal circumstances. The Spafford Children's Centre, founded as an emergency Baby Home in 1925 by Mrs. Lind's mother, Bertha Vester, was named in memory of Mrs. Lind's grandmother, Anna Spafford, who had died in Jerusalem two years earlier. Mrs. Spafford, with her husband Horatio and two baby girls, came here to await the return of the Jews and the End of Days—and because the couple had lost five of their own children. The Centre is one of two existing offshoots of the Spafford family's "American presence in the Holy Land." the other is the American Colony Hotel in East Jerusalem, managed by Mrs. Lind's brother Horatio Vester.

Mrs. Lind was born in the same house in the Old City, built right on the wall between Damascus Gate and Herod's Gate, in which she lives and works today. It is the same house to which her mother was brought from Chicago as a two-year-old baby in 1881; the same house in which Anna Spafford set up housekeeping with a curious little group that developed into a commune or, as Horatio Vester is fond of putting it, "the first kibbutz in Israel"—the American Colony.

Anna Grace, sunny, gay, brimming with life, attended the English Girls' College in Jerusalem. "Mother felt we should speak English properly, so as a result we're rather poor at languages." But she has of course spoken Arabic since childhood—and studied Hebrew at the Ecce Homo ulpan. She spent 15 years in America, following marriage to a Swedish member of the Colony; they were later divorced. During World War II, in America, Mrs. Lind worked for the U.S. Navy. She has two sons and five grandchildren, abroad.

In 1952 her mother asked her to return to Jerusalem. The American Colony Hotel has been badly damaged in the War of Independence; Mrs. Lind took over, supervised repairs, installed central heating and adequate plumbing. Eleven years later her brother Horatio, a successful barrister in London, also answered his mother's call and returned to take over the hotel from his brother John. Anna Grace moved to the Children's Hospital, into which the Baby Home had by then developed—the only children's hospital in East Jerusalem, and serving the West Bank as well.

The evolution of the Spafford children's project, begun in legendary fashion one Christmas Eve for one sick Arab baby, has been determined by changing conditions. When Jerusalem was unified in 1967, it became clear that unaccustomedly high medical standards were suddenly available to the Arab population in Jewish Hospitals. After much thought and in consultation with Professor Alexander Russell of Hadassah and the Jerusalem Child Development Centre, the two sisters, Mrs. Ward and Mrs. Lind, decided to shift emphasis from curative to preventive medicine. The Hospital became the Centre.

Today it includes a Pediatric Clinic, a Day Care Centre, an Infant Welfare station, laboratory services, an Ante-Natal Clinic, and specialized clinics such as Endocrinology, Dermatology, Neurology, and Physiotherapy.

"Health standards have improved very markedly since the Six Day War," Mrs. Lind observes. Arab children, and their mothers, are better fed, better dressed, cleaner. This is due in part to improved economic conditions, and also to the impact of examples set by Jewish mothers: "Arab mothers now see better ways of doing things.

"For instance, we used to try—without much success—to arrange little carrying-cases for mothers to transport their infants. Now, because they see them, Arab mothers have taken to convenient, modern, 'baby carriers'.

But of course, improvement has been gradual all along. "In the very early days. Dr. Kagan had experiences such as that of the mother who took the doctor's prescription, boiled it, and gave the baby the water to drink. We haven't had that sort of thing for years."

A stubborn streak of nearly obsolete Protestant thrift runs through Mrs. Lind's administration. The cost of a recent renovation was partially covered by the sale of "an old refrigerator and two broken sewing machines." Support from a variety of sources is channeled through the "American Colony Aid Association," on which Horatio Vester and his wife serve. And of course, the Hotel helps. Empty beer bottles, for instance, after their gay fling among the tourists, come to the Old City for a more noble function (after sterilization) as medicine bottles.

The Jewish doctors who volunteer their services are motivated partly by professional challenges; "interesting" cases are found here which have long since vanished from the Jewish population. But these Jewish doctors are also attracted by the atmosphere which, at the risk of sounding soft-minded, can be described as "an oasis of peace." Not that fear and suspicion is not present. But at the same time, this is, as one of them has put it, "a place where Arab and Jewish colleagues can work and laugh together—and argue, too. It is as things should be, a model proving there is still hope for the future."

Mr. GORTON. Mr. President, I am delighted to stand today in rcognition of the Spafford Children's Center in Jerusalem.

Founded by Bertha Spafford, the center has been operating in Jerusalem for 58 years. Bertha was the daughter of Anna and Horatio Spafford, who more than 100 years ago founded the American colony in Jerusalem and began giving food to the needy and medical care to wounded soldiers. The Spaffords' guiding principle was to offer assistance solely on the basis of need.

That principle is in evidence today at the Spafford Children's Center. The center is located in one of Jerusalem's poorest quarters. It provides medical care to children and health education to their families. The only qualification for treatment at the Spafford Center is need.

The Spafford Children Center is a tribute to effective cooperation. It is staffed by Christians, Jews, Arabs, Americans, and others, all working together to aid the poor and needy. Perhaps most impressive is the fact that the work of the Children's Center, and of the Spafford family itself, has gone on with equal vigor and effectiveness under Turkish, British, Jordanian, and Israeli rule, through two world wars, and through the conflicts which, even today, imperil the people of the Middle East.

Mr. President, in a world which is too full of strife and suffering, the efforts of the Spafford Children's Center deserve our acknowledgment, our encouragement, and our respect.

DEFENSE PROCUREMENT COSTS

Mr. STEVENS. Mr. President, the Defense appropriations bill we passed last year contained a requirement that any new or alternate fighter engine bought by the Air Force or Navy will have to have an engine warranty. That small provision was largely the result of efforts by Senator MARK ANDREWS, who is a member of the Defense Subcommittee that I chair.

That small provision did not gain a great deal of attention, but it was the opening shot on a campaign by Senator ANDREWS to help bring down defense procurement costs through the simple application of warranty procedures that have worked so well in the commercial market. A great deal of attention has been paid lately to rising procurement costs, and we have heard the horror stories about $400 clawhammers or 4 cent diodes costing $400 as part of management problems on spare parts procurement. This is just one small part of a very big problem, and we have a variety of solutions being proposed here in the Congress to get control of costs through increased competition, better testing procedures, and the like.

I think Senator ANDREWS' initiative has great promise for tackling these

procurement problems from a different angle.

A short time ago, on July 20, Senator ANDREWS called a press conference to signal that his effort in the area of requiring warranties on military equipment and systems is just getting underway. Just what form these warranty proposals take and how we can best integrate this procurement approach into the military system remains to be worked out. Meanwhile, however, I think his remarks at that press conference are significant and deserving of the Senate's attention.

Therefore, Mr. President, I ask unanimous consent that Senator ANDREWS' remarks prepared for that press conference be printed in full in the RECORD.

There being no objection, the remarks were ordered to be printed in the RECORD, as follows:

OPENING REMARKS OF SENATOR MARK ANDREWS

We in the Senate have just spent the last several days considering the fiscal year 1984 Department of Defense Authorization bill. As a member of the Defense Appropriations Subcommittee, I again will soon be required to make difficult decisions on funding the purchase of weapons systems and military equipment. At the same time, I am finding it increasingly difficult to find out what system will really work in the hands of our front line troops. We have all read and heard the horror stories: "Buy Arms Now, Test Them Later", "GAO says Pentagon Buying Untried Arms", "GAO Finds Arms Tests Slipshod" . . . reports are numerous and lengthy.

I believe the patterns of shrinking forces, escalating military costs, and deteriorating effectiveness so pervasive today cannot be an accident. I do not believe the United States has to resign itself to ever-decreasing defense capabilities at higher costs. Certainly there are thoughtful and practical legislative actions that can make a difference, even a signifcant difference.

It is estimated that less than 10 percent of the Department of Defense's purchases are truly competitive . . . or in other words, the result of normal competitive bids throughout the purchase time of the service or equipment. Anyone who has tried to "negotiate" with the only plumber or tow-truck available within 50 miles understands why I am concerned about the failure to buy weapons from competing producers. My colleague, Senator Grassley from Iowa, plans to introduce legislation in the near future to turn this situation around and require competitive bids. This is certainly and excellent idea and one that I intend to support.

Another good idea is the Pryor-Roth proposal, adopted overwhelmingly in the Senate during debate on the Department of Defense Authorization, which would establish a civilian director of operational testing and evaluation to be appointed by the President and confirmed by the Senate to oversee independent tests of new weapons systems.

A better idea might be the establishment of an independent commission to analyze the entire military procurement process.

However, I believe the best approach would be warranties, mandated by law on the future procurement of all military equipment. Specifically, language is needed in the appropriations acts that states that funds cannot be spent for the procurement of military equipment unless the contractor provides the United States with a written guarantee that will work. Therefore, I am currently working on language to be included in the Defense Appropriations Bill that will require warranties on the future purchases of military equipment; language that will also contain sanctions to enforce the warranty provisions.

Warranties are nothing new . . . in fact, we see them everywhere. Over the period 1980 to 1986, defense non-personnel spending as a proportion of GNP (less services) is expected to increase from 5.4 percent to 10 percent. This means that in 1986, 90 percent of the goods produced in the United States will be non-military goods . . . and the vast majority of these goods are warranted!

Commercial airlines have had warranties, including liquidating damages, written into their contracts for years. There were standard guarantees as such in the original C-5 contract. However, the Department of Defense wasn't willing to enforce many of the provisions in the contract that existed at that time because there was no incentive to do so.

If the Lockheed Electra of the 60's was warranted to a no-loss base for the airlines, why not the Lockheed C-5 to us as taxpayers?

Detroit Diesel Allison manufacturers the transmission for the tractor I use on my farm in North Dakota. I get a three-year warranty on it. In fact, my banker would not lend me the money to buy that tractor unless it was covered by a warranty. Allison also manufactures the transmission for the M-1 tank, and there is no warranty offered on it. We ought to have the same type of coverage under warranty for military purchases, or we shouldn't be buying them. Those of us on the Senate Appropriations Committee are in essence the bankers in this case. If we don't require the same warranties my banker asks for on my tractor, then as I see it, we are just not doing our job!

Warranties on military hardware will work, and in fact are working now in some cases. Last year I offered language that became Sec. 797 of Public Law 97-377, Continuing Appropriations for fiscal year 1983. The language requires that funds not be spent for the purchase of an alternate or new model fighter aircraft engine that does not have a written warranty or guarantee certifying that it will perform not less than 3,000 tactical cycles. The warranty provides that the manufacturer must perform the necessary improvements or replace any parts to achieve the required performance at no cost to the government.

In the fighter engine competition, the request for proposal (RFP) which has now been sent out by the Air Force, asks the contractors (in this case, GE and Pratt & Whitney) to specify what kind of warranty will be offered on the engine. A decision on the RFP is expected by the Air Force by January 1, 1984. In addition, the Air Force also has the option of exercising through September the warranty offer by GE for the next 35 F-101 engines for the B-1B. The engine is warranted for 450 hours and GE is liable for up to $15.5 million if there are overruns. GE has also offered a 1,000 hour or three-year whole engine warranty on its TF-39-1C engine for the C-5B. And finally, the Air Force has a warranty on the KC-10 tanker aircraft that is superior to any provided to any DC-10 commercial customer.

Clearly then, defense warranties will work . . . in fact, industry is willing and able to provide such warranties. In light of this, it is interesting to note where the Pentagon stands on this issue. Recently I asked the Department of Defense for an opinion on the application of warranties to future purchases of military equipment. In their response they argued that warranties would, "increase the cost of our programs to an unacceptable level . . . rather than blanket the application of warranties, we suggest considering language that would require DOD to report how we are 'incentivizing' our major contractors to enhance the reliability and supportability of our major systems." I do not agree with this rationale! It's "looking glass logic"—the Department of Defense should not turn over the design of reliability and supportability to the contractor . . . and then try to uncover the defects. Equipment should be designed right in the first place . . . for its mission, task, and threat . . . and then a strict warranty should be applied and enforced.

If we can get and expect warranties on our civilian purchases, from T.V. sets to washing machines and air conditioners, so why not when we buy the machinery to protect our freedom?

Contract performance is nothing new to the government either. In the area of transportation construction we spend billions of dollars every year. We demand. . . and we get. . . competitive bids and up front performance bonds from the contractors involved. If the project is not up to specs. . . we go against the performance bond. The point I am trying to make is this. . . warranties are not new and novel. They have been around for years and the Federal Government has had plenty of experience with them.

In the future, warranties coupled with independent testing and competitive bids will improve cost-effectiveness, but more importantly, our service men and women will not be forced to depend on often defective systems for their very lives.

I certainly believe in a strong national defense, but I don't think we are going to get it by throwing away billions of dollars every year on weapons and equipment that do not work or are vastly over-priced. Defense procurement is perhaps the most complex policy-making process in our society today. None of us can claim to have all the answers . . . however, we have every right, and as elected representatives, every responsibility, to examine critically all available options.

The option of effective warranties seems like the best to me, and I intend to solicit all the support I can get on this for the next several weeks. As President Eisenhower so prophetically observed in his 1961 farewell address, "Only an alert and knowledgeable citizenry can guarantee and "compel" the proper meshing of the military and industrial machinery to the end that security and liberty may prosper together."

THE IRISH ISSUE—JOHN HUME'S MAIDEN SPEECH TO THE BRITISH PARLIAMENT

Mr. KENNEDY. Mr. President, on June 28, John Hume delivered his maiden speech to the British Parliament. His subject was, of course, the Irish issue, for Mr. Hume is the leader of the Social Democratic and Labour Party in Northern Ireland, and he is

the newly elected Member of Parliament for the constituency that includes his home in the troubled city of Derry.

Mr. Hume deserves his reputation as one of the great political leaders in Irish history. His maiden speech exemplifies the power of his leadership, the eloquence of his rhetoric, and the sweep of his vision of a New Ireland that respects the rights of both traditions on the island, Catholic and Protestant.

I hope that President Reagan and each Member of the Senate and the House of Representatives will take the time to read Mr. Hume's address, and to ponder what I think is his irresistible challenge to the British Government to change its policy on Northern Ireland.

I ask unanimous consent that Mr. Hume's maiden speech to the British Parliament may be printed in the RECORD.

There being no objection, the speech was ordered to be printed in the RECORD, as follows:

TEXT OF SPEECH BY MR. JOHN HUME IN THE BRITISH PARLIAMENT, JUNE 28, 1983

I have come here to represent a new constituency in the North-West of Ireland. It contains the ancient and historic City of Derry and the town of Strabane. It is a commentary on the politics of the North of Ireland—or the fact that there is a problem there—that never before has someone with either my religious or my political persuasion stood in this House to represent the City of Derry.

I represent an area which has the unenviable distinction of having the highest unemployment rate of any constituency represented in this House, with 38 percent in Strabane and 28 percent in Derry. Those are statistics which interact seriously and severely with the political crisis in the North of Ireland, because that same area has borne more than its share of the brunt of the atrocities that have taken place in the North of Ireland over the past decade. It is the interaction of the economic situation with the political situation that requires a great deal of attention if the problems of that part of the world are to be resolved.

People have wondered about the rise in the political strength of extremism in the North of Ireland. There is no greater example of the reasons for extremism in that area than that we now have a generation of young people who were only four years old in 1969 and 1970 and have grown up in a society in which they have always seen security forces and violence on the streets, in which they have been continually searched simply because they are young people and in which, when they reach the age of 18, they have no hope of any employment because they happen to have come of age during the deepest economic crisis for a long time. Therefore, there are resentments, and there are sadistic people who play upon those resentments, point to a British soldier and say "get rid of him and all your problems will be solved". That simplistic message has an appeal to young people; and people such as myself and members of my Party, who seek to show that the problems are rather more complex, have a difficult task.

If the Government were to take seriously the economic crisis in the North of Ireland and make a sensible and determined attack on the problems of youth employment, they would also be making a determined attack on the problems of extremism.

The debate is about defence and foreign affairs. In the gracious speech there is reference to the major issue between Britain and Ireland—the problems of Northern Ireland. It also happens to be one of the most serious human issues facing the House. Having come here after surviving over a decade on the streets of Northern Ireland, I have to say with some bitterness that I do not see much evidence that there are many Hon Members who think that it is an issue of great human concern.

We have been told repeatedly by Ministers, Secretaries of State and Prime Ministers, of whatever Party, that Northern Ireland is an integral part of the United Kingdom. We are told by the Prime Minister that we are as British as Finchley.

I should like Hon Members to take any part of the United Kingdom over the past decade and to imagine the following things happening. Imagine 2,000 people being killed on the streets in Yorkshire, 20,000 people maimed and injured, and 430 million pounds spent on compensation for bomb damage: two new prisons built and a third under construction: the rule of law drastically distorted, with the introduction of imprisonment without trial: senior politicians and policemen murdered, and innocent civilians murdered by the security forces and by paramilitary forces. Imagine a shoot-to-kill policy for people suspected of crime being introduced from time to time instead of their being arrested. Imagine jury courts being disbanded, plastic bullets used on the streets and innocent children being killed. Imagine paramilitary organisations engaging in violence and the type of interrogation methods that led to the British Government being found guilty in the European Court of Human Rights being introduced. Imagine hunger strikers dying in Prison in Yorkshire and representatives of the paramilitary being elected to this House to represent Yorkshire.

If those things had happened on what is commonly called the mainland, can anyone tell me that those events would not have been the major issue in the general election campaign? Can anyone persuade me that any speech made since that election would not have referred to that issue? However, the only Hon Members who have referred to it were leaders of two parties in Northern Ireland. Nevertheless, we are told that we are as British as Finchley.

Does any Hon Member believe that Northern Ireland is as British as Finchley or any other part of what is called the mainland? Do any Hon Members honestly believe that in their hearts? If so, where is the evidence of their concern? The truth is that if every Hon Member spoke his heart, he would say that he has psychologically withdrawn from Northern Ireland. The truth is that Britain has psychologically withdrawn from Northern Ireland. Britain and Northern Ireland would be healthier places if that psychological reality were translated into political reality.

The extent of the problem in Northern Ireland today can be summed up by the desperate indictment of a brick wall that has been built between two sections of the community in Belfast to keep them apart and to protect them from each other. This is happening in what is described as a part of the United Kingdom.

That wall is an indictment of anyone who has governed Northern Ireland in the past 14 years. It is also an indictment of every political party in Northern Ireland. It is an indictment of everyone who has any part to play in the problem. It is an indictment of the Unionist tradition, the Nationalist tradition and the British who govern from this House. It is an indictment, but it is also a challenge because the only truth that has emerged out of all the suffering of the past decade is that all our policies have led us to that wall in Belfast. The real challenge is to re-examine urgently our traditional approaches to a solution.

Hon Members who represent the Loyalist tradition have a lot of thinking to do. Their consistent stance on Northern Ireland has been to protect the integrity of the tradition in an island in which they form a minority. I have no quarrel with that objective. Any country is richer for diversity. I quarrel with the methods of protecting the integrity. Put crudely, that method dictates, "we must hold all power in our own hands". That is precisely what has been said. It is a violent attitude. It is an attitude which demands the exclusive exercise of power. The leaders of that tradition have consistently maintained that view, but it invites violence. It is not possible permanently to exclude an entire section of the population from any say in the decision-making process.

The Nationalist tradition has also taken a rather simplistic approach. Its argument has often been presented in emotional and romantic terms. Its simplistic definition of Irishness is extremely sectional. It is based substantially on two powerful strands of the Irish tradition—the Gaelic and Catholic—to the exclusion of the Protestants. That narrow definition makes the Protestant tradition feel excluded from that notion of Irishness. In its more extreme form, it is thought right not only to die, but to kill, for that version of Ireland. In those circumstances, we can understand what contribution my tradition has made to the deepening of Irish divisions.

When one considers the streets of Belfast and examines the performance of the organisation that represents itself as the ultimate in Irish patriotism—the Provisional IRA—and one considers the bitterness that it has created by its campaign of destruction and killing, one can see how much rethinking and examination we must do if we are to bring about a settlement of the Irish problem and bring forward a definition of Irishness which is inclusive, not exclusive.

The third element is the British Government and the House. As matters stand, it now has all the power over Northern Ireland. Examination of history reveals one consistent policy. Moreover, it is the only policy that I have heard enunciated here—that Northern Ireland shall remain part of the United Kingdom as long as a majority so wish. On the face of it, that seems to be a democratic statement and guarantee. However, if one looks behind that, one sees that the majority that is being guaranteed was created artificially by a sectarian headcount. When one tells the majority that it can protect itself only by remaining in majority, one invites it to maintain sectarian solidarity as the only means of protection. Therefore, one makes sectarianism the motive force of politics. Northern Ireland has 60 years of elections to demonstrate that that is precisely what has happened.

If we are to break that sectarian mould and the divisions, we must recognise that they cannot continue for ever. We cannot

deny that 5 million people in a Europe which twice this century has slaughtered its people by the millions could find the wisdom and foresight to say, "let us build structures whereby we can grow together at our own speed." What is wrong with asking for that for our small island of 5 million people? What is wrong with asking to be able to build structures whereby the different traditions can live in peace, harmony and unity in a new relationship with Britain? What is wrong with the Government adopting that as a policy objective? That policy was stated by no less a person that Sir Winston Churchill who, on 7 July 1922, in a private letter to Michael Collins, wrote.

"Meanwhile, in the intervals of grappling with revolts and revolution, I think that you should think over in your mind what would be the greatest offer the South could make for Northern co-operation. Of course, from the Imperial point of view, there is nothing we should like better than to see the North and South join hands in an all-Ireland assembly without prejudice to the existing rights of Irishmen. Such ideas could be vehemently denied in many quarters at the moment, but events in the history of nations sometimes move very quickly."

They often move quickly when there is a strong Government in power who have the courage to grasp the nettle and face up to reality. Ending divisions in Ireland has evaded Statesmen for centuries. Ending the divisions requires strength and leadership. It is not asking a great deal of the Government to adopt as policy the statement that Sir Winston made on 7 July 1922.

ARMENIAN TERROR TACTICS

Mr. DENTON. Mr. President, I wish to commend Mr. Colman McCarthy of the Washington Post for his thoughtful, incisive article entitled "Armenian Terror Tactics" which appeared in the Sunday, July 31, 1983, issue of the paper.

Mr. McCarthy's article should be particularly instructive to those who may be inclined to sympathize with the individuals who perpetrate vicious crimes against innocent people in the pursuit of a dubious cause or to avenge some alleged past wrong.

Some may believe that a show of sympathy grants some sort of immunity from the terrorist violence. I hope that the French Government has now learned, from the terrible tragedy on July 15 at Orly Airport, that the Western nations are, like it or not, in the business of dealing with terrorism that kills and maims without discrimination. We cannot afford the luxury of indulging ourselves in the romantic and sentimental feelings that are often used to mask or excuse the brutality of the event.

I ask unanimous consent that the full text of the article be printed in the RECORD.

Their being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Washington Post, July 31, 1983]

ARMENIAN TERROR TACTICS

(By Colman McCarthy)

How many more Turkish diplomats will be killed by fanatical murderers from Armenian terrorist groups? The question has a raw answer, as many as the terrorists think they can put away without getting caught.

Since 1973, twenty-seven Turkish diplomats and members of their families have been killed. Armenian underground killers take responsibility, saying they are avenging the deaths of 1.5 million Armenians said to have occurred between 1915 and 1923 at the hands of the Ottoman Turkish government.

The most recent slaying of a diplomat was in Brussels in mid-July, followed the next day by a bomb explosion in Paris in which seven people were killed and 56 wounded while waiting to board a Turkish Airlines flight to Istanbul. Last Wednesday in Lisbon, the wife of a Turkish official was slain in a suicide attack in which five Armenian terrorists died by their own violence. Four Turkish diplomats have been killed in the United States. In May 1982, Orhan Gunduz, an honorary consul general who had run a small business in a Boston suburb for 20 years, was gunned to death while driving home from his store.

Despite the large death toll and despite the pledges of Armenian terrorists to send it higher, few displays of concern, much less supportive indignation, have been offered to the Turks. By contrast, would public opinion be as unstirred if 27 British diplomats had been killed by IRA gunmen, or if 27 were Jewish diplomats slain by Palestinian hit squads?

Turkish victimization can remain a minor issue because, first, Americans look at the headlines about the latest killings and conclude that an ancient, inscrutable and unstoppable feud goes on. The Turks and Armenians are blood enemies, we think—if we think about the issue at all. In choosing sides, we go against the Turks. Images of murderous sultans wielding thick-ended sabers remain. The stereotype of the savage Turk, backed up by menacing Young Turks, persists. Then, too, they are Moslem, dismissable as the infidels of Western history.

To move beyond this intellectual laziness is to discover that the Turks deserve not only more sympathy for what they are suffering at the hands of Armenian killers, but also more support in their efforts to explain their position.

The talk of "genocide" that the Armenian terrorists throw around after they kill another Turkish diplomat was echoed in Congress in late April in observance of Armenian Martyrs Day. Nearly 40 members of the House made statements about the era of "modern genocide" that the Turks supposedly brought on in the alleged killing of 1.5 million Armenians. Liberals and conservatives were united in their certitude about the number and that the Turks had actually committed the systematic extermination that is genocide. Several members attacked the current Turkish government, demanding that it confess its guilt.

This onrush of congressional concern for Armenians went too far. Among independent historians and scholars, the events of 70 years ago, as World War I began, are not as black and white as the congressional friends of Armenians made them out to be. One of these historians is Justin McCarthy, a professor of Middle Eastern history and demographer at the University of Louisville. He is on neither the Turkish nor the Armenian side. He sides with whatever truth emerges from reliable research.

McCarthy states that the 1.5 million figure is inaccurate: "After the war, Armenians sources said that approximately 600,000 Armenians had died, and this figure is closer to the truth. Turks were indeed killing Armenians in 1915. But Armenians were also killing Turks, and indeed (in the war) many more Turks died than Armenians. Most who died on both sides died more of starvation and disease than from bullets."

McCarthy, a former Peace Corps volunteer in Turkey and the author of "Muslims and Minorities," says that no documentation has ever been found to prove that a policy to exterminate Armenians existed. "Everyone in this period around World War I was to some extent guilty and some extent persecuted: Turks, Armenians, Kurds, Russians." Last month on public television, McCarthy stated that, from his research, he found that about "600,000 Armenians died, 2.2 million Muslims died . . . This was a horrible time for everyone."

None of this diminishes either the culture of Armenia nor the large contributions of Armenians to American life. It suggests only that perspective is needed in this complicated and, at times, dimly lit issue.

The current Turkish government is trapped in a double bind. Its diplomats live in fear of gunmen and its officials are frustrated in explaining a period of history that few in the West care to study. A false impression has been created that Turkey is stonewalling the facts of the past by not admitting that genocide occurred. In fact, it didn't. Even if historians agreed about the genocide, today's Turkish government has no political or philosophical ties to the old Ottoman Empire.

For a start, fair-minded historical analysis is needed. That won't stop the terrorists, but it will help to expose the full irrationality of their cause.

SMALL BUSINESS COMPETITION IN CONTRACTING ACT OF 1983

Mr. FORD. Mr. President, I am proud to be a cosponsor of the "Small Business Competition in Contracting Act of 1983," and I congratulate my colleague from Illinois, Senator ALAN DIXON and his fine staff for creating such a timely piece of legislation.

In recent weeks, we have all become aware of the abuses in the procurement system at the Department of Defense. Secretaries Weinberger and Lehman have taken steps to correct some of the more glaring cases that have come to light, but clearly more stringent oversight of contracts is needed. It is incumbent upon the Department of Defense to insist upon this.

Something we, in the Congress, can do to affect the problem of costly procurement policies—and something that will revitalize our defense industrial base in the process—is to insure that bidding practices are more competitive.

The Small Business Competition in Contracting Act of 1983 does just that. Conceived out of the very real concern that Federal Government agencies are

not following procurement practices which assure maximum service for every dollar spent on purchasing goods and services, this bill would provide for full private sector competition for Federal contracts. At this moment, DOD procures less than 10 percent of its goods and services through open competition. Much of the balance is procured from large prime contractors on a sole source basis. Every study performed by the service branches, as well as those by the Small Business Administration and the General Accounting Office, shows that savings average 40 to 50 percent when procurement are switched from sole source to open competition. This legislation will eliminate the discrimination against small business in the procurement process by increasing the participation of the 14 million small businesses in this country, will reduce costly noncompetitive procurement, and will save literally billion of dollars every year.

I hope that hearings can be held soon after our return from the August recess and that this very important legislation will be passed by the Senate well before the end of the 98th Congress.

VETERANS: KEEPING FAITH WITH THOSE WHO SERVED

Mr. CRANSTON. Mr. President, last weekend I had the privilege of giving the keynote address at the national convention of the Disabled American Veterans held in Los Angeles. In preparing for that speech, I began reflecting on the inestimable contribution our Nation's veterans have made to this country and on the many benefits and services the Congress has, over the years, established for these deserving individuals. I mulled over various issues relating to veterans which continue to require attention or which to my mind need a fresh approach. Obviously, I could not touch on all these areas in my 20 minutes at the podium, but because Congress has a large responsibility in seeing to it that the Nation's commitments to its veterans are kept, and there is indeed much work remaining to be done in this area, I should like to share these thoughts with my colleagues.

The address follows:

INTRODUCTION

Mr. President, when I first came to the Senate in 1969, I was appointed chairman of a subcommittee with jurisdiction over veterans' affairs. That was my first assignment as a United States Senator and it has continued to be an area of major focus for me ever since. In 1971, I was appointed to the newly-formed Committee on Veterans' Affairs and designated the Chairman of its Subcommittee on Health and Hospitals. In 1977, I became the Chairman of that Committee and since 1981 have served as its ranking Democratic member.

Throughout my long involvement with veterans' issues, my overriding goals have been to ensure that service to the nation is appropriately recognized and rewarded and that programs of benefits and services for veterans are carried out in a compassionate and effective fashion. In the early seventies, my strongest efforts were aimed at gaining support for badly needed improvements in various benefits and programs for Vietnam veterans. Today, while my efforts on behalf of Vietnam veterans continue, we are also focusing on the Veterans' Administration plans and preparations for meeting the needs of the over twelve million World War II veterans who are fast approaching an average age of 65.

The fulfillment of our collective national obligation to those who served—and most especially to those who were disabled during service and to the survivors of those who gave their lives—is an ongoing cost of war and national defense. It must be recognized as such. The relationship between the way in which veterans of prior wars are treated and our ongoing ability to attract and retain personnel in the military must be understood.

The agency with principal responsibility for administering veterans' benefits and programs is the Veterans' Administration. I believe that most VA employees are motivated to do their best to serve veterans. By and large, the agency performs its mission well. However, because the Administrator of Veterans' Affairs is not a member of the Cabinet, the agency is not always given the attention it deserves within the Executive Branch. Tending to insulate the VA even further from public view and scrutiny is the statutory prohibition against court review of VA decisions on individual benefit claims. Elevating the Administrator of Veterans' Affairs to membership in the Cabinet and providing for judicial review would improve the visibility and accountability of the agency. This in turn should bring about improved performance.

Our nation cannot renege on commitments made to those who serve the country in its hours of need. We must continue to provide benefits and services to our veterans in a sympathetic, cost-effective and efficient manner.

Although there are different views about how to provide for the nation's defense, there is no debating the fact that meeting our defense needs is a fundamental responsibility of the federal government. One element of that responsibility too often overlooked is the continuing commitment to meet the needs of those who have served in the Armed Forces. The costs of a war do not end when the guns fall silent; rather, the ongoing responsibility to the veterans of a conflict is a very real cost of that conflict and must be understood as such. Since military service is rendered to the nation—not to any individual state—this responsibility is a uniquely federal one.

In recognition of this special responsibility, the United States has historically provided health care and compensation to veterans disabled during their service, assistance to the survivors of those who gave their lives, and readjustment help to all who served this nation honorably during wartime. This tradition must be maintained.

THE VETERANS' ADMINISTRATION

Relationship to national defense

Because of its special responsibility for dealing with veterans' needs, the Veterans' Administration serves a very important national defense function that is both tangible and intangible. The tangible element is found in the role of the VA's health-care system as the primary back-up to the Department of Defense in time of war or national emergency involving armed conflict. In the event of such a conflict, the Department of Defense would be unable to care for more than a small percentage of the anticipated casualties. The VA system is a comprehensive, nationwide system, and there is a natural linkage between it and the DoD system since patients in DoD facilities often become VA patients at some point. This frequently occurs after a member of the Armed Forces is disabled in service and is then medically discharged. For these reasons, the VA health-care system is and should be the first-line back-up to DoD in time of armed conflict.

This special VA/DoD relationship was given specific legislative recognition in Public Law 97-174, the Veterans' Administration and Department of Defense Health Resources Sharing and Emergency Operations Act, which was enacted in May 1982. This same legislation also addressed the issue of VA/DoD sharing of resources during peacetime which has the potential of reducing overall expenditures for the two health-care systems while improving access to care for VA and DoD beneficiaries. So as to foster the VA/DoD health-care relationship while recognizing the important separate missions of the two systems, the various elements of this new law must be given full attention and support by the President.

The intangible element of the VA's national defense contribution lies in the impact of the federal government's honoring or failing to honor commitments made to prior service members. If the federal government is seen as being unwilling or unable to honor commitments made to those who have served the nation in the past, it is unlikely that the Armed Forces will be able to attract or retain personnel needed to maintain the All Volunteer Force. Honoring such commitments therefore is not only a moral obligation but an important action in support of the All Volunteer Force.

Another way in which the VA can provide support for the AVF would be through the administration by the agency of a new AVF GI Bill, which is discussed later in this paper.

VA'S STATUS AND ROLE

For more than fifty years, the Veterans' Administration has been the principal federal agency with responsibility for providing benefits and services to veterans. Today there are nearly 30 million veterans and about 66 million dependents or survivors of veterans. Only DoD has more employees than the VA, and the agency's budget (around $25 billion) ranks sixth among federal departments and agencies. The VA operates the largest centrally managed health-care system in the United States, operates one of the federal government's two major home loan guaranty programs, and administers the largest direct insurance program in the country. The agency has health-care, benefits, and counseling facilities in hundreds of communities across the nation. In light of the VA's size and importance, the agency and its programs should be accorded appropriate recognition, status, and treatment within the Executive Branch. Too often, this has not been the case.

In the past, the VA has frequently been relegated to a relatively insignificant role within the Executive Branch, with the Administrator having little or no access to the President or other top officials in the White House. To ensure that this result does not

recur, the VA should be elevated to cabinet-level status.

Thus, on January 26, 1983, I introduced legislation—section 501 of S. 11 and S. Con. Res. 2—which would express the sense of the Congress that the Administrator of Veterans' Affairs should be a member of the Cabinet and the President's principal adviser on all matters relating to veterans and their dependents. This provision has been approved by the Senate Veterans' Affairs Committee as part of S. 578, reported on May 23, 1983, and passed by the Senate as part of H.R. 2920 on June 28, 1983.

Elevating the VA Administrator to Cabinet level status would ensure that the head of the VA would participate in top Administration discussions and decisions which in turn should result in greater coordination and sharing of expertise between the VA and other government departments. It would mean greater recognition of the impact of general governmental decisions on the VA's ability to fulfill its mission and of the extent to which the VA can contribute to fulfillment of larger Administration policies.

There are many government programs and initiatives relating to veterans' benefits and services carried out by other federal departments and agencies. It is important that these various efforts be given full support and be facilitated by the head of the VA. The Administrator of Veterans' Affairs has a specific statutory obligation to promote the coordination of all other federal programs affecting veterans with VA efforts and with each other so as to ensure a comprehensive government response to meeting the needs of the nation's veterans. This responsibility needs to be carried out far more aggressively than it has been in the past. Cabinet-status for the head of the VA would promote needed interaction with the heads of the Executive Branch departments.

The Administrator

Many difficult challenges confront the head of the VA—including how to redirect the resources of the agency so as to meet the needs of World War II and Korea veterans as those groups age while continuing to address the needs of Vietnam veterans and determining how best to meet the needs of women veterans who are coming to the agency in increasing numbers; how to modernize the facilities that make up the VA health-care system, many of which were constructed more than 30 years ago; how to redirect and expand the agency's biomedical, prosthetic, and other research efforts; how to improve the efficiency and quality of the agency's processes for providing benefits; and how to promote inter-agency cooperative efforts on behalf of veterans. All of these matters must be considered in a time of increasing pressure to reduce federal outlays. To ensure that the VA is operating in an efficient manner, the Administrator must also be able to evaluate existing programs and benefits. If a VA program or benefit is not carrying out the purpose for which it was created or that purpose is no longer valid, the program or benefit should be altered or eliminated. That standard should be applied to programs or benefits for veterans and their dependents just as to all government programs, and the Administrator must make efforts, in coordination with the VA's Inspector General and otherwise, to apply this standard while remaining mindful of the special responsibility of the VA to meet the needs of veterans and their survivors.

Because of these pressing issues and the difficulties inherent in managing such a large agency, it is vital that the person selected to head the VA have both the ability to understand and deal with the complexities associated with the position, as well as a demonstrated understanding and appreciation of the needs of veterans and compassion for their problems. The Administrator must be fully committed to be the advocate for veterans within the Administration.

BENEFITS FOR SERVICE-CONNECTED DISABLED VETERANS

The VA's principal mission, described concisely and eloquently by Abraham Lincoln in his second inaugural address—"to care for him who shall have borne the battle and for his widow, and his orphan"—is met through a variety of programs and benefits for service-connected disabled veterans and their survivors. Key among these programs and benefits are VA health-care benefits, the agency's rehabilitation programs, and the VA's compensation program. Collectively, these benefits and programs carry out the nation's commitment to those who made the ultimate sacrifice in defense of the country, to those disabled from such service, and to the survivors and dependents of these veterans.

Health Care: The VA runs a nationwide, comprehensive health-care system through which veterans with disabilities incurred during their service are given needed treatment. Providing such care is a moral commitment of the highest order and, to this end, an independent VA health-care system must be maintained.

Maintaining an independent VA health-care system

There have been suggestions in recent years that our obligation to service-connected veterans can be met by government payment for their health care in community facilities. Such suggestions overlook the enormous benefits of the VA system. By virtue of its obligation to care for service-connected veterans, the VA system has developed great skill and expertise in treating the immediate and residual effects of injuries related to combat service, such as bullet wounds, amputations, spinal cord injuries, the psychological after-effects of combat, and many others. Although there may be facilities in some communities that could provide comparable treatment for some of these disabilities, without the VA system there would be no way to ensure that service-connected disabled veterans would receive either the comprehensiveness or the priority availability of care that they now are entitled to receive throughout the country in the VA system.

Substituting access in community facilities for the VA system would have a number of other significant drawbacks. Elimination or significant reduction of VA health-care resources would deprive our national defense of the VA's contribution as the primary back-up to the Department of Defense to treat casualties of armed conflict.

In addition, by virtue of its treatment of large numbers of veterans—both those with service-connected disabilities as well as those with no such disabilities who are eligible for VA care by virtue of their age or their inability to defray the cost of their care—the VA is a major national health-care resource. As such, it is becoming even more important as the population generally grows older and creates a growing need for acute and extended-care facilities to deal with the illnesses associated with aging.

As to the present veteran portion of the aging population, the VA already is making a major health-care contribution. In anticipation of the significant increase in the number of aging veterans that will be turning to the system in this decade as over 12 million World War II veterans reach an average age of 65 and beyond, the VA will need to step up its efforts both in research on the aging process and the effects of aging—including the effects on pre-existing disabilities—as well as on treating the diseases and disabilities that come with aging. Because of its relationship with medical schools throughout the country, the VA's actions in this regard will have far-reaching impact. To this end, the VA's eight Geriatric Research Education and Clinical Centers (GRECC)—centers of excellence in geriatrics and gerontology—must be fully funded and additional centers must be established.

The very size of the VA health-care system is often overlooked in discussions about reducing or eliminating it. The VA at present operates over 80,000 hospital beds and over 9,500 nursing-home-care beds. In fiscal year 1983, it will provide over 16 million outpatient treatments. Recent cutbacks in federal, state, and local assistance for health care have made the VA's health-care capacity even more critical. Many veterans without service-connected disabilities who are financially needy or elderly receive care today in the VA. There is no guarantee that they would continue to receive needed care if the VA system were reduced or eliminated.

Also, the impact of any reduction of VA care on other providers or on other taxpayer resources now financing health care must be kept in mind. It is highly likely that many non-service-connected veterans now treated by the VA would have to rely on other government-supported programs for their care. Many of these veterans who are over age 65, for example, would rely on Medicare, and this action could have a significant impact on the Social Security trust funds. Similarly, many veterans who currently receive care from the VA on the basis of their inability to afford the needed care would seek it under Medicaid programs, thereby adding a substantial burden to that system, which is already under serious strain.

Although the primary importance of the VA's research and education efforts in cooperation with affiliated medical schools and other health-care professional training institutions is to improve the quality of care provided to eligible veterans, these efforts have larger benefits for all society. Annually, over one-third of all medical students receive some of their training in VA facilities. The VA also provides a substantial proportion of the national training capacity for nurses, psychologists, and other professional and para-professional health-care workers.

The challenges ahead

In order to be fully responsive to the changing demands for care from eligible veterans, the VA health-care system must remain up to date in terms of its ability to provide quality health care. Among the crucial areas that must be addressed to ensure this result are the need for physical plant modernization and the development of a medical automated data processing (ADP) capacity throughout the system. In recent years, neither construction nor ADP matters have consistently received adequate funding or the long-term planning they

need; instead they have been subjected to almost whimsical, ad hoc start-and-stop decisions. Firm leadership is needed to develop and follow through on long-range plans to prepare the VA health-care system to meet future demands.

It is vitally important that the VA health-care system receive adequate appropriations so that it can meet the health-care needs of those to whom a national commitment of care has been made. Because the VA system is so large and so labor intensive there have been attempts in recent years to achieve budgetary savings by placing artificial limits on available staff or on funds for equipment, supplies, and capital improvements. Such efforts, which have the general effect of compromising the level of care that the VA can provide, must be resisted and the system must receive all funding necessary to fulfill its mission.

For the VA health-care system to remain a strong and credible entity in the future, there must be an ongoing emphasis on the development and improvement of methods for recruiting and retaining qualified health-care personnel. Key concerns are the adequacy of the VA's authority to provide special pay to doctors and the success of the agency's Health Personnel Scholarship program and extraordinary authorities to increase base and extra-duty pay, especially in order to recruit and retain nursing personnel. These and other efforts relating to the VA health-care system's attractiveness as an employer of health personnel must be given close attention and strong support.

As part of ongoing efforts to enhance the VA's ability to recruit and retain quality health-care personnel, provisions in title IV of S. 11, which I introduced on January 26, 1983, would provide special hiring and pay authorities for three health-care occupations—licensed practical or vocational nurses, physical therapists, and registered or certified respiratory therapists—working in the VA's Department of Medicine and Surgery. These provisions have been approved by the Senate as part of H.R. 2920 on June 28, 1983.

Another important area for attention in order to address VA health-care system future demands is the interaction of VA personnel and non-VA health-care providers. To this end, while maintaining the independence of the VA system, VA relationships with affiliated health-care training institutions must be fostered, VA involvement and cooperation with community providers must be increased, and the recently authorized sharing of health-care resources between the VA and DoD must be promoted. Through these actions, VA health-care personnel will remain current in their professional fields and the VA will be able to provide appropriate assistance to non-VA entities.

The achievements of VA research—recently honored by two Nobel prizes—extend far beyond the VA. The various VA biomedical, health services, and rehabilitation research efforts must receive appropriate funding. It is particularly important that research vital to veteran's health care—such as in areas relating to aging, the effects of Agent Orange and radiation exposure, delayed stress disorders, spinal cord injury, drug and alcohol abuse, prosthetics and rehabilitation, and rehabilitative engineering—be emphasized. It is also important that the agency maintain and expand its commitment to setting aside research funds to support innovative proposals, not selected for funding through the traditional peer-review process, that may lead to research breakthroughs for all Americans.

By virtue of the size of its constitutency—particularly those veterans with service-connected disabilities—the VA has the opportunity to make an important and much needed contribution to the way in which health care is provided in the United States. The agency should welcome this opportunity and take full advantage of it. To date, the agency's response to authority provided in 1979 to conduct a pilot preventive health-care program has been most disappointing. This lack of activitiy must cease, and, instead, the VA should become the leader for all U.S. medicine in health promotion and health prevention by placing a new emphasis on maintaining wellness rather than curing illness in those the system serves. The VA should redirect some of its health-care resources to help veterans maintain their health and stay well. If the agency would take steps as simple as conducting comprehensive screenings of certain identified high-risk populations for health problems such as heart disease, hypertension, glaucoma, and diabetes, together with carrying out a campaign of consumer education on issues such as nutrition, exercise, smoking, and alcohol, it is likely that substantial gains would be seen in the overall health of those veterans who receive care from the VA. This in turn would translate into cost savings both for the VA, through reduced utilization of health-care resources and for the nation as a whole as the individuals affected by such efforts would lose fewer days from work and would be generally more productive.

Provisions in section 302 of my bill, S. 11, would give the VA authority to provide preventive health-care services to veterans otherwise receiving VA care and would mandate the VA to make available at least one such service to veterans with disabilities rated at 50 percent disabling or greater receiving VA care and to veterans receiving care for the treatment of a service-connected disability. These provisions have been passed by the Senate as part of H.R. 2920.

Rehabilitation

Along with the commitment to furnish health-care services to veterans for the treatment of disabilities incurred during their service, the VA's responsibility to provide these veterans with medical and vocational rehabilitation assistance is a moral commitment of the highest order.

Historically—particularly following World War II—the VA has been in the forefront of rehabilitation efforts in the United States. As a result of agency rehabilitation efforts, many veterans who suffered disabilities during their military service that could have precluded any further meaningful employment or other life activities have been restored to a level that has allowed them to function to a significant degree independently in both work and home settings.

More recently, however, some criticism has been expressed that the VA is no longer fulfilling its leadership role in this area and that many disabled veterans are not receiving the full measure of rehabilitation assistance they deserve. Among the points made in this regard are concerns that the agency's research efforts—both in development of prosthetic devices to assist disabled veterans as well as the quest for new biomedical understanding of disabilities—have not received sufficient emphasis in recent years.

The VA should reassert its leadership role in the area of rehabilitation. This is particularly important because of the status of two groups of veterans: older veterans, particularly those who were disabled during World War II, who need new rehabilitation assistance because of changes in their physical situation related to the aging process, and the many Vietnam veterans who, in earlier conflicts, might not have survived the type of disabling injuries they suffered in that conflict. As to this latter group of disabled veterans, the VA needs to stress the maintenance of a consistent effort to understand the impact of their disabilities and to undertake research programs aimed at developing new approaches to rehabilitation and new prosthetic and other devices that can help these veterans overcome their disabilities.

Other VA rehabilitation activities that must be given full support include ongoing efforts to treat and rehabilitate veterans with drug and alcohol abuse dependencies and disabilities so as to promote their entry or reentry into gainful employment. Also, because the agency will, by virtue of the impact of the World War II veteran population, confront major problems related to the aging process, the VA should be in the forefront of efforts to understand the impact of aging on both disabled and nondisabled elderly persons and to develop rehabilitation programs that will ameliorate the disabling effects of aging to the extent possible. As part of a national policy of promoting a more productive, active older population that can continue to participate in the economic mainstream—both so as not to deny older citizens opportunities to achieve their potential as well as to allow society to benefit from their productivity—the VA should be making greater use of, and developing new models for, outpatient, adult day-care, and home-care programs that would allow older veterans to remain productively employed and living with their families whenever possible.

Compensation

The VA's disability compensation program provides monthly cash payments to veterans who, because of service-connected disability, have suffered impairments of earning capacity. The amount paid in individual instances is based on the nature of the veteran's disability, or combination of disabilities, and the extent to which earning capacity is deemed to have been impaired. In recent years, unfair, budgetary proposals have been made—by or with the support of the Reagan Administration—to reduce certain veterans' compensation payments and to provide compensation cost-of-living adjustments lower than the adjustment made to other government income transfer programs, such as Social Security or welfare.

To service-disabled veterans, the VA's compensation program and the dependency and indemnity compensation program for the survivors of these veterans represent the fulfillment of a fundamental national obligation. The compensation program must continue to receive top priority and must be protected from arbitrary actions by cyclical budget pressures. At a minimum, cost-of-living increases equivalent to those provided in other governmental programs must be provided to VA compensation/DIC recipients. Any proposals relating to the compensation and DIC programs must be subjected to careful scrutiny, keeping in mind the debt owed by the nation to its war veterans and their survivors and the relationship and impact of any changes on other government-supported income maintenance programs.

OTHER SERVICE-RELATED ISSUES

Agent orange

The effects of exposure to Agent Orange and other possible health hazards during service in Vietnam is a major concern to many Vietnam veterans. One major effort to address this issue—the VA's epidemiological study of Vietnam veterans, mandated by law in December 1979—has suffered a great many delays. Some—though not all—of these days are attributable to VA mistakes and miscalculations. This study may well prove to be the main source of information on the health status of Vietnam veterans, and it must be pursued vigorously.

Because it is highly likely that the results of the study would not be viewed as credible if it were done by the VA itself, it has been apparent for years that the study should be contracted out to an outside entity. However, not until January 1983 did the VA finally recognize this and enter into a contract with the Centers for Disease Control of the Department of Health and Human Services for the conduct of the Agent Orange Study. In connection with its efforts to study the effects of Agent Orange, the CDC has—very appropriately—announced that it will also be studying the general health status of Vietnam veterans and their offspring to determine if there are health effects that could be traced to the overall Vietnam experience. It is vital that adequate funding be provided to support the conduct of both these studies and other activity related to resolving the Agent Orange issue.

Although direct responsibility for the conduct of these studies has been shifted to the Centers for Disease Control, the VA must be in a firm leadership position on the overall Agent Orange and Vietnam veterans health issue. Recent reports from two Congressional watchdog agencies have been sharply critical of certain VA activities related to Agent Orange. The agency must do more to ensure that all veterans seeking care receive prompt attention either for screening physicals or treatment for specific disabilities that could be related to exposure to the dioxin in Agent Orange. Likewise, veterans and others seeking information about Agent Orange must receive courteous, timely, informed responses from the VA as well as complete and well-documented followup examinations and care when indicated.

The agency must pursue all available avenues in order to gain information on the possible ill effects of exposure to Agent Orange in order to develop answers to the many questions being raised by Vietnam veterans, their families, and others and to ensure that claims by veterans seeking to establish service connection are given full and fair consideration.

The VA's response to issues relating to Agent Orange, particularly to claims for benefits as a result of exposure to dioxin, must be made more open to public scrutiny and participation. This should be done to ensure, to the extent feasible, that those concerned about this issue have an understanding of the agency's efforts and a chance to make certain that all relevant data and viewpoints are fully considered. This is especially needed with reference to the issue of determining which disabilities should be presumed by the VA to result from Agent Orange exposure.

In this Congress, I have been working on legislation to bring about a better adjudication process for Agent Orange-related claims. On April 6, 1983, I introduced legislation, S. 991, and on July 20, 1983, I introduced a modified version of this bill as S. 1651. S. 1651 would require the Administrator of Veterans' Affairs to develop regulations through a process allowing for public participation. It would also require the VA regulations specifically to determine whether presumptions of service connection should be extended in the cases of Vietnam veterans exposed to Agent Orange who develop chloracne, porphyria cutanea tarda, or soft tissue sarcomas under certain conditions. The Administrator's compliance with the rulemaking procedural requirements and the substance of the regulations would be subject to review in federal court.

On the day following introduction of S. 1651, I offered the substance of that bill as an amendment during the Veterans' Affairs Committee markup of this year's compensation bill, S. 1388. Unfortunately, the amendment failed on a 6-to-6 tie vote. When the bill comes to the Senate floor in September, I will press this issue again along with the Senator from Pennsylvania (Mr. SPECTER) and the Senator from Maine (Mr. MITCHELL) who joined with me as original cosponsors of S. 1651 and the amendment offered in committee on July 21.

One non-VA effort that has been quite important to Vietnam veterans and the VA on the Agent Orange issue is the Interagency Agent Orange Work Group. Originally started in 1979, this body has served as a forum in which representatives of various agencies can work together to oversee research and other activity and develop overall government strategy relating to dioxin exposure. As a governmental entity that has enjoyed credibility among those concerned about the very difficult issue of Agent Orange, it is vital that this group be maintained and supported. It should also be upgraded by assigning it the responsibility specifically given the President by Congress to coordinate and promote dioxin-related research within the federal government. In order to provide an opportunity for greater outside awareness of the activities of this group, periodic open meetings should be held to promote a dialogue between its members and the public.

Post-traumatic stress

Another major concern for many Vietnam veterans is the diagnosis and treatment of the mental impairment, post-traumatic stress disorder (PTSD). The most compelling need related to this concern at this time is to ensure that there is sufficient expertise throughout the VA so that Vietnam veterans suffering from the disorder can receive appropriate diagnosis and treatment at VA health-care facilities reasonably accessible to them. Also, it is vital that personnel in the VA's Department of Veterans' Benefits have a full understanding of this disorder so that claims from veterans seeking to establish service connection are given full and fair consideration.

To date, the agency's response to individuals suffering from PTSD has varied significantly from VA facility to VA facility and by whether the individual was seeking care from the VA's Department of Medicine and Surgery or disability compensation from its Department of Veterans' Benefits. Decisive action is needed at the VA to bring about greater consistency and coordination of medical care and compensation policies and procedures.

Exposure to nuclear detonation radiation

Another service-related issue that involves access to VA health-care and also cuts across other VA benefits and programs is the agency's response to veterans exposed to ionizing radiation from the detonation of nuclear devices. Although there has been some progress on this issue in recent years, the agency's efforts have not been satisfactory.

In light of the important role that the Interagency Agent Orange Work Group—the single governmental entity with the greatest credibility on the Agent Orange issue—has played in response to veterans concerned about exposure to dioxin, a similar entity should be established to deal with the issue of the long-term health effects of exposure to radiation from nuclear detonation. Although there have been and continue to be efforts within the federal government on this emotionally charged issue, there is no single body with authority to coordinate and oversee interagency activity.

Further, the VA has devoted far too few resources to the radiation issue compared to the Agent Orange issue. As a remedy, the agency should undertake various steps, including: establishing entities analogous to the VA Agent Orange Policy Coordinating Committee (so that internal agency efforts on radiation may be examined, compared, and coordinated) and analogous to the VA Advisory Committee on Health Effects of Herbicides (so that outside expertise, veteran organizations, and public interest groups can be brought together in a public forum); preparing an indexed reference guide of the scientific literature on the health effects of exposure to ionizing radiation and then making this guide widely available; and conducting an epidemiological study on morbidity and genetic damage of veterans exposed to nuclear detonation radiation unless such study cannot be done in a scientifically valid manner. These actions should enable the agency to respond far more accurately, fairly, and sensitively to this issue—and to the veterans exposed to radiation, their families, and survivors.

Section 601 of S. 11, which I introduced, would require that an epidemiological study be conducted of veterans exposed to radiation during the nuclear weapons test program. The same provision would also require the VA to conduct a comprehensive review and analysis of the literature relating to the long-term health effects of exposure to ionizing radiation. These provisions of S. 11, with minor modifications, have been passed by the Senate as part of H.R. 2920.

Also, as I noted with relation to Agent Orange issues, there is a need for greater public scrutiny of and participation in VA efforts to deal with the issues that are raised by claims for benefits based on exposure to radiation. Therefore, legislation I have authored—including S. 991 and S. 1651, which I mentioned earlier—to improve this claims adjudication process, has specifically addressed both radiation and Agent Orange compensation issues. S. 1651 would require VA regulations specifically to determine whether presumptions of service connection should be extended in the cases of veterans exposed to radiation who develop a malignancy (including leukemia), certain thyroid disorders (including hypothyroidism or a thryoid nodule), or polycythemia vera under certain conditions.

The VA's efforts in the radiation area have been extemely slow and grudging. It took 17 months to get the regulations issued that Congress had mandated to make VA health care available for most medical problems of radiation-exposed veterans. I believe continued initiative and pressure will be

necessary to obtain the kind of response that these veterans sometimes need.

OTHER VETERANS' BENEFITS

In addition to the programs and benefits directed exclusively to those veterans with service-connected disabilities; there are numerous other veterans' benefits and services provided to both service-connected veterans and veterans who were not disabled during service. These benefits and services are, for the most part, carried out by the VA. Some employment-related and other programs are provided by other agencies—often in cooperation with the VA.

Readjustment assistance

Of those citizens deserving assistance from the federal government, those who serve the country during periods of armed conflict are particularly deserving. As already stressed, for those injured during service, the first obligation includes health care, rehabilitation services, and compensation for lost earnings capacity. Beyond that, all who serve during a period of conflict deserve—and the VA is mandated to provide—assistance in making the readjustment to civilian life, including benefits designed to attempt to help them make up for the time lost from other pursuits while in service.

As to those veterans who served during our nation's most recent armed conflict, the Vietnam war, a high proportion have successfully readjusted to civilian life following their service. The majority of these veterans have used various VA and other governmental benefits, such as educational assistance through the GI Bill, VA home loan guaranties, and employment assistance through various Department of Labor programs, to help with their readjustment. However, lingering problems remain for some veterans of that era, and these problems must receive all the attention and effort by the federal government needed to resolve them. Among the most pressing issues confronting Vietnam-era veterans that still require much governmental attention, two of the most troubling are the effects of exposure to Agent Orange and other possible health hazards during service and the diagnosis and treatment of the mental impairment, post-traumatic stress disorder. These areas were discussed earlier.

Readjustment Counseling: The VA's readjustment counseling program was established in 1979 after a persistent 8-year effort in the Congress to get it enacted. The program is currently slated to phase out beginning in 1984. This program offers a broad mix of counseling, vocational guidance, peer-group meetings, and to psychological support, through over 130 VA vet centers largely in store-front settings and through arrangments with private programs, to Vietnam-era veterans requesting help with readjustment problems. This program should be continued until it has clearly achieved its purpose.

Section 301 of my bill, S. 11, would extend eligibility under this program through fiscal year 1985. This provision has been approved by the Senate as part of H.R. 2920.

Education and employment needs

A further readjustment assistance that must continue to be pursued for Vietnam-era veterans is in the area of employment and preparation for employment. Although the great majority of Vietnam-era veterans have made very successful readjustments after their military service, there remains a portion of this population that has not completed the readjustment process. Because many of these veterans are only now receiving assistance through the VA's readjustment counseling program—assistance designed to encourage them to utilize education and employment benefits effectively—serious consideration must be devoted to determining how best to provide these veterans with assistance that could lead to gainful employment and how to target such an effort so as to reach those veterans with genuine needs related to their service. Given technological and industrial changes and the very high rate of unemployment among certain categories of Vietnam-era and other veterans, a new program of retraining and on-job training is needed to assist veterans whose skills are being outmoded by these rapid-fire changes and who are experiencing difficulties in obtaining or retaining jobs.

On March 1, the Senate Veterans' Affairs Committee adopted my motion to add $150 million to the Committee's recommendations for the VA budget in order to make it possible for Congress to consider GI Bill rate increases and new job training and retraining legislation being developed. The Senate Budget Committee approved that recommendation and it was included in H. Con. Res. 91, the First Concurrent Resolution on the Budget for fiscal year 1984.

I introduced on April 6 a new wartime veterans job retraining bill, S. 992; the basic provisions of that bill were approved by the Veterans' Affairs Committee as part of S. 1033 as reported to the Senate on May 16, 1983. Final passage of the bill occurred in the House and the Senate on August 2 and 3, respectively.

Education programs

The VA currently administers various education and training programs, including the Vietnam-era GI Bill and a voluntary educational assistance program for post-Vietnam-era veterans.

Traditionally, education benefits through the VA have been regarded as a vitally important readjustment benefit and as a fundamental part of the nation's commitment to promoting education and training of its citizens. These benefits have assisted more than 20 million veterans readjust to civilian life in a productive capacity and have helped to make up for the loss of educational or vocational opportunities veterans experienced during periods of service to the nation. The GI Bill has also benefited society in general since veterans, by virtue of having received further education, have been able to secure better employment which, in turn, has meant greater income to the Treasury in the form of taxes. Also, better educated individuals are less likely to need assistance from governmental income-maintenance programs. In addition, the availability of these benefits has served as a very significant recruitment device for the Armed Services.

The value of these benefits—particularly in terms of their purchasing power—needs to be continually reviewed in order to make sure that veterans are not prevented from using their earned entitlements. The effects of inflation and increased educational costs on the GI Bill dollar, even as the current GI Bill is phasing down, must be evaluated and appropriate adjustment made. S. 9, which I introduced on January 26, 1983, would provide for a 15-percent increase in rates of GI Bill allowances.

Similarly, efforts to ensure that GI Bill funds that are expended are used to obtain quality education must continue. The emergence of alternative and innovative modes of education must be recognized in the VA's administration of benefits. However, at the same time, elimination of abuses must remain a critical element in the VA's implementation efforts.

As was noted earlier, the VA, by virtue of its experience in the area of administering educational benefit programs, could provide assistant to the All Volunteer Force by administering an AVF GI Bill. Such a program—with funding provided by the Defense Department—could be an important recruitment and retention tool for the AVF. Because current economic conditions have created a ready recruiting source for the AVF, it is not necessary to have such a GI Bill program operating at present. However, because economic conditions can change fairly quickly and the armed services might be in a position where they would want to be able to offer a GI Bill to prospective AVF recruits and reenlistees, legislation should be enacted to establish the authority to initiate such a program and to make the activation of the program contingent on a Presidential determination—not objected to by the Congress—that the armed services are unable to attract or retain sufficient numbers of personnel, either generally or in select skill areas.

S. 8, which I introduced on January 26, 1983, would provide for such an AVF GI Bill which could be triggered by the President. Provisions of my measure were merged with provisions of another proposal developed by Senators Armstrong, Cohen, Hollings, and Matsunaga and presented to the Senate as a floor amendment to S. 675, the Omnibus Defense Authorization Act, 1984. Unfortunately, our attempts to obtain approval of the amendment were defeated on a procedural vote, 46 to 52 on July 13, 1983. I am, however, continuing to work actively in this area to secure enactment of an appropriate peace-time GI Bill measure.

In this regard, it is important that all ongoing or proposed education programs administered by the VA be studied closely to ensure that they have no inadvertent impact on a current service-member's decision to remain in the armed services. An individual should not be forced to choose between staying in the military and leaving the service in order to avoid losing educational benefits. When such problems are identified—and the 1989 termination date of the current GI Bill already is presenting such problems—they must be ameliorated or completely eliminated.

S. 8 would also repeal the 1989 termination date. That repealer has been approved by the Veterans' Affairs Committee as part of S. 1388 ordered reported to the Senate on July 21, 1983.

Employment-related programs

Various employment-related activities carried out under the Department of Labor, the Office of Personnel Management, and the Small Business Administration are often most important to veterans in need of readjustment assistance following their service.

Within the Department of Labor, the position of Assistant Secretary for Veterans' Employment must be filled by a veteran who has demonstrated an understanding of the needs of veterans, particularly Vietnam-era and service-connected disabled veterans, and an ability to represent their needs within the Department. This Assistant Secretary should bring leadership to the Veterans' Employment Service within the Department in order to stress its particular responsibilities in assisting Vietnam-era and service-connected disabled veterans. The Assistant Secretary and the VA Administrator

should each be charged with the responsibility of working closely together in order to enhance coordination and cooperation in their efforts to meet the employment-related needs of veterans.

Specifically, the Disabled Veterans Outreach Program (DVOP) in the Labor Department must be strengthened to ensure that its personnel are placed in locations and settings in which they can have maximum opportunity for interaction with disabled veterans seeking employment assistance. Also deserving greater attention is the Department's receipt and management of set-aside funding to support special veterans training programs and veterans self-help groups around the country. Throughout the 1970's, a network of community-based veterans self-help groups emerged. These groups often played a significant role in working with and on behalf of individual veterans, especially Vietnam-era veterans, and in serving as a bridge between individual veterans and various governmental programs. Such groups have an important role to play and should receive continuing support from the Department. Congress has recently provided increased funding for these activities, and this program should be vigorously implemented and-monitored for quality.

The federal employee veterans preference provisions administered by the Office of Personnel Management represent another important element of the overall federal response to veterans. As part of the 1978 Civil Service Reform Act, numerous improvements were made in the preference provisions for severely disabled service-connected veterans, particularly the protections for those veterans throughout the competitive selection process and during a reduction-in-force action. The effectiveness of these changes should be evaluated so as to ensure that the desired goal—providing maximum assistance to service-connected veterans in obtaining and remaining in federal employment—is met.

A further OPM-managed effort that requires a renewed commitment is the overall federal effort to hire and advance Vietnam-era and service-connected disabled veterans through the veterans' readjustment appointment (VRA) authority. Through this authority, agencies are able to make direct appointments to certain federal civil service positions. Likewise, a special excepted appointment authority was enacted in the 1978 Civil Service Reform Act to give federal agencies the authority to hire directly—without the necessity to conform with selection procedures—severely disabled service-connected veterans. Only a few federal agencies have used these authorities effectively; government-wide performance has been disappointing. Efforts must be made to reemphasize the importance of using both the VRA and the special excepted-appointment authorities and to monitor agency efforts in doing so.

For a number of years, the Small Business Administration has been mandated by law to provide special consideration to Vietnam-era veterans in the granting of small business loans and loan guaranties. The SBA's record in this regard has been very unsatisfactory and, in response, the Congress, in 1981, enacted a new small business loan program for Vietnam-era and disabled service-connected veterans to be carried out by the VA. In response to indications that the SBA was finally planning to utilize its authority as mandated, Congress has held back on appropriations for a new VA program but made available $25 million through the SBA in fiscal year 1983 for direct loans to veterans. Congress has rejected Administration efforts to avoid spending these funds. SBA efforts must be monitored closely, and if the SBA continues its failure to fulfill its statutory mandate—despite the availability of this funding—then the VA program should be funded and activated so that necessary assistance can be received by those veterans.

OTHER VA PROGRAMS

The VA administers a number of other benefit programs and services for veterans, including pension programs, burial benefits and the national cemetery system, home loan guaranties, and GI insurance programs.

VA pension programs

The VA's pension programs provide need-based income security benefits both to wartime veterans who are totally and permanently disabled from non-service-connected causes or are age 65 or over and to the needy surviving spouses and children of wartime veterans. As with the VA's compensation program, unfair proposals have been put forward in the recent past—made or supported by the Reagan Administration—to make significant changes in the pension programs in the name of short-term budget savings. Any proposals relating to the pension programs must be subjected to careful scrutiny, keeping in mind the debt owed by the nation to its war veterans and their survivors and the impact of any changes on other government-supported income maintenance programs.

VA burial benefits

Although there have been some changes in VA burial benefits in recent years as part of overall efforts to reduce government spending, these benefits remain available in cases of death from service-connected causes and to assist with the burial of needy war veterans. As with the pension programs, any further proposals relating to burial benefits—or to any other VA benefit programs—must be subjected to close scrutiny so as to ensure that the nation's debt to those who served their country continues to be honored.

Judicial review of VA decisions

In order to ensure that the efforts of the VA receive appropriate governmental and public attention and scrutiny, the decisions of the Administrator on matters involving claims for benefits should no longer be immune from review in court. The current statutory bar to judicial review of VA decisions and the $10 limitation on attorneys fees for representation of veteran claimants insulate the agency from the checks and balances inherent in the federal system and should be removed. As long as these restrictions—which are virtually unique in the federal government—apply to VA benefits claims, veterans and survivors with claims before the VA will be denied important rights that citizens have in dealing with virtually all other federal agencies.

On March 1, 1983, I joined in introducing S. 636, legislation to provide for judicial review of VA decisions on claims for benefits and to permit reasonable attorneys fees. This bill has since been reported from Committee and passed by the Senate in H.R. 2936. On July 21, 1983, I appeared before a House Veterans' Affairs Committee Subcommittee to urge favorable action by that Committee on S. 636.

CONCLUSION

Providing for those who serve the nation in the Armed Forces after they leave the service—particularly for those who become disabled during their service—is a moral obligation of the highest order and must be understood as an integral part of our national defense effort. Keeping faith with those who served in the past is one way to demonstrate to the men and women now in the service and to would-be recruits the high value that the nation attaches to their service.

As the principal federal entity charged with responsibility for veterans' affairs and as one of the largest federal agencies, the Veterans' Administration should be given higher recognition within the Executive Branch and must have dedicated, experienced leadership. The VA is charged with furnishing a wide array of important, needed benefits and services to all generations of veterans. The agency must be provided the resources to continue to provide such assistance.

As I have outlined earlier, I believe that the following actions should be taken:

Elevate the Administrator of Veterans' Affairs to cabinet-level status so as to facilitate access to the President and top White House aides and the Administrator's attendance at cabinet meetings;

Secure the funding necessary to ensure that the VA's Department of Medicine and Surgery is fully staffed and is capable of providing quality health care;

Enact legislation to ensure that the VA is capable of attracting, hiring, and retaining needed health-care personnel;

Enhance VA medical and prosthetic research efforts and emphasize the agency's actions to support innovative research efforts;

Direct that the VA place a major new emphasis on preventive health-care activities;

Provide all resources necessary to reach a timely resolution of issues related to the health effects of veterans' exposure to Agent Orange and radiation;

Provide cost-of-living adjustments for compensation and dependency and indemnity compensation programs at the same level as guaranteed for social security and VA pension programs by law;

Require that VA and Labor Department on-job and other veteran employment related programs be more closely and effectively coordinated and enact legislation for retraining of Vietnam-era and other veterans;

Enact legislation to provide an increase in benefits under the current GI Bill;

Enact legislation to establish a new, stand-by GI Bill for the All Volunteer Force;

Enact legislation to extend the eligibility for readjustment counseling assistance for Vietnam-era veterans for as long as such assistance is needed;

Place renewed emphasis on the VA's responsibility to provide rehabilitation assistance to veterans with disabilities related to their service and ensure that the agency is able to fulfill that responsibility;

Enact legislation to remove the bar to judicial review of VA decisions on claims for benefits and the $10 limitation on the amount a veteran can pay an attorney for representation on a VA claim; and

Ensure that the Administrator of Veterans, Affairs carries out vigorously the statutory responsibility to seek to achieve the maximum feasible effectiveness and coordination of disparate governmental efforts related to veterans.

QUORUM CALL

Mr. MELCHER. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. PELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

JOHN J. AFFLECK: A CARING MAN

Mr. PELL. Mr. President, this week brings to a close a distinguished and remarkable career of service to my State of Rhode Island by one of the ablest and most dedicated public administrators ever to serve Rhode Island or, for that matter, any State.

I speak of John J. Affleck who retires this week after 24 years as the top administrator of Rhode Island's public welfare system.

I have known, admired, and worked closely with Jack Affleck throughout those years, during which he served under six Governors, both Democrats and Republicans.

One need only consider, Mr. President, the tumultuous nature of those years in our Nation and in my State to recognize that mere survival in such a pressured position was an achievement.

But Jack Affleck did far more than survive. He conducted himself and directed his agency with professionalism, with skill, and with admirable sensitivity and compassion for the concerns and needs of the citizens who came to his department for assistance.

Jack Affleck has a cool and unflappable manner, which has stood him in good stead during these difficult years, but those of us who know him well know that behind that exterior is a committed and caring man who never wavered from the quest for fairness and compassion.

In announcing his retirement Jack said: "It is time to pause and determine what I want to do with the rest of my life while still young, healthy and vigorous enough to think about that." I admire that sentiment tremendously and wish him and his family all the very best in the years ahead.

Mr. President, I ask unanimous consent that an admiring editorial from the Providence, R.I., Journal, commenting on Mr. Affleck's career, be reprinted at this point in the RECORD.

There being no objection, the editorial was ordered to be printed in the RECORD, as follows:

[From the Providence (R.I.) Journal, July 9, 1983]

JOHN AFFLECK A HARD ACT TO FOLLOW

The retirement early next month of John J. Affleck, director of the Rhode Island Department of Social and Rehabilitative Services (SRS), will remove from the governor's cabinet one of the ablest and most experienced officials in state government.

Mr. Affleck has steered the state's welfare system through many troubled waters over the last 24 years. Diplomatic in bearing, ever coolheaded in times of stress, yet deeply compassionate, he has handled one of the most difficult jobs in the state with strength, dignity and intelligence.

Seldom is the welfare system free from political and constituent pressures. Seldom can its director avoid being the target of advocacy groups seeking improvement in the benefits available to the lowest income families and others intent on holding the line on "the public dole." For many years Mr. Affleck has stood at the center of this emotional struggle and kept control in a way that stirs the profoundest admiration.

As an administrator he has few peers. Twice he directed major transitions in the welfare system—when the Department of Social Welfare was transformed into SRS and again several years ago, when Child Welfare Services became a separate Department for Children and Their Families (DCF). He felt much heat from the problems and eventual closing of the Children's Center in Providence, but from all these changes have come improvements, for which he must be given a generous share of credit.

That anyone can survive more than a few years in a job that faces potential tragedy on a continuing basis is a marvel. That Jack Affleck did it for two dozen years, pressing the legislature for more generous funding and pleasing both Democratic and Republican governors in six administrations should be an inspiration for whoever follows in his footsteps.

The director has served Rhode Island well. He has earned the gratitude of the people and best wishes for success in whatever area he chooses in the years ahead. He has much reason to take pride in his many accomplishments.

A TRIBUTE TO POWELL A. MOORE

Mr. PELL. Mr. President, I rise to pay tribute to Powell A. Moore, a hardworking and dedicated public servant who is leaving Government to return to the private sector.

As Assistant Secretary of State for Legislative and Intergovernmental Affairs for the past year and a half, Powell has done a tremendous job in articulating the administration's foreign policy goals to the Congress, even when many of us disagree with some of those goals. In the difficult position of having to reconcile the will of Congress acting in its constitutional capacity in the area of foreign affairs with the executive's responsibilities in the same area, Powell has shown a keen political sense and has been a credit to the Reagan administration and a valuable aid to Members of Congress on both sides of the aisle.

Powell Moore has been active in Washington since 1966, first serving as an aide to the late Senator Richard B. Russell of Georgia. When the distinguished Senator died in 1971, Powell became Deputy Director of Public Information for the Justice Department and then moved to the White House where he served in the Legislative Affairs Office as a Deputy Special Assistant to the President under Presidents Nixon and Ford. While Powell returned to private employment during the Carter administration, he remained active in politics with the Republican Party, working on the Presidential campaign staffs of Nixon in 1972, Ford in 1976, and Reagan in 1980. Powell was named Assistant Director for Congressional Relations of the Reagan Transition Team and then was appointed by the President to be his Deputy for Legislative Affairs. In 1981 Powell was nominated by the President to be Assistant Secretary of State of Congressional Relations, his post later being expanded into the Office of Legislative and Intergovernmental Affairs.

At his confirmation hearing before the Senate Foreign Relations Committee, Powell read an excerpt from an article by Chairman PERCY of the Foreign Relations Committee with which I fully concur:

> The office of Congressional Relations in the Department of State should take the lead in monitoring the frequency and quality of consultation between the Department and Congress. The Assistant Secretary for Congressional Relations must seek to build a two-way bridge. He must identify and understand the priorities and concerns of Members of Congress and report them early to the appropriate officials at the State Department just as he serves his role as a policy spokesman for the Secretary of State on the Hill.

In his year and a half at the State Department, Powell Moore has met the challenge of reconciling the foreign policy prerogatives of the executive and legislative branches and has done so in a true bipartisan fashion. He has been a valued colleague and a good friend to many of us in the Senate. He will be missed. I wish him well in his new endeavors while welcoming his eminently qualified successor, Ambassador William Tapley Bennett, Jr.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXTENSION OF TIME FOR ROUTINE MORNING BUSINESS

Mr. BAKER. Mr. President, it is a waiting game, but this is perhaps the last day of the session before the August recess. It may not be. But we are waiting for the Department of De-

fense authorization conference report. We are waiting for negotiating efforts on the agriculture bill. We are waiting for perhaps a resolution that would give us an opportunity to finish the Interior appropriations bill. We are waiting to try to clear nominations on the Executive Calendar.

Now, it may appear to some Members and maybe even others that nothing is going on, but, believe me, the most intensive sort of negotiations are going on. I am just about fed up with it, to tell you the truth, but last days, if this is the last day, are this way always. So I do not think there is any alternative except to continue the effort.

I ask unanimous consent now that the time for the transaction of routine morning business be extended until 2 p.m. under the most recent terms and conditions.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BAUCUS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. COCHRAN). Without objection, it is so ordered.

BEEF EXPORTS TO JAPAN

Mr. BAUCUS. Mr. President, about 2 weeks ago I handed Japan's agricultural attaché a letter for Prime Minister Yasuhiru Nakasone. Signed by me and 51 other Senators, the letter urged Prime Minister Nakasone to "give high priority to the issue of restriction on Japanese imports of U.S. beef."

Today, I would like to remind my colleagues why this letter was necessary and why further efforts to reduce Japanese barriers to U.S. beef imports also may be necessary.

GENERALLY

Last year, America's trade deficit with Japan was $16 billion. There were many reasons for this deficit; clearly, one of the main ones was protectionist Japanese barriers against imports of American products. As the U.S. Trade Representative's Office recently reported:

> A widespread perception persists among Japan's trading partners * * * and not incorrectly, that the Japanese market remains relatively less open to foreign suppliers when compared to access for Japanese goods and services in their markets.

BARRIERS AGAINST BEEF IMPORTS

Some of the most harmful Japanese barriers limit imports of American beef. There are two main barriers.

The first is the beef quota system. As a recent Japanese Government report says, "All beef imports into Japan are subject to a quota system." This system, designed to protect inefficient Japanese ranchers against competition from their more efficient non-Japanese counterparts, now permits American ranchers to import 30,800 tons of high-quality beef a year—only about 10 ounces per Japanese consumer.

The second is the system of formal and informal nontariff barriers, including things like the Livestock Industry Promotion Corp.'s complicated regulatory system and artificial pricing system, that doubles the price at which American beef is sold in Tokyo's markets.

As a result of these barriers, American ranchers are locked out of a large part of the Japanese market. While it is true that Japan has gradually increased the beef quota and now buys 60 percent of all U.S. beef exports, it is also true that, if the quota system and other barriers were eliminated, U.S. beef sales would increase dramatically—perhaps as much as fivefold. That would increase overall U.S. sales by $600 million.

THE JAPANESE PERSPECTIVE

The Japanese perspective is primarily political. Over 420,000 Japanese families raise cattle. These families are concentrated in the extreme southern and northern regions, which have significant representation in the Japanese Legislature. Agricultural Attaché Michiru Okuma recently told the Great Falls Tribune just what this means. "Many politicians are from rural areas in Japan," he said. "Farmers are right now supporting these politicians, and if those politicians * * * go along with the idea of eliminating import quotas, the farmers will not support those politicians."

Mr. President, we all understand this political perspective. But let us get one thing straight. We are not out to destroy Japanese agriculture. Indeed, even if Japan's import barriers were completely eliminated, a substantial Japanese beef industry would continue to exist, because we do not produce significant amounts of the famous "Kobe beef" which is in high demand in Japan, and because Japan's beef industry would continue to receive considerable supplies of surplus cattle from the dairy industry. Rather, we simply are out to develop new markets centered on high quality beef—such as steaks—which have not been a traditional part of the Japanese diet.

CURRENT NEGOTIATIONS

During 1979's multilateral trade negotiations, the United States and Japan reached a 5-year agreement under which Japan would gradually increase the beef quota, the United States would refrain from attacking the quota system as a violation of international trade law, and the two countries would try to negotiate more substantial liberalization. On March 31, 1984, the agreement expires.

In the meantime, several negotiating sessions have been held, most recently a few weeks ago near Washington. So far, despite the best efforts of our negotiators, no progress has been made. We insist on substantial liberalization; Japan refuses to consider anything more than a slight quota increase. The next negotiating sessions will occur in September in Tokyo, shortly before President Reagan's visit there.

If no agreement is reached by the time the current agreement expires in March 1984, we then must consider formally charging Japan with violating international trade law.

But there are some positive signs. Influential Japanese are beginning to recognize how much Japanese agricultural protectionism harms United States-Japan relations. For example, the Japan Economic Institute—an agent of the Japanese Government—recently reported that the Japanese business community has grown "increasingly critical of the protection of the agricultural sector, on the grounds that it would not lead to more efficient and productive farming in the long run, and that it jeopardizes Japan's access to foreign markets * * *."

CONCLUSION

Mr. President, a double standard exists. The Japanese sell Americans billions of dollars worth of cars, electronic devices, and other products. But they refuse to give us a fair chance to sell them American beef.

This double standard is intolerable. It violates the spirit of free trade and hurts American cattlemen. If it continues very long, it may poison overall United States-Japanese trade relations.

Given this situation, we in the Senate must do all we can to convince the Japanese that we mean business. That is why I and 51 colleagues recently sent our letter to Japanese Prime Minister Nakasone. This letter reemphasizes that, for Senators representing agricultural States, Japan's barriers to imports of U.S. beef remains one of the most important issues between our two countries.

These barriers must be reduced. I will continue to do all I can to see that they are, and I hope that all my colleagues will do the same.

I ask unanimous consent that a copy of the letter to Prime Minister Nakasone be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

U.S. SENATE,
Washington, D.C., July 14, 1983.

Hon. YASUHIRO NAKASONE,
Prime Minister of Japan,
Tokyo, Japan.

DEAR MR. PRIME MINISTER: We are writing to urge you to give high priority to the issue

of restrictions on Japanese imports of U.S. beef.

The current quota for high quality beef allows us to export to Japan only 10 ounces of beef per-consumer per-year. Also, U.S. beef costs more than twice as much in Japan as it does in the U.S.

This quota may seem like a relatively minor issue. But it is not; together with other restrictions, it has come to symbolize the impact of foreign agricultural protectionism on America's economy.

For many years, Senators from states with significant agricultrual constituencies have been among the strongest advocates of free trade. We have argued that a system of open markets based on comparative advantage serves both the U.S. and its trading partners well. It is very important to us that Japan help maintain that system by removing barriers to U.S. beef.

We do not want to destroy Japanese agriculture. All we want is a chance to develop a new market for the high-quality beef that has never been a substantial part of the Japanese diet.

This also is a question of fairness. The U.S. provides open access to almost all Japanese products. Although we recognize there may be occasional adjustment problems so severe as to require temporary restraints, we have attempted to resolve these problems in the spirit of free trade.

We call upon the Government of Japan to join us, in that same spirit, in reaching a new agreement liberalizing the treatment of American beef.

Sincerely,

MAX BAUCUS, *U.S. Senator,*
(With 51 cosponsors).

EARLY ANNOUNCEMENT OF WHEAT AND FEED GRAINS PROGRAMS

Mr. BAUCUS. Mr. President, the Senate took a very important action this week in passing legislation which would require the Secretary of Agriculture to announce the 1984 wheat grain program and the 1985 wheat program earlier in the year than is now required.

Passage of this legislation is particularly timely and relevant, given the past several weeks of debate over a target price freeze. Farmers need to plan their operations well in advance of the day they physically go out to plant their crops. The farmer must look at market prices, carryover stocks, and marketing considerations before deciding how many acres to plant and which crops they should be seeding.

An earlier announcement of our wheat and feed grain programs should help avoid the 11th hour debates that seem to take place in Congress over changes in the basic farm program. We simply need to have more time to make the best decisions in shaping farm policy. If we look back to last year's "lameduck" session of Congress, the payment-in-kind (PIK) program was presented by the USDA with the urging that Congress act before the end of the session. There is no way, with this short of notice, that all of the bugs can be worked out of our farm programs.

Another important consideration in moving up the dates for the announcement of the wheat and feed grains programs is the need for farm supply businesses to plan their inventories and operations based on these program announcements. Again, look at the effect that the PIK program had on farm supply businesses this past year. USDA estimates that the PIK program will result in a $4.9 billion decline in production expenditures by farmers this year. USDA also estimates a 12- to 15-percent drop in the seed, fertilizer, and pesticide industries, an 8- to 10-percent drop in fuel sales to farmers, and a 2- to 3-percent decrease in farm machinery purchases.

One Montana farm implement dealer tells me that they have witnessed a 14-percent decline in farm machinery purchases and an 8- to 10-percent decline in parts sales from last year. I am not claiming that an early announcement of our farm programs would, by itself, improve these figures. However, an early announcement of our farm programs would enable farm supply businesses to prepare themselves for these major program adjustments.

Mr. President, I ask unanimous consent that a copy of a letter I received from the National Fertilizer Solutions Association be included at this point in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

NATIONAL FERTILIZER SOLUTIONS ASSOCIATION,
Peoria, Ill., June 25, 1983.

Hon. MAX BAUCUS,
U.S. Senator, Dirksen Office Building, Washington, D.C.

DEAR SENATOR BAUCUS: The decision by USDA to delay announcement of the 1984 feed grain program by imposing a two month comment period is a major setback for fertilizer/agricultural chemical retailers represented by the National Fertilizer Solutions Association (NFSA). These small businessmen supported the 1983 PIK program despite a 25 percent decrease in dollar volume of sales. The PIK program brought needed economic relief to our hard pressed farmer customers. However, an early announcement of the 1984 feed grain program is a key component in the formula necessary to restore economic vitality to these retailers. USDA has now taken action designed to forestall the announcement date.

The 1983 PIK program was instituted after a 30 day comment period. The same 30 day period was utilized for the 1984 wheat program. Our membership finds it difficult to understand the motives behind the doubling of this comment span for feed grains. If our farmer customers do not get an early indication of USDA crop program intentions their production decisions may not be made during the Fall season. Sales income during the Fall season is of importance to retailers feeling the impact of lost sales.

The NFSA has asked Secretary Block for an August 15 announcement of the 1984 feed grain program. On June 10 the U.S. Senate passed a resolution urging USDA to announce the 1984 feed grain program no later than September 1. An early announcement date now seems highly unlikely as USDA has moved to declare a comment period double the span used for previous programs this year. This makes a preview of the probable ingredients of the program all the more important. Such a review was recently given as regards the 1984 wheat program during testimony by Secretary Block before the House Agriculture Committee. A similar preview of the feed grain program should be made public by August 15.

Your assistance and support in the call for an early announcement of the 1984 feed grain program is requested. Small agri-businessmen selling production inputs such as fertilizer and chemicals to farmers need your help.

Sincerely,

HARRY WALLNER,
1983 NFSA President.

Mr. BAUCUS. Mr. President, I believe this action will be a great benefit to both farmers and farm supply businessmen in planning their operations.

HONORING DR. LENDAL H. KOTSCHEVAR

Mr. BAUCUS. Mr. President, I rise today to honor Dr. Lendal H. Kotschevar, who has been named Educator of the Year in the food and beverage industry.

Dr. Kotschevar is a native of Montana, and has made many outstanding contributions in the fields of education and food service science.

Trained as a chef early in his career, Dr. Kotschevar earned his B.S. and M.A. degrees from the University of Washington. He later earned his Ph. D. at Columbia University in the School of Home Economics. His thesis was on the differences between frozen and fresh fish.

Among the many university positions he held during the course of his career, Dr. Kotschevar was professor and chairman of the Department of Home Economics at the University of Montana. He served concurrently as director of food services for the dormatory system.

Dr. Kotschevar has lectured all over the world, served as a United Nations food consultant, and has been chairman of the food service systems committee of the National Research Council.

Mr. President, I add my congratulations to Dr. Kotschevar, and ask that the full text of the resolution be printed in the CONGRESSIONAL RECORD.

There being no objection, the resolution was ordered to be printed in the RECORD, as follows:

COUNCIL ON HOTEL, RESTAURANT, AND INSTITUTIONAL EDUCATION, STATE COLLEGE, PA.

RESOLUTION TO LENDAL KOTSCHEVAR

Whereas he has authored eleven major textbooks for the food and beverage industry; and

Whereas he has served as faculty on seven major Hotel and Restaurant campuses in

the United States during his teaching tenure; and

Whereas he has guest lectured on every continent for the United Nations, Host Governments, Private Schools, and International Industry; and

Whereas he has dedicated his life to the service of his church; and

Whereas he has dedicated his life to the service of his country as a retired Commander in the United States Navy; and

Whereas he has given inspiration to all students he has come in contact with.

Therefore, let it be known to all men throughout the nation that Lendal H. Kotschevar as an author, educator, humanitarian, and patriotic citizen has dedicated his life to the good of his fellow man and is hereby recognized as Educator of the Year in the Food and Beverage Industry.

A TRIBUTE TO CHARLES RICKS

Mr. HEFLIN. Mr. President, a fine citizen of my home State of Alabama was recently honored by the Tennessee Valley Authority by being featured in the 50th anniversary edition of TVA's annual Power Program Summary. This outstanding Alabamian to whom I refer is Charles Ricks.

Mr. Ricks, a resident of my own hometown of Tuscumbia, began his association with TVA in 1948 when he became an engineer for the Tuscumbia Department of Utilities. After illustrating outstanding ability in his chosen field, he was named manager of that same Tuscumbia utility system in 1960, and he has served in that capacity ever since.

Throughout his tenure as manager of the Tuscumbia Department of Utilities, Charles Ricks has been an ally of the consumer. He has constantly strived to keep energy prices as low as possible for the customers in the Tuscumbia area. In addition, he has been a promoter of energy conservation, especially in the area of home insulation, in order to benefit the consumer.

In the article which TVA included in their Power Program Summary, Mr. Ricks reflects upon the time he has spent working for TVA. He also recounts his attempts to keep energy prices low. "It's very difficult to explain to someone who has a very low income that he can make a loan, insulate his house, and make payments on that loan for less money than they would pay for the fuel it takes to heat it uninsulated," Mr. Ricks says.

I congratulate Mr. Ricks for being honored by the Tennessee Valley Authority. I am sure that he will continue to do a fine job as manager of the Tuscumbia Department of Utilites, and I know as well that he will continue to be an ally of the consumer.

Mr. President, I ask for unanimous consent that the article in the TVA Power Program Summary featuring Mr. Ricks be reprinted in full in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the TVA 1982 Power Program Summary, Volume II]

(Tuscumbia, Alabama, began receiving TVA power April 1, 1937, after the city's purchase of the Alabama Power Company properties. Charles Ricks graduated in electrical engineering in 1948 and a week after his graduation went to work as an engineer for the Tuscumbia system. He became manager in 1960 and witnessed Tuscumbia move from promoting sales to encouraging conservation. Mr. Ricks remains manager of the system.)

We purchased the power system here in Tuscumbia from the Alabama Power Company in 1937. I started to work for the Tuscumbia system in 1948 as an engineer. In June 1948, we had 847 residential customers, and the average total bill for that month was $2.95.

TVA's theory was to spread the cost of production over as many kilowatthours as you could. And we offered everything from green stamps to cash to small appliances if people would install an air-conditioner or a major applicance. Then it was almost like going over a hill—you go downhill immediately after. We went from promoting sales to promoting conservation.

I don't see that you can encourage kilowatthour usage any more at the prices we're seeing today. That's when TVA began many of its conservation programs. But the consumers who need these programs the most aren't taking advantage of them. It's very difficult to explain to someone who has a very low income that he can make a loan, insulate his house, and make payments on that loan for less money than they would pay for the fuel it takes to heat it uninsulated. We've promoted the Home Insulation Program about every way that we can.

As far as rates go, I think TVA does a good job. I'm not in a position to say that this is an unfair rate or this rate is punitive.

I hear some people who come in here say, "Oh, I don't know whether I want to come in this place or not the rates like they are." I say, "Where are you coming from?" And they reply, "Mobile, Alabama." I tell them, "Well, my goodness alive, your rates in Mobile are a lot higher than they are here. You get one of your bills and see how much electricity you were buying in Mobile and how much it cost per unit." TVA's going to wind up, when all this is done, with the lowest rates in the Nation.

Of course, the industrial customers don't like the rates. All you have to do is pick up a newspaper and see that. Our industrial customers don't like our gas rates either, and here in the last six months, we've had a 22-percent and a 17-percent increase in gas rates and are looking for another one in the next six months that size. The price of gas is on a lot faster roller coaster than electric rates have ever been on.

Looking back at the major changes, one of the biggest was TVA's divesting themselves of distribution facilities. I think it's been good for them and for us, too. TVA gave us an option to lease purchase the substations. In some instances, it was not an economical thing because some systems had substations that were old and loaded. But in our instance it was. We're responsible for its maintenance, and they charge us for delivery at 46 kV rather than 12 kV. It's cheaper. So we'll have the option to purchase it at a specified time in our contract.

As far as the future goes, it would be nice if I had a crystal ball to look into—but I don't know what the outlook is. I think it has to be better than it is now. Rates might level off, but they're not going to go down. If the price of coal goes back to half of what it is now and the price of money goes way back to where TVA could borrow at two percent, then we could see changes. But I think the relationship between TVA and the power distributors is still a viable one. It has to be. We can't divorce ourselves from TVA, go our merry little way, and have our own set of rules and regulations. Some people would like to do that. But it can't happen.

I've seen the times when some TVA people said, "This is the way it's going to be, and there is no alternative." But I think there have been a lot of good changes through our associations and committees. The Tennessee Valley Public Power and the North Alabama Public Power Distributors Associations have been able to work with TVA, to give them a different approach to some of their ideas, even on rates. They've made some concessions, which have been good.

I still think that if people really look at TVA, they're still the guys with the white hats. But they don't look around much. They look at their own set of circumstances and say, "Well, my power bill is as big as it is because TVA is not doing what they should." Nobody could foresee what is going on right now. If we all had as good foresignt as most of these people have hindsight, not many of these complaints would come about.

"ALABAMA THE BEAUTIFUL," BY EVERETTE E. JONES

Mr. HEFLIN. Mr. President, I rise today to share with my colleagues a fine poem written by one of my constituents, Everette E. Jones. The poem, entitled "Alabama the Beautiful," is an excellent description of my home State. I commend Mr. Jones for writing this fine poem, and I know I join all Alabamians in thanking him for expressing in words, the pleasant thoughts that we have of our home State.

Mr. President, I ask for unanimous consent that the poem "Alabama the Beautiful" be printed in the full in the RECORD.

There being no objection, the poem was ordered to be printed in the RECORD, as follows:

ALABAMA THE BEAUTIFUL

Our State the beautiful is our motto.
The marvelous Ava Marie Grotto
Is a lovely place, but one of many,
For our great State is endowed with plenty.
Alabama the Beautiful

From the fabulous snowhite sand beaches,
To the wide Tennessee's upper reaches,
From the swift Coosa and Chattahoochee,
To the high banks of the great Tombigbee.
Alabama the Beautiful

From the lofty heights of Cheaha mountains,
Down to Mobile's lower delta fountains,
From over the Eastern hills and hollows,
Toward the sunset and all that follows.
Alabama the Beautiful

From Little River's deep canyon towers,
To Sipsey's hidden wilderness bowers,

From Russell Cave and all its mystery,
To Morgan's Fort and all its history.
Alabama the Beautiful

From the spacious home of the Redstone rocket,
To narrow confines of Buck Creek's pocket,
From strange formations in limestone caverns,
To the uniqueness of old time taverns.
Alabama the Beautiful

From Azeala trails and Bellingrath Gardens,
To the mountain where the sandstone hardens,
From the country side where sage fields rustle,
To quaint little towns and big cities bustle.
Alabama the Beautiful

From Helen Keller's dear Tuscumbia,
To lake Seminole and blue Kowliga,
From Birmingham's cast iron Vulcan statue,
To Montgomery's confederate review.
Alabama the Beautiful

From the charming homes of old Eufaula,
To the ancient mounds of Tuscaloosa,
Thousands of churches and many a steeple,
Alabama's great pride is in it's people.
Alabama the Beautiful

The sound of the wind in the tall pine forests,
Like sweet music of a million guitarists.
The birds are singing from hardwood branches,
And calves are lowing from large cattle ranches.
Alabama the Beautiful

At day break hear the turtle doves cooing,
Across the meadow the milk cows mooing.
The day is dawning, darkness retreating,
The sun comes up with it's eternal greeting.
Alabama the Beautiful

At evening hear the whipporwills calling.
The setting sun says that darkness is falling.
There in the West the colors are blazing,
A panorama truly amazing.
Alabama the Beautiful

In early spring when the wild trees blossom,
The red fox hunts a small baby possum.
You hear the love call of the Bob White's whistle,
Among blue flowers of the bright green thistle.
Alabama the Beautiful

In summer when the mountain lakes glitter,
And turnip greens get a little bit bitter,
We fish with worms from the green Catalba,
In the Tallapoosa and Cahaba.
Alabama the Beautiful

In fall of the year the leaves are turning,
And smoke curls skyward from fire places burning.
Jack Frost arrives and the air is refreshing.
In ripened fields the farmers are threshing.
Alabama the Beautiful

In winter when the chill winds are blowing,
Sometimes it's raining, sometimes it's snowing.
Most of the time the weather is dreary,
But despite the weather, we're not weary for . . .
Alabama the Beautiful

Our State is beautiful no doubt about it.
If you ask us, we're likely to shout it.
It's beautiful in all of it's seasons,
And I have noted just a few reasons why . . .
Alabama the Beautiful

A TRIBUTE TO C. HEWLETT JACKSON

Mr. HEFLIN. Mr. President, the State of Alabama recently lost one of its most outstanding citizens when C. Hewlett Jackson passed away at the age of 84. I know that I join his many friends in expressing sympathy to his wife and daughter.

Mr. Jackson was very active in business and community activities in the city of Florence for many years. He served three terms on the Florence City Commission after first being elected in 1943. For some 23 years, he served as manager of the Florence Chamber of Commerce, and was a past president of the Southern Association of Chamber of Commerce Executives.

In other civic activities, Mr. Jackson established the North Alabama State Fair, and served as its manager for 35 years. The First Methodist Church, where he was a member of the board of stewards for 28 years, granted him life membership for his many contributions. Hewlett Jackson also served as director of the Salvation Army Board for 12 years. He was also a past president and charter member of the Alabama State Board of the Wildlife Federation, and a member of the Order of Masons for 53 years.

Mr. Jackson served not only his local community, but also served his Nation as well. For his efforts during wartime, he was recognized with three awards, the Congressional Selective Service Medal, a War Production Citation for Meritorious Services, and the Alabama Civilian Defense Activities Award.

Since Mr. Jackson's hometown of Florence is located only a few miles from my hometown of Tuscumbia, I had the privilege of seeing firsthand the many contributions he made to the welfare of northwest Alabama. His town, his friends, and all those whom he helped will certainly miss him.

Mr. President, I ask unanimous consent that an article from the Florence Times—Tri-Cities Daily be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Florence Times—Tri-Cities Daily, June 25, 1983]

RITES SET FOR HEWLETT JACKSON, EXCOMMISSIONER

C. Hewlett Jackson, 84, 529 N. Seminary St., Florence, died at his residence Sunday afternoon.

Born in Webster County, Kentucky, he worked with Armour Fertilizer Co. for 17 years before becoming personnel and public relations director for Gardiner-Warring Co. He was elected to the Florence City Commission in 1943, and served three terms. He was manager of the Florence Chamber of Commerce for 23 years. During World War I, he was awarded the Congressional Selective Service Medal, received a War Production award Citation for Meritorious Services and the Alabama Civilian Defense Activities Award from Gov. Sparks.

He established the North Alabama State Fair, which he managed for 35 years, and was given life membership in First Methodist Church where he served on the Board of Stewards for 28 years. He was the director of the Salvation Army Board for 12 years, past pesident to the Rotary Club and Southern Association of Chamber of Commerce Executives, president and charter member of the Alabama State Board of the Wildlife Federation and Conservation and a member of the Order of Masons for 53 years.

The funeral will be Tuesday, at 2 p.m. at First United Methodist Church with the Rev. Dr. Allen Montgomery and Leonard McDowell officiating. Burial will be in Greenview Memorial Park.

Visitation will be 6-9 tonight at the funeral home.

Survivors include his wife, Mrs. Olan Ashley Jackson, Florence; daughter, Mrs. Uvonna Jackson Curott, Florence; sister, Mrs. Milton Ashby, Sebree, Ky.; two granddaughters.

Bearers will be Bert Haltom, Bill Batson, Bill Mitchell, Robert Shirley, Donald Patterson, Jesse Keller and Paul Evans. Honorar bearers will be Floyd Hill, B. F. O'Steen Jack Dobson, Rivers Wiggins, Luther Baker, Grady Richards, Joe Broyles, C. L. Lyles, W. O. Graham, Forence Rotary Club and the men's Bible Class and Board of Stewards at First United Methodist Church.

IN TRIBUTE TO DR. MARY HELEN JOHNSTON

Mr. HEFLEN. Mr. President, I rise today in recognition of Dr. Mary Helen Johnston, a resident of Huntsville, Ala., who has been chosen to participate in the spacelab 3 mission now scheduled for flight aboard the space shuttle in September 1984. Dr. Johnston is only the latest illustration of the continuing contributions my State of Alabama has made to our Nation's program of space exploration.

Dr. Johnston is one of four payload specialists chosen for this mission. A payload specialist is relatively new in the space program. They are not astronauts, but instead, they are career scientsts and engineers who are selected to fly into space on a particular mission and conduct experiments.

Dr. Johnston is a materials scientists in the Marshall Center's Materials and Processes Laboratory. At the Marshall Center, she has had a variety of engineering assignments and has specialized in the fields of solidification of materials, crystal growth, and X-ray diffraction.

In 1974, she participated as one of an all-women crew of scientific experimenters in a 5-day simulated space mission. The exercise was conducted to test support hardware for materials science payloads which will be flown on future space shuttle/spacelab Earth-orbital missions.

In 1982 she received a NASA Exceptional Scientific Achievement Award for zerogravity research.

Currently, Dr. Johnston is working on experiment equipment and experi-

ments to be flown on the space processing applications rocket (SPAR) flights, proposals for materials processing experiments for spacelab 3 and failure analysis in space shuttle materials testing.

The emphasis of spacelab 3 will be on materials processing, but experiments will also be performed in the areas of life, sciences, environmental observations, technology research, and astrophysics. Of the scheduled experiments, 11 are from the United States while India and France will have one each.

During mission 3, the scientists will work in a laboratory consisting of a pressurized module with a special support structure that will carry equipment requiring direct exposure to space. Unlike the free-flying skylab laboratory of the mid-1970's the spacelab will remain in the cargo bay of the shuttle throughout the mission, transforming the shuttle into an orbital research facility. Spacelab was developed for NASA by the European Space Agency, a consortium of 11 European nations.

The Marshall Flight Center, located in Huntsville, has responsibility for spacelab development and managing the first three spacelab flights and other related missions.

Currently, the Marshall Center is carrying out a large variety of projects ranging from the development of propulsion elements of the space shuttle, the first reusable spaceship to management of spacelab Earth-orbital missions, and development of the space telescope, and other payloads for the space shuttle. The Center's staff is researching topics like space and environmental sciences, chemical propulsion, structure, materials, and electronics.

Mr. President, I am proud of Dr. Johnston and the Marshall Flight Center and the contribution they are making to our Nation's space flight program.

Thank you, Mr. President.

DIABETES RESEARCH ON AUGUST 30 SPACE SHUTTLE FLIGHT

Mr. HEFLIN. Mr. President, the Birmingham News recently carried a news item concerning an important experiment that will be conducted on the August 30 space shuttle flight. This experiment could lead to a new diabetes treatment that would keep sugar levels in diabetics normal and halt the development of the associated complications of blindness, kidney failure, and shortened life spans.

McDonnell Douglas Corp. and the Washington University School of Medicine have developed this experiment which will attempt to isolate insulin-producing beta cells from pancreatic tissue while in the weightless environment of the space shuttle. From this work, researchers expect that one day a glob of beta cells about the size of the tip of a person's little finger can be transplanted in a fatty area of the abdomen to normalize blood sugar levels.

Working with Johnson and Johnson Pharmaceuticals, McDonnell Douglas hopes to gain Food and Drug Administration approval by early 1987 to begin full-scale manufacture of drugs in space. They estimate that from space manufacturing of beta cells they can treat 600,000 patients each year. This is only 1 of 12 pharmaceutical products that have been targeted for space manufacturing.

I am very impressed by the potential of space manufacturing and materials processing in space. Market projections for pharmaceutical products from space show that they can generate annual sales of $20 billion in the developed nations. In fact, because they can be worth 20,000 times their weight in gold, drugs will be the first products manufactured in space.

NASA is to be congratulated for their fine work in making the commercialization of space realizable. I am sure that our space programs will continue to benefit mankind for years to come.

Mr. President, I ask unanimous consent that the entire contents of this news article be entered into the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

DIABETES RESEARCH WILL BE A PART OF NEXT SPACE SHUTTLE FLIGHT

(By Ray Formanek)

ST. LOUIS (AP).—The weightless enivronment of the next space shuttle flight is the perfect setting for an experiment that could lead to a new diabetes treatment, officials say.

The flight, scheduled for Aug. 21, will be the first attempt to isolate insulin-producing beta cells from pancreatic tissue while in space, the Washington University School of Medicine and the McDonnell Douglas Corp. announced this week.

The isolated beta cells may someday normalize blood sugar levels for diabetics and halt complications from the disease, scientists said.

A McDonnell Douglas spokesman said the device that will be used to isolate the beta cells has been tested on other materials on three other shuttle flights and "has shown in the zero gravity of space the ability to separate over 700 times more materials and to achieve purity levels more than four times greater than is posible in similar operations on Earth."

Dr. David Scharp, associate professor of surgery at the university's medical school, said research on transplanting insulin-producing cells into humans has been hampered by a shortage of the cells. The space technique could resolve that problem, he said.

Diabetes occurs when the million or so beta cells in the pancreas are damaged or destroyed. Diabetics must either inject insulin or take other drugs to keep their blood sugar levels at a normal range.

Even with the control measures, diabetics can suffer blindness, kidney failure and shortened life spans.

In next month's experiment, the device will isolate the beta cells in a solution by subjecting them to an electrical field, according to James Rose, director of the project for McDonnell Douglas.

"A pair of electrodes on either side of a tube causes different biological elements to take on a different electrical charge," Rose said, adding that the process is called electrophoresis.

"Because of the charge, they separate and take a different exit out of the main tube where they're collected."

Without the pull of gravity, the material flows more freely into the tubes, the scientists said.

The McDonnell Douglas electrophoresis experiment was carried on three earlier shuttle flights, in tests to determine how effectively it separated various materials. The upcoming mission is the first in which living cells are being used. In addition to the pancreatic tissue, tests also will be done on human kidney cells and rat pituitary cells.

McDonnell Douglas, working with Johnson and Johnson Pharmaceuticals, says its hopes to gain Food and Drug Administration approval by early 1987 to begin full-scale manufacture of drugs in space. The companies do not say what products they have in mind.

A similar process, called static electrophoresis, has been used for years in biology and medical laboratories for separating and analyzing the components of blood and other protein mixtures. However, only a tiny amount of material is produced in the process.

Dr. Paul Lacy, head of the medical school's pathology department, said Tuesday that transplant experiments are "very encouraging."

"We've already done transplants of rats to rats and rats to mice so we know the surgery should work," Lacy said. "It's just matter of having enough separated cells to work with."

According to Lacy, researchers expect that one day a glob of beta cells about the size of the tip of a man's little finger will be transplanted in a fatty area of the abdomen to keep sugar levels normal and halt the development of complications.

"It's going to take at least a couple of years to just separate the beta cells," Lacy said. "But this is a very encouraging development and should speed our research."

A TRIBUTE TO REBECCA GRUBB

Mr. HEFLIN. Mr. President, on July 28, 1983, the State of Alabama suffered a tragic loss when a fine citizen and an outstanding Christian lady, Mrs. Rebecca Grubb, passed away at the age of 42. Mrs. Grubb, who had been fighting a battle with leukemia for almost a year, lost that gallant battle early that morning. I know I join her many friends in expressing sympathy over her death to her husband, Wayne, and her two children.

Mrs. Grubb, a resident of Florence, was the wife of Wayne Grubb, the head football coach at the University of North Alabama. She was born in

Knoxville, Tenn., on March 19, 1941, and she graduated from Claiborne County High School. After graduation, she attended the University of Tennessee and was a member of the Zeta Tau Alpha sorority there.

Becky, as the residents of Florence knew her, will be greatly missed by the people of Alabama and, in particular, by the communities of Florence and the University of North Alabama. She contributed a great deal to both communities. As a member of the Highland Baptist Church in Florence, she aided many young people with their personal problems. Futhermore, she served as a mother to many of the football players at the University of North Alabama by counseling them on their personal problems.

Truly, there have been few ladies as caring as Mrs. Rebecca Grubb. Throughout her life, she devoted her time to attempting to solve the problems of others. Too, she served as an example of a fine Christian lady, especially during her brave fight with the leukemia that eventually took her life. I know that Mrs. Grubb will remain forever in the hearts of the people who were fortunate enough to know her.

Mr. President, I ask for unanimous consent that an article from the Florence Times-Daily be printed in full in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the (Florence) Times-Daily, July 28, 1983]

WIFE OF UNA FOOTBALL COACH, REBECCA GRUBB, DIES AT 42

Rebecca Lou Cunningham Grubb, 42, wife of University of North Alabama head football coach Wayne Grubb, died early today at a Birmingham hospital.

Her 11-month battle with leukemia ended around 2 a.m. this morning at University Hospital.

UNA Executive Vice President Roy Stevens said this morning, "It's a tragic loss for that family and the university, and I'm sure for the community and everybody that knew Becky. We have the deepest sympathy for the family."

He said Mrs. Grubb was a strong supporter of the university and its football program and spent a lot of time "mothering" players who had personal problems.

Mrs. Grubb was a member of Highland Baptist Church in Florence. Dr. Donovan Davidson, minister, said this morning, "Because of what Becky has gone through this past year, she has probably been as much an encouragement in our membership as anyone because of the way she has fought this thing. She gave a lot of people hope.

"The thing that enabled her to live as long as she did was an intense desire to live and be with her family and friends."

Davidson said Mrs. Grubb had been a strong influence on young people at his church. "In a way, she was like a counselor to them," he said. "She was a real fine Christian lady with a strong desire to live."

Bill Jones, UNA head basketball coach and associate athletic director, said, "Certainly in any coach's life you need an understanding wife because you're on the road so much, and Becky exemplified that kind of person. She was a great asset to Wayne and his career and a great mother. She will certainly be missed."

Mrs. Grubb was born in Knoxville, Tenn., March 19, 1941, the daughter of Robert Cunningham and the late Mary Lou Creswell Cunningham. She graduated from Claiborne County High School and attended the University of Tennessee where she was a member of Zeta Tau Alpha sorority.

In addition to her husband, survivors include one daughter, Christina Grubb; one son, Robert Grubb; her father (who now resides in New Tazewell, Tenn.) and one sister, Mrs. Charles Sanders of Cordova.

Funeral arrangements will be announced by Elkins and Son Funeral Home of Florence. Memorials may be made to the Leukemia Society or the UNA Rebecca Grubb Scholarship Fund.

A TRIBUTE TO LT. EDWARD G. GIBBONS, JR.

Mr. HEFLIN. Mr. President, I rise today to pay tribute to an outstanding young Alabamian who has brought honor to his State as well as to himself. The young man to whom I pay tribute today is Lt. Edward G. Gibbons, Jr.

Lieutenant Gibbons, a 1982 graduate of Auburn University, has become the first Alabamian to be selected as the top Army ROTC graduate in the United States. This prestigious award is the highest award in the Army's officer development program, and the recipient is chosen on the basis of high academic achievement, campus involvement, leadership, and military excellence.

Indeed, Lieutenant Gibbons, the son of Mr. Edward Gibbons of Montgomery and Birmingham and Mrs. Beverly Gibbons of Boston, Mass., is a deserving recipient. Academically, as a history and political science major, he graduated with honors, and he was named to the dean's list his last eight quarters at Auburn. Furthermore, he was a member of numerous honor societies including Phi Kappa Phi and the Mortar Board, a national senior scholarship, leadership, and service society. He also received an Army fellowship for graduate study.

In addition to his numerous academic achievements, Lieutenant Gibbons has excelled in the area of military leadership. At the 1981 U.S. Army Ranger School, he was the top ROTC graduate of all cadets from throughout the United States, and he was the honor graduate of the U.S. Army Assault School. Furthermore, he was the recipient of the George C. Marshall Award as the top cadet at Auburn University and of the 1982 Governor's Award as the top cadet in the State of Alabama. In addition, Lieutenant Gibbons was the cadet battalion commander, the highest ROTC leadership position at Auburn University, and he was the president of all three military honor societies at the university.

As I was privileged enough to be a member of our Armed Forces during World War II, I feel especially proud of Lieutenant Gibbons and his accomplishments. Through the Army ROTC program, he has developed the academic, military, and leadership skills that our great Nation needs in order to defend itself during the remainder of this century and into the 21st century. I know that I join many Alabamians in congratulating Lieutenant Gibbons for his many achievements and in hoping that he further contributes to his State and to the military of our great Nation.

Thank you, Mr. President.

CITY OF HOPE'S GOALS FOR THE EIGHTIES

Mr. CRANSTON. Mr. President, California is privileged to be the home of the world-renowned City of Hope National Medical Center and Research Institute, which is now celebrating its 70th anniversary. It is dedicated to patient care, research, and education in catastrophic diseases. Treatment without charge is provided to individuals who cannot afford the expensive care required for their cancer or leukemia, heart, blood, and lung maladies, diabetes, and other hereditary and metabolic disorders. This is a truly remarkable institution whose tradition of excellence and commitment to human dignity have earned it a reputation as a model hospital.

The fact that patients are referred to the City of Hope, and requests for the consultation of its staff come from every part of our land and from around the world, is testimony to the recognition which this institution and its medical staff have achieved throughout the international medical community. The City of Hope's pursuit of its goals of improving health and furthering humanitarianism everywhere have done much to contribute to the health and well-being of all citizens.

Mr. President, in order to share with my colleagues a very fine speech given at the 1983 biennial convention of the City of Hope, I ask unanimous consent that the keynote address of Ben Horowitz, executive director of the City of Hope, be printed in the RECORD at this point.

There being no objection, the address was ordered to be printed in the RECORD, as follows:

KEYNOTE ADDRESS BY BEN HOROWITZ, EXECUTIVE DIRECTOR, CITY OF HOPE

You delegates and visitors have assembled here as a family to attend the 70th Anniversary of the City of Hope.

The phenomenal growth of our haven of healing, from humble beginnings in 1913 as a Los Angeles tuberculosis sanatorium to a national medical—scientific complex, has been awesome indeed. The pioneers who pitched two tents in the desert could never

in their wildest imaginations have foreseen the world-renowned pilot center now functioning at Duarte.

What deeply concerned them was that the spirit, which guided their undertaking, should be zealously perpetuated. Successive generations of auxiliary members and supporters have kept faith with the heritage they handed down. It encompassed the responsibility of men and women of good will to lift disease-stricken victims from the depths of despair to the heights of hope.

The theme of this Convention stresses the role of the City of Hope in furthering love and life. An ancient Greek physician, Hippocrates, expressed it well—"There can be no love of humanity without a love of healing; there can be no love of healing without a love of humanity."

We, the people of the City of Hope, are passionately committed to two basic pursuits:

First, to an ideology which upholds the preciousness of each person, a compassion for the less fortunate, and the oneness of the family of mankind.

Second, to the belief that health is a human right for patients coming to our doors, . . . for patients everywhere who would benefit by piloting research.

Seven decades of history document the enormous contributions to these objectives by those associated with the City of Hope. The task was never easy. Year after year it has been a valiant struggle to spread our ideas and ideals to every community in the nation. Against overwhelming odds, we have established a powerful arsenal in our war on two fronts . . . against the spiritual catastrophe of man's inhumanity to man . . . against the physical catastrophe of crippling and killer diseases. We can say with pride that we are an ever-growing army, moving onward to victory. What has enabled us to forge ahead is a dedication to a vision of things as they could be, rather than as they are.

In my Keynote Address and in the sessions of the next several days you will hear a great deal about our march forward in the past two years. These accomplishments fulfilled the mandate of the delegates to the 1981 Convention. They were brought into being by the human and material resources mobilized by our auxiliary membership.

At this biennial gathering, you too will have the distinctive opportunity to make history, to accept the challenge of new programs, to enhance the strength and inspiration of a greater City of Hope.

OUR PATIENT SERVICES

For more than a decade, medical costs have been skyrocketing. Not even declining inflation has affected this trend. The City of Hope, throughout this period, has struggled valiantly to keep up with its pace. Simultaneously, as a pilot medical center, it has expanded its programs, professional staff, physical facilities and equipment. It was a heavy burden and our auxiliaries responded nobly to the call for millions of more dollars.

The recession aggravated the health crisis in the nation generally and for the City of Hope in particular. Large sectors of the population cannot afford the expensive care required for illnesses. They include the destitute, the elderly, the children, the unemployed and their dependents who have lost health insurance coverage, even some earning more than an average salary. The free, personalized, quality treatment at our Medical Center became a magnet of hope for such patients. Consequently, our outpatient and inpatient census rose by 40 percent in these troubled times.

The drain on our finances was compounded by cutbacks in government reimbursements to hospitals for Medicare and Medicaid. Our Board of Directors has been calling upon auxiliaries in this emergency, and the response has been impressive and heartwarming. Adversity has been a spur to intensified achievement throughout the existence of the City of Hope.

It should be of deep interest to you that the state of affairs I described has in no way interrupted creativity and innovation in our medical services. Great strides were made at the hospital in developing new and significant approaches to surgery, radiation, chemotherapy, technology, nutrition, rehabilitation, emotional support teams, and the broadened use of outpatient facilities.

The quantity and quality of such piloting approaches have reinforced our identity as a "hospital with a soul" and as a "think tank for other hospitals." We have earned a position in the forefront of medical advance.

OUR CONSULTATION SERVICES

The specialized skills of our Medical Center are not confined to our own patients. Thousnds of patients, under care of private physicians and medical institutions, have benefited by the second opinions of our staff. These requests have come from all parts of America and from foreign countries as well. Such consultations have given reassurance regarding the diagnosis and treatment of illnesses. They have provided peace of mind to patients and their families.

OUR RESEARCH ENDEAVORS

The scientific papers emerging from our laboratories and staff during recent years can be characterized as a "knowledge explosion." Some 800 papers, reflecting original findings and discoveries, were published in international professional journals during the past two years. The work of these basic and clinical researchers is uncovering the mysteries of the biological processes, making possible improved prevention, detection, diagnosis, and treatment; bringing closer the day when many diseases will become faint memories rather than haunting specters. This has not occurred by happenstance. Outstanding talent has been recruited and substantial resources organized to fulfill our role as a pilot center, seeking to influence medicine and science everywhere. It is an uncontestable fact that yesterday's research is today's bedside treatment and tomorrow's cure.

In recent months all of us have taken satisfaction in the public attention given to breakthroughs by City of Hope scientists. It should be kept in mind that this is only the "tip of the iceberg." Radio, television and the press have their own limited view as to what is interesting to the average person. The hundreds of other findings from our laboratories, which are not deemed "sensational" by the mass media, have been enthusiastically welcomed by scientists here and abroad. They give impetus to further exploration of the unknown.

Research institutions throughout the nation report a bleak picture as to their funding. Reduction of grants to existing programs by government agencies has been continuous. I am delighted to inform you that support of our Research Institute, in the face of these conditions increased by millions of dollars.

This tribute to the caliber of our scientific efforts has come from a variety of sources. As usual, our auxiliaries were on the front line. Government agencies subsidized a number of our new programs. Private foundations and affluent individuals came to our aid. Giant steps towards the security of our endeavors in the life sciences are being assured by endowment funds from generous benefactors such as Arnold and Mabel Beckman, and Sadie and Norman Lee. Future expansion is guaranteed by construction gifts from Arthur and Bernice Shapiro, Lee Graff and the Conrad Hilton Foundation. As Mae West once said, "Too much of a good thing is wonderful."

OUR AUXILIARIES

The lifeline of the City of Hope is our auxiliary movement. It now embraces a far-flung family of 489 affiliates in 213 cities and in 31 states. The income from these groups in 1981-1983 is larger than ever before. It is true that auxiliary funds do not constitute the largest portion of our budgetary dollars. Of greater import are the ramifications of the support of auxiliary members:

They have been the eyes, the ears, and the mouths of the City of Hope in their communities.

They have conveyed a fervent belief in the City of Hope which has inspired an ever-growing response to our appeals.

They have been the decisive element in gearing the direction of our lifesaving endeavors.

They have been the fountainhead for the vision and democratic framework of the City of Hope.

What auxiliaries do on a day to day basis is sometimes viewed as routine. Let us never forget its grandeur and scope. This is pointed up by its portrayal from as objective a source as the United States government. Auxiliary members received due praise when the Bicentennial Celebration, several years ago, selected the City of Hope as the only Medical Center in a roster of 200 diverse institutions representing the best traditions of the nation. The "Voice of America" broadcast to foreign lands lauded the underlying "people helping people" concept of our auxiliaries as American democracy in action.

OUR INCOME

We anticipate that our operating income for the past two years will be $150,000,000. This sum equals the total budget of the City of Hope in the first 57 years of its existence. But do not linger too long on these figures. You shortly will be asked to give your approval to a budget which dwarfs this amount.

OUR LEADERSHIP

Leadership in any organization is most vital to its functioning and growth.

The mission of the City of Hope demands many attributes, including charisma, ability, talent, singlemindedness of purpose, and dedication.

The uninterrupted continuity of distinguished volunteer and staff leadership in our organization has been little short of miraculous. Would that I could express appreciation with a blare of trumpets to our current leaders:

To Mike Hersch, an outstanding President;

To the devoted and capable members of our National Board of Directors;

To Past Presidents Louis Tabak, Mannie Fineman and Percy Solotoy;

To Associate Executive Director Sanford Shapero, Executive Medical Director Dr.

Charles Mittman, and Medical Center Administrator Tom Galinski;

To you delegates and the hundreds of presidents and officers who have given so fully of yourselves; and

To all our auxiliary members, each and everyone a key leader in our humanitarian crusade.

THE ROAD AHEAD

We have designated the eighties as a "decade of decision." This refers to our activities in two fields of endeavor:

In advancing health. This is a time when the pursuit of excellence by our physicians and the findings of City of Hope scientists and others give promise of a major victory over one or more of the diseases which plague the human race.

In advancing humanism. This is a time when the withdrawal of government support for the "vulnerables" spreads misery and anxiety throughout the land. We vigorously champion the Biblical concept that we are our "brothers' keeper." We refuse to accept the mark of Cain, who denied this. Our ideology is firmly rooted in a brotherhood of man.

Our success will depend in great measure on the rallying of many allies to our cause. That is why the workshops at this Convention will not deal with fundraising but with membership and organizational techniques.

You delegates must go back to your communities with our message. When we proclaim love and life on our banners, we are calling for a renunciation of indifference and non-involvement, for ever-greater commitment to our ideals . . . yes, for beating back the forces of hate and death.

Let your neighbors, friends and business colleagues know that association with the City of Hope brings out the best in human beings—makes us extraordinary people, engaged in extraordinary endeavors, to attain extraordinary goals. This 70th Anniversary Convention will give courage and strength to all who labor for the well-being of men, women and children—wherever they live.

By our words and deeds we can win the hearts, the minds, and the souls of the people of America. Let us proclaim far and wide that life on this earth is a valuable inheritance. It is our obligation to make it meaningful, healthy, happy and hopeful—for our sake and that of generations to come.

OLDER AMERICANS: A NATIONAL RESOURCE

Mr. CRANSTON. Mr. President, America is aging. An increasingly large percentage of Americans are living longer and our national fertility rate is declining. In a few short decades, the number of Americans over 65 will constitute fully one-fifth of the Nation's population.

We need to focus on the implications of these demographic changes. We must alter some of our basic—but unsound—attitudes toward older persons. Negative stereotypes must be replaced with positive perceptions and we must provide every American maximum opportunity to participate in and contribute to our national growth and prosperity regardless of chronological age.

Our task is to build a society in which the abilities, aspirations, and needs of persons of all ages are appropriately met; where older Americans are afforded a wide choice of how to live their lives; and where the contributions—both economic and social—made by older Americans are recognized and valued. To achieve this task, we must understand the changing nature of our population and the responses that will be needed to meet the challenges that lie ahead.

I should like to take this opportunity to review some of the relevant demographic data and outline my thoughts on the implications of these changes.

CHANGING POPULATION

Nearly 25 million Americans alive today are 65 years of age or older. They represent more than 11 percent of our population. One in every nine Americans is 65 or older, compared to only 1 in every 12 in 1950.

This 65 and over group is increasing at a rate twice that of the general populace. By the year 2000, the population of the United States will have more than tripled in just 100 years. But by then the number of people 65 and older will have increased 10 times—to around 32 million people.

Staggering though these figures are, they pale in comparison to the demographic changes that lie further ahead. By the year 2030, nearly 1 in 5 will be 65 or over—almost 56 million Americans.

These changes result principally from the tremendous success of medical science in extending life expectancy. The average child born in the United States at the beginning of this century could expect to live to age 47. By 1978, the average life expectancy at birth had risen to almost 74. Life expectancy at upper age ranges has also increased significantly. In 1900, a 65-year-old could look forward to roughly another 12 years of life; today, life expectancy at age 65 is over 16 years and the average person turning 65 in 1983 can expect to live into his or her eighties.

Indeed, much of the growth in the 65-and-over population has been at the upper age range. While the older population generally increased 23 percent from 1970 to 1980, the number of individuals 85 and over increased 60 percent. During the next 20 years, the number of those 65 or over is expected to go up another 28 percent, while the number of those 75 or over is likely to increase 53 percent. The number of those extremely old—85 and older—will rise an astonishing 64 percent. Of the estimated 7-million increase in older population likely to occur between 1980 and 2000, 5 million—almost three-fourths the total—will be age 75 and over.

The result will be a tidal wave of change in the nature of our population. And we have done little of the long-range planning and thinking needed to prepare for it.

Yet, how we prepare for and deal with our aging population is one of the most important issues confronting the Nation as we move toward the 21st century. Will we continue to exclude millions of older Americans from the mainstream of economic and social activities and drive them into forced idleness? Or will we utilize their capabilities, talents and experience to help revitalize and rebuild the American economy?

Despite the growing numbers of older Americans and lengthening life spans, statistics show a marked decline in the labor force participation of older workers. In 1950, 46 percent of the men 65 and older were still in the workforce. By 1980, the percentage had dropped to 19 percent. Studies have indicated that mandatory retirement rules and fiscal incentives for early retirement in many pension plans have been significant factors in determining whether or not an older worker remains in the labor force. Although numerous polls have shown that an overwhelming percentage of older Americans would like to continue to work after age 65, public and private policies have combined to squeeze them out of the labor force.

The waste of our human resources resulting from mistaken attitudes and policies toward older Americans has been costly both to the individuals and to the Nation. We cannot afford to relegate 20 percent of our Nation to a dependent, nonparticipating status. Demographic forces, if not moral imperatives, will demand that we reassess and revise the policies that exclude, devalue, confine, patronize, and waste the energies of older Americans. At a time when we must rebuild and revitalize our economy, older Americans are a resource we cannot afford to squander. We must make more productive use of the talent, experience, and expertise of the older segment of our population, especially when declining fertility rates foreshadow significant labor shortages ahead.

And we must begin to appreciate more fully the contributions older Americans can and do make to the fabric of our society, to the transmission of values from one generation to the next, and to the collective wisdom and knowledge of our Nation.

We have unwisely accepted chronological age as the criterion for assessing both the capabilities and the needs of older Americans. Public and private policies seem to assume that on an individual's 65th birthday an instant metamorphosis takes place and a functioning social participant is transformed into an enfeebled dependent.

But it has beocme increasingly clear that that chronological age has only limited utility for determining individ-

ual capabilities and needs. New evidence reveals the continued competency and strengths of older Americans. Negative stereotypes of aging are beginning to be replaced by new and more positive attitudes.

The boundaries of old age itself are changing dramatically. Biomedical researchers are probing deep into the mysterious biological activity—the breakdown and mutation in cells and molecules—that we call the aging process. They are on the brink of major advances—the fruits of which may well be realized before the end of this century—that will retard the degenerative ailments of old age, expand the productive middle years, and substantially extend the normal lifespan. The social and economic dependency now associated with aging may become a diminishing problem in the future.

Older Americans do not constitute a homogeneous group; individuals of the same chronological age have widely varying capacities. Moreover, there are important distinctions between the "young-old"—whose continued integration into the mainstream of the Nation's economic, social, and political life should be a primary focus in the years ahead—and the "old-old." This latter group runs a far greater risk of functional impairments, and what they need most are services to counteract their increased dependence and reduced capability.

A significant number of older Americans today—especially women and minorities—lack essential work skills as a result of decades of discrimination, poverty, unemployment, and underemployment, and limited education and training. Yet without a job or some other form of support they are not able to maintain a decent standard of living. Poor health is also a problem; some individuals deteriorate more rapidly in the aging process than others. We have an obligation to provide them with adequate protection and services. Indeed, lack of adequate income and supportive services can contribute to a decline in health and self-sufficiency, thereby increasing the cost of the services needed.

Available public resources can be concentrated on those who are not self-sufficient and need assistance if older Americans who want to work are allowed to work. And the added revenues produced by working older Americans will help meet many of society's needs, including those of dependent older Americans.

Are we ready to change the fundamental way in which society views and deals with older Americans? Polls show that older Americans reject the role that society has created for them. Overwhelmingly, older Americans say they want to continue to be a part of the mainstream of American life, to continue to participate in and contribute to our Nation's growth and productivity. We need to make these opportunities available to older Americans.

ECONOMIC NEEDS OF OLDER AMERICANS

Fear of destitution in old age has been a major concern throughout history. It is a fear that is well-founded; for centuries, old age has been linked with poverty. In this country, well into the 20th century, elderly persons were largely dependent upon their own or their families' resouces or the charity of their neighbors or local communities.

In America, it was not until the Great Depression of the 1930's, with its massive unemployment and pervasive poverty, that there was an organized effort to provide income security for aged individuals.

The establishment of social security marked a new era for Americans. Workers—and their employers—purchased "social insurance" by contributing to the social security trust fund. Upon loss of earnings at retirement or due to a disability that prevented working, they were entitled to benefits; upon the worker's death, their dependents become entitled.

Social security was not expected to provide all the income retired people needed to live on but only a floor of minimum protection. But today it is the largest source of income for older Americans. Even with social security, millions live in poverty. Without social security, millions more would be destitute.

Despite substantial progress since social security was established, particularly in the sixties and seventies, poverty and old age continue to be closely associated. The incidence of poverty among persons aged 65 and over declined from 35.2 percent in 1959 to 14.6 percent in 1974, primarily because of improvements in social security benefits, the overall gains in the standard of living, and such other factors as development of employer-sponsored private pension programs.

But in the late seventies, the percentage of impoverished elderly Americans began to increase. By 1981, approximately 4 million elderly Americans—slightly more than 15 percent—lived below the poverty line—then $4,359 for a single individual over 65—compared to 11 percent of the adults under 65. The 1982 poverty figures released this week by the Census Bureau indicate a slight decline in the poverty rate for individuals over 65 to 14.6, but that rate continues to exceed the poverty rate for adults under 65—12.3 percent for 1982.

In 1981, approximately 6 million people over 65—roughly 26 percent of all older Americans—live just above the poverty line as "near poor." They subsisted within $90 a month of poverty. Only 13 percent of Americans 65 and over had total annual incomes above $15,000 compared to almost 30 percent of those age 15 to 64.

The overall statistics on the economic status of older Americans also hide wide discrepancies among different segments of the older population. Seventy-two percent of older Americans living in poverty are women. Sixty-three percent of all older women live alone, and 60 percent of them rely upon social security as their sole source of income. Old age hits minorities hard as well as women. The poverty rate among Hispanics—25.7 percent in 1981—is nearly twice that of the white aged—13.1 percent in 1981—among elderly blacks—39 percent in 1981—it is triple the rate.

SOCIAL SECURITY

For most old-age beneficiaries, social security is the single most important source of income, and for many it is the only way to avoid absolute poverty. But social security is important to every American, regardless of age.

Social security protects current workers against the economic losses of disability. It helps their survivors in the event of the worker's death. And it defends against economic hardship in old age. Social security also immediately benefits many current workers by helping support elderly members of their families—a benefit not often recognized, but a substantial one for young families with limited resources.

Every American has a stake in the existence of a strong and dependable social security system. Social security covers virtually every member of our society—95 percent of American workers. Its universality is one of its greatest strengths and is the primary source of its widespread popular support.

The stability of the system rests upon intergenerational trust: Workers of one generation pay into the system to support current retirees with the expectation that when it is their turn to retire, future workers will do the same for them.

Unfortunately, many young workers today are fearful that social security may not be there for them when they need it.

It is absolutely essential to restore and to maintain public confidence in the social security system. To achieve this, it has been critical first of all to reaffirm our commitment to the program and to confirm its basic soundness. True, the social security system has been facing some very serious financial problems. But it is important to recognize that these problems have been created almost entirely by outside forces and not by any basic structural weakness in social security itself.

The so-called short-term problem which social security faced over the past several years was basically a cash-flow problem generated by the dismal conditions generally afflicting our

economy. The social security trust fund is very sensitive to fluxuations in the economy. Every 1-percent increase in the unemployment rate reduces revenues to the trust fund by about $2 billion. Every 1-percent increase in the rate of inflation has meant additional benefit expenditures in the range of $1.5 billion. The combination of high unemployment and high inflation over the past several years has been devastating to the trust fund as income has dropped and outgo increased.

Similarly, the so-called long-term problems which faced the social security system arose from factors outside the system. Demographics are the culprit here. Increased life expectancy and the declining fertility rate had been projected to lead to a serious imbalance in the ratio of workers to retirees after the turn of the century.

Although both the short-term and the long-term problems required modifications in the social security system, they in no way warranted fundamental changes in the program. Indeed, earlier this year the Congress and the President agreed to a social security reform package designed to resolve the short- and long-term financing problems of the system without undermining the philosophical underpinnings of social security or cutting away at its basic benefit structure.

The legislation enacted—Public Law 98-21—was a compromise, and, like most compromises, contained some provisions that are not as desirable as others. But on balance, it represented a combination of moderate changes which spread the burden of shoring up social security among all those who have an interest in maintaining a strong, stable system—both retirees and workers alike. The enactment of this legislation represents the continued commitment of our Nation to maintaining social security for those now dependent upon the program, their children, and their children's children.

There are, however, further steps that must be taken if the new law is to be implemented in an equitable fashion.

The social security reform legislation deals with the long-term imbalance of the social security system principally through the provisions which raise the age of retirement at the full benefit level from age 65 to age 67. These changes will begin to take place gradually after the turn of the century. Retirement at age 62 or 65 will still be possible, but, by the year 2027, benefit levels will be reduced for retirement before age 67. This change is consistent with the greater life expectancies enjoyed by Americans since the social security system was first established. However, it is important to recognize that the aging process affects individuals differently and that many individuals, particularly those who have been engaged in heavy manual labor, may not have sufficient good health to continue working. Adequate protections must be established between now and the year 2000, when the increases in the retirement age begin to take effect, for those individuals whose poor health will not permit longer working careers.

Additionally, much remains to be done to help assure that employment opportunities are actually available to the older workers who will be affected by the change in the retirement age.

PROVIDING EMPLOYMENT OPPORTUNITIES FOR OLDER WORKERS

Making it possible for older workers to stay in the labor force will require substantial changes in a number of current polices and practices that encourage early retirement, discourage delayed retirement, and deter employers from instituting the flexible work arrangements that many older workers need.

In the past, the social security system itself discouraged continued work activities by tilting benefit levels in favor of early retirement and against delayed retirement. The earnings limitation in social security has also discouraged continued work activities by reducing benefits for those with earned income above certain limits.

The new social security law deals with both of these problems: the benefit computation formula has been adjusted to provide higher benefits for delayed retirement, and provisions were included to ease the impact of the earnings limitation. These are changes I advocated in legislation I first introduced in the 97th Congress as S. 3010, and reintroduced in this Congress as S. 2. Earlier this week I reintroduced the remaining provisions of S. 2 in three separate bills, S. 1751, S. 1752, and S. 1753.

Other steps must be taken as well to eliminate work barriers confronting older Americans.

Federal law permits employers to compel workers to retire at age 70. Various provisions of the Age Discrimination in Employment Act deny full protection to certain employees. Private pension programs are permitted to discriminate in certain ways against older workers. Some programs do not credit worker years to an employee's pension beyond a set retirement age. Others provide that an employee who continues working in a particular industry or for a former employer beyond a certain age will forfeit all pension benefits.

These practices should be changed. Federal laws relating to private pension programs should be modified so that older workers will find it more economically rewarding to stay on the job. Mandatory retirement ought to be eliminated altogether. Tax Code changes should be implemented to make it more attractive for employers to provide part-time employment opportunities to older workers. My legislation, S. 2, contains proposals to achieve each of these goals.

Basically, we ought to be doing everything possible to encourage those who can and want to work to continue to do so. Ultimately, our goal should be to eliminate the presumption that there is a "normal" or "fixed" age for retirement. Rather, we should be promoting a range of options which, while encouraging workers to stay in the work force, allow each American to select the time and manner for retiring that will work best for his or her individual needs.

We need to foster a new perspective on the notion of retirement itself—a perspective based upon a shift from the current concept of abrupt, total withdrawal from the labor force to one of gradual withdrawal where older workers are afforded the opportunity, if they choose, to reduce their work pace, shift to less demanding work roles, or participate in more flexible work schedules.

This type of fundamental change in our basic perspectives toward retirement will not only help resolve the long-term problems facing the social security system, but it can contribute as well to the personal well-being of millions of older Americans and to the economic well-being of our Nation. We need to begin now—well before the changes in the age of eligibility for social security retirement benefits take effect—to revise and update our approach to older workers and retirement.

OTHER ECONOMIC SECURITY ISSUES

Although a major focus needs to be placed upon providing opportunities for able-bodied older Americans to continue their work activities, we must not ignore the economic needs of older Americans who for one reason or another are unable to continue working.

The benefits under programs for needy and disabled older Americans, such as the supplemental security income program (SSI) and VA pension programs, as well as the social security disability program, must be maintained at adequate levels.

Basic social security benefit levels must also be protected, particularly for those individuals who when they do retire are likely to be totally dependent upon social security for their subsistence. Equity for women—who are the most likely to have no alternative resources in their old age—must be achieved in the social security system. I believe that the way to deal with these inequities is through adoption of the earnings sharing concept, and I introduced in the last Congress as S. 3034, and in the 98th Congress as S. 3, legislation to reform the social security system to provide greater equity

for women through the use of earnings sharing. I was pleased therefore when 6 of the 15 members of the National Commission on Social Security Reform also endorsed the earnings-sharing concept as the most promising and direct approach to dealing with the special problems faced by women under the current social security system. I also authored an amendment enacted in the recent social security reform legislation—Public Law 98-21—to direct the Secretary of Health and Human Services to develop an implementation report on the earnings-sharing proposal. This report will be submitted to the Congress by July 1, 1984, and should provide valuable information to assist in further legislative action.

Other steps can and should be taken to help individuals prepare for their retirement or phased-retirement years. Workers should be encouraged to establish individual retirement accounts (IRA's) with more generous annual limits or to contribute to private pension programs to which employers also make substantial contributions. Through a combination of activities, such as increased labor force participation and maintaining adequate benefit levels for income support programs and incentives for increased savings, the historical link between poverty and old age can be substantially broken.

HEALTH ISSUES FOR OLDER AMERICANS

Meeting the health care needs of an expanding aged population will be a major challenge in the years ahead. Nearly 30 percent of the total dollars spent on health care today goes for the care of only 11 percent of the population—those age 65 and older. Public funds cover roughly two-thirds of their health-care costs.

Good health obviously is essential for a full, vigorous, productive life. But though aging brings with it increased likelihood of chronic illnesses, it does not mean that old age need be incapacitating. When asked 69 percent of noninstitutionalized persons 65 or older described their health as either "good" or "excellent." That does not mean that these people are free of health impairments; in fact, almost half of the elderly population indicates having some chronic, limiting health problem. But it does suggest that health problems do not significantly interfere with their ability to function.

There are health differences among individuals of different income levels, marital status, race, and age. For example, nearly 80 percent of those with incomes of $15,000 or more reported being in excellent health compared to 62 percent of those with incomes under $5,000.

One of the most important differentiating factors among older Americans is age itself. As a group, the "young-old"—65 to 75—are relatively healthy and are primarily concerned with protecting their health.

We should have a threefold objective in meeting the health-care needs of older Americans: Preventing debilitating health problems that can be avoided; increasing the functional capacities of individuals suffering from chronic illness; and providing adequate services for those with severe health impairments. And, we must be willing to provide the resources needed to pay for the care necessary to achieve these objectives.

PREVENTIVE HEALTH CARE

It is generally agreed that the greatest gains in health care for older persons will be made by improving the health habits of Americans of all ages. Proper nutrition, healthy lifestyle, identification of high risk individuals, and general public education on ways to reduce health risks are key elements of a preventive health care strategy. Far greater resources need to be devoted to the promotion of preventive health care and healthy lifestyles. This campaign should be focused on all age groups.

Proper nutrition is a cornerstone of preventive medicine. Overconsumption of fats, salt, and sugar contribute to obesity, diabetes, and heart disease among elderly persons. Improved dietary habits established early in life would mean immensely improved health status for millions of people later in life.

Adequate diet is also extremely important during old age. The mental and physical well-being of older persons is particularly susceptible to nutritional factors. Malnutrition is a cause of reversible dementia and is believed to contribute to the changes in bone structure that many elderly individuals experience.

Smoking, overindulgence in alcohol, and lack of physical exercise also have all been linked to major health problems and causes of mortality—heart disease, stroke, and cancer.

Ideally, education about preventive health care should be directed at the young. However, it is almost never too late to benefit from changing an unhealthful lifestyle. For example, 15 years after they quit smoking, exsmokers' mortality rates in all age groups are similar to those of people who never smoked.

Screening and detecting health risks and treating problems before they get worse are cost-effective means of improving health status. For example, identification and treatment of hypertension is highly important in reducing the risk of stroke and heart disease.

Finally, various studies have found that staying active and involved in work or volunteer activities can be directly related to physical and mental well-being.

Nevertheless, aging normally involves an increased need for health services, and the cost of the services will be high if we do not use more cost-effective techniques for meeting these needs.

INSTITUTIONAL CARE

An estimated 10 to 50 percent of nursing home patients today could have been better cared for through alternative types of noninstitutional arrangements. Sadly, it may be difficult now to deinstitutionalize many nursing home residents who, after years of dependency, have no home to return to and are unable to live on their own. We should stop unnecessary—and unnecessarily lengthy—institutionalization of persons whose health-care needs could be better met by community-based services.

Instead, we should devote our resources to making available various alternative forms of care, including home health care—skilled professional care, such as nursing or physical therapy in one's home—and adult day care. Those kinds of alternatives, together with support services, such as transportation, nutrition services either in or outside the home, and homemaker services, make it possible to avoid or shorten institutionalization. Of particular importance are homemaker services—someone to prepare meals, change bed linens, and otherwise assist with the chores of daily living. They help those living alone or with limited mobility to remain in their communities.

Able-bodied older Americans can play a key role in these efforts, as millions now do in programs like the Older Americans Volunteer programs—RSVP and Senior Companions—and the Older American Act title V senior employment program. These programs need to be expanded and replicated throughout the country.

Home-based hospital care, a more elaborate form of home health care, has been offered by some Veterans' Administration medical centers over the past 14 years. The current average daily cost of this care is only $15.73 per patient—a small fraction of the cost of institutional care.

Although the number of individuals served by these various programs has been growing, the resources devoted to them are still miniscule compared to expenditures for institutional care. Nursing home care expenditures constitute roughly 41 percent of the entire medicaid budget whereas only 1.4 percent of medicaid expenditures are devoted to home-health care.

Promoting less costly alternatives to institutional care not only will reduce health care costs for elderly individuals in the long run, but will offer them the dignity of living in their own homes with the independence, self-esteem, and daily interaction with

family and friends that usually are lost with institutionalization.

If we are to promote the use of these alternatives, we must improve and reorganize the mechanisms for providing home care services. At present, services are highly fragmented among at least 80 different Federal programs. Available services and eligibilities vary. Many are targeted on particular people or problems; many overlap. The results are gaps in services, duplication of effort, and public bewilderment.

Finally, we must recognize that despite all alternatives there will always be individuals requiring institutional care. And the cost of that care is staggering. Medicaid now pays about 50 percent of all nursing home bills and these expenditures are increasing at a rate of 16 percent annually—the fastest growing cost in all State medicaid budgets. Seventy-four percent of the States spent more than 40 percent of their total medicaid budgets on nursing home care in fiscal 1978.

This enormous cost makes it all the more imperative that we utilize less-costly, noninstitutional care whenever possible.

For those who cannot do without nursing home care, we must do more to help protect their dignity and well-being and insure they receive decent care. Deplorable conditions in too many nursing homes degrade the quality of life for these vulnerable citizens. Regulatory activities initiated during the past decade, such as unannounced inspections, setting standards, addition of ombudsmen, and patients' rights guarantees, have improved nursing home care. We must strengthen these efforts.

MEDICARE COSTS

The basic source of funding for acute hospital care for older Americans—the part A medicare program funded by the social security payroll tax—is moving rapidly toward serious problems. It is expected to be depleted by the end of this decade, sooner if the economy continues downward and inflation in health-care costs continues unchecked.

Skyrocketing health-care costs, which have been rising at a rate consistently higher than the rate of general inflation, are the problem. In the third quarter of 1982, while the CPI rose 5.8 percent; the medical care component rose 11.4 percent; the hospital room component rose 15.8 percent; and physicians services rose 9.1 percent.

These runaway costs are a drain on our entire economy. Unless we contain them, our tremendous advance in the quality of health care will erode. There are few incentives for the hospital, the physician, or the consumer to conserve health care resources and hold down costs. On the contrary, the system encourages use of high-cost medical interventions and excessive use of hospital resources instead of more economical, noninstitutional forms of health care. It is a problem affecting our entire health care system; the solution must be part of our overall health care strategy. I intend to outline at a future time some of my thoughts on this problem which threatens not only medicare but also our Nation's ability to safeguard the health of all Americans.

GERIATRIC MEDICINE

Relatively few physicians or other health care practitioners are trained in geriatric care. Few medical schools offer courses in the health care needs of elderly individuals, and few medical texts contain information on their health care problems. As a result, these individuals have difficulty finding physicians trained and willing to meet their needs. Clearly we will need better prepared general practitioners, as well as more geriatric specialists, to treat the growing numbers of older Americans. We will also need more geriatric nurse practitioners and other health professionals.

BIOMEDICAL RESEARCH

Finally, one of the most important steps we can take to promote the health of older Americans is to provide adequate resources for basic biomedical research. Basic research into the aging process offers tremendous possibilities for enhancing the quality of life and retarding the aging process itself. Promising research is going on right now into cellular replication, the aging process of organs, and the causes of dementia—the dread disease which afflicts as many as half of those in nursing homes. We are on the threshold of major breakthroughs. Everything that we know—or think we know—about aging may become obsolete.

Unfortunately, funds to support this research have been wholly inadequate. Today, of the $3.9 billion budgeted for the National Institutes of Health, only $82 million, or approximately 2 percent, is budgeted for the National Institute on Aging. We simply must allocate more research dollars to this area.

COMMUNITY, SOCIAL SERVICES, AND EDUCATIONAL PROGRAMS

There are a number of other important programs that can enhance the quality of life for older Americans and help increase the number able to remain independent and self-sufficient.

In many cases, older Americans—particularly those with limited economic resources—are not fully informed about the various programs in their communities to help them meet their most basic needs.

Community outreach programs—many of them funded through the Federal Older Americans Act—play a critical role in reaching isolated older citizens and helping them gain access to essential services such as decent housing, nutrition, and health care. These programs provide information on the services, eligibility, and help in applying to the appropriate agencies for assistance. The federally funded legal services program also plays an important role in helping many indigent older Americans receive the assistance they need to survive and protect their basic legal rights.

The educational system needs to become more responsive to the changing composition of our society and the special needs of older Americans. The concept of lifelong learning should be revitalized. Education is not a process that stops in early life; we must refocus on education as an ongoing part of life at all ages. Many older Americans may want—and need—to explore new and different employment options. Education and employment training and retraining programs will be particularly important to these individuals.

Continued support for all of these programs—along with adequate support for nutrition, shelter, health care, and income maintenance programs for older Americans—is essential.

VOLUNTEER PROGRAMS

Special attention should be paid to the role that volunteer service programs can play in the lives of older Americans. The existing volunteer programs supported by the Federal Government—RSVP, Foster Grandparents, SCORE, and Senior Companions—provide unique opportunities for older Americans to stay active and involved in their communities helping those less fortunate. In many cases, the senior volunteers provide services to other older Americans. In other instances, volunteer programs are focused upon needy children and hence serve an important function as an intergenerational bridge, helping children and older citizens to become acquainted and appreciative of each other.

I strongly believe that these volunteer programs should be fully supported and expanded. I have also long advocated the establishment of a large-scale voluntary national service program that would provide opportunities for Americans of all ages to serve and contribute. Establishment of such a national voluntary service program is often discussed in terms of the opportunities that would be made available to young Americans. Equally important, however, is the impact that such a program might have on older Americans—both those who might participate in a national service program as volunteers and those who might receive assistance from the volunteers.

The potential for older Americans themselves to provide services to their communities and to society in general

must not be overlooked. Indeed, we should be doing everything possible to encourage older Americans to stay active in all aspects of our lives—economic, social, and political.

FULL AND CONTINUING PARTICIPATION

The experience, wisdom, and insights of our older citizens are valuable resources that should not be wasted.

Each generation of Americans has a unique perspective to share. Those who lived through the Great Depression, fought against the forces of tyranny in World War II, or felt the tragedy of Vietnam have special insights growing out of that history. These differing viewpoints can help enrich and diversify the decisions which our Nation, as a democratic society, must make.

Older Americans—and those who will one day become older Americans—need to know and feel they are an integral part of our Nation. They have an important contribution to make to our national dialog—not just on issues of their special interest such as social security, but on matters like world peace, preservation of our environment, and the education of our young. We ought to make a special effort to make sure that the channels of communication remain open to receive the contributions that older Americans can make in all spheres for the betterment of the Nation and the world.

CONCLUSION

We must begin now to build a society in which every American has the opportunity and is given the encouragement, to remain active and productive regardless of age. But first we must put aside the old stereotypes and artificial attitudes that have limited older Americans, driven them into forced idleness, and robbed them of the chance to realize their full potential. We must change the way we think about and act toward older people if we are going to achieve economic growth and increased productivity and maintain our world leadership.

APSA CONGRESSIONAL FELLOWS PROGRAM

Mr. MITCHELL. Mr. President, I should like briefly to speak on the 30th anniversary of the American Political Science Association's congressional fellowship program.

I know many of my colleagues in the Senate have had APSA congressional fellows on their staffs. I have had three fellows since I began to serve in the Senate. Based on my experience, I can understand why some would question the value of such a program.

After all, look at what a fellow does to your office. About December 1, my receptionist is inundated with hopeful fellows who drop off résumés and ask to see my legislative director and administrative assistant. Of all times to come December has got to be the worst. This past year, my staff was swamped with work during the lameduck session. Yet they had to take time out to interview dozens of these applicants before they could make a selection. Then they had no time at all to train the person selected until after the lameduck was over, 1 month later.

And then there is the fellow's knowledge—or should I say lack of knowledge—about how a Senate office works. You and your staff spend time teaching them the issues, your point of view, and so forth. You finally get used to their point of view, their briefing style, their idiosyncracies. They finally learn to write concise memos and then what do they do? They leave after 4½ months—9 if you are lucky. Given all of these hassles, why would anyone want to subject his or her staff to the vicissitudes of having a fellow in the office?

As I stated earlier, however, I have subjected my staff three times to these vicissitudes. I have done so because I am convinced of the value of the program both for Congress and for the country.

First, there is the benefit to the Congress. While these fellows may not know much about how Congress works, they are all extremely well qualified, knowledgeable citizens. Many work for the executive branch and know the ways of the bureaucracy. Others are social scientists, medical scientists, foreign service experts, and even fellows from Europe and Asia. Their special perspective is one which is of great value in a congressional office. Their training and experience and essentially nonpartisan and objective viewpoints offer a convenient sounding board for new ideas. Their enthusiasm and willingness to learn far outweigh their initial ignorance of congressional procedures. Ultimately their contributions far outweigh the initial burdens which they place on the staff.

The advantage of this program extends beyond Congress, however. For these fellows will go back to the executive branch, to their universities, or to their native lands. They will go back with a far better understanding and appreciation of the ways of the legislative branch of Government. They become ambassadors, in effect, who can help to explain to the skeptical public the ways bills are passed, the pressures Members of Congress face and the dedication of Members and their staffs. Given the reputation of Congress, we can use all the ambassadors we can get.

Mr. President, I should like, therefore, to congratulate APSA on the 30th anniversary of this program. I also thank them for the assistance the program has provided to my office and to commend the program to my colleagues.

FEDERAL AGENCY PURCHASES

Mr. STEVENS. Mr. President, I am pleased to join in sponsoring legislation that will at long last require Federal agencies to purchase products from local businesses. When that legislation becomes law, it will be a boon to small business throughout the Nation. In addition, I believe it will prove to be a significant savings to the taxpayers.

At present, Federal agencies are not required to comply with existing General Services Administration regulations that provide for local purchases, even when a better price is offered. The GSA's multiple award schedule program has not worked as well as was hoped. Thus, in many instances, products were purchased at a higher price and lower quality than those available in the open market.

I know of a specific case in Alaska. A local businessman offered to sell supplies to a Federal agency at a lower price than what they were paying to buy the product in the lower 48. But, because of a national policy to purchase from one supplier, that agency turned down the offer. It would be understandable if the needed goods could be purchased for less by dealing with one supplier, but that is not always the case.

This bill initiates several proposals designed to strengthen the small business community by requiring Federal agencies to procure supplies and services from these markets. When the price and quality of goods and services is the same or better than that of comparable products offered under the multiple award schedule program, Federal agencies will be required to purchase from the local markets.

This legislation has two positive aspects:

One, the Federal Government and taxpayers will benefit from the change in purchasing policy. A provision is included in the bill to remove firms from the multiple award schedule program if they have not made any sales under the program over the past 3 years. The Government will save money from not having to negotiate useless contracts. This savings, plus that obtained from buying on the open market, will then be passed on to taxpayers.

Two, new revenues will be sent into the small businesses of the country. Small business has long been the backbone of America's economy. This stimulus provided by purchasing contracts with Federal agencies can only serve to strengthen local economies, which will benefit us all as a nation.

EXTENSION OF TIME FOR ROUTINE MORNING BUSINESS

Mr. BAKER. Mr. President, in a moment, we may begin to transact some routine business that I believe

has been cleared on both sides. In order to provide time for that and also for other Senators who may have business they wish to transact, I ask unanimous consent that the time for the transaction of routine morning business be extended to 3 p.m. under the same terms and conditions.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF BUSINESS

Mr. BAKER. Mr. President, I have a number of items in my folder that are cleared for action by unanimous consent at this time, legislative matters and, perhaps, matters on the Executive Calendar as well. May I inquire of the minority leader if he is prepared to examine these items at this time or would he prefer to do it later on?

Mr. BYRD. Mr. President, I should be happy to proceed at this time.

SENATE JOINT RESOLUTION 103 INDEFINITELY POSTPONED

Mr. BAKER. Mr. President, the first item is to indefinitely postpone Senate Joint Resolution 103 if the minority leader has no objection. That is Calendar Order No. 320.

Mr. BYRD. That is all right.

Mr. BAKER. Mr. President, I ask unanimous consent that consideration of Senate Joint Resolution 103 be indefinitely postponed.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE CALENDAR

Mr. BAKER. Mr. President, I am cleared on this side to take up and consider Senate Resolution 150 if there is no objection on the minority side.

Mr. BYRD. Yes, Mr. President.

Mr. BAKER. May I inquire of the minority leader, since there is quite a list of items here, if I list the items that are cleared for routine action on this side, if he would be prepared to consider the several items en bloc?

The first would be Senate Resolution 150; next would be Senate Concurrent Resolution 59; then House Joint Resolution 297; then S. 1015; then S. 1186; S. 1689; S. 1465; S. 1724; H.R. 2895; and Senate Joint Resolution 136.

Mr. BYRD. Yes, Mr. President, my response to the distinguished majority leader is that I am prepared on this side of the aisle to proceed with all of the items that the majority leader has enumerated, with the exception of one for the moment. That is order No. 324, Senate Concurrent Resolution 50.

Mr. BAKER. Mr. President, I thank the minority leader.

PRINTING OF ADDITIONAL COPIES OF A JOINT COMMITTEE PRINT

The resolution (S. Res. 150) authorizing the printing of additional copies of the joint committee print entitled "Changing Economics of Agriculture: Challenge and Preparation for the 1980's," was considered, and agreed to; as follows:

S. RES. 150

Resolved, That there be printed for the use of the Joint Economic Committee two thousand additional copies of its joint committee print of the Ninety-seventh Congress, second session, entitled "The Changing Economics of Agriculture: Challenge and Preparation for the 1980's".

Mr. BAKER. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

APPOINTMENT OF JEANNINE SMITH CLARK AS A CITIZEN REGENT OF THE SMITHSONIAN INSTITUTION

The joint resolution (H.J. Res. 297) providing for the appointment of Jeannine Smith Clark as a citizen regent of the Board of Regents of the Smithsonian Institution, was considered, ordered to a third reading, read the third time, and passed.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

LICENSING OF VESSEL "LA JOLIE" FOR COASTWISE TRADE

The bill (S. 1015) to clear certain impediments to the licensing of the vessel *La Jolie* for employment in the coastwise trade, was considered, ordered to be engrossed for a third reading, read the third time, and passed, as follows:

S. 1015

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, notwithstanding the provision of section 27 of the Merchant Marine Act of 1920 (46 U.S.C. 883), or any other provisions of law to the contrary, the Secretary of the department in which the United States Coast Guard is operating shall cause the vessel *La Jolie* (Michigan registration number MC 2780 LB) owned by Hugh Lewis, of Union Lake, Michigan, to be documented as a vessel of the United States, upon compliance with the usual requirements, with the privilege of engaging in the coastwise trade so long as such vessel is owned by a citizen of the United States.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

LICENSING OF YACHT "DAD'S PAD" FOR COASTWISE TRADE

The bill (S. 1186) to clear certain impediments to the licensing of the yacht *Dad's Pad* for employment in the coastwise trade, was considered, ordered to be engrossed for a third reading, read the third time, and passed, as follows:

S. 1186

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That notwithstanding the provisions of section 27 of the Merchant Marine Act of 1920 (46 U.S.C. 883), or any other provisions of law to the contrary, the Secretary of the department in which the United States Coast Guard is operating shall cause the vessel *Dad's Pad* (official numbered 549526) owned by John C. Sciacca, of Plaistow, New Hampshire, to be documented as a vessel of the United States, upon compliance with the usual requirements, with the privilege of engaging in the coastwise trade so long as such vessel is owned by a citizen of the United States.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

LICENSING OF VESSEL "ENDLESS SUMMER" FOR COASTWISE TRADE

The bill (S. 1689) to clear certain impediments to the licensing of the vessel *Endless Summer* for employment in the coastwise trade, was considered, ordered to be engrossed for a third reading, read the third time, and passed, as follows:

S. 1689

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, notwithstanding the provisions of section 27 of the Merchant Marine Act, 1920 (46 U.S.C. 883), or any other provision of law to the contrary, the Secretary of the department in which the United States Coast Guard is operating shall cause the vessel *Endless Summer,* owned by the Commonwealth of Virginia, to be documented as a vessel of the United States, upon compliance with the usual requirements, with the privilege of engaging in the coastwise trade so long as such vessel is owned by a citizen of the United States.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

CHARLES A. HALLECK FEDERAL BUILDING

The bill (S. 1465) to designate the Federal Building at Fourth and Ferry Streets, Lafayette, Ind., as the "Charles A. Halleck Federal Building," was considered, ordered to be engrossed for a third reading, read the third time, and passed, as follows:

S. 1465

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Federal Building at Fourth and Ferry Streets, Lafayette, Indiana, shall hereafter be known and designated as the "Charles A. Halleck Federal Building". Any reference in any law, map, regulation, document, record, or any other paper of the United States to such building shall be deemed to be a reference to the "Charles A. Halleck Federal Building".

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

HAROLD L. RUNNELS FEDERAL BUILDING

The Senate proceeded to consider the bill (S. 1724) to designate the Federal Building in Las Cruces, N. Mex. as the "Harold L. Runnels Federal Building"; which had been reported from the Committee on Environment and Public Works with an amendment:

On page 1, line 2, strike "200 Grig", and insert "200 East Griggs",

S. 1724

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the building located at 200 East Griggs Street, Las Cruces, N. Mex., known as the Federal Building, shall hereafter be known and designated as the "Harold L. Runnels Federal Building". Any reference in a law, map, regulation, document, record, or other paper of the United States to that building shall be deemed to be a reference to the "Harold L. Runnels Federal Building".

Mr. BINGAMAN. Mr. President, as a cosponsor of S. 1724, the bill to designate the Federal Building in Las Cruces, N. Mex., as the Harold L. Runnels Federal Building, I welcome Senate action today.

Harold Runnels served with distinction as the Congressman from New Mexico's Second District for many years, and his service to the State of New Mexico as a Congressman and a State legislator reflect his commitment to the citizens of New Mexico and the country.

Congressman Runnels was a man who cared about the people he served and effectively represented their interests, and the interests of the country. His untimely death cut short a splendid record of public service.

It is a fitting tribute that the Federal Building in Las Cruces be named for one of New Mexico's most dedicated Representatives. I know that his wife Dorothy, his family, and his many friends and admirers will greatly appreciate this recognition of Harold Runnels in the State he served so well.

The amendment was agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

PHILLIP BURTON FEDERAL BUILDING AND U.S. COURTHOUSE

The bill (H.R. 2895) to designate the Federal Building and U.S. Courthouse at 450 Golden Gate Avenue, San Francisco, Calif., as the Phillip Burton Federal Building and U.S. Courthouse, was considered, ordered to a third reading, read the third time, and passed.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

VOLUNTEER FIREFIGHTERS RECOGNITION DAY

Mr. BAKER. Mr. President, I ask for immediate consideration of a joint resolution, Senate Joint Resolution 136.

The PRESIDING OFFICER. The joint resolution will be stated by title.

The legislative clerk read as follows:

A joint resolution (S.J. Res. 136) to recognize "Volunteer Firefighter Recognition Day", as a tribute to the bravery and self-sacrifice of our volunteer firefighters.

The PRESIDING OFFICER. Without objection, the joint resolution will be considered as having been read the second time at length, and the Senate will proceed to its consideration.

The Senate proceeded to consider the joint resolution.

Mr. GLENN. Mr. President, I am pleased to sponsor Senate Joint Resolution 136, I am also pleased that 32 of my Senator colleagues have joined me as cosponsors of the resolution. I thank the distinguished chairman and ranking minority member of the Judiciary Committee for handling the resolution in a very efficient and expeditious manner.

This measure would designate August 20, 1983, as National Volunteer Firefighters Recognition Day. It would also authorize the President of the United States to issue a proclamation calling for the observance of such day with appropriate programs, ceremonies and activities.

I am proud to pay tribute to the bravery and self-sacrifice of our volunteer firefighters. I can think of no better way of doing so than setting aside a day in their honor. In this way we can show our appreciation for their courage and the excellent job that they have done to save lives and property from the devastation of fire.

Volunteer firefighters comprise the bulk of our firefighting force in this country. The National Volunteer Firefighters Council place their number in excess of 1½ million; 4 out of 5 firefighters are volunteers. Without their service, much of America would be without adequate fire protection.

I also commend volunteer firefighters for the important role they play in the fight against arson. Arson is a deadly, billion-dollar crime that each year takes the lives of a thousand people and injures thousands more. It also annually causes $1.9 billion in direct property losses and about 8 times that amount in indirect losses.

The volunteer firefighters battle against fire and arson has not been waged without great cost. In 1982, 68 volunteers were killed in the line of duty and over the past 5 years 337 have lost their lives fighting fires.

Mr. President, I call upon the Senate today to quickly consider and pass Senate Joint Resolution 136.

A SALUTE TO NEW JERSEY VOLUNTEER FIREFIGHTERS

Mr. BRADLEY. Mr. President, I am pleased to join Senator GLENN in this tribute to the volunteer firefighters by declaring August 20 as National Volunteer Firefighters Recognition Day.

In particular, I would like to honor the volunteers in New Jersey who regularly give their time and risk their lives to protect more than 900 communities in our State. They are our first line of defense against fires both in communities and in the millions of acres of forests and farmland. Moreover, they have also become a vital resource in times of disasters like toxic waste spills and other disasters.

Their help has been given freely but not without great personal cost—in time away from their families and, unfortunately, even in injury and loss of life. Nationally, in 1982, 68 volunteers died in the line of duty—over the last 5 years 337 volunteers have lost their lives.

The volunteer firefighter exemplifies the strength of American communities and the willingness to help one's neighbor. This has been a powerful strain in our history from the time of our earliest settlers. In fact, the first volunteer fire department was organized by Benjamin Franklin in 1736.

It is fitting that the country recognize our debt to those who have dedi-

cated themselves to protecting our safety and welfare.

The PRESIDING OFFICER. The question is on the engrossment and third reading of the joint resolution.

The joint resolution (S.J. Res. 136) was ordered to be engrossed for a third reading, read the third time, and passed.

The preamble was agreed to.

The resolution, with its preamble, follows:

S.J. RES. 136

Whereas over 80 per centum of the firefighters in the United States are volunteers who selflessly protect our lives and property;

Whereas three hundred and thirty-seven volunteer firefighters have lost their lives in the line of duty during the past five years, with sixty-eight such deaths occurring in 1982 alone;

Whereas volunteer firefighters expose themselves to physical risks, including long-term health risks such as coronary disease, with no financial remuneration;

Whereas fire departments comprised only of volunteers protect a large percentage of the rural townships, hamlets, and farms within the United States; and

Whereas firefighters attached to such departments spend time and energy, in addition to that spent fighting fires, to provide fire prevention instruction and other services to their communities: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That August 20, 1983, is designated as "National Volunteer Firefighters Recognition Day" and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe such day with appropriate programs, ceremonies, and activities.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AUTHORIZATION FOR HYDROELECTRIC PLANTS

Mr. BAKER. Mr. President, I propose to ask the Chair to lay before the Senate S. 268, which is Calendar Order No. 210, if the minority leader is agreeable.

Mr. BYRD. I have no problem with that, Mr. President.

Mr. BAKER. I ask unanimous consent that the Senate proceed to the consideration of S. 268.

The PRESIDING OFFICER. Is there objection?

The clerk will state the bill.

The assistant legislative clerk read as follows:

A bill (S. 268) to authorize the Secretary of the Interior to construct, operate, and maintain hydroelectric powerplants at various existing water projects, and for other purposes.

The Senate proceeded to consider the bill which had been reported from the Committee on Energy and Natural Resources with amendments, as follows:

On page 2, line 7, strike "(b), (d), (c), or (f)", and insert "(c) or (g)";

On page 2, line 20, after "in", insert "section 4 of";

On page 2, line 23, after "to", insert "section 4 of";

On page 2, line 24, after "maintain", insert "contractural";

On page 3, line 1, after "construction", insert "or uprating";

On page 3, line 8, after "maintain", insert "contractural";

On page 3, line 11 through and including line 6 on page 5, insert the following:

SEC. 4. (a) Whiskeytown powerplant unit, Central Valley project, California, consisting of a turbine generator unit of three thousand kilowatts on the outlet works of Whiskeytown Dam.

(b) Yellowtail Afterbay powerplant unit, Pick-Sloan Missouri Basin program, Montana, consisting of a turbine generator unit of ten thousand kilowatts on the outlet works of Yellowtail Afterbay Dam.

(c) Red Bluff powerplant unit, Central Valley project, California, consisting of four turbine generator units of two thousand five hundred kilowatts each at Red Bluff Diversion Dam.

(d) Palisades Powerplant enlargement, Palisades project, Idaho-Wyoming, consisting of one or more turbine generator units so as to increase the powerplant capacity by ninety thousand kilowatts.

(e) Anderson Ranch powerplant unit, Boise project, Idaho, consisting of a turbine and generator unit to increase the powerplant capacity by thirty thousand kilowatts.

(f) Minidoka powerplant rehabilitation and enlargement, Minidoka project, Idaho-Wyoming, consisting of two turbine generator units of fifteen thousand kilowatts each in replacement of existing units one through six.

(g) Guernsey powerplant enlargement, North Platte project, Wyoming, consisting of one turbine generator unit to increase the powerplant capacity by fifteen thousand kilowatts.

On page 6, line 10, after "to" insert "section 4 of";

On page 6, strike line 15, through and including line 8 on page 7, and insert the following:

(b) The Federal powerplants constructed pursuant to section 4 of this Act shall be financially integrated with and the power marketed under rate schedules in effect for the several programs as follows:

(1) Whiskeytown and Red Bluff powerplant units shall be marketed through the Central Valley project power marketing program;

(2) Yellowtail Afterbay powerplant unit shall be marketed through the Pick-Sloan Missouri Basis program power marketing program;

(3) Palisades powerplant enlargement, Anderson Ranch powerplant unit, and Minidoka powerplant rehabilitation and enlargement shall be marketed through the Federal Columbia River Power System; and

(4) Guernsey powerplant unit shall be marketed through the Western Division, Pick-Sloan Missouri Basin program power marketing program.

On page 8, line 1, after "in", insert "section 4 of";

On page 8, line 8, after "in", insert "section 4 of";

On page 8, strike line 15, through and including line 18 on page 9, and insert the following:

SEC. 8. (a) There are hereby authorized to be appropriated beginning October 1, 1983, to the Secretary of the Interior for construction of the powerplants authorized in section 4 of this Act the amounts set forth in subsection (b), on the basis of October 1983 price levels, plus or minus such amounts as may be justified by reason of ordinary fluctuations of construction cost indexes applicable to the type of construction involved herein. There are also authorized to be appropriated to the Secretary of Energy such sums as may be necessary for the purposes of section 2 and 3 of this Act, and to the Secretary of the Interior such additional sums as may be necessary for the operation and maintenance of the Federal powerplants authorized in section 4 of this Act.

(b)(1) Whiskeytown powerplant unit, $3,780,000.

(2) Yellowtail Afterbay powerplant, $25,600,000.

(3) Red Bluff powerplant unit, $42,100,000.

(4) Palisades powerplant enlargement, $76,000,000.

(5) Anderson Ranch powerplant unit, $14,317,000.

(6) Minidoka powerplant rehabilitation and enlargement, $73,437,000.

(7) Guernsey powerplant enlargement, $22,337,000.

So as to make the bill read:

S. 268

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Interior, acting pursuant to the Federal reclamation laws (Acts of June 17, 1902, 32 Stat. 388 and Acts amendatory thereof and supplemental thereto), is authorized to construct, operate, and maintain hydroelectric powerplants at existing reclamation project facilities at locations and in the approximate capacities set forth in section 4 of this Act: *Provided,* That construction by the Secretary of the Interior of a powerplant designated in subsection (a), (c), or (g) of section 4 of this Act may not proceed prior to October 1, 1985, or if a license has been issued prior to such date to a non-Federal entity pursuant to section 4(e) of the Federal Power Act (16 U.S.C. 797) to construct such powerplant. In carrying out the purposes of this Act, the Secretary of the Interior is authorized to modify the capacity of a powerplant designated in section 4 as determined to be necessary or desirable during postauthorization study and design, and after consultation with the Secretary of Energy.

SEC. 2. The Secretary of Energy is authorized to construct, operate, and maintain transmission facilities as required physically to connect the hydroelectric powerplants authorized in section 4 of this Act to existing power systems and as he determines necessary to accomplish distribution and marketing of power generated by powerplants constructed pursuant to section 4 of this Act, and to purchase replacement capacity, energy, or both to maintain contractual deliveries to customers during unit outages which result from Federal construction or uprating of the powerplants authorized in this Act.

SEC. 3. During Federal construction of powerplants authorized in this Act, the Secetary of the Interior and the Secretary of Energy shall seek to minimize the loss of capacity, energy, or both to power customers due to unit outages which result from such construction. The Secretary of Energy shall seek to maintain contractual deliveries of capacity, energy, or both at contract prices to customers affected by unit outages resulting from such Federal construction.

SEC. 4. (a) Whiskeytown powerplant unit, Central Valley project, California, consisting of a turbine generator unit of three thousand kilowatts on the outlet works of Whiskeytown Dam.

(b) Yellowtail Afterbay powerplant unit, Pick-Sloan Missouri Basin program, Montana, consisting of a turbine generator unit of ten thousand kilowatts on the outlet works of Yellowtail Afterbay Dam.

(c) Red Bluff powerplant unit, Central Valley project, California, consisting of four turbine generator units of two thousand five hundred kilowatts each at Red Bluff Diversion Dam.

(d) Palisades Powerplant enlargement, Palisades project, Idaho-Wyoming, consisting of one or more turbine generator units so as to increase the powerplant capacity by ninety thousand kilowatts.

(e) Anderson Ranch powerplant unit, Boise project, Idaho, consisting of a turbine and generator unit to increase the powerplant capacity by thirty thousand kilowatts.

(f) Minidoka powerplant rehabilitation and enlargement, Minidoka project, Idaho-Wyoming, consisting of two turbine generator units of fifteen thousand kilowatts each in replacement of existing units one through six.

(g) Guernsey powerplant enlargement, North Platte project, Wyoming, consisting of one turbine generator unit to increase the powerplant capacity by fifteen thousand kilowatts.

SEC. 5. (a) Hydroelectric power generated by Federal facilities constructed pursuant to section 4 of this Act shall be delivered to the Secretary of Energy for distribution and marketing through existing Federal hydroelectric power marketing programs in accordance with existing law and policy consistent with the provisions of this Act.

(b) The Federal powerplants constructed pursuant to section 4 of this Act shall be financially integrated with and the power marketed under rate schedules in effect for the several programs as follows:

(1) Whiskeytown and Red Bluff powerplant units shall be marketed through the Central Valley project power marketing program;

(2) Yellowtail Afterbay powerplant unit shall be marketed through the Pick-Sloan Missouri Basin program power marketing program;

(3) Palisades powerplant enlargement, Anderson Ranch powerplant unit, and Minidoka powerplant rehabilitation and enlargement shall be marketed through the Federal Columbia River Power System; and

(4) Guernsey powerplant unit shall be marketed through the Western Division, Pick-Sloan Missouri Basin program power marketing program.

SEC. 6. Powerplants authorized in section 4 of this Act shall be designed, constructed, and operated in such a manner as to be compatible with valid existing water rights or water delivery to the holder of any valid water service contract.

SEC. 7. The interest rate used for computing interest during construction and interest on the unpaid balance of the reimbursable cost of a powerplant authorized in section 4 of this Act shall be determined by the Secretary of the Treasury, as of the beginning of the fiscal year in which construction of such powerplant commenced, on the basis of the computed average interest rate payable by the Treasury upon its outstanding marketable public obligations which are neither due nor callable for fifteen years from the date of issue.

SEC. 8. (a) There are hereby authorized to be appropriated beginning October 1, 1983, to the Secretary of the Interior for construction of the powerplants authorized in section 4 of this Act the amounts set forth in subsection (b), on the basis of October 1983 price levels, plus or minus such amounts as may be justified by reason of ordinary fluctuations of construction cost indexes applicable to the type of construction involved herein. There are also authorized to be appropriated to the Secretary of Energy such sums as may be necessary for the purposes of sections 2 and 3 of this Act, and to the Secretary of the Interior such additional sums as may be necessary for the operation and maintenance of the Federal powerplants authorized in section 4 of this Act.

(b)(1) Whiskeytown powerplant unit, $3,780,000.

(2) Yellowtail Afterbay powerplant, $25,600,000.

(3) Red Bluff powerplant unit, $42,100,000.

(4) Palisades powerplant enlargement, $76,000,000.

(5) Anderson Ranch powerplant unit, $14,317,000.

(6) Minidoka powerplant rehabilitation and enlargement, $73,437,000.

(7) Guernsey powerplant enlargement, $22,337,000.

Mr. BAKER. Mr. President, I ask unanimous consent that the several committee amendments be considered en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

The question is on agreeing to the amendments en bloc.

The committee amendments were agreed to en bloc.

AMEMDMENT NO. 2120

(Purpose: to authorize additional hydroelectric development at Hoover Dam, and for other purposes)

Mr. BAKER. Mr. President, on behalf of the distinguished Senator from Nevada (Mr. HECHT) I send an amendment to the desk and ask that it be stated.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Tennessee (Mr. BAKER), for Mr. HECHT, proposes an amendment numbered 2120.

1. SEC. 1. On page 1, above line 3, insert the heading "Title I".

On page 1, line 3, delete the words "That the" and insert in lieu thereof "Sec. 101. The".

On page 2, line 5, delete the numeral "4" and insert in lieu thereof "104".

On page 2, line 7, delete the numeral "4" and insert in lieu thereof "104".

On page 2, line 11, after the word "of" insert the words "Title I of".

On page 2, line 13, delete the numeral "4" and insert in lieu thereof "104".

2. SEC. 2. On page 2, line 17, delete the numeral "2" and insert in lieu thereof "102".

On page 2, line 20, delete the numeral "4" and insert in lieu thereof "104".

On page 2, line 23, delete the numeral "4" and insert in lieu thereof "104".

On page 3, line 1, delete the words "or uprating".

On page 3, line 2, after the words "authorized in" insert "section 104 of".

3. SEC. 3. On page 3, line 3, delete the numeral "3" and insert in lieu thereof "103".

On page 3, line 4, after the words "authorized in" insert "section 104 of".

4. SEC. 4. On page 5, line 7, delete the numeral "4" and insert in lieu thereof "104".

5. SEC. 5. On page 6, line 9, delete the numeral "5" and insert in lieu thereof "105".

On page 6, line 10, delete the numeral "4" and insert in lieu thereof "104".

On page 6, line 14, after the words "provisions of" insert "Title I of".

On page 7, line 10, delete the numeral "4" and insert in lieu thereof "104".

6. SEC. 6. On page 8, line 1, delete the numerals "6" and "4" and insert in lieu thereof "106" and "104" respectively.

7. SEC. 7. On page 8, line 6, delete the numeral "7" and insert in lieu thereof "107".

On page 8, line 8, delete the numeral "4" and insert in lieu thereof "104".

8. SEC. 8. On page 9, line 19, delete the numeral "8" and insert in lieu thereof "108".

On page 9, line 22, delete the numeral "4" and insert in lieu thereof "104".

On page 10, line 3, delete the numerals "2" and "3" and insert in lieu thereof "102" and "103" respectively.

On page 10, line 6, delete the numeral "4" and insert in lieu thereof "104".

9. On page 10, after line 14, insert the following:

SEC. 109. The provisions of this Title I shall not apply to any project authorized or affected by Title II of this Act.

TITLE II

SEC. 201. (a) The Secretary of the Interior is authorized to increase the capacity of existing generating equipment and appurtenances at Hoover Powerplant (hereinafter "Uprating Program"); and to improve parking, visitor facilities, and roadways and to provide additional elevators, and other facilities that will contribute to the safety and sufficiency of visitor access to Hoover Dam and Powerplant (hereinafter "Visitor Facilities Program").

(b) The Secretary of the Interior is authorized to construct a Colorado River bridge crossing, including suitable approach spans, immediately downstream from Hoover Dam for the purpose of alleviating traffic congestion and reducing safety hazards. This bridge shall not be a part of the Boulder Canyon Project and shall neither be funded nor repaid from the Colorado River Dam Fund or the Lower Colorado River Basin Development Fund.

SEC. 202. (a) Clause (1) of subsection (c) of section 403 of the Colorado River Basin Project Act of 1968 (43 U.S.C. 1543(c); 82 Stat. 894) is revised to read as follows:

"(1) all revenues collected in connection with the operation of facilities authorized in Title III in furtherance of the purposes of this Act (except entrance, admission, and other recreation fees or charges and proceeds received from recreation concessionaires), until completion of repayment requirements of the Central Arizona Project;"

(b) Clause (2) of said subsection (c) is revised by inserting immediately preceding the existing proviso:

"*Provided, however,* That for the Boulder Canyon Project commencing June 1, 1987, and for the Parker-Davis Project commencing June 1, 2005, and until the end of the repayment period for the Central Arizona Project described in section 301(a) of this Act, the Secretary of Energy shall provide for such surplus revenues by including the equivalent of 4½ mills per kilowatt-hour in the rates charged to purchasers in Arizona for application to the purposes specified in subsection (f) of this section and by including the equivalent of 2½ mills per kilowatt-hour in the rates charged to purchasers in California and Nevada for application to the purposes of subsection (g) of this section as amended and supplemented: *Provided, further,* That after the repayment period for said Central Arizona Project, the equivalent of 2½ mills per kilowatt-hour shall be included by the Secretary of Energy in the rates charged to purchasers in Arizona, California and Nevada to provide revenues for application to the purposes of said subsection (g) of this section:"

SEC. 203. The Boulder Canyon Project Act of 1928 (43 U.S.C. 617 *et seq.;* 45 Stat. 1057), as amended and supplemented, is further amended:

(a) In the first sentence of section 2(b), by striking out "except that the aggregate amount of such advances shall not exceed the sum of $165,000,000", and by replacing the comma after the word "Act" with a period.

(b) In section 3, by deleting "$165,000,000" and inserting in lieu thereof "$242,000,000, of which $77,000,000 (October 1983 price levels) shall be adjusted plus or minus such amounts as may be justified by reason of ordinary fluctuations of construction costs as indicated by engineering cost indices applicable to the type of construction involved herein. Said $77,000,000 represents the additional amount required for the Uprating Program and the Visitor Facilities Program."

SEC. 204. The Boulder Canyon Project Adjustment Act of 1940 (43 U.S.C. 618 *et seq.*, 54 Stat. 774), as amended and supplemented, is further amended:

(a) In section 1 by deleting the phrase "during the period beginning June 1, 1937, and ending May 31, 1987" appearing in the introductory paragraph of section 1 and in section 1(a), and inserting in lieu thereof "beginning June 1, 1937".

(b) In section 1(b) by deleting the phrase "and such portion of such advances made on and after June 1, 1937, as (on the basis of repayment thereof within such fifty-year period or periods as the Secretary may determine) will be repayable prior to June 1, 1987" and inserting in lieu thereof "and such advances made on and after June 1, 1937, over fifty-year periods".

(c) In section 1 by deleting the word "and" at the end of subsection (c); deleting the period at the end of subsection (d) and inserting in lieu thereof "; and", and by adding subsection (e) to read:

"(e) To provide revenues from and after June 1, 1987, for application to the purposes specified in section 403(c)(2) of the Colorado River Basin Project Act of 1968, as amended and supplemented."

(d) In section 2:

(1) By deleting the first sentence and subsection (a) and inserting in lieu thereof:

"All receipts from the project shall be paid into the Colorado River Dam Fund and shall be available, without further appropriation, for:

(a) Defraying the costs of operation (including purchase of supplemental energy to meet temporary deficiencies in firm energy which the Secretary of Energy is obligated by contract to supply), maintenance and replacements of, and emergency expenditures for, all facilities of the project, within such separate limitations as may be included in annual appropriations acts;" and

(2) By deleting existing section 2(e) and inserting in lieu thereof a new section 2(e) reading:

"(e) Transfer to the Lower Colorado River Basin Development Fund established by Title IV of the Colorado River Basin Project Act of 1968, as amended and supplemented, of the revenues referred to in section 1(e) of this Act."

(e) By deleting the final period and placing a colon at the end of section 6 and adding:

"*Provided,* That on appropriated funds advanced, respectively, for the Uprating Program and for the Visitor Facilities Program as defined in section 201(a) of [S. 268], the rate of interest for advances for each shall be determined by the Secretary of the Treasury, as of the beginning of the fiscal year in which the initial advance for the particular program involved is made, on the basis of the computed average interest rate payable by the Treasury upon its outstanding marketable public obligations which are neither due nor callable for fifteen years from the date of issue."

(f) In section 12, in the paragraph beginning with "Replacements", by deleting "during the period from June 1, 1937, to May 31, 1987, inclusive" and inserting in lieu thereof "beginning June 1, 1937".

SEC. 205. (a) Capacity resulting from the Uprating Program and associated energy shall be allocated for use in Arizona, California and Nevada in the respective amounts specified in the applicable power marketing criteria promulgated by the Secretary of Energy. Such allocated capacity and associated energy shall be disposed of only pursuant to contracts effective June 1, 1987 and expiring on September 30, 2017, between the Secretary of Energy and purchasers in Arizona, California and Nevada eligible to enter into such contracts under section 5 of the Boulder Canyon Project Act: *Provided, however,* That in the case of Arizona and Nevada, such contracts shall be made with the agency designated by state law as the agent of such state for purchasing power from the Boulder Canyon Project.

(b) The Uprating Program authorized under section 201(a) of this Act may be undertaken with appropriated funds or with funds advanced under contracts made with the Secretary of the Interior by non-federal purchasers described in subsection (a) of this section, or a combination thereof. Any funding provided by non-federal purchasers shall be advanced to the Secretary of the Interior pursuant to the terms and conditions of such contracts.

(c) Notwithstanding any other provisions of the law, funds advanced by non-federal purchasers for use in the Uprating Program shall be deposited in the Colorado River Dam Fund and shall be available for the Uprating Program.

(d) Those amounts advanced by non-federal purchasers shall be financially integrated as capital costs with other project costs for rate setting purposes, and shall be returned to those purchasers advancing funds throughout the contract period through credits which include interest costs incurred by such purchasers for funds contributed to the Secretary of the Interior for the Uprating Program.

SEC. 206. Reimbursement of funds appropriated for construction of facilities authorized under section 201(a) of this Act, inclusive of any funds advanced by non-federal purchasers, shall be a repayment requirement of the Boulder Canyon Project beginning with the first day of the month following completion of the installation, except that the costs of the Visitor Facilities Program as defined in section 210(a) of this Act shall become a repayment requirement beginning June 1, 1987, or when substantially completed, as determined by the Secretary of the Interior, if later.

SEC. 207. This Act shall not be construed to either support or prejudice:

(a) claims concerning the existence or scope of any right to renew a contract in effect on the date of this Act for purchase of electrical energy generated at Hoover Dam, including, but not limited to, any right to increased capacity resulting from the Uprating Program, or

(b) claims concerning the existence or scope of preference in the purchase of electrical energy generated at Hoover Dam, including, but not limited to, any right to increased capacity resulting from the Uprating Program.

Mr. HECHT. Mr. President, I rise at this time to offer an amendment to S. 268, the Bureau of Reclamation hydropower authorization bill. This amendment is virtually identical to the printed amendment No. 1424, introduced on June 21, except that the page and line references to S. 268 have been changed to conform with amendments reported by the Committee on Energy and Natural Resources on May 20 of this year. This is a purely technical change.

Cosponsored by my colleagues from the Lower Colorado River Basin States, Senators LAXALT, GOLDWATER, DECONCINI, CRANSTON, and WILSON, this amendment provides for additional hydroelectric development at Hoover Dam and serves as the legislative capstone to a negotiated settlement of the longstanding power allocation disputed between the States of Nevada, Arizona, and California. It is critical that Congress move quickly, while the power allocation agreement is intact, to approve this amendment as part of S. 268.

Mr. President, I am aware that a second degree amendment will be offered by Senator GARN from Utah. While this has been cleared by all of the original cosponsors, I would like to review its substantive background and articulate my understanding of its legislative intent.

The amendment proposed by my colleague from Utah adds a new subsection 207(c), which provides that enactment of S. 268 will neither support nor prejudice any right that may now exist to determine either by litigation or arbitration any question as to the interpretation or performance of S.

268 or any other laws of the United States now in effect. Under the Senator's proposal, the same would be true as to disputes arising out of any criteria issued in the future dealing with the allocation of energy from Hoover Dam.

Presumably, my Utah colleague's proposal is prompted by his interest in preserving whatever rights Utah or entities within Utah might have to output from Hoover Dam. No entity in Utah has ever held a contract for the purchase from the United States of Hoover Dam output, and from a legal standpoint, the Lower Colorado River Basin States of Nevada, Arizona, and California do not recognize any existing right of parties within Utah, including the State itself, to arbitration or judicial review of questions relating to the Hoover contracts now in effect.

As to future output from Hoover Dam, or regulations associated therewith, the new subsection would appear to state a truism; that is, whatever rights Utah or any entity therein may have are neither affirmed nor prejudiced by the enactment of S. 268. Any such rights that may be claimed, therefore, must necessarily be established elsewhere; namely, under the terms of the Boulder Canyon Project Act or the Boulder Canyon Project Adjustment Act. This is also true with respect to any claim of rights founded on regulations which are not yet in existence, for it goes without saying that before a regulation can confer a valid right, the regulation itself must have a statutory base.

I am sure it comes as no surprise to my friend from Utah that in the view of this Senator, neither Utah nor any entity within Utah can assert claims to Hoover power that would be even on a par with the rights of the State of Nevada, let alone superior thereto. I believe my colleagues from Arizona and California support me in this interpretation with respect to their States rights to Hoover power output as well.

Mr. President, this is all a long way of saying that because I believe the new subsection 207(c) adds nothing to the legal protections already accorded by subsections 207 (a) and (b), I do not object to its inclusion in this amendment package.

● Mr. GOLDWATER. Mr. President, I am pleased to support S. 268, introduced by the distinguished chairman of the Committee on Energy and Natural Resources, Senator MCCLURE, which will provide for the installation of new or enhanced hydroelectric power generating facilities at a number of existing Bureau of Reclamation dams.

I am, of course, particularly pleased with the amendments with respect to Hoover Dam, which the Senator from Nevada, Mr. HECHT, offered to the Senate in his maiden speech on June 21 on behalf of himself and the senior Senator from Nevada, Mr. LAXALT, as well as for Senators CRANSTON, WILSON, DECONCINI, and myself. We thus have Nevada, California, and Arizona in full agreement on the proposals with respect to Hoover. I am hopeful that with the approval of this legislation by the Senate we will have taken a giant step—not only in enhancing Hoover for visitors and as a producer of power—but also toward settlement of current disputes and misunderstandings among the Hoover power allottees in California, and the States of Arizona and Nevada.

I mentioned enhancing Hoover for visitors, which is one of the major purposes of the amendments. As the Senate knows, Hoover Dam—as a key feature of the great Lake Mead National Recreational Area—is a magnet for visitors. The present parking, roadway, elevator, and other facilities to handle the growing numbers wishing to see this splendid hydroelectric facility are sorely pressed and must be updated. The Hoover amendments will accomplish that, and at the same time will authorize the uprating of the powerplant itself, substantially increasing the capacity of the plant to generate power. Authorizing the upratings now will permit full modernization of the Hoover plan in a rational, programed way, and avoid unnecessary shutdowns which would otherwise happen.

The Hoover amendments also provide that a portion of the power revenues be set aside for the purposes of assisting repayment of the central Arizona project as well as salinity control projects authorized by the Congress to help maintain the quality of Colorado River waters so essential to homes, farms, and industry, on both sides of the border. Congress, in authorizing the CAP in 1968, provided that after Hoover payout in 1987, surplus revenues from sales in Arizona from the Hoover plant would be used to provide funds for the completion of the CAP. The Hoover amendments now define those revenues to come from the Arizona power users. This will be a powerful assist to the CAP, and I want to recognize the cooperative efforts to representatives of the California Hoover allottees, and of Nevada and Arizona which made this possible, while at the same time settling on the charge that California users, and Nevada, would bear to assist salinity control. After repayment of the CAP, all of those charges will merge to continue to further assist payment for necessary salinity control.

Mr. President, S. 268 as amended is a truly significant step in the further development of the Nation's water resources, through utilizing existing dams and reservoirs to create more clean and renewable energy. The enhancement of the Hoover resources under this bill, not only as a place to visit and enjoy, but from which significantly more hydroelectric power will be produced, will be a signal accomplishment. The Bureau of Reclamation and the Department of Energy have made marked contributions in these developments. I am pleased to join my colleagues in California and Nevada in cosponsoring the Hecht amendments, and trust that with their continued assistance, and with the continuing interest of the Bureau and DOE we will gain final and full agreement on the disposition of the Hoover power resource and related matters.●

Mr. LAXALT. Mr. President, I join my distinguished colleague, Senator HECHT, in offering this amendment to S. 268, the Bureau of Reclamation hydropower authorization bill. This amendment authorizes the development of additional hydropower capacity at Hoover Dam and facilitates agreement on the future allocation of Hoover power beyond 1987 when the current allocation contracts expire.

After protracted negotiation among the three States of Nevada, Arizona, and California and under the threat of long and difficult litigation, tentative agreement was reached by most allottees on 10 principles of settlement for future power allocations. That settlement is tied to the uprating of the Hoover powerplant authorized in this amendment. Some 500 megawatts of capacity will be made available through this authorization. Additionally, the amendment authorizes needed visitor facility repairs to be financed through power revenues and a new highway bridge below the dam to be financed through appropriate cost-sharing agreements. Finally, the amendment allocates specific funding for completion of the central Arizona project, to be raised through a 4½-mill-per-kilowatt-hour surcharge.

This amendment and the bill, S. 268, are significant steps in the direction of providing additional sources of renewable, cheap hydroelectric power. The importance of the developments incorporated in this Hoover amendment cannot be overestimated. It offers a resolution of the allocation struggle in good-faith negotiations, one which will provide for the next 50 years of peaceful sharing of the fruits of this marvel of engineering and design, Hoover Dam.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2120) was agreed to.

AMENDMENT NO. 2121

Mr. BAKER. Now, Mr. President, I send to the desk an amendment on behalf of the distinguished Senator from Utah (Mr. GARN) and ask that it be stated by the clerk.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Tennessee (Mr. BAKER), on behalf of Mr. GARN, proposes an amendment numbered 2121.

Mr. BAKER. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

In Title II, Sec. 207, add a new subsection (c) as follows:

(c) Any right to determine by arbitration or court proceedings any dispute or disagreement as to the interpretation or performance of any provisions of this Act or any other laws of the United States in effect on the date of this Act, or the Criteria or Regulations, either to be published or subsequently amended relating in any way to allocation of energy generated at Hoover Dam from capacity existing on the date of this Act or increased capacity resulting from the Uprating Program.

Mr. GARN. Mr. President, I wish to express my appreciation to the Senator from Nevada for his cooperation in accepting the modification I have proposed be added to his amendment on behalf of interests in the State of Utah.

My amendment adds a new section 207 (c) to the Hecht amendment. This section will preserve the right to determine by arbitration or court proceedings the question of whether Utahans are entitled to receive an allocation of either existing electricity generated at Hoover Dam or to the increased capacity which will result from this amendment. This modification insures that nothing in this act will alter or disrupt the legal rights of parties within the various Colorado River Basin States as they presently exist under the several Federal statutes governing the allocation of Hoover Dam power.

I recognize the longstanding differences between the upper and lower basin States over the use of water and power on the Colorado River and wish to make clear that my intent through this amendment is to protect the right of Utahans to make a claim to this power.

It comes as no surprise to me that my friend from Nevada is of the opinion that no such claim exists under the Boulder Canyon Project Act of 1928, the Boulder Canyon Adjustment Act of 1949, or any other Federal statutes. Nevertheless, such a claim has been made and an application for Hoover Dam power has been filed on behalf of Utah electrical consumers. My amendment guarantees that nothing in this act will adversely affect a fair resolution of that or any other claim by arbitration or court proceedings.

Mr. President, we westerners have been arguing over water related issues continually now for years, yet we remain the best of friends and good neighbors. I again want to thank the Senator for his fairness in dealing with this issue.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2121) was agreed to.

● Mr. GOLDWATER. Mr. President, I have been privileged, together with my colleague from Arizona and the distinguished Senators from California and Nevada, to join in sponsoring the package of amendments to S. 268 relating to Hoover which the Senator from Nevada, Mr. HECHT, has been addressing.

I wish to assure the Senate of Arizona's agreement with the views just stated on behalf of Nevada with respect to the proposal by the Senator from Utah. In short, the proposed amendment neither adds any rights or entitlements, nor of course does it detract in any way from any such rights or entitlements, whatever they may be, if indeed any.●

Mr. McCLURE. Mr. President, I am pleased that the Senate is able to consider S. 268 at this time. As my colleagues will recall, similar legislation passed the Senate in both the 96th and 97th Congresses. I only hope that the third time is the winner.

This legislation is very important to the Western States and in particular, to my own home State of Idaho, but I also emphasize the development of our hydroelectric resources is indeed in the national interest.

Mr. President, I ask unanimous consent that the "Purpose, Background, and Further Discussion" sections of the committee report (98-137) which accompanied S. 268 when reported by the Senate Committee on Energy and Natural Resources on May 20 of this year, be inserted in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

PURPOSE

As ordered reported, S. 268 would authorize the Secretary of the Interior to construct, operate, and maintain hydroelectric generating facilities at seven existing Bureau of Reclamation projects located in California, Montana, Idaho, and Wyoming.

BACKGROUND

In 1977, the Department of the Interior's Bureau of Reclamation published a report entitled "Western Energy Expansion Study." The report, as part of the Bureau's general investigations program, examined the potential for the development of hydroelectric power, including pumped storage, at both new sites and existing Bureau facilities in the 17 Western States. A total of 127 proposals for hydroelectric development were examined, of which 61 proposals were recommended for further study.

Based on the recommendation of the report, legislation was introduced in the 95th Congress to authorize construction of the proposed generating facilities at eight of the sites evaluated; however, Congress adjourned prior to action on the measures. In the 96th Congress, similar legislation was introduced but with the benefit of additional studies undertaken by the Department of the Interior, the measure authorized construction of 13 powerplants at existing projects. The bill (S. 1420) was passed by the Senate, but was not considered by the House prior to adjournment of the 96th Congress. In the 97th Congress, a similar bill (S. 306) passed the Senate but, once again, Congress adjourned prior to final consideration.

Except for the deletion of the authorization of the Buffalo Bill Powerplant expansion in Wyoming (which was authorized in separate legislation), S. 268 as introduced is identical to S. 306 as passed by the Senate in the 97th Congress. As ordered reported by the Senate Committee on Energy and Natural Resources, S. 268 authorizes the addition of hydroelectric generating capacity at seven sites with an installed capacity of approximately 188 megawatts and an annual generation of approximately 385 million kilowatt hours, or the equivalent in energy of over 690,000 barrels of oil.

For comparative purposes, a brief summary of project statistics of S. 268 as introduced and as ordered reported by the Committee follows:

Project	Capacity (megawatts)	Cost (millions)	Generation (million kilowatt hours)
S. 268. Summary as introduced:			
Friant, Calif.[1]	22.7	$25.39	101
Whiskeytown, Calif.[1]	3.0	3.39	11
Yellowtail Afterbay, Mont	10.0	24.2	62
Red Bluff, Calif.[1]	10.0	38.03	53
Stony Gorge, Calif.[1]	3.0	4.02	11
Monticello, Calif.[1]	16.0	11.83	43

[1] Conditional authorization.

FURTHER DISCUSSION

As in S. 1420 of the 96th Congress and S. 360 of the 97th Congress, the Committee has retained the concept of a "conditional authorization" for certain projects authorized in the bill. This provides an opportunity for non-Federal entities to secure a license from the Federal Energy Commission prior to October 1, 1985, after which the Secretary of the Interior is authorized to construct those projects for which licenses have not been granted.

The Committee also notes the opportunity provided pursuant to the popularly referred to "Contributed Funds Act" (41 Stat. 1404, 43 U.S.C. § 395) for non-Federal contributions to be made towards the construction of the Federal facilities authorized in S. 268. Many reclamation projects have received funding assistance from non-Federal sources and this practice may serve to provide not only for construction on a more timely basis but also to alleviate the impact of water re-

source development expenditures on the Federal budget.

During consideration of S. 268 before the Committee on May 13, 1983, Senator Wallop expressed concern regarding the relationship of increased power generation at Guernsey Dam in Wyoming to the current practice of providing a "silt run" for the purpose of preventing seepage in canals of the North Platte Project. The silt run operation involves lowering the level of Guernsey Reservoir so that silt deposits are flushed from the reservoir. The sediment laden water is then diverted into the North Platte project's canal system where the silt blanket the canal bottoms and sides thereby reducing seepage. Lowering the level of Guernsey Reservoir affects power generation. Senator Wallop is working closely with water users and the Bureau of Reclamation in an attempt to rectify the apparent conflict and may offer amendatory language to S. 268 when considered on the floor of the Senate.

Mr. McCLURE. As my colleagues will note, in that portion of the committee reported entitled "Further Discussion," mention was made of the opportunity for non-Federal contributions toward construction of the powerplants authorized in the bill. This is not a new concept in the reclamation program and indeed dates from the early 1920's and the passage of the so-called Contributed Funds Act in 1921. I recall that a substantial contribution was made by the State of Washington toward construction of the Second Bacon Siphon and Tunnel, a feature of the Columbia Basin project, in the mid-1970's, and only last year, the State of Wyoming pledged to contribute toward the modification of the Buffalo Bill Dam and Powerplant. I am hopeful that the States or other non-Federal entities will continue to avail themselves of the authority of the Contributed Funds Act thereby helping to pave the way for continued water resources development and decreasing the pressure on the Federal budget.

I am also pleased to see the unanimity with which the so-called Hoover amendment was offered to S. 268 by my colleagues in the Southwest. As they will recall, an attempt to authorize the Hoover uprating program was made in the last Congress, but questions regarding the proposal were not resolved prior to consideration of the measure by the Senate. During this Congress, with the leadership of the junior Senator from Nevada, Mr. HECHT, the problems were resolved and I would like to congratulate him for his successful efforts.

I would also extend my appreciation for the fine efforts of the staff of the Senate Energy and Natural Resources Committee and the staffs of the respective Senators who have participated in the preparation of this legislation.

The PRESIDING OFFICER. The bill is open to further amendment. If there be no further amendment to be proposed, the question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 268

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I

SEC. 101. The Secretary of the Interior, acting pursuant to the Federal reclamation laws (Acts of June 17, 1902, 32 Stat. 388 and Acts amendatory thereof and supplemental thereto), is authorized to construct, operate, and maintain hydroelectric powerplants at existing reclamation project facilities at locations and in the approximate capacities set forth in section 104 of this Act: *Provided,* That construction by the Secretary of the Interior of a powerplant designated in subsection (a), (c), or (g) of section 104 of this Act may not proceed prior to October 1, 1985, or if a license has been issued prior to such date to a non-Federal entity pursuant to section 4(e) of the Federal Power Act (16 U.S.C. 797) to construct such powerplant. In carrying out the purposes of title I of this Act, the Secretary of the Interior is authorized to modify the capacity of a powerplant designated in section 104 as determined to be necessary or desirable during postauthorization study and design, and after consultation with the Secretary of Energy.

SEC. 102. The Secretary of Energy is authorized to construct, operate, and maintain transmission facilities as required physically to connect the hydroelectric powerplants authorized in section 104 of this Act to existing power systems and as he determines necessary to accomplish distribution and marketing of power generated by powerplants constructed pursuant to section 104 of this Act, and to purchase replacement capacity, energy, or both in order to maintain contractual deliveries to customers during unit outages which result from Federal construction of the powerplants authorized in section 104 of this Act.

SEC. 103. During Federal construction of powerplants authorized in section 104 of this Act, the Secretary of the Interior and the Secretary of Energy shall seek to minimize the loss of capacity, energy, or both to power customers due to unit outages which result from such construction. The Secretary of Energy shall seek to maintain contractual deliveries of capacity, energy, or both at contract prices to customers affected by unit outages resulting from such Federal construction.

SEC. 104. (a) Whiskeytown powerplant unit, Central Valley project, California, consisting of a turbine generator unit of three thousand kilowatts on the outlet works of Whiskeytown Dam.

(b) Yellowtail Afterbay powerplant unit, Pick-Sloan Missouri Basin program, Montana, consisting of a turbine generator unit of ten thousand kilowatts on the outlet works of Yellowtail Afterbay Dam.

(c) Red Bluff powerplant unit, Central Valley project, California, consisting of four turbine generator units of two thousand five hundred kilowatts each at Red Bluff Diversion Dam.

(d) Palisades Powerplant enlargement, Palisades project, Idaho-Wyoming, consisting of one or more turbine generator units so as to increase the powerplant capacity by ninety thousand kilowatts.

(e) Anderson Ranch powerplant unit, Boise project, Idaho, consisting of a turbine and generator unit to increase the powerplant capacity by thirty thousand kilowatts.

(f) Minidoka powerplant rehabilitation and enlargement, Minidoka project, Idaho-Wyoming, consisting of two turbine generator units of fifteen thousand kilowatts each in replacement of existing units one through six.

(g) Guernsey powerplant enlargement, North Platte project, Wyoming, consisting of one turbine generator unit to increase the powerplant capacity by fifteen thousand kilowatts.

SEC. 105. (a) Hydroelectric power generated by Federal facilities constructed pursuant to section 104 of this Act shall be delivered to the Secretary of Energy for distribution and marketing through existing Federal hydroelectric power marketing programs in accordance with existing law and policy consistent with the provisions of title I of this Act.

(b) The Federal powerplants constructed pursuant to section 104 of this Act shall be financially integrated with and the power marketed under rate schedules in effect for the several programs as follows:

(1) Whiskeytown and Red Bluff powerplant units shall be marketed through the Central Valley project power marketing program;

(2) Yellowtail Afterbay powerplant unit shall be marketed through the Pick-Sloan Missouri Basin program power marketing program;

(3) Palisades powerplant enlargement, Anderson Ranch powerplant unit, and Minidoka powerplant rehabilitation and enlargement shall be marketed through the Federal Columbia River Power System; and

(4) Guernsey powerplant unit shall be marketed through the Western Division, Pick-Sloan Missouri Basin program power marketing program.

SEC. 106. Powerplants authorized in section 104 of this Act shall be designed, constructed, and operated in such a manner as to be compatible with valid existing water rights or water delivery to the holder of any valid water service contract.

SEC. 107. The interest rate used for computing interest during construction and interest on the unpaid balance of the reimbursable cost of a powerplant authorized in section 104 of this Act shall be determined by the Secretary of the Treasury, as of the beginning of the fiscal year in which construction of such powerplant commenced, on the basis of the computed average interest rate payable by the Treasury upon its outstanding marketable public obligations which are neither due nor callable for fifteen years from the date of issue.

SEC. 108. (a) There are hereby authorized to be appropriated beginning October 1, 1983, to the Secretary of the Interior for construction of the powerplants authorized in section 104 of this Act the amounts set forth in subsection (b), on the basis of October 1983 price levels, plus or minus such amounts as may be justified by reason of ordinary fluctuations of construction cost indexes applicable to the type of construction involved herein. There are also authorized to be appropriated to the Secretary of Energy such sums as may be necessary for the purposes of sections 102 and 103 of this Act, and to the Secretary of the Interior such additional sums as may be necessary for the operation and maintenance of the Federal powerplants authorized in section 104 of this Act.

(b)(1) Whiskeytown powerplant unit, $3,780,000.

(2) Yellowtail Afterbay powerplant, $25,600,000.

(3) Red Bluff powerplant unit, $42,100,000.

(4) Palisades powerplant enlargement, $76,000,000.

(5) Anderson Ranch powerplant unit, $14,317,000.

(6) Minidoka powerplant rehabilitation and enlargement, $73,437,000.

(7) Guernsey powerplant enlargement, $22,337,000.

SEC. 109. The provisions of this title I shall not apply to any project authorized or affected by title II of this Act.

TITLE II

SEC. 201. (a) The Secretary of the Interior is authorized to increase the capacity of existing generating equipment and appurtenances at Hoover Powerplant (hereinafter "Uprating Program"); and to improve parking, visitor facilities, and roadways and to provide additional elevators, and other facilities that will contribute to the safety and sufficiency of visitor access to Hoover Dam and Powerplant (hereinafter "Visitor Facilities Program").

(b) The Secretary of the Interior is authorized to construct a Colorado River bridge crossing, including suitable approach spans, immediately downstream from Hoover Dam for the purpose of alleviating traffic congestion and reducing safety hazards. This bridge shall not be a part of the Boulder Canyon Project and shall neither be funded nor repaid from the Colorado River Dam Fund or the Lower Colorado River Basin Development Fund.

SEC. 202. (a) Clause (1) of subsection (c) of section 403 of the Colorado River Basin Project Act of 1968 (43 U.S.C. 1543(c); 82 Stat. 894) is revised to read as follows:

"(1) all revenues collected in connection with the operation of facilities authorized in Title III in furtherance of the purposes of this Act (except entrance, admission, and other recreation fees or charges and proceeds received from recreation concessionaires), until completion of repayment requirements of the Central Arizona Project;".

(b) Clause (2) of said subsection (c) is revised by inserting immediately preceding the existing proviso: *"Provided, however,* That for the Boulder Canyon Project commencing June 1, 1987, and for the Parker-Davis Project commencing June 1, 2005, and until the end of the repayment period for the Central Arizona Project described in section 301(a) of this Act, the Secretary of Energy shall provide for such surplus revenues by including the equivalent of 4½ mills per kilowatt-hour in the rates charged to purchasers in Arizona for application to the purposes specified in subsection (f) of this section and by including the equivalent of 2½ mills per kilowatt-hour in the rates charged to purchasers in California and Nevada for application to the purposes of subsection (g) of this section as amended and supplemented: *Provided further,* That after the repayment period for said Central Arizona Project, the equivalent of 2½ mills per kilowatt-hour shall be included by the Secretary of Energy in the rates charged to purchasers in Arizona, California and Nevada to provide revenues for application to the purposes of said subsection (g) of this section:"

SEC. 203. The Boulder Canyon Project Act of 1928 (43 U.S.C. 617 *et seq.*; 45 Stat. 1057), as amended and supplemented, is further amended:

(a) In the first sentence of section 2(b), by striking out "except that the aggregate amount of such advances shall not exceed the sum of $165,000,000", and by replacing the comma after the word "Act" with a period.

(b) In section 3, by deleting "$165,000,000" and inserting in lieu thereof "$242,000,000, of which $77,000,000 (October 1983 price levels) shall be adjusted plus or minus such amounts as may be justified by reason of ordinary fluctuations of construction costs as indicated by engineering cost indices applicable to the type of construction involved herein. Said $77,000,000 represents the additional amount required for the Uprating Program and the Visitor Facilities Program.".

SEC. 204. The Boulder Canyon Project Adjustment Act of 1940 (43 U.S.C. 618 et seq., 54 Stat. 774), as amended and supplemented, is further amended:

(a) In section 1 by deleting the phrase "during the period beginning June 1, 1937, and ending May 31, 1987" appearing in the introductory paragraph of section 1 and in section 1(a), and inserting in lieu thereof "beginning June 1, 1937".

(b) In section 1(b) by deleting the phrase "and such portion of such advances made on and after June 1, 1937, as (on the basis of repayment thereof within such fifty-year period or periods as the Secretary may determine) will be repayable prior to June 1, 1987" and inserting in lieu thereof "and such advances made on and after June 1, 1937, over fifty-year periods".

(c) In section 1 by deleting the word "and" at the end of subsection (c); deleting the period at the end of subsection (d) and inserting in lieu thereof "; and", and by adding subsection (e) to read:

"(e) To provide revenues from and after June 1, 1987, for application to the purposes specified in section 403(c)(2) of the Colorado River Basin Project Act of 1968, as amended and supplemented.".

(d) In section 2:

(1) By deleting the first sentence and subsection (a) and inserting in lieu thereof: "All receipts from the project shall be paid into the Colorado River Dam Fund and shall be available, without further appropriation, for:

(a) Defraying the costs of operation (including purchase of supplemental energy to meet temporary deficiencies in firm energy which the Secretary of Energy is obligated by contract to supply), maintenance and replacements of, and emergency expenditures for, all facilities of the project, within such separate limitations as may be included in annual appropriations Acts;" and

(2) By deleting existing section 2(e) and inserting in lieu thereof a new section 2(e) reading:

"(e) Transfer to the Lower Colorado River Basin Development Fund established by Title IV of the Colorado River Basin Project Act of 1968, as amended and supplemented, of the revenues referred to in section 1(e) of this Act.".

(e) By deleting the final period and placing a colon at the end of section 6 and adding: *"Provided,* That on appropriated funds advanced, respectively, for the Uprating Program and for the Visitor Facilities Program as defined in section 201(a) of [S. 268], the rate of interest for advances for each shall be determined by the Secretary of the Treasury, as of the beginning of the fiscal year in which the initial advance for the particular program involved is made, on the basis of the computed average interest rate payable by the Treasury upon its outstanding marketable public obligations which are neither due nor callable for fifteen years from the date of issue.".

(f) In section 12, in the paragraph beginning with "Replacements", by deleting "during the period from June 1, 1937, to May 31, 1987, inclusive" and inserting in lieu thereof "beginning June 1, 1937".

SEC. 205. (a) Capacity resulting from the Uprating Program and associated energy shall be allocated for use in Arizona, California, and Nevada in the respective amounts specified in the applicable power marketing criteria promulgated by the Secretary of Energy. Such allocated capacity and associated energy shall be disposed of only pursuant to contracts effective June 1, 1987 and expiring on September 30, 2017, between the Secretary of Energy and purchasers in Arizona, California, and Nevada eligible to enter into such contracts under section 5 of the Boulder Canyon Project Act: *Provided, however,* That in the case of Arizona and Nevada, such contracts shall be made with the agency designated by state law as the agent of such state for purchasing power from the Boulder Canyon Project.

(b) The Uprating Program authorized under section 201(a) of this Act may be undertaken with appropriated funds or with funds advanced under contracts made with the Secretary of the Interior by non-Federal purchasers described in subsection (a) of this section, or a combination thereof. Any funding provided by non-Federal purchasers shall be advanced to the Secretary of the Interior pursuant to the terms and conditions of such contracts.

(c) Notwithstanding any other provisions of the law, funds advanced by non-Federal purchasers for use in the Uprating Program shall be deposited in the Colorado River Dam Fund and shall be available for the Uprating Program.

(d) Those amounts advanced by non-Federal purchasers shall be financially integrated as capital costs with other project costs for rate setting purposes, and shall be returned to those purchasers advancing funds throughout the contract period through credits which include interest costs incurred by such purchasers for funds contributed to the Secretary of the Interior for the Uprating Program.

SEC. 206. Reimbursement of funds appropriated for construction of facilities authorized under section 201(a) of this Act, inclusive of any funds advanced by non-Federal purchasers, shall be a repayment requirement of the Boulder Canyon Project beginning with the first day of the month following completion of the installation, except that the costs of the Visitor Facilities Program as defined in section 201(a) of this Act shall become a repayment requirement beginning June 1, 1987, or when substantially completed, as determined by the Secretary of the Interior, if later.

SEC. 207. This Act shall not be construed to either support or prejudice:

(a) claims concerning the existence or scope of any right to renew a contract in effect on the date of this Act for purchase of electrical energy generated at Hoover Dam, including, but not limited to, any right to increased capacity resulting from the Uprating Program, or

(b) claims concerning the existence or scope of preference in the purchase of electrical energy generated at Hoover Dam, in-

cluding, but not limited to, any right to increased capacity resulting from the Uprating Program,

(c) any right to determine by arbitration or court proceedings any dispute or disagreement as to the interpretation or performance of any provisions of this Act or any other laws of the United States in effect on the date of this Act, or the Criteria or Regulations, either to be published or subsequently amended relating in any way to allocation of energy generated at Hoover Dam from capacity existing on the date of this Act or increased capacity resulting from the Uprating Program.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

DISCHARGE AND REFERRAL OF S. 278

Mr. BAKER. Mr. President, next I would propose to discharge the Energy Committee from further consideration of S. 278, a bill to designate the Lowndesville Recreation Area as the "Jim Rampey Recreation Area," and then to refer that matter to the Committee on Environment and Public Works, if the minority leader will concur in that request.

Mr. BYRD. I have no objection to that request.

Mr. BAKER. Mr. President, I make that request.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and it is so ordered.

AUTHORIZATION OF TESTIMONY AND PRODUCTION OF DOCUMENTS

Mr. BAKER. Mr. President, I send to the desk a resolution for myself and the distinguished minority leader dealing with the authorization for the production of documents in litigation, and I ask for its immediate consideration.

The PRESIDING OFFICER. The resolution will be stated by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 200) to authorize testimony and production of documents in the case of State of Florida v. Charles H. Rogers, Jr., Cr. No. 83-14931.

The PRESIDING OFFICER. Is there objection to the present consideration of the resolution?

There being no objection, the Senate proceeded to consider the resolution.

Mr. BAKER. Mr. President, this resolution would authorize testimony by Barbara Schwartz and Rusty Roberts, employees in Senator HAWKINS' office, and Patti Allen, a former employee, in the case of State of Florida against Charles H. Rogers, Jr., which is pending in the Circuit Court for the 11th Judicial Circuit of Florida, Dade County. Counsel for the State has requested this testimony at the trial, which is set for October 3, 1983. This criminal prosecution charges a scheme of fraud, including mail fraud, under the Florida statutes. This resolution would authorize Ms. Schwartz, Ms. Allen, and Mr. Roberts to testify and produce documents regarding the charges underlying the prosecution.

The PRESIDING OFFICER. The question is on agreeing to the resolution.

The resolution (S. Res. 200) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 200

Whereas, the case of *State of Florida* v. *Charles H. Rogers, Jr.*, Criminal Action No. 83-14931, is set for trial on October 3, 1983, in the Circuit Court of the Eleventh Judicial Circuit of Florida, In and For Dade County;

Whereas, counsel for the state has requested the production of documents and the testimony of Barbara Schwartz and Rusty Roberts, Senate employees in Senator Hawkins' Winter Park, and Miami, Florida offices, respectively, and Patti Allen, a former employee in Senator Hawkins' Winter Park office;

Whereas, by the privileges of the Senate of the United States and Rule XI the Standing Rules of the Senate, no evidence under the control or in the possession of the Senate can, by the judicial process, be taken from such control or possession but by permission of the Senate;

Whereas, when it appears that production of documents and the testimony of an employee of the Senate is needful for use in any court for the promotion of justice, the Senate will take such action thereon as will promote the ends of justice consistently with the privileges and rights of the Senate: Now, therefore, be it

Resolved, That Barbara Schwartz, Rusty Roberts, and Patti Allen are authorized to produce documents and to testify in the case of *State of Florida* v. *Charles H. Rogers, Jr.*, Criminal Action No. 83-14931, except concerning documents and/or matters that are privileged from disclosure.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ORDER FOR CERTAIN ACTION DURING ADJOURNMENT AND PROCEDURE UPON RECONVENING

Mr. BAKER. Mr. President, I have a unanimous consent request in respect to the status of the adjournment and our return after the statutory August recess, and if the minority leader is prepared to consider that request at this time, I will state it.

Mr. BYRD. Mr. President, we are prepared on this side on the aisle.

Mr. BAKER. I ask unanimous consent that during the adjournment of the Senate over until Monday, September 12, messages from the President of the United States and the House of Representatives may be received by the Secretary of the Senate and appropriately referred, and that the Vice President, President pro tempore, and Acting President pro tempore may be authorized to sign duly enrolled bills and joint resolutions.

I further ask unanimous consent that during the adjournment of the Senate over until September 12, committees may be authorized to file reports on Thursday, September 1, between the hours of 9 a.m. and 3 p.m.

Finally, I ask unanimous consent that when the Senate reconvenes on Monday, September 12, the reading of the Journal be dispensed with, no resolutions come over under the rule, the call of the calendar be dispensed with, and following the time allocated to the two leaders under the standing order, there be a period for the transaction of routine morning business not to exceed 1 hour in length, with Senators permitted to speak therein for not more than 10 minutes each; provided further that the morning hour be deemed to have expired.

Mr. BYRD. Mr. President, reserving the right to object—and I will not object—I have two questions of the distinguished majority leader.

One, what time will the Senate convene on Monday, September 12?

Mr. BAKER. Mr. President, I make two inquiries: One, the number of the adjournment resolution sent to us by the House of Representatives and which has been adopted by the Senate.

The PRESIDING OFFICER. According to House Concurrent Resolution 153, the Senate will reconvene at 12 noon.

Mr. BAKER. I thank the Chair.

It is House Concurrent Resolution 153. Is that correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. BYRD. I thank the Chair.

The other reservation I would make has to do with the question of who is the Acting President pro tempore.

Mr. BAKER. Mr. President, I put the question to the Chair, in turn, in the nature of a parliamentary inquiry: How would that request be interpreted by the Chair?

The PRESIDING OFFICER. As of this moment, there is no Acting President pro tempore, none having been appointed by the President pro tempore.

Mr. BAKER. But the answer implicit in that answer, it seems to me, is that the Acting President pro tempore would be any Senator so designated by the President pro tempore under the rules of the Senate. Is that correct?

The PRESIDING OFFICER. He has the right to make that designation.

Mr. BAKER. I thank the Chair.

Mr. President, does the minority leader have any further inquiry on that subject? So far as I am concerned, I have no problem with that provision.

Mr. BYRD. I have no problem with it, Mr. President.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Mr. President, the Executive Calendar remains to be done, and I wonder if we are ready now to undertake that.

Mr. BYRD. Mr. President, I understand that the Acting President pro tempore will be a Senator designated for such purpose by the President pro tempore.

Mr. BAKER. That is my understanding as well, Mr. President.

The PRESIDING OFFICER. The Chair advises that there is no necessity that one be designated.

Mr. BAKER. But one may be designated.

The PRESIDING OFFICER. The Senator is correct—one may be designated.

Mr. BYRD. If there is need for it.

CRITICAL AGRICULTURAL MATERIALS

Mr. DOLE. Mr. President, I have been discussing with the distinguished chairman of the Agriculture Committee whether or not there is any hope that we might get up the compromise farm bill or any portion thereof before we adjourn.

The chairman has been very good about getting everything out of the committee but once it gets to the Chamber we seem to get hung up not through any fault of the chairman. He has been ready to go for 2 weeks. We were ready to go last December on the PIK bill. But we seem to have some who just obstruct legislation at the last moment, and I think it is shortsighted.

I agree with the view shared by the chairman in the deliberations of the committee that we should move this legislation. We did it in the committee. It was done on a consensus basis. It was not partisan in any sense of the word.

I commend the chairman for that. If he has any more rabbits he can pull out of his hat at this late hour it would be appreciated.

Mr. HELMS. Mr. President, I say to the Senator from Kansas the hutch is empty. We met, as he knows, late last evening, trying to work out some accommodation among Senators. Apparently that is not possible.

I agree with the able Senator from Kansas that it looks a little bit futile as of now. But I think we should confer with the distinguished majority leader to see if he perceives that there might be a window that we could take at least some part of this legislation and consider it.

When I talked to the majority leader an hour and a half ago, he did not see that possibility. But maybe, the situation being fluid as it is, there is now some opportunity. However, I must say to the Senator that I doubt it.

While I am on my feet and while the Senator is yielding to me, I wish to say that I commend the distinguished Senator from Kansas and express my gratitude to him for the leadership that he has constantly shown in helping move legislation to the Senate Calendar. As he says, we reported it out of the committee and it is on the calendar but there it stops.

I would hope that Senators would reconsider their positions because about $1 billion worth of income, as I understand it, is involved for the farmers of this country. As long as this Senate is gripped by the inertia of this filibuster the farmers are going to be deprived of that money and that income.

I share that hope with the Senator from Kansas that maybe we might find some sort of a window today to move it along.

I thank the Senator.

Mr. DOLE. I thank the distinguished chairman.

I talked to a number of people representing various farm groups who are anxiously awaiting a final decision.

I have indicated to them, as the chairman has, and we have had discussions, as the chairman knows, as recently as last night, off the Senate floor in the Vice President's room, with the chairman of the committee presiding, trying to hammer out the difference.

Frankly, it seemed to many of us the big hangup was in the wheat and feedgrain section.

As I indicated yesterday in the Chamber, the chairman of the committee had authorized those of us in heavy production areas to try to work out something as he has always done in the past, and we are very grateful for that.

We believe we had a consensus. The National Association of Wheat Growers, for example, said they would not oppose the compromise. The Kansas Association of Wheat Growers said they would actively support the compromise.

I wish to express my appreciation to the chairman for giving us all of that time to try to work it out.

We have had great success in getting major legislation out of the committee but I guess we cannot fault any Senator who wants to hold it up on the Senate floor. So I want to express my thanks for all the committee members on both sides of the aisle for the courtesies extended us by the chairman not only this year but over the years, and for his willingness to get it out on the floor and give the Senate a chance to work its will. It is only 2:15 and there is still a chance for the distinguished senior Senator from Montana and others who seem to not want to do anything to change their minds.

Mr. HELMS. I thank the Senator.

I am reluctant to interrupt the distinguished majority leader, but I wonder if I might ask him if he sees any possibility of moving this target price legislation. Does he know of any development that Senator DOLE and I have not heard about?

Mr. BAKER. Mr. President, I regret I must say I do not. I depended on the distinguished chairman of the committee, who has worked very, very hard to try to reconcile the conflicts, and Senator DOLE who has done so as well and Senator JEPSEN and others. I met with them. I queried them periodically, and others, about the prospect, and hopes have been up and down but right now I have to tell you I do not see any prospect we are going to be able to work out an agreement.

In these, the waning hours of the Senate before the August recess, unless we have an agreement, there is simply no time to take up the bill. That does not mean we are not going to have an agriculture target price bill. I hope we will and after we come back maybe things will look different. But I do not see any realistic prospect of doing it today.

Mr. HELMS. The distinguished majority leader participated in the meeting last evening. He knows we moved that close—and, of course, the CONGRESSIONAL RECORD cannot show that I have my fingers about an inch apart—in reaching an accommodation, and I just regret, I say to my friend from Tennessee, that we were not able to get an agreement that he so ably assisted in trying to achieve.

But may I ask the majority leader not to be final in his judgment that no action, no compromise or no accommodation can be reached, and let us continue to work.

Mr. BAKER. Yes, Mr. President, I encourage the chairman of the committee and all other Senators to continue to work on it, and I pledge to them my aid and assistance, for whatever that is worth.

Mr. HELMS. One final question and I will not bother you further. Have you announced the plans of the Senate with respect to an adjournment or recess?

Mr. BAKER. Mr. President, I have not. I advised the minority leader a few moments ago that I had a meeting with the distinguished chairman of the Armed Services Committee at 3 o'clock and at 3 o'clock I will have another reading on the progress of the conferees on the DOD bill and we will make a final judgment about the time for adjournment then.

Mr. HELMS. Very well.

Mr. BAKER. I said a day or two ago I hoped we get out tonight and I still hope so, but I would like to reserve judgment on it until I have the report from Senator TOWER.

Mr. HELMS. I hope you do, and I thank you for giving us that last opportunity to try to work something out because, as I said earlier in my colloquy with the distinguished Senator from Kansas, we are talking about a billion dollars worth of income to the farmers of this country, and I would like to work it out if we can, and I want to say to the majority leader that I am so deeply grateful for his patience and his cooperation throughout this ordeal.

Mr. BAKER. Well, Mr. President, it has been an ordeal and I am grateful to the chairman of the Agriculture Committee for his work. He has been most diligent and effective in bringing the parties very close together, and I thought for a while last night that we had it made. But once more it slipped away from us. But we will keep trying.

Mr. HELMS. Thank you.

Mr. BAKER. I thank the Senator.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. HAWKINS). Without objection, it is so ordered.

WE MUST REPAIR OUR UNEMPLOYMENT INSURANCE SYSTEM

Mr. BYRD. Madam President, the economic indicators signal that we have begun to climb out of the depths of the recession in which we have been mired since July 1981. However, we must not forget that recovery still will be a very long time coming for many millions of Americans who lost their jobs and, in many cases, their possessions and homes as well.

Unemployment while it has been falling for the past several months, is still at a terribly high level on a nationwide basis. The national total unemployment rate in June, the latest month for which the Department of Labor has announced figures, was 10 percent.

No Member of this body should rest while we have over 11 million persons in the American work force who are idle; while 5.7 million are working part time because they cannot find full time work; and while 1.7 million are still so discouraged as a result of their unsuccessful search for work that they have dropped out of the labor force altogether, and are not counted among the officially unemployed.

And the picture is even bleaker in some of the States that have been hardest hit by the recession. In May, the last month for which the U.S. Labor Department has compiled comprehensive figures, my State of West Virginia had an 18.2 percent unemployment rate. Michigan had a 14.7-percent unemployment rate. Ohio had a 12.9-percent rate. All told, 19 States and the District of Columbia had rates over 10 percent.

It is also important to note that those who have been laid off in this recession are remaining unemployed longer than in previous recessions. In May of this year, 1.55 million workers had been unemployed for a full 12 months, and this does not count the structurally unemployed who have not worked in recent years. One revealing statistic is the "cumulative weeks of current national unemployment"—the product of multiplying the number of unemployed persons by the average time that they have been without work. While the national unemployment rate finally is falling, the "cumulative weeks of current national unemployment" still is increasing. It rose from 215.2 million in April to 228.3 million in May.

The "cumulative weeks of current national unemployment" in 1980 was approximately 90 million. Today it is nearly 230 million, over 250 percent of what it was only 3 years ago.

Just yesterday morning, we were greeted by headlines in the major newspapers announcing that "U.S. Poverty Rate Rises to 15 Percent" during the past year, and the accompanying article states that we now have the highest national poverty rate since 1965—the highest rate in nearly 20 years.

I, as have many of my colleagues, repeatedly described in this Chamber over the past 2 years the plight of the unemployed. I need not do that again today. We all know what happens when a worker loses his or her job and exhausts the family's savings.

Fortunately, the Congress has provided unemployment insurance as a partial cushion. However, the unemployment insurance system currently is not functioning to provide the degree of cushioning that the Congress intended. This is true primarily with respect to programs of additional benefits beyond those available through the regular or basic unemployment insurance programs operated wholly by the States. The system simply has been overcome by the severity of this recession and the magnitude of unemployment we have experienced and continue to experience.

Presently, although 20 of the 53 States and other jurisdictions have unemployment rates above 10 percent, and the national unemployment rate is 10 percent—very severe unemployment by historical standards—only 5 States plus Puerto Rico and the Virgin Islands are eligible for extended benefits—the second of three tiers or benefits available through the unemployment insurance system. This unacceptable situation is primarily the result of two factors. First, the Congress made two changes in 1981 in the use of the insured unemployment rate (the IUR) which is used to determine the eligibility of States for the program. One increased the level of the IUR a State must have to qualify. The other omits from the computation of the IUR all persons who are receiving extended and supplemental benefits. The IUR continues to omit in its computation all persons who have exhausted all unemployment insurance benefits, as it did before 1981.

Even had these changes not been made, however, use of the IUR as the sole eligibility determinant for the extended benfits program was badly flawed. States that are hardest hit by unemployment—particularly where the average duration of unemployment is highest—are substantially disadvantaged, because a greater proportion of their unemployed populations are not counted in the IUR. This distorting effect generally is greatest as a State's unemployment rate peaks and begins to fall but still remains very high—as currently is the case in many States. My own State of West Virginia provides a vivid example: While its total unemployment rate currently is 18.2 percent, its IUR is only 7.84 percent.

In addition to this unacceptable situation with the extended benefits program, we are facing another crisis in the supplemental benefits program—the third or last tier of benefits. This tier expires again on September 30, when unemployment is likely to be only slightly, if at all, improved from the current 10 percent. It is absolutely unthinkable that Congress will not continue to provide weeks of benefits equal to or greater than the number now available when the weeks of supplemental benefits are counted, and yet we must go through the motions to be sure that the program is reauthorized again, and avoid an interruption that could be devastating for the unemployed and their families who are dependent on these benefits while they cannot find work.

There is yet a third major problem with the portions of the unemployment insurance system that are superimposed on top of the basic State unemployment insurance programs. This problem is not one of absence or inadequacy of benefits, although those problems also are present. Rather, it is the confusion, distress, and cynicism that result from one of the most complicated programs operated at any level of Government in this Nation—that result from a program that is sup-

posed to help those who have fallen upon hard times but instead often stymies and boggles the mind. It defies understanding by the workers it is designed to protect, by the employers who pay into its trust funds, by the taxpayers who finance some of its benefits through general revenues, and, indeed, by the Members of Congress who are its creators, and the Federal and State administrators who are charged with operating it.

How do we explain that only five States are eligible for extended benefits when unemployment is higher than at any time in the past 40 years except during other months of this same recession? How do we explain that only 5 States are eligible for the middle tier of benefits while all 50 States are eligible for the third and top tier of benefits? How do we explain that the long-term unemployed in a State are promised a certain number of weeks of supplemental benefits when they become eligible, but that number of weeks may change three or four times during the course of their respective eligibilities? How do we explain that the measurement of a State's unemployment that determines whether it is eligible for extended benefits at all, and how many weeks of supplemental benefits its unemployed can receive, deliberately does not count those among its unemployed who have been out of work the longest, including those who currently are receiving benefits under those very two programs? How do we respond to the jobless workers and their families who must depend on unemployment insurance because they cannot find work, and to the harried program administrator who must operate these programs, when they each agonize because they do not know whether there will be a third tier of benefits in just over 8 weeks when the current program expires—and, if so, how many weeks of benefits it will provide?

Madam President, the extended benefits and supplemental benefits programs are crying out for repair. The basic idea of such additional benefits is sound; it is, in fact, essential. But these programs must be repaired so that they actually will provide the protection they were intended to provide. They must be repaired so they will be dependable. And they must be repaired so that those who need benefits beyond those provided in basic State programs, those who pay the costs, and those who operate the programs can understand what help is available, how to obtain it, how much it costs, and how to operate the programs providing it efficiently.

These are not minor reforms. They cannot be accomplished by tinkering with the programs. It is time for a real overhaul of the system beyond the basic benefit programs at the State level.

Earlier this week, the Finance Committee held a hearing on the inadequacy of the extended benefits program. I believe it is completely clear that major revisions in the program are required immediately. As I mentioned a few moments ago, the supplemental benefits program expires in September and Congress must act to make certain that these benefits are not lost while unemployment remains at crisis levels in many States. Now is the time to make sense out of these two programs, and to combine them in such a way that they complement each other rather than exacerbate the flaws in the other.

There are a number of changes that need to be made. I wish to highlight the most important.

First, rather than having two programs that operate according to inexplicably conflicting State eligibility standards and result in incomprehensible durations of benefits, there should be only one program providing benefits beyond those available through the basic programs operated by the States.

Second, rather than having, as in the current extended benefits program, State eligibility requirements that dictate a State is eligible for all or nothing of the current 13-week benefit period, the program should be structured as the supplemental benefits program now is structured—where States with the highest levels of unemployment are eligible for the greatest number of weeks of benefits, and those benefits stage down as unemployment rates are lower.

Third, States should be eligible for at least the lowest tier of benefits when their insured unemployment rates are 4 percent or greater: The 5-percent threshold established in the Reconciliation Act of 1981 simply is too high.

Fourth, the use of the insured unemployment rate as the sole determinant of eligibility no longer is acceptable when the difference between the insured and the total unemployment rates often is 100 percent or greater. It is well established that the total unemployment rate compiled each month by the Bureau of Labor Statistics is based on a national sample, and that the probability of significant error is very high with respect to States with smaller populations because the sample size is so small there. Admittedly its use is not ideal. But surely it is apparent that use of the IUR is far from ideal. As a practical matter, we cannot tolerate a methodology that causes a State with 15-percent unemployment to receive only a very few weeks of benefits beyond those in the basic program. So, although efforts should be redoubled to find a "better mousetrap," in the meantime we must employ the total unemployment rate to assure that States and their long-term unemployed workers are treated fairly.

Fifth, and finally, the financing of the program must be arranged so that, as a State's unemployment rate increases, the Federal Government will pay an increasing share of the benefits in that State. This can be justified on the grounds that it is extremely likely that heavy unemployment in any State will be largely the result of economic circumstances beyond its borders and control. It also is necessary in order to minimize future incurrence of the heavy debts that have been incurred by the trust funds of those States that have been hit hardest by unemployment in the current recession. To ignore this situation will result in ever-increasing employer taxation—which may well serve as a disincentive to private sector hiring—with the greatest increases in taxes falling in the States that have had the worst unemployment and are in greatest need of new hiring.

Madam President, today I have the privilege of joining with the distinguished senior Senator from Pennsylvania in introducing legislation that will do precisely these things which must be done, and which will make other changes of a more technical nature that nonetheless also are very important.

At a time when we all are hopeful that the corner has been turned toward national economic recovery, we must not forget those who are the victims and remain the victims of this sad episode in our Nation's economic history. We must take steps to assure that the cushion of unemployment assistance actually is available to those who need it.

The bill we are introducing will make the essential improvements in the unemployment insurance system that need to be made now.

I am pleased to join with Senator HEINZ in proposing this legislation and to welcome as cosponsors Senators LEVIN, SPECTER, MOYNIHAN, and MATSUNAGA who have expressed their support today.

I urge my colleagues on both sides of the aisle to cosponsor this bill which is being introduced by Members from both sides of the aisle in a true spirit of bipartisanship. I hope that the Finance Committee which has purview over these programs will study it carefully over the coming recess period, and will move speedily to consider it as soon as the Congress reconvenes in September.

I stand ready to work with the Finance Committee to perfect this legislation, so that we can take the steps that we need to take before we face a crisis caused by the expiration of the supplemental benefits program on September 30.

Madam President, I ask unanimous consent that a summary of the purposes of this bill, a table showing the distribution of benefits and financing mechanisms it provides, a brief listing of all its provisions, and the text of the bill itself be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

REPLACEMENT OF THE CURRENT EXTENDED BENEFIT AND FEDERAL SUPPLEMENTAL COMPENSATION PROGRAMS WITH A CONSOLIDATED PROGRAM

OBJECTIVES

A consolidated program providing benefits beyond those available under the states' basic unemployment insurance programs (generally a maximum of 26 weeks of benefits) is proposed for several reasons:

(1) in order to remedy the current problems with the Extended Benefits program, wherein many states with high unemployment have been ineligible to participate in it because of various "quirks" in its eligibility criteria;

(2) in order to simplify the unemployment insurance system, so that it can be better understood by the public, by public policymakers, by businesses required to support part of its costs through employment taxes, and by those needing its benefits;

(3) in order to offer relief from terrible pressures on unemployment trust funds caused by heavy eligibility for extended benefits in those states beset by high unemployment currently or in the future; and

(4) in order to set in place a permanent program providing a maximum duration of benefits beyond that available currently from the combination of basic and extended benefits, with the duration of benefits available to any state varied on the basis of the state's level of unemployment, removing the necessity for special Congressional action during periods of extreme economic distress and preventing harmful delays in additional assistance reaching the unemployed in distressed states.

The proposed program replaces both the Extended Benefits and Federal Supplemental Compensation programs.

BENEFIT AND FINANCING STRUCTURE OF THE PROGRAM

The following benefits will be available to each state's long-term unemployed persons, based on the state's Insured Unemployment Rate (IUR) or on its Total Unemployment Rate (TUR) (whichever results in a greater number of weeks of benefits for the state), with costs being covered by the state and federal governments as indicated:

When State IUR equals (percentage)	And IUR is "X" percent or greater of prior year [1]	Or TUR is "Y" percent or greater	Unemployed persons receive "Z" weeks of benefits [2]	Costs split: State share/ [3] Federal share (percentages)	Percent Federal share from trust fund [4]/ general revenue
0 to 3.99		NA	0		
4 to 4.99	130	9.0	10	50/50	100/0
5 to 5.99	105	10.0	20	40/60	75/25
6 to 6.99	105	11.0	25	30/70	50/50
7 and above	105	12.0	30	20/80	25/75

[1] I.e., "X" percent of the average of the IUR in the same week in each of the six previous years.

[2] When the national seasonally adjusted total unemployment rate equals or exceeds 10 percent, unemployed persons in States in the 0 to 3.99 percent IUR tier will be eligible for 5 weeks of "additional benefits", and 5 additional weeks will be paid (beyond the number listed) for each other tier—with all such weeks being 100 percent Federal general revenue funded.

[3] State share to be paid from the State trust fund.

[4] Federal trust fund revenues derived from FUTA.

OTHER ALTERATIONS IN CURRENT LAW WITH RESPECT TO THE EXTENDED AND SUPPLEMENTAL BENEFITS PROGRAMS

If a state qualifies on the basis of IUR for a particular tier, but fails to qualify on the basis of the "percentage of prior years" factor, it automatically qualifies for the next lower tier.

If a state has high total unemployment, but a low IUR, the number of weeks of benefits for which it will be eligible will be determined on the basis of its TUR (as noted in the chart above) if that will result in a greater number of weeks of benefits in the state.

The "percentage of prior years" factor will be qualified on the basis of a six-year average rather than a two-year average.

The IUR will be seasonally adjusted.

Each state will have four identical "Benefit Duration Periods" during each federal fiscal year of three-month duration. The number of weeks, if any, of "Additional Benefits" to be paid will be determined at the beginning of that period, and the state will pay that number of weeks of benefits until the next "Benefit Duration Period" begins three months later. Each "Benefit Duration Period" will begin on the first Sunday following the first day of the month beginning each quarter, with the first quarter beginning with October of each year.

When a person becomes eligible for "Additional Benefits", he will be eligible for the number of weeks of benefits in effect in the state at the time he gained eligibility for "Additional Benefits", and will remain eligible for that number of weeks of benefits regardless of whether the state falls to a lower tier of benefits. If the state rises to a higher tier of benefits during his term of "Additional Benefits" eligibility, his duration of benefit eligibility is extended by the difference between the two. Provided, that if a state falls from one tier of benefit duration to a tier two or more below it during the course of the individual's eligibility for "Additional Benefits", the duration of benefits for that individual will be adjusted to the proper number of weeks of benefits at that lower tier (by subtracting from the number of weeks of benefits payable at that lower tier the number of weeks of "Additional Benefits" previously paid to that individual—but in no case will that number be fewer than 2 weeks).

When a person eligible for "Additional Benefits" moves to another state, he remains eligible under the provisions governing his eligibility in the state from which he moved, and that state will continue to pay benefits to him as though he were a resident of the state from which he moved (including duration of benefits).

With respect to any individual, a state is granted flexibility to modify the requirement for active work search, and provision to the Employment Service of tangible evidence of same, currently applicable to the Extended and Supplement Benefits program if the state determines that labor market conditions in both the labor market areas in which the individual works and resides are so depressed that such efforts as normally are required likely will not result in employment, in accord with regulations to be promulgated by the Secretary.

In order to be eligible for "Additional Benefits", an unemployed person must participate in one week of an intensive job search program administered by the Employment Service if the Employment Service requests such participation and provides such a program that is accessible to the unemployed person.

TRANSITION PROVISIONS

The effective date of all changes noted above will vary in each state. Each state must modify its program to align with the new federal requirements no later than two months following the adjournment of the first session of that state's legislature that adjourns no earlier than four months after the date of the enactment of this Act. The Extended Benefits program and the Supplemental Benefits program (if any is still in effect at that time) will cease to be available to unemployed persons in that state on that date. Until that date, the state may proceed under current law (as that law may otherwise be modified in the meantime).

The FSC program is extended in its current form (Social Security Amendments), including the phase-out provision, but omitting the look-back provision, through March 31, 1984.

The 120 percent factor in the Extended Benefits Program is repealed.

The state option for use of the TUR as an eligibility factor for Extended Benefits, as contained in S. 1589 (98th), is effective through March 31, 1984.

OTHER PROVISIONS

The Department of Labor is required to make a study of new and more accurate measurements of unemployment for use in unemployment insurance programs, and to submit its findings and recommendations to the Congress no later than June 1, 1984.

The Bureau of Labor Statistics is instructed to expand by a factor of 3 its sample size for determining the Total Unemployment Rate, giving special consideration to increasing the statistical reliability of each individual state's TUR calculation, and such sums as may be necessary are authorized to fund this expanded sample.

S. —

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This Act may be cited as the "Extended Unemployment Compensation Act of 1983".

NUMBER OF WEEKS OF EXTENDED UNEMPLOYMENT COMPENSATION

SEC. 2. (a) Section 202(b)(1) of the Federal-State Extended Unemployment Compensation Act of 1970 is amended—

(1) by inserting after the first sentence the following new sentence: "The amount of extended compensation payable to any individual for any eligibility period shall not exceed the amount established in such individual's account for the benefit year in which such eligibility period begins.";

(2) in subparagraph (A), by striking out "50 per centum" and inserting in lieu thereof "116 percent";

(3) in subparagraph (B), by striking out "thirteen" and inserting in lieu thereof "the applicable limit determined under paragraphs (2) and (3),"; and

(4) in subparagraph (C), by striking out "thirtynine" and inserting in lieu thereof "a number equal to 26 plus the applicable limit determined under paragraphs (2) and (3).".

(b) Section 202(b) of such Act is amended by redesignating paragraph (2) as paragraph (5) and by inserting after paragraph (1) the following new paragraphs:

"(2) The applicable limit for purposes of paragraph (1) is—

"(A) 30 weeks in the case of weeks beginning in a 7-percent period;

"(B) 25 weeks in the case of weeks beginning in a 6-percent period;

"(C) 20 weeks in the case of weeks beginning in a 5-percent period;

"(D) 10 weeks in the case of weeks beginning in a 4-percent period;

"(E) 0 weeks in the case of weeks beginning in a low-unemployment period,

as such periods are defined in section 203.

"(3) Each of the applicable limits under paragraph (2) (including limits determined under the alternate method provided in section 203(h)) shall be increased by 5 weeks in the case of weeks beginning in a 'national high-unemployment period' as defined in section 203(g).

"(4)(A) Except as provided in subparagraphs (B) and (C), the applicable limit for an individual's compensation account shall be based upon the applicable limit in effect for the benefit duration period in which such individual's eligibility period begins, and shall remain in effect with respect to such individual for the duration of such eligibility period, without regard to subsequent changes in the applicable limit in effect for such State.

"(B) If, during an individual's eligibility period, the applicable limit for the State falls more than one level (determined on the basis of the 5 levels described in paragraph (2)) below the limit in effect for the benefit duration period in which such individual's eligibility period began, the applicable limit for such individual's account shall be reduced to the applicable limit in effect at such lower level; except that—

"(i) such new applicable limit shall not be less than 2 weeks, and

"(ii) compensation paid to such individual by reason of the higher applicable limit previously in effect shall not be considered an overpayment.

"(C) If, during an individual's eligibility period, the applicable limit for the State increases, the applicable limit for such individual's account shall be increased to such higher limit.".

(c) Section 202 of such Act is amended by striking out subsection (c) and inserting in lieu thereof the following:

"ELIGIBILITY PERIOD

"(c) An individual's eligibility period for any benefit year shall consist of the first week in such benefit year for which he meets the requirements of subsection (a)(1), and those subsequent weeks of unemployment in such benefit year (or in the following benefit year if consecutive from the last week of the prior benefit year), but shall not exceed the number of weeks equal to the applicable limit for such individual as determined under subsection (b).

"PAYMENT OF EXTENDED COMPENSATION UNDER INTERSTATE CLAIM

"(d) The amount and duration of extended compensation payable to an individual under the interstate benefit payment plan shall be the same as if such individual were filing his claim in the State which establishes such individual's extended compensation account.".

UNEMPLOYMENT PERIODS

SEC. 3. Section 203 of the Federal-State Extended Unemployment Compensation Act of 1970 is amended to read as follows:

"UNEMPLOYMENT PERIODS

"BENEFIT DURATION PERIOD

"SEC. 203. (a) Each benefit duration period established under this section shall be a three-month period, beginning on the first Sunday of January of each year, and the first Sunday of every third month thereafter.

"SEVEN-PERCENT PERIOD

"(b) A benefit duration period shall be a '7-percent period' with respect to a State if the adjusted rate of insured unemployment under the State law for the period consisting of the first week of such benefit duration period and the immediately preceding 12 weeks—

"(1) equaled or exceeded 7 percent, and

"(2) equaled or exceeded 105 percent of the average of such rates for the corresponding 13-week period ending in each of the preceding 6 calendar years.

"SIX-PERCENT PERIOD

"(c) A benefit duration period shall be a '6-percent period' with respect to a State if the adjusted rate of insured unemployment under the State law for the period consisting of the first week of such benefit duration period and the immediately preceding 12 weeks—

"(1) (A) equaled or exceeded 6 percent but was less than 7 percent, and

"(B) equaled or exceeded 105 percent of the average of such rates for the corresponding 13-week period ending in each of the preceding 6 calendar years; or

"(2) equaled or exceeded 7 percent, but did not meet the requirement of subsection (b) (2).

"FIVE-PERCENT PERIOD

"(d) A benefit duration period shall be a '5-percent period' with respect to a State if the adjusted rate of insured unemployment under the State law for the period consisting of the first week of such benefit duration period and the immediately preceding 12 weeks—

"(1) (A) equaled or exceeded 5 percent but was less than 6 percent, and

"(B) equaled or exceeded 105 percent of the average of such rates for the corresponding 13-week period ending in each of the preceding 6 calendar years; or

"(2) equaled or exceeded 6 percent and was less than 7 percent, but did not meet the requirement of subsection (c) (1) (B).

"FOUR-PERCENT PERIOD

"(e) A benefit duration period shall be a '4-percent period' with respect to a State if the adjusted rate of insured unemployment under the State law for the period consisting of the first week of such benefit duration period and the immediately preceding 12 weeks—

"(1) (A) equaled or exceeded 4 percent but less than 5 percent, and

"(B) equaled or exceeded 130 percent of the average of such rates for the corresponding 13-week period ending in each of the preceding 6 calendar years; or

"(2) equaled or exceeded 5 percent and was less than 6 percent, but did not meet the requirement of subsection (d) (1) (B).

"LOW-UNEMPLOYMENT PERIOD

"(f) A benefit duration period shall be a 'low-unemployment period' with respect to a State if the adjusted rate of insured unemployment under the State law for the period consisting of the first week of such benefit duration period and the immediately preceding 12 weeks was less than 4 percent.

"NATIONAL HIGH-UNEMPLOYMENT PERIOD

"(g) A benefit duration period shall be a 'national high-unemployment period' with respect to all States if the national seasonally adjusted total rate of unemployment (as determined by the Bureau of Labor Statistics) for the period consisting of the first week of such benefit duration period and the immediately preceding 12 weeks equaled or exceeded 10 percent.

"ALTERNATE DETERMINATION OF BENEFIT DURATION PERIOD BASED UPON TOTAL RATE OF UNEMPLOYMENT

"(h)(1) If the application of the provisions of this subsection results in a higher applicable limit for a State under section 202(b)(2), the applicable limit for such State for purposes of section 202(b)(2) shall be determined under this subsection, rather than under subsections (b) through (f).

"(2) A State shall be deemed to be in a '7-percent period', '6-percent period', '5-percent period', or '4-percent period' if—

"(A) in the case of a State for which the Bureau of Labor Statistics compiles data on a month-to-month basis with respect to the seasonally adjusted total unemployment rate, such adjusted rate for such State for the month preceding the month in which such week begins falls within the applicable range described in paragraph (3); or

"(B) in the case of a State not described in suparagraph (A)—

"(i) the average monthly total rate of unemployment for such State for the 12-month period immediately preceding the month in which such week begins falls within the applicable range described in paragraph (3), and

"(ii) the total rate of unemployment for such State for the month preceding the month in which such week begins falls within such applicable range.

"(3) For purposes of paragraph (2), the applicable range is as follows:

"In the case of a:	The applicable range is:
7-percent period	A rate equal to or exceeding 12 percent.
6-percent period	A rate equal to or exceeding 11 percent but less than 12 percent.
5-percent	A rate equal to or exceeding 10 percent but less than 11 percent.
4-percent period	A rate equal to or exceeding 9 percent but less than 10 percent.

"ADJUSTED RATE OF INSURED UNEMPLOYMENT

"(i)(1) For purposes of this section, the term 'adjusted rate of insured unemployment' means the percentage arrived at by dividing—

"(A) the average weekly number of individuals filing claims for regular compensation for weeks of unemployment with respect to the specified period, as determined on the basis of the reports made by the State agency to the Secretary, by

"(B) the average monthly covered employment for the specified period,

and seasonally adjusted in the same manner as the total rate of unemployment is seasonally adjusted as determined by the Bureau of Labor Statistics.

"(2) For purposes of determining the adjusted rate of insured unemployment for periods prior to the time such rate was established, the Secretary of Labor shall estimate such rate on the basis of the rate of insured unemployment for such periods and the adjusted total rate of unemployment for such periods.

"(3) The adjusted rate of insured unemployment for any 13-week period shall be determined by references to the average monthly covered employment under the State law for the first four of the most recent six calendar quarters ending before the close of such period.".

PAYMENTS TO STATES

SEC. 4. (a) Section 204(a) of the Federal-State Extended Unemployment Compensation Act of 1970 is amended by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), and by striking out paragraph (1) and inserting in lieu thereof the following:

"(1) There shall be paid to each State an amount equal to the applicable percentage (as determined under paragraph (2)) of the sum of the sharable extended compensation and the sharable regular compensation paid to individuals under the State law.

"(2) Except as otherwise provided in paragraph (3), the applicable percentage is—

"(A) 80 percent with respect to compensation paid during a '7-percent period';

"(B) 70 percent with respect to compensation paid during a '6-percent period';

"(C) 60 percent with respect to compensation paid during a '5-percent period'; and

"(D) 50 percent with respect to compensation paid during a '4-percent period'.

"(3) In the case of sharable extended compensation and sharable regular compensation paid to individuals for additional weeks by reason of section 202(b)(3) (relating to a national high-unemployment period), the applicable percentage is 100 percent.".

(b) Section 204(b) of such Act is amended—

(1) in the heading thereon, by striking out "Shareable" and inserting in lieu thereof "Sharable"; and

(2) by striking out "subsection (a)(1)(A)" and inserting in lieu thereof "subsection (a)(1)".

(c) Section 204(c) of such Act is amended to read as follows:

"SHARABLE REGULAR COMPENSATION

"(c) For purposes of subsection (a)(1), 'sharable regular compensation' means regular compensation paid to an individual for a week of unemployment in such individual's eligibility period—

"(1) to the extent that such amount exceeds an amount equal to 26 times the average weekly benefit amount (including allowances for dependents) for weeks of total unemployment payable to such individual under the State law in the benefit year in which such eligibility period begins; and

"(2) which would qualify as 'sharable extended compensation' under subsection (b) if it were 'extended compensation'.".

(d) Section 205(3) of such Act is amended by striking out "beginning in an extended benefit period".

TRANSFERS TO EXTENDED UNEMPLOYMENT COMPENSATION ACCOUNT

SEC. 5. Section 905(b) of the Social Security Act is amended by adding at the end thereof the following new paragraph:

"(4)(A) In addition to the amounts transferred into the extended unemployment compensation account pursuant to paragraph (1), there are authorized to be appropriated, without fiscal year limitation, to such account, an amount equal to—

"(i) 75 percent of the amount of the Federal payments required to be made to States under section 204(a)(1) of the Federal-State Extended Unemployment Compensation Act of 1970 with respect to compensation paid during a '7-percent period' (as required under section 204(a)(1)(A) of such Act); plus

"(ii) 50 percent of the amount of such Federal payments with respect to compensation paid during a '6-percent period' (as required under section 204(a)(1) (B) of such Act); plus

"(iii) 25 percent of the amount of such Federal payments with respect to compensation paid during a '5-percent period' (as required under section 204(a)(1)(C) of such Act); plus

"(iv) 100 percent of the amount of such Federal payments with respect to compensation paid for additional weeks by reason of section 202(b)(3) (relating to a national high-unemployment period).

"(B) Amounts appropriated pursuant to subparagraph (A) shall not be required to be repaid.".

JOB SEARCH PROVISIONS

SEC. 6. (a) Section (a)(3)(A)(ii) of the Federal-State Extended Unemployment Compensation Act of 1970 is amended by inserting after "seeking work" the following: "; except that, the State, in accordance with regulations of the Secretary, may modify the requirement of this clause to take into account any determination by the State that labor market conditions in the labor market area in which such individual last worked, and in the labor market area in which such individual resides, are so depressed that actively seeking work likely will not result in employment".

(b) Section 202(a)(3)(A) of such Act is amended—

(1) by striking out the period at the end thereof and inserting ": or"; and

(2) by adding at the end thereof the following new clause:

"(iii) unless he participates in an intensive one-week job search program administered by the Employment Service, if requested to so participate.".

REPEAL OF FEDERAL SUPPLEMENTAL COMPENSATION PROGRAM

SEC. 7. Subject to section 8, the Federal Supplemental Compensation Act of 1982 is repealed.

EFFECTIVE DATE

SEC. 8. The amendments and repeal made by sections 2 through 7 of this Act shall become effective on the date of the enactment of this Act, but any State may choose to delay the applicability of such amendments and repeal to that State until a date not later than the first day of the third month which follows the first adjournment of a session of such State's legislature, which adjournment occurs no earlier than four months after the date of the enactment of this Act.

TRANSITION PROVISIONS

SEC. 9. (a) The amendments made by this section shall apply only to the Federal-State Extended Unemployment Compensation Act of 1970, and the Federal Supplemental Compensation Act of 1982, as those Acts apply (without regard to any amendments or repeal made by sections 2 through 7 of this Act) to those States which choose to delay the applicability of the amendments and repeal made by sections 2 through 7 as provided in section 8.

(b)(1) Section 602(f)(2) of the Federal Supplemental compensation Act of 1982 is amended by striking out "September 30, 1983" and inserting in lieu thereof "March 31, 1984".

(2) Section 605(2) of such Act is amended by striking out "October 1, 1983" and inserting in lieu thereof "April 1, 1984".

(c)(1) Section 203(d) of the Federal-State Extended Unemployment Compensation Act of 1970 is amended to read as follows:

"STATE 'ON' AND 'OFF' INDICATORS

"(d)(1) There is a State 'on' indicator for a week if—

"(A) the rate of insured unemployment under the State law for the period consisting of such week and the immediately preceding 12 weeks equaled or exceeded 5 percent; or

"(B) in the case of a State for which the Bureau of Labor Statistics compiles data on a month-to-month basis with respect to the seasonally adjusted total unemployment rate, such adjusted rate for such State for the month preceding the month in which such week begins equaled or exceeded 11 percent; or

"(C) in the case of a State not described in subparagraph (B)—

"(i) the average monthly total rate of unemployment for such State for the 12-month period for which data is available preceding the month in which such week begins equaled or exceeded 11 percent, and

"(ii) the total rate of unemployment for such State for the final month of the 12-month period for which data is available preceding the month in which such week begins equaled or exceeded 11 percent.

"(2) There is a State 'off' indicator for any week for which there is not an 'on' indicator.

"(3) A State may provide by law that subparagraphs (B) and (C) of paragraph (1) shall not apply to such State.

"(4) For purposes of this subsection, the rate of insured unemployment for any 13-week period shall be determined by reference to the average monthly covered employment under the State law for the first four of the most recent six calendar quarters ending before the close of such period.".

(2) The amendment made by paragraph (1) shall apply with respect to weeks beginning after the date of the enactment of this Act and before April 1, 1984.

STUDY OF MEASUREMENTS OF UNEMPLOYMENT

SEC. 10. The Secretary of Labor shall conduct a study, and shall report the results of such study to Congress not later than June 1, 1984, with respect to alternatives to the rate of insured unemployment, which would be available with respect to all States, which might provide a more accurate measurement of the employment and labor market situation in each State.

INCREASED SAMPLE SIZES FOR BUREAU OF LABOR STATISTICS

SEC. 11. (a) The Bureau of Labor Statistics shall increase by threefold the sample sizes used in determining the total rate of unemployment, over such sample sizes used in July, 1983, and shall give special consideration to increasing the statistical reliability of each State's calculation of its total rate of unemployment. Such increase shall apply to sampling done for months beginning after the date of the enactment of this Act.

(b) There are authorized to be appropriated out of the employment security administration account in the Unemployment Trust Fund (established under section 901 of the Social Security Act) such sums as may be necessary to carry out the provisions of subsection (a).

Mr. HEINZ. Will the Senator yield?

Mr. BYRD. Yes, I yield to the Senator from Pennsylvania.

Mr. HEINZ. Madam President, today I join the distinguished Senator from West Virginia in introducing legislation to overhaul our current unemployment compensation system. Our legislation is a bipartisan effort to bring order and reason to a system whose recent history has revealed serious structural flaws.

In my view, this legislation is a major step to addressing those flaws, but I would caution all observers that we recognize that it is a draft, that it will undoubtedly be subject to some further revision. I think I speak for the principal sponsor of the legislation, Senator BYRD, as well as myself, when I say we would welcome comments from the Government, business, and labor to help in refining our approach.

However, the time to begin action on unemployment compensation reform is now, even as the recession appears to be winding down, lest we find ourselves groping to assist unemployed Americans through the convoluted process we have followed during the 2 years in some future economic crisis.

Madam President, let me take only a moment to recall how convoluted the process of seeking relief has been for those of us who have been involved in devising the supplemental compensation program, the FSB program, last year. The experience was, at a minimum, frustrating. In my judgment, the Congress was unable to respond quickly or rationally to a clear emergency involving millions of our constituents. Indeed, that inability has driven the Congress to search, to date so far in vain, for still other means of alleviating the pain.

Let me provide this specific example. If my memory serves me correctly, it was in mid-May of last year that the Senator from West Virginia and I introduced separate bills to create a Federal supplemental compensation program. At that time, national unemployment was 9.4 percent.

The Finance Committee held a hearing in Washington in mid-July. Senator MOYNIHAN and I held field hearings in Pennsylvania and New York in late July—unemployment 9.7 percent. In late August—unemployment 9.8 percent, the Senate voted to compel our conferees on the tax bill to include an FSC program. We then voted to approve the tax bill in September—unemployment 9.9 percent, and benefits began going out a few weeks later—unemployment 10 percent. But that was only the beginning. In late December, we attached an amendment to the continuing resolution to extend FSC—unemployment 10.7 percent. The benefits began going out a few weeks later. In March—unemployment 10.4 percent we attached an amendment in Finance Committee to the social security legislation to extend the program for a third time. Again, the benefits began going out a few weeks later.

During this process, the hopes of our unemployed constituents—unemployed through no fault of their own, proud people up until the time they were unemployed, taxpaying constituents—were continually raised and dashed: The desks of the Federal and State workers entrusted with administering the program were constantly covered with new procedures and regulations: Congress tied itself into procedural knots; and, the product itself—the FSC system—was nothing more than an ad hoc house of cards.

Clearly, Congress can and should examine and amend the UC system now while the memory of this recession is vivid in our minds.

Madam President, in July 1980, the National Commission on Employment Compensation recommended a permanent program of supplemental benefits. The Interstate Conference of Employment Security Agencies has also endorsed a program, with the additional caveat that Federal general revenues should be used to finance part of the costs of additional weeks of benefits during periods of especially elevated unemployment. Our legislation includes both of those recommendations.

Our proposed legislation retains an important improvement in the unemploment compensation system: the State trigger. Prior to 1981, benefit duration increased based on a national trigger mechanism. It is generally conceded that the national trigger had two drawbacks. First, benefit duration was increased in States even when those States were not suffering from high unemployment, thus diverting Federal resources to States without regard to actual need for extraordinary Federal assistance. Second, the national trigger relied on general economic distress throughout the United States, and was not flexible enough to provide extraordinary relief to States or regions which were in economic trouble when the rest of the Nation was prosperous. The State trigger was an important reform and should be preserved.

Our legislation also reforms a major inequity in current law relating to the interplay between unemployment compensation and trade adjustment assistance for workers. Now, adjustment assistance certification is such an extended process that workers who have lost their jobs due to foreign competition have often exhausted all of their unemployment benefits before being certified. Since the weeks of State/Federal unemployment compensation benefits a worker has received are deducted from the number of weeks a TAA certified worker is eligible for, States are, in effect, paying for our national policy of free trade. In many cases, the States most affected by job loss from foreign trade are those in the Northeast-Midwest least able to assume those costs of unemployment. Our legislation provides that States be reimbursed for their costs in providing benefits to workers who are later certified as having lost their jobs to imports.

As I noted earlier, Mr. President, our legislation does not purport to be exhaustive of the options we must examine to reform the UC system. For instance, we should consider including railroad workers under the system. The railroad retirement legislation which will be considered shortly has a provision directing that a study be undertaken to examine this possibility. We should also consider linking retraining to unemployment compensation for those long-term unemployed whose industrial skills are no longer in demand. The Office of Technology Assessment will begin a study of displaced workers in the near future.

Adjusting unemployment compensation to the economic realities of our times will not be an easy task, but I suggest to my colleagues it is a pressing and immediate task and it is a challenge we must assume. I look forward to working with my colleagues on this important initiative.

I commend the Senator from West Virginia on his initiative in proposing and developing this legislation. I anticipate we will have a very successful working partnership in trying to bring about the changes that are needed.

Mr. BYRD. Madam President, I thank the Senator. I thank him for his cosponsorship. I thank him for his kind words. I am much more comfortable with his having joined as a cosponsor than I would have been otherwise.

Mr. HEINZ. I thank the Senator from West Virginia and I thank him also for the opportunity to be a cosponsor of this legislation.

ORDER OF PROCEDURE

Mr. BAKER. Madam President, I have a little more routine business to attend to, and there are other matters that may be done by unanimous consent today, I am told, and other speakers who may be on their way to the floor.

I would remind Senators again that we are waiting on reports from the conferees on the Department of Defense authorization bill and a few other matters before we decide what else it is practical for the Senate to do before we go out.

EXTENSION OF TIME FOR THE TRANSACTION OF ROUTINE MORNING BUSINESS

Mr. BAKER. In order to make room for that, Madam President, I ask unanimous consent that the time for the transaction of routine morning business be extended to 4:30 p.m. under the same terms and conditions.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE EXECUTIVE CALENDAR

Mr. BAKER. Madam President, I am ready now to take up executive nominations. I would say to the minority leader that I am cleared on this side for the following items for action by unanimous consent:

Under African Development Bank, Calendar No. 43, Donald T. Regan, of New Jersey, to be Governor of the African Development Bank.

All of the nominations on page 2 under New Reports:

Under Department of Energy, William Patrick Collins, of Virginia, to be Under Secretary of Energy, Calendar No. 253.

Under Environmental Protection Agency, Howard M. Messner, of Maryland, to be an Assistant Administrator, Calendar No. 254; Alvin L. Alm, of Massachusetts, to be Deputy Administrator, Calendar No. 255.

Under Nuclear Regulatory Commission, Frederick M. Bernthal, of Tennessee, to be a member of the Nuclear Regulatory Commission, Calendar No. 256.

Under Department of Education, A. Wayne Roberts; Judiciary, James F. Merow, Robert J. Yock, Marvin Katz, James McGirr Kelly, and Thomas N. O'Neill; Department of the Treasury, Thomas J. Healey; U.S. International Trade Commission, Seeley Lodwick; the Army, beginning with Calender No. 266 and including a list of military promotions; Calender No. 267, which is a list of military promotions; and Calender No. 268, which is the Department of Housing and Urban Development, Warren T. Lindquist; as well as nominations placed on the Secretary's desk in the Air Force, Army, and Navy, on page 6; plus two nominations that have been reported by the Committee on Foreign Relations today: Thomas R. Pickering of New Jersey and Thomas Ostrom Enders of Connecticut.

Mr. BYRD. Madam President, I am pleased to state to the majority leader that the aforementioned nominations have been cleared for action on this side.

Mr. BAKER. I thank the minority leader.

Madam President, I ask unanimous consent that the Senate now go into executive session for the purpose of considering the nominations just identified.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Madam President, I ask unanimous consent that the nominations be considered and confirmed en bloc.

The PRESIDING OFFICER. Without objection, the nominations are considered en bloc and confirmed en bloc.

The nominations considered and confirmed en bloc are as follows:

AFRICAN DEVELOPMENT BANK

Donald T. Regan, of New Jersey, to be Governor of the African Development Bank for the term of 5 years. (New position.)

[NEW REPORTS]

DEPARTMENT OF ENERGY

William Patrick Collins, of Virginia, to be Under Secretary of Energy.

ENVIRONMENTAL PROTECTION AGENCY

Howard M. Messner, of Maryland, to be an Assistant Administrator of the Environmental Protection Agency.

Alvin L. Alm, of Massachusetts, to be Deputy Administrator of the Environmental Protection Agency.

NUCLEAR REGULATORY COMMISSION

Frederick M. Bernthal, of Tennessee, to be a member of the Nuclear Regulatory Commission for the term of 5 years expiring June 30, 1988.

DEPARTMENT OF EDUCATION

A. Wayne Roberts, of Massachusetts, to be Deputy Under Secretary for Intergovernmental and Interagency Affairs, Department of Education.

THE JUDICIARY

James F. Merow, of Virginia, to be a judge of the U.S. Claims Court for a term of 15 years. (Reappointment.)

Robert J. Yock, of Virginia, to be a judge of the U.S. Claims Court for a term of 15 years. (Reappointment.)

Marvin Katz, of Pennsylvania, to be U.S. district judge for the eastern district of Pennsylvania.

James McGirr Kelly, of Pennsylvania, to be U.S. district judge for the eastern district of Pennsylvania.

Thomas N. O'Neill, of Pennsylvania, to be U.S. district judge for the eastern district of Pennsylvania.

DEPARTMENT OF THE TREASURY

Thomas J. Healey, of New Jersey, to be an Assistant Secretary of the Treasury.

U.S. INTERNATIONAL TRADE COMMISSION

Seeley Lodwick, of Iowa, to be a member of the U.S. International Trade Commission for the term expiring December 16, 1991.

IN THE ARMY

The U.S. Army Reserve officers named herein for appointment as Reserve Commissioned Officers of the Army, under the provisions of Title 10, United States Code, sections 593(a), 3371 and 3384.

To be major general

Brig. Gen. Robert O. Bugg, [redacted].
Brig. Gen. James E. Harrell, [redacted].
Brig. Gen. Walter K. Tagawa, [redacted]

To be brigadier general

Col. James D. Ball, [redacted].
Col. Edwin Cox, [redacted].
Col. Jackson L. Flake, Jr., [redacted].
Col. Daniel W. Fouts, [redacted].
Col. Rudolph E. Hammond, [redacted].
Col. Jefferson S. Henderson, II, [redacted]
Col. Alvin W. Jones, [redacted].
Col. John W. Knapp, [redacted].
Col. Michael A. Schulz, Jr., [redacted].
Col. Robert P. Sy, [redacted].
Col. Robert L. Wick, Jr., [redacted].

The Army National guard of the United States officers named herein for appointment as Reserve Commissioned Officers of the Army, under the provisions of Title 10, United States Code, sections 593(a), 3385, and 3392.

To be major general

Brig. Gen. Willian J. Jefferds, [redacted].
Brig. Gen. Lawrence A. Keller, [redacted].
Brig. Gen. Edward W. Waldon, [redacted].

To be brigadier general

Brig. Gen. Dayle E. Williamson, [redacted]
Col. Robert L. Bievins, [redacted].
Col. Robert C. Dechert, [redacted].
Col. James D. Delk, [redacted].
Col. Larry H. Della Bitta, [redacted].
Col. Averill E. Hawkins, [redacted].
Col. Robert L. Helmer, [redacted].
Col. John V. Hoyt, [redacted].
Col. Dan E. Karr, [redacted].
Col. Joseph G. Martin, Jr., [redacted].
Col. Patrick J. McCarthy, [redacted].
Col. James M. Miller, [redacted].
Col. Curtis W. Milligan, [redacted].
Col. Robert B. Pettycrew, [redacted].
Col. James A. Ryan, [redacted].
Col. Harry R. Taylor, [redacted].
Col. Teddy E. Williams, [redacted].
Col. Bobby G. Wood, [redacted].

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Warren T. Lindquist, of Maine, to be an Assistant Secretary of Housing and Urban Development.

NOMINATIONS PLACED ON THE SECRETARY'S DESK IN THE AIR FORCE, ARMY, NAVY

Air Force nominations beginning Howard L. Alford, and ending Philip M. Young, which nominations were received by the Senate and appeared in the Congressional Record of July 25, 1983.

Army nominations beginning Robert O. Abney, and ending Carl Sundstrom, which nominations were received by the Senate and appeared in the Congressional Record of July 28, 1983.

Navy nominations beginning Steven C. Cox, and ending Peter L. Washburn, which nominations were received by the Senate and appeared in the Congressional Record of July 25, 1983.

Navy nominations beginning Johnny F. Barfield, and ending William A. Wood, which nominations were received by the Senate and appeared in the Congressional Record of July 25, 1983.

DEPARTMENT OF STATE

Thomas R. Pickering, of New Jersey, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to El Salvador.

Thomas Ostrom Enders, of Connecticut, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to Spain.

NOMINATION OF WILLIAM PATRICK COLLINS

Mr. McCLURE. Madam President, on August 3 the Committee on Energy and Natural Resources favorably reported the nomination of William Patrick Collins to be Under Secretary of Energy. The vote was 20 to 0. Mr. Collins appeared before the committee at the nomination hearing held on July 29.

The Under Secretary of Energy has the primary responsibility for the development of the Department of Energy's policies relating to energy conservation and renewable energy technology. His responsibility for energy conservation has been established by law and is set forth in the Department of Energy Organization Act. Additionally, the Secretary of Energy has delegated to the Under Secretary primary responsibility for encouraging the private sector to initiate effective energy conservation programs and to utilize renewable forms of energy. The Under Secretary also provides independent review and advice to the Secretary on the means by which the private and Government sectors can cooperate in transferring the energy conservation and renewable energy technology that results from Federal research and development programs.

For the past few years, Mr. Collins has been employed by the National Association of Home Builders, first as political director and then as vice president. From 1973 to 1979, Mr. Collins served on the staffs of two Members of the House of Representatives. During that time, Mr. Collins gained substantial experience in dealing with a number of energy issues, including those relating to several forms of renewable energy technology.

In his testimony before the committee, Mr. Collins described the Department of Energy's commitment to imaginative and aggressive programs that will encourage increased reliance on energy conservation and renewable energy resources. He stated:

I appear before you today as an individual who has received from Secretary Hodel a clear mandate to look forward, not backwards, to provide him with independent review and advice on departmental energy conservation and renewable energy policies, and to see to it that, acting in concert with the Congress, conservation and renewable energy technologies are encouraged by the Federal Government to play their rightful roles as an important means by which the American people can enjoy adequate supplies of energy at reasonable prices.

My discussions with Secretary Hodel have convinced me of the sincerity of his commitment to a permanent, national conservation ethic. That is a commitment which I share fully. I concur without reservation with the Secretary's views that conservation is a national imperative and that both energy conservation and renewable energy technologies are vital to the Nation's strategic security, to its balance of payments position, and to the general well-being of the American people.

Mr. Collins also emphasized the importance of two goals: Facilitating the transfer of energy conservation and revnewable energy technologies from Federal research projects to the private sector, and providing additional information on the benefits of utilizing those technologies. He stated:

No matter how much we spend on Federal research and development projects, many of them may not be utilized unless we can be confident that there are in place effective systems for the transfer of the technology made available by the federal efforts. I am quite alarmed when I hear, as I have, that at least portions of the private sector, particularly small enterprises, simply do not know about the results of the Federal effort or even how to go about obtaining the information. One of my most important missions, therefore, will be to advise the Secretary on the ways we can improve the transfer of energy technology. I do not pretend to have today the answer as to how the government and both large and small businesses best can cooperate to improve such technology transfers, but I am determined to make a major effort in this regard.

As much as anything, it will be necessary for us to work hard on attitudes towards energy conservation and renewable energy technologies. If confirmed, I intend to use the Office of the Under Secretary to make as clear to the American people as I know how that, among other things, energy conservation is a virtue even when we do not have long lines at gasoline stations, that solar energy confers benefits even when the prices of conventional energy resources are not rising, and that aggressive use of imaginative conservation measures and of alternate energies are good for business, good for the environment, and good for our attempt to achieve on a long-term basis an adequate supply of energy for all the people of the Nation at reasonable prices.

Madam President, Mr. Collins has fully complied with the committee's rules requiring submittal of a financial disclosure report and a detailed information statement. On behalf of the Committee on Energy and Natural Resources, I am pleased to recommend Senate approval of the Presidential nomination of William Patrick Collins to be Under Secretary of Energy.

NOMINATION OF THOMAS J. HEALEY

Mr. DOLE. Madam President, I am pleased to report the recommendation of the Committee on Finance that the Senate give its advice and consent to the nomination of Thomas J. Healey to be Assistant Secretary of the Treasury for Domestic Finance.

Mr. Healey is well qualified for this position. He is at present managing director of Dean Witter Reynolds capital markets and manager of that firm's corporate finance department. He has been with Dean Witter since 1975, during which time he served in the project finance group, eventually becoming group director. Earlier in his career, Mr. Healey served with several firms in various management positions, concentrating on financial matters. He holds a masters in business administration from the Harvard School of Business, and an undergraduate degree from Georgetown.

As Assistant Secretary of the Treasury for Domestic Finance, Mr. Healey will face some of the most important issues facing our country today. Among his responsibilities will be all of the Government's financing and debt management efforts; the establishment of interest rates for Federal financing programs; the establishment of policies governing Federal credit programs; oversight of revenue sharing programs; and coordination of deregulatory policies affecting financial institutions. The position to which Mr. Healey has been nominated clearly demands a person of high character and competence.

The Finance Committee was impressed with Mr. Healey's record of accomplishment and understanding of the grave responsibilities he will face. We were already familiar with his abilities through his close and effective cooperation with our staff over the past 2 years on leasing and other corporate financing matters. We appreciate that cooperation, and look forward to its continuation in his new position.

At his nomination hearing, Mr. Healey acknowledged the importance of controlling and balancing the Federal budget to sustaining the economic recovery. I wish to emphasize the importance of having an Assistant Secretary of the Treasury who understands that budget deficits do matter; that we must undertake positive policies to bring them under control, rather than merely waiting for the recovery to accomplish the job alone. A passive approach will threaten the very recovery that is supposed to cure the deficit problem.

Thus, I am pleased that the President has nominated a person of Mr. Healey's caliber who understands the relationship between deficits and recovery, and who will not simply let events take their course. He is well qualified to take an active and effective approach to his job and I urge the Members to approve Mr. Healey's nomination.

Mr. JEPSEN. Madam President, as we prepare to vote on the nomination of Seeley Lodwick to the International Trade Commission, I would like to offer my unqualified support for this distinguished Iowan.

The experience and perspective Seeley will bring to the ITC, are the proper tools for tackling the serious trade problems this Nation faces today. Seeley's background in agriculture and business is outstanding.

Seeley Lodwick's long record of public service to Iowa and the Nation is well known and respected among our farmers and in agriculture throughout the world.

As the No. 3 man at the U.S. Department of Agriculture, Seeley distinguished himself as the most committed and articulate defender of the American farmer and his position in foreign markets.

Given the various unfair and predatory export subsidies being used by certain nations, Seeley's nomination comes at a most opportune time. American farmers and businessmen are tired of trying to compete against

subsidies, embargoes, and sanctions. Seeley Lodwick will help steer a steady course through the rough waters of international trade.

I urge the Senate to confirm the nomination of this most distinguished and able public servant from Iowa.

NOMINATION OF SEELEY G. LODWICK

Mr. DOLE. Mr. President, I am pleased to report the recommendation of the Committee on Finance that the Senate give its advice and consent to President Reagan's nomination of Seeley G. Lodwick to be a Commissioner of the International Trade Commission. Mr. Lodwick is well qualified for the position to which he has been nominated.

Seeley until recently served as Under Secretary of Agriculture for International Affairs and Commodity Programs. He also has held the positions of secretary of the Commodity Credit Corporation, and associate administrator of the U.S. Department of Agriculture's Stabilization and Conservation Service. A former Iowa State senator, Mr. Lodwick also has farmed and managed livestock and grain farms, and farm supply and grain elevator businesses. Mr. Lodwick holds a degree in political science from Iowa State University. I am delighted that farmers will have Seeley to contribute his agricultural expertise to the Commission's work.

The Commission serves important interests of the Congress. It investigates unfair trade practice complaints; makes determinations of whether dumped or subsidized imports are injuring U.S. firms; conducts investigations into whether imports are surging so as to injure seriously domestic industries; and performs other trade studies as requested by the Congress and the President. The workload of the ITC is at an all-time high, and as trade becomes an increasingly important part of the U.S. economy, the Commission's reports are more essential than ever to the work of the President and the Congress in the trade area. The Senate must approve Commissioners who will undertake their responsibilities with the utmost seriousness and dedication.

To insure that such persons are appointed, the Congress wrote into law that the President shall nominate as Commissioners only persons who—

> In his judgment . . . are possessed of qualifications requisite for developing expert knowledge of international trade problems and efficiency in administering the duties and functions of the Commission.

Seeley Lodwick, of course, already has extensive experience in the trade area. He will add a great deal to the Commission's work on agricultural and other trade matters.

The Commission has been without its full complement of six Commissioners since last fall. It is vitally important that we restore the Commission to full strength as soon as possible so that the ITC can perform as efficiently and effectively as possible. I thus urge my colleagues to support and to approve Mr. Lodwick's nomination without delay.

NOMINATION OF FRED BERNTHAL TO BE COMMISSIONER OF THE NUCLEAR REGULATORY COMMISSION

Mr. STEVENS. Mr. President, today the Senate will consider the nomination of Dr. Fred Bernthal to be a Commissioner of the Nuclear Regulatory Commission. I urge the Senate to swiftly and unanimously confirm him for this position.

I have known Fred in his capacity as an assistant to the majority leader of the U.S. Senate, HOWARD BAKER. He has fielded some tough issues over the past few years and I have always been impressed with his ability to make the best of precarious situations.

Fred's legislative experience will serve him well in his new role as a Commissioner on the NRC. He has a reputation for his understanding of the process on Capitol Hill. Hopefully, his knowledge will be shared by his colleagues at the NRC.

Academically, Fred is eminently qualified. He is one of the few true physicists I have ever known who have served on Capitol Hill. In fact, he may be the only one I have known in the legislative arena. Dr. Bernthal is well respected in the field of nuclear issues. I believe we need well-qualified people serving at the NRC. Due to events which have occurred in recent years, I feel strong eloquent people must be at the helm of the NRC.

The Bernthal nomination should be confirmed by the Senate so that we may benefit from Dr. Bernthal's expertise at the NRC as quickly as possible.

NOMINATION OF THOMAS PICKERING, TO BE AMBASSADOR TO EL SALVADOR

Mr. HELMS. Mr. President, I support confirming the nomination of Thomas Pickering as Ambassador to El Salvador. In recent week I have given much thought to this appointment. Since President Reagan's address to the joint session of Congress on April 27, the crisis in Central America has dominated the news media. President Reagan has enunciated a firm policy of support for freedom and stability in Central America, a policy which I want to support wholeheartedly.

Mr. President, in all candor, I was concerned when the news of Mr. Pickering's appointment first came to me. Some initial inquiries revealed that, as Assistant Secretary of State for Oceans, Environment, and Science, he had been responsible for no fewer than four treaties, none of which has been approved by the Committee on Foreign Relations, and some of which were veritable disasters. He was also responsible for the so-called report on global 2000, which was a pessimistic hodge-podge of bad analysis, most recently featured as the basis of a scathing attack on President Reagan by former President Carter.

Mr. President, in the past few days I have had several opportunities to talk at length with Ambassador Pickering. He has assured me of his wholehearted support for President Reagan's Central American policy. I am convinced that he would refuse to be a party to any settlement which, in the name of peace with honor, would confer the seal of approval of the United States on a Communist Nicaragua. President Reagan has called on Nicaragua to honor its promises of democratic institutions and elections, promises made to the OAS in June of 1979. I believe Ambassador Pickering and I agree that a fulfillment of those promises is a necessary preamble to any regional solution which would bring a true peace to El Salvador.

On the matter of the assumptions of the global 2000 report, Ambassador Pickering made it clear that by the time he became involved with it, at best he could prevent the worst drafts from being included in the final version. He made sure that no recommendations were included, and simply forwarded it to the President. But he understands the importance of the private sector in El Salvador's development, sees the need for assertion of the legitimate claims of the United States in dealing with other countries, and in other ways has demonstrated that his own thinking is not clouded by the faulty assumptions embodied in global 2000.

Mr. President, I want to support President Reagan's initiatives in Central America in every reasonable way. Mr. Pickering assures me that he shares that earnest desire, and I support his confirmation.

Mr. BAKER. Madam President, I move to reconsider the vote by which the nominations were confirmed en bloc.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BAKER. Madam President, I ask unanimous consent that the President be immediately notified that the Senate has given its consent to these nominations.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUSPENSION OF RULE XXXI DURING ADJOURNMENT OF THE SENATE

Mr. BAKER. Madam President, since the Senate will be in adjournment for more than 30 days, and since rule XXXI of the Senate requires that when the Senate goes out for more

than 30 days, nominations shall be returned to the President, I have a unanimous-consent request which I will state now for the consideration of the minority leader and other Senators.

I ask unanimous consent that rule XXXI of the Standing Rules of the Senate, relating to proceedings on nominations, be suspended with respect to nominations dealing with the military lists, the Foreign Service lists, and the Coast Guard lists.

Mr. BYRD. Madam President, this matter was taken up in the Democratic Caucus, and I was instructed to approve this particular request in this form by the majority leader, so I have no objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

LEGISLATIVE SESSION

Mr. BAKER. Madam President, I ask unanimous consent that the Senate return to legislative session.

There being no objection, the Senate resumed the consideration of legislative business.

SENATE RESOLUTION 202—TO ESTABLISH A SELECT COMMITTEE ON PUERTO RICO

Mr. BAKER (for himself, Mr. BYRD, Mr. MOYNIHAN, and Mr. DOLE) submitted the following resolution; which was referred to the Committee on Rules and Administration:

S. RES. 202

Whereas more than three million American citizens live in the Commonwealth of Puerto Rico;

Whereas residents of Puerto Rico are affected by virtually all legislation considered by the Congress;

Whereas, while the Commonwealth of Puerto Rico is represented in the House of Representatives by a Resident Commissioner, there is no comparable arrangement in the Senate;

Whereas the Senate should, in the interests of responsible and informed government, establish a means by which issues of vital importance to the Commonwealth of Puerto Rico may properly be examined: Now, therefore, be it

Resolved, That (1) there is hereby established a Select Committee on Puerto Rico (referred to hereafter as the "select committee") which shall consist of seven members, four to be selected by the majority leader from among members of the majority party, and three to be selected by the minority leader from among members of the minority party. The majority and minority leaders shall designate a chairman and co-chairman, respectively, from among those members so chosen to serve on the select committee.

(2) A majority of the members of the committee shall constitute a quorum thereof for the transaction of business, except that the select committee may fix a lesser number as a quorum for the purpose of taking testimony. The select committee shall adopt rules of procedure not inconsistent with this section and the rules of the Senate governing standing committees of the Senate.

(3) Vacancies in the membership of the select committee shall not affect the authority of the remaining members to execute the functions of the select committee.

(4) For purposes of paragraph 4 of rule XXV of the Standing Rules of the Senate, service of a Senator as a member or chairman of the select committee shall not be taken into account.

(5) No Senator may serve on the select committee for more than three two-year terms or for more than a total of six years of continuous service.

(6) It shall be the duty of the select committee to be responsible for monitoring all those matters dealing with the Commonwealth of Puerto Rico.

Mr. BAKER. Madam President, I am pleased to offer a resolution for myself, for the distinguished minority leader, for the distinguished senior Senator from New York (Mr. MOYNIHAN), and for the distinguished senior Senator from Kansas (Mr. DOLE), in respect to the creation of a Select Committee on Puerto Rico.

I send a resolution to the desk and ask for its appropriate referral.

Mr. MOYNIHAN. Madam President, may I express the appreciation of the Senator from New York to the majority leader, Senator BAKER, and his distinguished colleague in leadership, Senator BYRD, for their graciousness in this matter.

There will, of course, be hearings held in the Senate Rules Committee in the fall at which time we shall all discuss this at greater length. Meanwhile, I know this news will be greeted with great interest and I am sure commendation by the 3 million American citizens in the Commonwealth of Puerto Rico.

I express my personal thanks.

Mr. BYRD. I thank the Senator.

Mr. GORTON. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. PRYOR. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. GORTON). Without objection, it is so ordered.

A PASSING GRADE

Mr. PRYOR. Mr. President, as we find ourselves ready to leave this, our Capital City, I find myself reflecting on two of the most current of events—Central America and Chad. We are in the process of beginning to implement a new type of foreign policy, referred to by some as "gunboat diplomacy." It is looked upon by some as a bold and dangerous move, by others as a frame of mind that we have not presented since prior to our encounter in Vietnam. I know that the thousands of soldiers who are on those ships right now off the coast of Central America are probably our best, our brightest, and bravest. If something should happen down there and, of course, we all pray that it does not end up being a military encounter, but if something should happen, I find myself asking one simple question: "Will the weapons work?" This tour de force that we are mounting in Central America has its foundation on one basic premise: Advanced American weaponry.

I am reminded of the Falkland Islands and of all those reports that came out after that incident, released by every imaginable source using titles such as, "Lessons of the Falklands." My contention is simply that many of the lessons of the Falklands could have been learned through more adequate weapons testing procedures.

The distinguished Senator from Delaware, Senator ROTH, and the distinguished Senator from Kansas, Senator KASSEBAUM, and I have worked hard on our concept of an Independent Director of Test and Evaluation for some time now. That issue is at this moment, I understand, or will be, before the conferees as they labor on into the afternoon and perhaps into the evening on this and other issues relating to our national defense posture and national security. We also have been assisted by many of our colleagues on this floor with very good constructive suggestions concerning this very basic idea of the most fundamental testing procedures for our weapons.

I have been saddened and amazed with some of the reactions that we have gotten to this idea from the Department of Defense. For example, Dr. Richard DeLauer, who is the Under Secretary for Research, Development, and Engineering, thinks that I am just "looking for an issue." And that is a quote from the Wall Street Journal attributed to Dr. DeLauer. I would like to point out to the good doctor that all of us in this Chamber really have more issues than we can deal with. I do not need to create new issues and I do not know of any of my colleagues who do, either. One of my most fundamental differences with Dr. DeLauer rests with his premise that weapons testing is a "test and fix, test and fix" process. Without proper developmental and operational testing we, first, run the risk of putting sloppy weapons in the field, second, add to the cost of weapons systems that have to be fixed once they get out in the field and, most importantly, third, we endanger the lives of our servicemen by furnishing them with sloppy weapons in the first place. This saddens me, because Dr. DeLauer seemingly would like to treat soldiers and service people as expendable items, items that can be "tested and fixed, tested and fixed." The question that I have today is:

Does Dr. DeLauer have the real interest of the American serviceman at heart?

Independent operational testing is one of the most fundamental concepts in the development of effective weapons systems. Yet, we, this great advanced technological society that we are, cannot even take the time to insure that the weapons we place in the hands of our soldiers are going to work. I doubt if there is a greater injustice that is committed daily to our American servicemen than this lackadaisical attitude toward answering the question of whether our weapons work or not.

Mr. President, I am deeply disappointed in the attitude that has been exhibited by the Department of Defense with regard to the testing of our weapons. I know that there are many good men and women who have devoted their lives to our national security, men and women who want nothing but the best, men and women who deserve nothing but the best.

But where we are failing is that we are not giving them the best weapons that we can. It is a crime that knows all my passion; it is the most unthinkable and irrational approach that anyone could make; it is an approach toward creating an illusion of strength. That illusion, in the heat of battle, will be quickly erased, and we, the American people, will be left to pick up the pieces; to issue another series of mindless reports; to pay respect to our honored dead, and then to try to go about fixing the weapons that were never tested under realistic conditions in the first place.

This is not a crime of passion, Mr. President, but it is a crime of an insensitive Pentagon bureaucracy more interested in turf leadership than in the development of new weapons systems that actually work, and somehow it refuses to show the concern and the consideration for the lives of our fighting men and women around the face of this globe.

Mr. President, in conclusion, I will continue, as I hope all of us will, to fight for what we believe in, for the kind of independent office of weapons testing that should come forward, and I will continue to believe that this country deserves and needs the kind of office that will protect and preserve the lives of our American servicemen and servicewomen everywhere.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. MATSUNAGA. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MEDICARE HOSPICE REIMBURSEMENT ACT

Mr. MATSUNAGA. Mr. President, yesterday the Senate passed by voice vote, H.R. 3677, the Medicare Hospice Reimbursement Act, the companion measure to S. 1592, offered by Senator DOLE on June 29, 1983, of which I am a cosponsor. I was unavoidably delayed and was not here to lend my voice in support of H.R. 3677.

I would like now, for the RECORD, to express my support for that bill which amends title XVIII of the Social Security Act to correct provisions relating to the cap for hospice care. The maximum Federal payment to hospice care programs for terminally ill medicare recipients would be raised from $4,200 per patient to $6,500. This cap would be adjusted in the future according to annual changes in the medical care component of the Consumer Price Index.

This legislation is expected to save the medicare program $100 million over the next 5 years by partly replacing more expensive hospital care.

The benefits of this legislation go beyond cost containment in the health field. It should encourage a more humane alternative to medicare for families across the country with members facing a terminal illness; namely, hospice services. The hospice approach operates on the principle that the dying have special needs and wants that busy hospital staffs, preoccupied with tending the curable, cannot provide. It offers the means for family members to care for such loved ones either at home or at hospice centers. Recently a good friend of mine, Mr. A. A. "Bud" Smyser, former editor of the Honolulu Star-Bulletin, shared with me his funeral remarks upon the death of his wife, Betty. He did so, knowing of this pending legislation, with the thought that his experience with the hospice program "may offer one case study of how we can perhaps make terminal death less fearsome."

So that the views, beautifully and poetically expressed by one who witnessed and experienced firsthand the hospice care of a dearly beloved life companion, may be shared by readers of the CONGRESSIONAL RECORD, I ask unanimous consent that "Bud" Smyser's remarks at the funeral of his wife Betty be printed in the RECORD following my remarks.

There being no objection, the remarks were ordered to be printed in the RECORD, as follows:

FUNERAL REMARKS ON BEHALF OF BETTY SMYSER BY HER HUSBAND

Thirteen months ago, when Betty was diagnosed as having an incurable type of cancer, we knew we were in for difficult times.

The times were difficult. In this there was no surprise.

But we were wholly unprepared for the fact that some of the worst of times for us would also be some of the best of times.

They were made so by the fact that we did things together that we had been postponing, and by the outpouring of support from people like you here today—close family, more remote family, friends Betty had made as she did her "Conversation" show on KITV for 22 years, friends from my 37 years with the Star-Bulletin, and from still others all over the community and the mainland and abroad with whom Betty had crossed trails.

Betty had the option initially to decline treatment and probably die in a month or two, or undergo chemotherapy and radiation and hope to live substantially longer.

Her initial inclination was toward the first option but counsel from knowledgeable physician friends was unanimous that worthwhile life was still possible . . . even though treatments would mean the loss of her hair (which wigs neatly covered), days of nausea every four to six weeks as her body became the battleground for chemical warfare against cancer, and steady debilitation.

This is not a pleasant prescription—yet last month on the anniversary of her diagnosis we agreed the year had been one of the best of our nearly 40 years of marriage. Possibly the very best, I said. She said she wouldn't go that far.

But the fact that it was at least among the very best is because of the rallying around by family and friends like you here today.

For that we thank you from the bottom of our hearts. Aloha.

Betty complained one day that we were giving her almost too much love and attention, and asked why it should be. "Because you would do the same for us," I said. She knew it was true and never argued any more.

Like Betty, it may be that we in the family can never return in kind all the love and thoughtfulness you have bestowed on us. But we hope we *can* repay you by joining you in helping others as we were helped when their time of need arrives—so that their worst of times may also be best of times.

* * * * *

On March 22, X-rays showed that Betty's cancer was on the loose again despite the chemical treatments. Except for the option of some very brutal experimental treatments which she declined, she was back to where she had been a year earlier with only a month or two to live.

She chose to shift her care at that point away from all efforts at curing, and to accept death as comfortably and gracefully as possible—and preferably at home. This is a mode becoming more generally known as hospice care.

In this approach, a different set of medications and treatments ended her physical pain literally overnight.

The price was less alertness, and more driftiness and dreaminess. But they were pleasant dreams, and she had numerous alert periods where she was able to enjoy family and friends . . . and be alternately happy, sad and contrary.

I resented the contrary periods until the wise administrator of our hospice care, Dr. Robert Nathanson, showed me these were some of the last declarations of independence by a gallant lady becoming increasingly dependent.

With the support of Hawaii Home Care nurses who visited daily we were able to keep Betty at home throughout. I doubt that it was any harder on us than it would have been if she had been hospitalized, and I am sure the home environment was much more supportive and rewarding for both Betty and those of us in her family.

I might note that she had within her reach daily, until her reach failed in the last few days, enough medication to have terminated her life before its natural end. But she never reached for it—and I found that satisfying.

Finally last Friday death came. And it seemed—as Dr. Nathanson said it might be—to be under Betty's control, even though she showed few visible responses. That morning her son had spent time at her bedside. That afternoon, her daughter, who had been visiting from Kauai, sat by her to say goodbye because she had to return to her home. This seemed to be the release Betty needed. While Heidi was still there, she simply and peacefully stopped breathing and a great quiet came over the room.

Heidi later told a mainland relative that a year ago she had experienced the miracle of life creation when that little boy that you heard over there was born, and now she had experienced the miracle of the transition into death.

To me those words all by themselves seem enough to justify the ordeal that Betty and we all faced together. Those of us involved will never again fear death as we once did.

* * * * *

And now I would like to introduce a family friend of some 20 years, a wise counselor to us on Betty's illness, the health director in Mayor Eileen Anderson's cabinet, and the volunteer president of Hospice Hawaii—Dr. Anna Maria Brault.

Mr. MATSUNAGA. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. WALLOP. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WALLOP. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. WALLOP). Without objection, it is so ordered.

EXTENSION OF ROUTINE MORNING BUSINESS

Mr. BAKER. Mr. President, I ask unanimous consent that the time for the transaction of routine morning business be extended for 15 minutes under the same terms and conditions.

The PRESIDING OFFICER. Without objection, it is so ordered.

REAUTHORIZATION OF REVENUE SHARING

Mr. BAKER. Mr. President, first I would like to take only a moment of the Senate's time to review that I anticipate relative to the reauthorization of revenue sharing.

I had hoped, Mr. President, that the Senate would be able to act prior to the August recess. All of the interested parties, including the distinguished chairman of the Finance Committee, the Senator from Kansas (Mr. DOLE), and the distinguished ranking member of the committee, the Senator from Louisiana (Mr. LONG), have been seeking an agreement that would allow an orderly and expeditious agreement of this legislation. As an original sponsor of this important program, I wanted to complete this matter this week so that local governments would not be subject to the uncertainly of funding next year.

Mr. President, that does not now seem possible. However, I believe it will be possible on September 12. The House has already passed their version which would extend the program for 3 years. If my assessment is correct, the Senate should be able to do the same some time in September.

In any event, Mr. President, I have no doubt that this valuable program of general-purpose assistance will be reauthorized this year.

SCHEDULING REVENUE SHARING

Mr. DOLE. Mr. President, as the distinguished majority leader just indicated, a concerted effort was made over the past few days to reach agreement on time for taking up the legislation to extend general revenue sharing before the August recess. Unfortunately, we were unable to obtain consent from all the interested parties to do that—but I would just like to assure Members that we will do everything we can to expedite the bill after the recess, and to thank those who made every effort to clear this legislation for floor action.

The action of the House on Tuesday approving H.R. 2780, a bill to extend revenue sharing for 3 years, gave the Senate a good opportunity to give our local officials the reassurance they have been seeking that revenue sharing funds will continue to flow without interruption. We should have been able to take advantage of that opportunity, and I hope we will not delay much further in acting on revenue sharing. The program does expire on September 30, and there is no reason to leave everyone in suspense when the basic outlines of an extension bill are fairly clear.

Mr. President, I know that the distinguished majority leader feels strongly about this program, and he did everything in his power to get the Finance Committee bill, S. 1426, scheduled this week. We all appreciate his efforts, and I would also note that the National League of Cities lent us very considerable support in urging Members to agree to expedite this legislation. The league has my sincere thanks, and I trust we will not keep their member cities waiting much longer to see whether we will renew revenue sharing.

FUNDING

When we do take up S. 1426, the major issue we will have to decide is whether to increase the funding level over present law, as the House has done, or keep it steady at $4.6 billion, as the Finance Committee recommends. I know many Members feel that revenue sharing warrants an increase, but I would ask them also to consider the need to expedite the bill—not to mention the credibility of our commitment to cut the deficit. The President feels strongly that we should simply extend the program for 3 years at current funding. On July 25 Treasury Secretary Don Regan and OMB Director Dave Stockman wrote to me urging we approve a 3-year extension with no increase in funds. Both Secretary Regan and Director Stockman indicated that they would be unable to recommend approval of a bill that increases funding for revenue sharing. I ask unanimous consent to have that letter included in the RECORD at this point for the consideration of Members, with regard to the issue of funding levels for general revenue sharing.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

EXECUTIVE OFFICE
OF THE PRESIDENT,
OFFICE OF MANAGEMENT AND BUDGET,
Washington, D.C., July 25, 1983.

Hon. ROBERT DOLE,
Chairman, Committee on Finance,
U.S. Senate, Washington, D.C.

DEAR MR. CHAIRMAN: We are writing to apprise you of the Administration's continued serious objection to certain features of General Revenue Sharing reauthorization contained in H.R. 2780.

Our objections are the provisions in H.R. 2780 which would extend General Revenue Sharing for five years and set the entitlement portion of the program at $5.3 billion annually. The Administration's proposal, in contrast, would extend the program for three years at its current funding level of $4.6 billion. We believe that this level of funding, along with a three-year extension, is fair, prudent, and fiscally responsible.

H.R. 2780 in its current form would in a single year increase spending for General Revenue Sharing by 16 percent. If enacted, it would result in fiscal year 1984-86 outlays that would exceed the Administration's request by over $2.1 billion. Increases of this magnitude are totally inappropriate, especially in light of the serious financial problems facing the Federal Government.

The Administration wants to make it clear that it is strongly opposed to any increase in funding over the current level. The provision in S. 1426 which would institute formula changes at levels over $4.6 billion in no way lessens the Administration's opposition.

The Administration also cannot support the five-year reauthorization of the program. This would financially commit the Federal Government for much too long a period of time. A three-year extension would permit the Congress and the Administration to review the funding level, allocation formula, and the program operation on a much more timely basis.

To be sure that there is no misunderstanding, one point should be clarified. The Administration does not oppose the extension of revenue sharing. On the contrary, the President is personally on the record as favoring the program's reauthorization. What the Administration does oppose is the unnecessarily long extension and the fiscally irresponsible funding increase. Unless H.R. 2780 is amended to conform to a funding level of $4.6 billion per year for 3 years, the President's other senior advisers and we will not be able to recommend approval of the bill, should it be presented for the President's action.

We have taken the liberty of sending an identical letter to Senator Long.

Sincerely,

DAVID A. STOCKMAN,
Director.

DONALD T. REGAN,
Secretary of the Treasury.

ORDER OF PROCEDURE

Mr. BAKER. Mr. President, I have a folder of further items that are cleared for action by unanimous consent at this time. But I would inquire of the minority leader if he has any matter he wishes to present for consideration of the Senate at this moment.

Mr. BYRD. Mr. President, I thank the distinguished majority leader.

COMMENDATION OF THE ALABAMA DEPARTMENT OF AGRICULTURE AND INDUSTRIES

Mr. BYRD. Mr. President, on behalf of Mr. HEFLIN and Mr. DENTON, I offer a resolution commending the Alabama Department of Agriculture and Industries, and I ask for its immediate consideration.

The PRESIDING OFFICER. The resolution will be stated by title.

The assistant legislation clerk read as follows:

A resolution (S. Res. 203) commending the past and present Commissioners and employees of the Alabama Department of Agriculture and Industries.

The PRESIDING OFFICER. Is there objection to the present consideration of the resolution?

There being no objection, the Senate proceeded to consider the resolution.

Mr. HEFLIN. Mr. President, on September 1, the Alabama Department of Agriculture and Industries will observe its 100th year of service to the citizens of Alabama.

The Department was established pursuant to legislation introduced by Hiram Hawkins, a State senator from Barbour County. His measure, which created the Alabama Department of Agriculture, was given legislative sanction on February 23, 1883, and stipulated that the department would become operational on September 1 of that year.

The department began as a two-person operation, consisting of the commissioner and his clerk for regulating the sale and distribution of fertilizer. Today the department, which became the Department of Agriculture and Industries with the adoption of the 1901 constitution in Alabama, performs more than 100 services ranging from food and drug inspection activities to international market development.

It is interesting to me that the first Alabama Commissioner of Agriculture was Edward C. Betts. Commissioner Betts was from Madison County, as is the current commissioner, Albert McDonald. Their backgrounds are very similar. Both were successful farmers and both served in the Alabama State Legislature.

Through the years, Mr. President, there has been a high degree of cooperation between the Alabama Department of Agriculture and Industries and its agricultural and business constituency. Throughout its history the officers and employees of the department have carried out principles of public policy to foster and bring about steady economic growth in the agricultural and economic sectors. Their dedication has helped provide a better quality of life for the citizens of Alabama.

Mr. President, I am today introducing for myself and my distinguished colleague, Senator DENTON, a resolution recognizing and commending the Alabama Department of Agriculture and Industries on its 100th year of service to the citizens of Alabama. I ask for immediate consideration of the proposal.

The PRESIDING OFFICER. The question is on agreeing to the resolution.

The resolution (S. Res. 203) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, is as follows:

S. RES. 203

To commend the past and present commissioners and employees of the Alabama Department of Agriculture and Industries.

Whereas the Alabama Department of Agriculture and Industries is an executive agency of the State of Alabama;

Whereas the Alabama Department of Agriculture and Industries is an integral part of the State government;

Whereas the year 1983 marks the centennial of the establishment of the Alabama Department of Agriculture and Industries;

Whereas the Alabama Department of Agriculture and Industries has had a major impact on the lives and incomes of the people of Alabama;

Whereas the gross farm income of Alabama is well over two billion dollars, making agriculture the number one industry of the State;

Whereas the Alabama Department of Agriculture and Industries is primarily responsible for the promotion of agriculture and also acts as a regulatory agency that enforces hundreds of laws and regulations affecting all aspects of the agribusiness chain from producer to consumer;

Whereas the Alabama Department of Agriculture and Industries is the largest consumer protection agency of the State; and

Whereas the Members of the United States Senate take pride in the achievements of the Alabama Department of Agriculture and Industries: Now, therefore, be it

Resolved, That the Senate extends commendations and best wishes to employees and Commissioners, past and present, of the Alabama Department of Agriculture and Industries for their contributions to the achievements of Alabama agriculture and the Alabama Department of Agriculture and Industries over the past one hundred years.

SEC. 2. The Secretary of the Senate shall transmit copies of this resolution to the Commissioner of the Alabama Department of Agriculture and Industries to be presented to the members of the Board of Agriculture and Industries and to past and present Commissioners and Assistant Commissioners of the Department of Agriculture and Industries.

Mr. BYRD. Mr. President, I move to reconsider the vote by which the resolution was adopted.

Mr. BAKER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

HARRY PORTER CONTROL TOWER

Mr. BAKER. Mr. President, it is a special pleasure for me to inquire of the minority leader if he is prepared for us to consider at this time S. 1365, which is a bill entitled the "Harry Porter Control Tower Bill."

I say, before the minority leader replies, that Harry Porter is a fixture in the State of Tennessee and Chattanooga. He has been a longtime resident and friend of mine, and for myself and the distinguished junior Senator from Tennessee (Mr. SASSER) I would very much like to call up that measure and pass it at this point if the minority leader agrees.

Mr. BYRD. Mr. President, the majority leader knows of my fondness for him. He knows I would jump into the Potomac for him. Therefore, with pleasure, I state that there is no objection on this side. I have great admiration for the Senator who is the proponent of the measure.

Mr. BAKER. Mr. President, I am speechless. I am not often speechless.

Mr. BYRD. I hope, Mr. President, we can keep him that way. [Laughter.]

Mr. President, of this entire colloquy, that is probably the most accurate representation.

Mr. President, I ask the Chair to lay before the Senate S. 1365.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (S. 1365) entitled the "Harry Porter Control Tower."

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

Mr. BAKER. Mr. President, I am happy to say that I will be in Chattanooga on Saturday of this week. It will give me great pleasure to announce that the Senate indeed has adopted this measure.

The PRESIDING OFFICER. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 1365

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the air traffic control tower at the Chattanooga Municipal Airport (Lovell Field) is designated and shall hereafter be known as the Harry Porter Control Tower. Any reference in a law, map, regulation, document, or other paper of the United States to such control tower shall be held and considered to refer to the "Harry Porter Control Tower".

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

IMPLEMENTATION OF THE EDUCATION CONSOLIDATION AND IMPROVEMENT ACT

Mr. BAKER. Mr. President, I propose to ask the Senate to turn to the consideration of Calendar Order No. 150, S. 1008, if the minority leader is prepared to consider the matter by unanimous consent.

Mr. BYRD. Mr. President, there is no objection on this side.

Mr. BAKER. I thank the minority leader.

Mr. President, then I ask the Chair to lay before the Senate S. 1008.

The PRESIDING OFFICER. The bill will stated by title.

The assistant legislative clerk read as follows:

A bill (S. 1008) to make cetain technical amendments to improve implementation of the Education Consolidation and Improvement Act of 1981, and for other purposes.

There being no objection, the Senate proceeded to the consideration of the bill, which had been reported from the Committee on Labor and Human Resources with an amendment to strike out all after the enacting clause, and insert the following:

STATE PROGRAM DESIGN

SECTION 1. (a) Section 555(b) of the Education Consolidation and Improvement Act of 1981 (Public Law 97-35; 20 U.S.C. 3801 et seq.) (hereafter in this Act referred to as "the Act") is amended to read as follows:

"(b) PROGRAM DESIGN.—State agency programs shall be designed to serve migratory children of migratory agricultural workers or of migratory fishermen, handicapped children, and neglected and delinquent children (as described in subparts 1, 2, and 3, respectively, of part B of title I of the Elementary and Secondary Education Act of 1965) in accordance with section 554(a)(2) and the other applicable requirements of this chapter. The Secretary shall continue to use the definitions of 'agricultural activity', 'currently migratory child', and 'fishing activity', which were in effect on June 30, 1982, in regulations prescribed under subpart 1 of part B of title I of the elementary and Secondary Education Act of 1965. No additional definition of 'migratory agricultural worker' or 'migratory fisherman' may be appplied after the date of enactment of this subsection to such subpart 1.".

(b) Section 555 of the Act is amended by adding at the end thereof the following new subsection:

"(e) EVALUATION.—Each State educational agency shall—

"(1) conduct an evaluation of the programs assisted under this chapter at least every two years and shall make public the results of that evaluation; and

"(2) collect data on the race, age, and gender of children served by the programs assisted under this chapter and on the number of children served by grade-level under the programs assisted under this chapter.".

APPLICATIONS

SEC. 2. (a) Section 556(b) of the Act is amended by inserting "or" at the end of paragraph (1)(A) and by striking out "or" at the end of paragraph (1)(B) and by striking out paragraph (1)(C).

(b) Section 556 of the Act is amended by adding at the end thereof the following:

"(c) EXEMPTION FROM TARGETING.—The requirements of subsection (b)(1) shall not apply in the case of a local educational agency with a total enrollment of less than one thousand children, but this subsection does not relieve such an agency from the responsibility to serve children under the assurances set forth in subsection (b)(2).".

(c) Clause (2) of section 556(b) of the Act is amended by striking all that follows "areas," in such clause and inserting in lieu thereof "requires, among the educationally deprived children selected, the inclusion of those children who have the greatest need for special assistance, and determines the needs of participating children with sufficient specificity to ensure concentration on those needs;".

(d) Clause (4) of section 556(b) of the Act is amended by inserting before the semicolon a comma and the following: "and that the results of such evaluation will be considered by such agency in the improvement of the programs and projects assisted under this chapter; and."

FLEXIBILITY TO CONTINUE TITLE I TYPE EXPENDITURES

SEC. 3. Section 556 of the Act is further amended by adding at the end thereof the following new subsection:

"(d) LOCAL EDUCATIONAL AGENCY DISCRETION.—Notwithstanding subsection (b)(1) of this section, a local educational agency shall have discretion to make educational decisions which are consistent with achieving the purposes of this chapter as set forth in this subsection, as follows:

"(1) A local educational agency may, with the approval of the State educational agency, designate as eligible (and serve) school attendance areas with substantially higher numbers or percentages of educationally deprived children before school attendance areas with higher concentrations of children from low-income families, but this provision shall not permit the provision of services to more school attendance areas than could otherwise be served. A State educational agency shall approve such a proposal only if the State educational agency finds that the proposal will not substantially impair the delivery of compensatory education services to educationally deprived children from low-income families in project areas served by the local educational agency.

"(2) Funds received under this chapter may be used for educationally deprived children who are in a school which is not located in an eligible school attendance area when the proportion of children from low-income families in average daily attendance in such school is substantially equal to the proportion of such children in an eligible school attendance area of such agency.

"(3) If an eligible school attendance area or eligible school was so designated in accordance with section 556(b)(1)(A) in either of two preceding fiscal years, it may continue to be so designated for a single additional fiscal year even though it does not qualify in accordance with section 556(b)(1)(A).

"(4) With approval of the State educational agency, eligible school attendance areas or eligible schools which have higher proportions of children from low-income families may be skipped if they are receiving, from non-Federal funds, services of the same nature and scope as would otherwise be provided under this chapter, but (A) the number of children attending private elementary and secondary schools who receive services under this chapter shall be determined without regard to non-Federal compensatory education funds which serve eligible children in public elementary and secondary schools, and (B) children attending private elementary and secondary schools who receive assistance under this chapter shall be identified in accordance with this section and without regard to skipping public school attendance areas or schools under this paragraph.

"(5) Educationally deprived children who begin participation in a program or project assisted under this chapter who, in the same school year, are transferred to a school attendance area or a school not receiving funds under this chapter, may continue to participate in a program or project funded under this chapter for the remainder of such year.

"(6) The local educational agency is not required to use funds under this chapter to serve educationally deprived children in greatest need of assistance if such children are receiving, from non-Federal sources, services of the same nature and scope as would otherwise be provided under this chapter.

"(7) In the case of any school serving an attendance area that is eligible to receive services under this chapter and in which not less than 75 per centum of the children are from low-income families, funds received under this chapter may be used for a project designed to upgrade the entire educational program in that school in the same manner and only to the same extent as permitted under section 133(b) of the Elementary and Secondary Education Act of 1965

(but without regard to paragraph (4) of such section).

"(8) Public school personnel paid entirely by funds made available under this chapter may be assigned limited, rotating, supervisory duties which are assigned to similarly situated personnel who are not paid with such funds, and such duties need not be limited to classroom instruction or to the benefit of children participating in programs or projects funded under this chapter. Such duties may not exceed the same proportion of total time as is the case with similarly situated personnel at the same school site, or 10 per centum of the total time, is less.".

PARENTAL INVOLVEMENT

SEC. 4. Section 556 of the Act is further amended by adding at the end thereof the following new subsection:

"(e) PARENTAL INVOLVEMENT.—For the purposes of complying with the assurances given pursuant to subsection (b)(3) with respect to consultation with parents of participating children, (1) a local educational agency shall convene annually a public meeting, to which all parents of eligible students shall be invited, to explain to parents the programs and activities provided with funds made available under this chapter, and (2) if parents desire further activities, the local educational agency may, upon request, provide reasonable support for such activities.".

AREAS FOR SERVICES TO PRIVATE SCHOOLCHILDREN

SEC. 5. Section 557(a) of the Act is amended by inserting "(1)," immediately after "556(b)".

APPLICATION OF NONSUPPLANTING RULE TO STATES

SEC. 6. Section 558(b) of the Act is amended—

(1) by inserting "State educational agency or other State agency in operating its State level programs or a" before "local educational agency" in the first sentence; and

(2) by striking out "a local educational agency shall not be required" in the second sentence and inserting in lieu thereof "no State educational agency, other State agency, or local educational agency shall be required".

EXCLUSIONS OF SPECIAL PROGRAM FUNDS

SEC. 7. Section 558(d) of the Act is amended—

(1) by striking out "if such programs are consistent with the purposes of this chapter" and inserting in lieu thereof "including compensatory education for educationally deprived children (which meets the requirements of section 131(c) of the Elementary and Secondary Education Act of 1965)"; and

(2) by adding at the end thereof the following new sentence:

"For the purpose of determining compliance with the requirements of subsection (c), a local educational agency may exclude State and local funds expended for—

"(1) bilingual education for children of limited English proficiency,

"(2) special education for handicapped children or children with specific learning disabilities, and

"(3) certain State phase-in programs as described in section 131(d) of the Elementary and Secondary Education Act of 1965.".

OVERLAP IN COUNTY BOUNDARIES

SEC. 8. Section 558(e) of the Act is amended by striking out "In any State" and inserting in lieu thereof "Notwithstanding section 111(a)(3)(C) of the Elementary and Secondary Education Act of 1965, in any State".

PHASEOUT AND TRANSITION EXPENSES

SEC. 9. Section 562(c) of the Act is amended by adding at the end thereof the following: "Until September 30, 1983, such funds may also be used to assist in phasing out programs described in section 561(a) and in promoting an orderly transition to operations under this chapter.".

STATE ALLOTMENTS

SEC. 10. The first sentence of section 563(a) is amended by striking out "not to exceed".

AUDIT REQUIREMENT OF SMALL LEA'S

SEC. 11. Section 564(a) of the Act is amended by inserting after paragraph (7) the following new sentence: "Notwithstanding section 1745 of this Act, local educational agencies receiving less than an average $5,000 each year under this chapter shall be audited at least once each five years.".

REQUIREMENT FOR STATE CERTIFICATION OF LEA APPLICATIONS

SEC. 12. Section 566(a) of the Act is amended by striking out everything preceding paragraph (1) and inserting in lieu thereof the following:

SEC. 566. (a) A local educational agency may receive its allocation of funds under this chapter for any year for which its application to the State educational agency has been certified to meet the requirements of this subsection. The State educational agency shall certify any such application if such application—".

SCHOOL-LEVEL PROGRAMS

SEC. 13. Section 573(a) of the Act is amended by striking out "chapter" in the first sentence and inserting in lieu thereof "subchapter".

STATE RULEMAKING

SEC. 14. Section 591 of the Act is amended by adding at the end thereof the following new subsection:

"(d) Nothing in this subtitle shall be interpreted (1) to authorize State regulations, issued pursuant to procedures as established by State law, applicable to local educational agency programs or projects funded under this subtitle, except as related to State audit and financial responsibilities, or (2) to encourage, preempt, or prohibit regulations issued pursuant to State law which are not in conflict with the provisions of this subtitle. The imposition of any State rule or policy relating to the administration and operation of programs funded by this subtitle (including those based on State interpretation of any Federal law, regulation, or guideline) shall be identified as a State-imposed requirement.".

WITHHOLDING OF PAYMENTS

SEC. 15. Section 592(a) of the Act is amended—

(1) by striking out "on the record" in the first sentence; and

(2) by adding at the end thereof the following new sentence: "A transcript or recording shall be made of any hearing conducted under this subsection and shall be available for inspection by any person.".

JUDICIAL REVIEW

SEC. 16. Section 593(b) of the Act is amended by inserting "and a local educational agency" after "A State educational agency".

APPLICATION OF GEPA

SEC. 17. (a) Section 596 of the Act is amended to read as follows:

APPLICATION OF OTHER LAWS

"SEC. 596. (a) Except as otherwise specifically provided by this section, the General Education Provisions Act shall apply to the programs authorized by this subtitle.

"(b) The following provisions of the General Education Provisions Act shall be superseded by the specified provisions of this subtitle with respect to the programs authorized by this subtitle:

"(1) Section 408(a)(1) of the General Education Provisions Act is superseded by section 591(a) of this subtitle.

"(2) Section 426(a) of such Act is superseded by section 591(b) of this subtitle.

"(3) Section 427 of such Act is superseded by section 556(b)(3) of this subtitle.

"(4) Section 430 of such Act is superseded by sections 556(a) and 564(b) of this subtitle.

"(5) Section 431A of such Act is superseded by section 558(a) of this subtitle.

"(6) Section 453 of such Act is superseded by section 592 of this subtitle.

"(7) Section 455 of such Act is superseded by section 593 of this subtitle with respect to judicial review of withholding of payments.

"(c) Sections 434, 435, and 436 of the General Education Provisions Act, except to the extent that such sections relate to fiscal control and fund accounting procedures, shall not apply to the programs authorized by this subtitle and shall not be construed to authorize the Secretary to require any reports or take any actions not specifically authorized by this subtitle.".

(b) Section 406A(a) of the General Education Provisions Act, as added by the Education Amendments of 1974 (relating to responsibility of States to furnish information), is amended—

(1) by striking out paragraphs (3) and (4);

(2) by inserting "and" at the end of paragraph (2); and

(3) by redesignating paragraph (5) as paragraph (3).

CONFORMING AND TECHNICAL AMENDMENTS TO TITLE I OF ESEA

SEC. 18. (a) Title I of the Elementary and Secondary Education Act of 1965 is amended—

(1) in section 142(a) by striking out "subpart 3 of part A, other than sections 122, 123, and 126(d) thereof" in paragraph (3) and inserting in lieu thereof "section 556 (other than subsection (b)(1)) and section 558 of the Education Consolidation and Improvement Act of 1981"; and

(2) in sections 147 and 152(a), by striking out "subpart 3 of part A, other than sections 122, 123, 125, 126(d), and 126(e) thereof" and inserting in lieu thereof "section 556 (other than subsection (b)(1)) and section 558 (other than subsection (c)) of the Education Consolidation and Improvement Act of 1981".

(b) The amendments made by subsection (a) shall apply only with respect to funds for use under the Education Consolidation and Improvement Act of 1981.

AVAILABILITY OF TITLE I APPROPRIATIONS

SEC. 19. (a) Section 553 of the Act is amended—

(1) by inserting "(a)" after "SEC. 553."; and

(2) by adding at the end thereof the following new subsection:

"(b) From the amount appropriated to carry out this chapter, not more than 14.6 per centum of such amount for each of the fiscal years 1983 and 1984 shall be available to carry out programs described in sections

141, 146, and 151 of the Elementary and Secondary Education Act of 1965. After the allocations for programs operated by State agencies, the Secretary shall assure that the amount available for allocation under section 117 of such Act bears the same ratio to the amount appropriated in each such fiscal year for this chapter as the amount available for such section in fiscal year 1980 bore to the total amount appropriated for title I of such Act in fiscal year 1980.".

(b)(1) Section 514(a)(2) of the Act is repealed.

(2) Section 514(a) of the Act is amended by striking out "(1)".

EXTENSION OF AUTHORIZATION FOR TITLE VII OF ESEA

SEC. 20. Section 528 of the Omnibus Budget Reconciliation Act of 1981 is amended—

(1) by striking out "and" at the end of paragraph (13);

(2) by striking out the period at the end of paragraph (14) and inserting in lieu thereof a semicolon and the word "and"; and

(3) by adding at the end thereof the following new paragraph:

"(15) title VII of the Elementary and Secondary Education Act of 1965.".

CONFORMING AMENDMENTS

SEC. 21. (a) Section 565(a) of the Act is amended by striking out "nonpublic" and inserting in lieu thereof "private, nonprofit".

(b) The first sentence of section 1003(a)(1) of the Elementary and Secondary Education Act of 1965 is amended by inserting after "Act" a comma and the following: "or the Education Consolidation and Improvement Act of 1981".

ASSESSMENT OF COMPENSATORY EDUCATION

SEC. 22. Chapter 1 of the Act is amended by adding at the end thereof the following new section:

"NATIONAL ASSESSMENT OF COMPENSATORY EDUCATION ASSISTED UNDER THIS CHAPTER

SEC. 559. (a) The Secretary shall conduct a national assessment of compensatory education assisted under this chapter, through independent studies and analysis by the National Institute of Education. The assessment shall include descriptions and assessments of the impact of (1) services delivered, (2) recipients of services, (3) background and training of teachers and staff, (4) allocation of funds (to school sites), (5) coordination with other programs, (6) effectiveness of programs on student's basic and higher order academic skills, school attendance, and future education, and (7) a national profile of the way in which local educational agencies implement activites described under section 556(b). The National Institute of Education shall consult with the Committee on Labor and Human Resources of the Senate and the Committee on Education and Labor of the House of Representatives in the design and implementation of the assessment required by this section. The National Institute of Education shall report to Congress the preliminary results of the assessment required by this section in January and July of 1986, and a final report shall be prepared and submitted to the Congress not later than January 1, 1987.

"(b) Notwithstanding any other provision of law or regulation, such reports shall not be subject to any review outside of the Department of Education before their transmittal to the Congress, but the President and the Secretary may make such additional recommendations to the Congress with respect to the assessment as they deem appropriate.

"(c) From amounts otherwise available to the National Institute of Education, $2,000,000 for the fiscal year 1984 and $4,000,000 for each of the succeeding fiscal years ending prior to October 1, 1987, shall be made available to carry out the provisions of this section.".

IMPACT AID

SEC. 23. (a) Section 505(a)(1) of the Omnibus Budget Reconciliation Act of 1981 is amended by striking out "section 2" the second place it appears and inserting in lieu thereof "section 7".

(b) Section 3(d)(2)(E) of the Act of September 30, 1950 (Public Law 874, 81st Congress) is amended—

(1) by inserting "or 1984" after "fiscal year 1983" is clause (ii); and

(2) by striking out "1984" in clause (iii) and inserting in lieu thereof "1985".

(c) Section 5(c) of such Act is amended by adding at the end thereof the following: "In the determination of amounts of payments made on the basis of entitlements established under sections 2, 3, and 4 after March 31, 1983, by reason of any provision of law other than this Act which places any additional restriction on payments based on the concentration of children counted under subsection (a) or (b) of section 3 in the schools of the local educational agency, such restriction shall be applied, in the case of any State (other than a territory or possession of the United States) within which there is only one local educational agency, by treating each administrative school district within such State as a local educational agency (solely for the purpose of computing the amount of such payments). Treating such an administrative school district as a local educational agency under the preceding sentence shall not result, during fiscal year 1984, 1985, or 1986, in an increase of more than 10 per centum in the amount of funds paid to such State above the amount paid to such State in the preceding fiscal year.".

EFFECTIVE DATE

SEC. 24. (a) Except as provided in subsection (b), the amendments made by this Act to the Education Consolidation and Improvement Act of 1981 and title I of the Elementary and Secondary Education Act of 1965 shall be effective July 1, 1983.

(b) With respect to the period beginning July 1, 1982, and ending June 30, 1983, no recipient of funds under the Education Consolidation and Improvement Act of 1981 shall be held to have expended such funds in violation of the requirements of such Act if such funds are expended either in accordance with such Act as in effect prior to the date of enactment of this Act or in accordance with such Act as amended by this Act.

AMENDMENT NO. 2122

(Purpose: To Make Technical Modifications)

Mr. BAKER. Mr. President, I send to the desk an amendment to make technical modifications to the bill on behalf of the distinguished Senator from Utah (Mr. HATCH).

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Tennessee (Mr. BAKER) proposes an amendment numbered 2122.

Mr. BAKER. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is follows:

On page 32, line 18, beginning with "(a)" the first time it appears, strike out through "(c)" the first time it appears on line 3, page 33.

On page 33, line 3, strike out "such Act" and insert in lieu thereof "the Act of September 30, 1950 (P.L. 874, 81st Congress)".

On page 33, line 16, beginning with "Treating" strike out through the period the first time it appears on line 21.

Mr. BAKER. Mr. President, what I have sent to the desk was an amendment to the substitute.

I ask that the Senate now turn to the consideration of the proposed amendment to the substitute.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Tennessee.

The amendment (UP No. 2122) was agreed to.

Mr. HATCH. Mr. President, I thank the majority leader for his assistance in bringing S. 1008 to the floor before the August recess. It is a measure which contains several vital and time-sensitive amendments to the education block grants—the Education Consolidation and Improvement Act of 1981—and is earnestly awaited by parents of disadvantaged children and migrant children, school boards and administrators, and others.

I would also like to thank the majority and minority members on our committee for their assistance in arranging matters so that the bill could be placed on the Unanimous-Consent Calendar. In particular I appreciate the good services of Senators STAFFORD and PELL in resolving last minute complications which threatened to delay the bill.

I have also submitted a committee amendment to the bill as reported, representing the consensus of both sides of the committee to adjust section 23 of the bill, covering the impact aid program, to reflect action taken yesterday in the conference deliberations on the Department of Defense authorization bill. The conferees on that matter substantially increased the total authorization for the program and also duplicated sections 23(a) and 23(b) of S. 1008 by extending the "B" student funding authorization for an additional year, and by correcting an erroneous reference to section 2 of the Impact Aid Act made in the Omnibus Budget Reconciliation Act of 1981.

Thus the committee amendment deletes sections 23(a) and 23(b) of the bill, which are now superfluous, and also deletes language which would have limited the increase of funds going to Hawaii under section 23(c) by a 10-percent factor. We feel that this

limitation is no longer needed in light of the increased total authorization for the program and our figures indicate that Hawaii's increase without the limitation will not be disproportionate to that of other States.

Mr. President, I urge a favorable vote by my colleagues on both the committee amendment and on the bill as amended.

Mr. ABDNOR. Mr. President, I thank the distinguished Senator from Utah for his attention to the possible conflicts between the action taken yesterday by the conferees on section 1030(C) of S. 675, the DOD authorization bill, and the measure presently before us.

Mr. President, it is my understanding that although the conferees had hoped to address the situation brought to their attention by the Senators from Hawaii, it was not a matter within the realm of the conference. Therefore, it is the desire of this Senator, to insure that identical language in both House and Senate versions of the technical amendments do not preclude a fair and equitable resolution of the Hawaii matter.

Mr. President, I understand that the Senator from Utah has an amendment to delete the 10-percent, per annum cap contained in the bill reported by his committee. I appreciate his cooperation, and that of his able staff, in agreeing to this change. I trust that an appropriate provision will be reached subsequently by the conferees on S. 1008.

Both of the Hawaii Senators, together with 25 other Members of this body, sponsored my impact aid amendment to the DOD authorization bill. No similar provision was included in the House-passed version of the bill. Yesterday, conferees agreed to increase from $455 to $565 million the overall authorization ceiling for impact aid (Public Law 81-874); increase authority for section 2 from $10 to $20 million; and continue authority for "B" category children through fiscal year 1984 at one-third of entitlement.

I appreciate greatly the efforts of the conferees, particularly the efforts of the distinguished ranking member of the Education Subcommittee, Senator PELL, who cosponsored the amendment and upheld the Senate's position in the conference. I hope that the federally impacted schools in this Nation will recognize the crucial role the Senator from Rhode Island played in obtaining this essential increase in spending authority.

Mr. President, I have been advised that the Senator from Utah will ask also to delete the remaining impact aid language from S. 1008, on the grounds that it is superfluous in light of the action taken yesterday by the conferees. Again, I appreciate the Senator from Utah's statement explaining this deletion and I thank him for his assistance.

Mr. STAFFORD. Mr. President, S. 1008 has the primary purpose of making technical and clarifying amendments to the Education Consolidation and Improvement Act, which Congress passed as part of the Omnibus Budget Reconciliation Act in 1981.

ECIA was passed to provide greater flexibility in the administration and delivery of compensatory education services to disadvantaged children. Additionally, ECIA created a new education block grant.

During the legislative deliberations over ECIA, certain technical errors were made, some sections which provided flexibility in the old title 1 law were dropped, and various ambiguities were created because some sections of ECIA were less than clear.

As a result of close collaboration with the House Education and Labor Committee, a technical amendments bill was passed late in the 97th Congress. Unfortunately, the President vetoed that legislation, and Congress did not have the opportunity to vote to override that veto. Thus, we are presented again with the responsibility to make these corrections in ECIA in response to the comments and suggestions offered by concerned educators.

Additionally, S. 1008 makes changes in other laws, changes which this Senator believes are necessary. These revisions include freezing certain definitions of migrant children, and correcting a specific inequity affecting impact aid payments to Hawaii.

This Senator wants to express his appreciation to the majority leader, the minority leader, the chairman of the full committee, Mr. HATCH, the ranking member, Mr. KENNEDY, and my good friend and colleague on the Subcommittee on Education, Mr. PELL, for their cooperation in bringing this legislation before the Senate at this time.

It is my hope that S. 1008 will soon become law. Another school year will begin shortly, and it is time that these corrections in ECIA were put in place.

The PRESIDING OFFICER. The bill is open to further amendment. If there be no further amendment to be proposed, the question is on agreeing to the committee amendment in the nature of a substitute, as amended.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The PRESIDING OFFICER. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

Mr. MATSUNAGA. Mr. President, I rise today to express my support for S. 1008, the Education Consolidation and Improvement Act amendments. This bill includes a set of technical amendments which will clarify many questions regarding congressional intent with respect to chapter 1 and chapter 2 education programs.

I have a special interest, however, in section 23, which will allow Hawaii to be treated on equal terms as all other States with respect to impact aid funding. Hawaii is the only State in the nation with a single statewide school system. We in Hawaii feel that this system provides many benefits to the students in our State.

However, because of this centralized State system, Hawaii is often at a distinct disadvantage with respect to impact aid allocations. In particular, the State is hurt when super "A" districts receive favorable funding treatment. Super "A" districts are those districts with 20 percent or more category "A" students in daily attendance.

While the Central Oahu District has 36.4 percent category "A" students in daily attendance—well above the figure necessary to qualify as a super "A" district—this high concentration of "A" students is completely disregarded when the allocation formula is based on statewide statistics. Since the State as a whole has only 10.26 percent category "A" students in daily attendance, Hawaii does not receive any impact aid funds at the super "A" reimbursement rate, and thus, is severely penalized for having a centralized statewide school system.

The bill S. 1008 will allow States with a single statewide school system to treat the several administrative units within that system as school districts, only for the purposes of the impact aid formula. This does not mean that Hawaii will be granted any special treatment. It will will merely allow Hawaii to receive exactly the same consideration as all other school districts in the country.

Mr. President, for this and other reasons already stated by others, I urge the Senate to act favorably on the pending measure.

S. 1008

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

STATE PROGRAM DESIGN

SECTION 1. (a) Section 555(b) of the Education Consolidation and Improvement Act of 1981 (Public Law 97-35; 20 U.S.C. 3801 et seq.) (hereafter in this Act referred to as "the Act") is amended to read as follows:

"(b) PROGRAM DESIGN.—State agency programs shall be designed to serve migratory children of migratory agricultural workers or of migratory fishermen, handicapped children, and neglected and delinquent children (as described in subparts 1, 2, and 3, respectively, of part B of title I of the Elementary and Secondary Education Act of 1965) in accordance with section 554(a)(2) and the other applicable requirements of this chapter. The Secretary shall continue to use the definitions of 'agricultural activity', 'currently migratory child', and 'fishing activity'

which were in effect on June 30, 1982, in regulations prescribed under subpart 1 of part B of title I of the Elementary and Secondary Education Act of 1965. No additional definition of 'migratory agricultural worker' or 'migratory fisherman' may be applied after the date of enactment of this subsection to such subpart 1.".

(b) Section 555 of the Act is amended by adding at the end thereof the following new subsection:

"(e) EVALUATION.—Each State educational agency shall—

"(1) conduct an evaluation of the programs assisted under this chapter at least every two years and shall make public the results of that evaluation; and

"(2) collect data on the race, age, and gender of children served by the programs assisted under this chapter and on the number of children served by grade-level under the programs assisted under this chapter.".

APPLICATIONS

SEC. 2. (a) Section 556(b) of the Act is amended by inserting "or" at the end of paragraph (1)(A) and by striking out "or" at the end of paragraph (1)(B) and by striking out paragraph (1)(C).

(b) Section 556 of the Act is amended by adding at the end thereof the following:

"(c) EXEMPTION FROM TARGETING.—The requirements of subsection (b)(1) shall not apply in the case of a local educational agency with a total enrollment of less than one thousand children, but this subsection does not relieve such an agency from the responsibility to serve children under the assurances set forth in subsection (b)(2).".

(c) Clause (2) of section 556(b) of the Act is amended by striking all that follows "areas," in such clause and inserting in lieu thereof "requires, among the educationally deprived children selected, the inclusion of those children who have the greatest need for special assistance, and determines the needs of participating children with sufficient specificity to ensure concentration on those needs;".

(d) Clause (4) of section 556(b) of the Act is amended by inserting before the semicolon a comma and the following: "and that the results of such evaluation will be considered by such agency in the improvement of the programs and projects assisted under this chapter; and".

FLEXIBILITY TO CONTINUE TITLE I TYPE EXPENDITURES

SEC. 3. Section 556 of the Act is further amended by adding at the end thereof the following new subsection:

"(d) LOCAL EDUCATIONAL AGENCY DISCRETION.—Notwithstanding subsection (b)(1) of this section, a local educational agency shall have discretion to make educational decisions which are consistent with achieving the purposes of this chapter as set forth in this subsection, as follows:

"(1) A local educational agency may, with the approval of the State educational agency, designate as eligible (and serve) school attendance areas with substantially higher numbers or percentages of educationally deprived children before school attendance areas with higher concentrations of children from low-income families, but this provision shall not permit the provision of services to more school attendance areas than could otherwise be served. A State educational agency shall approve such a proposal only if the State educational agency finds that the proposal will not substantially impair the delivery of compensatory education services to educationally deprived children from low-income families in project areas served by the local educational agency.

"(2) Funds received under this chapter may be used for educationally deprived children who are in a school which is not located in an eligible school attendance area when the proportion of children from low-income families in average daily attendance in such school is substantially equal to the proportion of such children in an eligible school attendance area of such agency.

"(3) If an eligible school attendance area or eligible school was so designated in accordance with section 556(b)(1)(A) in either of two preceding fiscal years, it may continue to be so designated for a single additional fiscal year even though it does not qualify in accordance with section 556(b)(1)(A).

"(4) With approval of the State educational agency, eligible school attendance areas or eligible schools which have higher proportions of children from low-income families may be skipped if they are receiving, from non-Federal funds, services of the same nature and scope as would otherwise be provided under this chapter, but (A) the number of children attending private elementary and secondary schools who receive services under this chapter shall be determined without regard to non-Federal compensatory education funds which serve eligible children in public elementary and secondary schools, and (B) children attending private elementary and secondary schools who receive assistance under this chapter shall be identified in accordance with this section and without regard to skipping public school attendance areas or schools under this paragraph.

"(5) Educationally deprived children who begin participation in a program or project assisted under this chapter who, in the same school year, are transferred to a school attendance area or a school not receiving funds under this chapter, may continue to participate in a program or project funded under this chapter for the remainder of such year.

"(6) The local educational agency is not required to use funds under this chapter to serve educationally deprived children in greatest need of assistance if such children are receiving, from non-Federal sources, services of the same nature and scope as would otherwise be provided under this chapter.

"(7) In the case of any school serving an attendance area that is eligible to receive services under this chapter and in which not less than 75 per centum of the children are from low-income families, funds received under this chapter may be used for a project designed to upgrade the entire educational program in that school in the same manner and only to the same extent as permitted under section 133(b) of the Elementary and Secondary Education Act of 1965 (but without regard to paragraph (4) of such section).

"(8) Public school personnel paid entirely by funds made available under this chapter may be assigned limited, rotating, supervisory duties which are assigned to similarly situated personnel who are not paid with such funds, and such duties need not be limited to classroom instruction or to the benefit of children participating in programs or projects funded under this chapter. Such duties may not exceed the same proportion of total time as is the case with similarly situated personnel at the same school site, or 10 per centum of the total time, whichever is less.".

PARENTAL INVOLVEMENT

SEC. 4. Section 556 of the Act is further amended by adding at the end thereof the following new subsection:

"(e) PARENTAL INVOLVEMENT.—For the purposes of complying with the assurances given pursuant to subsection (b)(3) with respect to consultation with parents of participating children, (1) a local educational agency shall convene annually a public meeting, to which all parents of eligible students shall be invited, to explain to parents the programs and activities provided with funds made available under this chapter, and (2) if parents desire further activities, the local educational agency may, upon request, provide reasonable support for such activities.".

AREAS FOR SERVICES TO PRIVATE SCHOOLCHILDREN

SEC. 5. Section 557(a) of the Act is amended by inserting "(1)," immediately after "556(b)".

APPLICATION OF NONSUPPLANTING RULE TO STATES

SEC. 6. Section 558(b) of the Act is amended—

(1) by inserting "State educational agency or other State agency in operating its State level programs or a" before "local educational agency" in the first sentence; and

(2) by striking out "a local educational agency shall not be required" in the second sentence and inserting in lieu thereof "no State educational agency, other State agency, or local educational agency shall be required".

EXCLUSIONS OF SPECIAL PROGRAM FUNDS

SEC. 7. Section 558(d) of the Act is amended—

(1) by striking out "if such programs are consistent with the purposes of this chapter" and inserting in lieu thereof "including compensatory education for educationally deprived children (which meets the requirements of section 131(c) of the Elementary and Secondary Education Act of 1965)"; and

(2) by adding at the end thereof the following new sentence:

"For the purpose of determining compliance with the requirements of subsection (c), a local educational agency may exclude State and local funds expended for—

"(1) bilingual education for children of limited English proficiency,

"(2) special education for handicapped children or children with specific learning disabilities, and

"(3) certain State phase-in programs as described in section 131(d) of the Elementary and Secondary Education Act of 1965.".

OVERLAP IN COUNTY BOUNDARIES

SEC. 8. Section 558(e) of the Act is amended by striking out "In any State" and inserting in lieu thereof "Notwithstanding section 111(A)(3)(C) of the Elementary and Secondary Education Act of 1965, in any State".

PHASEOUT AND TRANSITION EXPENSES

SEC. 9. Section 562(c) of the Act is amended by adding at the end thereof the following: "Until September 30, 1983, such funds may also be used to assist in phasing out programs described in section 561(a) and in promoting an orderly transition to operations under this chapter.".

STATE ALLOTMENTS

SEC. 10. The first sentence of section 563(a) is amended by striking out "not to exceed".

AUDIT REQUIREMENT OF SMALL LEA'S

SEC. 11. Section 564(a) of the Act is amended by inserting after paragraph (7) the following new sentence: "Notwithstanding section 1745 of this Act, local educational agencies receiving less than an average $5,000 each year under this chapter shall be audited at least once each five years.".

REQUIREMENT FOR STATE CERTIFICATION OF LEA APPLICATIONS

SEC. 12. Section 566(a) of the Act is amended by striking out everything preceding paragraph (1) and inserting in lieu thereof the following:

"SEC. 566. (a) A local educational agency may receive its allocation of funds under this chapter for any year for which its application to the State educational agency has been certified to meet the requirements of this subsection. The State educational agency shall certify any such application if such application—".

SCHOOL-LEVEL PROGRAMS

SEC. 13. Section 573(a) of the Act is amended by striking out "chapter" in the first sentence and inserting in lieu thereof "subchapter".

STATE RULEMAKING

SEC. 14. Section 591 of the Act is amended by adding at the end thereof the following new subsection:

"(d) Nothing in this subtitle shall be interpreted (1) to authorize State regulations, issued pursuant to procedures as established by State law, applicable to local educational agency programs or projects funded under this subtitle, except as related to State audit and financial responsibilities, or (2) to encourage, preempt, or prohibit regulations issued pursuant to State law which are not in conflict with the provisions of this subtitle. The imposition of any State rule or policy relating to the administration and operation of programs funded by this subtitle (including those based on State interpretation of any Federal law, regulation, or guideline) shall be identified as a State-imposed requirement.".

WITHHOLDING OF PAYMENTS

SEC. 15. Section 592(a) of the Act is amended—

(1) by striking out "on the record" in the first sentence; and

(2) by adding at the end thereof the following new sentence: "A transcript or recording shall be made of any hearing conducted under this subsection and shall be available for inspection by any person.".

JUDICIAL REVIEW

SEC. 16. Section 593(b) of the Act is amended by inserting "and a local educational agency" after "A State educational agency".

APPLICATION OF GEPA

SEC. 17. (a) Section 596 of the Act is amended to read as follows:

"APPLICATION OF OTHER LAWS

"SEC. 596. (a) Except as otherwise specifically provided by this section, the General Education Provisions Act shall apply to the programs authorized by this subtitle.

"(b) The following provisions of the General Education Provisions Act shall be superseded by the specified provisions of this subtitle with respect to the programs authorized by this subtitle:

"(1) Section 408(a)(1) of the General Education Provisions Act is superseded by section 591(a) of this subtitle.

"(2) Section 426(a) of such Act is superseded by section 591(b) of this subtitle.

"(3) Section 427 of such Act is superseded by section 556(b)(3) of this subtitle.

"(4) Section 430 of such Act is superseded by sections 556(a) and 564(b) of this subtitle.

"(5) Section 431A of such Act is superseded by section 558(a) of this subtitle.

"(6) Section 453 of such Act is superseded by section 592 of this subtitle.

"(7) Section 455 of such Act is superseded by section 593 of this subtitle with respect to judical review of withholding of payments.

"(c) Sections 434, 435, and 436 of the General Education Provisions Act, except to the extent that such sections relate to fiscal control and fund accounting procedures, shall not apply to the programs authorized by this subtitle and shall not be construed to authorize the Secretary to require any reports or take any actions not specifically authorized by this subtitle.".

(b) Section 406A(a) of the General Education Provisions Act, as added by the Education Amendments of 1974 (relating to responsibility of States to furnish information), is amended—

(1) by striking out paragraphs (3) and (4);

(2) by inserting "and" at the end of paragraph (2); and

(3) by redesignating paragraph (5) as paragraph (3).

CONFORMING AND TECHNICAL AMENDMENTS TO TITLE I OF ESEA

SEC. 18. (a) Title I of the Elementary and Secondary Education Act of 1965 is amended—

(1) in section 142(a) by striking out "subpart 3 of part A, other than sections 122, 123, and 126(d) thereof" in paragraph (3) and inserting in lieu thereof "section 556 (other than subsection (b)(1)) and section 558 of the Education Consolidation and Improvement Act of 1981"; and

(2) in sections 147 and 152(a), by striking out "subpart 3 of part A, other than sections 122, 123, 125, 126(d), and 126(e) thereof" and inserting in lieu thereof "section 556 (other than subsection (b)(1)) and section 558 (other than subsection (c) of the Education Consolidation and Improvement Act of 1981".

(b) The amendments made by subsection (a) shall apply only with respect to funds for use under Education Consolidation and Improvement Act of 1981.

AVAILABILITY OF TITLE I APPROPRIATIONS

SEC. 19. (a) Section 553 of the Act is amended—

(1) by inserting "(a)" after "SEC. 553"; and

(2) by adding at the end thereof the following new subsection:

"(b) From the amount appropriated to carry out this chapter, not more than 14.6 per centum of such amount for each of the fiscal years 1983 and 1984 shall be available to carry out programs described in sections 141, 146, and 151 of the Elementary and Secondary Education Act of 1965. After the allocations for programs operated by State agencies, the Secretary shall assure that the amount available for allocation under section 117 of such Act bears the same ratio to the amount appropriated in each such fiscal year for this chapter as the amount available for such section in fiscal year 1980 bore to the total amount appropriated for title I of such Act in fiscal year 1980.".

(b)(1) Section 514(a)(2) of the Act is repealed.

(2) Section 514(a) of the Act is amended by striking out "(1)".

EXTENSION OF AUTHORIZATION FOR TITLE VII OF ESEA

SEC. 20. Section 528 of the Omnibus Budget Reconciliation Act of 1981 is amended—

(1) by striking out "and" at the end of paragraph (13);

(2) by striking out the period at the end of paragraph (14) and inserting in lieu thereof a semicolon and the word "and"; and

(3) by adding at the end thereof the following new paragraph:

"(15) title VII of the Elementary and Secondary Education Act of 1965.".

CONFORMING AMENDMENTS

SEC. 21. (a) Section 565(a) of the Act is amended by striking out "nonpublic" and inserting in lieu thereof "private, nonprofit".

(b) The first sentence of section 1003(a)(1) of the Elementary and Secondary Education Act of 1965 is amended by inserting after "Act" a comma and the following: "or the Education Consolidation and Improvement Act of 1981".

ASSESSMENT OF COMPENSATORY EDUCATION

SEC. 22. Chapter 1 of the Act is amended by adding at the end thereof the following new section:

"NATIONAL ASSESSMENT OF COMPENSATORY EDUCATION ASSISTED UNDER THIS CHAPTER

"SEC. 559. (a) The Secretary shall conduct a national assessment of compensatory education assisted under this chapter, through independent studies and analysis by the National Institute of Education. The assessment shall include descriptions and assessments of the impact of (1) services delivered, (2) recipients of services, (3) background and training of teachers and staff, (4) allocation of funds (to school sites), (5) coordination with other programs, (6) effectiveness of programs on student's basic and higher order academic skills, school attendance, and future educaiton, and (7) a national profile of the way in which local educational agencies implement activities described under section 556(b). The National Institute of Education shall consult with the Committee on Labor and Human Resources of the Senate and the Committee on Education and Labor of the House of Representatives in the design and implementation of the assessment required by this section. The National Institute of Education shall report to Congress the preliminary results of the assessment required by this section in January and July of 1986, and a final report shall be prepared and submitted to the Congress not later than January 17, 1987.

"(b) Notwithstanding any other provision of law or regulation, such reports shall not be subject to any review outside of the Department of Education before their transmittal to the Congress, but the President and the Secretary may make such additional recommendations to the Congress with respect to the assessment as they deem appropriate.

"(c) From amounts otherwise available to the National Institute of Education, $2,000,000 for the fiscal year 1984 and $4,000,000 for each of the succeeding fiscal years ending prior to October 1, 1987, shall be made available to carry out the provisions of this section.".

IMPACT AID

SEC. 23. Section 5(c) of the Act of September 30, 1950 (Public Law 874, 81st Congress), is amended by adding at the end thereof the following: "In the determination of amounts

of payments made on the basis of entitlements establish under section 2, 3, and 4 after March 31, 1983, by reason of any provision of law other than this Act which places any additional restriction on payments based on the concentration of children counted under subsection (a) or (b) of section 3 in the schools of the local educational agency, such restriction shall be applied, in the case of any State (other than a territory or possession of the United States) within which there is only one local educational agency, by treating each administrative school district within such State as a local educational agency (solely for the purpose of computing the amount of such payments).".

EFFECTIVE DATE

SEC. 24. (a) Except as provided in subsection (b), the amendments made by this Act to the Education Consolidation and Improvement Act of 1981 and title I of the Elementary and Secondary Education Act of 1965 shall be effective July 1, 1983.

(b) With respect to the period beginning July 1, 1982, and ending June 30, 1983, no recipient of funds under the Education Consolidation and Improvement Act of 1981 shall be held to have expended such funds in violation of the requirements of such Act if such funds are expended either in accordance with such Act as in effect prior to the date of enactment of this Act or in accordance with such Act as amended by this Act.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ORDER FOR SEQUENTIAL REFERRAL OF S. 1090

Mr. BAKER. Mr. President, I will now state a unanimous-consent request that I believe has been submitted for the consideration of the minority leader.

I ask unanimous consent that S. 1090, as ordered reported on August 1, 1983, by the Committee on Governmental Affairs, be sequentially referred to the Committee on Energy and Natural Resources for 60 calendar days beginning at the end of the August recess.

Mr. BYRD. Mr. President, there is no objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

AUTHORIZATION OF PAYMENT FOR TRAVEL AND TRANSPORTATION EXPENSES

Mr. BAKER. Mr. President, I wish to turn to the consideration of H.R. 3232, if the minority leader can clear that measure.

Mr. BYRD. Mr. President, I am happy to clear that measure. There is no objection on this side.

Mr. BAKER. Mr. President, then I ask the Chair to lay before the Senate H.R. 3232, and act to amend title 38 of the United States Code to authorize payment of travel and transportation expenses of newly appointed special agents of the Justice Department.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 3232) to amend title 28 of the United States Code to authorize payment of travel and transportation expenses of newly appointed special agents of the Department of Justice.

The Senate proceeded to the consideration of the bill.

Mr. THURMOND. Mr. President, H.R. 3232 is a noncontroversial measure which authorizes the Department of Justice to pay certain moving and travel expenses incurred by new agents upon assignment to their first post of duty following a training course. This bill is strongly supported by the Justice Department and, in particular, the FBI and the DEA.

Current law prohibits reimbursement of a new Federal employee for expenses incurred in reporting to his job, unless the employee falls into a shortage category. FBI and DEA special agents are in a rather unique position since, prior to assuming their duties in the field, they are sent for training in places like the academy at Quantico, Va. For 25 years, the FBI considered the training location the first duty assignment and paid for the agent's moving costs to his subsequent assignment location. However, in 1979, the Comptroller General ruled that a training site could not be considered the agent's first duty post.

In response to the 1979 ruling, the Department initiated a new policy whereby agents, upon completion of training, would be initially assigned to the field office that recruited them. After 6 months, the agent was transferred to another field office, based on staffing requirements. The Department has encountered several problems with this approach. Recruiting offices may become staffed with too many inexperienced agents and, according to the Department's experience, the cost of moving an established agent is greater than that for a new employee. The Department anticipates that these problems will be exacerbated by the substantial hirings in connection with the administration's new organized crime drug enforcement initative.

H.R. 3232 would amend title 28 of the United States Code by adding a new section 530, which would auhtorize the Attorney General to pay the travel expenses of a newly appointed special agent and the transportation expenses of his family and personal effects from the place of residence at the time of selection to his first duty station. Thus, it will permit the Department to continue the practice which was in effect prior to 1979, without the complications of recent years. I am advised by the Department that this bill will save the taxpayers approximately one-half million dollars each year.

Mr. President, I strongly support this measure, which was included, in slightly modified form, in the fiscal year 1984 Justice Department authorization bill recently reported by the committee. I commend our colleagues in the other body for promptly processing H.R. 3232 and I hope that we will be able to pass it with the same speed.

The PRESIDING OFFICER. The bill is before the Senate and open to amendment. If there be no amendment to be offered, the question is on third reading and passage of the bill.

The bill (H.R. 3232) was ordered to a third reading, was read the third time, and passed.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

DEPARTMENT OF JUSTICE AUTHORIZATIONS, 1984

Mr. BAKER. Mr. President, if the minority leader has no objection, I ask that the Senate proceed to the consideration of Calendar Order No. 162, S. 1192.

Mr. BYRD. Mr. President, I have no objection.

Mr. BAKER. I thank the minority leader.

Mr. President, I ask that the Chair lay before the Senate that measure.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (S. 1192) to authorize appropriations for the purpose of carrying out the activities of the Department of Justice for fiscal year 1984, and for other purposes.

There being no objection, the Senate proceeded to the consideration of the bill, which had been reported from the Committee on the Judiciary with an amendment to strike out all after the enacting clause, and insert the following:

That this Act may be cited as the "Department of Justice Appropriation Authorization Act, Fiscal Year 1984".

SEC. 2. There are authorized to be appropriated for the fiscal year ending September 30, 1984, to carry out the activities of the Department of Justice (including any bureau, office, board, division, commission, or subdivision thereof) the following sums:

(1) For General Administration, including—

(A) miscellaneous and emergency expenses authorized or approved by the Attorney General, or the Deputy Attorney General, or the Associate Attorney General, or the Assistant Attorney General for Administration;

(B) financial assistance to joint State and joint State and local law enforcement agencies engaged in cooperative enforcement efforts with respect to drug related offenses, organized criminal activity and all related support activities, not to exceed $10,000,000, and to remain available until expended: $66,364,000, of which $797,000 shall remain available until expended for the Federal Justice Research program.

(2) For the United States Parole Commission: $7,836,000.

(3) For General Legal Activities, including—

(A) miscellaneous and emergency expenses authorized or approved by the Attorney General, or the Deputy Attorney General, or the Associate Attorney General, or the Assistant Attorney General for Administration;

(B) not to exceed $20,000 for expenses of collecting evidence, to be expended under the direction of the Attorney General and accounted for solely on the certificate of the Attorney General;

(C) advance of public moneys under section 3324 of title 31, United States Code;

(D) for necessary dues and expenses for the membership of the United States in the International Criminal Police Organization (INTERPOL), as authorized by section 263(a) of title 22, United States Code;

(E) expenses necessary under section 501(c) of the Refugee Education Assistance Act of 1980 (Public Law 96-422);

(F) not exceed $50,000 which may be transferred from the "Alien Property Funds, World War II", for the general administrative expenses of alien property activities, including rent of private or Government-owned space in the District of Columbia; and

(G) for the investigation and prosecution of denaturalization and deportation cases involving alleged Nazi war criminals: $160,440,000.

(4) For the Foreign Claims Settlement Commission for its activities: $954,000.

(5) For the Antitrust Division for its activities: $45,791,000.

(6) For United States Attorneys, Marshals, and Trustees, including the payment of rewards and the purchase of evidence and payments of information: $369,513,000.

(7) For Support of United States Prisoners in non-Federal institutions, including necessary clothing and medical aid, payment of rewards, and reimbursements to Saint Elizabeths Hospital for the care and treatment of United States prisoners, at per diem rates as authorized by section 2 of the Act entitled "An Act to authorize certain expenditures from the appropriations of Saint Elizabeths Hospital, and for other purposes", approved August 4, 1947 (24 U.S.C. 168a): $44,768,000: Provided, That amounts made available for constructing any local jail facility shall not exceed the cost of constructing space for the average Federal prisoner population for that facility as projected by the Attorney General: *Provided further,* That following agreement on or completion of any federally assisted jail construction, the availability of such space shall be assured and the per diem rate charged for housing Federal prisoners at that facility shall not exceed direct operating costs for the period of time specified in the cooperative agreement.

(8) For Fees and Expenses of Witnesses, including contracting for expert witnesses according to the procedure similar to that authorized by section 904 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 544): $38,266,000.

(9) For the Community Relations Service: $32,969,000 of which $26,655,000 shall remain available until expended to make payments in advance for grants, contracts, and reimbursable agreements and other expenses necessary under section 501(c), the Refugee Education Assistance Act of 1980, Public Law 96-422, for the processing, care, maintenance, security, transportation and reception and replacement in the United States of Cuban and Haitian entrants.

(10) For Organized Crime Drug Enforcement for the detection, investigation, prosecution, and incarceration of individuals involved in organized criminal drug trafficking not otherwise provided for: $121,949,000 of which $2,500,000 is for the Presidential Commission on Organized Crime are to remain available until expended and of which $14,000,000 for the purchase of automated data processing and telecommunications equipment and $9,619,000 for undercover operations shall remain available until September 30, 1985, and, notwithstanding any other provision in law, there is authorized payment in advance for expenses arising out of contractual and reimbursable agreements with State and local law enforcement and regulatory agencies while engaged in cooperative organized criminal drug enforcement and regulatory activities. The Attorney General shall deliver an annual report to the President, the Judiciary Committees and the Appropriations Committees of the Senate and the House of Representatives not later than March 31 of each year, evaluating the results of this program.

(11) For the Federal Bureau of Investigation for its activities, including—

(A) acquisition, collection, classification, and preservation of identification and other records and their exchange with, and for the official use of, the duly authorized officials of the Federal Government, of States, cities, and other institutions, such exchange to be subject to cancellation if dissemination is made outside the receiving departments or related agencies;

(B) the payment of rewards;

(C) payment of travel and related expenses for immediate family members of employees, including costs of expenses incurred for specialized training and orientation in connection with a transfer to Puerto Rico, other territories and possessions of the United States, and assignment in a legal attaché post outside the territory of the United States; and

(D) not to exceed $70,000 to meet unforeseen emergencies of a confidential character, to be expended under the direction of the Attorney General and to be accounted for solely on the certificate of the Attorney General: $1,055,690,000 of which not to exceed $52,000,000 for automated data processing and telecommunications and $1,000,000 for undercover operations and $10,000,000 for the relocation within the District of Columbia of the Washington field office shall remain available until September 30, 1985: *Provided,* That notwithstanding the provisions of sections 3302 and 9701 of title 31, United States Code, the Director of the Federal Bureau of Investigation may establish and collect fees to process fingerprint identification records for noncriminal employment and licensing purposes, which represent the cost of furnishing the service. Not more than $13,500,000 of such fees shall be credited to the Federal Bureau of Investigation's appropriation to be used for salaries and other expenses incurred in providing these services. No fee shall be assessed in connection with the processing of requests for criminal history records by criminal justice agencies for criminal justice purposes or for employment in criminal justice agencies, as defined in title 28, Code of Federal Regulations, sections 20.3 (c) and (d).

(12) For the Immigration and Naturalization Service, for expenses necessary for the administration and enforcement of the laws relating to immigration, naturalization, and alien registration, including—

(A) payment of rewards and purchases of evidence and payment for information;

(B) not to exceed $50,000 to meet unforeseen emergencies of a confidential character, to be expended under the direction of the Attorney General and accounted for solely on the certificate of the Attorney General;

(C) planning, acquisition of sites, and construction of new facilities and construction, operation, maintenance, remodeling, and repair of buildings and the purchase of equipment incident thereto and to remain available until expended;

(D) payment of expenses related to the purchase and/or lease of privately owned horses;

(E) payment of expenses necessary under section 501(c) of the Refugee Education Assistance Act of 1980 (Public Law 96-422) for the processing, care, maintenance, security, transportation, and reception and placement in the United States of Cuban and Haitian entrants to remain available until expended; and

(F) research related to immigration enforcement: $537,606,000, of which not to exceed $100,000 may be used for the emergency replacement of aircraft upon the certificate of the Attorney General, of which $400,000 shall remain available for research until expended and of which not to exceed $10,090,000 is authorized to be appropriated to establish a National Records Center and $11,134,000 is authorized to be appropriated to implement a long-range automated data processing plan, each amount to remain available until September 30, 1985.

(13) For the Drug Enforcement Administration for its activities, including—

(A) payment of expenses not to exceed $70,000 to meet unforeseen emergencies of a confidential character to be expended under the direction of the Attorney General, and to be accounted for solely on the certificate of the Attorney General:

(B) payment of rewards;

(C) not to exceed $1,700,000 for purchase of evidence and payments for information (PE/PI) to remain available until September 30, 1985;

(D) research related to enforcement and drug control; and

(E) not less than $12,952,000 for State and Local Task Forces which coordinate the enforcement of drug investigations, primarily heroin trafficking, with selected State and local law enforcement agencies: $275,623,000 of which not to exceed $1,200,000 for research shall remain available until expended. For the purpose of section 709(b) of the Controlled Substances Act (21 U.S.C. 904(b)), such sums shall be deemed to be authorized by section 709(a) of such Act for the fiscal year ending September 30, 1984.

(14) For the Federal Prison System for its activities, including—

(A) for the administration, operation, and maintenance of Federal penal and correctional institutions, including supervision and support of United States prisoners in non-Federal institutions, and not to exceed

$100,000 for inmate legal services within the system;

(B) payment of rewards;

(C) entering into contracts with governmental or private organizations or entities for the safekeeping, care, and subsistence of persons held under any congressional authority; and

(D) transfer to the Health Services Administration of such amounts as may be necessary, in the discretion of the Attorney General, for the direct expenditures by that Administration for medical relief for inmates of Federal penal and correctional institutions: $481,070,000.

SEC. 3. Sums authorized to be appropriated by this Act may be used for—

(a) benefits authorized under section 901(3), (5), (6)(A), (8), (9), and section 904 of the Foreign Service Act of 1980 (22 U.S.C. 4081(3), (5), (6)(A), (8), (9), and 22 U.S.C. 4084), and under the regulations issued by the Secretary of State:

(b) services as authorized by section 3109 of title 5 of the United States Code;

(c) official reception and representation expenses in accordance with distributions, procedures, and regulations issued by the Attorney General and in an amount not to exceed $65,000;

(d) per diem allowances for an employee who serves in a law enforcement capacity and/or transportation expenses for members of his immediate family in accordance with regulations prescribed under section 5707 of title 5, United States Code, by the Administrator of the General Services Administration or his designee, when necessarily occupying temporary living accommodations at or away from the employee's designated post of duty because of a threat to life or property or because law enforcement or investigative interests may be compromised;

(e) attendance at meetings to be expended for such purposes in accordance with the regulations issued by the Attorney General;

(f) antiterrorism training for dependents of Department of Justice personnel who will be stationed abroad on the same basis as Department of State personnel;

(g) the travel expenses of newly appointed special agents within the various agencies of the Department of Justice and the transportation expense of their families and household goods and personal effects from place of residence at time of selection to first duty station to the extent authorized by section 5723 of title 5; and

(h) assistance to individuals under section 501(c) of the Refugee Education Assistance Act (Public Law 96-422) who meet the definition of "Cuban and Haitian entrant" under section 501(e) of said Act but for the application of paragraph (2)(B) thereof.

SEC. 4. (a) Travel advances issued to special agents of the Department of Justice engaged in undercover activities from sums authorized to be appropriated by this Act shall be deemed to be Government funds within the meaning of section 3527 of title 31, United States Code.

(b) There are authorized to be appropriated for the fiscal year ending September 30, 1984, such sums as may be necessary for increases in salary, pay, retirement, and other employee benefits authorized by law, and for other nondiscretionary costs.

SEC. 5. (a) The Attorney General shall perform periodic evaluations of the overall efficiency and effectiveness of the Department of Justice programs and any supporting activities funded by appropriations authorized by this Act and annual specific program evaluations of selected subordinate organizations' programs, as determined by the priorities set either by the Congress or the Attorney General.

(b) Subordinate Department of Justice organizations and their officials shall provide all the necessary assistance and cooperation in the conduct of evaluations, including full access to all information, documentation, and cognizant personnel, as required.

(c) The Attorney General's annual report on Department of Justice activities shall be made available to the Committees on the Judiciary of the Senate and the House of Representatives, and other appropriate committees, within five months after the end of the fiscal year to which it pertains.

SEC. 6. (a) The Commissioner of the Immigration and Naturalization Service is authorized during the fiscal year ending September 30, 1984, to accept unconditional gifts, donations, or bequests of real, personal, or other property for use in the operations and functions of the Immigration and Naturalization Service and the Immigration and Naturalization Service is authorized to retain horses received as donations. For the purpose of Federal income, estate, and gift taxes, property that is accepted under this section is considered as a gift or bequest to or for the use of the United States.

(b) Notwithstanding the provisions of section 1342 of title 31, United States Code, the Commissioner of the Immigration and Naturalization Service is authorized during the fiscal year ending September 30, 1984, to accept voluntary and uncompensated services to assist the Service in information services to the public. Persons providing voluntary services shall not be used to displace any Federal employee and shall not be considered Federal employees for any purpose except for the purposes of chapter 81 of title 5, United States Code (relating to compensation for injury), and sections 2671 through 2680 of title 28, United States Code (relating to tort claims).

SEC. 7. (a) With respect to any undercover investigative operation of the Federal Bureau of Investigation which is necessary for the detection and prosecution of crimes against the United States or for the collection of foreign intelligence or counterintelligence and with respect to any undercover investigative operation of the Drug Enforcement Administration—

(1) sums authorized to be appropriated for the Federal Bureau of Investigation or the Drug Enforcement Administration by this Act may be used for leasing space within the United States, the District of Columbia, and the territories and possessions of the United States without regard to section 1341 of title 31, United States Code, section 3732(a) of the Revised Statutes (41 U.S.C. 11(a)), section 305 of the Act of June 30, 1949 (63 Stat. 396; 41 U.S.C. 255), the third undesignated paragraph under the heading "Miscellaneous" of the Act of March 3, 1877 (19 Stat. 370; 40 U.S.C. 34), section 3324 of title 31, United States Code, section 3741 of the Revised Statutes (41 U.S.C. 22), and subsections (a) and (c) of section 304 of the Federal Property and Administrative Services Act of 1949 (63 Stat. 395; 41 U.S.C. 254 (a) and (c));

(2) sums authorized to be appropriated for the Federal Bureau of Investigation or the Drug Enforcement Administration by this Act may be used to establish or to acquire proprietary corporations or business entities as part of an undercover operation, and to operate such corporations or business entities on a commercial basis, without regard to the provisions of section 9102 of title 31, United States Code;

(3) sums authorized to be appropriated for the Federal Bureau of Investigation or the Drug Enforcement Administration by this Act, and the proceeds from such undercover operation, may be deposited in banks or other financial institutions without regard to the provisions of section 648 of title 18 of the United States Code, and section 3302 of title 31, United States Code; and

(4) the proceeds from such undercover operation may be used to offset necessary and reasonable expenses incurred in such operation without regard to the provisions of section 3302 of title 31, United States Code; only upon the written certification of the Director of the Federal Bureau of Investigation (or, if designated by the Director, an Executive Assistant Director), in the case of the Federal Bureau of Investigation, or the Administrator of the Drug Enforcement Administration (or, if designated by the Administrator, a Deputy Administrator) in the case of the Drug Enforcement Administration, and the Attorney General (or, if designated by the Attorney Gerneral, the Deputy Attorney General) that any action authorized by paragraph (1), (2), (3), or (4) of this subsection is necessary for the conduct of such undercover operation.

(b) As soon as the proceeds from an undercover investigative operation with respect to which an action is authorized and carried out under paragraphs (3) and (4) of subsection (a) are no longer necessary for the conduct of such operation, such proceeds or the balance of such proceeds remaining at the time shall be deposited into the Treasury of the United States as miscellaneous receipts.

(c) If a corporation or business entity established or acquired as part of an undercover operation under paragraph (2) of subsection (a) with a net value of over $50,000 is to be liquidated, sold, or otherwise disposed of, the Federal Bureau of Investigation, as much in advance as the Director or his designee determines is practicable, and the Drug Enforcement Administrator, as much in advance as the Administrator or his designee determines is practicable, shall report the circumstances to the Attorney General and the Comptroller General. The proceeds of the liquidation, sale, or other disposition, after obligations are met, shall be deposited in the Treasury of the United States as miscellaneous receipts.

(d)(1) The Federal Bureau of Investigation and the Drug Enforcement Administration shall conduct detailed financial audits of undercover operations closed on or after October 1, 1983, and—

(A) report the results of each audit in writing to the Attorney General, and

(B) report annually to the Congress concerning these audits.

(2) For the purposes of paragraph (1), "undercover operation" means any undercover operation of the Federal Bureau of Investigation, other than a foreign counterintelligence undercover operation and any undercover operation of the Drug Enforcement Administration—

(A) in which the gross receipts exceed $50,000, and

(B) which is exempted from section 3302 or 9102 of title 31, United States Code.

SEC. 8. (a) Without regard to the provisions of section 3302 of title 31, United States Code, the Drug Enforcement Administration is authorized to set aside 25 per centum of the net amount of money realized from the forfeiture of assets seized by it

under any provision of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 801 et seq.), to be available in amounts as specified in appropriations Acts for obligations and expenditure only for the purpose of paying awards of compensation with respect to such forfeiture; and to pay, totally within its discretion, such awards to any entity not an agency or instrumentality of the United States, or to any person not an officer or employee of the United States or of any State or local government, that provides information or assistance which leads to a forfeiture referred to in subsection (a). Such awards can be made in any amount up to 25 per centum of the amount realized from the forfeiture, or $150,000 whichever is lesser, in any case, except that no awards shall be made based on the value of the contraband. The authority of the Administrator of the Drug Enforcement Administration to pay an award of $10,000 or more shall not be delegated.

(b) The amounts credited under this section shall be made available for obligations until September 30, 1985.

(c) The remaining 75 per centum of the net amount of money realized from the forfeitures referred to in subsection (a) shall be paid to the miscellaneous receipts of the Treasury: *Provided,* That the authority furnished by this section shall remain available until September 30, 1985, at which time any amount of the unobligated balances remaining in this account, accumulated before September 30, 1984, shall be paid to the miscellaneous receipts of the Treasury: *And provided further,* That the Drug Enforcement Administration shall conduct detailed financial audits, semiannually, of the expenditure of funds from this account and—

(1) report the results of each audit, in writing, to the Department of Justice; and

(2) report annually to Congress concerning these audits.

SEC. 9. Section 709(a) of the Controlled Substances Act (21 U.S.C. 904) is amended—

(1) by striking out "and" after "1982" and

(2) by inserting after "1983", the following: "and $275,623,000 for the fiscal year ending September 30, 1984".

SEC. 10. Section 511(d) of the Controlled Substances Act (21 U.S.C. 881(d)) is amended by inserting "and the award of compensation to informers in respect to such forfeitures" immediately after "compromise of claims".

SEC. 11. During the fiscal year for which appropriations are authorized by this Act, each organization of the Department of Justice, through the appropriate office within the Department of Justice, shall notify in writing the Committee on the Judiciary of the Senate, the Committee on the Judiciary of the House of Representatives, other appropriate committees, and the ranking minority members thereof, not less than fifteen days before—

(1) reprograming of funds in excess of $250,000 or 10 per centum, whichever is less, between the programs within the offices, divisions, and boards as defined in the Department of Justice's program structure submitted to the Committees on the Judiciary of the Senate and the House of Representatives,

(2) reprograming of funds in excess of $500,000 or 10 per centum, whichever is less, between programs within the Bureaus as defined in the Department of Justice's program structure submitted to the Committees on the Judiciary of the Senate and the House of Representatives,

(3) any reprograming action which involves less than the amounts specified in paragraphs (1) and (2) if such action would have the effect of making significant program changes and committing substantive program funding requirements in future years,

(4) increasing personnel or funds by any means for any project or program for which funds or other resources have been restricted,

(5) creation of new programs or significant augmentation of existing programs,

(6) reorganization of offices or programs, and

(7) significant relocation of offices or employees, including the closing of ports of entry and order stations.

SEC. 12. Section 261(a) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5671(a)) is amended by—

(1) striking out "and September 30, 1984"; and

(2) adding after the first sentence the following new sentence: "To carry out the purposes of this title there is authorized to be appropriated $75,000,000 for the fiscal year ending September 30, 1984.".

SEC. 13. Part II of title 28 United States Code, is amended by inserting after chapter 37 the following new chapter:

"CHAPTER 38—GENERAL AUTHORIZATIONS—DEPARTMENT OF JUSTICE

"Sec.

"576. General authorizations.

"§ 576. General authorizations

"(a) The Attorney General or his designee is authorized to make payments from Department of Justice appropriations for—

"(1) the purchase of insurance for motor vehicles and aircraft operated in official Government business in foreign countries; and

"(2) attendance at meetings to be expended for such purposes in accordance with the regulations issued by the Attorney General.

"(b) The offices, divisions, and subdivisions included in the general administration area of the annual appropriation of the Department of Justice are authorized to make payment from their appropriations for the hire of passenger motor vehicles.

"(c) The offices, divisions and subdivisions included in the general legal activities area of the annual appropriation of the Department of Justice are authorized to make payments from their appropriations for:

"(1) the hire of passenger motor vehicles; and

"(2) necessary accommodations in the District of Columbia for conferences and training activities.

"(d) The fees and witness activity of the annual appropriation of the Department of Justice is authorized to make payment from its appropriation for—

"(1) expenses, mileage, compensation, and per diem of witnesses in lieu of subsistence, as authorized by law; and

"(2) advance of public moneys.

No sums authorized to be appropriated shall be used to pay any witness more than one attendance fee for any one calendar day.

"(e) The Community Relations Service of the Department of Justice is authorized to make payments from its appropriation to pay for the hire of passenger motor vehicles.".

SEC. 14. Section 106 of the Act of March 14, 1980 (94 Stat. 97; 22 U.S.C. 1622(f)), is amended to read as follows:

"§ 106. Administrative support and services to Foreign Claims Settlement Commission of the United States by the Attorney General

"(a) The Attorney General shall provide necessary administrative support and services to the Commission. The Chairman shall prepare the budget requests, authorization documents, and legislative proposals for the Commission within the procedures established by the Department of Justice, and the Attorney General shall submit these items to the Director of the Office of Management and Budget as proposed by the Chairman.

"(b) The Commission is authorized to make payments from its appropriation for—

"(1) services as authorized by section 3109 of title 5, United States Code;

"(2) expenses of packing, shipping, and storing personal effects of personnel assigned abroad;

"(3) rental or lease, for such periods as may be necessary, of office space and living quarters for personnel assigned abroad;

"(4) maintenance, improvement, and repair of properties rented or leased abroad, and furnishing fuel, water, and utilities for such properties;

"(5) advances of funds abroad;

"(6) advances or reimbursements to other Government agencies for use of their facilities and services in carrying out the functions of the Commission:

"(7) the hire of motor vehicles for field use only; and

"(8) the employment of aliens.".

SEC. 15. (a) Section 568 of title 28, United States Code, is amended to read as follows:

"§ 568. General authorizations

"Appropriations for the United States attorneys and marshals are available for—

"(a) the purchase of firearms and ammunition and the attendance at firearms matches;

"(b) the lease and acquisition of law enforcement and passenger motor vehicles without regard to the general purchase price limitation for the current fiscal year including acquisition of vehicles seized and forfeited to the United States Government for official use;

"(c) the supervision of the United States prisoners in non-Federal institutions;

"(d) the bringing to the United States from foreign countries persons charged with crime; and

"(e) the acquisition, lease, maintenance, and operation of aircraft.".

(b) During the period for which funds are authorized to be appropriated by this Act, notwithstanding any other provision of law, the following shall apply:

(1)(A) The United States marshals or deputies shall routinely collect, and a court may tax as costs, fees for the following—

(i) serving a writ of possession, partition, execution, attachment in rem, or libel in admiralty, warrant, attachment, summons, capias, or any other writ, order, or process in any case or proceeding;

(ii) serving a subpoena or summons for a witness or appraiser;

(iii) forwarding any writ, order, or process to another judicial district for service;

(iv) the preparation of any notice of sale, proclamation in admiralty, or other public notice or bill of sale;

(v) the keeping of attached property (including boats, vessels, or other property at-

tached or libeled), actual expenses incurred, such as storage, moving, boat hire, or other special transportation, watchmen's or keepers' fees, insurance, and an hourly rate including overtime for each deputy marshal required for special services, such as guarding, inventorying, and moving;

(vi) copies of writs or other papers furnished at the request of any party;

(vii) necessary travel in serving or endeavoring to serve any process, writ, or order, except in the District of Columbia, with mileage to be computed from the place where service is returnable to the place of service or endeavor; and

(viii) overtime expenses incurred by deputy marshals in the course of serving or executing civil process.

(B) The marshals shall collect, in advance, a deposit to cover the initial expenses for special services required under clause (v), and periodically thereafter such amounts as may be necessary to pay such expenses until the litigation is concluded. This subparagraph applies to all private litigants, including seamen proceeding pursuant to section 1916 of title 18, United States Code.

(C) For purposes of clause (vii), if two or more services or endeavors, or if an endeavor and a service, are made in behalf of the same party in the same case on the same trip, mileage shall be computed to the place of service or endeavor which is most remote from the place where service is returnable, adding any additional mileage traveled in serving or endeavoring to serve in behalf of that party. If two or more writs of any kind, required to be served in behalf of the same party on the same person in the same case or proceeding, may be served at the same time, mileage on only one such writ shall be collected.

(2) The Attorney General shall prescribe from time to time regulations for the fees to be collected and taxed under paragraph (1).

(3)(A) For seizing or levying on property (including seizures in admiralty), disposing of such property by sale, setoff, or otherwise and receiving and paying over money, the United States marshals or deputies shall collect commissions of 3 per centum of the first $1,000 collected and 1½ per centum on the excess of any sum over $1,000, except that the amount of the commission shall be within the range set by the Attorney General. If the property is not disposed of by marshal's sale, the commission shall be in such amount, within the range set by the Attorney General, as may be allowed by the court. In any case in which the vessel or other property is sold by a public auctioneer, or by some party other than the marshal or his deputy, the commission authorized under this subsection shall be reduced by the amount paid to such auctioneer or other party. This subsection applies to judicially ordered sales and execution sales, without regard to whether the judicial order of sale constitutes a seizure or levy within the meaning of State law.

(B) The Attorney General shall prescribe from time to time regulations which establish a minimum and maximum amount for the commissions collected under subparagraph (A).

(4) The United States marshals may require a deposit to cover any of the fees and expenses prescribed under this section.

(5) Without regard to the provisions of sections 3302 and 9701 of title 31 of the United States Code, the United States Marshals Service is authorized to credit amounts from fees and expenses collected (including amounts for overtime expenses) for the service of civil process, including complaints, summonses, subpoenas, and similar process performed by the marshals to its current appropriation account for the purpose, only, of carrying out those activities.

(c) Section 569(b) of title 28, United States Code, is amended to read as follows:

"(b)(1) Except as provided in paragraph (2), the United States marshals shall execute all lawful writs, process and orders issued under authority of the United States, and command all necessary assistance to execute their duties.

"(2) Service of complaints, summonses, and subpoenas by a United States marshal may not be required by any party, other than the United States or an officer or agency of the United States, unless performed pursuant to—

"(A) section 1915 or 1916 of this title, or

"(B) an order issued by the court stating that service of a complaint, summons or a subpoena should be made by a United States marshal in order to properly effect service.".

(d) Rule 45 of the Federal Rules of Civil Procedure is amended by inserting after the first sentence and before the second sentence of subsection (c) the following sentence: "A party, other than the United States or an officer or agency of the United States, may not require service of a subpoena by a marshal, or his deputy, unless the service is (1) on behalf of a party authorized to proceed in forma pauperis pursuant to section 1915 of title 28, United States Code, or of a seaman authorized to proceed under section 1916 of title 28, United States Code or (2) pursuant to an order issued by the court stating that a marshal, or his deputy, is required to serve the subpoena in order that service is properly effected.".

(e) Rule 4 of the Federal Rules of Civil Procedure is amended by—

(1) striking the last sentence in subsection (c)(2)(C)(ii) and inserting in lieu thereof the following sentence: "Service of a summons and complaint pursuant to this subdivision of this rule is deemed complete on the date a written acknowledgment of receipt of summons is executed, if such acknowledgment is thereafter returned to the sender.".

(2) by inserting immediately before the period at the end of subsection (c)(2)(D) the following: "mailed to such person pursuant to subdivision (c)(2)(C)(ii) of this rule.".

SEC. 16. Chapter 301 of title 18, United States Code, is amended by inserting after section 4011 the following new section:

"§ 4012. Support for United States prisoners in non-Federal institutions

"The Attorney General or his designee is authorized to make payments from the support for United States prisoners in non-Federal institutions appropriation for entering into contracts or cooperative agreements for only the reasonable and actual cost to assist the government of any State, territory, or political subdivision thereof, for the necessary construction, physical renovation, and the acquisition of equipment, supplies, or materials required to improve conditions of confinement and services of any facility which confines Federal detainees, in accordance with regulations to be issued by the Attorney General and which are comparable to the regulations issued under section 4006 of this chapter.".

SEC. 17. Chapter 33 of title 28, United States Code, is amended by inserting after section 537 the following new section:

"§ 538. General authorizations

"The Federal Bureau of Investigation is authorized to make payments from its appropriation for—

"(a) expenses necessary for the detection and prosecution of crimes against the United States;

"(b) protection of the person of the President of the United States and the person of the Attorney General;

"(c) such other investigations regarding official matters under the control of the Department of Justice and the Department of State as may be directed by the Attorney General;

"(d) purchase for police-type use without regard to the general purchase price limitation for a current fiscal year and the hire of passenger motor vehicles;

"(e) acquisition, lease maintenance, and operation of aircraft; and

"(f) purchase of firearms and ammunition and attendance at firearms matches.

None of the sums authorized to be appropriated for the Federal Bureau of Investigation shall be used to pay the compensation of any employee in the competitive service.".

SEC. 18. Section 6 of the Act of July 28, 1950 (64 Stat. 380; 8 U.S.C. 1555), is amended to read as follows:

"§ 6. Immigration and Naturalization Service general authorities

"The Immigration and Naturalization Service is authorized to make payments from its appropriation for—

"(a) advance of cash to aliens for meals and lodging while en route;

"(b) payment of allowances to aliens, while held in custody under the immigration laws, for work performed;

"(c) payment of expenses and allowances incurred in tracking lost persons as required by public exigencies in aid of State or local law enforcement agencies;

"(d) purchase for police-type use without regard to the general purchase price limitation for the current fiscal year and hire of passenger motor vehicles;

"(e) acquisition, lease, maintenance, and operation of aircraft;

"(f) payment for firearms and ammunition and attendance at firearms matches;

"(g) refunds of maintenance bills, immigration fines, and other items properly returnable except deposits of aliens who become public charges and deposits to secure payment of fines and passage money;

"(h) payment of interpreters and translators who are not citizens of the United States and distribution of citizenship textbooks to aliens without cost to such aliens; and

"(i) acquisition of land as sites for enforcement fences, and construction incident to such fences.".

SEC. 19. The Drug Enforcement Administration is authorized to make payments from its appropriation for—

(a) the hire and acquisition of law enforcement and passenger motor vehicles without regard to the general purchase price limitation for the current fiscal year;

(b) payment in advance for special tests and studies by contract;

(c) payment in advance for expenses arising out of contractual and reimbursable agreements with State and local law enforcement and regulatory agencies while engaged in cooperative enforcement and regulatory activities in accordance with section 503a(2) of the Controlled Substances Act (21 U.S.C. 873(a)(2));

(d) publication of technical and informational material in professional and trade journals and purchase of chemicals, apparatus, and scientific equipment;

(e) necessary accommodations in the District of Columbia for conferences and training activities;

(f) acquisition, lease, maintenance, and operation of aircraft;

(g) contracting with individuals for personal services abroad, and such individuals shall be not regarded as employees of the United States Government for the purpose of any law administered by the Office of Personnel Management;

(h) payment for firearms and ammunition and attendance at firearms matches;

(i) payment for tort claims when such claims arise in foreign countries in connection with Drug Enforcement Administration operations abroad.

SEC. 20. Chapter 303 of title 18, United States Code, is amended by inserting after section 4042 the following new section:

"§ 4043. General authorizations

"The Bureau of Prisons is authorized to make payments from its appropriation for—

"(a) purchase and hire of law enforcement and passenger motor vehicles;

"(b) compilation of statistics relating to prisoners in Federal penal and correctional institutions;

"(c) assistance to State and local governments to improve their correctional systems;

"(d) purchase of firearms and ammunition and medals and other awards;

"(e) purchase and exchange of farm products and livestock;

"(f) construction of buildings at prison camps and acquisition of land as authorized by section 4010 of title 18, United States Code;

"(g) Federal Prison Industries, Incorporated, to make such expenditures, within the limits of funds and borrowing authority, and in accord with the law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 104 of the Government Corporation Control Act, as may be necessary in carrying out the program set forth in the budget for the current fiscal year for such corporation, including purchase and hire of passenger motor vehicles;

"(h) planning, acquisition of sites and construction of new facilities, and constructing, remodeling and equipping necessary buildings and facilities at existing penal and correctional institutions, including all necessary expenses incident thereto, by contract or force account, to remain available until expended, and the labor of United States prisoners may be used for work performed with sums authorized to be appropriated by this subsection; and

"(i) carrying out the provisions of sections 4351 through 4353 of this title relating to a National Institute of Corrections, to remain available until expended.".

SEC. 21. Section 4204(b) of title 18, United States Code, is amended by adding at the end thereof the following new paragraph:

"(9) make payment from the appropriation for the Commission to hire passenger motor vehicles."

SEC. 22. The table of chapters for part II of title 28, United States Code, is amended by inserting after the item relating to chapter 37 the following new item:

"38. General authorizations ..... 576".

SEC. 23. The table of sections for chapter 37 of title 28, United States Code, is amended by amending the item relating to section 568 to read as follows:

"568. General authorizations.".

SEC. 24. The table of sections for chapter 301 of title 18, United States Code, is amended by inserting after the item relating to section 4011 the following new item:

"4012. Support for United States prisoners in non-Federal institutions.".

SEC. 25. The table of sections for chapter 33 of title 28, United States Code, is amended by inserting after the item relating to section 537 the following new item:

"538. General authorizations.".

SEC. 26. The table of sections for chapter 303 of title 18, United States Code, is amended by inserting after the item relating to section 4042 the following new item:

"4043. General authorizations.".

SEC. 27. Subject to sections 5315-5317 of title 5, United States Code, and notwithstanding the provisions of section 548 of title 28, United States Code, during the fiscal year ending September 30, 1984, the Attorney General shall fix the annual salaries of United States attorneys, assistant United States attorneys, and attorneys appointed under section 543 of this title at rates of compensation not in excess of the rate of basic compensation provided for Executive Level IV of the Executive Schedule set forth in section 5315 of title 5, United States Code. Until such time as the Appropriations Committee acts, none of the sums authorized to be appropriated by the act may be used to transfer any position from any legal division of the Department of Justice to any office of any United States Attorney to pay the salary of any employee occupying any such position so transferred after April 1, 1983.

The PRESIDING OFFICER. The bill is open to further amendment. If there be no further amendment to be proposed, the question is on agreeing to the committee amendment in the nature of a substitute.

The committee amendment was agreed to.

The bill was ordered to be engrossed for a third reading and was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall it pass?

So the bill (S. 1192) was passed.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ORDER OF BUSINESS

Mr. BAKER. Mr. President, I propose now, if the minority leader has no objection, to go to Senate Joint Resolution 149.

Mr. BYRD. Mr. President, I am happy to go to that.

Mr. DOMENICI. Mr. President, I believe the prime sponsor has a modification. With the modification, I shall have no objection.

Mr. BAKER. Mr. President, let me pass over that for the moment and complete the call of the items in the unanimous-consent folder. Then perhaps we can proceed with that measure.

ORDER FOR RECORD TO REMAIN OPEN

Mr. BAKER. Mr. President, I anticipate that the Senate will adjourn shortly. In view of that, I ask unanimous consent that the RECORD remain open until 6 p.m. today for the introduction of bills or resolutions or the filing of statements and reports.

The PRESIDING OFFICER. Without objection, it is so ordered.

JACK D. WATSON POST OFFICE BUILDING

Mr. BAKER. Mr. President, there is a matter that the assistant majority leader is prepared to proceed with. I yield to him.

Mr. STEVENS. Mr. President, I send a bill to the desk and ask unanimous consent that it receive immediate consideration.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. Mr. President, reserving the right to object, this is a bill in which Mr. STEVENS is very interested. I believe the majority leader of the House is also interested in it.

Mr. STEVENS. That is correct, Mr. President.

Mr. BYRD. With pleasure, Mr. President, I remove my reservation.

The PRESIDING OFFICER. The clerk will state the bill.

The assistant legislative clerk read as follows:

A bill (S. 1797) to name the United States Post Office Building to be constructed in Fort Worth, Texas, as the "Jack D. Watson Post Office Building".

The Senate proceeded to consider the bill.

AMENDMENT NO 2123

Mr. STEVENS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Alaska (Mr. STEVENS) proposed an amendment numbered 2123.

At the end add:

SERVICE OF GOVERNOR UNTIL SUCCESSOR QUALIFIES

SEC. . Section 202(b) of title 39, United States Code, is amended by adding at the end thereof the following sentence: "A Governor may continue to serve after the expiration of his term until his successor has qualified, but not to exceed one year."

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2123) was agreed to.

The PRESIDING OFFICER. The question is on the engrossment and the third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 1797

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the United States Post Office Building to be constructed in Fort Worth, Texas, at the intersection of Meacham Boulevard and the Mark IV Parkway, shall hereafter be named and designated the "Jack D. Watson Post Office Building". Any reference in a law, map, regulation, document, record, or other paper of the United States to such building shall be held to be a reference to the "Jack D. Watson Post Office Building".

SERVICE OF GOVERNOR UNTIL SUCCESSOR QUALIFIES

SEC. 2. Section 202(b) of title 39, United States Code, is amended by adding at the end thereof the following sentence: "A Governor may continue to serve after the expiration of his term until his successor has qualified, but not to exceed one year.".

Mr. STEVENS. I move to reconsider the vote by which the bill passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

BUDGET ACT WAIVER

Mr. STEVENS. Mr. President, I ask unanimous consent that the Chair lay before the Senate Resolution 199, a Budget Act waiver to accompany H.R. 2840.

The PRESIDING OFFICER. Without objection, the clerk will state it.

The assistant legislative clerk read as follows:

A resolution (S. Res. 199) waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of H.R. 2840.

Mr. STEVENS. Mr. President, I ask for immediate consideration of this budget act waiver.

The PRESIDING OFFICER. Is there objection to the present consideration of the resolution?

There being no objection, the Senate proceeded to consider the resolution.

The PRESIDING OFFICER. The question is on agreeing to the resolution.

The resolution (S. Res. 199) was agreed to, as follows:

Resolved, That pursuant to section 402(c) of the Congressional Budget Act of 1974, the provisions of section 402(a) of such Act are waived with respect to the consideration of H.R. 2840. Such waiver is necessary because H.R. 2840 authorizes the enactment of new budget authority which would first become available in a fiscal year and was not reported on or before May 15, of that year as required by section 402(a) of the Congressional Budget Act of 1974 for such authorizations.

The authorizations contained in H.R. 2840 are necessary in order to permit the United States Government and the State of Alaska to proceed with the transfer of management of the Pribilof Islands. It was not possible for such authorizations to have been reported by the Committee on Commerce, Science, and Transportation prior to the statutory deadline for such authorizations because negotiations regarding the transfer had not been completed at the time of the deadline.

Mr. STEVENS. I move to reconsider the vote by which the resolution was agreed to.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

FUR SEAL ACT AMENDMENTS OF 1983

Mr. STEVENS. I ask that the Chair lay before the Senate Calendar No. 342, H.R. 2840.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 2840) to provide for the orderly termination of Federal management of the Pribilof Islands, Alaska.

The Senate proceeded to consider the bill, which had been reported from the Committee on Commerce, Science, and Transportation with an amendment to strike out all after the enacting clause and insert the following:

That this Act may be cited as the "Fur Seal Act Amendments of 1983".

SEC. 2. The Act of November 2, 1966 (Public Law 89-702; 16 U.S.C. 1151-1187), known as the Fur Seal Act of 1966, is amended to read as follows:

"TITLE I—FUR SEAL MANAGEMENT

"SEC. 101. (a) 'Commission' means the North Pacific Fur Seal Commission established pursuant to article V of the Convention.

"(b) 'Convention' means the Interim Convention on the Conservation of North Pacific Fur Seals signed at Washington on February 9, 1957, as amended by the protocol signed in Washington on October 8, 1963; by the exchange of notes among the party governments which became effective on September 3, 1969; by the protocol signed in Washington on May 7, 1976; and by the protocol signed in Washington on October 14, 1980, by the parties.

"(c) 'Fur Seal' means the North Pacific Fur Seal, Callorhinus Ursinus.

"(d) 'Import' means to land on, bring into, or introduce into, or attempt to land on, bring into, or introduce into, any place subject to the jurisdiction of the United States, whether or not such landing, bringing, or introduction constitutes an importation within the meaning of the customs laws of the United States.

"(e) 'Natives of the Pribilof Islands' means any Aleuts who are permanent residents of the Pribilof Islands, or any organization or entity representing such natives.

"(f) 'North Pacific Ocean' means the waters of the Pacific Ocean north of the thirtieth parallel of north latitude, including the Bering, Okhotsk, and Japan Seas.

"(g) 'Party' or 'parties' means the United States of America, Canada, Japan, and the Union of Soviet Socialist Republics.

"(h) 'Person' means any individual, partnership, corporation, trust, association or any other private entity, or any officer, employee, agent, department, or instrumentality of the Federal Government, of any State or political subdivision thereof, or of any foreign government.

"(i) 'Pribilof Islands' means the islands of Saint Paul and Saint George, Walrus and Otter Islands, and Sea Lion Rock.

"(j) 'Sealing' means the taking of fur seals.

"(k) 'Secretary' means the Secretary of Commerce.

"(l) 'Take' or 'taking' means to harass, hunt, capture, or kill, or attempt to harass, hunt, capture, or kill.

"SEC. 102. It is unlawful, except as provided in this Act or by regulation of the Secretary, for any person or vessel subject to the jurisdiction of the United States to engage in the taking of fur seals in the North Pacific Ocean or on lands or waters under the jurisdiction of the United States, or to use any port or harbor or other place under the jurisdiction of the United States for any purpose connected in any way with such taking, or for any person to transport, import, offer for sale, or possess at any port or place or on any vessel, subject to the jurisdiction of the United States, fur seals or the parts thereof, including, but not limited to, raw, dressed, or dyed fur seal skins, taken contrary to the provisions of this Act or the Convention, or for any person subject to the jurisdiction of the United States to refuse to permit, except within the Exclusive Economic Zone of the United States, a duly authorized official of Canada, Japan, or the Union of Soviet Socialist Republics to board and search any vessel which is outfitted for the harvesting of living marine resources and which is subject to the jurisdiction of the United States to determine whether such vessel is engaged in sealing contrary to the provisions of said Convention.

"SEC. 103. (a) Indians, Aleuts, and Eskimos who dwell on the coasts of the North Pacific Ocean are permitted to take fur seals and dispose of their skins after the skins have been officially marked and certified by a person authorized by the Secretary: *Provided,* That the seals are taken for subsistence uses as defined in section 109(f)(2) of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1379), and only in canoes not transported by or used in connection with other vessels, and propelled entirely by oars, paddles, or sails, and manned by not more than five persons each, in the way hitherto practiced and without the use of firearms. This authority shall not apply to Indians, Aleuts, and Eskimos while they are employed by any person for the purpose of taking fur seals or are under contract to deliver the skins to any person.

"(b) Indians, Aleuts, and Eskimos who live on the Pribilof Islands are authorized to take fur seals for subsistence purposes as defined in section 109(f)(2) of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1379), under such conditions as recommended by the Commission and accepted by the Secretary of State pursuant to regulations promulgated by the Secretary.

"SEC. 104. The Secretary shall (1) conduct such scientific research and investigations on the fur seal resources of the North Pacific Ocean as he deems necessary to carry out the obligations of the United States under the Convention, and (2) permit, subject to such terms and conditions as he deems desirable, the taking, transportation, importation, exportation, or possession of fur seals

or their parts for educational, scientific, or exhibition purposes.

"SEC. 105. (a) The Secretary shall prescribe such regulations with respect to the taking of fur seals on the Pribilof Island and on lands subject to the jurisdiction of the United States as he deems necessary and appropriate for the conservation, management, and protection of the fur seal population, and to dispose of any fur seals seized or forfeited pursuant to this Act, and to carry out the provisions of the Convention, and shall deliver to authorized agents of the parties such fur seal skins as the the parties are entitled to under the Convention.

"(b) The Secretary is authorized to enter into agreements with any public or private agency or person for the purpose of carrying out the provisions of the Convention and of this title, including but not limited to the taking of fur seals on the Pribilof Islands, and the curing and marketing of the sealskins and other seal parts, and may retain the proceeds therefrom.

"(c) The Secretary shall give preference to the village corporations of Saint Paul and Saint George Islands established pursuant to section 8 of the Alaska Native Claims Settlement Act (Public Law 92-203) for the taking of fur seals on the village corporations' respective islands, and the curing and marketing of the sealskins and other seal parts, and may retain the proceeds therefrom. Any proceeds therefrom will be deposited in a separate fund in the Treasury and will be available to the Secretary, subject to appropriations, for the purpose of this section. All seal harvests will be financed, to the extent possible, from proceeds collected in preceding years or unsold assets retained from harvests conducted in preceding years. In the event that such assets and proceeds are insufficient, as determined by the Secretary, to finance the seal harvest in accordance with the requirements of the Convention, there are authorized to be appropriated to the Secretary for fiscal year 1985 and beyond such sums as may be necessary to carry out the harvest and curing pursuant to this section. Such amounts as are determined by the Secretary to exceed amounts required to carry out this section shall be transferred to the General Fund of the Treasury.

"(d)(1) In order to carry out the purposes of the Convention and subsections (b) and (c) of this section, the Secretary, under terms and conditions prescribed by him may agree to purchase, to make restitution for losses, or to otherwise permit the recoupment of the costs incurred in the taking of fur seals on the Pribilof Islands, and the curing of the sealskins and other seal parts, for the annual harvests conducted pursuant to the Convention in calendar years 1982, 1983, and 1984.

"(2) Payments authorized to be made by the Secretary under this subsection shall be appropriated for fiscal year 1984 in sums not to exceed $1,000,000.

"SEC. 106. (a) Any person authorized to enforce the provisions of this Act who has reasonable cause to believe that any vessel outfitted for the harvesting of living marine resources and subject to the jurisdiction of any of the parties to the Convention is violating the provisions of article III of the Convention may, except within the areas in which another State exercises fisheries jurisdiction, board and search such vessel. Such person shall carry a special certificate of identification issued by the Secretary or Secretary of the department in which the Coast Guard is operating which shall be in English, Japanese, and Russian and which shall be exhibited to the master of the vessel upon request.

"(b) If, after boarding and searching such vessel, such person continues to have reasonable cause to believe that such vessel, or any person onboard, is violating said article, he may seize such vessel or arrest such person, or both. The Secretary of State shall, as soon as practicable, notify the party having jurisdiction over the vessel or person of such seizure or arrest.

"The Secretary or the Secretary of the department in which the Coast Guard is operating, upon request of the Secretary of State, shall deliver the seized vessel or arrested person, or both, as promptly as practicable to the authorized officials of said party: *Provided,* That whenever said party cannot immediately accept such delivery, the Secretary or the Secretary of the department in which the Coast Guard is operating may, upon the request of the Secretary of State, keep the vessel or person in custody within the United States.

"(c) At the request of said party, the Secretary or the Secretary of the department in which the Coast Guard is operating, shall direct the person authorized to enforce the provisions of this Act to attend the trial as a witness in any case arising under said article or give testimony by deposition, and shall produce such records and files or copies thereof as may be necessary to establish the offense.

"SEC. 107. The President shall appoint to the Commission a United States Commissioner who shall serve at the pleasure of the President. The President may appoint one Native from each of the two inhabited Pribilof Islands to serve as Advisors to the Commissioner and as liaisons between the Commissioner and the Natives of the Pribilof Islands. The President may also appoint other interested parties as Advisors to the Commissioner. Such Advisors shall serve at the pleasure of the President. The President may also appoint a Deputy United States Commissioner who shall serve at the pleasure of the President. The Deputy Commissioner shall be the principal adviser of the Commissioner, and shall perform the duties of the Commissioner in the case of his death, resignation, absence, or illness. The Commissioner, the Deputy Commissioner, and the Advisors shall receive no compensation for their services. The Commissioners may be paid travel expenses and per diem in lieu of subsistence at the rates authorized by section 5 of the Administrative Expense Act of 1946 when engaged in the performance of their duties.

"SEC. 108. The Secretary of State, with the concurrence of the Secretary, is authorized to accept or reject, on behalf of the United States, recommendations made by the Commission pursuant to article V of the Convention.

"SEC. 109. The head of any Federal agency is authorized to consult with and provide technical assistance to the Secretary or the Commission whenever such assistance is needed and reasonably can be furnished in carrying out the provisions of this title. Any Federal agency furnishing assistance hereunder may expend its own funds for such purposes, with or without reimbursement.

"TITLE II—ADMINISTRATION OF THE PRIBILOF ISLANDS

"SEC. 201. The Secretary shall administer the fur seal rookeries and other Federal real and personal property on the Pribilof Islands, with the exception of lands purchased by the U.S. Fish and Wildlife Service under section 1417 of the Alaska National Interest Lands Conservation Act (Public Law 96-487) and, in consultation with the Secretary of the Interior, shall ensure that activities on such Islands are consistent with the purposes of conserving, managing, and protecting the North Pacific fur seals and other wildlife and for other purposes consistent with that primary purpose.

"SEC. 202. In carrying out the provisions of this title, the Secretary is authorized—

"(1) to operate, maintain, and repair such Government-owned property, both real and personal, and other facilities held by the Secretary on the Pribilof Islands as may be necessary; and

"(2) to provide the employees of the Department of Commerce and other Federal agencies and their dependents, at reasonable rates to be determined by the Secretary, with such facilities, services, and equipment as he deems necessary, including, but not limited to, food, fuel, shelter, and transportation.

"SEC. 203. The State of Alaska will be responsible for meeting the educational needs of the citizens of the Pribilof Islands.

"SEC. 204. The Secretary of Health and Human Services shall provide medical and dental care to the Natives of the Pribilof Islands with or without reimbursement, as provided by other law. He is authorized to provide such care to Federal employees and their dependents and tourists and other persons in the Pribilof Islands at reasonable rates to be determined by him. He may purchase, lease, construct, operate, and maintain such facilities, supplies, and equipment as he deems necessary to carry out the provisions of this section; and the costs of such items, including medical and dental care, shall be charged to the budget of the Secretary of Health and Human Services. Nothing in this Act shall be construed as superseding or limiting the authority and responsibility of the Secretary of Health and Human Services under the Act of August 5, 1954, as amended, or any other law with respect to medical and dental care of natives or other persons in the Pribilof Islands.

"SEC. 205. (a) Any provision of law relating to the transfer and disposal of Federal property to the contrary notwithstanding, the Secretary, after consultation with the Secretary of the department in which the Coast Guard is operating, is authorized to bargain, grant, sell or otherwise convey, on such terms as he deems to be in the best interests of the United States and in furtherance of the purposes of this Act, any and all right, title, and interest of the United States in and to the property, both real and personal, held by the Secretary on the Pribilof Islands: *Provided,* That such property is specified in a document entitled 'Transfer of Property on the Pribilof Islands: Descriptions, Terms and Conditions,' which is submitted to the Congress on or before September 30, 1983.

"(b) The property transfer document described in subsection (a) shall include, but need not be limited to—

"(1) a description of each conveyance;

"(2) the terms to be imposed on each conveyance;

"(3) designation of the recipient of each conveyance;

"(4) a statement noting acceptance of each conveyance, including the terms, if any, under which it is accepted; and

"(5) an identification of all Federal property to be retained by the Federal Government on the Pribilof Islands to meet its re-

sponsibilities as described in this Act and under the Convention.

"(c) Within 60 days of the transfer of real or personal property specified in the document described in subsection (a), the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate shall be given a report prepared by the Secretary stating the fair market value at the time of the transfer of all real and personal property conveyed.

"(d) A Memorandum of Understanding shall be entered into by the Secretary, a representative of the local governmental authority on each Island, the trustee or trustees, and the appropriate officer of the State of Alaska setting forth the respective responsibilities of the Federal Government, the Trust, and the State regarding—

"(1) application of Federal retirement benefits, severance pay, and insurance benefits with respect to Natives of the Pribilof Islands;

"(2) funding to be allocated by the State of Alaska for the construction of boat harbors on St. Paul and St. George Islands;

"(3) assumption by the State of Alaska of traditional State responsibilities for facilities and services on such islands in accordance with applicable laws and regulations;

"(4) preservation of wildlife resources;

"(5) continued activities relating to the implementation of the Convention;

"(6) oversight of the operation of the Trust established by section 206(a) to further progress toward creation of a stable, diversified, and enduring economy not dependent on commercial fur sealing;

"(7) the cooperation of Government agencies, rendered through existing programs, in assisting with an orderly transition from Federal management and the creation of a private enterprise economy on the Pribilof Islands as described in this Act; and

"(8) such other matters as may be necessary and appropriate for carrying out the purposes of the Act, including the assumption of responsibilities to ensure an orderly transition from Federal management of the Pribilof Islands.

"The Memorandum shall be submitted to Congress on or before September 30, 1983.

"(e) The grant, sale, transfer or conveyance of any real or personal property pursuant to this section shall not be subject to any form of Federal, State or local taxation. The basis for computing gain or loss on subsequent sale or disposition of such real or personal property for purposes of any Federal, State, or local tax imposed on, or measured by revenue shall be the fair market value of such real or personal property at the time of receipt.

"(f) In carrying out the purposes of this Act, the Secretary is authorized to enter into agreements, including but not limited to land exchange agreements with other Departments and agencies of both the State and Federal Governments, and with third parties, notwithstanding any provision of law relating to the transfer and disposal of Federal property to the contrary; except that exchanges involving lands in the National Wildlife Refuge System on the date of enactment of the Fur Seal Act Amendments of 1983 are not authorized by this section.

"(g) The Secretary shall submit to Congress a report, no later than September 1, 1983, providing information on the status of the negotiations for concluding the documents described in subsections (a) and (d) of this section.

"SEC. 206. (a)(1) In order to promote the development of a stable, self-sufficient enduring and diversified economy not dependent on sealing, the Secretary shall cause to be established a Trust for the benefit of the Natives of the Pribilof Islands, to be known as the 'Pribilof Islands Trust' (hereinafter referred to as the 'Trust').

"(2) All amounts appropriated to the Secretary under subsection (e) of this section shall be transfered by the Secretary to the Trust within 15 days after submission of the trust instrument to Congress in accordance with the requirements of subsection (c).

"(3) Except as provided in subsection (e)(2), none of the amounts transferred to the Trust pursuant to paragraph (2) shall be distributed by the trustee or trustees for the benefit of the Natives of the Pribilof Islands until 30 days after submission to Congress of the documents described in section 205 (a) and (d). Such distributions shall be made by the trustee or trustees only after the Secretary has determined that such trust has been established and will be operated in accordance with a trust instrument, or instruments, approved by the Secretary which further the purposes and policies of this Act.

"(4) Until the termination of the period described in paragraph (3), the trustee or trustees shall invest the amounts transferred pursuant to paragraph (3) in securities with maturities suitable for the needs of the Trust, bearing interest rates at rates determined by the trustee or trustees, taking into consideration average market yields on outstanding marketable obligations of the United States of comparable maturities. The income from such investments shall be credited to, and form a part of the Trust.

"(b) The Trust shall be administered in accordance with such terms and conditions as are prescribed by the Secretary, and as set forth in the Trust instrument. In establishing such terms and conditions, the Secretary shall consult with the Natives of the Pribilof Islands, and other interested parties concerning the conservation, management and protection of the fur seal population.

"(c) There may be one Trust instrument establishing the Trust described in section 206(a), or two such instruments, each relating to one of the two portions of the Trust as provided in subsection (d), which shall address, but need not be limited to, such matters as—

"(1) establishing standards and procedures for the disbursement by the trustee or trustees of trust assets for purposes of fostering in the Pribilof Islands a stable, diversified, and enduring economy not dependent upon sealing after Federal management of the islands is terminated, which procedures may include formal participation of Pribilof Island Native councils, corporations, or other such entities;

"(2) establishing the Secretary as trustor;

"(3) establishing the procedure for appointment of the trustee or trustees by the Secretary after consultation with the Natives of the Pribilof Islands;

"(4) setting forth the rights, duties, powers and obligations of a trustee who shall act as an independent fiduciary and who shall be a United States citizen having recognized competence in business;

"(5) providing for the management and investment of Trust assets, pending distribution, by an investment manager or advisor, who may be the trustee, having recognized competence in such fields;

"(6) establishing methods and procedures for providing Congress and the Secretary with the annual reports described in subsection (g) of this section;

"(7) establishing Trust purposes in accordance with the purposes described in section 201 of this Act and subsection (a) of this section;

"(8) the duties of the trustee or trustees and the standards of care and diligence that shall govern the exercise of trust powers thereunder;

"(9) compensation of the trustee or trustees;

"(10) the term, termination and final distribution of the Trust estate;

"(11) mandating the applicability of the laws of the State of Alaska to the creation and governance of the Trust;

"(12) defraying of community expenses; and

"(13) payment of necessary administrative and legal expenses.

The Trust instrument or instruments described in this subsection shall be submitted to Congress on or before September 30, 1983.

"(d) The Trust shall be divided into two portions pursuant to a formula established by the Secretary after consultation with the natives of both Islands, to be accounted for separately for the independent benefit of the community of St. Paul and the community of St. George.

"(e)(1) There are authorized to be appropriated to the Secretary $20,000,000 for the purpose of funding the Trust in accordance with the requirements of subsection (a)(2) of this section.

"(2) Prior to the submission to Congress of the documents described in section 205 (a) and (d), the trustee or trustees may make interim distributions for the benefit of the Natives of the Pribilof Islands, upon approval of the Secretary, of up to 5 percent of the amounts transferred to the Trust pursuant to subsection (a)(2) of this section if, as determined by the Secretary, such interim distributions are required to carry out the purposes of this Act.

"(f) The interest on, and the proceeds from the sale or redemption of, any asset or obligation held in the Trust shall be credited to and form a part of the Trust.

"(g) The trustee or trustees shall submit to Congress and to the Secretary an annual report, the first of which is due on March 31, 1984, and subsequent reports on the same date each year thereafter during the life of the Trust, providing information on expenditures made from the Trust and progress toward achieving the purposes set out in subsection (a) of this section. On March 31, 1986, the Secretary shall also submit a report to the Congress detailing all progress toward achieving these purposes since enactment of this Act. For purposes of preparing such report, the Secretary by regulation may require that the trustee and the State of Alaska submit such relevant information to the Secretary as he deems appropriate.

"(h) The funds appropriated to the Trust and the earnings and distribution therefrom shall not be subject to any form of Federal, State, or local taxation: *Provided*, That this exemption shall not apply to any income from the investment or other use of such distributions.

"SEC. 207. The Secretary is authorized to enter into agreements or contracts or leases with, or to issue permits to, any public or private agency or person for carrying out the provisions of the Convention or this Act.

"SEC. 208. (a) Service by natives of the Pribilof Islands engaged in the taking and curing of fur seal skins and other activities in connection with the administration of such islands prior to January 1, 1950, as determined by the Secretary based on records available to him, shall be considered for purposes of credit under the Civil Service Retirement Act, as amended, as civilian service performed by an employee, as defined in said Act.

"(b) The annuity of any person or the annuity of the survivor of any person who shall have performed service described in subsection (a) of this section, and who, prior to November 2, 1966, died or shall have been retired on annuity payable from the civil service retirement and disability fund, shall, upon application filed by the annuitant within 1 year after November 2, 1966, be adjusted, effective as of the first day of the month immediately following November 2, 1966, so that the amount of the annuity shall be the same as if such subsection had been in effect at the time of such person's retirement or death.

"(c) In no case shall credit for the service described in subsection (a) of this section entitle a person to the benefits of section 11(h) of the Civil Service Retirement Act.

"(d) Notwithstanding any other provisions of this Act or any other law, benefits under the Civil Service Retirement Act made available by reason of the provisions of this section shall be paid from the civil service retirement and disability fund subject to reimbursement to such fund from the Operations, Research, and Facilities Account of the National Oceanic and Atomospheric Administration in the Department of Commerce, for the purpose of compensating said retirement fund for the cost, as determined by the Civil Service Retirement Act during each fiscal year, of benefits provided by this section.

"SEC. 209. Chapter 83 of title 5, United States Code, is amended as follows:

"(a) by deleting 'Credit' in section 8332(b) and inserting in lieu thereof the words 'Except as provided in paragraph (13) of this subsection, credit';

"(b) by adding in section 8332(b) after paragraph (12) the following new paragraph:

'(13) one year of service to be credited for each year in which a Native of the Pribilof Islands performs service in the taking and curing of fur seal skins and other activities in connection with the administration of the Pribilof Islands, notwithstanding any period of separation from the service.';

"(c) by adding in section 8332(b) after 'paragraph (3) of this subsection.' the following sentence: 'The Office of Personnel Management shall accept the certification of the Secretary of Commerce or his designee concerning service for the purpose of this subchapter of the type performed by an employee named by paragraph (13) of this subsection.';

"(d) by adding in section 8332(f) after 'postal field service' the words 'and service described in paragraph (13) of subsection (b) of this section,';

"(e) by adding in section 8332(l)(1) the word 'or' at the end of clause (v) of subparagraph (B) thereof and by adding the following new subparagraph:

" '(C) is of Aleut ancestry and while a citizen of the United States was interned or otherwise detained in, or relocated to any camp, installation, or other facility in the Territory of Alaska which was established during World War II for the purpose of the internment, detention, or relocation of Aleuts pursuant to any statute, rule, regulation, or order;';

and

"(f) by amending paragraph (4) of section 8334(g) by striking 'January 1, 1950' and substituting the words 'October 1, 1983,' and adding after 'the Pribilof Islands' the words 'except where deductions, contributions, and deposits were made before October 1, 1983'.

"SEC. 210. (a) Title I of the Act of January 4, 1975, Public Law 93-638 (25 U.S.C. §§ 450-450m), known as the Indian Self-Determination and Education Assistance Act, is amended by adding in section 105(e) after 'to be employed by a tribal organization' the words ', the city of St. Paul, Alaska, the city of St. George, Alaska, upon incorporation, or the Village Corporations of St. Paul and St. George Islands established pursuant to section 8 of the Alaska Native Claims Settlement Act (Public Law 92-203)'.

"(b) Notwithstanding any other provision of law, any Native of the Pribilof Islands employed by the Federal Government on September 30, 1983, shall be deemed to have been covered under chapters 81, 83, 85, and 87 of title 5, United States Code, on such date for the purposes of determining eligibility for continuity of benefits under section 105(e) of the Act of January 4, 1975 (Public Law 93-638), known as the Indian Self-Determination and Education Assistance Act.

"SEC. 211. The Secretary is authorized to prescribe such regulations as he deems necessary to carry out the provisions of this title.

"TITLE III—ENFORCEMENT

"SEC. 301. (a) Every vessel subject to the jurisdiction of the United States that is employed in any manner in connection with a violation of the provision of this Act, including its tackle, apparel, furniture, appurtenances, cargo, and stores shall be subject to forfeiture; and all fur seals, or parts thereof, taken or retained in violation of this Act, or the monetary value thereof, shall be forfeited.

"(b) All provisions of law relating to the seizure, summary and judicial forfeiture, and condemnation of a vessel, including its tackle, apparel, furniture, appurtenances, cargo, and stores for violation of the customs laws, the disposition of such vessel, including its tackle, apparel, furniture, appurtenances, cargo, and stores or the proceeds from the sale thereof, and the remission or mitigation of such forfeitures shall apply to seizures and forfeitures incurred, or alleged to have been incurred, under the provisions of this Act, insofar as such provisions of law are applicable and not inconsistent with the provisions of this Act.

"SEC. 302. (a) Enforcement of the provisions of this Act is the joint responsibility of the Secretary, the Secretary of the Treasury, and the Secretary of the department in which the Coast Guard is operating. In addition, the Secretary may designate officers and employees of the States of the United States to enforce the provisions of this Act which relate to persons or vessels subject to the jurisdiction of the United States. When so designated, such officers and employees are authorized to function as Federal law enforcement agents for these purposes; but they shall not be held and considered as employees of the United States for the purpose of any laws administered by the Office of Personnel Management.

"(b) The judges of the United States district courts and United States magistrates may, within their respective jurisdictions, upon proper oath or affirmation showing probable cause, issue such warrants or other process, including warrants or other process issued in admiralty proceedings in Federal district courts, as may be required for enforcement of this Act and any regulations issued thereunder.

"(c) Any person authorized to carry out enforcement activities hereunder shall have the power to execute any warrant or process issued by any officer or court of competent jurisdiction for the enforcement of this Act.

"(d) Such person so authorized shall have the power—

"(1) with or without a warrant or other process, to arrest any person committing in his presence or view a violation of this Act or the regulations issued thereunder;

"(2) with a warrant or other process or without a warrant, if he has reasonable cause to believe that a vessel subject to the jurisdiction of the United States or any person onboard is in violation of any provision of this Act or the regulations issued thereunder, to search such vessel and to arrest such person.

"(e) Such person so authorized may seize any vessel subject to the jurisdiction of the United States, together with its tackle, apparel, furniture, appurtenances, cargo, and stores, used or employed contrary to the provisions of this Act or the regulation issued hereunder or which it reasonably appears has been used or employed contrary to the provisions of this Act or the regulation issued hereunder.

"(f) Such person so authorized may seize, whenever and wherever lawfully found, all fur seals taken or retained in violation of this Act or the regulations issued thereunder. Any fur seals so seized or forfeited to the United States pursuant to this Act shall be disposed of in accordance with the provisions of section 105 of this Act.

"SEC. 303. The Secretary is authorized to prescribe such regulations as he deems necessary and appropriate to carry out the provisions of this title.

"SEC. 304. (a) Any person who knowingly violates any provision of this Act or of any permit or regulation issued thereunder shall, upon conviction, be fined not more than $20,000 for such violation, or imprisoned for for not more than 1 year, or both.

"(b) Any person who violates any provision of this Act or any regulation or permit issued hereunder may be assessed a civil penalty by the Secretary of not more than $10,000 for each such violation. No penalty shall be assessed unless such person is given notice and opportunity for a hearing with respect to such violation. Hearings held during proceedings for the assessment of civil penalties authorized by this subsection shall be conducted in accordance with section 554 of title 5. The Secretary may issue subpenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and administer oaths. Witnesses summoned shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States. In case of contumacy or refusal to obey a subpena served upon any person pursuant to this paragraph, the district court of the United States for any district in which such person is found or resides or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the Secretary or to appear and produce documents before the Secretary, or

both, and any failure to obey such order of the court may be punished by such court as a contempt thereof. Any civil penalty assessed may be remitted or mitigated by the Secretary for good cause shown. Upon any failure to pay a penalty assessed under this subsection, the Secretary may request the Attorney General to institute civil action in a district court of the United States for any district in which such person is found, resides, or transacts business to collect the penalty, and such court shall have jurisdiction to hear and decide any such action.

"SEC. 305. There are authorized to be appropriated to the operations, research, and facilities account of the National Oceanic and Atmospheric Administration in the Department of Commerce, such sums as may be necessary, up to $2 million, for fiscal year 1984 for the purpose of upgrading federal property to be transferred pursuant to section 205 of this Act, $736,000 for fiscal year 1984 for the purposes of sections 104 and 208 of this Act and such sums as may be necessary for each fiscal year thereafter for the purposes of sections 104 and 208 of this Act.".

The amendment was agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

Mr. STEVENS. Mr. President, there is a committee substitute. I ask that the Senate adopt the committee substitute.

The PRESIDING OFFICER. The question is on agreeing to the committee amendment in the nature of a substitute.

The committee amendment in the nature of a substitute was agreed to.

PRIBILOF ISLANDS MANAGEMENT

Mr. STEVENS. Mr. President, the legislation now before the Senate provides for the orderly termination of Federal management of the Pribilof Islands, Alaska. These islands have been administered until now as a Federal preserve, and their inhabitants have been denied the full measure of self-determination accorded other citizens.

This legislation was requested by the administration in early April of this year. It was introduced by Congressman DON YOUNG as H.R. 2840 on April 28. The House Committee on Merchant Marine and Fisheries held a full hearing on May 19. At that hearing, testimony was received from NOAA, representing the administration, as well as the State of Alaska, the affected Pribilof Aleut communities, and environmental organizations. The bill was reported on May 19, and passed by the House under suspension of the rules on May 23.

After extensive consultation with interested environmental organizations, the affected Aleut communities, the State of Alaska, the administration, and others, the Committee on Commerce, Science, and Transportation on Tuesday reported H.R. 2840 with an amendment that facilitates the orderly transfer of Federal properties on the islands, the establishment of a trust to assist the islanders in converting to a private-sector economy not dependent upon sealing operations, and the assumption by the State of full State responsibilities for the villages on the Pribilofs, no less than other Alaska communities.

Mr. President, the Federal Government will continue to have important wildlife preservation responsibilities on the Pribilof Islands. The bird cliffs will continue to be managed as part of the Wildlife Refuge System. The fur seal rookeries will continue to be federally owned and managed by the Department of Commerce.

This legislation maintains and enhances environmental values on the Pribilofs—and it also gives the Aleut people who live there a good opportunity to develop a self-sufficient economy independent of Federal subsidy. There are vast resources in the Bering Sea fisheries. This legislation will permit the Aleut villages of St. Paul and St. George to enter commercial fishing in the waters contigous to their islands.

As reported by the Commerce Committee, H.R. 2840 continues in full force and effect all Federal responsibilities under the Interim North Pacific Fur Seal Convention, as implemented by the Fur Seal Act of 1966. The changes in existing law affect only the people of the islands, and the relationship between them and their Government. Instead of providing an annual appropriation of some $6.3 million largely to maintain the Aleut communities, this legislation authorizes a one-time appropriation of $20 million, to be administered as a trust under conditions prescribed by the Secretary of Commerce, for the benefit of the Pribilof Aleuts in maintaining essential services and converting to an economy not primarily reliant on sealing.

The bill also authorizes appropriations specifically to meet the Government's responsibilities under the Convention, such as conducting scientific research and managing the fur seal rookeries.

The legislation must be approved by Congress before the August recess for several reasons. Federal management of the Pribilofs will terminate at the end of this fiscal year—September 30, 1983. RIF notices have already been delivered to about 80 Federal employees among the Aleuts on the islands. The appropriations to implement this legislation are included in the fiscal year 1983 supplemental, subject, of course, to authorization. If the procedures for transfer of Federal buildings, the establishment of the trust under Commerce Department supervision, the assumption of State responsibilities, and other requirements of this bill are to be accomplished by October 1, 1983, the bill must clear Congress this week.

H.R. 2840 will accomplish a number of worthwhile objectives. Over the coming years, the Government will save millions of dollars because the economy of the islands no longer will be a Federal responsibility. The people will become self-sufficient in the fisheries, tourism, and other industries. The protection of wildlife, as required by Convention and Federal law, will be accomplished at substantially less cost.

Mr. President, I am particularly grateful for the cooperation of the administration, the House leadership, the House committee, the Senate Commerce Committee, the State of Alaska, the Aleut people of St. Paul and St. George, the interested environmental organizations, and my colleagues in the development of this responsible and compassionate legislation.

The Aleut people of St. Paul and St. George were transported to the Pribilofs in 1786, as slaves, by their Russian overseers. They were brought to support the fur trade. After 197 years, Congress today will liberate these Aleuts from their near-total dependence upon Government and sealing for survival. The promise made to the Aleuts, under the terms of article 3 of the Treaty of Cession, ratified May 30, 1867—that they shall enjoy within their communities the full rights of citizenship with opportunities equal to other American citizens—today will be fulfilled.

Mr. President, I urge the Senate to approve H.R. 2840.

Mr. LEVIN. Mr. President, I want to express my support for H.R. 2840, which will assist the Aleut peoples of the Pribilof Islands develop a more stable and diversified economy, I have long supported such an effort as a means of reducing the pressure to kill seals by providing for the economic development of the island economy and improving the economic well-being of the Aleuts. It was one of the main reasons behind the understanding I offered to the resolution of ratification of the Interim Convention on Conservation of North Pacific Fur Seals that was adopted by the Senate in June 1981.

While H.R. 2840 will not directly stop the continued land-based slaughter of fur seals on the Pribilof Islands, it will reduce the pressure to do so. I object to the continuation of this taxpayer subsidized activity, and to the U.S. agreement to a treaty that is being interpreted by the State Department as requiring that the taxpayers subsidize the slaughter of seals in satisfaction of the treaty terms. While I am aware that the slaughter of seals on the Pribilof Islands provides employment, this no longer needs to be the case, and the legislation we are considering here today can reduce the dependence of the Aleuts on the seal kill.

Of special importance to assist the Aleuts with their economic development efforts, this legislation establishes a $20 million trust fund to be used by the Pribilof Island native corporations to foster the development of a self-sufficient economy less dependent on fur sealing.

Important efforts have already been taken in this regard. The Pribilof Islands are located in the eastern Bering Sea, one of the world's richest fishing grounds. During the past 2 years, the Aleut peoples have begun a small commercial fishing operation that they hope to expand. With the availability of moneys from the fund, and the State of Alaska's commitment to construct a harbor facility, the Aleuts should be able to take advantage of their location to develop this valuable fishery resource.

In addition, the Government is completing purchase of the island's bird rookeries that were established as part of our national park system with passage of the Alaska Lands Act. The attraction of this natural wonder should provide employment in the island's economy's service industries.

Again, Mr. President, I believe this legislation is an important step for the Aleut peoples that will aid them in developing an independent and diversified economy. It will bring real prosperity to the Islands and at the same time reduce the need to kill seals as a means of livelihood for the Aleuts.

The PRESIDING OFFICER. The question is on the engrossment of the amendment and the third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill (H.R. 2840) was read the third time and passed.

Mr. STEVENS. Mr. President, I move to reconsider the vote by which the bill passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. STEVENS. Mr. President, I thank my good friends, the distinguished majority leader and the distinguished minority leader, the Senator from West Virginia (Mr. BYRD) for their courtesy.

Mr. BAKER. Mr. President, I thank the distinguished Senator from Alaska.

Mr. BYRD. I do the same.

ORDER OF PROCEDURE

Mr. BAKER. Mr. President, I inquire of the Senator from Mississippi and the Senator from Kansas if they are prepared now to go forward with H.R. 3190.

What I had planned to do earlier was to discharge the committee from further consideration of Senate Joint Resolution 149 and then to go forward with the consideration of H.R. 3190, which is the Extra Long Staple Cotton Act of 1983.

Mr. COCHRAN. Mr. President, if the majority leader will yield, I think we are ready now to go forward with Senate Joint Resolution 149 and follow that with H.R. 3190.

Mr. BAKER. I thank the Senator. Are the Senators prepared to do it at this moment?

Mr. COCHRAN. We are prepared to do that now.

Mr. DOMENICI. Mr. BOSCHWITZ wanted to be here.

Mr. BAKER. Mr. President, I understand that the Senator from Minnesota (Mr. BOSCHWITZ) would like to be here when this matter is disposed of. Otherwise, I believe it is cleared for action.

In the meantime, I see a messenger from the House, and I yield so that he may be admitted.

(At this point, certain messages were received from the House of Representatives, a detailed description of which are printed under Routine Morning Business.)

COMMENDATION OF DR. ALICE M. RIVLIN

Mr. BAKER. Mr. President, if I heard the Clerk from the House report correctly, House Concurrent Resolution 154 is a resolution adopted by the House to commend Dr. Alice Rivlin for her service as Director of the Congressional Budget Office. Is that correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. BAKER. I should like to do that now, while we have the opportunity, if the minority leader is prepared to proceed with it.

Mr. BYRD. Mr. President, Mr. CHILES, who is the ranking minority member, submitted a resolution earlier to this effect and spoke in support of it. I am a cosponsor.

In answer to the majority leader, we have no objection and would be glad to go forward with the matter.

Mr. BAKER. I thank the minority leader. I think it would be entirely appropriate to do that. She has had a distinguished career and is leaving under her own power, which is a technique I greatly admire.

Mr. President, I ask unanimous consent that the Senate proceed to the consideration of House Concurrent Resolution 154.

The PRESIDING OFFICER. The concurrent resolution will be stated by title.

The assistant legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 154) to commend Dr. Alice Mitchell Rivlin for her service as Director of the Congressional Budget Office.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the concurrent resolution?

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. DOMENICI. Mr. President, this matter has been discussed earlier today, and it is appropriate that we handle this resolution at this time.

This resolution, which was passed by the House, recognizes Mrs. Rivlin's work in budgetary matters and fiscal matters in the independent agency called the Congressional Budget Office.

The PRESIDING OFFICER. The question is on agreeing to the concurrent resolution.

The concurrent resolution (H. Con. Res. 154) was agreed to.

The preamble was agreed to.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the concurrent resolution was agreed to.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

EXTENSION OF TIME FOR ROUTINE MORNING BUSINESS

Mr. BAKER. Mr. President, I ask unanimous consent that the time for the transaction of routine morning business be extended until 5:30 p.m. under the same terms and conditions.

The PRESIDING OFFICER. Without objection, it is so ordered.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Saunders, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session, the Acting President pro tempore laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed in the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE

At 4:45 p.m., a message from the House of Representatives, delivered by Mr. Berry, one of its clerks, announced that the House has agreed to the amendments of the Senate to the following bill:

H.R. 3394. An act to provide additional authority for the consolidation of student loans and to make certain other changes in Federal student financial assistance.

The message also announced that the House agrees to the amendment of the Senate to the amendment of the House to the amendment of the Senate numbered 70 to the bill (H.R. 32290 making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1984, and for other purposes.

The message further announced that the House has passed the following bill, with amendments, in which it requests the concurrence of the Senate:

S. 695. An act to amend the Bretton Woods Agreements Act to authorize consent to and authorize appropriations for an increase in the United States quota in the International Monetary Fund and to authorize appropriations for increased United States participation in the IMF's General Agreements to Borrow.

The message also announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 2230. An act to amend the Civil Rights Act of 1957 to extend the life of the Civil Rights Commission, and for other purposes;

H.R. 2780. An act to extend and amend the provisions of title 31, United States Code, relating to the general revenue sharing program;

H.R. 3021. An act to amend the Social Security Act to provide for a program of grants to States to provide health care benefits for the unemployed, and for other purposes; and

H.R. 3549. An act to amend the Bankruptcy Rules with respect to providing notice.

ENROLLED BILLS SIGNED

At 5:21 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

H.R. 2355. An act to establish an emergency program of job training assistance for unemployed Korean conflict and Vietnam-era veterans, and for other purposes; and

H.R. 3394. An act to provide additional authority for the consolidation of student loans and to make certain other changes in Federal student financial assistance.

The enrolled bills were subsequently signed by the President pro tempore (Mr. THURMOND).

HOUSE MEASURES PLACED ON THE CALENDAR

The following measures were read the first and second times by unanimous consent, and placed on the calendar:

H.R. 2230. An act to amend the Civil Rights Act of 1957 to extend the life of the Civil Rights Commission, and for other purposes;

H.R. 2780. An act to extend and amend the provisions of title 31, United States Code, relating to the general revenue sharing program;

H.R. 3021. An act to amend the Social Security Act to provide for a program of grants to States to provide health care benefits for the unemployed, and for other purposes; and

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-1560. A communication from the Comptroller General of the United States transmitting, pursuant to law, a report on one new rescission and four new deferrals; jointly, pursuant to the order of January 30, 1975, to the Committees on Appropriations, Budget, Energy and Natural Resources, Foreign Relations, and Labor and Human Resources.

EC-1561. A communication from the Assistant Secretary of Defense (Comptroller) transmitting, pursuant to law, a secret report on selected weapons systems' costs; to the Committee on Armed Services.

EC-1562. A communication from the Secretary of Transportation transmitting, pursuant to law, a report on contracts negotiated under 10 U.S.C. 2304(a)(11) during October 1, 1982, through March 31, 1983; to the Committee on Commerce, Science, and Transportation.

EC-1563. A communication from the Deputy Administrator of the Federal Railroad Administration transmitting, pursuant to law, a report on the Alaska Railroad transfer; to the Committee on Commerce, Science, and Transportation.

EC-1564. A communication from the Acting Director of the Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of excess royalty payments to Shell Oil, ARCO Oil and Gas, and Mobil Oil; to the Committee on Energy and Natural Resources.

EC-1565. A communication from the Acting Director of the Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of excess royalty payments to Mobil Oil, Shell Oil, Chevron U.S.A., ARCO Oil and Gas, and Pelto Oil; to the Committee on Energy and Natural Resources.

EC-1566. A communication from the Acting Director of the Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of excess royalty payments to Chevron U.S.A., Mobil Oil, and Shell Oil; to the Committee on Energy and Natural Resources.

EC-1567. A communication from the Acting Director of the Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of excess royalty payments to Mobil Oil and ICI Delaware; to the Committee on Energy and Natural Resources.

EC-1568. A communication from the Acting Director of the Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of excess royalty payments to CNG Producing Co.; to the Committee on Energy and Natural Resources.

EC-1569. A communication from the Assistant Secretary of the Army for Civil Works transmitting a draft of proposed legislation authorizing the Secretary of the Army to maintain and periodically update the National Inventory of Dams; to the Committee on Environment and Public Works.

EC-1570. A communication from the Director of the Office of Personnel Management transmitting, pursuant to law, a new series of Federal personnel regulations; to the Committee on Governmental Affairs.

EC-1571. A communication from the Secretary of Labor transmitting a draft of proposed legislation to amend various Federal employees' compensation acts and programs; to the Committee on Governmental Affairs.

EC-1572. A communication from the Executive Secretary of the Federal Reserve employee benefits system transmitting, pursuant to law, the annual report on the system's employee retirement plan; to the Committee on Governmental Affairs.

EC-1573. A communication from the D.C. Auditor transmitting, pursuant to law, his report relative to gross revenue taxes respecting cable television; to the Committee on Governmental Affairs.

EC-1574. A communication from the D.C. Auditor transmitting, pursuant to law, a report on Revenues for June 1983; to the Committee on Governmental Affairs.

EC-1575. A communication from the Acting Secretary of the U.S. Postal Rate Commission transmitting, pursuant to law, notice of the promulgation of certain Rules; to the Committee on Governmental Affairs.

EC-1576. A communication from the Acting Assistant Secretary of the Interior for Indian Affairs transmitting, pursuant to law, a plan for the use and distribution of Kenaitze Indian Tribe judgment funds; to the Select Committee on Indian Affairs.

EC-1577. A communication from the Comptroller General of the United States transmitting, pursuant to law, a report entitled "Bankruptcy Reform Act of 1978—A Before and After Look"; to the Committee on the Judiciary.

EC-1578. A communication from the Assistant Secretary of Defense (Comptroller) transmitting, pursuant to law, a report on the value of property, supplies, and commodities provided by the Berlin Magistrate for the quarter ending June 30, 1983; to the Committee on Appropriations.

EC-1579. A communication from the Principal Deputy Assistant Secretary of the Navy for Installations, Logistics, and Financial Management transmitting, pursuant to law, a report on a decision to convert the laundry services at Fort Polk, La., to performance under contract; to the Committee on Armed Services.

EC-1580. A communication from the Chief of Staff of the Defense Mapping Agency transmitting, pursuant to law, a report on a decision to convert the mail room operation at the DMA Hydrographic/topographic Center, Brookmont, Md., to performance under contract; to the Committee on Armed Services.

EC-1581. A communication from the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics), transmitting, for the information of the Senate, the most recent edition of the "Military Compensation Background Papers"; to the Committee on Armed Services.

EC-1582. A communication from the Chairman of the Federal Budget Task Force, transmitting, for the information of the Senate, the report of the task force on the federal budget; to the Committee on the Budget.

EC-1583. A communication from the Secretary of Energy, transmitting, pursuant to law, a report entitled "The Domestic Impact

of Reliance on Market Forces During a Substantial Petroleum Supply Disruption"; to the Committee on Energy and Natural Resources.

EC-1584. A communication from the Council on Environmental Quality, transmitting, for the information of the Senate, an errata sheet to accompany the annual report of the Council; to the Committee on Environment and Public Works.

EC-1585. A communication from the Assistant Secretary of the Treasury (Administration), transmitting, pursuant to law, notice of a new Privacy Act system of records; to the Committee on Governmental Affairs.

EC-1586. A communication from the Acting Assistant Secretary of the Interior (Indian Affairs), transmitting, pursuant to law, a plan for the use and distribution of Mississippi and Lake Superior Band of Chippewa Indians judgment funds; to the Select Committee on Indian Affairs.

EC-1587. A communication from the Secretary of Education, transmitting, pursuant to law, notice of the final annual funding priority and geographical regions for centers and services for deaf-blind children; to the Committee on Labor and Human Resources.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. McCLURE, from the Committee on Energy and Natural Resources, with an amendment:

S. 864: A bill to amend the Volunteers in the Parks Act of 1969, and for other purposes (Rept. No. 98-208).

By Mr. McCLURE, from the Committee on Energy and Natural Resources, with amendments:

S. 626: A bill to designate the Aravaipa Canyon Wilderness in the State of Arizona (Rept. No. 98-209)

By Mr. DOMENICI, from the Committee on the Budget, without amendment:

S. Res. 199: An original resolution waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of H.R. 2840 (Rept. No. 98-211).

By Mr. PACKWOOD, from the Committee on Commerce, Science, and Transportation.

Report to accompany the bill (H.R. 2840) to provide for the orderly termination of Federal management of the Pribilof Islands, Alaska (Rept. No. 98-212).

By Mr. DOMENICI, from the Committee on the Budget, without amendment.

S. Res. 194: An original resolution waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of S. 1729; referred to the Committee on the Budget.

By Mr. STEVENS, from the Committee on Governmental Affairs, without amendment:

S. Res. 195: An original resolution waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of S. 1009; referred to the Committee on the Budget.

S. Res. 196: An original resolution waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of S. 1513; referred to the Committee on the Budget.

By Mr. HATCH, from the Committee on Labor and Human Resources, without amendment:

S. Res. 197: An original resolution waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of S. 242; referred to the Committee on the Budget.

By Mr. PACKWOOD, from the Committee on Commerce, Science, and Transportation, without amendment:

S. Res. 199: An original resolution waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of H.R. 2840; referred to the Committee on the Budget.

By Mr. THURMOND, from the Committee on the Judiciary, with an amendment in the nature of a substitute:

S. 668: A bill to reform Federal criminal sentencing procedures.

S. 948: A bill to reform Federal criminal and civil forfeiture.

By Mr. STEVENS, from the Committee on Governmental Affairs, with an amendment in the nature of a substitute:

S. 1009: A bill to authorize federal physicians comparability allowances.

By Mr. PACKWOOD, from the Committee on Commerce, Science, and Transportation, without amendment:

S. 1365: A bill entitled the "Harry Porter Control Tower".

By Mr. STEVENS, from the Committee on Governmental Affairs, without amendment:

S. 1513: A bill to extend for five years the authorization of appropriations for the National Historical Publications and Records Commission.

By Mr. THURMOND, from the Committee on the Judiciary, without amendment:

S. 1762: A bill entitled the "Comprehensive Crime Control Act of 1983."

S. 1763: A bill to reform procedures for collateral review of criminal judgments, and for other purposes.

S. 1764: A bill to amend title 18 to limit the application of the exclusionary rule.

S. 1765: A bill to establish constitutional procedures for the imposition of the sentence of death, and for other purposes.

S. 1787: A bill to establish an office of the Director of National and International Drug Operations and Policy.

Mr. THURMOND. I am privileged to report to the Senate on behalf of the Committee on the Judiciary a series of bills that, if enacted, would constitute the most comprehensive set of improvements in the Federal criminal laws—particularly as to the Federal response to organized crime, violent crime, and drug trafficking—I have witnessed in all of my years in the Congress. They build upon the monumental achievements of the late Senator John L. McClellan and Senator Roman Hruska, upon the enactment of the Omnibus Crime Control and Safe Streets Act of 1968, and upon the Organized Crime and Control Act of 1970.

These measures come from many sources. Several of them are controversial. As a consequence, the Committee on the Judiciary elected to introduce and immediately report a series of five new bills. the first is made up of 12 titles covering the vast common ground for a consensus on major improvements in the Federal criminal laws. This bill has broad bipartisan support and is entitled the "Comprehensive Crime Control Act of 1983." I am pleased to be joined as cosponsors by the distinguished Senator from Delaware, Mr. BIDEN, our ranking minority Member, by the distinguished Senator from Nevada, Mr. LAXALT, Chairman of our Subcommittee on Criminal Law, and by the distinguished Senator from Massachusetts, Mr. KENNEDY, a former chairman of the committee. This bill includes such matters as bail, sentencing, forfeiture, the insanity defense, and related commitment procedures, drug penalties, justice assistance, surplus Federal property for corrections, labor racketeering foreign currency transactions, and miscellaneous offense and procedural improvements.

The remaining four measures to be introduced and reported as separate bills relate to capital punishment, the exclusionary rule, habeas corpus, and the establishment of an Office of National and International Drug Operations and Policy, respectively. It is my pleasure to report the first three bills mentioned, with the last bill to be reported by Senator BIDEN, who authorized it.

In addition, I would note that the provisions in the comprehensive bill dealing with sentencing (title II) and forfeiture (title III) are also being reported as amendments in the nature of a substitute to S. 668, Senator KENNEDY's bill on sentencing, and S. 948, Senator BIDEN's bill on forfeiture, respectively.

As I have noted, these various proposals come from many sources. A major contribution was made by President Reagan when he submitted a comprehensive 16-title bill to the Congress which I introduced, along with Senator LAXALT, on March 16, 1983. Mr. President, the dedicated work of the chairman of the Subcommittee on Criminal Law, Senator LAXALT, and the cooperation of the Department of Justice must be noted, for we would not be at this point today without their dedicated help.

In addition, the contributions of Senators BIDEN and KENNEDY have been indispensable to the processing and development of many of the proposals in the comprehensive bill. This is particularly true with respect to bail reform, sentencing reform, and forfeiture. The expertise of Senator HATCH, as chairman of the Subcommittee on the Constitution, and his unwavering support for major crime legislation have also been most helpful. Senators SPECTER and HEFLIN have played a major part in the development of the provisions relating to the insanity defense and justice assistance. Senator EAST was most helpful in the habeas corpus provisions. To these and other

Senators on the committee, and their staffs, I wish to express my appreciation.

Mr. President, I wish to repeat what I have said many times before. The first duty of government is the protection of its citizens so that they may go about their lawful pursuits in peace and safety. The Federal Government plays a major role in fighting crime. It is important that it have the tools with which to be effective. It is imperative that the Federal Government assist and cooperate with the States in combating crime.

We simply must do a better job. This country is racked with rampant violent crime and illegal drugs. Organized crime flourishes. In many neighborhoods, our citizens stay behind locked doors out of fear of robbery, theft, and violence. Our homes and businesses are not safe. A burglary occurs in this country at the astonishing rate of 1 every 8 seconds. The legislation the Judiciary Committee is reporting to the Senate today is a sincere effort to make Federal and State law enforcement more effective in protecting each citizen of this great Nation. I urge my colleagues to study and support these measures. I hope the Senate will act promptly when we return in September so as to send these bills to the House of Representatives in the hope that they, too, will act quickly.

I ask unanimous consent that a summary of the provisions of the bills being reported to be inserted in the RECORD at this point.

There being no objection, the summaries were ordered to be printed in the RECORD, as follows:

SUMMARY OF THE PROVISIONS OF S. 1762 THE "COMPREHENSIVE CRIME CONTROL ACT OF 1983"

GENERAL STATEMENT

S. 1762. the "Comprehensive Crime Control Act of 1983", consists of twelve separate titles. The majority of the provisions in the bill were also in S. 2572 that passed the Senate in the 97th Congress on September 30, 1982, by a vote of 95 to 1. The general subject matter of each title is indicated in the table below, with a more detailed explanation thereafter.

CONTENT OF THE COMPREHENSIVE CRIME CONTROL ACT

Title I—Bail reform.
Title II—Sentencing.
Title III—Forefeiture.
Title IV—Insanity defense.
Title V—Drug enforcement amendments.
Title VI—Justice assistance.
Title VII—Surplus property amendments.
Title VIII—Labor racketeering amendments.
Title IX—Foreign currency transactions.
Title X—Violent crime amendments:
Part A—Murder for hire.
Part B—Solicitation.
Part C—Felony murder.
Part D—Use of firearm penalty.
Part E—Armor-piercing bullets.
Part F—Kidnaping of Federal officials.
Part G—Crime against the family of Federal officials.
Part H—Major crimes act amendments.
Part I—Destruction of motor vehicles.
Part J—Destruction of energy facilities.
Part K—Assault on Federal officials.
Part L—Escape from civil commitment.
Part M—Extradition.
Part N—Arson amendments.
Part O—Pharmacy robbery and burglary.
Title XI—Serious nonviolent offenses:
Part A—Child pornography.
Part B—Warning the subject of a search.
Part C—Program fraud and bribery.
Part D—Counterfeiting and forging of certain securities.
Part E—Receipt of stolen bank property.
Part F—Bank bribery.
Part G—Bank fraud.
Part H—Contraband in prisons.
Part I—Livestock fraud.
Title XII—Procedural Amendments:
Part A—Juvenile justice amendments.
Part B—Wiretap amendments.
Part C—Venue for threat offenses.
Part D—Injunctions against fraud.
Part E—Appeal of new trail orders.
Part F—Witness security amendments.
Part G—Change of venue for tax offenses.
Part H—18 U.S.C. 951 amendments.

TITLE I—BAIL REFORM

I. Introduction

Title I of the bill substantially revises the Bail Reform Act of 1966 (18 U.S.C. 3146 et seq.) and is based, with only minor modifications, on S. 215 as reported by the Senate Judiciary Committee (S. Rept. No. 98-147, 98th Cong., 1st Sess. (1983)) and on the bail reform provisions set out in Title I of S. 2572, the "Violent Crime and Drug Enforcement Improvements Act of 1982", comprehensive criminal justice legislation that was approved by the Senate on three separate occasions in the last Congress. These bail reform provisions are also substantially similar to those in H.R. 4362 which was approved with certain amendments by the House Judiciary Committee's Subcommittee on Courts, Civil Liberties and the Administration of Justice in the 97th Congress, but which was never brought before the full Committee for action.

The purpose of this title is to address such problems as the need to consider community safety in setting nonfinancial conditions of release, the need to expand the llist of statutory release conditions, the need to permit the pretrial detention of defendants as to whom no conditions of release will assure their appearance at trial or assure the safety of the community or of other persons, the need for a more appropriate basis for deciding on post-conviction release, the need to permit temporary detention of persons who are arrested while on a form of conditional release, and the need to provide procedures for revocation of release for violation of a condition of release.

Most significant of the bail reforms that would be achieved by this title is its provision for pretrial detention based on the defendant's dangerousness. The Senate Judiciary Committee's Report on S. 215 (S. Rept. No. 98-147, supra) contains an extensive discussion of the pretrial detention issue and should be referred to for a fuller discussion of this matter. Briefly, in determining that federal bail laws must be amended to give the courts the authority to deny release to the minority of defendants who are so dangerous that no form of conditional release would be sufficient to reasonably assure the safety of the community or other persons, the Committee reached the following conclusions. First, as a general matter, considerations of defendant dangerousness should be placed on an equal footing with currently permitted considerations of risk of flight. Second, the commission of crimes by those released on bail is a serious problem that can and should be addressed in federal law. Third, judges can, with an acceptable degree of accuracy, identify that minority of defendants who pose such a danger to others that no form of conditional release is appropriate. Fourth, pretrial detention based on dangerousness is not unconstitutional if appropriately limited in application and if available only in the framework of reasonably procedural safeguards. Fifth, there is a perception that a substantial number of dangerous federal defendants are now detained pending trial—ostensibly because of risk of flight—through the use of high money bond, and this practice, to the extent that it exists, may be effectively replaced by a carefully drawn pretrial detention statute that would not only permit the courts to address the issue of defendant dangerousness squarely and honestly, but would also be fairer to defendants than the use of money bond to achieve detention of particularly dangerous defendants.

While the pretrial detention provision and certain other aspects of this title represent a departure from the Bail Reform Act of 1966, many of the improvements worked by that Act have been retained.

II. Section-by-section analysis

Set out below is a brief section-by-section analysis of title I. The section-by-section analysis in the Senate Judiciary Committee's report on S. 215 should be consulted for a more in-depth description of these provisions.

Section 101

Section 101 provides that this title may be cited as the "Bail Reform Act of 1983."

Section 102

Subsection (a) of section 102 repeals current sections 3141 through 3151 of title 18, United States Code, and inserts in their place new sections 3141 through 3150. Each of these new sections is analyzed below:

Section 3141. Release and Detention Authority Generally:

This section, like current 18 U.S.C. 3141, specifies which judicial officers have the authority to order the release or detention of person pending trial (subsection (a)) or pending sentence or appeal (subsection (b)). The authority set out in current law has, with only two minor modifications, been carried forward.

Section 3142. Release or Detention of a Defendant Pending Trial:

This section makes several substantive changes in the basic provisions of the Bail Reform Act of 1966. That Act adopted the concept that in non-capital cases a person is to be ordered released under the minimum conditions reasonably required to assure his presence at trial. Danger to the community and the protection of society are not to be considered in making release decisions under current law.

Considerable criticism has been leveled at the Bail Reform Act for its failure to recognize the problem of crimes committed by those on pretrial release. (S. Rept. No. 98-147, supra, at 31-32) The constraints of the Bail Reform Act prevent the courts from imposing conditions of release geared toward assuring community safety, or from denying release to those defendants who pose an especially severe risk to others. It is intolerable that the law denies judges the tools to make honest and appropriate decisions regarding the release of such defend-

ants. To address this problem, Section 3142 departs from current law in two significant ways. First, it permits an assessment of a defendant's dangerousness in setting any conditions of release, a concept that has been widely supported. (See S. Rept. No. 98-147, supra, at 32). Second, as noted above, the courts are given the authority, in limited circumstances, to deny release to defendants as to whom even the most stringent form of conditional release would be insufficient to reasonably assure community safety. (The need for pretrial detention authority is discussed at length in the report on S. 215. S. Rept. No. 98-147 supra; see especially pp. 32-33). The core pretrial detention provisions of section 3142 are set out in subsections (e) and (f).

These and the other subsections of section 3142 are discussed in detail below:

Subsection (a) provides that when a person charged with an offense is brought before a judicial officer, the judicial officer is to pursue one of four alternative courses of action set out in subsections (b) through (e).

Subsection (b) requires the judicial officer to release the person on his personal recognizance or upon execution of an unsecured appearance bond unless he determines that such release (1) will not reasonably assure the appearance of the person or (2) will endanger the safety of any other person or the community. As in current law, this is the favored form of release. However, unlike current law, this provision permits a consideration of defendant dangerousness. If released pursuant to this provision, the defendant is subject to the mandatory condition that he not commit another offense while on release. Those released pursuant to the conditions enumerated in subsection (c) are subject to the same mandatory condition.

Subsection (c) provides that if the judicial officer determines that release on personal recognizance or on an unsecured appearance bond will not give the necessary assurances, he is to release the person pursuant to the least restrictive condition or combination of conditions that will give the required assurances concerning appearance and community safety. Except for financial conditions of release, which may be imposed only to assure the defendant's appearance, any of the discretionary conditions of release set out in subsection (c)(2) may be imposed to assure either appearance or community safety. These discretionary conditions carry forward those now listed in 18 U.S.C. 3146, and incorporate nine more.

The final sentence of section 3142(c) retains the current authority set forth in 18 U.S.C. 3146(e) for the court to amend the release order at any time.

Subsection (d) permits the judge to detain a defendant for a period of up to ten days if the person was arrested while already on a form of conditional release, such as bail, probation, or parole. The purpose of this provision is to allow the government time to notify the original releasing authorities so that they may take whatever action may be appropriate in light of the defendant's arrest. This provision is based largely on a similar provision in the D.C. Code. (See S. Rept. No. 98-147, supra, at 43-44, for further discussion of this provision.) An additional basis for temporary detention under subsection (d) which was incorporated in S. 2572 last Congress has been carried forward. It permits temporary detention of a person who is an alien not lawfully admitted into the country in order that the officials of the Immigration and Naturalization Service may be notified and take appropriate action.

Subsections (e) and (f) set forth the findings and procedures that are required for an order of detention. The standard for an order of detention is contained in subsection (e), which provides that the judicial officer is to order the person detained if, after a hearing pursuant to subsection (f), he determines that no condition or combination of conditions of release will reasonably assure the appearance of the defendant as required and the safety of any other person and the community. The facts on which the finding of dangerousness is based must, under subsection (f), be supported by clear and convincing evidence. Thus, this subsection not only codifies existing authority to detain persons who are serious flight risks or who threaten witnesses or jurors, but also creates new authority to detain persons who pose especially serious dangers to community safety.

Generally, subsection (e) does not specify the kinds of information that will support the findings necessary to deny release. However, it does specify two sets of circumstances which, if established, creates a rebuttable presumption that no form of conditional release will be adequate: where the defendant has a history of having committed a serious offense while on release and where there is probable cause to believe that the person committed an offense punishable by ten years or more under the Federal drug laws or an offense under the firearms provisions of 18 U.S.C. 924(c).

Subsection (f) describes, in paragraphs (1) and (2), the circumstances under which a detention hearing may be held. Under paragraphs (1) a detention hearing may be held upon a motion by the government if the defendant is charged with (1) a crime of violence; (2) an offense punishable by death or life imprisonment; or (3) a major drug trafficking offense. These offenses are essentially the same categories of offense for which a pretrial detention hearing may be held under the District of Columbia Code. In addition, the government may have a hearing if a defendant charged with a serious offense has a substantial history of committing dangerous offenses.

Under paragraph (2), a pretrial detention hearing may be made at the instance of the government or by the court on its own motion in two situations. These involve either a serious risk that the defendant will flee or that he will obstruct justice or intimidate jurors and reflect the scope of current case law permitting denial of release.

The procedural requirements for the pretrial detention hearing are set forth in section 3142(f) and track those of the analogous provision of the D.C. Code. For a further discussion of this and other aspects of subsection (f), see S. Rept. No. 98-147, supra, at 47-49.

Subsection (g) enumerates the factors that are to be considered by the court in determining whether there are conditions of release that will reasonably assure the appearance of the person as required and the safety of other persons and the community. Most of these factors are drawn from current law. Subsection (g) also contains a new provision making clear the authority of the courts to conduct a hearing into the source of property used to post bond. Experience has shown that where money bond is financed through the proceeds of crime it is generally ineffective in assuring the defendant's appearance. This provision makes clear the authority of the courts to inquire into the source of property used to post bond (now called Nebbia hearings) and to decline to accept the bond if they are not satisfied as to its source.

For a further discussion of subsection (g) see S. Rept. No. 98-147, supra, pp. 49-51.

Subsection (h) provides that in issuing an order of release under subsection (b) or (c), the judicial officer is to include a written statement setting forth all the conditions of release. He is also required to advise the person of the penalties for a violation of a condition of release. A similar provision exists in current law. See 18 U.S.C. 3146(c).

Subsection (i) requires that an order of detention include written findings of fact and a written statement of the reasons for the detention. The court's order must also direct that the person be confined in a facility separate from convicted offenders, if practicable, and permit the person a reasonable opportunity for private consultation with counsel while confined. As approved by the Senate, the bail provisions of S. 2572 would have required that the Attorney General promulgate regulations to govern the custody of persons detained prior to trial. In our view, this provision should be given further consideration, and it thus has not been incorporated.

Subsection (j) carries forward a provision included in S. 2572 as passed by the Senate last Congress that simply emphasizes that the provisions of proposed section 3142 are not to be construed as modifying or limiting the presumption of innocence.

Section 3143. Release or Detention of a Defendant Pending Sentence or Appeal:

This section makes several revisions in that portion of current 18 U.S.C. 3148 which concerns post-conviction release. The basic distinction between the existing provision and section 3143 is one of presumption. Under current 18 U.S.C. 3148, the judicial officer is instructed to treat a person who has already been convicted according to the release standards of 18 U.S.C. 3146 that are applicable to pre-conviction release unless he has reason to believe that no conditions of release will reasonably assure that the person will not flee or pose a danger to any other person or to the community.

The current presumption favoring post-conviction release should be eliminated. Once guilt of a crime has been established, there is no reason to favor release pending imposition of sentence or appeal. The conviction, by which the defendant's guilt of a crime has been established beyond a reasonable doubt, is presumably correct in law. Also, release of a criminal defendant into the community after conviction may undermine the deterrent effect of the criminal law, especially in those situations where an appeal of the conviction may drag on for many months or even years.

Section 3143 separately treats release pending sentence, release pending appeal by the defendant, and release pending appeal by the government. As to release pending sentence, subsection (a) provides that a person convicted shall be held in official detention unless the judicial officer finds by clear and convincing evidence that the person is not likely to flee or to pose a danger to the safety of any other person or the community. Subsection (a) covers those awaiting the execution of sentence as well as its imposition.

Subsection (b) deals with release after sentence of imprisonment of a defendant who has filed an appeal or a petition for a writ of certiorari. Such person is also to be

detained unless the judicial officer finds by clear and convincing evidence that the defendant is not likely to flee or pose a danger to the safety of any other person or the community. In addition, the court must affirmatively find that the appeal is not taken for the purpose of delay and that it raises a substantial question of law or fact likely to result in reversal or an order for a new trial. Under the current 18 U.S.C. 3148, release can be denied only if it appears that the appeal is frivolous or taken for delay. Subsection (b) is based on the release pending appeal provision of the D.C. Code (Section 23-1325).

Subsection (c) concerns release pending appeal by the government from an order of dismissal of an indictment or information or suppression of evidence pursuant to 18 U.S.C. 3731. As both of these kinds of appeals contemplate a situation in which the defendant has not been convicted, the defendant is to be treated under section 3142, the general provision governing release or detention pending trial. Subsection (c) is a new provision derived from 18 U.S.C. 3731.

For further discussion of this provision see S. Rept. No. 98-147, supra, at 54.

Section 3144. Release or Detention of a Material Witness:

This section carries forward, with two changes, current 18 U.S.C. 4149, which concerns the release of a material witness.

The first change in current law is that section 3144 would permit the judicial officer to order the detention of the witness if there were no conditions of release that would assure his appearance. A witness could not be detained for inability to comply with a condition of release if his testimony could be adequately secured by deposition and if detention is not required to prevent a failure of justice. Currently, 18 U.S.C. 3149 ambiguously requires the conditional release of the witness in the same manner as for a defendant awaiting trial, yet the language of the statute recognizes that certain witnesses will be detained because of inability to meet the conditions of release imposed by the judicial officer.

The other change is to grant the judicial officer not only the authority to set release conditions for a detained material witness, or, in an appropriate case, to order his detention pending his appearance at the criminal proceeding, but also to authorize the arrest of the witness in the first instance. It is anomalous that current law authorizes release conditions but at the same time does not authorize the initial arrest.

For further discussion of this provision see S. Rept. No. 98-147, supra, at 54-55.

Section 3145. Review and Appeal of a Release or Detention Order:

Section 3145 sets forth the provisions for the review and appeal of release and detention orders. Subsections (a) and (b) provide for the review of release and detention orders by the court having original jurisdiction over the offense in situations in which the order is initially entered by a magistrate, or other court not having original jurisdiction over the offense (other than a federal appellate court). Subsection (c) grants both the defendant and the government a right to appeal release or detention orders, or decisions denying the revocation or amendment of such orders.

Although based in part on current 18 U.S.C. 3147, section 3145 makes two substantive changes in present law. First, section 3145 permits review of all release and detention orders. Second, it permits the government to appeal release decisions. For further discussion of this provision see S. Rept. No. 98-147, supra, at 56-57.

Section 3146. Penalty for Failure to Appear:

Section 3146 basically continues the current law offense of bail jumping (18 U.S.C. 3150), although the maximum penalty has been increased to more nearly parallel that of the underlying offense with which the defendant was charged. This increased penalty provision is designed to eliminate the temptation to a defendant to go into hiding until the government's case for a serious felony grows stale or until a witness becomes unavailable and then to surface at a later date with criminal liability limited to the less serious bail jumping offense. Subsection (a) provides that a person commits an offense if, after having been released pursuant to the provisions of chapter 207 of title 18 as amended by the bill: (1) he knowingly fails to appear before a court as required by the conditions of his release; or (2) he knowingly fails to surrender for service of sentence pursuant to a court order.

Subsection (c) provides that it is an affirmative defense that "uncontrollable circumstances prevented the defendant from appearing or surrendering, that the defendant did not contribute the creation of such circumstances in reckless disregard of the requirement that he appear or surrender, and that the defendant appeared or surrendered as soon as such circumstances ceased to exist."

Subsection (d) of section 3146 simply emphasizes that, in addition to the penalties of fine and imprisonment provided for bail jumping, the court may also order the person to forfeit any bond or other property he has pledged to secure his release if he has failed to appear.

Section 3147. Penalty for an Offense Committed While on Release:

Section 3147 is designed to deter those who would pose a risk to community safety by committing another offense when released under the provisions of this bill and to punish those who indeed are convicted of another offense. Accordingly, this section prescribes a penalty in addition to any sentence ordered for an offense committed while on release. This additional penalty is a term of imprisonment of at least two years and not more than ten years if the offense committed while on release is a felony. If the offense committed while on release is a misdemeanor, this additional penalty is at least 90 days and not more than one year.

Section 3148. Sanctions for Violations of a Release Condition:

Section 3148 provides in subsection (a) for two distinct sanctions that are applicable for persons released pursuant to section 3142 who violate a condition of their release—revocation of release and an order of detention, and a prosecution for contempt of court.

Subsection (b) sets out the procedure for revocation of release. Specific provisions for revocation of release are new to federal bail law, although a similar provision exists in the District of Columbia Code. Generally, an order of revocation and detention will issue at this hearing if the court finds, first, that there is either probable cause to believe that the person has committed a federal, State, or local crime while on release, which is a violation of a mandatory condition imposed on all released persons, or clear and convincing evidence that the person has violated any other condition of his release, and, second, either that no condition or combination of conditions can be set that will assure that the person will not flee or pose a danger to the safety of any other person or the community, or that the person is unlikely to abide by reasonable conditions.

Since the establishment of probable cause to believe that the defendant has committed a serious crime while on release constitutes compelling evidence that the defendant poses a danger to the community, once such probable cause is established it is appropriate that the burden rest on the defendant to come forward with evidence indicating that this conclusion is not warranted in his case. Therefore, section 3148(b) provides that if there is probable casue to believe that the person has committed a federal, State, or local felony while on release, a rebuttable presumption arises that no condition or combination of conditions will assure that the person will not pose a danger to the safety of any other person or the community.

Subsection (c) emphasizes that the court may impose contempt sanctions if the person has violated a condition of his release. This carries forward the provisions of exisiting 18 U.S.C. 3151.

Section 3149. Surrender of an Offender by a Surety:

Except for minor word changes, this provision is identical to current 18 U.S.C. 3142. The section provides that, if a person is released on an appearance bond with a surety, such person may be arrested by his surety and delivered to a United States Marshal and brought before the court. The person so returned will be retained in custody until released.

Section 3150. Applicability to a Case Removed from a State Court:

This section specifies that the release provisions of chapter 207 of title 18, United States Code, as amended by this title, are to apply to a case removed to a federal court from a State court.

The remaining subsections (b) through (e) of section 102 set out certain technical and conforming amendments and provide definitions for certain terms used in the new release provisions of chapter 207.

Section 103 contains two technical amendments to 18 U.S.C. 3041 and 3042; deletes section 3043 (security for peace and good behavior), a provision little used and unnecessary in light of this title's grant of authority to consider dangerousness in release decisions; and creates new section 3062.

New section 3062 grants to a law enforcement officer who is authorized to make arrests for offenses committed in his presence the authority to arrest a person released under this Act if the officer has reasonable grounds to believe the person is violating certain release conditions in his presence. Since a violation of a release condition constitutes contempt, it is likely that officers have such authority currently. However, this provision will assure that law enforcement officers with arrest authority for offenses committed in their presence are made especially aware of the importance of arresting a person on release who is subject to one of the conditions that is aimed primarily at preventing further crimes by the defendant and assuring against harm to victims and witnesses.

Section 104 amends 18 U.S.C. 3731 to permit, in accordance with new 18 U.S.C. 3146(c), the government to appeal release decisions.

Section 105 sets out a conforming amendment to 18 U.S.C. 3772.

Section 106 sets out a conforming amendment to 28 U.S.C. 4282.

Section 107 sets out a conforming amendment to 28 U.S.C. 636.

Section 108 sets out what are, for the most part, technical or conforming amendments to the Federal Rules of Criminal Procedure. The amendment to Rule 46(e)(2) adds language emphasizing that a surety's surrender of a bail jumper into custody may be an appropriate basis for setting aside forfeiture of all or part of the bond. New Rule 46(h) makes it clear that, when authorized by statute or regulation, minor charges may be disposed of by ordering the forfeiture of collateral. This procedure is currently used to dispose of minor offenses, such as traffic violations, and permits those charged with such offenses to forgo appearing at an official proceeding if they so wish. See Rule 4(a) of the Rules of Procedure for the trial of misdemeanors before United States Magistrates.

Section 109 amends Rule 9(c) of the Federal Rules of Appellate Procedure to provide that a convicted person seeking release pending appeal is to bear the burden of proof both with respect to the issues of his appearance and considerations of community safety and with respect to the merit of his appeal.

TITLE II—SENTENCING REFORM

I. Introduction

Sentencing, the culmination of the criminal trial process, is the act by which the justice system gives formal expression to the seriousness, or lack of seriousness, with which the defendant's criminal conduct is viewed. Ideally it should express society's moral standards as applicable to the behavior of the defendant in an individual case, and as necessary to deter future criminal conduct by others.

Over the past decade, a consensus has developed among persons of different political views that the current federal sentencing system is riddled with serious shortcomings. More recently, there has also developed a substantial agreement, although not a unanimous one, as to a practical approach by which the shortcomings might be remedied. The following discussion outlines the perceived shortcomings and the new approach taken in title II of the bill, which is derived, with minor modifications, from the sentencing provisions of S. 2572 as it passed the Senate on September 30, 1982. Those provisions were, in turn, based on the sentencing provisions in the proposed revision of the Federal Criminal Code, S. 1630, 97th Cong. See generally S. Rept. No. 97-307, 97th Cong., 2d Sess.

II. Sentencing under current law and practice

A. The Sentencing Process:

Sentencing today is left to the discretion of federal judges who are trained in the law but who have no special competence in ascertaining the values of society and applying them to sentencing in individual criminal cases. In employing their discretion, the judges are left to their own devices and philosophies. Congress has provided no general statutory guidance as to the purposes to be achieved by the sentencing process, has set forth no sentencing philosophy (other than occasional hints at rehabilitation), and has given no direction concerning factors to be considered in determining an appropriate sentence. The only real legislative guidance is that provided by the maximum sentences specified in the penal statutes—and these only indicate the Congressional view of the appropriate sentence for the most serious offense under the provision. In imposing sentences, judges are not required to state any rationale, and few do.

B. Sentencing Options:

While the current statutes provide sentencing alternatives of probation, fines, and imprisonment, each is encumbered.

1. Probation.—Probation is treated as a suspension of the imposition or execution of a sentence rather than as a sentence itself, and partly for that reason there is little incentive to impose conditions on probation that might make it a more effective punitive or remedial sanction. It tends to be viewed as a vehicle for rehabilitation only.

2. Fines.—The maximum fine levels carried by penal offenses vary inexplicably. They usually also reflect penalty levels of previous centuries, and today are much too low to be considered a realistic measure of the gravity of most offenses. Even when fines are imposed, statutory processes for collection rely too heavily on cumbersome state procedures to assure collection.

3. Imprisonment.—Imprisonment under current laws is a two-step process. First, the sentencing judge sets the outside limit of the period of time that he believes appropriate for the defendant to spend in prison. Second, the parole authorities decide what portion of the imposed term the defendant actually should serve. The practice is based upon a 19th Century rehabilitative theory that has proved to be faulty.

a. The Theory.—The theory underlying current imprisonment practices is that criminality is a disease to be cured through rehabilitative programs in a prison setting. The purpose of a sentence to imprisonment is to rehabilitate. At the time of sentencing, however, no one knows how long a defendant's rehabilitation will take. Therefore, a defendant should be sentenced to a considerably more lengthy term than is probably necessary in order to ensure that he will remain imprisoned long enough to be rehabilitated. Later, the parole authorities will examine the defendant's behavior in prison, and, when they find that he has become rehabilitated, will then release him before the expiration of his imposed term.

b. Problems with the Theory.—There are two principal problems with the theory.

First, many sentences to imprisonment are not designed to rehabilitate, but to deter, incapacitate, or punish. Sentences imposed for these purposes do not require any review of the defendant's prison behavior by parole authorities in order to set the proper length of the term. Such sentences logically should be set by the court for a definite term, and should not be subject to later variation.

Second, the theory is unsoundly predicated even for sentences designed to rehabilitate.

Behavioral scientists have recently concluded that there exists no satisfactory means of inducing rehabilitation on a regular basis. More importantly, they have also concluded that no one can tell from a prisoner's behavior whether he has become rehabilitated. Consequently, the basic reason for an indeterminate sentence that may be adjusted by parole authorities—for the existence of parole boards—has disappeared.

c. Adaptation of the System to the Demise of the Theory.—The Federal Parole Commission today acknowledges that it cannot tell from a prisoner's behavior when he has become rehabilitated. It therefore no longer even attempts to accord its practice with the original theory. Instead, with few exceptions, it releases prisoners at the time specified by the Commissioner's self-developed guidelines—guidelines that are based upon factors known at the time of sentencing. Since the Commission's release determinations need no longer await an opportunity to observe the prisoner's conduct in confinement, there is no reason why the Commission cannot inform a prisoner of his proposed release date at about the time of his incarceration—and this in fact is just what the Commission now does.

The imprisonment process today, therefore, involves two branches of government—acting at approximately the same time and basing their determinations on essentially the same information—solemnly announcing quite different sentences to be served by the same defendant. The result is not just an awkward adaptation of practice to an anachronistic theory; it leaves the judges attempting to adjust their sentences so as to overcome what they perceive as inappropriately harsh or lenient consequences of the parole process, and leaves the parole authorities regularly ignoring the actual sentences meted out by judges.

C. Review of Sentence:

There is no mechanism today for securing review of sentences that appear either unusually harsh or unusually lenient.

D. Consequences of the Current System:

As might be expected, numerous studies have documented considerable disparity in sentences meted out by federal judges to similarly situated defendants who have committed like offenses. Various attempts to reduce such disparity have been ineffective. The perception of this disparity tends to encourage defendants to engage in continual relitigation of the issue of their guilt. It also, in combination with the artificial process by which judges impose lengthy sentences and parole authorities grant early release a short time thereafter, serves to leave the public jaded about the efficacy of the whole criminal justice system, and to rob the system of whatever potential deterrent effect it might otherwise be capable of producing.

III. Sentencing under title II of the bill

Title II of the bill completely revises current law as to the purposes of sentencing, the process by which the judge determines the appropriate sentence in a particular case, and review of sentence to assure its legality and reasonableness.

A. Legislatively Prescribed Purposes:

Title II gives legislative recognition for the first time to the appropriate purposes of sentencing. The stated purposes specifically include assurance of just punishment, deterrence of criminal conduct by others, and protection of the public, and lessen the previously implied emphasis on rehabilitation. (Proposed 18 U.S.C. 3553(a)(2).)

B. The Sentencing Process:

Judges are directed to sentence with the above purposes in mind, pursuant to guidelines established by a Sentencing Commission.

1. The Sentencing Commission.—The Sentencing Commission is to be an independent agency in the judicial branch consisting of seven voting members appointed by the President with advice and consent of the Senate and one ex-officio, non-voting member, the Attorney General. The Commission is directed to draft guidelines for use by federal judges, taking into consideration all offender and offense characteristics that appear relevant to the specified purposes of sentencing. For each federal of-

fense, the guidelines will be expected to specify a variety of appropriate sentencing ranges, depending upon different combinations of offender and offense characteristics. Development of the guidelines is subject to the public review process of the Administrative Procedure Act. The initial guidelines, and all subsequent modifications, are to be transmitted by the Commission to the Congress for review and possible modification. Absent congressional rejection of the guidelines, they will be officially promulgated. (Proposed chapter 58 of title 28, United States Code.)

In a few areas (involving, e.g., recidivists, organized crime offenders, first offenders), title II provides general legislative guidance to the Commission as to the kind of sentence and degree of severity that would seem to be appropriate for inclusion in the guidelines. These provisions are intended to accord some direction to the Commission without so circumscribing its consideration of occasional countervailing factors as to prove unduly rigid. The provisions are limited to subject areas that otherwise would be considered likely candidates for legislatively directed mandatory sentences to imprisonment, or legislatively directed presumptions in favor of probation.

2. The Guidelines.—For each federal offense, the guidelines will specify a variety of appropriate sentencing ranges—encompassing imprisonment, fines, and probation—depending upon the particular history and characteristics of the defendant in the case and the particular circumstances under which the offense is committed. Each offense, therefore, may have a dozen or so sentencing ranges specified, only one of which will fit a given case. (Proposed 28 U.S.C 994(a).)

3. Judicial Application of the Guidelines.—After a sentencing hearing, a judge will determine the particular guideline range that is applicable to the offender and the offense. He will then be expected to sentence within the narrow range specified. The judge may, however, sentence above or below the specified guideline range in unusual circumstances, but must give specific reasons for such a sentence. (Proposed 18 U.S.C. 3553(b) and (c).)

C. Sentencing Options:

1. Probation.—Probation is cast by title II as a penalty in itself, rather than as a deferred penalty. A judge is required to impose as a condition of probation in a felony case a condition that the defendant pay a fine or make restitution to the victim or that he engage in community service. The judge is required for every crime to impose a prohibition against the defendant's committing another crime during the probationary period. A variety of potentially useful discretionary conditions of probation (including undertaking vocational training or undergoing medical or psychiatric treatment) are set forth by title II for the consideration of the Sentencing Commission and the judges. (Proposed subchapter B of chapter 227 of title 18.)

2. Fines.—The maximum fine levels under title II are dramatically increased. The maximums specified for felonies are up to a quarter of a million dollars for an individual defendant, and up to half a million dollars for an organizational defendant, although the actual amount imposed is to be predicated upon the defendant's ability to pay as well as upon the gravity of the offense and related considerations. (Proposed subchapter C of chapter 227 of title 18.) Lien procedures, like those in the tax laws, are provided to assure an effective means of collecting imposed fines. (Proposed subchapter B of chapter 229 of title 18.)

3. Imprisonment.—Title II of the bill makes a major change in sentences to imprisonment. It moves to a determinate system, abolishing early release on parole and providing for the first time that the sentence announced by the sentencing judge will be for almost all cases the sentence actually served by the defendant (except for a potential 10 percent credit for "good time"). Such sentences will not need to involve the artificially lengthy terms that are imposed today in the expectation that they will be shortened later by parole authorities. Although early release on parole is abolished, in a case in which a judge believes that a defendant should be supervised for a period after the expiration of his term of imprisonment, he may order a term of post-release supervision. (Proposed subchapter D of chapter 227 of title 18.)

Terms of imprisonment ordinarily will not be subject to later adjustment. However, an exception is made in the case of an unusually long term of imprisonment. A defendant serving a term of imprisonment longer than six years will be entitled after six years to petition the sentencing judge for reexamination of the sentence, and the judge will be empowered to reduce the sentence upon a finding of the existence of extraordinary and compelling reasons and a finding of compatibility of such a reduction with Sentencing Commission standards. A defendant sentenced to an unusually long term of imprisonment that is above the applicable guideline will be able to obtain a second review, for which the same standards will apply, after he has served the maximum time specified in the applicable guideline. (Proposed 18 U.S.C. 3582(c)(2).)

4. Collateral Sentencing Orders.—In addition to the penalties traditionally applicable, a court is empowered by title II to order a defendant convicted of fraud (a situation in which an appropriate amount of restitution might be difficult to ascertain in an ordinary sentencing hearing) to give notice of the conviction to the victims of the offense (who may not be known to anyone other than the defendant) in order to facilitate their bringing of whatever private recovery actions might prove to be appropriate. (Proposed 18 U.S.C. 3555.) The bill also carries forward provisions similar to those enacted by Public Law 97-291 empowering a court to order a defendant to pay restitution if he is found guilty of an offense causing bodily injury or property damage or loss.

D. Review Process.

Title II contains an appellate process to review sentence propriety in questionable cases. By incorporating the appeal procedures into the general structure of the guideline sentencing system, title II assures that the extremes of sentencing that most deserve review may be called to the attention of an appellate court, without overburdening the court with a flood of challenges to sentences well within the bounds of what would generally be considered reasonable under all of the circumstances. The defendant is permitted to appeal a term of imprisonment, a restrictive condition of probation, or a fine, that falls above the range specified in the applicable guideline, and to appeal a restitution order or a notice order. Recognizing that sentence disparity reaches in two directions, title II also permits the government, on behalf of the public, to seek review of a sentence that falls below the applicable guideline range in a case in which the Attorney General approves the filing of such an appeal. In both situations, the question on appeal is whether the sentence imposed is, under the circumstances, "clearly unreasonable." (Proposed 18 U.S.C. 3742.)

IV. Section-by-Section Analysis of Title II.

Section 201 of the bill specifies that the Act may be cited as the "Sentencing Reform Act of 1983".

Section 202(a)(1) redesignates a number of sentencing provisions in current law with new section numbers in order to preserve them.

Section 202(a)(2) repeals current chapters 227, 229, and 231 of title 18, United States Code, and replaces them with totally new sentencing provisions. New chapter 227 of title 18 describes in some detail the kinds of sentences available, and new chapter 229 of title 18 describes the means of implementing those sentences.

CHAPTER 227—SENTENCES

Subchapter A (General Provisions) of Proposed Chapter 227 of Title 18.—Subchapter A contains general provisions relating to the types of sentences that can be imposed on individuals and on organizations, and to the considerations that should go into the determination of an appropriate sentence. Section 3551 lists the types of sentences that may be imposed upon a defendant who has been found guilty of an offense. Section 3552 contains the requirements for pre-sentence investigations and reports. Section 3553 lists the factors to be considered by a sentencing judge in imposing sentence, and sets forth the requirement that the judge state reasons for a particular sentence. Sections 3554 through 3556 describe the collateral sentences of an order of criminal forfeiture, an order of notice to victims of a fraudulent offense, and an order of restitution. Sections 3557 and 3558 refer to other provisions of title 18 relating to appellate review and implementation of sentences. Section 3559 classifies all federal offenses according to the grading system set forth in section 3581.

Section 3551 (Authorized Sentences).—Section 3551 outlines the authorized sentences for defendants found guilty of a federal offense, other than an offense described in an Act of Congress applicable exclusively in the District of Columbia or the Uniform Code of Military Justice. It requires that each federal offender be sentenced in accord with the provisions of chapter 227 of title 18 in order to achieve the general purposes of sentencing set out in section 3553(a)(2). Subsection (b) of section 3551 specifies that an individual offender must either be placed on probation, fined, or imprisoned as provided in the subchapters governing the imposition of such sentence. It requires the imposition of at least one of these sentences. It further states that a fine may be imposed in addition to any other sentence, as may any of the other sanctions authorized by section 3554, 3555, and 3556. Subsection (c) requires that an organization that is convicted of a federal offense be sentenced to a term of probation or to pay a fine, or both. At least one of these sentences must be imposed. In addition, an organization may, in an appropriate case, be made subject to an order of criminal forfeiture, an order of notice to victims, or an order of restitution.

Section 3552 (Presentence Reports).—Section 3552 requires the preparation of a presentence report by a probation officer in accord with the provisions of rule 32(c) of the Federal Rules of Criminal Procedure.

Subsection (b) of section 3552 carries forward the provisions 18 U.S.C. 4205(c), which provides that, if the court desires more information concerning a convicted defendant, either before or after receiving the presentence report and any report concerning the defendant's mental condition, it may order a study of the defendant. The study must be done in the local community by qualified consultants unless the court finds a compelling reason for committing the defendant to the custody of the Bureau of Prisons for the study or local resources are inadequate. The bill amends current law by reducing the maximum period for the study from six months to 120 days in order to advance the time for final sentencing while still allowing an adequate period for study. The bill also amends current law to specifically require that the court order for a study specify the information sought by the court. Subsection (c) adds a new provision to the law that specifically permits the court to order a presentence examination by a psychiatric or psychological examiner concerning the current mental condition of the defendant. The examination would be conducted pursuant to section 4247, and the court would be provided with a written report by the examiner. S. Rept. No. 97-307, pages 982-987. Subsection (d) requires that the court assure that a presentence report and a report prepared pursuant to subsection (c) be made available to the defendant, the counsel for the defendant, and the attorney for the government at least ten days prior to the date for sentencing, unless the defendant waives the minimum period.

Section 3553 (Imposition of a Sentence).—Subsection (a) sets out the factors that the judge is required to consider in selecting the type of sentence to be imposed in a particular case, and the length or amount of such sentence. Subsection (a)(1) directs the judge to consider "the nature and circumstances of the offense and the history and characteristics of the defendant". Subsection (a)(2) requires that the judge consider the need for the sentence imposed to carry out the four purposes of sentencing: the need for the sentence imposed to reflect the seriousness of the offense, to promote respect for law, and to provide just punishment for the offense; to afford adequate deterrence to criminal conduct; to protect the public from further crimes of the offender; and to provide the defendant with needed educational or vocational training, medical care, or other correctional treatment in the most effective manner. (See S. Rept. No. 97-307, pages 987-989). Subsection (a)(3) requires the judge to consider the kinds of sentences available. Subsections (a)(4) and (a)(5) require that the sentencing judge consider the kinds of sentence and the sentencing range applicable to the category of offense committed by the category of offender under sentencing guidelines issued pursuant to 28 U.S.C. 994(a), as that provision is enacted by section 207 of this title. Subsection (a)(6) requires the judge to consider "the need to avoid unwarranted disparities among defendants with similar records who have been found guilty of similar conduct".

Subsection (b) requires the sentencing judge to impose a sentence consistent with the sentencing guidelines unless he finds that there is an aggravating or mitigating circumstance present in the case that was not adequately considered in the formulation of the sentencing guidelines and that the circumstances should result in a different sentence. The provision is designed to achieve the goal of avoiding disparities in sentences that are not justified by differences among offenses or offenders. at the same time, the provision provides the flexibility necessary to assure adequate consideration of circumstances that might justify a sentence outside the guidelines.

Subsection (c) contains a new requirement that the court, at the time of sentencing, state the reasons for the imposition of the sentence in each case. It also requires that, if the sentence is within the guidelines, the court state the reason for imposing sentence at a particular point within the range, and that, if the sentence is of a different kind or outside the range set out in the sentencing guidelines, the court state the specific reason that the sentence imposed differs from the guidelines. This statement would essentially indicate why the court felt that the guidelines did not adequately take into account all the pertinent circumstances of the case at hand. If the sentencing court felt the case was an entirely typical one for the applicable guideline category, it would have no adequate justification for deviating from the recommended range. See S. Rept. No. 97-307, page 991. The statement of reasons for a sentence outside the guidelines would assist the appellate court, in a case in which the defendant or the government appealed the sentence pursuant to section 3742, to evaluate whether the sentence was "clearly unreasonable" or not. The statement of reasons would also inform the defendant and the public of the reasons for the sentence, and aid the probation and prison officials in fashioning an appropriate program for a defendant.

Subsection (d) requires that the court give prior notice to the defendant and the government that it is considering imposing an order of notice under section 3555 or an order of restitution under section 3556 as part of the sentence. The purpose of the notice is to enable the parties to prepare adeqeuately for the sentencing hearing. The subsection also requires that the court, upon motion of the defendant or the government or on its own motion, permit the parties to submit affidavits and written memoranda concerning matters relevant to the imposition of an order of notice or restitution (e.g., identification of individual, or classes of, victims, evaluation issues, and defenses that a defendant could assert in a civil action with respect to any victim); afford counsel an opportunity to address in open court the issue of the appropriateness of such an order; and include in its statement of reasons for the sentence specific reasons for imposing the order. See S. Rept. No. 97-307, pages 992 and 993.

Section 3554 (Order of Criminal Forfeiture).—Section 3554 specifies that the court, in imposing a sentence on a defendant who has been found guilty of an offense described in section 1962 of title 18, relating to racketeering activity, or an offense described in title II or III of the Comprehensive Drug Abuse Prevention and Control Act of 1970, relating to drug trafficking, shall order, in addition to the sentence that is imposed pursuant to the provisions of section 3551, that the defendant forfeit property to the United States in accord with the provisions of section 1963 of title 18 or section 413 of the Comprehensive Drug Abuse and Control Act of 1970. Section 1963 of title 18 is amended by title IV of this bill and the criminal forfeiture provisions for drug offenses are added by title IV.

Section 3555 (Order of Notice to Victims).—Section 3555 is a new provision that allows a court to require a defendant who has been found guilty of an offense involving fraud or other intentionally deceptive practices to give notice and explanation of the conviction to the victims of the offense. The provision should facilitate any private actions that may be warranted for recovery of losses from the offense. Without such a provision, many victims of major fraud schemes may not become aware of the fraud (for example, that the mining stock they purchased is counterfeit) until it is too late to seek legal redress, or may not be able to ascertain the perpetrator's current whereabouts (for example, a "fly-by-night" roofing operation). The provision should also serve to alert fraud victims to the advisability of other action on their part (for example, news of the worthlessness of a phony "cancer cure" may prompt a victim to visit a doctor in time for proper medical attention). In order to avoid the possibility of the offender's making only token efforts of giving notice, the court is empowered to designate the advertising areas and media in which notice is to be given. The judge is required, in determining whether to require notice, to consider not only the factors set forth in section 3553(a), but also the cost of giving notice as it relates to the loss caused by the offense. In addition, the bill limits to $20,000 the amount that the court may require the defendant to pay for such notice. These provisions are intended to assure that the order of notice requires only such publication as is reasonable under the circumstances of the case. S. Rept. No. 97-307, pages 996-999.

Section 3556 (Order of Restitution)—Section 3556 permits the court to order payment of restitution in addition to any other sentence imposed pursuant to section 3551 for an offense under title 18, or an offense under section 902 (h), (i), (j), or (n) of the Federal Aviation Act of 1958 (49 U.S.C. 1472). This provision carries forward the restitution sanctions as enacted by section 5 of the Victim and Witness Protection Act of 1982, Public Law 97-291.

Section 3557 (Review of a Sentence).—Section 3557 provides that the review of a sentence imposed pursuant to section 3551 is governed by the provisions of section 3742, which are enacted by section 203(a) of the bill.

Section 3558 (Implementation of a Sentence).—Section 3558 provides that the implementation of a sentence imposed pursuant to section 3551 is governed by the provisions of chapter 229 of title 18, which are enacted by section 202(a) of this bill.

Section 3559 (Sentencing Classification of Offenses).—Subsection (a) of section 3559 creates a grading scheme for offenses described in sections that specify a maximum sentence rather than a letter grade for the offense. The purpose of the provision is to indicate more clearly how the sentencing provisions of subchapters B, C, and D of this chapter apply to offenses with particular maximum sentences today.

Under subsection (a)(1)(A), if the maximum term of imprisonment authorized for the offense is life imprisonment, or if the maximum penalty is death, the offense becomes a Class A felony. Under subsection (a)(1)(B), if a term of years of more than 20 years is specified as the maximum sentence, the offense becomes a Class B felony. Under subsection (a)(1)(C), if the maximum specified in current law is less than 20 years but more than ten years, the offense become a Class C felony. Under subsection (a)(1)(D), if the maximum specified in current law is less than ten years but more than five, the

offense becomes a Class D felony. For lower level offenses, if current law provides a sentence that is equal to the sentence specified in section 3581 for a grade of offense, or is less than that amount but more than the maximum specified for the next lower grade, the offense is designated as an offense of the grade equal to or just above that specified in current law. Subsection (b) provides that current law offenses classified by operation of subsection (a) carry all the incidents assigned to the applicable letter designation, except that, if the maximum fine in current law is higher, the higher fine level applies, and that the current maximum term of imprisonment remains unchanged. Despite the provisions of section 3581(b), the maximum term of imprisonment for an offense would be that specified in the statute creating the offense until Congress amends the substantive provision to designate the offense as one of a particular grade set forth in section 3581(b). This circuitry results from the fact that title II does not amend substantive criminal law to rationalize maximum sentences. It does, however, create the structure necessary to accomplish this purpose readily at a future date.

Subchapter B (Probation) of Chapter 227 of Title 18.—This subchapter governs the imposition, conditions, and possible revocation of a sentence to a term of probation. In keeping with modern criminal justice philosophy, probation is described as a form of sentence rather than, as in current law, a suspension of the imposition or execution of sentence.

Section 3561 (Sentence of Probation).—Section 3561 authorizes the imposition of a sentence to a term of probation in all cases, unless the case involves a Class A or Class B felony or an offense for which probation has been expressly precluded, or the defendant is sentenced at the same time to a term of imprisonment for the same or a different offense. The section also specifies that the maximum term of probation for a felony is five years, and the minimum is one year. The maximum term of probation for a misdemeanor is five years for an infraction one year, with no minimum term specified for these offenses.

Section 3562 (Imposition of a Sentence of Probation).—Section 3562 sets forth the criteria to be considered by the court in determining whether to impose a sentence of probation and in determining the length of the term and the conditions of probation. It also makes clear that, despite the susceptibility of a term of probation to modification, revocation, or appeal, a judgment of criminal conviction that includes such a sentence constitutes a final judgment for all other purposes. Subsection (a) requires that the judge, in determining whether to impose a sentence to a term of probation upon an organization or an individual, and in setting the terms and conditions of any sentence to probation that is imposed, consider the factors set forth in section 3553(a) to the extent that they are applicable. These include the history and characteristics of the offender and the nature of the offense, the four purposes of sentencing set forth in section 3553(a)(2), and the sentencing guidelines and policy statements of the Sentencing Commission created under proposed 28 U.S.C. 994. Subsection (b) codifies current judicial decisions that hold that judgments imposing probation are final judgments for all purposes, particularly for purposes of appeal even though the sentence is subject to compliance with specified conditions, is revocable for noncompliance with those conditions, and is subject to modification, extension, or early termination in certain situations. See S. Rept. No. 97-307, pages 1007-1010.

Section 3563 (Conditions of Probation).—Section 3563(a) specifies that the court is required to provide, as a condition of probation for any federal offense, that the defendant not commit another federal, State, or local crime during the term of probation, and to provide as a condition of probation for a defendant convicted of a felony that the defendant pay a fine or restitution or engage in community service.

Subsection (b) sets out optional conditions which may be imposed, the last of which makes clear that the enumeration is suggested only, and not intended as a limitation on the court's authority to consider and impose other appropriate conditions. The subsection indicates that the discretionary conditions on probationary freedom must be reasonably related to the nature and circumstances of the offense, the history and characteristics of the offender, and the four purposes of sentences. If a condition involves a deprivation of property or liberty, the condition must be reasonably necessary to carry out the purposes of sentencing set forth in section 3553(a)(2). In addition, under subsection (a), the policy statements and sentencing guidelines promulgated by the Sentencing Commission should be considered in determining the conditions of probation. Most of the conditions set forth in section 3563(b) have been used and sanctioned in appropriate cases under the current statue. Among the discretionary conditions are conditions that the defendant pay a fine in accord with subchapter C, make restitution to a victim of the offense pursuant to section 3556, give notice to the victims of the offense pursuant to section 3555, remain in the custody of the Bureau of Prisons during nights, weekends, or other intervals of time, or participate in community service as directed by the court. For a detailed discussion of these and the other discretionary conditions of probation, see the S. Rept. No. 97-307, pages 1011-1015.

Subsection (c) permits the court to modify, reduce, or enlarge the conditions of a sentence of probation at any time before its expiration, and requires that the court hold a hearing before making such a modification.

Subsection (d) requires that the probation officer provide the defendant with a written statement of the conditions to which he is subject, and requires that statement to be sufficiently clear and specific to serve as a guide to the defendant's conduct and for such supervision as is required.

Section 3564 (Running of a Term of Probation).—This section governs the commencement of a term of probation; the effect of other sentences upon the running of the term; and the court's power to terminate or extend a term of probation.

Subsection (a) provides that the term of probation commences on the day the sentence of probation is imposed, unless otherwise ordered by the court.

Subsection (b) provides that multiple terms of probation are to run concurrently, regardless of when or for what offenses or by what jurisdiction they are imposed, and that a term of probation is to run concurrently with a term of supervised release; consequently, unlike the situation under current law, consecutive terms of probation may not be imposed. Of course, if a defendant is sentenced to terms of probation for offenses of varying seriousness, the maximum term of probation would be measured according to the term for the most serious offense. This subsection also makes it clear that probation does not run during any period in which the defendant is imprisoned at least 30 consecutive days in connection with a conviction for any other offense.

Subsection (c) authorizes the court, after considering the factors set forth in section 3553(a), to terminate a term of probation and to discharge the defendant prior to its expiration at any time in the case of a misdemeanor or an infraction or at any time after one year in the case of a felony, if the conduct of the defendant and the interest of justice warrant such action. See S. Rept. No. 97-307, page 1018.

Subsection (d) authorizes the court, after a hearing and pursuant to the provisions applicable to the initial setting of the term of probation, to extend the term of probation, unless the maximum term was previously imposed, at any time prior to its expiration or termination.

Subsection (e) provides that a term of probation remains subject to revocation during its continuance.

Section 3565 (Revocation of Probation).—This section provides that probation may be revoked if the defendant violates a condition of probation, and specifies the period during which such revocation may take place.

Subsection (a) provides that if the defendant violates a condition of probation, the court either may, after a hearing pursuant to Rule 32.1 of the Federal Rules of Criminal Procedure, continue the defendant on the sentence of probation, subject to such modification to the term or conditions of probation as it deems appropriate, or may revoke probation and impose any other sentence that could have been imposed at the time of the initial sentencing.

Subsection (b) provides that revocation of probation and imposition of another sentence may occur after the term of probation has expired if a violation of the condition occurred prior to the expiration, if the adjudication occurs within a reasonable period of time, and if a warrant or summons on the basis of an allegation of such a violation was issued prior to the expiration of the term of probation.

Section 3566 (Implementation of a Sentence of Probation).—This section, which has no counterpart in current law, merely directs attention to the fact that provisions governing the implementation of probation are contained in subchapter A of chapter 229.

Subchapter C (Fines) of Chapter 227 of Title 18.—This subchapter sets the maximum monetary fines that may be imposed for the various levels of criminal offenses, specifies the criteria to be considered before imposition of fines, and provides for the subsequent modification or remission of fines previously imposed.

Fines generally have been an inappropriately underused penalty in American criminal law, even though there are many instances in which a fine in a measured amount could constitute a highly effective means of achieving one or more of the goals of the criminal justice system. Part of the reason for the under-utilization of fines as a criminal sanction is the fact that the levels of fines under current law, with rare exceptions, are so low that the courts are not able to use them effectively as a sentencing option. These statutory limits are largely the product of an earlier era when the aver-

age wage-earner achieved a yearly income considerably lower than that of today, and when inflation had not yet reduced the value of currency to its present level. See S. Rept. No. 97-307, pages 1021-1029.

Section 3571 (Sentence of Fine).—Section 3571 establishes the general statutory authority for the imposition of a fine as a penal sanction. The maximum amount of the fine that may be imposed in a particular case depends on whether the offense is classified as a felony, misdemeanor, or infraction; whether the offender is an individual or an organization; and, in the case of a misdemeanor, whether the offense resulted in loss of human life.

Subsection (a) authorizes the use of fines in criminal sentencing. There are no offenses for which a fine may not be imposed. Payment of a fine may also be made a discretionary condition of probation for any offense, or a mandatory condition of probation for a convicted felon. See proposed section 3562.

Subsection (b) establishes the maximum limits of fines for felonies, misdemeanors, and infractions. Under the provisions of proposed 18 U.S.C. 3559, the fine levels specified in subsection (b) apply to existing offenses unless current law specifies a higher maximum fine. The fines specified in subsection (b) for an individual defendant are $250,000 for a felony or for a misdemeanor resulting in the loss of human life, $25,000 for any other misdemeanor, and $1,000 for an infraction. The fine levels set forth in the subsection for organizations are higher than those for individuals, following the New York model, in order to take cognizance of the fact that a sum of money that is sufficient to penalize or deter an individual may not necessarily be sufficient to penalize or deter organization, both because the organization is likely to have more money available to it and because the sentence for an organization obviously cannot include a term of imprisonment. For an organization, subsection (b) provides a maximum fine for a felony, or for a misdemeanor that results in loss of human life, of $500,000; for any other msidemeanor a maximum fine of $100,000; and for an infraction, a fine of not more than $10,000. See S. Rept. No. 97-307, pages 1022-1025.

Section 3572 (Imposition of a Sentence of Fine).—Section 3572 sets out factors that the court must consider in imposing a fine, specifies the degree to which the sentence to pay a fine is final, places a limit on the aggregation of multiple fines, provides that the court may specify the time and method of payment of the fine, precludes the imposition at the time a sentence is imposed of an alternative sentence to be served if an imposed fine is not paid, provides notice that agents of an organization who are authorized to disperse its assets are indiviudally responsible for payment of a fine against the organization from the funds of the organization, and provides that a fine imposed on an agent or shareholder of an organization may not be paid from the assets of the organization unless expressly permitted under applicable State law.

Subsection (a) specifies the factors to be considered by the court in determining whether to impose a fine, and in determining its amount and the means of payment. In addition to the factors set forth in section 3553(a), the court is required to consider the ability of the defendant to pay the fine; the nature of the burden the payment of the fine will impose on the defendant and on any person dependent on him; restitution or reparation made by the defendant to the victim of the offense; if the defendant is an organization, any measure taken by the organization to discipline the persons responsible for the offense or ensure against the recurrence of the offense; and any other pertinent equitable consideration.

Subsection (b) provides that the aggregate of fines that may be imposed on a defendant at the same time for offenses that arise from a common scheme or plan and that do not cause separable or distinguishable kinds of harm or damage, is twice the amount imposable for the most serious offense. The provision was included to avoid the possibility that for some offenses, particularly regulatory offenses, an ongoing pattern of conduct might constitute numberous minor offenses that did not warrant a maximum fine equal to the aggregate fine for all of the minor offenses.

Subsection (c) makes clear that, even though a fine imposed by the sentencing judge may be modified or remitted, or corrected or appealed pursuant to section 3742, a judgment of conviction that includes a fine is final for all other purposes.

Subsection (d) permits the court to authorize payment of a fine within a specified period of time or in installments. This provision gives necessary flexibility to the fine provisions in order to permit the imposition of a relatively high fine on a defendant who can pay it over a period of time. This will permit the imposition of a sentence to pay a high fine when such a sentence will best serve the purposes of sentencing. It may permit, for example, the imposition of a sentence to pay a high fine in a case in which the defendant might otherwise be sentenced to a term of imprisonment.

Subsection (e) prohibits the imposition at the time of sentencing of a term of imprisonment to be served if a fine is not paid. If the defendant does fail to pay his fine, the court may determine the appropriate remedy after the non-payment occurs. See S. Rept. No. 97-307, page 1027.

Subsection (f) makes clear that, if an organization is fined, it is the duty of each of the organization's employees or agents who is authorized to make disbursements of the assets of the organization to pay the fine from those assets. The subsection also bars payment of a fine imposed on an agent or shareholder of an organization from assets of the organization, unless State law expressly permits such payments.

Section 3573 (Modification or Remission of Fine).—Section 3573 permits modification or remission of a fine if there have been changes in the circumstances that warranted imposition of a fine in the amount imposed or payment by the time or method specified by the court. Since section 3572 specifies that the ability to pay is relevant to the amount of the fine, a modification or remission of the fine should be available when that ability lessens. The section also permits remission of the fine in an amount that does not exceed the amount of restitution or reparation voluntarily paid to the victim by the defendant after the fine was imposed. The section permits the court to adjust the fine of a well-intentioned defendant in order to avoid creating unjustifiable impoverishment. However, an unexcused failure to pay a fine may still be prosecuted as any other criminal contempt.

Section 3574 (Implementation of a Sentence of Fine).—Section 3574 states that the provisions concerning implementation of a sentence to pay a fine are contained in subchapter B of chapter 229.

Subchapter D. (Imprisonment) of Chapter 227 of Title 18.—Subchapter D sets forth the basic considerations governing the imposition of sentences of imprisonment. It creates the frame of reference used to determine the applicability of sentence provisions to offenses throughout the United States Code. It deals specifically with the terms of imprisonment and supervised release authorized for the various grades of offenses, criteria for imposing such sentences, collateral aspects of sentences of imprisonment, operations of multiple sentences, and calculation of terms of imprisonment.

Section 3581 (Sentence of Imprisonment).— Section 3581 provides in subsection (a) that a defendant convicted of an offense may be sentenced to a term of imprisonment.

Subsection (b) creates nine classes of offenses: Five felony classes with authorized terms of imprisonment ranging from life imprisonment to three years, three misdemeanor classes with maximum terms ranging from one year to 30 days, and an infraction category that carries a maximum of five days imprisonment. See S. Rept. No. 97-307, pages 1034-1036.

Section 3582 (Imposition of a Sentence of Imprisonment).—Section 3582(a) specifies for the first time in the Federal criminal law the factors that a court must consider in imposing a sentence of imprisonment. These include the nature and circumstances of the offense and the history and characteristics of the defendant, the need for the sentence imposed to provide just punishment, a deterrent effect, incapacitation, and an opportunity for rehabilitation, and the guidelines and policy statements of the Sentencing Commission that apply to the case. Subsection (a) also specifies that, in light of current knowledge, the judge should recognize, in determining whether to impose a term of imprisonment, "that imprisonment is not an appropriate means of promoting correction and rehabilitation". This statement is designed to discourage the employment of a term of imprisonment on the grounds that the prison has a program that might be of benefit to the prisoner. This does not mean, of course, that, if a defendant is to be sentenced to imprisonment for other purposes, the availability of rehabilitative programs should not be an appropriate consideration, for example, in recommending a particular facility.

Subsection (b) makes clear that a judgment of conviction is final even though it includes a sentence that may be modified pursuant to the provisions of subsection (c), corrected pursuant to Rule 35 of the Federal Rules of Criminal Procedure, or appealed pursuant to section 3742.

Subsection (c) provides that a court may not modify a sentence of imprisonment unless one of three conditions warrant the use of a safety valve for modification of the sentence. The first safety valve permits the modification of the sentence in the unusual case in which the defendant's circumstances are so changed, such as by terminal illness, that it would be inequitable to continue the confinement of the prisoner. In such a case, the Director of the Bureau of Prisons could petition the court for a reduction in the sentence, and the court could grant a reduction if it found that the reduction was justified by "extraordinary and compelling reasons" and was consistent with applicable policy statements issued by the Sentencing Commission.

The second safety valve permits a defendant with an unusually long sentence, one that is over six years in length, to file a motion with the court after he has served six years of that term, for reduction of the term of imprisonment. The Director of the Bureau of Prisons may also file such a motion for the prisoner. The court may grant the motion if, after considering the factors set forth in section 3553(a), it finds that extraordinary and compelling reasons require such a reduction and that a reduction is consistent with applicable policy statements issued by the Sentencing Commission. An additional review of the sentence may be sought by a defendant with an unusually long prison term who is sentenced above the maximum applicable sentencing guideline. Such a defendant may seek a second review of his sentence after he has served the maximum applicable guideline sentence, and the same review standards apply as for the first review.

The third safety valve permits the reduction of the sentence of a defendant who was sentenced to a term of imprisonment under sentencing guidelines that was later reduced by the Sentencing Commission, if such a reduction is appropriate considering the factors set forth in section 3553(a) and if it is consistent with applicable policy statements issued by the Sentencing Commission. It is expected that the Sentencing Commission would, whenever it revised its sentencing guidelines as to a particular offense, indicate its views as to the appropriate situations, if any, which a sentence already being served should be reduced.

Subsection (d) permits the court to include in the sentence of a drug trafficker or racketeer an order that the defendant not associate or communicate with a specified person, other than his attorney, if there has been a showing of probable cause to believe that such association or communication would be for the purpose of enabling the defendant to control, manage, direct, finance, or otherwise participate in an illegal enterprise. The provision is designed to prohibit a manager of a criminal enterprise from continuing to manage that enterprise while he serves his term of imprisonment.

Section 3583 (Inclusion of a Term of Supervised Release After Imprisonment).—Section 3583 is a new section that permits the court, in imposing a term of imprisonment for a felony or a misdemeanor, to impose as part of the sentence a requirement that the defendant be placed on a term of supervised release after imprisonment. Unlike current parole law, the question whether the defendant will be supervised following his term of imprisonment is dependent on whether the judge concludes that the defendant needs supervision, rather than on the question whether part of the term of imprisonment remains at the time of the prisoner's release. The term of supervised release would be a separate part of a defendant's sentence, rather than being the end of the term of imprisonment.

Subsection (b) specifies the authorized terms of supervised release, with the terms ranging from a term of not more than one year for a defendant sentenced for a Class E felony or for a misdemeanor, to a term of not more than three years for a defendant sentenced for a Class A or B felony. The length of the term of supervised release will be dependent on the needs of the defendant for supervision rather than, as in current law, on the almost sheer accident of the amount of time that happens to remain of the term of imprisonment when the defendant is released.

Subsection (c) describes the factors that the judge is required to consider in determining whether to include a term of supervised release as a part of a sentence, and if a term of supervised release is included, the length of that term. The judge is required to consider the history and characteristics of the defendant, the nature and circumstances of his offense, the need for the sentence to protect the public from further crimes of the defendant and to provide the defendant with needed educational or vocational training, medical care, or other correctional treatment in the most effective manner, the applicable sentencing guidelines and policy statements, and the need to avoid unwarranted sentencing disparity.

Subsection (d) describes the conditions that the judge may impose on the term of supervised release. The court is required to order, as a condition of supervised release, that the defendant not commit another crime during the period of supervision. It may also order any of the conditions set forth as conditions of probation in section 3563(b)(1) through (b)(10) and (b)(12) through (b)(19), and any other condition it considers appropriate, if the condition is reasonably related to the history and characteristics of the offender and the nature and circumstances of the offense, the need for the sentence to protect the public from further crimes of the defendant, and the need to provide the defendant with needed educational or vocational training, medical care, or other correctional treatment. The condition also may not involve a greater deprivation of liberty than is necessary to protect the public and to provide needed rehabilitation or corrections programs, and must be consistent with any pertinent policy statement issued by the Sentencing Commission. For a further discussion of the available conditions of supervised release, see S. Rept. No. 97-307, pages 1010-1016.

Subsection (e) permits the court, after considering the same factors considered in the original imposition of a term of supervised release, to terminate the term of supervised release previously ordered at any time after one year or, after a hearing, to extend the term of supervised release (if less than the maximum term authorized was originally imposed) or to modify, reduce, or enlarge the conditions of release. The court may also treat a violation of a condition of supervised release as a contempt of court under 18 U.S.C. 401(3).

Subsection (f) requires the court to direct the probation officer to provide the defendant with a clear and specific statement of the conditiosn of supervised release.

Section 3584 (Multiple Sentences of Imprisonment).—This section provides the rules for determining the length of the term of imprisonment for a person convicted of more than one offense. It specifies the factors to be considered in determining whether to impose concurrent or consecutive sentences, and provides that consecutive and concurrent sentences shall be treated for administrative purposes as a single aggregate term of imprisonment.

Section 3585 (Calculation of a Term of Imprisonment).—This section provides the method of calculating the beginning of a term of imprisonment and contains provisions for crediting an offender for prior custody. Under subsection (a), the sentence commences on the date that the defendant is received into custody awaiting transportation to, or arrives voluntarily to commence service of sentence at, the official detention facility at which the sentence is to be served. Subsection (b) provides credit towards the service of an imprisonment term for any time the defendant has been in official custody prior to the date the sentence was imposed if the custody was a result of the same offense for which the sentence was imposed or was a result of a separate charge for which the defendant was arrested after commission of the current offense. No credit would be given if such time had already been credited toward the service of another sentence.

Section 3586 (Implementation of a Sentence of Imprisonment).—Section 3586 provides a cross-reference to the provisions concerning implementation of a sentence of imprisonment contained in subchapter C of chapter 229, and, if the sentence includes a term of supervised release, in the provisions of subchapter A of chapter 229.

CHAPTER 229—POST-SENTENCE ADMINISTRATION

Chapter 229 consists of three subchapters which cover the administration of the various types of sentences imposed under subchapters B, C, and D of chapter 227. Subchapter A of chapter 229 provides for the appointment of probation officers and sets forth their duties. In addition, it provides for special probation and record expungement procedures for drug possession offenses. Subchapter B covers the payment and collection of fines which may be imposed under chapter 227. Subchapter C sets forth the procedures governing prison terms.

Subchapter A (Probation) of Chapter 229 of Title 18.—This subchapter contains the provisions for implementation of a sentence to probation pursuant to subchapter B of chapter 227, the placement of juvenile delinquents on probation, and the placement of an individual on supervised release pursuant to section 3583. The subchapter, for the most part, carries forward current law concerning the appointment of probation officers by the court and the powers and duties of probation officers.

Section 3601 (Supervision of Probation).—Section 3601 requires that a person sentenced to a term of probation under subchapter B of chapter 227, or placed on probation pursuant to the provisions of chapter 403, or placed on supervised release pursuant to the provisions of section 3583, be supervised by a probation officer to the degree warranted by the conditions specified by the sentencing court.

Section 3602 (Appointment of Probation Officers).—Section 3602 is largely derived from current 18 U.S.C. 3654. Subsection (a) requires each district court of the United States to appoint suitable and qualified persons to serve with or without compensation as probation officers under the direction of the court. Those appointed with compensation are removable by the court for cause, rather than removable at the discretion of the court as in current law. The change was made upon the recommendation of the Probation Committee of the Judicial Conference. Voluntary probation officers serving without compensation remain subject to removal at the discretion of the court. The requirement that probation officers be "qualified" as well as "suitable" is added to the law in order to emphasize that probation officers who will be supervising innovative conditions of probation permitted under the probation subchapter should be qualified by their training or background to be probation officers. There may even be circumstances in which a probation officer should be a specialist who might be made available,

as the need arose, to any one of several courts. For example, such a probation officer might be needed if a union or brokerage house, rather than a street criminal, were under supervision.

Section 3603 (Duties of Probation Officers).—Section 3603 carries forward the provisions of current 18 U.S.C. 3655 relating to the duties of probation officers with respect to supervision of probationers and the keeping of records and making of reports, and modifies the provisions to cover persons released from prison on supervised release pursuant to section 3583. The section includes a number of specific requirements not in current law, including the requirements that the probation officer be responsible for supervision of any probationer or person under supervised release known to be within the judicial district (in order to clarify supervisory authority over probationers and persons on supervised release transferred into his district or temporarily present in the district), and that, when requested, the probation officer supervise and furnish information about persons on work release, furlough, or other authorized release or in pre-release custody pursuant to section 3624(c).

Section 3604 (Transportation of a Probationer).—This section carries forward the provisions of current 18 U.S.C. 4283 permitting a court to order a United States marshal to furnish to a person placed on probation transportation to the place where he is required to go as a condition of probation. The provision also removes the dollar limitation on the amount of subsistence expenses that may be paid for a probationer while traveling to his destination, substituting a provision that permits the Attorney General to prescribe reasonable subsistence payments.

Section 3605 (Transfer of Jurisdiction Over a Probationer).—Section 3605, relating to transfer of jurisdiction over a probationer or person on supervised release from one court to another, is derived from current 18 U.S.C. 3653. Both current law and section 3605 require the concurrence of the court receiving jurisdiction over a probationer to the transfer of jurisdiction. Section 3605 expands current law to cover persons on supervised release and provides that the transfer of a probationer or a person on supervised release to another district may be made either as a condition of probation or supervised release or with the permission of the court, unlike current law which provides for transfer of a probationer only "from the district in which he is being supervised". The section would also permit a court to which jurisdiction over a probationer or a person on supervised release was transferred to exercise all the powers over the probationer or release that are permitted by this subchapter and subchapter B of chapter 227. This differs from current law, which requires the consent of the sentencing court to a change in the period of probation. See S. Rept. No. 97-307, pages 1233 and 1234.

Section 3606 (Arrest and Return of a Probationer).—Section 3606 continues the provisions of current 18 U.S.C. 3653 which authorize the arrest and return of a probationer to the court having jurisdiction over him if he violates a condition of probation, and expands the provisions to refer to persons on supervised release pursuant to section 3583. See S. Rept. No. 97-307, page 1234.

Section 3607 (Special Probation and Expungement Procedures for Drug Possessers).—Section 3607 carries forward the provisions of 21 U.S.C. 844(b) relating to special probation without entry of judgment for a first offender found quilty of violating the drug possession statute if the offender has not previously been convicted of an offense under a federal or State law relating to controlled substances. The section also permits, as does current law, expungement of records for persons placed on probation under the section if they were under the age of 21 at the time of the offense and did not violate a condition of probation.

Subchapter B (Fines) of Chapter 229 of Title 18.—This subchapter is designed to increase the efficiency with which the government collects fines assessed against criminal defendants. Present law, 18 U.S.C. 3565, provides that a criminal fine judgment "may be enforced by execution against the property of the defendant in like manner as judgments in civil cases". Thus, the federal government is greatly confined by State law and must litigate in order to collect a fine from an uncooperative defendant. These relatively cumbersome procedures have resulted in collection by the United States in recent years of only 60 to 70 percent of the amount of fines imposed. This subchapter attempts to remedy this situation by treating criminal fine judgments like tax liens for collection purposes, thereby making available to the Attorney General summary collection procedures similar to those used by the Internal Revenue Service. Foremost among these is the power to administratively levy against the property of the defendant, which precludes dispostion of the property to avoid payment and permits realization of the amount of the fine without litigation.

Section 3611 (Payment of a Fine).—Section 3611 provides for the payment of a fine imposed under subchapter C of chapter 227 to the clerk for the sentencing court to be forwarded to the United States Treasury. The seciton requires either immediate payment or payment by the time and method specified by the sentencing court.

Section 3612 (Collection of an Unpaid Fine).—Section 3612 requires the sentencing court, whenever a fine is imposed, to provide the Attorney General with certain certified information. The Attorney General is then responsible for collecting the fine if it is not paid at the time required. See S. Rept. No. 97-307, page 1236.

Section 3613 (Lien Provisions for Satisfaction of an Unpaid Fine).—Section 3613 establishes the procedure by which the Attorney General is to make collection of unpaid fines. This section significantly improves current practices by providing a federal collection procedure independent of State laws that is patterned on the collection procedures utilized by the Internal Revenue Service.

Subsection (a) eliminates the clerical procedures necessary to create judgment liens, by providing that the fine is a lien in favor of the United States upon all property belonging to the person fined. The lien arises at the time of the entry of judgment and continues until the liability has been satisfied or set aside, or until it becomes unenforceable pursuant to subsection (b). See S. Rept. No. 97-307, page 1238. Subsection (a) permits the defendant to apply for release of a lien upon payment of a bond by the defendant or for a discharge of part of a lien if the Attorney General determines that a lien remains on property worth at least three times the amount of the fine.

Subsection (b) changes current law by imposing a 20-year statute of limitations on collection of a criminal fine. Under existing law, the government's right to seek execution of a criminal sentence, including a fine, is not subject to any time limit. Thus a criminal fine may be satisfied only through payment in full, death of the debtor, or presidential pardon. The limitation period established by subsection (b) will permit the closing of a file by United States attorneys for a case that is so old that the collection of a fine is unlikely. The period for collection may be extended by a written agreement entered into by the defendant and the Attorney General prior to expiration of the period, as is permitted in similar provisions in the tax area. Subsection (b) also provides that the running of the 20-year statute of limitations is to be suspended "during any interval for which the running of the period of the limitation for collection of a tax would be suspended" pursuant to several provisions of the tax laws.

Subsection (c) provides that certain sections of the Internal Revenue Code of 1954, as amended, apply to a fine and to the lien imposed under subsection (a) as if the liability of the person fined were for an internal revenue tax assessment, except to the extent that the application of such statutes is modified by regulations issued by the Attorney General to accord with differences in the nature of the liabilities. See S. Rept. No. 97-307, pages 1239-1242 for a description of those provisions.

Subsection (d) provides that a notice of a lien imposed under subsection (a) is to be considered a notice of a lien for taxes payable to the United States for the purpose of any State or local law providing for the filing of the notice of a tax lien.

Subsection (e) permits the use of the current law mechanism for enforcing fines as though they were civil judgments as an alternative to the lien-type enforcement mechanism.

Subsection (f) makes clear that a discharge of debts in bankruptcy does not render a fine unenforceable or discharge liability to pay a fine.

Subchapter C (Imprisonment) of Chapter 229 of Title 18.—Subchapter C contains the provisions for implementation of a sentence of imprisonment imposed under subchapter D of chapter 227. The subchapter generally follows existing law, except that custody of federal prisoners is placed in the Bureau of Prisons directly rather than in the Attorney General, thus giving the Bureau of Prisons direct authority to determine matters, such as the place of confinement of a prisoner, which are presently determined by the Attorney General. The subchapter also substantially revises the method by which the release date of an imprisoned person is determined.

Section 3621 (Imprisonment of a Convicted Person).—This section is derived from existing law.

Subsection (a) is derived from 18 U.S.C. 4082(a) except that the new provisions places custody of federal prisoners directly in the Bureau of Prisons rather than in the Attorney General. See S. Rept. No. 97-307, page 1243.

Subsection (b) changes existing law to provide that the authority to designate the place of confinement for federal prisoners rests in the Bureau of Prisons rather than in the Attorney General. The designated penal or correctional facility need not be in the judicial district in which the prisoner was convicted and need not be maintained by the federal government. Subsection (b) adds a new requirement that a facility meet

minimum standards of health and habitability established by the Bureau of Prisons.

Subsection (c) provides for delivery of an order of commitment to the person in charge of the facility to which a prisoner has been sent by court order, and for the original order to be returned to the court with the return endorsed.

Subsection (d) requires the United States marshal to bring a prisoner to court or return him to prison upon order of the court or written request of an attorney for the Government.

Section 3622 (Temporary Release of a Prisoner).—Section 3622 is derived from current 18 U.S.C. 4032(c), and permits temporary release of a prisoner by the Bureau of Prisons for specified reasons. The only criterion for such release in current law is that there be "reasonable cause to believe . . . [the prisoner] will honor his trust." Under section 3622, the release would also have to appear to be consistent with the purposes for which the sentence was imposed, with any pertinent policy statements of the Sentencing Commission, and with the public interest. This places emphasis on factors important to the overall correctional program for the defendant, rather than limiting the factors to be considered to the probability of the prisoner's return to the facility at the appropriate time. In addition to the current law list of purposes for which a prisoner may be released, such as attending a funeral or working at paid employment or participating in a training program in the community on a voluntary basis, subsection (b) includes a new provision permitting temporary release to participate in an educational program, to make it clear that release may be for such things as pursuing a course of study in college as well as for vocational training. Subsection (c), relating to employment, modifies current law (18 U.S.C. 4082(c)(2)) by dropping the requirement that local unions be consulted and a provision barring work release where other workers might be displaced. This will give the Bureau of Prisons more flexibility than provided in current law in developing work programs in appropriate cases. See S. Rept. No. 97-307, page 1245.

Subsection (c) carries forward the provisions of current law that require that work in the community must be at the same rate and under the same conditions as for similar employment in the community involved. Subsection (c)(2) amends current law to require that a prisoner pay costs incident to his detention as condition of work release.

Section 3623 (Transfer of a Prisoner to State Authority).—Section 3623 delineates the circumstances under which the Director of the Bureau of Prisons must order the transfer of a federal prisoner to a State facility prior to his release from the federal facility. Like current 18 U.S.C. 4085, section 3623 provides that the Director of the Bureau of Prisons must order that a prisoner be transferred to an official detention facility within a State prior to the prisoner's release from the federal prison if certain requirements are satisfied. First, the prisoner must have been charged in an indictment or in an information with a felony or have been convicted of a felony in that State. Second, the transfer must have been requested by the governor or other executive authority of the State. Next, the State must send to the Director, usually along with the request, a certified copy of the indictment, information, of judgment of conviction. Finally, the Director must find that the transfer would be in the public interest. See S. Rept. No. 97-307, pages 1245-1246. Finally, the section provides that the costs of transferring a prisoner to a State authority will be borne by the State requesting the transfer.

Section 3624 (Release of a Prisoner).—Section 3624(a) describes the method by which the release date of a prisoner is determined. It replaces a confusing array of statutes and administrative procedures concerning the determination of the date of release of a prisoner. Perhaps the most confusing aspect of the current law provisions is that, for a regular adult prisoner whose term of imprisonment exceeds one year, there are two mechanisms for determining the release date, each of which requires recordkeeping and constant evaluation of prisoner eligibility for release. The prisoner is ultimately released on the earlier of the two release dates that results from the parallel determinations. First, current 18 U.S.C. 4163 requires that a prisoner who has not been released earlier, for example, on parole, must be released at the expiration of this sentence less credit for good conduct. For a prisoner whose term of imprisonment exceeds one year in length, at the same time that the Bureau of Prisons is keeping records on good time allowances, the United States Parole Commission is periodically evaluating whether the prisoner should be released on parole. (Other release date statutes apply to prisoners who are serving less than one year in prison.) See S. Rept. No. 97-307, page 1247. Subsection (a) replaces the multiplicity of release date statutes with a single provision that describes the mechanism for setting release dates. It provides that a prisoner is to be released at the expiration of his term of imprisonment less any credit toward the service of his sentence for satisfactory prison behavior accumulated pursuant to subsection (b). Thus, as discussed in the introduction, every sentence to a term of imprisonment will represent the actual time to be served less good time. There will be no artificially high sentences to allow for the operation of the parole system, which has no role as to prisoners sentenced under the revised statute. A prisoner may be subject on release to a term of supervised release pursuant to section 3583 if his term of imprisonment exceeds one year in length and his sentence includes a term of supervised release.

Subsection (b) contains the provisions concerning the earning of credit toward early release for satisfactory prison behavior. It applies only to persons who are sentenced to terms of imprisonment longer than one year, except those sentenced to life imprisonment. The provision also substantially simplifies the computation of credit toward early release over the computation required under current law. See S. Rept. No. 97-307, page 1249.

Subsection (c) is new. It provides that, to the extent practicable, the last ten percent of the term of imprisonment, not in excess of six months, should be spent in circumstances that afford the prisoner a reasonable opportunity to adjust to and prepare for reentry into the community. The Bureau of Prisons would have discretion to determine what opportunity for reentry needs to be made available in each case. The probation system is required, to the extent practicable, to offer assistance to prisoners at this prerelease stage.

Subsection (d), relating to the allotment of clothing, transportation, and funds to a prisoner at the expiration of his term of imprisonment, amends current law to increase to $500 the amount of money furnished to a prisoner, and to omit prisoners for loans to prisoners. The loan provisions in existing law have not proved successful, having caused greater administrative costs and difficulties than the amount of money involved justifies. The Director of the Bureau of Prisons is to determine the amount of money to be given to each prisoner, and a new provision is added to require that the determination be made in accord with the public interest and the needs of the prisoner.

As in current law, the prisoner must be furnished transportation to one of three places: (1) the place of conviction; (2) his bona fide residence within the United States; or (3) any other place designated by the Director of the Bureau of Prisons.

Subsection (e) provides that a prisoner whose sentence includes a term of supervised release shall be released to the supervision of a probation officer. It also specifies that the term of supervised release begins on the date of release and runs concurrently with any other term of supervised release, probation, or parole unless the person is in prison other than for a brief period as a condition of probation or supervised release.

Section 3625 (Inapplicability of the Administrative Procedure Act.)—This section makes clear that certain of the provisions of the Administrative Procedure Act do not apply to any determination, decision, or order of the Bureau of Prisons. This result is in accord with recent case law, and will assure that the Bureau of Prisons is able to make decisions concerning the appropriate facility, corrections program, and disciplinary measures for a particular prisoner without constant secondguessing. The provision, of course, would not eliminate constitutional challenges by prisoners under the appropriate provisions of law. The phrase "determination, decision, or order" in the provision is intended to mean adjudication of specific cases as opposed to general rulemaking.

Section 202(a)(3).—Section 203(a)(3) replaces references to parole in current restitution provision with references to supervised release and authorizes enforcement of restitution orders in the same manner as fines are enforced.

Section 202(a)(4).—Section 202(a)(3) adds a new section 3671 at the end of chapter 232 of title 18, United States Code. The section contains definitions of the terms "found guilty", "commission of an offense", and "law enforcement officer", for use in the sentencing provisions contained in chapters 227 and 229 of title 18, United States Code.

Section 202(a)(5) of the bill enacts the caption and section analysis for new chapter 232 of title 18, United States Code, the chapter that is created by section 202(a)(1) of the bill.

Section 202(b) amends the chapter analysis of Part II of title 18.

Section 203.

Section 203(a) adds to chapter 235 of title 18 a new section 3742, which relates to appellate review of sentencing. The section describes the circumstances in which a defendant or the government can appeal a sentence in the federal criminal justice system. Under subsection (a) the defendant can file a notice of appeal in the district court for review of an otherwise final sentence if the sentence was imposed in violation of law, was imposed as a result of an incorrect application of the guidelines, or is greater than the sentence specified in the guidelines and not consistent with a plea agreement

and was unreasonable. Similarly, under subsection (b), the government may appeal a sentence that was imposed in violation of law, imposed as a result of an incorrect application of the sentencing guidelines, or is less than the applicable guidelines and not consistent with a plea agreement. Before the government may appeal a sentence, the Attorney General or the Solicitor General must personally approve the filing of a notice of appeal. For a discussion of the constitutionality of government appeal of sentences, see S. Rept. No. 97-307, pages 1226-27. Provision is also made for appeal of a sentence if there is no guideline for the provision of law that the defendant is found quilty of violating.

It should be noted that, under current law, there is specific authority in Rule 35 of the Federal Rules of Criminal Procedure for the trial judge to correct an illegal sentence. In order to be sure that all sentencing issues can be raised in a single proceeding, a proceeding which goes beyond the appellate review of sentencing provided in current law, the bill combines review of issues relating to illegality of sentences with all other issues relating to sentencing. If the trial judge were to discover that he had made an error in a sentence that made it illegal, he could notify the counsel for the defendant and the counsel for the government in order to permit them to raise that issue as part of any sentencing appeal they may file.

Subsection (c) of section 3742 describes the record on which the appeal is based.

Subsection (d) requires the court of appeals to determine upon review of the record whether the sentence was imposed in violation of law, imposed as a result of incorrect application of the sentencing guidelines, or, if it is outside the range of the applicable sentencing guideline, is unreasonable. Under subsection (e), if the court of appeals determines that the sentence was imposed in violation of law or imposed as a result of an incorrect application of the sentencing guidelines, it is required to remand the case for further sentencing proceedings or to correct the sentence. If the court determines that the sentence is outside the range of the applicable sentencing guidelines and is unreasonable, it is required to state specific reasons for its conclusions and to remand the case or correct the sentence. If the sentence was appealed by the defendant and is too high, the court may remand the case for further sentencing proceedings or for imposition of a lower sentence, or impose a lesser sentence itself. If the sentence was appealed by the government and is too low, the court may remand the case for further sentencing proceedings or for imposition of a higher sentence, or impose a higher sentence itself. If none of these is found by the court of appeals, the court, of course, would affirm the sentence.

Section 203(b) makes a technical correction in the sectional analysis of chapter 235.

Section 204.

Section 204 amends chapter 403 of title 18, United States Code, relating to juvenile delinquency.

Section 204(a) of the bill amends section 5037 of title 18, United States Code, by replacing current subsections (a) and (b), relating to disposition after a finding of juvenile delinquency, with the disposition provisions from S. 1630, 97th Cong. See S. Rept. No. 97-307, pages 1184-1189.

Under subsection (a), if the court finds that a juvenile is a juvenile delinquent, the court is required to hold a disposition hearing within 20 court days after the juvenile delinquency hearing. After the disposition hearing, the court may suspend the finding of juvenile delinquency, enter an order of restitution pursuant to section 3556, place the juvenile on probation, or commit him to official detention. The provisions of chapter 207 of title 18 are specifically made applicable to the decision whether to release or detain the juvenile pending an appeal or a petition for a writ of certiorari after the disposition.

Subsection (b) sets forth the probation terms for juveniles. If the juvenile is less than 18 years old, the probation term may not extend beyond the date when the juvenile becomes twenty-one or the maximum term that would be authorized under the adult probation statute if the juvenile had been tried and convicted as an adult. If the juvenile is between 18 and 21, the probation may not extend beyond three years or the maximum that would be authorized for an adult, whichever is less.

Subsection (c) provides the maximum periods for official detention of a juvenile found to be a juvenile delinquent. For juveniles between the age of 17 and 21 at the time of the proceeding, the bill specifies that the term of official detention for a Class A, B, or C felony is a maximum of five years and for any other offense the maximum term is the lesser of three years or the maximum sentence applicable to an adult offender.

Section 204(b) repeals section 5041 of title 18, United States Code, in light of the abolition of the parole system in federal law.

Section 204(c) amends section 5042 of title 18 by striking our references to parole and parolees.

Section 204(d) amends the sectional analysis of chapter 403 of title 18 to accord with the other amendments made by section 204.

Section 205.

Section 205 of the bill contains a number of amendments to the Federal Rules of Criminal Procedure that are necessitated by the amendments to the sentencing provisions.

Section 205(a) amends Rule 32 in several respects. First, it amends subdivision (a)(1) of the Rule to require that, before the sentencing hearing, the court make available to counsel for the defendant and the attorney for the government notice of the probation officer's determination, pursuant to the revised provisions of subdivision (c)(2)(B), as to the sentencing classification and sentencing guidelines range believed to be applicable to the case. The sentencing hearing will then focus on any questions that arise as to the accuracy of the probation officer's determination. In addition, the subdivision is amended to permit the postponement of imposition of sentence for a reasonable time, upon a motion jointly filed by the defendant and by the attorney for the government that asserts that a factor important to the determination is not capable of being resolved at that time. The purpose of this amendment is to permit the sentencing determination to be delayed somewhat if, for example, the cooperation of the defendant with the government in prosecution of another person is a factor in the sentencing guidelines and delay of sentencing is necessary to assure that such cooperation actually occurs.

Subdivision (c)(1) is amended to require that a probation officer make a presentence investigation and report before imposition of sentence unless the court finds that there is in the record information sufficient to enable the meaningful exercise of sentencing authority pursuant to 18 U.S.C. 3553. This change is necessitated by the fact that it is essential that the judge have all the information he needs in order to accurately apply the sentencing guidelines.

Subdivision (c)(2) of Rule 32 is amended to spell out in some detail the information that should be included in the presentence report in order to assure the accurate application of the guidelines. This amendment assures that the information relating to the requirements of the sentencing guidelines system is contained in the presentence report. See S. Rept. No. 97-307, pages 1303-1304.

Section 205(b) amends Rule 35 of the Federal Rules of Criminal Procedure in order to accord with the provisions of proposed section 3742 of title 18 concerning appellate review of sentence. New subdivision (a) requires the court to correct a sentence that is determined on appeal under 18 U.S.C. 3742 to have been imposed in violation of law, to have been imposed as a result of an incorrect application of the guidelines, or to be unreasonable. New subdivision (b) permits the court, on motion of the government, to lower a sentence within one year after its imposition to reflect a defendant's subsequent, substantial assistance in the investigation or prosecution of another person who has committed an offense, to the extent that such assistance is a factor in applicable guidelines or policy statements issued by the Sentencing Commission.

Section 205(c) amends Rule 38 of the Federal Rules of Criminal Procedure in order to make technical changes necessitated by the enactment of provisions for appellate review of sentence. See S. Rept. No. 97-307, page 1306. Section 205(c) also adds two new subdivisions to Rule 38. New subdivision (e) relates to the stay of an order of criminal forfeiture, notice to victims, or restitution, if an appeal of the conviction or sentence is taken. New subdivision (f) of Rule 38 provides for the stay of a civil or employment disability that arises under a federal statute by reason of the defendant's conviction or sentence if an appeal is taken from the conviction or sentence.

Section 205(d) makes a correction in a cross-reference in Rule 40 of the Federal Rules of Criminal Procedure.

Section 205(e) amends Rule 54 to redefine the term "petty offense" in subdivision (c) to refer to the grading of offenses prescribed by proposed section 3583 of title 18.

Section 205(f) amends the table of rules of the Federal Rules of Criminal Procedure to accord with the other amendments to the rules.

Section 206.

Section 206 adds a definition of "petty offense" to the Rules of Procedure for the Trial of Misdemeanors Before United States Magistrates to take into account the new grading structure for federal offenses.

Section 207.

Section 207(a) adds a new chapter 58 to title 28 of the United States Code. That chapter creates the United States Sentencing Commission and outlines its functions.

CHAPTER 58 OF TITLE 28—UNITED STATES SENTENCING COMMISSION

Section 991 (United States Sentencing Commission; Establishment and Purpose)—Proposed section 991 of title 28, United States Code, creates the United States Sentencing Commission and spells out its purposes. The Commission is established as an independent commission in the judicial branch consisting of seven voting members

appointed by the President by and with the advice and consent of the Senate. The Attorney General, or his designee, is an ex officio non-voting member of the Commission.

Under subsection (b), the purposes of the Sentencing Commission are to establish sentencing policies and practices for the federal criminal justice system that assure the meeting of the purposes of sentencing, provide certainty and fairness in meeting those purposes, avoid unwarranted sentencing disparities among defendants with similar records who have been found guilty of similar criminal conduct, and reflect, to the extent practicable, the advancement in knowledge of human behavior as it relates to the criminal justice process. In addition, subsection (b) requires justice process. In addition, subsection (b) requires the Commission to develop means of measuring the degree to which sentencing, penal, and correctional practices are effective in meeting the purposes of sentencing. See S. Rept. No. 97-307, pages 1327-1330.

Section 992.—Terms of Office; Compensation.

Proposed section 992 of title 28, United States Code, sets out, in subsection (a), a system of staggered appointments for the Chairman and voting members of the Commission such that, once in operation, the Commission membership will be replaced or reappointed over a period of six years—at least two members, or one member and the Chairman, every two years. Subsection (b) of proposed section 992 provides that a voting member may serve no more than two full terms and that a member appointed to serve an unexpired term shall serve only the remainder of the term. Subsection (c) provides for a full time commission until six years after the effective date of the first comprehensive set of guidelines. Thereafter only the chairman would be a full time commissioner. This subsection also sets the compensation for the commission members and expressly provides that a Federal judge may serve as a member of the Commission without resigning his appointment as a Federal judge. See S. Rept. No. 97-307, p. 1331.

Section 993.—Powers and Duties of Chairman.

Proposed section 993 of title 28 provides that the Chairman, who is appointed as such by the President with the advice and consent of the Senate, is to call and preside at meetings, and to direct the preparation of appropriations requests and the use of funds made available to the Commission.

Section 994—Duties of the Commission.

Proposed section 994 of title 28 spells out the duties of the Sentencing Commission.

Subsection (a) requires the Sentencing Commission to promulgate sentencing guidelines and policy statements to be used by the sentencing judge in determining the appropriate sentence in a particular case. The sentencing guidelines and policy statements are to be promulgated pursuant to the rules and regulations of the Sentencing Commission and to be consistent with all pertinent provisions of titles 18 and 28. Guidelines and policy statements must be adopted by an affirmative vote of at least four members of the Commission.

Under subsection (a)(1)(A), the guidelines are required to provide guidance for the judge in determining whether to sentence a convicted defendant to probation, to pay a fine, or to a term of imprisonment. See S. Rept. No. 97-307, pages 1331-1333.

Subsection (a)(1)(B) requires that the sentencing guidelines recommend an appropriate amount of fine or appropriate length of a term of probation or imprisonment. In recommending an appropriate fine, the Commission could, of course, provide a formula or a set of principles for determining an appropriate fine relative to the damage caused, the gain to the defendant, or the ability of the defendant to pay, consistent with these flexibility possible because of the high maximum fines set forth in chapter 227 of title 18, rather than specifying a specific dollar amount.

Subsection (a)(1)(C) requires that the sentencing guidelines recommend whether a category of defendant convicted of a particular offense who is sentenced to a term of imprisonment should be required to serve a term of supervised release, and if so, what length of term is appropriate.

Finally, subsection (a)(1)(D) requires that the sentencing guidelines include recommendations as to whether sentences to terms of imprisonment should be ordered to run concurrently or consecutively.

Under subsection (a)(2), the Commission is required to issue general policy statements concerning application of the guidelines and other aspects of sentencing and sentence implementation that would further the ability of the federal criminal justice system to achieve the purposes of sentencing. Policy statements are required to address the questions of the appropriate use of the sanctions of order of criminal forfeiture, order of restitution, and order of notice to victims; conditions of probation and supervised release; sentence modification provisions for fines, probation, and imprisonment; authority under Rule 11(e)(2) of the Federal Rules of Criminal Procedure to accept or reject a plea agreement; and temporary release under section 3622 of title 18 and pre-release custody under section 3624(c) of title 18. These policy statements could also address, for example, such questions as the appropriateness of sentences outside the guidelines where there exists a particular aggravating or mitigating factor which does not occur sufficiently frequently to be incorporated in the guidelines themselves.

The policy statements might also address such issues as the kind of recommendations a judge might make pursuant to section 3582(a) of title 18 to the Bureau of Prisons as to an appropriate prison facility for a defendant committed to its custody. One important function of the policy statements might be to alert federal district judges to existing disparities which have not adequately been cured by the guidelines, while offering recommendations as to how these situations should be treated in the future. Another area in which the Sentencing Commission might wish to issue general policy statements concerns the imposition of sentence upon organizations convicted of criminal offenses. See S. Rept. No. 97-307, page 1334.

Under subsection (a)(3) of section 994, the Sentencing Commission is required to issue either guidelines or policy statements concerning the appropriate use of probation revocation under section 3565 of title 18, and of the provisions for modification of the term or conditions of probation or supervised release set forth in sections 3563(c), 3564(d), and 3583(e) of title 18.

Under subsection (b) of proposed section 994, the Commission is to devise categories based on characteristics of the offense and categories based on characteristics of the offender. For each combination of a category of offense and a category of offender, a sentence or sentencing range is to be recommended that is consistent with all pertinent provisions of title 18 of the United States Code. This subsection contemplates a detailed set of sentencing guidelines, to be used as indicated in subsection (a) and in chapter 227 of title 18, as amended by this bill, that are designed to achieve the purposes of sentencing set forth in title 18. The subsection further requires that, if the guidelines recommend a term of imprisonment for a particular combination of offense and offender characteristics, the maximum of the sentencing range recommended may not exceed the minimum of that range by more than 25 percent. See S. Rept. No. 97-307, page 1336.

Subsection (c) of proposed section 994 lists a number of offense characteristics which the Sentencing Commission is required to examine for the purpose of determining whether and to what extent they are pertinent to the establishment of categories of offenses for use in the sentencing guidelines and policy statements dealing with the nature, extent, location, or other incidents of an appropriate sentence. The Commission is required to determine whether and to what extent each factor might be pertinent to the kind of sentence that should be imposed; the size of the fine or the length of a term of probation, imprisonment, or supervised release; and the conditions of probation, supervised release, or imprisonment. The Sentencing Commission may conclude, with respect to any of the listed factors, that, for example, the factor should not play a role at all in sentencing for a particular purpose. The Sentencing Commission is also required under subsection (c) to determine whether other factors not specifically listed are relevant to the sentencing decision. For a detailed discussion of the various factors the Commission is required to consider, see S. Rept. No. 97-307, pp. 1337-1339.

Subsection (d) of proposed section 994 contains a list of a number of offender characteristics that the Sentencing Commission is required to examine in order to determine whether and to what extent they are pertinent to the establishment of categories of offenders for use in the sentencing guidelines and policy statements concerning the nature, extent, location, or other incidents of an appropriate sentence. The subsection parallels subsection (c) in its description of the issues that the Commission is required to examine. It also contains a specific provision that "The Commission shall assure that the guidelines and policy statements are entirely neutral as to race, sex, national origin, creed, and socioeconomic status of offenders."

Subsection (d)(1) specifies that the Commisson should consider what effect the age of the defendant should have on the sentencing decision. The factor derives in part from the fact that under the Youth Corrections Act and the young adult offender provisions in current law, the youth of an offender frequently plays a role in the sentencing decision. This role may, depending upon the way in which the current law provisions are applied, result in a more harsh or less harsh sentence than a regular adult offender would receive for the same offense committed under similar circumstances. The provision of subsection (d)(1) is intended to require that consideration of youth in determining the appropriate sentence be employed in a more rational and consistent way than it is today. Accordingly, the bill repeals the Youth Corrections Act and the young adult offender sentencing provisions and requires the Sentencing Commission to

consider, in promulgating the sentencing guidelines and policy statements, what effect age—including youth, adulthood, and old age—should have on the nature, extent, location, and other incidents of an appropriate sentence. For a discussion of the other factors listed in subsection (d), see S. Rept. No. 97-307, pages 1340-1342.

Subsection (e) specifically requires that the Sentencing Commission ensure that the sentencing guidelines and policy statements reflect the "general inappropriateness" of considering education, vocational skills, employment record, family ties and responsibilities, and community ties of the defendant in recommending a term of imprisonment or the length of a term of imprisonment. See S. Rept. No. 97-307, page 1342.

Subsections (f) through (m) contain a number of provisions giving general guidance to the Sentencing Commission on the considerations that the Congress believes to be appropriate in establishing the sentencing guidelines. Subsection (f) emphasizes the importance of providing certainty and fairness in sentencing and reducing unwarranted sentencing disparities. Subsection (g) requires the Commission to take into account the nature and capacity of the penal, correctional, and other facilities and services available to the federal criminal justice system and make recommendations concerning any change of expansion that might become necessary as a result of the sentencing guidelines. Subsection (h) requires the Commission to assure a term of imprisonment at or near the maximum authorized term for adult habitual violent and drug offenders. Subsection (i) requires that the Commission guidelines specify a sentence to a substantial term of imprisonment for serious repeat offenders, career criminals, and drug traffickers. Subseciton (j) indicates that it is generally appropriate for the guidelines to reflect no sentence of imprisonment in cases in which a defendant is a first offender who has not been convicted of a crime of violence or an otherwise serious offense, and, conversely, that the guidelines reflect the general appropriateness of imposing a sentence of imprisonment in a case involving a crime of violence that results in serious bodily injury. The words "general appropriateness" are intended to make clear that there may be exceptions to this general statement, and that it is intended only to provide general guidance to the Sentencing Commission. Subsection (k) requires that the guidelines reflect the inappropriateness of imposing a sentence to a term of imprisonment for the purpose of rehabilitating the defendant or providing the defendant with needed educational and vocational training, medical care, or other correctional treatment. Subsection (l) is designed to ensure that the guidelines reflect the appropriateness or imposing incremental penalties for multiple offenses, and the general inappropriateness of imposing consecutive terms for a conspiracy or solicitation and for the offense that was the sole object of the conspiracy or solicitation. Subsection (m) requires the Commission to insure that the guidelines reflect the fact that, in many cases, current sentences do not accurately reflect the seriousness of offenses and, as a starting point, to review the average sentences imposed in categories of case under current practices, including the average term of imprisonment. The subsection also makes clear that the Commission is not bound by these averages.

Subsection (n) requires the Commission periodically to update its guidelines and to consult with a variety of interested institutions and groups. This revision and refinement of the guidelines will represent the bulk of the Commission's work once the initial guidelines and policy statements are promulgated. The provision mandates that the Commission constantly monitor the implementation of the guidelines in order to determine whether unwarranted sentencing disparity is effectively being avoided. The subsection complements appellate review of sentence by providing effective oversight as to how well the guidelines are working. The oversight would not involve any role for the Commission in second-guessing individual judicial sentencing actions either at the trial or appellate level. Rather, it would involve an examination of the overall operation of the guideline system to determine whether the guidelines are being effectively implemented and to revise them if for some reason they fail to achieve their purposes.

Subsection (o) requires that proposed amendments to the guidelines, and a statement of reasons for the amendments, be reported to the Congress at or after the beginning of a session of Congress but no later than the first of May. It provides that the amendments will take effect 180 days after the Commission reports them, except to the extent that the effective date is enlarged or the guidelines are disapproved or modified by Act of Congress. The provision is modeled after section 3771 of title 18, United States Code, relating to amendments to the Federal Rules of Criminal Procedure.

Subsection (p) requires the Sentencing Commission and the Bureau of Prisons to conduct a thorough analysis of the optimum utilization of resources to deal with the federal prison population, and to report to the Congress on the results of that study.

Subsection (q) requires the Commission to make recommendations to the Congress concerning raising or lowering of grades for offenses, or otherwise modifying the maximum penalties for offenses. This provision is especially important in light of the fact that the sentencing provisions are now contained in an amendment to title 18 that does not revise the definitions of offenses and regrade them according to their relative seriousness. Thus, it is probable that the Commission will find in promulgating its guidelines that the maximum sentences for some offenses do not adequately reflect the relative seriousness of those offenses, with some maximum sentences being too high relative to those for similar offenses while others are too low. It is expected that the Commission will promulgate its guidelines according to what it believes the sentences should be for a given combination of offense and offender characteristics, and if such recommendation necessitates an amendment of the statutory maximum sentence for a particular offense, it will recommend such a change.

Subsection (r) requires the Sentencing Commission to give "due consideration" to a request by a defendant for modification of the sentencing guidelines applied to his case. The Commission is required to respond, to state reasons for any declination to make modifications, and to keep the Congress informed of such actions on an annual basis.

Subsection (s) requires the Commission to describe the "extraordinary and compelling reasons" that would justify a reduction of a particularly long sentence pursuant to section 3582(c)(2) of title 18. The subsection specifically states, consistent with the rejection of the rehabilitation theory as the basis for determining the length of a term of imprisonment, that "rehabilitation of the defendant alone shall not be considered an extraordinary and compelling reason" for reducing the sentence.

Subsection (t) requires the Sentencing Commission, in reducing sentence for a particular category of offense, to specify by what amount the sentence of a prisoner sentenced outside the guidelines might be reduced if the person was sentenced before the reduction. This specification would then be used by the court in assessing a prisoner's petition pursuant to section 3582(c)(3).

Subsection (u) provides that the policy statements issued by the Sentencing Commission shall include a policy limiting consecutive terms for an offense involving violation of a general prohibition and an offense involving a specific prohibition contained within the general prohibition. The policy is intended to apply to those offenses which are, in effect, "lesser-included offenses" in relation to other, more serious ones, but which for merely technical reasons do not quite come within the definition of a lesser-included offense.

Subsection (v) provides that the appropriate judge or officer will supply the Sentencing Commission in each case with a written report of each sentence containing detailed information as to the various factors relevant to the sentence and other information found appropriate by the Commission. This provision is necessary for the Sentencing Commission to be able to monitor the effectiveness of various sentencing policies and practices. The Commission is required to submit at least annually to the Congress an analysis of the reports submitted to it under these provisions and any recommendations for legislation that the analysis indicates is warranted.

Subsection (w) makes provisions of 5 U.S.C. 553, the provisions of the Administrative Procedure Act that relate to rulemaking, applicable to the promulgation of guidelines pursuant to section 994. This is an exception to the fact that the Administrative Procedure Act is not generally applicable to the judicial branch and also to the fact that the Federal Register is not generally used by that branch for publication required under the Act.

Section 995.—Powers of the Commission.

Proposed section 995 of title 28 describes the powers of the Sentencing Commission. Subsection (a) enumerates 21 specific powers of the Commission that may be exercised by majority vote of the members present and voting, and provides, in paragraph (22), that the Commission may perform such other functions as are required to permit federal courts to meet their sentencing responsibilities under section 3553(a) of title 18, and to permit others involved in the federal criminal justice system to meet their related responsibilities.

The first eight paragraphs of subsection (a) contain general administrative powers necessary to carry out the functions of the Commission. See S. Rept. No. 97-307, pages 1348 through 1349.

In addition, section 995 gives the Commission a number of powers relating specifically to its role in monitoring the effectiveness of the sentencing practices and policies in the federal criminal justice system.

Under subsection (a)(9), the Sentencing Commission has authority to monitor the performance of probation officers with respect to sentencing recommendations, including those relating to application of guidelines and policy statements. Under

subsection (a)(10), the Commission is authorized to issue instructions to probation officers concerning the application of guidelines and policy statements of the Commission. See S. Rept. No. 97-307, page 1349.

A number of additional provisions provide for extensive research and data collection and dissemination authority in the sentencing area. These functions are essential to the ability of the Sentencing Commission to carry out two of its purposes: the development of a means of measuring the degree to which various sentencing, penal, and correctional practices are effective in meeting the purposes of sentencing, and the establishment (and refinement) of sentencing guidelines and policy statements that reflect, to the extent practicable, advancement in knowledge of human behavior as it relates to the criminal justice process.

Subsection (b) is a broad statement of powers and duties similar to section 995(a)(22), and includes specific authority to delegate powers other than the powers to promulgate general policy statements and sentencing guidelines, to issue general policies and promulgate rules and regulations pursuant to section 995(a)(1), and to decide which factors should be considered in establishment of categories of offenders and offenses pursuant to section 994(b). It also contains language that requires the Commission with respect to certain of its activities, to the extent practicable, to utilize resources of the Administrative Office of the United States Courts and the Federal Judicial Center in order to avoid unnecessary duplication.

Subsection (c) requires federal agencies to make services, equipment, personnel, facilities, and information available on request of the Commission to the greatest practicable extent.

Subsection (d) provides that a simple majority of the membership then serving shall constitute a quorum for the conduct of business. Except for the promulgation of sentencing guidelines or policy statements, the Commission may exercise its powers and fulfill its duties by the vote of a simple majority of the members present.

Subsection (e) requires the Commission, except where otherwise provided by law, to make available for public inspection a record of the final vote of each member on any action taken.

Section 996—Director and Staff.

Proposed section 996 of title 28 describes the authority of the staff director to supervise the activities of the Commission employees and perform other duties assigned by the Commission, and to appoint such officers or employees as are necessary in the execution of the functions of the Commission, subject to the approval of the Commission. It is intended that the Commission staff consist of persons with a wide variety of backgrounds pertinent to conducting criminal justice research and making recommendations as to sentencing policy.

The officers and employees of the Commission are, under subsection (b), exempted from most civil service provisions in title 5, United States Code, except for the benefits provided in chapters 81 through 89.

Section 997—Annual Report.

Proposed section 997 of title 28 requires the Commission to report annually to the Judicial Conference, the Congress, and the President on the activities of the Commission.

Section 998—Definitions.

Proposed section 998 of title 28 contains definitions needed for the understanding of chapter 58 of title 28.

REPEALERS

Section 208.

Section 208(a) of the bill repeals a number of provisions of title 18 of the United States Code.

Section 1 of title 18, which defines felonies, misdemeanors, and petty offenses, is deleted as covered in the sentencing provisions of chapter 227.

Section 3012 of title 18 is repealed as covered by the new sentencing provision in this title.

Sections 4082(a), 4082(b), 4082(c), 4082(e), 4084, and 4085 are repealed as covered by the new sentencing provisions of this title.

Chapter 309, relating to good time allowances and release dates, is repealed as covered by the release provisions of section 3624 of title 18, as enacted by this bill.

Chapter 311, relating to parole, is repealed as replaced by the new sentencing provisions.

Chapter 314, relating to sentencing of narcotic addicts, is repealed consistent with the decision to repeal specialized sentencing provisions and replace them with provisions for sentencing guidelines that permit consideration of all combinations of offense and offender characteristics in a systematic manner.

Sections 4281, 4283, and 4284, relating to discharge and release payments, are deleted as covered by provisions of chapter 229.

Chapter 402, the Federal Youth Corrections Act, is repealed as covered by the sentencing guidelines provisions, particularly 28 U.S.C. 994(d)(1). See the discussion of that provision.

Sections 208 (b) through (e) contain technical amendments to various analyses contained in title 18 to reflect the repeal of these sections and chapters.

Section 209.

Section 209(a) repeals sections 404(b) and 409 of the Controlled Substances Act (21 U.S.C. 844(b) and 849), the specialized sentencing provisions for special dangerous drug offenders. These special dangerous offender provisions are more adequately covered in the sentencing guidelines provisions that require the guidelines to reflect a substantial term of imprisonment for drug traffickers.

TECHNICAL AND CONFORMING AMENDMENTS

Section 210.

Section 210(a) amends section 212(a)(9) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(9)) to reflect the deletion of the concept of petty offense.

Section 210(b) amends section 242(h) of the Immigration and Nationality Act (8 U.S.C. 1252(h)) to add a reference to a term of supervised release after a reference to a parole term.

Section 211. Section 211 amends section 4 of the Act of September 28, 1962 (16 U.S.C. 460k-3) to replace a reference to petty offenses with a reference to misdemeanors.

Section 212. Section 212 amends section 9 of the Act of October 8, 1944, to reflect the authority of the United States Magistrate to try and sentence persons charged with the commission of misdemeanors and infractions, as defined in section 3581 of title 18.

Section 213. Section 924(a) of title 18 is amended by section 213(a) to delete a reference to parole, since parole is abolished.

Section 1161 of title 18 is amended by section 213(b) to update a cross-reference.

Section 1761(a) of title 18 is amended by section 213(c) to make an exception to the restriction on transportation or importation of prison-made goods applicable to a person on supervised release as well as to one on parole.

Section 1963 of title 18 is amended by section 213(d) to conform to changes in the forfeiture statutes made by title IV of this bill.

Section 2114 of title 18 is amended by section 213(e) to make it clear that the sentence is not intended to be mandatory.

Section 3006A of title 18 is amended by section 213(f) to reflect the new grading scheme in the sentencing provisions and to delete references to revocation of parole, since parole is abolished by this bill.

Section 3143, as amended by this Act, is amended by section 213(g) to provide that a person awaiting sentencing is not presumed to be detainable if the applicable sentencing guideline does not provide a term of imprisonment. Section 213(g) of the bill also adds a new provision to section 3143(c) of title 18 specifying the provisions of the bail statutes that apply to a defendant whose sentence is being appealed by himself or by the government.

Section 3147 of title 18, as amended by this Act, is amended by section 213(h) to eliminate mandatory minimum sentences for certain offenses.

Subsections (i), (j), and (k) of section 213 amend sections 3156(b)(2), 3172(2), and 3401(h) of title 18 to reflect the new grading scheme set forth in section 3581 of title 18. Section 3401 is also amended by repealing subsection (k), which relates to magistrate sentencing in youth offender cases, since the youth offender provisions in current law have been repealed.

Section 213(l) of the bill amends cross-references in section 3670 (formerly 3619) of title 18.

Section 213(m) of the bill deletes a reference to parole officers in section 4004.

Section 213(n) of the bill amends chapter 306 of title 18, relating to transfer of offenders to and from foreign countries, in several respects. First, it amends subsection (f) of section 4101 to include a term of supervised release in the definition of parole. Second, it amends subsection (g) of sectoin 4101 to conform the description of probation to the provisions of subchapter B of chapter 227. Third, it amends section 4105(c) to bring a reference in paragraph (1) into conformity with the revised provisions relating to credit towards service of sentence for satisfactory behavior contained in section 3624, to conform cross-reference in paragraphs (1) and (2), to delete paragraph (3) because of the new provisions relating to good time set forth in section 3624, and to amend paragraph (4) to delete references to forfeiture of good time is inconsistent with the provisions of section 3624. Section 4106 is amended to place offenders on parole in a foreign country who are transferred to the United States under supervision by the prohibition system rather than the Parole Commission, which would be abolished by this bill, and to provide that an offender transferred to serve a term of imprisonment shall be released in accord with the provisions of section 3624(a) of title 18 after serving the period of time specified in the applicable sentencing guidelines (rather than the Parole Commission's setting the release date). If the guidelines recommend a term of supervised release for such an offender, the offender will be placed on such a term. Sentence review procedures of section 3742 are made applicable to a sentence under the subsection, and the United States court of appeals for the district in which the offender is imprisoned or under supervision after transfer to the United States has jurisdic-

tion to review the sentence as though it had been imposed by the district court. Section 4106(c) is repealed, since it relates to parole release and parole has been abolished. Section 4108(c) is amended to require that, when an offender's consent to transfer to the United States is verified, the offender be informed of the applicable guideline sentence for his offense.

Section 213(o) of the bill amends section 4321 of title 18 to delete a reference to parole.

Section 213(p) of the bill amends section 4351(b) to make the Chairman of the Sentencing Commission a member of the National Institute of Corrections Advisory Board in place of the Chairman of the Parole Commission.

Section 213(q) of the bill amends section 5002 of title 18 to make the Chairman of the Sentencing Commission a member of the Advisory Corrections Council, and to delete references to the Parole Commission.

Sections 214-224. Section 214 amends section 401(b)(1)(A), (b)(1)(B), (b)(2), (b)(5), and (c) and section 405 of the Controlled Substances Act to delete references to a special parole term for various drug trafficking offenses. Section 401(b)(4) is amended to conform to the fact that the special sentencing provisions for drug possession have been moved to section 3607 of title 18. Section 408(c) is amended to delete a reference to the current parole statutes.

Section 215 deletes references in the Controlled Substances Import and Export Act to special parole terms.

Section 216 amends section 114(b) of title 23, United States Code, to add a reference to a term of supervised release.

Section 217 amends section 5871 of the Internal Revenue Code of 1954 to delete a reference to eligibility for parole.

Section 218(a) amends section 509 of title 28 to delete a reference to the Parole Commission. Section 218(b) amends section 591 of title 28 to conform to the grading of misdemeanors and infractions.

Section 218(c) amends section 2901 of title 28 to add a reference to a term of supervised release and to conform a cross-reference to chapter 227.

Section 219 of the bill amends section 504(a) of the Labor Management Reporting and Disclosure Act of 1959, which forbids, with certain exceptions, a current or former member of the Communist party or a person convicted of one of a list of specific offenses from holding office in a labor organization, to specify that the sentencing judge, rather than the Parole Commission, should decide whether a person convicted of a federal offense can hold union office. If the offense is a State or local offense, a judge of the United States district court in which the offense was committed may, under the amendment, make the decision upon motion of the Department of Justice. Section 504(a) is also amended to specify that decisions under the section are to be made pursuant to sentencing guidelines and policy statements promulgated pursuant to 28 U.S.C. 994(a), as enacted by this bill. Section 504(a) is further conformed to the bill by deleting a reference to administrative proceedings before the Board of Parole so as to conform with changes made in a reference to the sentencing court. Similar amendments are made by section 219 of the bill to section 411(a) of the Employee Retirement Income Security Act of 1974. In addition, section 411(c)(3) is amended to add a reference to a term of supervised release after a reference to parole.

Section 221 amends section 454(b) of the Comprehensive Employment and Training Act of 1973 to add a reference to a term of supervised release after a reference to parole.

Section 222(a) amends section 341(a) of the Public Health Service Act to delete references to hospitalization of drug addicts convicted of an offense and sentenced under the Narcotic Addict Rehabilitation Act of 1966 or the Federal Youth Corrections Act. Both those provisions are repealed by this bill in favor of permitting sentencing guidelines to recommend appropriate sentences for all combinations of offense and offender characteristics.

Section 343(d) of the Public Health Service Act is amended by section 222 to add a reference to a term of supervised release after the reference to parole.

Section 223 of the bill amends section 11507 of title 49, United States Code, to add a reference to a term of supervised release after the reference to parole.

Section 224 amends section 10(b)(7) of the Military Selective Service Act (50 U.S.C. App. 560(b)(7)) to substitute a reference to "release" for a reference to "parole."

Section 225.—Effective Date. Section 225 of title II is the effective date provision for the title. Subsection (a)(1)(A) makes the repeal of chapter 402 of title 18, United States Code, effective on the date of enactment. Subsection (a)(1)(B) makes the provisions of chapter 58 of title 28, United States Code, relating to the creation and responsibilities of the United States Sentencing Commission, effective on the date of enactment. It also specifies that the Sentencing Commission shall submit the initial sentencing guidelines promulgated pursuant to 28 U.S.C. 994(a)(1) to the Congress within 18 months of the date of enactment. The sentencing guidelines, and the provisions of sections 3581, 3583, and 3624 of title 18, United States Code, do not go into effect until after the Sentencing Commission has submitted the initial set of guidelines, the General Accounting Office has had 150 days to study them and report to Congress, and the Congress has had six months from the date of submission of the guidelines by the Sentencing Commission to examine them and consider comments. All other provisions of the bill will go into effect on the first day of the first calendar month beginning twenty-four months after the date of enactment.

Section 225(a)(2) provides that, for purposes of determining when the terms of office of the first members of the Sentencing Commission expire, their terms are deemed to begin to run when the sentencing guidelines first go into effect.

Section 225(b) specifies that certain provisions of current law relating to sentencing will continue to apply to individuals convicted to offenses or adjudicated to be juvenile delinquents before the effective date and as to a term of imprisonment imposed during the period described in subsection (a)(1)(B) (relating to the effective date of the initial set of sentencing guidelines). This will assure that the length of a term of imprisonment, and the parole and good time statutes, will remain in effect as to any prisoner sentenced before the sentencing guidelines and the provisions of proposed 18 U.S.C. 3553 and 3624 go into effect. All other aspects of the sentencing provisions will go into effect 24 months after the date of enactment.

Most of those individuals incarcerated under the old system will be released during the five-year period. As to those individuals who have not been released at that time, the Parole Commission must set a release date prior to the expiration of the five years that is within the range that applies to the prisoner under the applicable parole guidelines. (It is intended that, in setting release dates under this provision, the Parole Commission give the prisoner the benefit of the applicable new sentencing guideline if it is lower than the minimum parole guideline.)

Subsection (b) also assures that, while the Parole Commission remains in existence, the Chairman of the Parole Commission or his designee will remain a member of the National Institute of Corrections, and the Chairman will remain a member of the Advisory Corrections Council ex officio and be an ex officio member of the Sentencing Commission.

Section 226. Section 226 requires the General Accounting Office to conduct a six-month study, four years after the effective date of the sentencing guidelines, of the operation of those guidelines compared with the current parole release system. The United States Sentencing Commission would be required to provide GAO, all appropriate courts, the Department of Justice, and the Congress with a report detailing the operation of the sentencing guidelines and making recommendations. Congress would be required to review the GAO study to determine the effectiveness of the sentencing guidelines system, whether any changes are needed in the system, and whether the parole system should be reinstated in some form.

TITLE III—FORFEITURE

I. Introduction

Title III of the bill is designed to enhance the use of forfeiture, and in particular the sanction of criminal forfeiture, as a law enforcement tool in combatting two of the most serious crime problems facing the country: racketeering and drug trafficking.

There are presently two types of forfeiture statutes in federal law. The first provides for civil forfeiture, a civil in rem action, brought directly against property which is unlawful or contraband, or which has been used for an unlawful purpose. The majority of drug-related property, include drug profits, must be forefeited civilly under 21 U.S.C. 881. While this civil forfeiture statue has been an extremely useful tool in the effort to combat drug trafficking, a significant drawback is the requirement that a separate civil suit be filed in each district in which forfeitable property is located. Also, the overcrowding of civil dockets may require a substantial delay before these civil forfeiture cases may be heard. Where the property to be forfeited is the property of a person charged with a drug violation, and that violation constitutes the basis for forfeiture, a more efficient way of achieving forfeiture would be to employ the second type of forfeiture statue, a criminal forfeiture statue, and thereby consolidate consideration of forfeiture issues with the trial of the criminal offense.

Criminal forfeiture is relatively new to federal law, although it has its origins in ancient English common law. It is an in personam proceeding against a defendant in a criminal case, and is imposed as a sanction against the defendant upon his conviction. Criminal forfeiture is now available under two statues: the Racketeer Influenced and Corrupt Organization statute (18 U.S.C. 1960 et seq., hereinafter referred to as RICO) and the Continuing Criminal Enterprise statute (21 U.S.C. 848, hereinafter re-

ferred to as CCE), which punishes those who conduct drug trafficking organizations.

In the last decade, there has been an increasing awareness of the extremely lucrative nature of drug trafficking and of the illicit economy which it generates and through which it is sustained, and thus, of the importance of effective tools for attacking the economic aspects of such crime. A similar awareness with respect to racketeering led to the enactment of the RICO and CCE statutes more than ten years ago.

Both civil and criminal forfeiture hold significant promise as important law enforcement tools in separating racketeers and drug traffickers from their ill-gotten profits and the economic power bases through which they operate. However, because of limitations of and ambiguities in present forfeiture statutes, the law enforcement potential of forfeiture in these area has not been fully realized. Title III is designed to address these problems, and is based with minor modifications on the forfeiture provisions of title VI of the Senate-passed comprehensive drug enforcement and violent crime bill of the last Congress, S. 2572. This title of S. 2572 was, with certain amendments, based on S. 2320, the forfeiture bill prepared by the Administration which was approved by the Senate Judiciary Committee. (S. Rept. No. 97-520, 97th Cong., 1st Sess. (1982).)

This title is divided into four parts. The first, designated as Part A, sets forth an amended version of 18 U.S.C. 1963, the provision of current law governing the penalties, including criminal forfeiture, for violations of the RICO offenses described in 18 U.S.C. 1962. One of the significant proposed changes in the current RICO forfeiture provisions would make it clear that property which constitutes, or is derived from, the proceeds of racketeering activity punishable under 18 U.S.C. 1962 is subject to an order of criminal forfeiture. There is now a split in Circuits on whether such racketeering profits are subject to forfeiture, and the Supreme Court has granted certiorari in *Russello* v. *United States* (No. 82-472, cert. granted January 10, 1982) to review this issue. Other of the more significant amendments to section 1963 are designed to address the problem of defendants defeating forfeiture actions by removing, concealing, or transferring forfeitable assets prior to conviction. These amendments include a provision expanding to the pre-indictment stage the courts' authority to enter restraining orders, a provision setting out clear authority voiding such transfers in the context of criminal forfeiture actions, and a provision permitting the court to order the defendant to forfeit substitute assets when the property originally subject to forfeiture has been made unavailable at the time of conviction.

Part B of this title makes several amendments to the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 801 et seq.). The most significant of the amendments in Part B is the creation of a new criminal forfeiture statute that would be applicable in all cases involving major criminal violations of the Act. This new statute would provide for the criminal forfeiture of the proceeds of drug offenses as well as other property used in the commission of such offenses, and would reduce the need to pursue parallel criminal prosecutions and civil forfeiture actions. This forfeiture statute would also include several of the improvements proposed with respect to the RICO criminal forfeiture statute in part A of this title. Part B would also amend the civil forfeiture provisions of the narcotics laws (21 U.S.C. 881) to allow, in certain new circumstances, the forfeiture of real property, and to require the stay of civil forfeiture proceedings pending disposition of a related criminal case in those instances where the criminal prosecution and forfeiture action cannot, or should not, be consolidated.

Part C establishes a four-year trial program under which amounts realized by the United States from the forfeiture of drug profits and other drug-related assets are to be placed in a special fund which is to be made available for appropriations to defray certain expenses that are incurred by the Government in civil and criminal forfeiture actions under title 21, United States Code.

Part D sets forth amendments to the Tariff Act of 1930 which are designed primarily to achieve two purposes: first, to improve civil forfeiture provisions which are applicable not only to forfeitures under the customs laws, but also, by virtue of 21 U.S.C. 881, to forfeitures under the drug laws; second, to create a Customs Forfeiture Fund that will be available to defray forfeiture expenses arising out of seizures and forfeitures under the Customs laws.

II. Section-by-section analysis

Section 301 provides that this title may be cited as the "Comprehensive Forfeiture Act of 1983."

Part A

Section 302 amends 18 U.S.C. 1963, the provision which sets out the penalties for a violation of the RICO statute (18 U.S.C. 1962). The current penalties of fine and imprisonment are retained, but the provisions relating to criminal forfeiture have been amended and expanded. Each of the subsections of 18 U.S.C. 1963, as it would be amended by section 302, is discussed below:

18 U.S.C. 1963(a)

Section 1963(a) sets out the penalties for a violation of 18 U.S.C. 1962. It carries forward the current fine and imprisonment levels and describes the property of the defendant that is subject to an order of criminal forfeiture. The substantive change is that it will specifically provide for the forfeiture of the profits generated by racketeering activity that serves as the basis for a RICO prosecution. Several courts have held that such profits are not currently forfeitable under RICO, and this limiting interpretation has significantly diminished the utility of the statute's criminal forfeiture sanction. The criminal forfeiture provisions of past criminal code reform legislation have also provided for the forfeiture of proceeds. See S. Rept. 97-307, p. 948. As noted above, the issue of the forfeitability of RICO profits is now pending Supreme Court review.

18 U.S.C. 1963(b)

The title's amended 18 U.S.C. 1963(b) emphasizes that property subject to civil forfeiture may be either real property or tangible or intangible personal property, and underscores an intent, consistent with current law (see, *e.g., United States* v. *Rubin*, 559 F.2d 975 (5th Cir. 1977)), that the concept of "property" as used in section 1963 is to be broadly construed.

18 U.S.C. 1963(c).

Subsection (c) of section 1963, as amended, is a codification of the "taint" theory long recognized in forfeiture cases. Under this theory, forfeiture relates back to the time of the illegal acts which give rise to the forfeiture. From that time forward, the property is tainted and remains subject to forfeiture regardless of any subsequent dispositon. Absent such a principle, a defendant could avoid forfeiture simply by transferring his property prior to conviction. This subsection makes it clear, however, that in the case of a transfer to a bona fide purchaser for value, the person may assert his interest in the property in a judicial proceeding pursuant to subsection (m).

18 U.S.C. 1963(d).

This provision is new to the law. It provides that where property found to be subject to forfeiture has been removed, concealed, transferred, or substantially depleted, the court may order that the defendant forfeit substitute assets. This subsection addresses one of the most serious impediments to significant forfeitures. Presently, a defendant may avoid the impact of forfeiture simply by transferring his assets to another, placing them beyond the jurisdiction of the court, or taking other actions to render such property unavailable at the time of conviction. Section 1963(d) addresses this problem. The criminal forfeiture provision of past criminal code reform legislation has also included a substitute assets provision. See S. Rept. No. 97-307, page 948-949.

18 U.S.C. 1963(e).

This provision expands the current authority of the courts to enter restraining or protective orders with respect to property that may be subject to forfeiture. The current restraining order authority, set out at 18 U.S.C. 1963, is limited to the post-indictment period. However, defendants often become aware, prior to indictment, of a criminal investigation and will move to conceal or alienate their forfeitable assets at that time. To address this problem, section 1963(e)(1)(B) describes certain circumstances under which the government may obain a pre-indictment restraining order. Subsection (e)(2) articulates the circumstances in which an ex parte pre-indictment restraining order may be issued. Such an ex parte order is limited to a term of ten days, and may be issued only when it appears that the giving of notice will result in the transfer or removal of the property before an order could be entered. Subsection (e)(3) permits the court to base a protective order on information not admissible under the rules of evidence.

18 U.S.C. 1963(f).

Proposed 18 U.S.C. 1963(f) governs matters arising during the period from the entry of the order of forfeiture until the time that the Attorney General directs disposition of the property. For the most part, these provisions are drawn from current law and practice, and have been formulated to provide necessary flexibility.

18 U.S.C. 1963(g).

Subsection (g) concerns matters regarding the disposition of property, and is drawn largely from current law. A new aspect of this provision is that it specifically authorizes the court to stay disposition of the forfeited property pending an appeal of the criminal case if a third party claiming an interest in the property demonstrates that such disposition will result in irreparable injury, harm, or loss to him. Once the property has been disposed of, the proceeds are to be used to pay the expenses of the forfeiture and sale, including costs arising from the seizure, maintenance, and custody of the property. The remaining amounts are to be deposited in the general fund of the Treasury.

18 U.S.C. 1963(h).

Subsection (h) sets forth several aspects of the authority of the Attorney General

with respect to property that has been ordered forfeited. This authority is in essence carried forward from existing law, although in a more straightforward manner.

18 U.S.C. 1963(i).

Under current 18 U.S.C. 1963(c), the procedures for most post-seizure matters are governed by the customs laws. In some respects, however, these customs law provisions have been inadequate in addressing some of the complex issues that arise in RICO cases, where forfeited property may include interests in ongoing businesses. Subsection (i) therefore permits the issuance of regulations to govern certain post-seizure matters which may be drafted to address some of the unique problems arising in RICO forfeiture cases.

18 U.S.C. 1963(j).

This provision codifies the currently recognized limitations on the commencement of legal actions by third parties claiming an interest in property subject to forfeiture. See *United States* v. *Mandel*, 505 F. Supp. 189 (D. Md. 1981).

18 U.S.C. 1963(k).

This provision emphasizes the current jurisdiction of the court to enter orders of criminal forfeiture without regard to the location of the property—a principle which distinguishes criminal forfeiture actions from in rem civil forfeiture actions.

18 U.S.C. 1963(l).

Subsection (l) of section 1963, as amended by this title, authorizes the court to order the taking of depositions to facilitate the identification and location of property that has been ordered forfeited and to facilitate the disposition of petitions for remission or mitigation of forfeiture. The taking of such depositions will provide for a more orderly and fair consideration of these matters and will permit the development of a more complete record.

Subsection (m) of section 1963 establishes a judicial procedure for third parties to assert their interest in forfeitable property.

Part B

This part sets out various amendments to the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 801 et seq.).

Section 303 creates a new generally applicable criminal forfeiture statute for all felony violations of Titles II and III of the Comprehensive Drug Abuse Prevention and Control Act. This statute is, in virtually all respects, identical to the RICO criminal forfeiture statute as amended by section 302 of this title, and will appear as a new section at the end of Part D of title II of the Comprehensive Drug Abuse Prevention and Control Act. The new drug criminal forfeiture section is divided into the following subsections.

Subsection (a) provides for the sanction of criminal forfeiture upon a defendant's conviction for a felony drug offense. Property which is subject to criminal forfeiture under this provision includes the proceeds of the drug violation (now subject to civil forfeiture under 21 U.S.C. 881(a)(6)), property used or intended to be used to commit the violation (such property is largely subject to civil forfeiture under current 21 U.S.C. 881), and the property already subject to criminal forfeiture under the Continuing Criminal Enterprise statute 21 U.S.C. 848).

Subsection (b), like the analogous provision of 18 U.S.C. 1963, as amended by section 302, emphasizes that the term "property", as used in subsection (a), is to be broadly construed.

Subsection (c)—see analysis of section 302 above that refers to new 18 U.S.C. 1963(c).

Subsection (d)—see analysis of section 302 above that refers to the analogous substitute assets provision of new 18 U.S.C. 1963(d).

Subsection (e) provides for a permissive presumption that property of a defendant is subject to forfeiture if the government establishes that the defendant acquired the property at or within a reasonably related time after the commission of the offense and that he had no apparent legal sources of income to explain his acquisition of the property. This provision is much like the "net worth" method of proof commonly used in tax cases. Framed as a permissive and rebuttable inference rather than a mandatory presumption, this provision appears to meet constitutional requirements fully. See *Ulster County Court* v. *Allen*, 442 U.S. 140 (1979).

Subsection (f)—see analysis of section 302 above that refers to the analogous protective order provision of new 18 U.S.C 1963(e).

Subsection (g) recognizes that in drug cases forfeitable assets frequently take the form of cash, precious metals and gems, and other property that is easily moved or concealed. With respect to such property, a restraining or protective order may not be sufficient to assure the availability of the property for forfeiture. Therefore, this section provides for the issuance of a warrant of seizure if the government demonstrates that a protective or restraining order will not be sufficient.

Subsection (h)—see analysis of section 302 above that refers to the analogous provision of new 18 U.S.C. 1963(f), governing certain matters arising in the period between the entry of the order of forfeiture and the disposition of the property.

Subsection (i)—see analysis of section 302 above that refers to the analogous provision of new 18 U.S.C. 1963(g), which governs matters concerning the disposition of property ordered forfeited.

Subsection (j)—see analysis of section 302 above that refers to the analogous provision of new 18 U.S.C. 1963(h), enumerating the authorities of the Attorney General.

Subsection (k) retains the current application of the customs laws to certain matters arising under forfeitures effected under title 21, United States Code. See 21 U.S.C. 881(d).

Subsection (l)—see analysis of section 302 above that refers to new 18 U.S.C. 1963(j).

Subsection (m)—see analysis of section 302 above that refers to new 18 U.S.C. 1963(k).

Subsection (n)—see analysis of section 302 above that refers to new 18 U.S.C. 1963(l).

Subsection (o) establishes a judicial procedure for third parties to assert claims to forfeitable property that is similar to the new procedure in 18 U.S.C. 1963(m) as added by this title.

Section 304 incorporates in 21 U.S.C. 824(f) (relating to the forfeiture of controlled substances held by a dispenser or manufacturer whose registration has been revoked) the "taint" theory discussed above under sections 302 and 303.

Section 305 deletes the separate criminal forfeiture provisions of the Continuing Criminal Enterprise statute (21 U.S.C. 848). Criminal forfeiture arising out of a violation of this statute will be governed by the new criminal forfeiture statute set out in section 303 of this title.

Section 306 amends certain provisions of 21 U.S.C. 881, which provides for the civil forfeiture of a variety of drug-related property, and which also governs certain procedural matters both in civil forfeitures and in criminal forfeitures under the CCE statute.

The first amendment would add to the list of property subject to civil forfeiture real property which is used in a felony violation of title 21. An "innocent owner" exception like that now included in other provisions of section 881(a) is included.

The amendments to subsections (b), (c), (d), and (e) of section 881 are essentially technical and conforming amendments. In addition, two new subsections are added to 21 U.S.C. 881. The first codifies that "taint" theory now clearly applicable in civil forfeiture actions. The second provides for a stay of civil forfeiture proceedings where a criminal action involving the offense that is also the basis for the civil forfeiture suit is commenced. Without such a stay, the civil proceeding may be used as a vehicle for premature or impermissibly broad discovery of matters that will arise in the criminal case.

Section 307 adds a new section at the end of Title III of the Comprehensive Drug Abuse Prevention and Control Act to make it clear that the new criminal forfeiture statute applies in cases of felony violations involving the import or export of controlled substances.

Section 308 is a conforming amendment to the table of contents of the Comprehensive Drug Abuse Prevention and Control Act.

Part C

Section 309 amends 21 U.S.C. 881(e) to achieve two purposes. First, it provides that the Attorney General may transfer drug-related property forfeited under title 21, United States Code, to another Federal agency, or to an assisting State or local agency, pursuant to section 616 of the Tariff Act (19 U.S.C. 1616), as amended in section 318 of the bill. Often, State and local law enforcement agencies give significant assistance in drug investigations that result in forfeitures to the United States. However, there is presently no mechanism whereby the forfeited property may be transferred to these agencies for their official use. This amendment, in conjunction with the Tariff Act amendment cited above, will permit such a transfer and thereby should enhance important cooperation between Federal, State, and local law enforcement agencies in drug investigations. The second amendment to 21 U.S.C. 881(e) provides for the deposit of moneys realized by the United States in drug forfeitures into the Drug Assets Forfeiture Fund created by section 310.

Section 310 amends 21 U.S.C. 881 by adding a new subsection (j) that would create, for a trial four-year period, a Drug Assets Forfeiture Fund from which moneys could be appropriated to defray the mounting costs associated with forfeiture actions. (A similar fund for customs forfeitures is created in section 317 of the bill.) Presently, when any amounts are realized by the United States from the forfeiture of drug-related assets, these amounts must be deposited in the general fund of the Treasury. Therefore, they are not available to defray the expenses of forfeiture in those cases where the expenses associated with the forfeiture of a particular piece of property exceed the amount realized by the sale of the property. Under new subsection (j), the amounts realized in profitable forfeitures would be deposited in a Drug Assets Forfeiture Fund which would be available, through the appropriations process, for payments, at the discretion of the Attorney General, for

four specified purposes. These purposes are: (1) the payment of expenses necessary to inventory, safeguard, maintain, advertise or sell the property, including payments for contract services or payments to State and local agencies which may provide these services; (2) payments for information or assistance relating to a drug offense or leading to a forfeiture of drug assets; (3) the compromise and payment of valid liens against forfeited property; and (4) disbursements to innocent persons in connection with the remission and mitigation of forfeiture. Reward payments from the Fund in excess of $10,000 must be authorized by either the Attorney General, Deputy Attorney General, Associate Attorney General, Director of the Federal Bureau of Investigation, or the Administrator of the Drug Enforcement Administration. These rewards also may not exceed a maximum of $150,000, or, in the case of a reward in a forfeiture case, the lesser of $150,000 or one-quarter the amount realized by the United States in the forfeiture action.

The authorized level of appropriations from the Fund for fiscal years 1984 through 1988 is not to exceed $20,000,000 or the total amount deposited in the Fund in the prior fiscal year. This appropriation ceiling applies to money for the first three purposes of the Fund specified in subsection (j)(1). For the fourth purpose—disbursements to innocent persons granted remission or mitigation of forfeiture—moneys may be appropriated from the fund as may be necessary. Not less than four months after the end of each fiscal year, the Attorney General is to submit to the Congress a detailed report on the amounts deposited in the Fund and expenditures made out of moneys appropriated from the Fund.

Part D

Part D of title III sets forth several amendments to the Tariff Act of 1930. These provisions govern the seizure and forfeiture of property under the customs laws, and are also applicable, by virtue of 21 U.S.C. 881, to seizure and forfeiture of drug-related property. Briefly, these amendments provide for: (1) the expanded use of efficient administrative forfeiture proceedings in cases in which no party comes forward to contest a forfeiture action; (2) enhanced cooperation between Federal and State and local law enforcement agencies by permitting the transfer of federally forfeited property to assisting State and local agencies and by providing clear authority for the discontinuance of Federal forfeiture actions in favor of forfeitures under State law; and (3) the creation of a Customs Forfeiture Fund to be available to defray expenses associated with forfeiture actions under the customs laws.

Section 311 amends 19 U.S.C. 1607, which in conjuction with sections 1608 and 1609 of title 19, United States Code, currently governs the procedures for the forfeiture of property valued at $10,000 or less. Under these provisions, notice of the seizure of the property is to be published and written notice is to be given to each party who appears to have an interest in the property. If no party comes forward to contest the forfeiture, the property may be forfeited in an administrative proceeding pursuant to 19 U.S.C. 1609. If a party does contest the forfeiture and posts the bond required under 19 U.S.C. 1608, a judicial proceeding must be held regarding the forfeiture. Significant numbers of forfeitures under the drug and customs laws are uncontested. However, the more efficient administrative forfeiture proceeding is available only with respect to a limited number of these cases because the property involved frequently exceeds the current $10,000 valuation ceiling. Thus, in a significant number of cases, judicial proceedings are required even though the forfeiture action goes uncontested. In these cases, the overcrowding of court dockets often means a delay of more than one year before the case may be heard, and during this period of delay the property is subject to deterioration and the costs to the government in maintaining and safeguarding the property escalate. To address this problem, section 311 and other of the amendments set out in Part D amend current law to make administrative forfeiture proceedings available in uncontested cases involving: (1) property of a value of up to $100,000; (2) any property the importation of which is prohibited (as under current law); and (3) any conveyances used to transport illicit drugs.

Section 312 amends 19 U.S.C. 1608 to increase the amount of bond which is to be filed by a party wishing to contest the forfeiture of property subject to the provisions of 19 U.S.C. 607 (i.e., property valued at $100,000 or less or conveyances of illicit drugs) in a judicial proceeding. Under current law, this bond is set at $250, an amount so low that it neither acts to discourage the filing of clearly frivolous suits nor reflects the substantial costs to the government in pursuing a judicial forfeiture. As amended by section 312, the bond would be set at the lesser of $5,000 of 10 percent of the value of the property, but in no event less than $250. This increased bond is also a reflection of the fact that in light of amendment to 19 U.S.C. 1607 by section 311 the bond provision will apply to cases involving property of significantly greater value than under present law. Of course, the bond requirement is subject to the established authority of the courts, because of due process requirements, to reduce or dispense with a required bond where a claimant is unable to post it.

Section 313 amends 19 U.S.C. 1609 to provide for the deposit of the proceeds of the sale of property forfeited under the customs law into the Customs Forfeiture Fund established in section 317.

Section 314 amends 19 U.S.C. 1610 to conform to the amendments discussed above regarding 19 U.S.C. 607. As under current law, section 1610 requires a judicial forfeiture for all property not governed by the procedures set out in sections 1607 through 1609 of title 19, United States Code. Thus, if the value of the property seized exceeds the limits described in 19 U.S.C. 1607, as amended in section 311 of this title, a judicial forfeiture is required regardless of whether the forfeiture is contested.

Section 315 sets forth an amendment to 19 U.S.C. 1612, which permits, in certain circumstances, the summary sale of a wasting asset, to conform with the amendment to 19 U.S.C. 607, discussed above in relation to section 311 of the bill.

Section 416 sets forth conforming amendments to 19 U.S.C. 1613 to provide for the deposit of customs forfeiture proceeds into the Customs Forfeiture Fund established in section 317 of the bill.

Section 317 amends the Tariff Act by creating a new section that will provide for the deposit of the proceeds of forfeitures under the customs laws into a Customs Forfeiture Fund which is to be available for the payment of expenses associated with forfeiture actions. It parallels the Drug Assets Forfeiture Fund established in section 310.

Section 318 creates a new section 616 of the Tariff Act (19 U.S.C. 1616) to govern certain dispositions of forfeited property. Subsection (a) of this new section permits the transfer of forfeited property to another Federal agency, or to a State or local agency which participated in the case which led to the forfeiture. Subsection (b) provides for the discontinuance of a Federal forfeiture action in favor of State or local forfeiture proceedings. Subsection (c) makes clear the authority of the United States to transfer the seized property directly to State or local authorities where a forfeiture action is discontinued under subsection (b), and subsection (d) provides for notice to be given to all interested parties to advise them of such a discontinuance of Federal proceedings.

Section 319 amends 19 U.S.C. 1619 to increase from $50,000 to $150,000 the maximum amount of a reward that may be paid for information leading to a forfeiture. As under current law, however, the amount of such an award may not exceed one-fourth of the amount realized by the United States from the forfeiture.

Section 320 adds a new section 589 to the Tariff Act to describe the arrest authority of customs officers.

Section 321 amends several sections of the Tariff Act to provide that the seizure and forfeiture of aircraft are treated in the same manner as the seizure and forfeiture of other conveyances. Other amendments to the Tariff Act in preceding sections of Part D of this title provided for the same change.

Section 322 amends 19 U.S.C. 1644 to correct an outdated reference to 49 U.S.C. 177 by substituting a reference to the current applicable provision of the Federal Aviation Act.

Section 323 adds a new section 600 to the Tariff Act to make it clear that all seizure effected by customs officers are to be governed by sections 602 through 609 of the Tariff Act unless other procedures for seizure are provided.

TITLE IV—INSANITY DEFENSE REFORM

Title IV of the bill amends various provisions of title 18, United States Code, and of the Federal Rules of Criminal Procedure, relating to the procedure to be followed in Federal courts with respect to offenders who are or have been suffering from a mental disease or defect. Among the matters provided for by these amendments are the determination of mental competency to stand trial, the determination of the existence of insanity at the time of the offense, a limitation of the scope of a separate insanity defense, and the post-trial hospitalization of defendants suffering from a mental disease or defect.

Section 402 of the bill adds a new section 20 to title 18 to limit the insanity defense. The section provides that insanity is a defense only if, at the time of the offense, the defendant, "as a result of a severe mental disease or defect was unable to appreciate the nature and quality or the wrongfulness of his act." Mental disease or defect would not otherwise constitute a defense. The new section also shifts to the defendant the burden of proving his insanity by clear and convincing evidence. This limitation of the insanity defense in effect eliminates the volitional portion of the two-pronged ALI-Model Penal Code test for insanity which has been adopted by the federal courts. That test for insanity states that "[a] person is not responsible for criminal conduct if at the time of such conduct as a result of mental disease or defect he lacks

substantial capacity to appreciate the criminality of his conduct or to conform to the requirements of law."

The volitional portion of the test is eliminated because there is much stronger agreement among psychiatrists about the defendant's understanding of his acts than about the concept of volition. A December 1982, statement by the American Psychiatric Association on the Insanity Defense noted that "[t]he line between an irresistible impulse and an impulse not resulted is probably no sharper than that between twilight and dusk." While, the cognitive portion is retained, section 406 of the bill amends Rule 704 of the Federal Rules of Criminal Procedure to forbid an expert psychiatric witness from stating an opinion as to whether the defendant's mental state or condition constituted a defense. Frequently, in insanity defense trials prosecution and defense psychiatrists agree about the nature and extent of the defendant's mental disorder. They disagree over the probable relationship between this disorder and the defendant's ability to appreciate the wrongfulness of his conduct. This relationship is treated as a question of fact for the jury to determine.

Section 403 of the bill provides a comprehensive amendment of current chapter 313 of title 18, United States Code. Proposed section 4241 deals with the determination of mental competency to stand trial. Section 4242 relates to the determination of the existence of insanity at the time of an offense. Section 4243 provides for the hospitalization of a person acquitted by reason of insanity. Section 4244 deals with the hospitalization of a convicted person who is suffering from a mental disease or defect. Section 4245 covers the hospitalization of an imprisoned person who suffers from a mental disease or defect. Section 4246 deals with the situation of such a person who is scheduled to be released. Section 4247 contains general provision for chapter 313.

TITLE V. DRUG ENFORCEMENT AMENDMENTS

Part A—Drug penalties

The purpose of Title V of the bill is to provide a more rational penalty structure for the major drug trafficking offenses punishable under the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 801 *et seq.*). Trafficking in illicit drugs is one of the most serious crime problems facing the country, yet the present penalties for major drug offenses are often inconsistent or inadequate. This title primarily focuses on three major problems with current drug penalties.

First, with the exception of offenses involving marihuana (*see* 21 U.S.C. 841(b)(6)), the severity of current drug penalties is determined exclusively by the nature of the controlled substance involved. While it is appropriate that the relative dangerousness of a particular drug should have a bearing on the penalty for its importation or distribution, another important factor is the amount of the drug involved. Without the inclusion of this factor, penalties for trafficking in especially large quantities of extremely dangerous drugs are often inadequate. Thus, under current law the penalty for trafficking in 500 grams of heroin is the same as that provided for an offense involving 10 grams. The drug penalties schedule of the criminal code reform bill reported by the Senate in the prior Congress (S. Rep. No. 97-307, 97th Cong., 1st Sess.) addressed this problem by punishing as a Class B felony (up to 25 years' imprisonment) offenses involving trafficking in large amounts of opiates and other extremely dangerous drugs. Based on this approach, this title amends 21 U.S.C 841 and 960 to provide for more severe penalties than are currently available for such major trafficking offenses.

The second problem addressed by this title is the current fine levels for major drug offenses. Drug trafficking is enormously profitable. Yet current fine levels are, in relation to the illicit profits generated, woefully inadequate. It is not uncommon for a major drug transaction to produce profits in the hundreds of thousands of dollars. However, with the exception of the most recently enacted penalty for distribution of large amounts of marihuana (21 U.S.C. 841(b)(6)), the maximum fine that may be imposed is $25,000. This title provides more realistic fine levels that can serve as appropirate punishments for, and deterrents to, these tremendously lucrative crimes.

A third problem addressed by this title is the disparate sentencing for offenses involving Schedule I and II substances, which depends on whether the controlled substance involved in the offense is a narcotic or non-narcotic drug. Offenses involving Schedule I and II narcotic drugs (opiates and cocaine) are punishable by a maximum of 15 years' imprisonment and a $25,000 fine, but in the case of all other Schedule I and II substances, the maximum penalty is only five years' imprisonment and a $15,000 fine. The same penalty is applicable in the case of a violation involving a Schedule III substance. This penalty structure is at odds with the fact that non-narcotic Schedule I and II controlled substances include such extremely dangerous drugs as PCP, LSD, methamphetamines, and methaqualone, and federal prosecutions involving these drugs typically involve huge amounts of illicit income and sophisticated organizations. Removing the distinction, for the purposes of sentencing, between narcotic, as opposed to non-narcotic, controlled substances in Schedules I and II was proposed in S. 1951 in the 97th Congress, and this concept is included in this title.

The bill amends 21 U.S.C. 841(b), the provision which sets out the penalties for the most serious domestic drug trafficking offenses. Section 841(b)(1) is the current law that describes the penalties for offenses involving controlled substances in Schedules I, II, and III. Although marihuana is a Schedule I controlled substance, trafficking in amounts over 1,000 pounds is currently governed by 21 U.S.C. 841(b)(6), and distribution of small amounts for no remuneration is treated as mere possession under 21 U.S.C. 841(b)(4). Currently, offenses involving narcotic Schedule I and II substances (narcotic Schedule I and II controlled substances are opiates and cocaine; *see* 21 U.S.C. 802(16)) are governed by section 841(b)(1)(A), while offenses involving non-narcotic Schedule I and II substances and all Schedule III substances are governed by section 841(b)(1)(B). This part of the bill would redesignate these subparagraphs as subparagraphs (B) and (C) and create a new subparagraph (A) under section 841(b)(1) that would provide, for offenses involving large amounts of particularly dangerous drugs, higher penalties than those now provided under section 841.

Under this new section 841(b)(1)(A), an offense involving (i) 100 grams or more of an opiate; (ii) a kilogram or more of cocaine (a more complex manner of defining opiates and cocaine is necessary in the amendment because of the way in which such substances are defined elsewhere in title 21); (iii) 500 grams or more of PCP; or (iv) five grams or more of LSD, would be punishable by a maximum of 20 years' imprisonment and a fine of $250,000. Consistent with the current structure of section 841, these maximum penalities would be doubled where the defendant has a prior felony drug conviction. The bill's decription of the prior offense which may trigger the more severe penalty does, however, differ from the description used in current law. In current law, this enhanced sentencing is available only in the case of a prior federal felony drug conviction. The bill would permit prior State and foreign felony drug convictions to be used for this purpose as well. The prior conviction language of current provisions of section 841 and of section 962 (relating to importation and exportation offenses) has been amended in a similar manner to include State and foreign, as well as federal, felony drug convictions.

All other offenses involving a Schedule I or II substance, except those involving less than 50 kilograms of marihuana, 10 kilograms of hashish, or one kilogram of hashish oil, are to be punished under section 841(b)(1)(B). Thus, the current distinction, for purposes of punishment, between Schedule I and II substances which are narcotic drugs and those which are not has been abandoned. The maximum 15-year term of imprisonment currently applicable to offense involving narcotic Schedule I and II substances is retained. However, the current maximum fine level of $25,000 has been raised to $125,000. By virtue of current section 841(b)(6), offenses involving large amounts of marihuana are already punishable at this 15 years/$125,000 fine level. Similarly, offenses involving Schedule III substances and lesser amounts of marihuana, hashish, and hashish oil, governed in the amendment by section 702(1)(C), are punishable at the current level of five years' imprisonment, but the maximum fine has been raised from $15,000 to $50,000. Marihuana is currently treated in the same manner as a Schedule III controlled substance when the amount involved is less than 1,000 pounds. Thus, this formula is generally consistent with current law.

Section 841(b)(2) is amended to raise the fine level for a violation involving a Schedule IV substance from $10,000 to $25,000. Also included is the amendment noted above in relation to new section 841(b)(1)(A), which would treat State and foreign, as well as federal, felony drug convictions as prior convictions for the purpose of existing enhanced sentencing provisions.

Section 841(b)(3) is amended to raise the fine level for a violation involving a Schedule V substance from $5,000 to $10,000.

Paragraphs (5) and (6) of section 841(b) are deleted. Current paragraph (5) provides special penalties for violations involving PCP. Since PCP has not been designated as a Schedule II substance, this special provision is no longer necessary. Current paragraph (6) provides for heightened penalties for trafficking in large amounts of marihuana. Since this title provides that such offenses would be punishable under section 841(b)(1)(B) by a maximum penalty of 15 years' imprisonment and a $125,000 fine, this special provision is no longer necessary.

21 U.S.C. 960(b), which sets out the penalties for the major drug importation and exportation offenses, is amended in a manner consistent with the amendments to 21 U.S.C. 841(b) discussed above. Each of the paragraphs of this section is discussed below.

A new section 960(b)(1) is created which provides for heightened penalties for importation offenses involving large amounts of extremely dangerous drugs. This section is analogous to the new section 841(b)(1)(A).

Section 960, as was done with respect to section 841(b)(1), is amended to consolidate the treatment of offenses involving all Schedules I and II substances except lesser amounts of marihuana and hashish. The current 15-year level of imprisonment is retained, but the fine is elevated from $25,000 to $125,000, as was done with respect to the analogous offense under section 841(b)(1).

Current section 960(b)(2) (redesignated as section 960(b)(3) in the amendment), which now governs offenses involving all controlled substances other than Schedule I and II narcotic drugs, as amended, would continue to govern violations involving lesser amounts of marihuana and hashish and all Schedule III, IV, and V substances, would retain the current five-year maximum term of imprisonment, and would raise the current fine of $15,000 to $50,000. Unlike 21 U.S.C. 841(b), 21 U.S.C. 960 does not provide separate penalties for offenses involving Schedule IV and V substances.

21 U.S.C. 962 is amended to permit prior State and foreign, as well as Federal, felony drug convictions to be considered for the purpose of this section's enhanced sentencing for repeat drug offenders. As noted above, various provisions of 21 U.S.C. 841(b) were amended in a similar manner.

Part B—Diversion control amendments

Following a statement of findings and declarations, this part of Title V amends Section 102 of the Controlled Substances Act (CSA) to define the term "isomer" and redefine the term "narcotic drug." Confusion has arisen in some courts concerning the control of isomers of certain drugs, particularly cocaine. Similarly, certain ambiguities in the definition of narcotic drug are corrected relating to cocaine and concentrated poppy straw.

This part goes on to amend section 201 of the Controlled Substances Act to establish a new emergency authority to place an uncontrolled substance under temporary controls which provide for registration, recordkeeping, and criminal penalties of up to five (5) years. This would permit DEA to deal with rapidly developing situations in which a new or uncontrolled drug suddenly becomes a public danger.

This part then draws together and expands existing authorities which permit certain drug compounds to be exempted from the CSA. This will clarify present ambiguities in the law and also permit exemption of certain compounds not intended for human or animal administration.

The amendment to section 302 of the Controlled Substances Act would enable the Attorney General to determine by regulation the frequency with which practitioners must register, though in no case, more than once annually or less than once in three years. This will permit DEA to allow 98 percent of its approximately 600,000 registrants to register once every three years instead of annually as the law now requires. If this were found to be unsatisfactory, then DEA could by regulation, revert to a two-year, or one-year requirement.

The new section 303 of the Controlled Substances Act would greatly alter the standards required for the registration of practitioners. Currently, the requirement is only that they be licensed by state law. The new standard will enable DEA to consider recommendations of the state licensing board, special limitations, and applicants' prior conviction record and other related matters. This will give both DEA and state licensing boards improved ability to deny practitioners the right to utilize controlled drugs in appropriate cases; however, the burden of proof will be on the Government in an administrative hearing.

The amended section 304 of the Controlled Substances Act, which currently provides for revocation and suspension of registration, will correct the present situation in which the law does not specifically provide that failure to maintain the standards required for registration will be a cause for suspension of registration.

The amendments to section 304 would permit the Attorney General to place under seal any controlled substances possessed by registrants who have ceased to do business or whose registration has expired. DEA has such authority in many cases. This simply corrects an oversight in the 1970 law.

The modifications to section 307 of the Controlled Substances Act would exempt practitioners from recordkeeping requirements for drugs which are prescribed. The amendment will broaden the current exemption for prescribing which now relates only to narcotic drugs. It also eliminates the blanket exemption for administration which is now addressed in 307(c)(1)(B).

In addition, the new section 307 would exempt practitioners from recordkeeping requirements for the administration of drugs, but only when this represents an occasional activity. It also eliminates exemption for occasional dispensing. This provision narrows the current exemption for administering, eliminates the exemption for dispensing, and increases DEA's ability to detect diversion at the practitioner level.

In addition, distributors as well as manufacturers would be required to provide periodic reports on sales and distribution of Schedule I, II and III Substances. These will be limited to the greatest extent possible to major drugs of concern. At present, distributors are only required to file such reports for narcotic drugs.

Registrants would also be required to report changes of address. This is necessary in view of the plan to increase the length of registration to three years.

The amendment to section 402 of the Controlled Substances Act establishes penalties for violations of registrant requirements by adding an additional violation for production or procurement of drugs in excess of quota limitations. This change is in part necessary because of the extension of quota requirements to Schedule III drugs and because of an oversight in drafting the original Act of 1970. This adds an additional violation for it would also be an offense to make use of an expired registration number; this is to correct an oversight in the original act.

The amendment to section 503 of the Controlled Substances Act provides special grant authority and authorizes resources for expansion of DEA's State Assistance Program to help state and local governments suppress the diversion of controlled substances. DEA's program to assist states in establishing diversion investigation units has proven successful; however, because of lack of explicit authority and necessary resources, states have been hindered in establishing such programs. The new authority will respond to this problem.

The amendment to section 511 provides for the forfeiture of controlled substances possessed in violation of the law. This will correct an oversight in the original Act which included "manufacture," "distribution," etc., but not "possession."

The first of several amendments to the Import/Export Act amends Section 1002 to authorize the importation of limited quantities of certain drugs for scientific and research purposes. The need for such a provision to assist research has continually arisen since the original law was enacted in 1970.

The new section 1002 also authorizes the importation of poppy straw and its concentrate in addition to crude opium. There is a demonstrated need for such authority.

Section 1002 is also amended to permit the Attorney General to require, by regulation, import permits for controlled substances in Schedule III. This expands the current authority to require import permits, which now extends only to Schedules I and II and all narcotic drugs in any Schedule. It allows the use of discretion as to whether to require a declaration or permit.

The amendment to section 1003 permits the Attorney General to ensure that the foreign government of destination has approved import for consumption and not merely for transhipment. This will clarify the intent of the present law and permit the Attorney General to require the documenting proof necessary to help assure that the United States does not become a source country for international diversion.

The amendment to section 1007 requires registration of persons who export Schedule V drugs. At present, the registration requirement applies to all of the Schedules except V. This has created some confusion within the industry, and is an anomaly in the "closed system" of drug regulation.

The amendment to section 1008 lists the standards which must be met to register for import and export activity. At present the standards are incorporated by reference to another part of the law, thus making the Act difficult and confusing to use. This involves no change in substantive requirements.

Section 1008 is also amended to extend the drug specific nature of Schedule I and II import/export registrations to those for Schedule III, IV, and V. In addition, the revised section 1008 would list the specific standards required for registration of importers and exporters of drugs in Schedules III, IV, and V. Again the purpose is to eliminate confusing cross-references which now exist in the law. There is no change in substantive requirements.

The final change in section 1008 is to establish procedures to deny, revoke, or suspend a registration. The purpose here is to eliminate confusing cross-references which exist in the present drug law.

TITLE VI—JUSTICE ASSISTANCE

Title VI of this bill substantially amends title I of the Omnibus Crime Control and Safe Streets Act of 1968 to streamline the current research, statistics, and assistance program, to reauthorize these programs, and to create a criminal justice facilities program. In addition, the current prison industries provisions are expanded to permit broader participation. A substantially identical set of provisions has been ordered reported by the Committee separately as S. 53. For a further discussion, see the report on S. 53 and the discussion in the Congressional Record for March 16, 1983 relating to title VIII of S. 829.

TITLE VII—SURPLUS FEDERAL PROPERTY AMENDMENTS

Title VII of the bill is designed to make it easier for the federal government to transfer to the State and local governments surplus federal property for use by the transferee for the care or rehabilitation of criminal offenders. The provisions are also in accord with Recommendation 56 of the Attorney General's Task Force on Violent Crime, which cited the transfer of surplus property for this purpose as a "significant opportunity for Federal involvement in easing State and local correctional facility overcrowding." Attorney General's Task Force on Violent Crime, Final Report, p. 79 (1981).

The bill amends section 203 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484) to permit the Administrator of the General Services Administration to transfer or convey to a State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands, or any political subdivision or instrumentality thereof, surplus property determined by the Attorney General to be required for a correctional facility by the transferee or grantee. Because of the knowledge of the Bureau of Prisons as to the appropriateness of particular facilities for particular corrections programs, the Attorney General rather than the Administrator of GSA would approve the transfer. The transfers under the provision would be made without charge to the State or local government receiving the property. If the property ceases to be used for the authorized purpose, it will revert, at the option of the United States, to the United States.

The bill also amends section 203 of the Federal Property and Administrative Services Act of 1949 to require that the head of the transferring agency submit an annual report to the Congress showing the acquisition cost of personal property donated and of real property disposed of during the preceding fiscal year.

TITLE VIII—LABOR RACKETEERING AMENDMENTS

Currently, section 302 of the Labor Management Relations Act, 1947 (also known as the Taft-Hartley Act) prohibits, among other things, the buying and selling of labor peace. Violation of this provision, however, is only a misdemeanor subject to a fine of up to $10,000 and imprisonment of not more than one year or both. This title raises this prohibition to a felony where the money or item involved exceeds $1,000, subject to a fine of not more than $15,000 and imprisonment for not more than five years or both.

In making this change, the drafters were aware of the technical nature of some of the prohibitions found in section 302. Section 302 also regulates employer payments to labor unions, employee pension and welfare plans, and labor-management cooperation committees, as opposed to corrupt payments to individuals. Therefore, violations of the statute based on the failure to comply with the restrictions governing such payments in section 302(c) (4) through (9), 29 U.S.C. 186(c)(4)-(9), will require proof that a defendant had knowledge of the factual circumstances surrounding the offense and acted with intent to benefit himself or any other person not permitted to receive such benefit. However, all violations not involving subsection (c) (4) through (9) will require proof of only general intent, as in existing law.

The amendment also clarifies jurisdiction of the district courts of the United States in light of the substantive changes made to the Taft-Hartley Act.

In addition, the bill would amend both sections 1111 and 504 and (1) elevate each statute to a felony with the uniform result that violation of either statute will carry a maximum sentence of imprisonment for five years, $10,000 fine, or both (2) extend the period of maximum prohibited service under each statute from five to ten years after conviction, or after the end of imprisonment, whichever is later and (3) impose the disability of each statute in all cases immediately upon conviction in the trial court from date of judgment, regardless of whether the judgment remains under appeal.

With respect to the issue of whether compensation, which might be otherwise due a convicted person, should be placed in escrow pending the outcome of any such appeal, the bill adopts the Senate Labor Committee's view of the escrow provision (as developed during the 97th Congress), which reflects an equitable balance between the interests of the convicted individual during appeal and interests of the union members and benefit plan participants. Moreover, additional avenues of relief are open to the convicted individual under 29 U.S.C. 504 and 1111 in the form of existing statutory exemptions from disqualification which can result from a full restoration of citizenship rights lost after conviction or action of the U.S. Parole Commission.

The bill also enlarges the list of disabling crimes in each statute to also include certain offenses involving abuse or misuse of the convicted person's labor organization or employee benefit plan position or employment, as well as enlarge the class of persons prohibited from service with labor unions and employee benefit plans by reason of their convictions. Especially significant is the elimination of the exception for exclusively clerical and custodial employees currently found in section 504. The clerical exception is sometimes used as a vehicle for the rehiring, with substantial salaries, of convicted individuals who have vacated union office, but who continue to exercise the influence and control formerly enjoyed by virtue of the vacated office. Because a union official who uses his position corruptly may often wield great economic power over his fellow members and the employers with whom his union deals, it is sometimes difficult to prove that a convicted individual is in fact exercising more than exclusively clerical duties.

In general, the amendments made by the bill would apply prospectively only to those persons whose judgments of conviction (including imposition of sentence) were entered after the effective date of the amendments. Therefore, those persons whose judgments of conviction were entered prior to the effective date of the amendments will be subject only to the existing disabilities of 29 U.S.C. 504 and 1111 with one exception.

The exception relates to those convicted persons who, on the effective date of the amendments, would be disqualified from service by crimes currently enumerated and in positions currently listed in the existing provisions of 29 U.S.C. 504 and 1111, but for the fact that appeals from such convictions are either being pursued or could be properly pursued. The bill requires that those persons within the exception be removed from their respective positions upon the effective date of the amendments.

TITLE IX—CURRENCY TRANSACTION AMENDMENTS

This title would amend various sections in Subchapter II of Chapter 53 of title 31 of the United States Code to strengthen the ability of law enforcement authorities to stem the illicit flow of currency involved in narcotics trafficking and money laundering schemes often associated with organized crime. The subchapter presently provides for the filing of reports relating to certain large-scale domestic currency transactions, and to the importation or exportation of monetary instruments—generally cash or the equivalent—in large amounts.

This title increases the civil penalties to $10,000 and raises the criminal penalty for a willful violation of the chapter from its present misdemeanor level to a felony with an authorized punishment of five years' imprisonment and a $250,000 fine, or both. This significantly enhances the presently authorized civil and criminal penalties for persons who fail to report currency importation and exportation. The civil penalty may extend to the entire amount of the monetary instrument for which the report was required. See 31 U.S.C. 5321.

This title would also amend section 5316 which presently requires a report to be filed by a person who transports monetary instruments of $5,000 or more into or out of the United States. It would raise the reporting requirement to apply only to those transporting $10,000 in recognition of the fact that legitimate tourists today occasionally carry more than $5,000. Additionally, it would add a reporting requirement for those who attempt to transport the larger amount. Presently there is no attempt provision. As a result, court decisions have held that as to transporting currency out of the country the statute is not violated until the person has actually departed the United States. At that point federal arrest authority is generally lacking.

In addition, amendments would authorize a search without a warrant by a customs officer of a vehicle, container, or person entering or leaving the United States if the officer has reasonable cause to believe the vehicle, container or person is transporting monetary instruments without having made the required report, as well as authorize rewards for persons who provide information which leads to a fine, civil penalty, or a substantial forfeiture for a violation of the currency reporting laws.

Finally, this title would add currency reporting violations to the definitions of "racketeering activity" listed at 18 U.S.C. 1961(1), thereby making this offense a predicate offense for a RICO prosecution.

TITLE X—MISCELLANEOUS VIOLENT CRIME AMENDMENTS

Title X strengthens a number of provisions dealing with violent crime and creates a limited number of new offenses in this area.

Part A.—Murder-for-hire and violent crimes in aid of racketeering

Section 1001 adds a new section 16 to title 18 to define the term "crime of violence." The term is used in several other sections of the bill such as section 1002 proscribing violent crimes committed for money or other consideration, and section 1003, prohibiting solicitation to commit a crime of violence. The definition of the term "crime of violence" is taken from the Senate version of the Criminal Code Reform Bill (S. 1630, 97th Cong.) and predecessor bills. The term

means an offense that has as an element the use, attempted use, or threatened use of force, or any other offense that is a felony and that involves a substantial risk that physical force may be used against the person or property of another.

Section 1002 proscribes murder and other violent crimes for hire. it is similar to a provision contained in S. 2572 as passed by the Senate in the 97th Congress and would add two new sections, 1952A and 1952B, to title 18 of the United States Code. Although designed primarily for use in cases of murder-for-hire carried out at the orders of organized crime figures, section 1952A would also reach other such calculated murders. Section 1952A follows the format of 18 U.S.C. 1952, interstate travel in aid of racketeering. Section 1952 presently covers murder if the perpetrator traveled in interstate commerce to commit the murder, or used a facility of interstate commerce to commit it, and the crime was in furtherance of an unlawful activity involving offenses relating to gambling, untaxed liquor, narcotics, prostitution, extortion, bribery, or arson.

Section 1952A would reach the travel in interstate or foreign commerce or the use of the mails or a facility in interstate or foreign commerce (such as a telephone if used for an interstate call) with the intent that a murder be committed in violation of state or Federal law. The murder must be planned or carried out as consideration for the receipt of something of pecuniary value or a promise or agreement to pay something of pecuniary value. Both the person who ordered the murder and the "hit-man" would be covered. If the victim is killed the punishment can extend to life imprisonment and a $50,000 fine but lesser punishments are provided if the planned murder did not take place or the attempt resulted only in an injury to the victim.

Section 1952B is designed to deal with contract murders and other violent crimes by organized crime figures which do not involve interstate travel or other interstate facilities or are committed not for money but rather as a part of membership in a criminal organization. This section proscribes murders, kidnaping, maiming, serious assaults and threats of violence committed as consideration for payment or a promise to pay anything of pecuniary value from an "enterprise" engaged in "racketeering activities." "Racketeering activity," is defined as set forth in the RICO statute, section 1961, and "enterprise" is defined as an organization, group or entity whose activities affect interstate commerce. The proposed section also covers murders, kidnapings, maimings, serious assaults and threats of violence committed as a means of gaining entrance into or improving one's status in an enterprise engaged in racketeering activity. Attempts and conspiracy to commit these offenses are also covered. The person who ordered the offenses set forth in the section could also be punished as an aider and abettor under 18 U.S.C. 2.

While section 1952B proscribes murder, kidnaping, maiming, assault with a dangerous weapon, and assault resulting in serious bodily injury in violation of federal or State law, it is intended to apply to these crimes in a generic sense, whether or not a particular State has chosen those precise terms for such crimes. For example, section 120.10 of the Penal code of New York provides that a person is guilty of assault in the first degree when "(1) with intent to cause serious physical injury to another person, he causes such injury of such person or to a third person by means of a deadly weapon or a dangerous instrument; or (2) with intent to disfigure another person seriously and permanently, or destroy, amputate, or disable permanently a member or organ of his body, he causes such injury to such or to a third person . . ." A person who committed such an offense in New York would violate the proposed new section if his actions were for payment of anything of pecuniary value from an organization engaged in racketeering activity or for advancement in such an organization.

Part B.—Solicitation to commit a crime of violence

Section 1003 adds a new section 373 to title 18 of the United States Code, to proscribe the offense of solicitation to commit a crime of violence. This section is of principal utility in a situation where a person makes a serious effort to induce another to engage in activity constituting a crime of violence but is unsuccessful in doing so. The solicitor is clearly a dangerous person and his act merits criminal sanctions. Yet at present there is not federal law that prohibits its solicitation generally, although a solicitation offense was included in S. 2572 as passed by the Senate in the 97th Congress and in S. 1630 (97th Cong.), the proposed federal criminal code reform bill. See S. Rept. No. 97-307, pages 179-186.

Only solicitation to commit a crime of violence is here covered. "Crime of violence" is defined, in a new section 16 to be added to title 18, as a crime that has as an element the use or attempted use of physical force against another's person or property, or any felony that involves a substantial risk that physical force will be so used. Thus, although the new offense rests primarily on words of instigation to crime, what is involved is legitimately proscribable criminal activity, not advocacy of ideas which is protected by the First Amendment right of free speech.

Part C. Felony murder

Section 1004 expands the definition of felony murder in 18 U.S.C. 1111 and is identical to a provision in S. 2572 as passed by the Senate in the last Congress. Presently premeditated murder is murder in the first degree. Under common law, a murder committed during a common law felony was held to be committed with sufficient degree of malice to warrant punishment as first degree murder, but section 1111 only applies the felony murder doctrine to killings committed during an actual or attempted arson, rape, burglary, or robbery. The amendment would expand the list of underlying offenses by adding escape, murder—for example if the defendant acts in the heat of passion in an attempt to kill A but instead kills B—kidnaping, treason, espionage, and sabotage since these crimes also pose as great, if not more, danger to human life, as the four presently listed.

Part D.—Mandatory penalty for firearm use during violent crimes

Section 1005 provides for a mandatory sentence of imprisonment for a determinate period of time for using or carrying a firearm in a federal crime of violence. This section is similar to one included in S. 2572 as passed by the Senate in the 97th Congress and carries out one of the recommendations of the Attorney General's Task Force on Violent Crime. This section amends present section 924(c) of title 18 which attempts to provide for a mandatory minimum sentence, but is drafted in such a way that a person convicted of a violatIon may still be given a suspended sentence or placed on probation for his first violation. Moreover, present section 924(c) is ambiguous as to whether the sentence for a first violation may be made to run concurrently with that for the underlying offense. In addition, even if a person is sentenced to imprisonment under section 924(c), the normal parole eligibility rules apply. Section 1405 eliminates the possibility of a suspended or concurrent sentence, probation, and parole. A person convicted of using or carrying a firearm in relation to a crime of violence would be sentenced to imprisonment for five years for his first conviction and ten years for a subsequent conviction.

Part E.—Armor-piercing bullets

Section 1006 adds a new section 929 to title 18 to provide for a mandatory term of imprisonment for using armor-piercing handgun ammunition during and in relation to a federal crime of violence. It is identical to a provision in S. 2572 as passed in the last Congress. A mandatory sentence of imprisonment for five years is provided for using or carrying a handgun loaded with ammunition which would, if fired from the handgun, pierce the type of body armor commonly worn by police officers. A person convicted of a violation of this section could not be given a suspended or concurrent sentence or placed on probation and he would not be eligible for parole.

It should be noted that the mandatory punishment for the use of the armor-piercing ammunition under section 929 is in addition to the mandatory punishment for the use or carrying of the firearm under the amended section 924. Thus a person who robbed a bank with a handgun loaded with armor-piercing bullets would, if charged with and convicted of a violation of 18 U.S.C. 924 and 929, be sentenced to a mandatory term of imprisonment for ten years—five years for carrying the gun and five for the bullets—in addition to any punishment for the underlying bank robbery offense. This cumulative mandatory punishment for firearms and bullets is intended to serve a clear notice on criminals that they face substantial jail time for their use and to persuade them to leave firearms and particularly dangerous bullets at home when they are choosing weapons.

Part F.—Kidnaping of Federal officials

Section 1007 proscribes the kidnaping of a federal officer in the performance of his duties. It is identical to a provision in S. 2572 as passed by the Senate in the 97th Congress and amends the present kidnaping statute, 18 U.S.C. 1201, to cover the abduction of a federal officer listed in 18 U.S.C. 1114 if the crime is committed while the victim is engaged in his official duties or on account of his official duties. Presently only murder and assault on these persons are federal offenses and kidnaping would not be covered unless the victim happened to be transported in interstate commerce or the offense was committed in an area of special federal jurisdiction. The amendment also complements the amendments contained in the next section of the bill which proscribes the murder, assault, or kidnaping of family members of federal law enforcement officers and high level federal officials if the offense is committed to impede or retaliate against the federal officer or employee because of his official duties.

Part G. Crimes against family members of Federal officials

Section 1008 adds a new section 115 to title 18 to make it a federal offense to commit or threaten to commit a murder, kidnaping or assault upon a close relative of a federal judge, federal law enforcement officer, or certain federal officials if the purpose of the attack is to impede, interfere with, intimidate, or retaliate against the federal employee on account of his official duties. Since it would be an element of the new offense that the act was done because of the official duties of the employee, the section represents no real expansion of federal jurisdiction. The scope of the offense is linked to acts done with a purpose to obstruct or retaliate against federal officials because of their job-related responsibilities—acts for which a State or local jurisdiction might lack the necessary degree of interest to vindicate the crime and for which federal jurisdiction is thus appropriate.

The subjects of the new offense are family members—spouse, parent, brother, sister, and other relatives of the official who actually live in his household—of those government employees and officers most likely to be subjected to attacks by terrorists or other criminals in an attempt to interfere with vital functions of the government and the administration of justice, namely law enforcement officers, the President, Vice President, Members of Congress, Cabinet officers, federal judges including Supreme Court Justices, and persons protected by 18 U.S.C. 1114. In part, this section complements the provisions of P.L. 97-285, enacted in 1982 to protect Supreme Court Justices and Cabinet officers themselves by making attack on their persons federal crimes.

Part H. Amendment of the Major Crimes Act

Section 1009 amends the Major Crimes Act, 18 U.S.C. 1153, which provides for federal jurisdiction over the serious interpersonal crimes listed therein if committed by an Indian in the Indian country. Presently 14 felony offenses are covered. The section would be amended to add the offenses of involuntary sodomy and maiming and to cover larceny only if the property involves is worth in excess of $100.00. A crime committed by an Indian against the person or property of another Indian may only be prosecuted in federal court if it is listed in section 1153. Other such interpersonal crimes must be prosecuted in tribal court where the maximum punishment extends to six months' imprisonment and a $500.00 fine. Such punishment is not sufficient for the offenses of maiming, traditionally regarded as among the most serious of all crimes, or for involuntary sodomy, which frequently involves a minor child as the victim. Conversely, tribal courts are fully capable of handling petty larceny of amounts less than $100.00 and there is no need to continue federal court jurisdiction over such an offense.

Part I—Destruction of motor vehicles

Section 1010 deals with the destruction of motor vehicles and is also identical to a provision contained in S. 2572. It amends the definition of "motor vehicle" in 18 U.S.C. 31, the section that defines the term as it is applied in 18 U.S.C. 33 which proscribes the destruction of motor vehicles. Presently "motor vehicle" means any device used for commerical purposes on the highways for the transportation of passengers or passengers and property. It does not include vehicles used to transport only cargo. Another statute which does cover the actual or attempted destruction of cargo moving in interstate commerce, 15 U.S.C. 1281, is restricted to the destruction of the cargo itself. Thus, there is no federal coverage of a sniper who shoots at a cargo truck since the truck carries only cargo which usually is not destroyed. The amendment would close this gap by expanding the definition of "motor vehicle" to include a device used for carrying "passengers and property, or property or cargo."

Part J—Destruction of energy facilities

Section 1011 is also similar to a provision in S. 2572. It adds a new section 1365 to title 18 to make it a federal crime to knowingly and willfully damage the property of an energy producing facility in an amount that exceeds $100,000 or to cause any amount of damage which results in a significant interruption or impairment of the functions of the facility. The penalty for this offense may extend to ten years' imprisonment and a $50,000 fine. A punishment of up to five years' imprisonment and a $25,000 fine is provided for the lesser included offense of knowingly and willfully damaging the property of an energy facility in an amount that exceeds $5,000. The term "energy facility" is defined to include all types of electrical generating plants, and other facilities involved in the distribution, storage or transmission of electricity or other types of energy. It does not, however, include a facility subject to the jurisdiction of the Nuclear Regulatory Commission since the damaging of such facilities is already proscribed by 42 U.S.C. 2284.

Part K. Assaults on Federal officers

Section 1012 makes three amendments to section 1114 of title 18 which proscribes the killing of designated federal officers and employees while engaged in, or on account of the performance of their official duties. It is similar to section 322 of H.R. 3963 as passed, a portion of the bill which the Administration favored. First, section 1114 is amended to cover attempted murders. Second, its coverage is expanded to include certain officers in the Intelligence Community. Third, authority is given to the Attorney General to designate by regulation other classes of federal officers and employees for coverage under section 1114, an approach similar to that in several of the criminal code revision bills. This would provide a workable mechanism for extending federal protection to miscellaneous classes of persons as changing needs dictate. 18 U.S.C. 1114 is also used to define the scope of coverge of 18 U.S.C. 111 which sets out the offense of assault against persons "designated in section 1114." Thus, by virtue of section 111's cross reference to section 1114 the second and third of the above amendments also operate to modify the scope of the assault statute.

Part L. Escape from custody resulting from civil commitment

Section 1013 is designed to make it an offense to escape from confinement ordered pursuant to a court under the provisions of 28 U.S.C. 1826. That statute empowers a judge to order confined any person who, without cause, refuses to testify before a federal court or grand jury. Such confinement may extend for the life of the court proceeding or the term of the grand jury. Under present law persons who escape or attempt to escape from confinement as a result of such an order cannot be prosecuted. Moreover, such persons are on occasions already serving federal prison terms when they refuse to testify. If a federal prisoner if ordered civilly committed the criminal sentence is suspended for the duration of the civil contempt sentence to ensure that the confinement is in addition to and extends the time of the confinement for the criminal sentence. *See* 28 CFR 522.11(d). This in effect gives the prisoner a "free shot" at making an escape while confined pursuant to 28 U.S.C. 1826. Since such confinement is often in a local jail which may not be as secure as a federal prison, the incentive to attempt to escape can be great. Recently an unsuccessful attempt was made to prosecute under 18 U.S.C. 751 two persons in Arizona confined in a local correctional center pursuant to 28 U.S.C. 1826, but the court ruled that the section was inapplicable. Section 1315 of the bill would eliminate this loophole by making 18 U.S.C. 751, which prohibits escapes and attempted escapes, and 18 U.S.C. 752, which prohibits rescuing a prisoner or aiding his escape, specifically applicable to persons confined pursuant to 28 U.S.C. 1826. It is patterned after a provision in 28 U.S.C. 2902 which incorporates the provisions of 18 U.S.C. 751 and 752 for escapes by persons who have been civilly committed to the custody of the Surgeon General to determine if they are drug addicts.

Part M—Extradition reform

Chapter 209 of current title 18 of the United States Code (18 U.S.C. 3181-3195) entitled "Extradition" covers both interstate rendition and international extradition. This title would retain chapter 209 for interstate rendition provisions and create a new chapter 210 for international extradition laws.

International extradition is the process by which a person located in one nation is arrested and turned over to another nation for criminal trial or punishment. The new chapter 210 consists of eight sections. Section 3191 through 3196 deal primarily with requests made to the United States by foreign governments and set forth the procedure for determining whether a person located in this country should be delivered up to a foreign power. Section 3197 deals with the return of a fugitive extradited to the United States from a foreign nation. Section 3198 contains definitions and a provision on payment of the expenses incident to extradition. The proposed chapter replaces 18 U.S.C. 3181 and 3184-3195. Other Federal statutes on extradition, which include 18 U.S.C. 751, 752, and 1502, are not affected by this legislation.

The provisions of the proposed chapter substantially alter the present statutory law for several reasons.

First, many of the statutes on extradition have been in force without major alteration since 1882. Several have not been significantly changed since 1848. These antiquated provisions have proven increasingly inadequate in dealing with the modern problems in the international control of crime.

Second, there has been a marked increase in the number of extradition requests received and made by the United States in recent years. Those requests have revealed problems in the extradition process. Moreover, the requests have generated a number of published court decisions on constitutional and legal issues involved in international extradition. The judicial interpretation of the law contained in these court decisions fills important gaps in the present statutory law, and should be reflected in any new extradition legislation.

Third, the United States has concluded new extradition treaties with many foreign

countries in the past few years. The language of the present law is not adequate to fully implement some of the provisions of the new treaties, and therefore impedes fulfillment by the United States of its international obligations.

In summary, the following significant improvements in international extradition are accomplished by this title:

(1) Permits the United States to secure a warrant for the arrest of a foreign fugitive even though the fugitive's whereabouts in the United States is unknown or even if he is not in the United States. This warrant can then be entered into the FBI's NCIC system so that if the fugitive attempts to enter the United States or is apprehended in the United States for other reasons, he can be identified and arrested immediately for extradition to the requesting country.

(2) Provides a statutory procedure for waiver of extradition. This feature protects a fugitive's rights while facilitating his removal to the requesting country in instances in which he is willing to voluntarily go to the requesting country without a formal extradition hearing.

(3) Permits both a fugitive and the United States on behalf of the requesting country to directly appeal adverse decisions by an extradition court. Under present law a fugitive can only attack an adverse decision through habeas corpus. The only option available to the United States acting on behalf of a requesting country is to refile the extradition complaint with another magistrate.

(4) Clarifies the applicable standards for bail at all stages of an extradition case by adopting standards largely derived from Federal court cases.

(5) Establishes clear statutory procedures and standards applicable to all critical phases of the handling and litigation of a foreign extradition request.

(6) Sets forth specific procedures for determination of applicability of political offense exception to extradition and removes from that exception violent acts committed by terrorists and others and offenses involving international drug trafficking.

(7) Limits access to United States courts in connection with foreign extradition requests to cases initiated by the Attorney General.

(8) Permits use of a summons instead of a warrant to arrest in appropriate cases.

(9) Codifies the rights of a fugitive to legal representation and to a speedy determination of an extradition request.

(10) Simplifies and rationalizes the procedures for authenticating documents for use in extradition proceedings.

(11) Facilitates temporary extradition of fugitives to the United States.

Part N—Arson amendments

Section 1017 amends 18 U.S.C. 844(d), (f), and (i) dealing with arson and explosives to make it clear that the enhanced penalties provided for these offenses when a person is injured or killed apply where the injury or death involves a public safety officer performing his duties as a direct or proximate result of the offense.

Part O—Pharmacy robbery and burglary

Section 1019 amended the Controlled Substances Act so as to make it a Federal offense to rob a pharmacy or a person licensed under section 202 of the Controlled Substances Act of a controlled substance. It also would make it a Federal crime to commit burglary against the premise of a pharmacy or a person licensed under section 202 of the Controlled Substances Act. Penalties for committing these offenses vary depending upon harm caused and the habitual offender status of the defendant.

TITLE XI—SERIOUS NONVIOLENT OFFENSES

Title XI deals with serious, but not necessarily violent crimes.

Part A—Child pornography

Section 1101 amends title 18 provisions relating to the sexual exploitation of children so as to make them more effective and to incorporate the scope of this type of offense held to be constitutional by the Supreme Court in *New York* v. *Ferber*. The provisions here are identical to those contained in S. 1469, as reported. For further discussion, see S. Rept. No. 98-169.

Part B—Warning the subject of a search

Section 1103 provides for a new type of obstruction of justice offense. Under section 2232 of title 18 it is a misdemeanor to impair an authorized search by a law enforcement officer, such as a search in the execution of a warrant, by destroying or removing the property that is the object of the search. It is not, however, an offense to warn a person that his property is about to be the target of a search so that he can himself remove or destroy it. Recently a local policeman attempted to warn a narcotics dealer that a federal warrant for his house had been issued. This reprehensible conduct could not be successfuly prosecuted. Section 1103 fills this gap by adding a new paragraph to section 2322 to prohibit giving notice, or attempting to give notice of a search in order to prevent the authorized seizing of any property.

Part C—Program fraud and bribery

Section 1104 covers fraud or bribery concerning a program of a private organization or of a state or local government that receives federal financial assistance. It is based on a similar provision in S. 1630. Presently 18 U.S.C. 665 makes theft or embezzlement by an officer or employee of an agency receiving assistance under the Comprehensive Employment and Training Act (CETA) a federal offense. There is no statute of general applicability in this area and thefts from other organizations receiving federal financial assistance can only be prosecuted under 18 U.S.C. 641, theft of federal funds or other federal property. Prosecutions under this statute are severely limited inasmuch as it is necessary to prove that the money stolen is property of the United States. Frequently title has passed to the state or local government before it is stolen, or the funds are so commingled by the state or municipality that the federal character of the funds cannot be shown. Section 1104 is designed to remedy this situation and protect federal assistance programs from theft and fraud.

The section adds a new section 666 to title 18. Section 666(a) makes it a federal crime for an officer, employee, or agent of a private organization or of a state or local government that receives over $10,000 in federal benefits in one year pursuant to a grant, subsidy or guarantee program to steal, embezzle, obtain by fraud or otherwise improperly divert property valued at $5,000 or more.

Section 666(b) covers agents, officers, and employees of such organizations or governments who seek or accept a bribe or commission in connection with their conduct in a matter involving $5,000 or more, and section 666(c) covers the offeror of the bribe or commission. The punishment for a violation of the section is appropriately severe in light of the high minimum amount of property—$5,000—that must be involved for federal jurisdiction to attach. It extends to ten years' imprisonment, and a fine of up to $100,000, or an amount equal to twice that which was the target of the offense, whichever is greater.

Part D—Counterfeiting of State and corporate securities and forging of endorsements or signatures on U.S. securities

Section 1105 makes it a federal crime to counterfeit or forge state or corporate securities. It is similar to a provision in S. 1630. While this is an extension of federal jurisdiction, the need for such an extension was amply demonstrated several years ago in hearings held before the Senate Permanent Subcommittee on Investigations concerning organized crime and the theft and counterfeiting of corporate securities. (See Hearings on Organized Crime; Securities Thefts and Frauds, before the Permanent Subcommittee on Investigations, Committee on Government Operations, United States Senate, 93rd Cong., 1st Sess., Part 1, pp. 123-126). Present law is inadequate to combat widespread fraud schemes involving the use of counterfeit corporate and state securities. The use of these securities as collateral for loans and for other illegal purposes has a serious detrimental effect on interstate commerce. Moreover, these crimes invariably reach beyond State borders and thus local officials are generally unable to cope with them.

Section 1105 adds a new section 510 to title 18. Section 510(a) makes it a federal crime to make, utter, or possess a counterfeited or forged State, municipal, or corporate security. Section 510(b) proscribes making, receiving, possessing, selling or otherwise transferring an implement designed or particularly suited for making or counterfeiting such a security. Section 510(c) contains definitions for the section. The term "security" is broadly defined to include, inter alia, stocks, bonds, notes, checks, warehouse receipts, bills of lading and letters of credit.

Section 1105 would add to new section 511 to title 18, United States Code, to make it a felony: (1) with intent to defraud, to forge an endorsement or signature on a Treasury check, bond, or other security of the United States; or (2) to pass or attempt to pass such an obligation with intent to defraud. The bill would also make it a felony to exchange or receive, with knowledge of its false character, an obligation of the United States that has been stolen or bears a forged endorsement. The penalty would be a fine of not more than $250,000 or imprisonment for not more than 10 years, or both. However, if the amount of the obligation involved did not exceed $500, the penalty would be a fine of not more than $1,000 or imprisonment not to exceed one year, or both.

At present, violations for forgery of endorsement or fraudulent negotiation of a Treasury check or bond or other security of the United States are prosecuted under title 18, section 495. That section was not, however, drafted to deal specifically with government obligations, but instead expressly covers deeds, powers of attorney, and contracts. The basis for using section 495 to prosecute violations involving government obligations is the provision therein which penalizes the forgery or altering of "other writings." Sections 471 and 472 of title 18 are concerned with forgery and uttering forged obligations or securities of the United States. However, these sections

apply to forgery of the security, not forgery of endorsements.

Because section 495 was not drafted to deal with Treasury checks or bonds or other obligations of the United States, many of the variations of offenses involved with the forgery of obligations are not included under section 495. For example, it is currently possible for a thief to steal a Treasury check endorsed by a payee, endorse his own name and obtain the proceeds and not violate section 495. In addition, it is possible for a thief to steal one or more government checks or bonds from a rightful owner and sell or exchange them to a middle man and not violate section 495. In some cases no other federal statute would cover acts of this kind.

The proposal would make it impossible to prosecute both forgeries of endorsement and related crimes involving obligations of the United States under one section. It would greatly assist the Secret Service, which has the primary jurisdiction to investigate crimes involving obligations and securities of the United States and which would have jurisdiction with regard to new section 511 by virtue of the amendment of 18 U.S.C. 3056(a). New section 511 is not intended to redistribute investigative responsibilities in any way. Specifically, in this regard, the United States Postal Service would retain primary jurisdiction to investigate thefts from the mails.

Part E—Receipt of stolen bank property

Section 1106 deals with the receipt of stolen bank property. 18 U.S.C. 2113, proscribing bank robbery and bank burglary, prohibits in subsection (c) the receipt of property with the knowledge that it was stolen from a bank. Cases involving prosecutors under this subsection have held that the government must show that the defendant had knowledge that the property he received was stolen from a bank, not merely that he knew that it was stolen. See *United States* v. *Tavoularis*, 515 F.2d 1070 (2nd Cir. 1975), where a conviction was lost in spite of overwhelming evidence that the defendant knew he was receiving stolen property. Section 1106 revises 18 U.S.C. 2113(c) to eliminate the requirement that the defendant knew the property was stolen from a bank. The government must still prove, however, that the defendant knew the property he was receiving was stolen.

Part F—Bank bribery

Section 1107 revises and brings up to date the statute dealing with bribery of bank officers. Sections 215 and 216 of title 18 presently covers the receipt of commissions or gifts by bank employees for procuring loans, but they are inadequate, unduly complex, and obsolete in many respects. For example, these sections do not cover bribery of employees of federally insured credit unions, of member banks of the Federal Home Loan Bank System, such as savings and loan associations, or of bank holding companies. Section 1107 is based on a provision in S. 1630, and on S. 1428, introduced in the 93rd Congress. It combines existing sections 215 and 216 to bring up to date the list of covered institutions and to make other needed improvements.

The new Section 215(a) makes it an offense for any officer, director, employee, agent, or attorney of any covered institution to seek, accept, exact, receive, or agree to receive anything of value from any person other than his financial institution in connection with any business or transaction of his institution. The language is taken from the federal bribery statute, 18 U.S.C. 201. As is the case with that statute, it covers both the direct and indirect seeking and receiving of payments and covers payments to third parties. This represents an expansion of current law which is limited to certain specific transactions. The penalty is increased from one year's imprisonment, as is provided under current law, to five years' imprisonment. Moreover, the maximum authorized fine is increased from $5,000 to an amount equal to three times the amount of the bribe. A misdemeanor penalty of one year's imprisonment and a $1000 fine is provided if the bribe does not exceed $100.00.

Section 215(b) covers persons who offer or promise the bribe or commission to bank employees as proscribed in subsection (a). The penalties are the same as for the recipient.

Section 215(c) lists the covered types of financial institutions and defines the term "bank holding company."

Part G—Bank fraud

Section 1108 adds a new section 1344 to title 18 to provide for an offense of defrauding financial institutions which are federally chartered or insured. Present law covers the offenses of embezzlement, robbery, larceny, burglary, and false statements directed at these institutions. There is no similar statute generally proscribing bank fraud, and federal prosecution of a fraud directed at a bank may only be undertaken if the government can prove the elements of some other offense, such as mail or wire fraud, or making a false statement to a bank in violation of 18 U.S.C. 1014. The utility of this latter statute has been greatly diminished by the recent decision in *Williams* v. *United States*, 102 S. Ct. 3088 (1982), that it may no longer be applied to address check kiting, one of the most pervasive forms of bank fraud. While the use of the mail fraud statute, 18 U.S.C. 1341, allowed the successful prosecution of many bank frauds in the past, the 1974 case of *United States* v. *Maze*, 414 U.S. 395, has reduced this section's usefulness. In *Maze*, the Court held that proof that use of the mails occurred in or was caused by a fraudulent scheme was insufficient for conviction under the mail fraud statute. Instead, proof that use of the mails played a significant part in bringing the scheme to fruition would be required. In addition to the problems of proof posed by the *Maze* decision, banks' increasing use of private courier services for collection purposes in lieu of the mails has further limited the instances in which the mail fraud statute may be used to prosecute bank fraud.

The new section 1344 is designed to fill the gaps in present law and provide a straightforward way of preventing bank frauds. It is modeled on the present wire and mail fraud statutes, and proscribes executing or attempting to execute a "scheme or artifice to defraud" a federally chartered or insured financial institution, or to obtain property owned by or under the custody or control of such an institution "by means of false or fraudulent pretenses, representations, or promises." The term "federally chartered or insured financial institution" is defined to include generally banks operating under the laws of the United States or whose accounts are federally insured.

Since the use of bogus or "shell" offshore banks has increasingly become a means of perpetrating major frauds on domestic banks and the considerable delay in collections between domestic and foreign banks makes manipulation of foreign financial transactions an attractive mode of defrauding banks within the United States, it is also intended that the section have extraterritorial application in certain cases.

Part H—Possession of contraband in prison

Section 1109 adds a new section 1793 to title 18 to prohibit the possession of contraband articles by federal prison inmates. It is similar to a provision in S. 1630. Present law, section 1791 of title 18, proscribes only the introduction of contraband into or the taking of it from a federal penal institution. The new section 1793(a) covers the making, possessing or receiving of an object by a federal prisoner if the object may be used as a means of facilitating an escape and is possessed contrary to a rule or regulation promulgated by prison officials. The penalty is one year's imprisonment and a $1,000 fine. A greatly increased penalty of ten years' imprisonment and a $10,000 fine is provided in section 1793(b) for possession contrary to prison regulations of a firearm, a weapon or object intended for use as a weapon—e.g. a knife made from a bed post—and certain narcotics.

Part I—Livestock fraud

Section 1110, chapter 31 of title 18, to broaden the current Federal offense dealing with interstate transportation of stolen cattle to include all types of livestock and to reach theft and fraud in connection with the marketing of livestock in interstate or foreign commerce.

TITLE XII—MISCELLANEOUS PROCEDURAL AMENDMENTS

Title XII of the bill contains several procedural changes designed to facilitate the prosecution of persons who commit violent or other serious crimes.

Part A—Juvenile prosecutions

Sections 1201-1202 make several amendments to chapter 403 of title 18 concerning juvenile delinquency. Similar provisions were contained in S. 2572.

Section 1201 amends section 5032 of title 18 to provide that the provision relating to deferral of juvenile prosecutions to State authority does not apply to an offense that is a crime of violence that is a felony or a serious drug offense if there is such substantial federal interest in the case or in the offense that the exercise of federal jurisdiction is warranted. This amendment to current law was recommended by the Attorney General's Task Force on Violent Crime. That Task Force Report indicates, at page 83, that it believes that the federal government "should have the opportunity to prosecute those individuals be they adults or juveniles, who violate federal law".

Section 1201 also amends section 5032 to permit adult prosecution of certain juveniles charged with serious crimes against the person and arson.

Section 1202 amends section 5038 of title 18 to permit the fingerprinting and photographing of a juvenile found guilty of an act of juvenile delinquency that, if committed by an adult, would be a felony crime of violence or an offense relating to drug trafficking under section 841, 952(a), 955, or 959 of title 21. Under current law, the name and picture of a juvenile cannot be released in connection with any juvenile delinquency proceeding. The result is that frequently an adult with an extensive record will be sentenced as a first offender because the court is not familiar with his juvenile criminal history. This amendment of section 5038 is consistent with recommendation 58 of the Attorney General's Task Force on Violent Crime.

Part B—Wiretap Amendments

Section 1203 amends section 2518(7) of title 18 (part of title III of the Omnibus Crime Control and Safe Streets Act of 1968) to provide for emergency interceptions of wire or oral communications in life endangering situations. A similar provision was included in S. 2572 and in S. 1640, 97th Cong., as passed by the Senate on March 25, 1982.

Generally, ttle III requires prior court authorization of an interception of communications. However, 18 U.S.C. 2518(7) permits an emergency interception without such prior authorization under two types of emergency situations when there is not time to obtain a court order: those involving either "conspiratorial activities threatening the national security" or "conspiratorial activities characteristic of organized crime." The absence of similar specific authority to intercept communications in emergency situations in which there is an iminent threat to human life has been of grave concern of law enforcement authorities. Section 1203 would amend 18 U.S.C. 2518(7) to provide such authority.

As noted in the Senate Report on S. 1640 (S. Rept. 97-139, 97th Cong., 2d Sess., 1982) there have been situations where the need for such emergency authority was necessary and these situations may, unfortunately, arise again. For example, terrorists or other felons, while holding hostages, may use an available telephone to arrange with associates a strategy to force action on their demands or a plan of escape. Similarly, there may be situations in which plans for an imminent murder are learned, but the location or identity of the victim is unknown or law enforcement authorities are otherwise unable to take measures to assure his safety. In such situations, the interception of communications may be necessary to protect the lives of the hostages or victims, yet time for obtaining a court order may not be available.

Section 1203 also amends section 2516 of title 18 to add the offenses of wire fraud, child pornography, and violations of the currency transaction reporting statute (31 U.S.C. 5322) to the list of offenses for which a court ordered interception of a wire or oral communications is authorized, and to ensure that such an interception may be used in the investigation of the new witness tampering statutes, 18 U.S.C. 1512 and 1513, as added by P.L. 97-291.

Part C—Venue for Threat Offenses

Section 1204 is based on a provision in S. 1630; it slightly modifies the present venue statute, 18 U.S.C. 3237 and deletes section 3239. Section 3237 provides that an offense involving the use of the mails or transportation in interstate or foreign commerce is a continuing offense and, except as provided in another statute, may be prosecuted in any district from, through, or into which the commerce or mail matter moves. One such other statute is 18 U.S.C. 3239 which provides that with respect to the offense of telephoning or mailing threats, venue is only in the district where the threat was first placed in motion, such as the district in which the threatening letter was posted or in which the call was made. It is difficult to discern any reason to treat venue in threat cases differently from other continuing offenses, as a matter of right. For example, there appears to be no reason to mandate that a defendant who mailed a threat be tried where he mailed it but allow the government to prosecute a defendant who mailed an explosive in the district of mailing, the district of receipt, or any district through which it passed. Hence, section 3239 is repealed.

In addition, section 3237 is reworded to make it clear that the importation of an object or person into the United States is a continuing offense and may be prosecuted in any district from, through, or into which person or object moves. Cases such as *United States* v. *Lember*, 319 F. Supp. 249 (E.D. Va., 1970) have limited venue in importation cases to the district of entry rather than of final destination. This has created difficulties as the witnesses are usually located in the place of destination.

Part D—Injunctions Against Fraud

Section 1205 adds a new section 1345 to title 18 to allow the Attorney General to initiate a civil proceeding in a district court of the United States to enjoin a violation of chapter 63, dealing with mail and wire fraud and, as amended by section 207 of this bill, with bank fraud. A similar provision was contained in S. 1630. The Attorney General has discretion to determine whether he has received sufficient evidence to initiate the action. The section is designed to enable the Attorney General to seek the junction prior to the commencement of a criminal action—thereby bringing a speedy halt to the fraud scheme—but he can initiate the action at any time. The Federal Rules of Civil Procedure would apply except that if an indictment is returned the more restrictive discovery of rules of the Federal Rules of Criminal Procedure would apply.

Part E—Government Appeal of New Trial Orders

Section 1206 deals with the rights of the government to appeal a decision of the district court to grant a new trial to a convicted defendant. It is similar to a provision in S. 1630. Presently 18 U.S.C. 3731 allows an appeal by the government from a decision, judgment, or order of a district court dismissing an indictment or information except where prohibited by the Double Jeopardy clause. There is no provision for a government appeal of an order granting a new trial after a verdict or judgment, although such an appeal would not violate the Double Jeopardy clause. If the government prevails on appeal the original verdict or judgment can simply be reinstated. This is a far better way to correct an erroneous decision than a costly, time-consuming new trial, the only alternative under present law. Accordingly, section 3731 is amended to allow a government appeal after any decision, judgment or order in a district court granting a new trial.

Part F—Witness Security Program Improvements

Section 1207 of the bill makes several improvements in the Witness Protection Program by adding a new chapter 224 (sections 3521-3523) to title 18. Section 3521 expands the authority of the Attorney General to provide witness protection in cases other than those involving organized crime and broadens the definition of witness to include potential witnesses, victims, and their families.

Section 3521 also gives the Attorney General wider discretion to order the kinds of protective measures which he deems necessary than are authorized under present law. The Attorney General may provide official documents to enable a protected person to establish a new identity. He may provide housing and transportation of household goods to a new location if a protected person must be relocated. The Attorney General may also provide tax-free subsistence payments in a sum established pursuant to regulations for such time as he deems necessary. The Attorney General is also authorized to assist the relocated person in obtaining employment. Finally, the Attorney General is authorized, in his discretion, to refuse to disclose to anyone the identify, location, or other matter concerning a protected person. In ruling on a possible disclosure, he is authorized to consider the danger that would result to a relocated or protected person, the detriment a disclosure would cause to the general effectivenss of the program, and, conversely, the possible benefit to the public that might result from a disclosure.

Subsection 3521(c) deals with the occasional problem of a citizen who has a civil cause of action against a protected person but who cannot litigate because he is unable to learn of the person's new identity or location. The subsection seeks a balance between the usual policy of nondisclosure and the right of an innocent person to litigate for civil damages. The Attorney General is authorized to accept service or process on a person and is required to make a reasonable effort to serve the process on him at his last known address. If a judgment is entered, the Attorney General must determine if the relocated person has made reasonable efforts to comply with its provisions. If the Attorney General concludes that such reasonable efforts at compliance have not been made, he is granted discretion to reveal to the plaintiff the defendant's location, after giving appropriate weight to the danger to the protected person that will be caused.

Section 3522 provides that the provision of transportation, housing, subsistence, or other aid to a person under section 3521 may be conditioned on reimbursement of expenses in whole or in part to the United States by a state or local government.

Section 3523 provides general definitions for the chapter.

Part G—Clarification of Change of Venue for Certain Tax Offenses

Part G amends 18 U.S.C 3237(b), a provision relating to the right of a defendant to obtain a change of venue in a prosecution for a tax offense described in 26 U.S.C. 7201 and 7206 (1), (2), and (5) and which involves use of the mails, where the defendant does not reside in the district of prosecution. The purpose of the amendment is to clarify the meaning of language that has been the subject of divergent interpretations by the courts.

Criminal prosecutions of persons who promote abusive tax shelters and other types of illegal tax schemes are typically brought in the jurisdiction where the scheme was packaged. Particularly in the larger cases, some of the defendants may reside in other jurisdictions. The Court of Appeals for the Ninth Circuit recently held in *United States* v. *United States District Court (Solomon)*, 693 F. 2d 68 (1982) that where the mails are used as part of the offense—such as to file tax returns—defendants who did not reside in the district of prosecution were entitled to have the substantive tax courts transferred to their district of residence under 18 U.S.C. 3237(b). The court rejected the contrary holding of the Second Circuit (*In re United States* (Clemente), 608 F. 2d 76 (1979), cert. denied, 466 U.S. 908 (1980)), which found that a defendant was entitled to have the case transferred only when the prosecution relief upon use of the mails to lay venue in a district other than where the defendant resided.

The decision of the Ninth Circuit carries the prospect of two potentially lengthy trials instead of one. While the opinion recognizes the implications of the holding in terms of wasted judicial and prosecutive resources, the court felt that its decision was compelled by the language of the statute and suggested that if the results was disturbing, redress should be sought from the Congress.

Aside from the waste of resources, the current situation has also created considerable confusion. Recently, in a prosecution of a coal shelter tax scheme involving four defendants, the District Court for the Southern District of West Virginia transferred the portion of the case involving two defendants to the Eastern District of New York under Section 3237(b) on the basis of reasoning similar to that of the Solomon decision. The District Court for the Southern District of New York, however, relying on Clemente refused to docket the case and returned it to the Southern District of West Virginia which refused to redocket the case. The result of the conflicting positions taken by the West Virginia and New York courts is that the defendants in question cannot be tried in either district until this impasse in resolved.

Enactment of the amendments to Section 3237(b) would expressly preclude the unnecessary splintering of prosecutions in which multiple defendants are appropriately joined, would conserve judicial and prosecutive resources and would eliminate unseemly situations in which two courts by reason of differing interpretations of Section 3237(b) refuse to permit prosecution of a defendant in their respective districts.

Part H—18 U.S.C. Amemdments

Section 1209 amends 18 U.S.C. 951 so as to clarify the notification procedures for nondiplomatic foreign agents and to transfer the responsibility for receiving such notification from the Secretary of State to the Attorney General.

S. 1763. REFORM OF FEDERAL INTERVENTION IN STATE PROCEEDINGS

SUMMARY OF THE BILL

The bill would amend various provisions of title 28, United States Code, and a related Rule of Appellate Procedure, concerning the availability of collateral relief in the federal courts of State and federal prisoners. Among the matters addressed by these amendments are the standard of review in habeas corpus proceedings, the effect of procedural defaults on the subsequent availability of collateral relief, the time within which collateral relief may be sought, the requirement of exhaustion of state remedies, and the procedure on appeal in collateral proceedings.

Section 2 of the bill would add two new subsections to section 2244 of title 28, United States Code. Proposed section 2244(d) relates to the effect of a State prisoner's failure to raise a claim properly in State proceedings on the subsequent availability of federal habeas corpus. Proposed subsection (d)(1) of section 2244 sets out a general standard under which such a procedural default would bar access to federal habeas corpus unless it was the result of State action in violation of federal law. The main practical significance of this standard is that attorney error or misjudgment in failing to raise a claim properly would excuse a procedural default if it amounted to constitutionally ineffective assistance of counsel, since in such a case the default would be the result of the State's failure, in violation of the Sixth Amendment, to afford the defendant effective assistance of counsel, *See Cuyler* v. *Sullivan*, 446 U.S. 335, 342–45 (1980), But lesser degrees of attorney error or misjudgement would not excuse a default. This would adopt as the uniform rule the approach of the Second Circuit Court of Appeals in the case of *Indiviglio* v. *United States*, 612 F. 2d 624, 631 (1979), eliminating the great uncertainties that currently exist in this area. Proposed section 2244(d)-(2)-(3) further provides for excuse of a procedural default where a claim raised in a habeas corpus proceeding asserts a new, retroactive right subsequently recognized by the Supreme Court, or where the factual predicate of the claim could not have been discovered prior to the default through the exercise of reasonable diligence.

Proposed new section 2244(e) would establish a one year time limit on application for federal habeas corpus, normally commencing at the time State remedies are exhausted. This would provide State defendants with ample time to seek federal review following the conclusion of State proceedings, but would avoid the acute difficulties of proof that currently arise when Federal habeas corpus is sought by a prisoner years or decades after the State trial. The proposed limitation rule may be compared to various existing time limits on seeking review or re-opening of criminal judgements in the federal courts, such as the normal ten day limit on appeal by federal defendants under Fed. R. App. P. (4) (b); the normal ninety day limit on a State defendant's application for direct review in the Supreme Court under Sup. Ct. R. 11, 22; and the two year limit on motions for new trials based on newly discovered evidence under Fed. R. Crim. P. 33. Proposed section 2244(e) further provides for deferral of the start of the limitation period in appropriate cases, such as assertion of newly recognized rights or newly discovered claims.

Section 3 of the bill would amend section 2253 of title 28, United States Code, so as to vest in the judges of the courts of appeals exclusive authority to issue certificates of probable cause for appeal in habeas corpus proceedings. It would also create an identical certificate requirement for appeals by federal prisoners in collateral relief proceedings pursuant to section 2255 of title 28, United States Code. This would implement recommendations of Judge Henry Friendly of the Second Circuit Court of Appeals. *See* Friendly, *Is Innocence Irrelevant? Collateral Attack on Criminal Judgments*, 38 U. Chi. L. Rev. 142, 144 n. 9 (1970). The reform would correct inefficiencies of the current system under which an appellate court is obliged to hear an appeal on a district court's certification, though it may believe that the certificate was improvidently granted, and under which a prisoner is afforded duplicative opportunities to persuade first a district judge and then an appellate judge that an appeal is warranted. Section 4 of the bill would amend Fed. R. App. P. 22 to conform it to the amendments of section 603.

Section 5 of the bill would make various changes in Section 2254 of title 28, United States Code. Section 5(a) would amend current section 2254(b) to clarify that a habeas corpus petition can be denied on the merits notwithstanding the petitioner's failure to exhaust State remedies. This would implement a recommendation of Professor David Shapiro. *See* Shapiro, *Federal Habeas Corpus: A Study in Massachusetts*, 87 Harv. L. Rev. 321, 358–59 (1973). It would avoid the waste of State and federal resources that presently results when a prisoner presenting a hopeless petition is sent back to the State courts to exhaust State remedies.

Section 5(b) of the bill would add a new subsection (d) to section 2254, United States Code. Proposed subjection (d) would accord deference to the result of full and fair State adjudications. This would establish a standard similar to that stated by the Supreme Court in the case of *Ex Parte Hawk*, 321 U.S. 114, 118 (1944), prior to the unexplained substitution of the current rules of mandatory re-adjudication by the decision in *Brown* v. *Allen*, 344 U.S. 443 (1953). To be full and fair in the intended sense the State court determination must be reasonable, and must be arrived at by procedures consistent with applicable federal law, including the constitutional requirement of due process. In addition, re-adjudication by the federal habeas court would be allowed in cases in which new evidence of substantial importance came to light or a retroactive change of law of substantial importance occurred after the State proceedings. The general sense of the proposed reform is that reversal of a State conviction after a lapse of years and affirmance by the appellate courts of the State should rest on a finding by the habeas court of a signficant error or deficiency in the State proceedings. A mere reasonable difference of opinion in a case in which the proper dispostion is unclear should not be grounds for disturbing a State judgment in a habeas corpus proceeding.

Section 5(c) of the bill would simplify current section 2254(d), which is verbose, confusing, and obscure; redesignate it as section 2254(e); and bring its formulation into conformity with that of proposed new section 2254(d). This provision would be of minor practical significance, coming into play only when the general standard governing deference to State determinations in proposed new section 2254(d) was found by the habeas court to be unsatisfied.

Section 6 of the bill would amend section 2255, 28 United States Code. It would carry out reforms in the collateral remedy for federal prisoners comparable to the rule proposed in section 2 of the bill governing excuse of procedural defaults and time limitation in habeas corpus proceedings.

S. 1764, EXCLUSIONARY RULE REFORM, SUMMARY OF THE BILL

The bill would add a new section 3505 to title 18 of the United States Code governing the Fourth Amendment exclusionary rule. It would provide that except as specifically provided by statute, evidence obtained as a result of a search or seizure and which is otherwise admissible shall not be excluded in a proceeding in a federal court if the search of seizure was undertaken in a reasonable and good faith belief that it was in conformity with the Fourth Amendment. It would also provide that a showing that the evidence was obtained pursuant to and within the scope of a warrant constitutes prima facie evidence of such a reasonable good faith belief unless the warrant was obtained through intentional and material misrepresentation.

Initially, although the Fourth Amendment secures the right of persons to be free of "unreasoanble" searches or seizures it should be noted that there are no constitutional or statutory provisions which specifically set limits on what is meant by an "unreasonable" search or seizure. Instead, the law in this area is an amalgam of cases deal-

ing with a vast range of issues relating to the undertaking of searches and seizures. The crux of the present problem which would be overcome by the new section 3505 is that as courts have continued to develop the law of search and seizure they have continued to apply the exclusionary rule in situations where it could not possibly deter unlawful police conduct, the foremost rationale for the rule.

The new section 3505 deals with this situation by providing that evidence obtained as a result of a search undertaken in reasonable good faith as to its lawfulness shall not be excluded since actions undertaken in reasonable good faith are not susceptible of being deterred. The often highly probative evidence found during a search undertaken by the officers in reasonable good faith would be admitted and the attention of the court in a criminal case would remain focused on the question of the defendant's guilt or innocence, not diverted to a consideration of possible police error in applying the ever evolving law of search and seizure. Section 3505 would still allow consideration of police conduct but the issue would be whether the actions of the law enforcement officers were undertaken in a reasonable and good faith belief that they were lawful.

Such good faith is clearly shown when an officer makes an arrest in reliance on a statute that is later found to be unconstitutional or relies on a duly authorized search warrant, a judicial mandate to search while he has a sworn duty to carry out. Hence, the section specifically provides that a showing that evidence was obtained pursuant to and in that scope of a warrant constitutes prima facie evidence of such a reasonable good faith belief. However, a search pursuant to a warrant would not constitute such evidence if the warrant were obtained through intentional and material misrepresentation. This standard is derived from *Franks* v. *Delaware*, 438 U.S. 154 (1978) where the Court emphasized the presumption of validity with respect to an affidavit offered in support of a warrant but held that "where the defendant makes a substantial preliminary showing that a false statement knowingly and intentionally, or with reckless disregard for the truth, was included by the affiant in the warrant affidavit, and if the allegedly false statement is necessary to the finding of probable cause, the Fourth Amendment requires that a hearing be held at the defendant's request." 438 U.S. at 155–156. If at the hearing the defendant establishes that perjury or reckless disregard for the truth was present, and with the affidavit's false material set aside, the remaining material is insufficient to establish probable cause for the warrant's issuance, it must be voided and the fruits of the search excluded.

The section is not, however, limited to searches executed pursuant to a warrant. An officer may in good faith make a reasonable interpretation of a statute which a court determines to be inconsistent with the legislative intent, or may reasonably and in good faith conclude that a particular set of facts and circumstances gives rise to probable cause to conduct one of the types of judicially sanctioned warrantless searches, or that a warrant is not required. The proposed legislation would cover such situations as well.

Although intended primarily to apply in criminal proceedings brought in federal court, the proposal is drafted so that the same reasonable good faith test would apply to the obtaining of evidence offered in all types of proceedings in federal courts such as applications for federal habeas corpus petitions filed by State prisoners and federal civil cases. Indeed these are the types of cases where the deterrent effect of the rule has already been found to be minimal at best and greatly outweighted by the societal cost of excluding the evidence. In *Stone* v. *Powell*, 428 U.S. 465 (1976), the Supreme Court held that were a State has provided a full and fair opportunity for litigation of Fourth Amendment claims, a State prisoner may not be granted federal habeas corpus relief on the grounds that evidence obtained by an unlawful search and seizure was introduced at trial.

In *United States* v. *Janis*, 428 U.S. 433 (1976), the Court held that the exclusionary rule should not be applied to forbid the use in federal civil proceedings of evidence seized by State officers in good faith reliance on a search warrant that proved to be defective. While the Janis holding (the scope of which would not be affected by section 3505) related specifically to the use in the courts of one sovereign of evidence obtained by law enforcement agents of another sovereign, the lack of any deterrent effect of applying the rule would be analogous in the case of a search by federal officers who were acting in good faith.

Under section 3505 law enforcement officers would still be required to keep abreast of the complex law of search and seizure because the conduct of an officer will have to be informed to be reasonable. The section would not reward ignorance on the part of the police. It simply restrains the rule to its proper boundaries where it will remain as a "judicially created remedy designed to safeguard Fourth Amendment rights generally through its deterrent effect . . ." *United States* v. *Calandra*, 414 U.S. 338, 348 (1974). Thus the proposal would not eliminate the exclusionary rule but rather will eliminate the disrespect for the law that its application often engenders in the minds of the police and the public alike. Moreover, when the rule is applied in the case of a trivial violation or mistake by the police as to whether the requirements of the law have been complied with, and results in the acquittal of a criminal guilty of a serious crime or alters the result in a significant civil proceeding, the lack of proportionality of the sanction applied to the officer's mistake is so great that the confidence of the public in our system of justice cannot help but be eroded. In cases of this nature, where the police have reasonably tried to apply the complex law of search and seizure, the rule has a grossly distorting effect on our system of justice where the central purpose is to search for the truth and, in criminal cases, ensure that the guilty are convicted and the innocent are acquitted.

A suggestion that Congress should act to restrict the scope of the exclusionary rule was made over ten years ago by the Chief Justice in his dissent in *Bivens* v. *Six Unknown Named Agents of the Federal Bureau of Narcotics*, 403 U.S. 388, 422–424 (1971). Since section 3505 is grounded primarily on the cases decided since that time in which the Supreme Court has emphasized the deterrence of unlawful conduct as the sole or primary purpose of the rule, the section's modification of the rule is constitutionally permissible. Moreover, the substance of section 3505 is very similar to that already adopted by the Fifth Circuit *en banc* in *United States* v. *Williams*, 622 F.2d 830 (1980), *cert. denied*, 449 U.S. 1127 (1981) in a decision based on a thorough analysis of relevant Supreme Court cases, and it basically follows the recommendation of the Attorney General's Task Force on Violent Crime which conducted hearings on the issue around the country and received the opinions of distinguished citizens and jurists of all points of view.

S. 1765—Capital Punishment

SUMMARY OF THE BILL

The purpose of the bill is to establish a constitutional procedure for the imposition of the death penalty in Federal cases involving murder, the attempt to kill the President, treason, and espionage. It is designed to meet the criteria established by the Supreme Court in *Furman* v. *Georgia* (1972) and subsequent cases that, in essence, require legislative guidance to be applied in such a manner as to ensure the penalty will not be imposed arbitrarily and capriciously.

The bill would provide that, after a conviction for an offense for which a penalty of death is authorized, the court must hold a separate hearing on whether to impose the death penalty. The bill would largely leave unchanged the current law offenses that authorize the imposition of the death penalty, except to provide the death penalty for the first time for an attempt to assassinate the President that results in bodily injury to the President or comes dangerously close to success. The hearing would normally be before the same jury which sat for trial, or, if both parties agree, before the judge. After both sides have an opportunity to present all relevant information, the jury would be asked to make special findings as to whether any of a list of mitigating or aggravating factors exist. The statutory mitigating factors include such things as the fact that the defendant was less than eighteen years of age, the extent of his involvement in the offense, mental problems or pressures, substantial duress, and the unforeseen nature of a resulting death. The aggravating factors would vary depending on whether the offense is one relating to espionage or treason, or to murder. Aggravating factors relating to espionage and treason include a past conviction for an offense involving espionage or treason, whether the offense created a grave risk of substantial danger to the national security, and whether the offense created a grave risk of death to another person.

With respect to imposition of the death penalty for a homicide, i.e., murder, felony-murder, accomplice liability, or an attempt to kill the President, the bill provides that the jury must find that the defendant (1) intentionally killed the victim; (2) intentionally inflicted serious bodily injury that resulted in the death of the victim; (3) intentionally participated in an act that he knew, or reasonably should have known, would create a grave risk of death to a person, other than one of the participants in the offense, and the victim died as a direct result of the act; or (4) if the offense is an attempt to kill the President, engaged in conduct that resulted in bodily injury to the President or otherwise came dangerously close to causing the death of the President (see new 18 U.S.C. 3591(c) and amendments to 18 U.S.C. 1751).

Once this initial determination is made, the statutory aggravating factors for homicide are relevant as to whether the death penalty may be imposed. These factors include existence of repeated serious violent crimes by the defendant, commission of the offense in an especially heinous, cruel, or depraved manner, or for hire, or against United States or foreign officials most likely

to be the targets of assassination, kidnapping, and terrorism.

For the offense of treason or espionage, the jury would be required to determine whether any aggravating factors exist. If no aggravating factors are found to exist, the court would impose a sentence, other than death, authorized by law. If the jury agrees that at least one aggravating factor exists, the jury by unanimous verdict would then determine, in light of all the evidence, whether the aggravating factors found to exist sufficiently outweigh any mitigating factors found to exist, or, in the absence of mitigating factors, whether the aggravating factors are themselves sufficient to justify a sentence of death. If the jury finds that the death penalty is justified, the court is directed to impose a sentence of death.

For homicide offenses, the jury must find that one of the four threshold circumstances existed.

If this requirement is not satisfied, the court would impose a sentence, other than death, authorized by law. However, if this requirement is satisfied, the jury must then determine whether any of the aggravating factors exist. Upon the failure to find at least one of the other aggravating factors, the court would impose a sentence, other than death, authorized by law. On the other hand, if the jury finds that at least one of the other aggravating factors exists, it must by unanimous verdict determine, in light of all the evidence, whether the aggravating factors found to exist sufficiently outweigh any mitigating factors found to exist, or in the absence of mitigating factors, whether the aggravating factors are themselves sufficient to justify a sentence of death. If the jury finds that the death penalty is justified, the court is directed to impose a sentence of death.

The bill further provides that the defendant shall have a right to appeal the sentence and that such review shall have priority over all other cases. In order to affirm the sentence, the appellate court must determine that the sentence of death was not imposed under the influence of passion, prejudice, or other arbitrary factor and that the evidence supports the special findings.

● Mr. LAXALT. Mr. President, all of us in this room and in this Nation know that crime—and in particular, organized crime and drug-related crime—constitutes one of the major threats to our well-being and our way of life.

The figures are staggering: 25,000 lose their lives to crime each year; 25 million households were victimized by crime in 1981; over 12 million criminal cases were filed in 1981—an increase of more than 30 percent over the 1977 figure.

The connection between crime and illicit drugs is clear. Based upon Department of Justice studies, we can estimate more than one-third of the criminals in our jails and at least one-half of those in prison for drug crimes were under the influence of drugs at the time they committed their crimes. The illicit drug business is an $80 billion a year industry, and the profits from illegal drug transactions exceed the total profits of the largest 100 corporations in the United States.

In the face of this onslaught of crime, the Judiciary Committee joined forces with the Reagan administration and approved the largest array of anti-crime legislation in recent memory. The bills we are reporting to the Senate today have two simple purposes: We want to return commonsense to the Federal criminal justice system, and we want to give our Federal law enforcement officers the legal weapons they need to defeat the forces of crime in our country.

We are reporting a comprehensive crime package that enables our judges to keep dangerous criminals off the streets until trial and that establishes "truth-in-sentencing" in the Federal system. We are reporting a capital punishment bill that will enable the Federal courts to sentence those guilty of the most evil crimes to death. We are also reporting a bill that will restore reason to the Federal habeas corpus jurisdiction and another bill which modifies the exclusionary rule that too often permits the guilty to go free because the officer made an honest mistake.

In addition to these commonsense provisions, the bills we are reporting also provide significant new weapons to Federal officers. The crime package contains a forfeiture bill that will enable us to cripple, rather than wound, the multibillion-dollar drug industry operating in this country. The package also contains much needed revisions of the laws relating to controlled substances.

Finally, the committee and the administration recognized that in the war on crime, the Federal Government plays only a minor role—and that is as it should be. Accordingly, the crime package we are reporting today contains a Justice Assistance Act that will streamline the Federal agencies and provide money to the State and local forces who bear the brunt of the law enforcement duties. The package also provides resources to the States to enable them to construct more prisons and criminal justice facilities.

In short, Mr. President, the committee is reporting to the Senate an arsenal of well-reasoned crime legislation that will aid both Federal and State law enforcement agencies. The legislation is desperately needed, and I urge the Senate to act on these proposals as soon as possible.●

● Mr. CHILES. Mr. President, one of the basic reasons for the existence of government is the protection of those governed. Governments establish and enforce laws specifically designed to protect the safety of individuals. This protection encompasses the intertwined and thorny problems of how to prevent people from turning to crime and how to punish those who do. Sometimes we lose sight of this essential purpose of government. We become involved in other issues and other interests; important yes, but not as important as the very reason why humans band together, cede certain individual liberties, and form governments * * * the need to be secure, to be safe. The establishment of laws controlling criminal behavior is one of our main duties. From time to time we fall short of meeting that duty or only address it in bits and pieces. Today, we have the opportunity to face the task squarely and comprehensively. Today, the Senate is again presented with a comprehensive package to deal with those elements of crime which substantially affect and weaken the security of our Nation.

While increasing criminal activity has ravaged the people of this country in recent years, there has been no comprehensive effort in Congress to strengthen the ability of law enforcement agencies and our Federal courts to find the guilty and insure they are dealt with firmly and effectively.

Last year, Congress did approve a package of bills which in my opinion would have been very helpful. However, that effort fell victim to President Reagan's veto because of his opposition to the requirement for setting up a Cabinet-level officer to coordinate Federal drug-fighting efforts. So it became necessary to try again, to renew legislative efforts with the new Congress.

Now, the Senate Judiciary Committee has produced an omnibus crime control act composed of most of the proposals that I and others have pushed and supported for years. Missing from last year's package, not surprisingly, is the Federal drug coordinator plan that incurred the Presidential veto. I believe this is essential to drug law enforcement efforts and plan to continue my support in a separate proposal to accomplish this. Also missing is another essential aspect, the reform of the habeas corpus law in order to limit frivolous appeals which bog down courts and unnecessarily delay justice. This I also plan to press for through separate legislation.

Still, the work of the Judiciary Committee brings together a number of significant elements. Some of the key parts:

For the first time ever, Federal courts could deny bail to a defendant on the basis that release would pose a threat to the community.

Parole and good-behavior credits would be limited. A new sentencing commission would be created to promote more uniform sentencing procedures.

The insanity defense would be limited to those "unable to appreciate the nature or wrongfulness of their acts." The burden of proof of insanity would be on the defendant.

Federal penalties for narcotics offenses would be strengthened.

Seizure of the profits and proceeds of organized crime and drug traffick-

ing operations—or "substitute assets" where crime-related assets are beyond the reach of government—would be allowed.

To limit crime money laundering, existing laws prohibiting transportation of currency out of the country would be expanded and strengthened.

Murder-for-hire and crimes aiding racketeering would be made Federal offenses, thus involving the investigative capabilities of the FBI.

Federal laws regarding child pornography and fraud and bribery related to Federal programs would be beefed up.

Donation of surplus Federal property to State and local governments for urgently needed confinement facilities would be facilitated.

Some of these proposals will undoubtedly generate disagreement and there will certainly be strong lobbying in opposition, but I hope to see the Senate adopt this package as soon as possible, paving the way for House action.

We in Congress have the obligation to pass legislation that will help make our communities safe. If we do not meet the challenge, our law enforcement people and courts will be hard pressed to contain organized crime, drug smuggling, and other illegal activities, let alone turn the tide against it.

We should meet the task of protecting our communities head on with strength and sureness. Mr. President, I am pleased to be a sponsor of and urge its prompt adoption.●

● Mr. D'AMATO. Mr. President, 2 days ago, I spoke on the Senate floor in support of the "Comprehensive Crime Control Act of 1983." I am proud to be the first Senator, not a member of the Judiciary Committee, to cosponsor this historic "core package" of anticrime measures. I commend the Judiciary Committee for reporting this legislation prior to the summer adjournment, and I urge my colleagues to use the lull in legislative activity over the next several weeks to examine this package carefully. I hope that this prompt and intelligent action by the Senate Judiciary Committee will encourage the House to act with comparable decisiveness against crime.

It is my conviction that it is time to pay increased attention to the rights of society and of the victims of crime. I believe we are at an historic crossroads, where we have it in our power to make our communities safe again, if we will only make the commitment of will and resources necessary to do the job. I believe that striving for that goal is one of the noblest tasks an elected official can undertake. That is why I have used the term "statesmanlike" to describe the work of the Judiciary Committee in developing the Comprehensive Crime Control Act. Without violating the rights of the accused, the committee has reported legislation to the full Senate that serves the highest constitutional principle of insuring domestic tranquillity. For that reason, the act deserves to become law during the present Congress.●

● Mr. KENNEDY. Mr. President, I am pleased to join my colleagues on the Judiciary Committee in introducing the bipartisan crime package which was approved by the Senate Judiciary Committee as a new committee bill on July 21. I commend the chairman of the Judiciary Committee, Senator THURMOND, the ranking minority member, Senator BIDEN, and the chairman of the Criminal Law Subcommittee, Senator LAXALT, for their untiring efforts in developing this unprecedented and far-reaching bipartisan package.

We face a serious problem of crime in America, and there is an urgent need for effective leadership by the Federal Government. The bill which the Senate Judiciary Committee reports to the Senate today is a major anticrime package containing essential reforms with widespread bipartisan support in the committee and the full Senate.

In my view, the most important provisions in this legislation relate to sentencing and bail—the two areas where reform is most overdue. The bill replaces our haphazard approach to sentencing with a new system which establishes a commission to develop sentencing guidelines for judges, abolishes parole, and provides for appellate review of sentences. The sentencing provisions of this bill are identical to those in S. 668, which I introduced earlier this year and which is also being reported to the Senate today.

With respect to bail, the committee bill for the first time allows judges to consider the dangerousness of a defendant in determining whether and under what conditions to permit release on bail.

The bill also provides important weapons against drug trafficking and organized crime through stiffer penalties and stronger forfeiture statutes. The bill also provides procedures to deal with violent juvenile offenders. Finally, it gives desperately needed Federal assistance to State and local prosecutors.

This new bill embodies a unique consensus that has been developing in the judiciary Committee over several years to achieve reforms needed to wage a successful war against crime. But the bill is equally notable for three provisions that it does not contain—it excludes the highly controversial proposals to limit the exclusionary rule and heabeas corpus, and to reinstate the death penalty. Judiciary Committee Senators in both parties know that we cannot enact effective anticrime legislation unless we separate these controversial issues from the major effort. We have considered these issues separately in committee and Senators THURMOND, LAXALT, BIDEN and I have agreed to work together to keep them out of this crime package when it is debated by the full Senate.

The continued bipartisan cooperation that has brought us to this point is an unusual achievement for which many Senators deserve great credit. The measure before us is proof that Congress can adopt significant anticrime legislation, without jeopardizing the constitutional rights or the civil liberties of any citizen.

I look forward to early action by the Senate and the House on this committee bill and on S. 668, the separate sentencing bill.●

● Mr. CHILES. Mr. President, I am delighted to join with Senator THURMOND in sponsoring reform of Federal Intervention in State Proceedings Act which today was reported out of the Judiciary Committee. This bill addresses the need for reform of the Federal habeas corpus law.

A recent poll disclosed that over 70 percent of the American people have little or no confidence in the ability of our courts to convict and sentence criminals. I believe that this lack of public confidence in our criminal justice system is well founded, and that reform of our courts is essential to the fight against crime. One important aspect of this court reform must be the establishment of more finality in our criminal justice system. That means doing something about the endless number of appeals a prisoner is able to file under today's Federal habeas corpus statutes, notwithstanding the latest decision by the U.S. Supreme Court to encourage the adoption of better guidelines by appellate courts in this matter. That decision can be interpreted to only extend to death penalty cases so the need is still there with regard to all other cases.

Mr. President, a movement to reform our inadequate habeas laws has been growing nationwide. Attorneys general across the country have written and implored the Congress to act promptly to rectify this problem. Many other involved in our criminal justice system have for some time now called on us to act to restore the writ of habeas corpus to its original purpose.

The bill that I cosponsor with Senator THURMOND and the committee was designed to address some of the problems in the current system. The purpose of the bill is to give greater respect to orderly State court procedures; to assure that habeas corpus cases are considered in a timely manner; and to instill the notion of finality of judgment into our State criminal justice systems.

I believe that the current state of affairs is harmful to the effective func-

tioning of our courts. First of all, the easy availability of review after review is at odds with one of the most fundamental principles of our judicial system: the notion of finality. Habeas cases relitigate the facts and issues that were decided in the State courts. The current system operates in such a way as to suggest that a prisoner, duly convicted in a full and fair State proceeding, can challenge that conviction time and time again, for years or even decades after his State court conviction became final. Factual issues can end up being redetermined long after the crime was committed and the initial trial was held. In the meantime, evidence may have disappeared or key witnesses may no longer remember crucial details. The State is prejudiced by these long delays, and more importantly, the delays hurt the reliability of the factfinding process. Needless to say, extensive Federal court review of State court convictions can create unnecessary friction between the State court system and the Federal courts.

This lack of finality hampers the justice system in other ways as well. It erodes the deterrence factor in swift and sure punishment of the guilty. It erodes public confidence in the courts and in the criminal justice system to deal with crime and, in turn, fosters fear. Furthermore, the sheer volume of petitions filed is a strain on the limited resources of our courts. When our prosecutors, defense attorneys, and judges devote their time and efforts to reviewing and processing these petitions, we end up diluting the resources of the courts. We then add to the delay in bringing original criminal and civil cases to trial. Ironically, the flood of petitions may actually hurt those who have valid habeas claims.

I believe that if a person does not get a fair trial in the State courts, he should be entitled to one in the Federal courts. But I also believe that our criminal justice system cannot serve society if we allow any case to be reopened at any time, and on practically any grounds. These beliefs can be balanced. In today's system, however, they are not balanced. The bill that has just been reported and S. 117 which Senator NUNN and I introduced in January are attempts to strike a more equitable balance.

Mr. President, I urge the support of my colleagues for this legislation which represents a step toward expediting the dispensation of justice in our Nation.●

By Mr. MATHIAS, from the Committee on Rules and Administration:

Special Report on Allocation of Budget Totals (Rept. No. 98-210).

By Mr. BIDEN, from the Committee on the Judiciary, without amendment:

S. 1787: A bill to establish an office of the Director of National and International Drug Operations and Policy.

DRUG COORDINATOR

Mr. BIDEN. Mr. President, the Judiciary Committee has acted on and reported to the floor a bill which we believe will be a major step forward in improving the antidrug effort in this country.

This bill was passed by both the Senate and House of Representatives with overwhelming bipartisan support last year, only to be vetoed by the President at the close of the 97th Congress.

I am happy to say that we again have bipartisan support in the Judiciary Committee to move forward in establishing a cabinet-level office for coordination of our antidrug effort. The vote on this bill was 12 to 5 in the Judiciary Committee 2 weeks ago and the vote by the full Senate last Congress was 63 to 33.

Those of us who have been charged with oversight of the Federal narcotics control effort over the past three Congresses have come to the firm conclusion that lack of coordination is one of the most serious impediments to a more effective narcotics control program. Of course, the most tragic fact is that it is a self-inflicted wound that we had imposed upon ourselves and one that was repeated by the President's veto.

At the request of the New York Times I prepared a list of the examples of interagency turf wars that have foiled drug control, examples that had come to my attention while I was charged with oversight of the narcotics program in the 96th Congress.

Mr. President, I ask unanimous consent to have this article printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. BIDEN. Mr. President, in summary, this article pointed to failures by DEA to follow up on cases provided it by Customs, duplication and inflation of seizure statistics by IRS, Customs, and DEA, unilateral withdrawal from narcotics intelligence collection by CIA and the failure to coordinate recent Reagan administration law enforcement programs with State Department.

We now have available a detailed report by the General Accounting Office concerning the lack of coordination of our drug enforcement effort. I shall just summarize a couple of general points that GAO and others charged with oversight of Federal narcotics policy have all been making for most of the last 20 years:

Fragmentation of the narcotics program has been a problem for most of the past two decades;

There have been as many so-called grand strategies for narcotics control during that period as there have been administrations, the most recent being issued last October—none has adequately defined the exact roles of each of the agencies or delegated specific tasks for the agencies. Indeed to call them strategies is gross exaggeration.

The so-called drug coordinator in the White House has no real authority to manage all Federal drug efforts so its not surprising that no real strategy has emerged.

This administration has proposed to deal with the coordination issue by creating new interagency coordinating entities. It has created 12 new task forces that we have learned in hearings before the Judiciary Committee will create about five new levels of bureaucracy through which decisions must pass before a task force investigator can get the go ahead to open an investigation. We are soon going to need coordinators to coordinate the coordinators.

It seems as though we are incapable of learning from our mistakes. But at least since 1972 various high-level policy reviews in past administrations, as well as the GAO, have pleaded for better coordination.

The opposition to the drug coordinator bill last Congress was based on bureaucrats concerned with protecting their turf. I still believe that to be largely the case. Although I have been gratified to hear that there were middle level career law enforcement officials who strongly support the creation of a cabinet level office. Several came forward to confidentially tell my staff and the GAO of their support.

This administration, like past administration's, has buckled to the pressures of the bureaucracy and have continued the process of decision by committee which leaves no one in charge, no one responsible and no consistency for planning, establishing or carrying out a coordinated drug enforcement effort.

Mr. President, at this time I believe it helpful if I place in the RECORD a response to some of the criticisms raised by the administration in their opposition to this bill last Congress.

1. Argument against: The authority of the Attorney General would be undermined.

Response: I made it clear throughout the discussions with the administration, including our meeting with the President last year, that I had no objection to the Attorney General serving the role as the chief coordinator.

2. Argument Against: This bill would bring the White House into day to day law enforcement decisions.

Response: I have made clear in the past, it was never our intent that this office be located in the White House. Indeed I am not certain where that idea came from in the first place. This bill would create an office in the executive branch of government not in the executive office of the President. Besides unlike White House staff this individual would be appointed with the advice and consent of the Senate and therefore would be appearing before the Senate committee on a regular basis.

3. Argument against: The bill would take away the individual authority of other cabinet members and agency heads.

Response: I have always thought that it was clear that such direction would be subject to an appeal to the President. As a practical matter that's how the DCI enforces tasking requirements upon the components of the intelligence community. For example, if the DCI orders the Secretary of Treasury to place its highest priority on collecting intelligence on the international banking activities of the Amtorg bank (an arm of the Soviet Government) and the Secretary of Treasury feels its more important to use the Department's resources to find out what Chase Manhattan has done in over-extending itself to the Mexicans the Secretary can appeal to the President.

4. Argument against: The Administration hasn't had a chance to explain their objections.

Response: The fact I am now listing arguments made by the Administration indicates their position is widely known. Let me list the times and places just in the last year in which the President or a member of the Executive Branch has commented on this proposal.

Department of Justice letter to the Chairman dated September 30, 1982.

The President's Memorandum of Disapproval in vetoing the Crime Bill dated January 14, 1983.

Countless news articles about the veto of the crime bill during the week of January 15th.

Testimony by the Attorney General and FBI Director Webster at an Organized Crime and Drug Trafficking Hearing on January 27, 1983.

Testimony by Carlton Turner, Director of the Office of Drug Abuse Policy on February 17, 1983 before the House Judiciary Committee Hearing entitled "Coodination of Drug Enforcement Efforts".

Senate Judiciary Hearing on S. 829 the Comprehensive Crime Control Act of 1983 on May 4, 1983 when the Attorney General and Rudolph Guiliani, former Associate Attorney General testified.

5. *Argument against:* The bill would create an unnecessary and costly layer of bureaucracy.

Response: This is the argument that most troubles me. The whole purpose of this bill is to give one person authority to cut through existing bureaucratic barriers to coordination. Indeed this Administration's answer, like those in the past, has been to create coordinating groups and councils. Indeed, we now have at least eight groups or councils or committees that purport to coordinate the activities of the 9 cabinet and 33 agencies involved in drug control and prevention. This is "decision by consensus" that leaves no one responsible and is not efficient. The public would like to know and Congress would like to know, who is in charge?

Congress concluded last session that Federal coordination of drug control is so complex a job that it requires the attention and responsibility of one person. Cabinet-level status is necessary for the job to have the clout needed to impose a truce on interagency feuding, to insure maximum participation. and to allocate budgetary resources for efficiency and economy. Since the new officer would be appointed by the President and confirmed by the Senate, the public would have one person to hold accountable for developing and implementing a specific effective Federal strategy.

Let us be serious. We are not talking here about more government—the office in question need not be large. Indeed, its responsibilities could be performed by personnel borrowed from existing agencies. Also, we could do away with some of these layers of coordinating groups and councils that only further confuse the policy-making process. We are talking about making the Government we have work right, and do the job it is supposed to do, not increasing its size.

I am afraid that laudable efforts by the administration to curb the drug problem will fail. They will fail like the long list of casualties under previous administrations because of the lack of central control and management. Look at the current status of the new drug task forces that were supposed to be the answer to better coordination. They are behind schedule, the case selection process is a bureaucratic nightmare, and the tightly controlled and highly targeted 12 regional strike forces announced by the President have turned into 70 uncoordinated entities.

Until somebody can say, this is the plan and these are the agencies needed to work these aspects of the problem, it will be business as usual: competition, duplication, and inefficiency.

By way of analogy, Mr. President, if we were going to legally distribute the amount of illegal drugs that are networked through this country by organized crime families and entrepreneurs in the drug trafficking business, there is not a single food chain in America from Grand Union to A&P to any of the ones we could name that if they were open around the clock, with their present number of outlets and their present staffing, that they would be able to legally distribute what is now illegally distributed.

The point I am trying to make is that the problem is awesome. Unless we are able to understand the need to coordinate all aspects of the Federal capability at one time, we are not going to make any significant impact upon what is, in my view, the No. 1 domestic problem facing the United States of America.

There are four aspects of the problem. One is the place in which the raw material is produced, the coca or the poppy. They are usually what we refer to as the source countries, like Pakistan, Afghanistan, Colombia, or Bolivia.

The second part relates to when that raw material is, in fact, made into the salable substance, whether it is a laboratory to purify heroin, to move poppy to morphine to heroin. These laboratories are located in places like Pakistan or in Sicily, or for cocaine, in Colombia or Bolivia.

The third part of the problem relates to the interdiction—that is, keeping it from getting from its destination into the United States of America.

The fourth part is what we do in the enforcement and investigation area when it gets here.

We need all elements of the Federal Government involved in the problem. The FBI, for instance, does not have jurisdiction beyond the borders of the United States of America; the State Department has jurisdiction on foreign policy; the CIA has access to information in other countries. The list goes on and on. The IRS, for example, is where the experts reside on how we could best trace the money.

Up to now, there has been an incredible lack of coordination because the fact remains that none of the bureaucracies is willing to allow their turf to be tread upon. The examples are many.

For example, there are examples where the CIA does not want to tell the Drug Enforcement Agency about a drug operation they stumble upon because, in fact, they are worried about compromising their sources and methods, as they call them. The DEA, up until very recently, and I suspect it is still continuing, has been reluctant to tell the FBI about their sources because they do not want the FBI to get all the credit for the arrests. The FBI does not want to talk to the State Department. The State Department does not want to talk about drugs. It goes on and on.

Mr. President, unless we have one person with the authority in the drug area similar to that of the Director of Central Intelligence in the intelligence area, we are not going to be able to make much progress. That is what this so-called drug coordinator bill is all about.

Mr. President, I ask unanimous consent to have added as a cosponsor, Senator HAWKINS of the State of Florida.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXHIBIT 1

[From the New York Times, Jan. 4, 1983]

TO END TURF WARS THAT FOIL DRUG CONTROL

(By Joseph R. Biden Jr.)

WASHINGTON.—Turf wars among Government agencies responsible for Federal control of narcotics, long a major obstacle to such control, would finally be eliminated by a bill that is awaiting President Reagan's signature. If he succumbs to bureaucratic arguments to veto it, he will invite a severe setback to his own commendable efforts to control drug trafficking and the crime it spawns in every corner of this country.

Both houses of Congress, by overwhelming majorities, on Dec. 20 passed legislation that could end the infighting. The measure would lodge in one individual, at the Cabi-

net level, the authority and responsibility for coordinating the narcotics-control efforts of the 10 Federal agencies that share that responsibility.

If Mr. Reagan vetoes the measure, as some newspapers have reported he may, many agencies almost certainly will continue to subordinate their responsibility for stopping illegal drugs to what they perceive as their primary duties. Recent history is studded with examples of how bureaucratic inertia and conflict can divert attention from the critical job of controlling the drug trade.

The Drug Enforcement Administration has failed at times to follow up on drug smuggling information provided by the Customs Service.

The Drug Enforcement Administration, Internal Revenue Service and Customs Service have inflated their statistics on Government seizures of profits from the narcotics trade. All have, on occasion, taken credit for seizing the same illicit proceeds.

Intelligence agencies have exhibited chronic, but not ill-founded, reluctance to collect information on drug trafficking for fear of getting enmeshed in court proceedings that might compromise their operations. (The Central Intelligence Agency, in 1979, unilaterally decided to reduce its commitment to the covert collection of narcotics intelligence abroad. There was virtually no one outside it with the authority and responsbility to protest.)

The State Department's Bureau of International Narcotics Matters was not even consulted before the President, in October, unveiled his major, new drug-enforcement program, which establishes 12 regional task forces to crack down on drug trafficking nationwise. Funds for the department's programs aimed at cutting drug programs abroad have been frozen despite the Attorney General's contention that a dollar spent abroad on such programs is worth $10 spent on domestic law enforcement.

Agency infighting already has taken its toll of the Reagan program while it is still in the planning stage. For example, the Justice Department and other agencies have squabbled over control of the program's budget, and there have been arguments in the department over who will conduct prosecutions. I am not convinced that adequate consideration has been given to how the new task forces would mesh with existing organized-crime task forces or with a dozen United States attorneys, each responsible for an existing task force region and pursuing investigations that may overlap into other regions.

I seriously doubt that the ad hoc interagency committees the Administration created to coordinate Federal narcotics policy will do more than add another arena for bureaucratic combat. The bill going to the President presents a better alternative.

Congress has concluded that Federal coordination of drug control is so complex a job that it requires the attention and responsibility of one person. Cabinet-level status is necessary for the job to have the clout needed to impose a truce on interagency feuding, to insure maximum participation and to allocate budgetary resources for top efficiency and economy. Since the new officer would be appointed by the President and confirmed by the Senate, the public would have one person to hold accountable for developing and implementing a specific, effective Federal strategy.

The agencies seem to be making two arguments for a veto. First, we are told, the new office would intimately involve the White House in day-to-day law-enforcement decisons. Actually, the office would have no police powers and could not be involved in individual law-enforcement decisions. Second, the public is told, still another bureaucracy would be created. But Congress was not envisioning more government; rather the new office would meet its responsbilities with personnel and resources borrowed from existing agencies.

The Government will not be able to significantly strengthen drug enforcement until it puts someone in overall charge—until business-as-usual in Federal narcotics control ends. To counter the drug traffickers who have put this nation under siege, America needs a well-planned, well-coordinated, centrally directed and single-minded attack.

Mr. SASSER. Mr. President, I am pleased to join today in cosponsoring a bill that would create a Cabinet-level office for the coordination of Federal drug-enforcement efforts.

The flow of illegal drugs is a major and growing problem in the United States. The General Accounting Office estimates drug trafficking to be an $80-billion-a-year industry in the United States. This figure would make it the second highest corporation in the country behind Exxon. The annual consumption of drugs in the United States is also staggering. For example, the annual domestic consumption of heroin is about 4 metric tons and cocaine consumption is estimated to be 40 to 48 metric tons.

Despite recordbreaking arrests and confiscation of illegal drugs in recent years, law enforcement agencies still estimate that they are able to stop only 5 to 15 percent of all the hard drugs flowing into this country. This statistic indicates to me that drug trafficking has been virtually untouched and is definitely on the rise. With the increase of drugs flowing into the country, there will also be an increase in another menace that all of us will have to face—crime. Law enforcement personnel are convinced that the recent surge of crimes committed across this country is mostly drug-related. These types of crimes—muggings, theft, robbery, murder—touch many peoples' lives. Many of the people who commit drug-related crimes are addicts and must support their habit through criminal activity.

Mr. President, with information as shocking as this, I feel that a coordinating office of this kind is essential to give order and direction to the Nation's drug enforcement efforts. These efforts are scattered throughout many different agencies and I see no signs that the administration has been successful in straightening out the confusion and bureaucratic snafu which has persistently hampered our drug enforcement efforts in the past.

In conclusion, drug trafficking is a relentless and despicable evil in our society today. Something has got to be done in order to upgrade our law enforcement agencies. I feel that this piece of legislation will definitely have a positive impact on the reducing of drug traffic in this country.

REFERRAL TO COMMITTEE—S. 1762

Mr. BAKER. Mr. President, this request has been submitted to the minority leader for his consideration also, I believe.

I ask unanimous consent that S. 1762, the Comprehensive Crime Control Act of 1983, be referred to the Committee on Foreign Relations until the close of business September 20, 1983, for the purpose only of considering part M of title 10 of the "political offense" and related provisions.

Mr. BYRD. Mr. President, there is no objection.

The PRESIDING OFFICER. Without objection, the motion is agreed to.

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. PERCY, from the Committee on Foreign Relations:

Millicent Fenwick, of New Jersey, for the rank of Ambassador during the tenure of her service as United States Representative to the Food and Agriculture Organizations in Rome.

Contributions are to be reported for the period beginning on the first day of the fourth calendar year preceding the calendar year of the nomination and ending on the date of the nomination.

Nominee: Millicent Fenwick.

Post: Rank of Ambassador, U.S. Representative to the Food and Agriculture Organization.

Contributions, amount, date, and donee.

1. Self, $250, 1980 or 1982, Representative James Jeffords (R-Vt.).

2. Spouse, $1,000, 198?, Dinner for President Ronald Reagan.

3. Children and Spouses Names: Mary and Kenneth Reckford, $900, joint contribution, 1982, Fenwick for Senate.

4. Parents Names: Leigh and Hugh Fenwick, $400, joint contribution, 1982, Fenwick for Senate.

5. Grandparents Names:

Leigh Fenwick, $200, 1982, Fenwick for Senate.

Hugh Fenwick, $250, 1982, Fenwick for Senate.

6. Brothers and Spouses Names: None.

7. Sisters and Spouses Names: None.

Peter Jon de Vos, of Florida, a Career Member of the Senior Foreign Service, Class of Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States to the People's Republic of Mozambique:

Contributions are to be reported for the period beginning on the first day of the fourth calendar year preceding the calendar year of the nomination and ending on the date of the nomination.

Nominee: Peter Jon de Vos.

Post: Mozambique.

Contributions, amount.

1. Self, none.

2. Spouse, none.

3. Children and spouses names, none.
4. Parents names, none.
5. Grandparents names, none.
6. Brothers and spouses names, none.
7. Sisters and spouses names, none.

Thomas Ostrom Enders, of Connecticut, a Career Member of the Senior Foreign Service, Class of Career Minister, to be Ambassador Extraordinary and Plenipotentiary of the United States to Spain:

Contributions are to be reported for the period beginning on the first day of the fourth calendar year preceding the calendar year of the nomination and ending on the date of the nomination.

Nominee: Thomas O. Enders.
Post: U.S. Ambassador to Spain.
Contributions, amount, date, and donee.
1. Self, none.
2. Spouse, none.
3. Children and spouses names, none.
4. Parents names, Ostrom Enders (father), last 3 years, less than $1,000 a year to various Republican candidates.

1982

Conn. Republican Party, Jan. 14, 1982, $250.
Russell Post for Governor, Feb. 25, 1982, $250.
Russell Post for Governor, April 9, 1982, $250.
Scheller Committee Campaign, Sept. 8, 1982, $100.
Janet Polinsky, Sept. 8, 1982, $100.

1981

Waterford Democratic Town Comm., Mar. 3, 1981, $36.
Avon Republican Comm., Apr. 25, 1981, $50.
Nicholas Schaus, Nov. 16, 1981, $250.
R. L. Post, Nov. 16, 1981, $250.

1980

Beatrice K. Murdoch, St. Rep., Jan. 28, 1980, $100.
Republican Nat. Comm., Feb. 13, 1980, $100.
R. L. Post for Senate Committee, Sept. 11, 1980, $50.
Janet Polinsky Committee, Sept. 15, 1980, $50.
Conn. Republicans—Ford Luncheon, Oct. 20, 1980, $500.
Schaus for House, Oct. 29, 1980, $100.
Barnes for House, Nov. 3, 1980, $100.
5. Grandparents names, none.
6. Brothers and spouses names, none.
7. Sisters and spouses names, none.

Thomas J. Pickering, of New Jersey, a Career Member of the Foreign Service, Class of Career Minister, to be Ambassador Extraordinary and Plenipotentiary of the United States to El Salvador:

Contributions are to be reported for the period beginning on the first day of the fourth calendar year preceding the calendar year of the nomination and ending on the date of the nomination.

Nominee: Thomas R. Pickering, Nominated June 2, 1983.
Post: Ambassador, Republic of El Salvador.
Contributions, amount, date, and donee.
1. Self, none.
2. Spouse, none.
3. Children and spouses names:
Mr. and Mrs. Timothy Pickering, none.
Miss Margaret S. Pickering, none.
4. Parents names, Mr. and Mrs. Hamilton R. Pickering, none.
5. Grandparents names, deceased.
6. Brothers and spouses names, none.
7. Sisters and spouses names, Mr. and Mrs. Bruce Hunt, $25, Sept. 1982, Representative Robert Mrazek (D) 3rd District New York.

To be Members of the Board of Directors of the African Development Foundation:

William F. Pickard, of Michigan, for a term of six years;
Patsy Baker Blackshear, of Maryland, for a term of four years;
Chester A. Crocker, an Assistant Secretary of State, for a term of two years;
Francis Stephen Ruddy, an Assistant Administrator of the Agency for International Development, for a term of two years;
Charles G. Wells, of Illinois, for a term of four years;

To be Members of the Board For International Broadcasting:

Joseph Lane Kirkland, of the District of Columbia, for a term expiring April 28, 1984;
Arch L. Madsen, of Utah, for a term expiring April 28, 1984;
James Albert Michener, of Pennsylvania, for a term expiring April 28, 1984;
Clair W. Burgener, of California, for a term expiring April 28, 1985;
Malcolm Forbes, Jr., of New Jersey, to be a Member for a term expiring April 28, 1986.
Henry F. Schickling, of Pennsylvania, to be a Member of the Board of Directors of the Overseas Private Investment Corporation for a term expiring December 17, 1985.

Mr. PERCY. Mr. President, I also report favorably a nomination list in the Foreign Service which appeared in its entirety in the CONGRESSIONAL RECORD of July 25, 1983, and, to save the expense of reprinting them on the Executive Calendar, I ask unanimous consent that they lie on the Secretary's desk for the information of Senators.

(The above nominations were reported from the Committee on Foreign Relations with the recommendation that they be confirmed, subject to the nominees' commitment to respond to request to appear and testify before any duly constituted committee of the Senate.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. THURMOND (for himself, Mr. BIDEN, Mr. LAXALT, Mr. KENNEDY, Mr. HATCH, Mr. DECONCINI, Mr. EAST, Mr. D'AMATO, Mr. CHILES, Mr. DOMENICI, Mr. ZORINSKY and Mr. COCHRAN):

S. 1762. A bill entitled the "Comprehensive Crime Control Act of 1983."; to the Committee on the Judiciary.

By Mr. THURMOND (for himself, Mr. LAXALT, Mr. HATCH, Mr. CHILES, Mr. ZORINSKY, Mr. SIMPSON, Mr. DOMENICI, Mr. HELMS, Mr. COCHRAN and Mr. MURKOWSKI):

S. 1763. A bill to reform procedures for collateral review of criminal judgments, and for other purposes; to the Committee on the Judiciary.

By Mr. THURMOND (for himself, Mr. LAXALT, Mr. HATCH, Mr. DOMENICI and Mr. ZORINSKY):

S. 1764. A bill to amend title 18 to limit the application of the exclusionary rule; to the Committee on the Judiciary.

By Mr. THURMOND (for himself, Mr. LAXALT, Mr. DECONCINI, Mr. HATCH, Mr. GARN, Mr. HELMS, Mr. SIMPSON, Mr. TRIBLE, Mr. ZORINSKY, Mr. GRASSLEY, Mr. EAST, Mr. SPECTER and Mr. DOMENICI):

S. 1765. A bill to establish constitutional procedures for the imposition of the sentence of death, and for other purposes; to the Committee on the Judiciary.

By Mr. BUMPERS (for himself, Mr. NUNN, Mr. QUAYLE Mr. DECONCINI, Mr. HEFLIN, Mr. SIMPSON and Mr. GRASSLEY):

S. 1766. A bill to amend Section 706 to Title 5, United States Code, to strengthen the judicial review provisions of the Administrative Procedure Act by giving courts more authority to overturn unfair agency action; to the Committee on the Judiciary.

By Mr. MITCHELL:

S. 1767. A bill to amend the Internal Revenue Code of 1954 to reform and simplify the individual income tax; to the Committee on Finance.

S. 1768. A bill to amend the Internal Revenue Code of 1954 to provide energy tax credits for equipment used aboard or installed on fishing vessels; to the Committee on Finance.

By Mr. DIXON (for himself, Mr. PERCY and Mr. CRANSTON):

S. 1769. A bill for the relief of Dennis Brutus; to the Committee on the Judiciary.

By Mr. GARN (for himself and Mr. HATCH):

S. 1770. A bill to extend the leaseterms of Federal oil and gas lease numbered U-39711; to the Committee on Energy and Natural Resources.

By Mr. MOYNIHAN:

S. 1771. A bill to extend temporary suspension of duties on certain clock radios until September 30, 1987; to the Committee on Finance.

By Mr. MATSUNAGA (for himself, Mr. INOUYE, Mr. SASSER and Mr. PELL):

S. 1772. A bill to amend title XVIII of the Social Security Act to provide for direct medicare reimbursement for services performed by registered nurse anesthetists; to the Committee on Finance.

By Mr. MATHIAS (for himself, Mr. HATFIELD, Mr. JACKSON and Mr. SARBANES):

S. 1773. A bill to amend the Internal Revenue Code of 1954 to permit the rollover of gain from the sale of farmland development rights to a State or a political subdivision thereof under a farmland preservation program, and for other purposes; to the Committee on Finance.

By Mr. PROXMIRE (for himself, Mr. LEAHY, Mr. METZENBAUM and Mr. CRANSTON):

S. 1774. A bill to amend the Federal Insecticide, Fungicide and Rodenticide Act to better protect the environment and man from the hazards of pesticides, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. DOMENICI:

S. 1775. A bill to repeal the designation of the Georgia O'Keeffe National Historical Site; to the Committee on Energy and Natural Resources.

By Mr. DIXON:

S. 1776. A bill to document the vessel Odyssey as a vessel within a certain classifica-

tion; to the Committee on Commerce, Science, and Transportation.

By Mr. TRIBLE:

S. 1777. a bill to amend part D of title IV of the Social Security Act to require each State to develop, implement, and enforce a system of mandatory and immediate deductions from wages for the collection of child-support payments; to the Committee on Finance.

By Mr. QUAYLE:

S. 1778. A bill to provide for a block grant to States for health planning activities, and for other purposes; to the Committee on Labor and Human Resources.

By Mr. PROXMIRE:

S. 1779. A bill to amend the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 to generate additional revenues for the Superfund to provide incentives for hazardous waste recycling and to provide for certain additional forms of assistance respecting releases of hazardous substances, to amend the Internal Revenue Code of 1954 to impose (in lieu of the Superfund taxes on petroleum and chemical feedstocks) an additional tax on hazardous wastes, and for other purposes; to the Committee on Finance.

By Mr. BUMPERS (for himself and Mr. DOMENICI):

S. 1780. A bill entitled the "Solar Energy National Security and Employment Act of 1983"; to the Committee on Energy and Natural Resources.

By Mr. GRASSLEY:

S. 1781. A bill to amend the Internal Revenue Code of 1954 to allow an amortization deduction for bus operating rights based on a 60-month period; to the Committee on Finance.

By Mr. KASTEN:

S. 1782. A bill to designate the United States Post Office Building in Oshkosh, Wisconsin, as the "William A. Steiger Post Office Building"; to the Committee on Governmental Affairs.

By Mr. BAKER (for Mr. GOLDWATER):

S. 1878. A bill to eliminate the congressional budget process, abolish the Committee on the Budget of the Senate and the Committee on the Budget of the House of Representatives, and for other purposes; to the Committee on the Budget and the Committee on Governmental Affairs, jointly, pursuant to the order of August 4, 1977, with instruction that if one committee reports, the others have thirty days of continuous session to report or be discharged.

By Mr. BYRD (for himself, Mr. HEINZ, Mr. LEVIN, Mr. SPECTER, Mr. MOYNIHAN, and Mr. MATSUNAGA):

S. 1784. A bill to provide a consolidated program of extended unemployment compensation which shall replace the current extended compensation and Federal supplemental compensation programs; to the Committee on Finance.

By Mr. SASSER (for himself, Mr. DURENBERGER, Mr. HEINZ, Mr. JACKSON, Mr. EAGLETON, Mr. WARNER, Mr. TSONGAS, Mrs. KASSEBAUM, Mr. BUMPERS, Mr. COCHRAN, Mr. RIEGLE, Mr. MELCHER, Mr. HOLLINGS, Mr. BOREN, Mr. PRYOR, Mr. MATSUNAGA, Mr. BURDICK, Mr. MOYNIHAN, Mr. RANDOLPH, Mr. GLENN, Mr. KENNEDY, Mr. DODD, Mr. BAUCUS, and Mr. ZORINSKY):

S. 1785. A bill to amend title II of the Social Security Act to eliminate the waiting period for disability benefits in the case of an individual who is terminally ill; to the Committee on Finance.

By Mr. MATHIAS:

S. 1786. A bill to amend title 5, United States Code, to provide Civil Service retirement credit for certain employees and former employees of nonappropriated fund instrumentalities of the Armed Forces, and for other purposes; to the Committee on Governmental Affairs.

By Mr. BIDEN (for himself, Mr. DECONCINI, Mr. PELL, Mr. KENNEDY, Mr. METZENBAUM, Mr. LEAHY, Mr. BAUCUS, Mr. CHILES, Mr. NUNN, Mr. ZORINSKY, Mr. SASSER, Mr. RANDOLPH, Mr. BURDICK, Mr. HOLLINGS, Mr. HEINZ, Mrs. HAWKINS, Mr. CRANSTON, Mr. MOYNIHAN, and Mr. EAGLETON):

S. 1787. A bill to establish an office of the Director of National and International Drug Operations and Policy; to the Committee on the Judiciary.

By Mr. ROTH:

S. 1788. A bill to change the term of the Chairman of the Board of Governors of the Federal Reserve System; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. HUDDLESTON (for himself, Mr. COCHRAN, Mr. LEAHY, Mr. ANDREWS, and Mr. ZORINSKY):

S. 1789. A bill to provide for the restructuring of the Farmers Home Administration water and waste disposal loan and grant programs; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. THURMOND:

S. 1790. A bill to authorize the Secretary of the Interior to enter into a contract or cooperative agreement with the Art Barn Association to assist in the preservation and interpretation of the Art Barn and Pierce Mill located in Rock Creek Park within the District of Columbia; to the Committee on Energy and Natural Resources.

By Mr. MOYNIHAN:

S. 1791. A bill to amend Section 103(b)(3) of the Internal Revenue Code; to the Committee on Finance.

By Mr. LEVIN (for himself, Mrs. HAWKINS, Mr. RANDOLPH, Mr. JOHNSTON, Mr. MELCHER, and Mr. ZORINSKY):

S. 1792. A bill to amend title XIX of the Social Security Act to extend medicaid coverage of home care to certain disabled individuals over 18 years of age; to the Committee on Finance.

By Mr. MOYNIHAN:

S. 1793. A bill to amend the Internal Revenue Code of 1954 to prevent taxpayers from using certain straddles, foreign corporations, and other devices to avoid or defer payment of Federal income taxes, and for other purposes; to the Committee on Finance.

By Mr. D'AMATO (for himself, Mr. WEICKER and Mr. STEVENS):

S. 1794. A bill to require certain agencies to procure supplies or services from local commercial sources instead of from a multiple-award schedule of the Federal Supply Schedule under certain circumstances; to require the Administrator of General Services to remove contractors from multiple-award schedules under certain circumstances; and to increase the maximum amount of small purchases which may be made by such executive agencies from sums in an imprest fund for one transaction; to the Committee on Governmental Affairs.

By Mr. MOYNIHAN (for himself and Mr. LEAHY):

S. 1795. A bill to further the national security and improve the economy of the United States by providing grants for the improvement of proficiency in critical languages, for the improvement of elementary and secondary foreign language instruction, and for per capita grants to reimburse institutions of higher education to promote the growth and improve the quality of postsecondary foreign language instruction; to the Committee on Labor and Human Resources.

By Mr. GORTON (for himself, Mr. ANDREWS and Mr. RUDMAN):

S. 1796. A bill relating to equality of rights under law regardless of sex; to the Committee on the Judiciary.

By Mr. STEVENS:

S. 1797. A bill to name the United States Post Office Building to be constructed in Fort Worth, Texas, as the "Jack D. Watson Post Office Building"; considered and passed.

By Mr. DECONCINI:

S. 1798. A bill to require the executive agencies of the Federal Government to identify all appropriate costs of operating, maintaining, leasing, and acquiring motor vehicles; to require all executive agencies to study the cost benefits of the use of outside private sector fleet management contractors as an alternative to the Interagency Motor Pool System and other existing systems, to require certain cost saving measures in current motor vehicle operations, to reduce the total amount spent for non-tactical, non-law enforcement motor vehicle operation, maintenance, leasing, acquisition, and disposal by $100,000,000 in fiscal year 1985, and for other purposes; to the Committee on Governmental Affairs.

By Mr. NUNN (for himself and Mr. HUDDLESTON):

S. 1799. A bill to provide financial assistance to States for training for unemployed individuals, especially long-term unemployed individuals and dislocated workers, and for other purposes; to the Committee on Labor and Human Resources.

By Mr. NUNN (for himself and Mr. HUDDLESTON):

S. 1800. A bill to amend the Internal Revenue Code of 1954 to provide tax-exempt accounts for job training, and for other purposes; to the Committee on Finance.

By Mr. NUNN (for himself and Mr. HUDDLESTON):

S. 1801. A bill to amend the Internal Revenue Code of 1954 to allow a credit for employee training expenses; to the Committee on Finance.

By Mr. PERCY (for himself and Mr. DIXON):

S. 1802. A bill to amend the Housing and Community Development Act of 1974 to allow newly designated metropolitan cities to retain their former status, permitting a county which was an urban county to retain its status as an urban county; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. PRYOR:

S. 1803. A bill to reduce paperwork in the administration of certain construction contract provisions of law relating to wage rates; to the Committee on Governmental Affairs.

By Mr. DOLE (for himself, Mr. BOREN and Mr. SYMMS):

S. 1804. A bill to amend the Internal Revenue Code of 1954 with respect to the tax treatment of foreign sales corporations; to the Committee on Finance.

By Mr. THURMOND:

S. 1805. A bill to permit the surviving spouse and unmarried children of a person interred in a cemetery located on a military installation to be interred in such cemetery; to the Committee on Veterans Affairs.

By Mr. BRADLEY:

S. 1806. A bill to recognize the organization known as the Jewish War Veterans to the United States of America, Incorporated; to the Committee on the Judiciary.

By Mr. PERCY (for himself and Mr. DIXON):

S. 1807. A bill to amend the Internal Revenue Code of 1954 to clarify the taxation of certain income derived from agricultural commodities not grown in the United States in commercially marketable quantities; to the Committee on Finance.

By Mr. MATTINGLY (for himself and Mr. BOREN):

S. 1808. A bill to amend the Tariff Act of 1930 regarding the country of origin marking requirements for certain imported pipe, pipe fittings, and compressed gas cylinders; to the Committee on Finance.

By Mr. BAUCUS:

S. 1809. a bill to amend the Internal Revenue Code of 1954 to disregard the attribution between limited partners of stock of a publicly-owned investment company for purposes of determining whether such company is a personal holding company or regulated investment company; to the Committee on Finance.

By Mr. HUMPHREY (for himself and Mr. LEVIN):

S. 1810. A bill to authorize appropriations for exploration, prospecting, conservation, development, use, and operation of the naval petroleum reserves, for fiscal years 1984 and 1985; to the Committee on Armed Services.

By Mr. NICKLES (for himself, Mr. EXON and Mr. ZORNISKY):

S. 1811. A bill to authorize the Secretary of the Interior to engage in a special study of the potential for groundwater recharge in the High Plains States, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. METZENBAUM:

S. 1812. A bill to provide work for long-term unemployed jobseekers, and for other purposes; to the Committee on Labor and Human Resources.

By Mr. JEPSEN:

S. 1813. a bill to amend the Consolidated Farm and Rural Development Act, to require the Secretary of Agriculture to make and insure loans to certain farm supply businesses which have been adversely affected by the payment-in-kind program; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. PACKWOOD:

S. 1814: A bill to amend the Internal Revenue Code of 1954 to allow an amortization deduction for bus operating rights based on a 60-month period; to the Committee on Finance.

By Mr. PACKWOOD:

S. 1815. A bill to amend the Internal Revenue Code of 1954 to exempt from taxation corporations which acquire and manage real property for certain other exempt organizations, and for other purposes; to the Committee on Finance.

By Mr. THURMOND:

S. 1816. A bill to amend the Textile Fiber products Identification Act, the Tariff Act of 1930, and the Wool Products Labeling Act of 1939 to improve the labeling of textile fiber and wool products; to the Committee on Commerce, Science, and Transportation.

By Mr. SYMMS (for himself, Mr. MOYNIHAN and Mr. MATSUNAGA):

S. 1817. A bill to provide equitable rules for the tax treatment of fringe benefits; to the Committee on Finance.

By Mr. BRADLEY:

S. 1818. A bill to provide that a certain portion of the Hudson River shall be declared non-navigable; to the Committee on Environment and Public Works.

By Mr. EXON:

S. 1819. A bill to specify the manner in which uncompensated services provided by a skilled nursing facility or an intermediate care facility shall be calculated for purposes of titles VI and XVI of the Public Health Services Act, and to require the Secretary of Health and Human Services to promulgate regulations under section 1621(b)(1)(K) of the Public Health Service Act; to the Committee on Labor and Human Resources.

By Mr. LEVIN:

S. 1820. A bill to amend the Federal-State Extended Unemployment Compensation Act of 1970 to provide that an individual may meet the 20 weeks work requirement during either of their most recent base periods; and to provide that the entitlement for extended compensation shall continue for six months beyond the end of their benefit year; to the Committee on Finance.

By Mr. GARN (for himself and Mr. TOWER):

S. 1821. A bill to amend the Securities Act of 1933 and the Securities Exchange Act of 1934 with respect to the treatment of mortgage backed securities, to increase the authority of the Federal Home Loan Mortgage Corporation, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

S. 1822. A bill to amend the Internal Revenue Code of 1954 to encourage investments in mortgage-backed securities through trusts for investments in mortgages, and for other purposes; to the Committee on Finance.

By Mr. LEVIN:

S. 1823. A bill to provide for an alternative to the present adversarial rule making procedure by establishing a process to facilitate the formation of regulatory negotiation commissions; to the Committee on Governmental Affairs.

By Mr. GRASSLEY (for himself and Mr. SYMMS):

S. 1824. A bill to amend the Internal Revenue Code of 1954 to remove the limitation on estate tax exclusions under section 2039; to the Committee on Finance.

S. 1825. A bill to amend the Internal Revenue Code of 1954 to revise the addition to tax for failure to pay estimated income tax; to the Committee on Finance.

By Mr. DANFORTH:

S. 1826. A bill entitled the "Hunger Relief Incentives Tax Act of 1983"; to the Committee on Finance.

By Mr. EAGLETON (for himself and Mr. DANFORTH):

S. 1827. A bill to authorize the Secretary of Energy to accept certain lands in St. Louis, Missouri to provide remedial action with respect to radioactive materials; to the Committee on Environment and Public Works.

S. Con. Res. 61. A concurrent resolution to commend Dr. Alice Mitchell Rivlin for her services as Director of the Congressional Budget Office; to the Committee on the Budget.

By Mr. MATTINGLY (for himself, Mr. KENNEDY, Mr. HUMPHREY, and Mr. CHAFEE):

S. Con. Res. 62. a concurrent resolution to direct the Commissioner of Social Security and the Secretary of Health and Human Services to develop a plan outlining the steps which might be taken to correct the social security benefit disparity known as the notch problem; to the Committee on Finance.

By Mr. BAKER (for Mr. HELMS):

S. Con. Res. 63. a concurrent resolution directing the Clerk of the House of Representatives to make corrections in the enrollment of the bill H.R. 3190; considered and agreed to.

By Mr. LEVIN (for himself, Mr. COCHRAN, Mr. HUDDLESTON, Mr. MELCHER, Mr. ANDREWS, Mr. BOREN, Mr. RIEGLE, Mr. CRANSTON, Mr. HOLLINGS, Mr. ZORINSKY, Mr. DECONCINI, Mr. NUNN, and Mr. WILSON):

S. Con. Res. 64. A concurrent resolution to express the sense of the Congress relating to agricultural marketing orders; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. GLENN (for himself, Mr. BOSCHWITZ, Mr. CRANSTON, Mr. DOLE, Mr. HEINZ, Mr. MOYNIHAN, Mr. SARBANES, and Mr. TSONGAS):

S. Con. Res. 65. A concurrent resolution expressing the sense of the Congress that the Republic of South Africa should cease its "blackspot" policy of forcibly removing black South Africans from their legally acquired residences and relocating them, and for other purposes; to the Committee on Foreign Relations.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BUMPERS (for himself, Mr. NUNN, Mr. QUAYLE, Mr. DECONCINI, Mr. HEFLIN, Mr. SIMPSON, and Mr. GRASSLEY):

S. 1766. A bill to amend section 706 of title 5, United States Code, to strengthen the judicial review provisions of the Administrative Procedure Act by giving courts more authority to overturn unfair agency action; to the Committee on the Judiciary.

(The remarks of Mr. BUMPERS and the text of the legislation appear earlier in today's RECORD.)

By Mr. MITCHELL:

S. 1767. A bill to amend the Internal Revenue Code of 1954 to reform and simplify the individual income tax; to the Committee on Finance.

PERSONAL INCOME TAX REFORM ACT OF 1983

Mr. MITCHELL. Mr. President, the legislation that I am introducing today, the Personal Income Tax Reform Act of 1983, is a major step in reforming and simplifying the Tax Code. Most importantly, the bill reverses the trend set by recent Congressional actions and restores a more progressive distribution of the income tax burden.

We face a major challenge in reforming Federal tax laws. Recent public opinion polls reveal a disturbing trend: More and more people now feel that the income tax is the "most unfair" tax that they must pay. Such a finding is of great concern because the Federal Government relies on the personal income tax for almost half of the revenues it collects. This attitude no doubt contributes to the high level of dissatisfaction with the performance of the Federal Government, since the tax system is the means through which citizens most frequently come into contact with the Government.

Reforming the income tax can also play a major role in addressing the serious problems now besetting our economy. Economists have long recognized that excessively high tax rates can discourage work effort and distort saving and investment decisions.

Senator BRADLEY has offered the most comprehensive tax reform proposal to date. I commend him for the hard work he has performed in drafting his innovative proposal. My legislation is very similar to his in the changes in deductions, exclusions, and credits, but it differs in the schedule of tax rates proposed.

Under the provisions of my bill, a basic tax rate of 12 percent would apply to all taxpayers. Above $40,000 in annual income for married couples ($25,000 for single taxpayers), a progressive surtax would apply. The net result would be a 20-percent rate applied to income between $40,000 and $50,000 ($25,000 to $30,000 on single returns), 30 percent on income between $50,000 and $60,000 ($30,000 to $37,000 on single returns), and 36 percent on income above $60,000 (above $37,000 on single returns). In effect, the number of tax brackets would be reduced from 13 to 4.

The proposed range of the tax rates of 12 to 36 percent compares to 12 to 50 percent under current law.

Furthermore, the zero bracket amount—below which no tax is paid—for joint returns would be increased to

$4,600 from $3,400. The personal exemption would be raised to $1,500 from $1,000.

Complementing these tax reductions would be the elimination or modification of most exclusions, deductions, and credits. This assures that the simplified tax system would produce the same amount of revenues that the current system is expected to produce.

I do not believe that all deductions and exclusions should be eliminated. Because one of the central purposes of this proposal is to restore confidence in the tax system, it would be counterproductive to repeal these tax provisions that enjoy wide public support and serve valid purposes. Thus, my bill would retain the deduction for charitable contributions, which pays an important role in enhancing the voluntary spirit in our society. The bill would also continue the home mortgage interest deduction, which has helped produce one of the highest rates of private homeownership in the world.

Other provisions that my bill would continue include the deduction for State and local taxes, the exclusion for veterans' benefits, the exemption of interest on general obligation bonds, and the partial exclusion from taxation of Social Security benefits.

I feel very strongly that any new system should continue to be based on the ability to pay. That is, differences in tax liabilities should reflect differences in taxpayers' ability to pay their taxes. The share of a family's income that must be devoted to necessities declines as income rises. On that basis, our tax system has historically levied higher taxes on those most able to pay them, and lower taxes on those with lower income.

My belief in this approach explains why my bill is not a pure "flat tax" proposal. If adopted, a pure flat rate has the potential of even further undermining confidence in Government by eliminating all progressivity from the tax system. The very wealthy would have their taxes slashed, while the low- and middle-income taxpayers would end up paying more. That result would defeat the purpose of enacting comprehensive income tax reform.

Once the principle of ability to pay is accepted, the task is to determine what the tax rate schedule will be. In constructing this schedule, I believe that we should not overlook the effect of the 1981 tax cut on the distribution of the income tax.

In 1981, administration officials argued that their proposed across-the-board rate reductions were fair because all tax rates were reduced by the same percentage. In the absence of inflation and higher Social Security taxes, that argument might have been true. But both inflation and the scheduled Social Security tax increases raise the tax liabilities of low- and moderate-income individuals disproportionately. Thus, the net effect of the tax cut once those factors are considered, is to provide greater tax relief for the wealthy. By 1984, taxpayers earning more than $50,000, who in the aggregate contribute about one-third of all income taxes, will receive about two-thirds of the net tax cut.

To make up for the revenue lost by the 1981 tax cut, Congress, over the last 2 years, has resorted to raising excise taxes, which are not based on ability to pay. In last year's bill, the Tax Equity and Fiscal Responsibility Act, most of the taxes raised from individuals came from increases in several excise taxes. Since then, we have more than doubled the gasoline excise tax and have accelerated Social Security tax increases. All of these actions have contributed to the shift in the tax burden away from those most able to pay and onto middle- and lower-income households.

I believe that this result is unfair. Any tax reform that Congress enacts should achieve a more progressive distribution of taxes than current law will provide. My bill attempts to do that.

The benefits of my bill are obvious once the defects of the current system are examined. These defects are largely attributable to the pattern of tax legislation over the last few decades. Special preferences were carved out of the tax base one at a time, either as a result of sincere efforts to accomplish some specific policy objective, or as a result of lobbying by special interests to secure privileged treatment. Consequently, the tax base has shrunk relative to personal income. In 1982, for example, taxable income is expected to be only 60 percent of personal income.

To meet the Government's revenue needs, tax rates have had to remain high.

One result of this system is that middle-income workers are now subject to high marginal tax rates, as inflation has pushed these taxpayers into higher and higher brackets. In contrast, many upper income-tax payers have been able to shield themselves from the high statutory rates by taking advantage of tax shelters. Also, since most special tax breaks relate to investment income, wage earners have not been able to take advantage of the increasing number of tax preferences. Thus, working Americans, by and large, pay rates very close to the maximum rates set forth for them in the Tax Code, while wealthy Americans do not. Furthermore, these high rates discourage work effort and savings by middle-income workers.

A second problem with the current system is the complexity of determining one's tax liability. It is estimated that 40 percent of all taxpayers rely on professional help to fill out their tax returns. The confusion and costly compliance resulting from the existing individual income tax are far too great.

The current system erodes public confidence in basic Government functions and directs too many resources to complying with the tax system that could be devoted to productive uses.

Third, the tax system is widely perceived to be unfair. Most preferences are in the form of deductions or exclusions from income. Thus, the value of these preferences to each individual depends on his or her tax bracket. The higher one's income, the more valuable the tax preference. As tax breaks proliferate, progressivity declines and the perceived inequity of the Tax Code increases. Also, two taxpayers with identical incomes may pay very different amounts in taxes, depending on their sources of income or how they spend it. A fairer tax would strive to have all taxpayers with the same income paying the same amount in taxes.

Finally, tax evasion is encouraged by all these factors—a desire to avoid high tax rates, an increasingly complex Tax Code, and a perception by many taxpayers that they are paying more than their fair share. The IRS estimates that as much as $90 billion in revenues may be lost to tax cheating.

The appropriate response to these problems is a broader tax base accompanied by substantially lower tax rates. This simplified tax system would lower tax rates for the majority of middle-income Americans, encourage economic growth, reduce the cost of complying with the Tax Code, make the tax system more equitable, and reduce the incentives to evade taxes.

In summary, legislation that would broaden the tax base and reduce tax rates offers the most satisfactory approach to achieving the goal of tax reform. My bill will encourage economic growth and restore respect for the Tax Code while still recognizing the need to distribute the tax burden fairly.

By Mr. MITCHELL:

S. 1768. A bill to amend the Internal Revenue Code of 1954 to provide energy tax credits for equipment used aboard or installed on fishing vessels; to the Committee on Finance.

TAX CREDITS FOR EQUIPMENT INSTALLED ON FISHING VESSELS

Mr. MITCHELL. Mr. President, I am today introducing legislation establishing an energy tax credit program to provide incentives to American fishermen when they reduce the amount of energy which their vessels consume.

When the energy tax credit program was established in 1978, and later modified in 1980, its provisions were so specific that fishing vessel operators

were not eligible for tax credits when they invest in equipment to reduce fuel consumption.

When a fisherman installs expensive special equipment—for instance a "Kort" nozzle, a variable pitch or two-speed propeller, or a fuel flow meter—under my bill he will be eligible to receive a 10-percent investment tax credit. When added to the standard 10-percent investment tax credit, this means that one-fifth of the cost of the equipment may be written off by the purchaser.

Our national energy policies place commercial fisherman in a difficult competitive situation with fishermen in nations which have controlled fuel prices, such as Canada and Mexico.

My legislation will help them cope in the marketplace and will provide them with the same kinds of tax treatment enjoyed by land-based businesses which took direct action to conserve fuel.

I ask unanimous consent that the full text of my bill appear in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1768

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 48(1) of the Internal Revenue Code of 1954 (relating to property for which businesses may take an energy investment credit) is amended—

(a) by inserting after paragraph (2)(ix) the following new paragraph:

"(x) qualified harvesting vessel equipment,".

(b) by redesignating paragraph (17) as paragraph (18); and

(c) by inserting after paragraph (16) the following new paragraph:

"(17) QUALIFIED HARVESTING VESSEL EQUIPMENT.—The term 'qualified harvesting equipment' means equipment used aboard or installed on a vessel engaged in the harvesting of marine resources which reduces fuel (which can be oil, diesel fuel or gasoline) consumption, and is—

"(A) a fuel flow meter or fuel management digital microprocessor,

"(B) a hull speed meter,

"(C) a propeller thrust nozzle,

"(D) a variable pitch or two-speed propeller,

"(E) a large-bladed propeller,

"(F) a bow or side thruster,

"(G) a hull treatment,

"(H) a bulbous bow,

"(I) an on-board heat exchanger,

"(J) auxiliary sail equipment, or

"(K) automatic Loran C Navigational apparatus.".

(d) by adding at the end of the table contained in clause (i) of section 46(a)(2)(C) (relating to the amount of credit) the following new subsection:

"VIII. Qualified harvesting vessel equipment—property described in section 48(e)(17) . . . 10 percent . . . Jan. 1, 1983 . . . Dec. 31, 1985"

By Mr. DIXON (for himself, Mr. PERCY, and Mr. CRANSTON):

S. 1769. A bill for the relief of Dennis Brutus: to the Committee on the Judiciary.

RELIEF OF DENNIS BRUTUS

Mr. DIXON. Mr. President, I am pleased to introduce, together with Senators PERCY and CRANSTON, a private relief bill on behalf of Prof. Dennis Brutus of Northwestern University. The legislation is designed to grant him resident alien status in the United States.

Professor Brutus is a 59-year-old black South African exile, an intellectual, and a poet who teaches African literature in the English department of Northwestern University in Illinois. He has an international reputation as a poet and as an opponent of apartheid, the system of racial separation.

At the present time, Professsor Brutus is awaiting the decision of a deportation hearing which was held in Chicago last month. If the court orders him deported the consequences could be disastrous. Leaving the United States could actually jeopardize his life.

Professor Brutus last entered the United States on February 25, 1980, in order to continue his teaching assignment at Northwestern University. His visa status at that time was classified and approved by the Immigration and Naturalization Service as H-1; that is, "a person of distinguished merit or ability." Such visas are granted for a period not to exceed 1 year, and are renewable for increments of 1 year thereafter at the discretion of the Immigration and Naturalization Service.

At the time of his entry, Dennis Brutus, a native of Rhodesia, carried a British passport. In the spring of 1980 Rhodesia was granted independence and became Zimbabwe. At that time Britain canceled all passports that had been issued to natives of Rhodesia. Professor Brutus was unaware of this passport change until he applied for an extension of his visa at the Immigration and Naturalization Service in Chicago during January 1981. By the time the new Government of Zimbabwe had issued a passport to Brutus, he was late in applying for the extension of his H-1 visa.

During this period, Professor Brutus honored his commitment to Northwestern University, and he continued to teach in accordance with the terms of his contract. This decision placed him in violation of the Immigration and Naturalization Act which prohibits a nonresident alien from working without a valid visa. This violation can only be remedied by returning to Zimbabwe and reapplying for a visa.

Dennis Brutus and his supporters fear that should he be forced to return to Zimbabwe, he will become a target for assassination because of the lifelong battle that he has waged against racism and apartheid.

While this danger may be impossible to assess, we must keep in mind that another black critic of apartheid, Joe Gqabi, was assassinated in Zimbabwe in 1981, and Ruth First, an exiled white South African editor of a newspaper that Brutus once wrote for, was recently killed by a letter bomb at the University of Mozambique.

Senators PERCY, CRANSTON, and I are not the only ones who seek to protect the right of Professor Brutus to remain in the United States and who believe his case has merit. His case has attracted considerable attention in the press in my State. The Chicago Tribune and the Chicago Sun-Times, the largest daily newspapers in Illinois, have editorialized on his behalf. Vernon Jarrett, a very distinguished columnist with the Tribune, has also strongly urged that Professor Brutus be allowed to remain in the United States.

I submit that the United States, the home of refuge for millions of aliens, cannot play roulette with the life of Professor Brutus. As long as there is an outside chance that he will come to harm because of his fight against racism, we should not allow his deportation. Professor Brutus needs our help; he deserves our help. I urge my colleagues to see that he gets it by quickly enacting this bill.

Mr. President, I ask unanimous consent that a copy of the bill, the editorials from the Chicago Tribune and the Sun-Times, be included in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1769

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, in the administration of the Immigration and Nationality Act, Dennis Brutus shall be held and considered to have been lawfully admitted to the United States for permanent residence as of the date of the enactment of this Act upon payment of the required visa fee. Upon the granting of permanent residence to such alien as provided for in this Act, the Secretary of State shall instruct the proper officer to reduce by the proper number, during the current fiscal year or the fiscal year next following, the total number of immigrant visas which are made available to natives of the country of the alien's birth under section 203(a) of the Immigration and Nationality Act or, if applicable, the total number of immigrant visas which are made available to natives of the country of the alien's birth under section 202(e) of such Act.

[From the Chicago Tribune]

DENNIS BRUTUS IN KAFKALAND

The trials and tribulations of Dennis Brutus, a college professor facing possible deportation by the U.S. Immigration and Naturalization Service, could have been dreamed up by Franz Kafka. It is a tale of bureaucratic mindlessness, of a machine-like government agency cranking a case through

its cogs and wheels without regard to justice or even to good sense.

Mr. Brutus is a poet and tenured professor of English at Northwestern University who is also an outspoken opponent of South Africa's apartheid policies. He was born in what was then Rhodesia and later went to South Africa where he was imprisoned for his political activism. In 1966 he escaped to Britain where he obtained a British commonwealth passport based on his Rhodesian birth. He came to America in 1970 and took up his teaching position at Northwestern.

Then began a Kafkaesque snarl, a tedious and avoidable series of mistakes and misunderstandings some of which were the fault of Mr. Brutus, some the fault of the INS.

The first mistake was for him to remain in the U.S. on a temporary visa, renewing it each year instead of applying for permanent resident status. Had he obtained a more regular status there would now be no problem.

The situation was next complicated by cremation of the Republic of Zimbabwe, which rendered his Rhodesian passport invalid. Without a passport he could not renew his temporary visa so he had to obtain a Zimbabwean passport, which he did. Then he applied for a visa renewal, but by then his old visa had expired. The INS, its ponderous machinery grinding along, said he would have to leave the country, apply for a new visa and wait for a decision to be made on whether, and under what terms, it would be issued. In effect, he was to be deported.

Mr. Brutus argues that the only country he can go to is Zimbabwe, and that he faces the possibility of reprisal—and even death—at the hands of South African agents there. The INS maintains that he can go to some country other than Zimbabwe. The whole dreary business is being argued out before a judge in Chicago.

But it need never have gone that far, and it should be stopped now. There are perhaps eight million illegal aliens living happily and relatively securely in this country (as many as 500,000 of them right here in Chicago). With so many people here in clearly illegal status it is illogical to hound out of the country a person whose legal status is merely in doubt—especially a scholar of the stature of Mr. Brutus.

There are several ways to short-circuit the process. The U.S. attorney general could do it. If the attorney general won't be bothered, a member of the Illinois delegation could introduce in Congress a private bill to resolve the matter.

However it is done, somebody somewhere should push the "stop" button on the witless bureaucratic machine and let Mr. Brutus go about his business.

[From the Chicago Sun-Times, July 21, 1983]

DON'T EXPEL BRUTUS

Dennis Brutus, the exiled poet now teaching at Northwestern University, is fighting in federal immigration court for the right to stay in the United States.

It's also a fight for his work—and his life.

Witness after witness has told Judge Irving Schwartz that Brutus faces the threat of assassination by South African terror squads if he's forced to return to his birthplace, Zimbabwe. He's threatened in any country but the United States, they say. They're quite probably right.

As an outspoken foe of apartheid, Brutus has become an international symbol of the struggle against South Africa's white racism. A colleague in the fight was recently machinegunned to death there. Even the State Department says Brutus' fears are "well-founded."

He has been jailed once by South Africa. He should be freed to live and flourish in the United States.

By Mr. MOYNIHAN

S. 1771. A bill to extend temporary suspension of duties on certain clock radios until September 30, 1987; to the Committee on the Judiciary.

SUSPENSION OF DUTY ON CLOCK RADIOS

Mr. MOYNIHAN. Mr. President, I am today introducing legislation extending the suspension of duties on certain clock radios from the current expiration date of September 30, 1984, until September 30, 1987.

The clock radios to which the temporary suspension of duties applies are not currently manufactured in the United States. As such, I expect this bill to be noncontroversial. Indeed, substantial benefits will accrue to American consumers as importers of the affected articles pass along their savings.

Mr. President, I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows;

S. 1771

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that item 911.95 of the appendix to the Tariff Schedules of the United States (19 U.S.C. 1202) is amended by striking out "9/30/84" and inserting in lieu thereof "9/30/87".

By Mr. MATSUNAGA (for himself, Mr. INOUYE, Mr. SASSER, and Mr. PELL):

S. 1772. A bill to amend title XVIII of the Social Security Act to provide for direct medicare reimbursement for services performed by registered nurse anethetists; to the Committee on Finance.

REIMBURSEMENT FOR CERTAIN ANESTHESIA SERVICES

Mr. MATSUNAGA. Mr. President, I am today introducing together with Mr. INOUYE, Mr. PELL, and Mr. SASSER legislation to modify the medicare reimbursement system with regard to anesthesia services in order to provide for more affordable care, cost efficiencies for the medicare system, and improved access to care in many parts of the country. The bill would provide for direct medicare part B reimbursement to certified registered nurse anesthetists (CRNA's).

There are presently 18,000 practicing CRNA's, in a profession which has been recognized for almost 100 years. The CRNA is a licensed professional nurse who has subsequently graduated from a nurse anesthesia educational program accredited by the Council on Accreditation of Nurse Anesthesia Educational Programs or Schools, and who has passed a national examination for certification in the specialty administered by the Council on Certification of Nurse Anesthetists. The CRNA must also maintain certification through a recertification process administered by the Council on Recertification or Nurse Anesthetists. The recertification process requires that every 2 years, each CRNA demonstrate evidence of: First, current licensure as a registered nurse; second, active practice as a nurse anesthetist; and third, appropriate continuing education within the specialty.

The payment method for this service is such that reimbursement can be determined on the basis of prospective rates set by the type of case and diagnosis. Such a reimbursement method could provide a model for relating a specific service, anesthesia, to the newly established Diagnosis Related Group (DRG) hospital payment system.

Certified registered nurse anesthetists are highly educated, qualified licensed health professionals who have been providing a major portion of the anesthesia services within this country for nearly 100 years. Today, appropriately 18,000 active practicing CRNA's provide 70 percent of the anesthesia care in rural areas and 50 percent of such services across the Nation. Their practice is legally sanctioned through State laws and regulations in all 50 of the States and the territories. CRNA's are furthered identified in 34 of the States as expanded role professional nurses for practice in collaboration with physicians, dentists, and other health professionals legally authorized to render anesthesia services.

The median annual earnings of CRNA's is approximately $27,750 compared with anesthesiologists whose net median is $110,000 as reported by the Health Care Financing Administration. CRNA's practice in three ways: First, as hospital employees, second, as physician employees, or third, as self-employed professionals, billing directly under programs where it is permissible (private insurance and medicaid) and contracting with hospitals where it is not permissible. Currently, 57 percent of CRNA's are hospital employees, 28 percent are employed by physicians, 7 percent are self-employed, and 4 percent serve in or are employed by the military, with the remaining in an "other" category.

By recognizing CRNA's as directly reimbursable health professionals we would be taking advantage of a tested, cost-effective option in providing high quality anesthesia services at reduced costs. In fact, such recognition would inject the crucial element of economic competition into the delivery of anesthesia services, with resulting lower costs.

Over 30 percent of Blue Cross-Blue Shield plans reimburse CRNA's directly. There are eight (8) States that reimburse CRNA's directly through medicaid programs. Fifty-seven percent (57 percent) of private insurance plans surveyed indicate they can provide direct reimbursement to CRNA's for anesthesia services. Such reimbursement is also available under the CHAMPUS program covering active and retired military personnel and their dependents.

Medicare reimbursement was originally designed to conform with existing private, non-governmental insurance plans. Since the enactment of medicare, those plans have changed dramatically so that many private insurers make direct payments to a number of licensed health professionals on a charge basis for the services they deliver. Medicare has recently been amended with respect to hospital cost reimbursement to reflect current needs, and should be further modified to insure that medicare reimbursement to health professionals conform with current trends in nonmedicare programs such as Blue Shield and CHAMPUS.

A 1981 research report entitled, "Competition Among Health Practitioners," recently submitted to the Federal Trade Commission by Lewin & Associates, shows that current reimbursement practices regarding health professionals tend to limit innovation and promote inefficiency. Reimbursement policies that place CRNA's or other nonphysician health professionals at a competitive disadvantage interfere with the use of more innovative models of health care delivery and severely limit consumer choice. Where CRNA's are used only as physician complements rather than, in appropriate cases, substitutes, costs are likely to go up and productivity decline. Medicare part B reimbursement policy clearly creates these problems of inefficiency and costliness and is probably the greatest offender of all health care payors in this particular area. Trends in other insurance programs such as Blue Shield reflect the recognition by other insurors that it is efficient and sensible to provide for direct reimbursement to CRNA's.

The major arguments made against nonphysician direct reimbursement, such as the contention that direct reimbursement is hard to administer, that it results in poor quality care, and that it is costly, cannot be raised against CRNA's for the following reasons:

First. CRNA's provide a discrete, easily identifiable item of service which is presently listed separately as an item of charge under private plans and appears separately as a part of a physician's service under part B of medicare. To administer a direct reimbursement program for CRNA's is therefore quite simple.

Second. CRNA's must also always practice in a setting where a physician is present and supervising. In addition, hospitals also exercise quality control by virtue of their ability to grant or withhold hospital privileges to CRNA's.

Third. The services of CRNAs are not subject to limitless demand which the CRNA can stimulate since physicians control whether there will be a medical intervention requiring anesthesia services.

Anesthesia services may become less accessible in sparsely populated areas of the country with the advent of hospital reimbursement limits. Serious problems exist in some parts of the country where anesthesiologists do not practice and where hospitals are too small to efficiently employ CRNA's full time. Contracting with CRNA's for this service places a cost on the hospital budget which may not be affordable under hospital payment limits. Contracting entails another administrative cost which some hospitals indicate are much less acceptable. Direct reimbursement is, in these situations, the only method by which anesthesia services may be furnished by a CRNA and paid for by medicare.

Direct reimbursement to CRNA's would enable medicare to generate complete, accurate, and current data related to anesthesia care providers, the consumers they serve, and the costs associated with that care. In addition it would eliminate confusion on the part of consumers with regard to who provides their anesthesia care.

CRNA direct reimbursement presents a special case because the vast majority of their services are provided in hospital inpatient settings. Such a professional service therefore presents an opportunity to link professional service reimbursement to DRG-related prospective payment systems. Such reimbursement could be a model for relating part B professional service reimbursement to part A prospective payment. Reimbursement rates to CRNA's could be developed by utilizing such related factors as patient risk, complexity of medical intervention, essential anesthesia resource requirements, and so forth, in a manner allowing easier verification of appropriateness of charge or cost-based billings.

Mr. President, the bill which I am introducing with my three distinguished colleagues deserves early consideration by the Congress.

Mr. President, I ask unanimous consent that the text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1772

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a)(1) section 1861(s) of the Social Security Act is amended—

(A) by redesignating paragraphs (11) through 14 as paragraphs (12) through (15), respectively;

(B) by striking out "and" at the end of paragraph (9);

(C) by striking out the period at the end of paragraph (10) and inserting in lieu thereof "; and "; and

(D) by inserting after paragraph (10) the following new paragraph:

"(11) anesthesia services and related care provided by a registerd nurse anesthetist.".

(2) Section 1864(a) of such Act is amended by striking out "paragraphs (11) and (12)" and inserting in lieu thereof "paragraphs (12) and (13)".

(b) Section 1861 of such Act is amended by, adding after subsection (aa) the following new subsection:

"ANESTHESIA SERVICES PROVIDED BY A REGISTERED NURSE ANESTHETIST

"(bb)(1) The term 'anesthesia services and related care provided by a registered nurse anesthetist' means those services provided by a registered nurse anesthetist (as defined in pararaph (2)) which such nurse anesthetist is legally authorized to perform as such by the State in which such services are performed.

"(2) The term 'registered nurse anesthetist' means a registered nurse licensed by the State who meets such education, training, and other requirements relating to anesthesia services and related case as the Secretary may prescribe. In prescribing such requirements the secretary may use the same requirements as those established by a national organization for the certification of nurse anesthetists.".

(c) Section 1832(a)(2)(B) of such Act is amended by striking out "and" at the end of clause (i), by striking out "; and" at the end of clause (ii) and inserting ", and", and by adding at the end thererof the following new clause:

"(iii) anesthesia services and related care provided by a registered nurse anesthetist; and".

(d) Section 1833 (a)(1) of such Act is amended by striking out "and" at the end of subparagraph (F), and by adding at the end thereof the following; "(H) in the case of anesthesia services and related care provided pursuant to section 1861(s)(11), the amounts paid shall be 80 percent of the reasonable charge for such services which the Secretary determines to be consistent with efficient and high quality anestheia services, taking in account the prevailing rates for such services;".

(e) Section 1861(b)(4) of such act is amended by inserting before the semicolon the following: ", and anesthesia and related care provided by the registered nurse anesthetist".

(f) The amendements made by subsections (a) through (d) shall be effective with respect to services performed on or after January 1, 1984.

By Mr. MATHIAS (for himself, Mr. HATFIELD, Mr. JACKSON, and Mr. SARBANES):

S. 1773. A bill to amend the Internal Revenue Code of 1954 to permit the rollover of gain from the sale of farmland development rights to a State or a political subdivision thereof under a farmland preservation program, and

for other purposes; to the Committee on Finance.

FARMLAND PRESERVATION ACT

● Mr. MATHIAS. Mr. President, today I reintroduce the Farmland Preservation bill which would help protect our farmlands from the threat of macadamization. Increasingly, the growl of bulldozers is replacing the grind of tractors in our most fertile plains and valleys. The bill would not discourage growth and construction. But it would help cash-strapped farmers resist the tremendous pressures to sell their prime farmland for home construction or industrial parks.

Hearings were held on the bill last year in the Finance Committee. Since then, 3 million more acres of cropland have been lost. As all of my colleagues know, argiculture is the foundation of this country's prosperity. It employs over 17 million people, and it accounts for 1 of every 5 private sector jobs. The industry's assets are in excess of $900 billion—equal to almost 90 percent of the capital assets for all manufacturing firms. Farming employs more workers than the auto, steel, and transportation industries combined.

The importance of agriculture to both our domestic economy and international balance of trade cannot be overstated. In 1982, agricultural exports totaled $34.5 billion. Despite this performance, the United States continues to lose an alarming amount of prime farmland to urban sprawl. The incentives for farmers to sell their land to developers are currently much greater than the incentives for them to keep land in agricultural production. This trend must be reversed if we are to remain the breadbasket of the world.

Several State and local governments have attempted to slow the rapid loss of American's farmland. Farmers and State legislators have worked together to establish farmland preservation programs to help farmers resist the pressure to sell prime agricultural land to developers. Under these programs, the State or local government pays the farmer cash for an easement on the land that limits his or her rights to sell the land for development purposes. Although these programs have been very effective in helping to keep prime farmland in agricultural production, State and local governments can benefit from Federal assistance in making these programs more accessible and attractive.

The bill would provide Federal tax benefits to farmers who sell the development rights to their farms. Specifically, the bill would exempt from capital gains taxation the income the farmer gets from the sale of easement rights, provided it is rolled over into the purchase of new farmland or used for capital improvements in the existing farm. It would also grant a one-time capital gains exemption on the income if the farmer is over 55. Furthermore, since limited funds often require that the easement rights be sold at less than fair market value, the bill would allow the difference between the fair market value and the amount actually received to be deducted as a gift for tax purposes.

The bill would encourage farmers to participate in these programs and would foster the creation of similar plans in other regions across the Nation. By doing so, we will help preserve our Nation's most fertile land. The preservation of farmland near our cities, which is under the greatest pressure from developers, will reduce marketing and transportation costs and will prevent the destruction of many family farms.

But we must act quickly. In the 4 years since I first introduced this bill, we have lost roughly 12 million acres of fertile land to developers.

In the 5 minutes it has taken me to explain this bill, 30 acres of prime farmland have been plowed up and replaced by hot blacktop. I urge all of my colleagues to study the bill carefully and to join me in support of this measure to protect our Nation's greatest natural resource.

Mr. President, I ask unanimous consent that the text of my bill appear in the RECORD following my remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows;

S. 1773

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ROLLOVER OF GAIN PERMITTED.

(a) IN GENERAL.—Part III of subchapter O of chapter 1 of the Internal Revenue Code of 1954 (relating to common nontaxable exchanges) is amended by adding at the end thereof the following new section:

"SEC. 1041. ROLLOVER OF GAIN FOR SALE OF FARMLAND DEVELOPMENT RIGHTS.

"(a) NONRECOGNITION OF GAIN.—If a taxpayer sells farmland development rights to a State or a political subdivision thereof under a qualified farmland preservation program, and within the period beginning 18 months before the date of such sale and ending 18 months after such date, qualified farming property is purchased by the taxpayer, then gain on the development rights sale shall be recognized only to the extent that the amount realized by the taxpayer on such sale exceeds the taxpayer's cost of purchasing such qualified farming property.

"(b) DEFINITIONS.—For purposes of this section—

"(1) FARMLAND DEVELOPMENT RIGHTS.—The term 'farmland development rights' means the right of the owner of real property to use that property for purposes other than farming purposes.

"(2) QUALIFIED FARMLAND PRESERVATION PROGRAM.—The term 'qualified farmland preservation program' means a program which—

"(A) is established under the law of a State or a political subdivision thereof for the purpose of assuring that property currently devoted to farming purposes will continue to be devoted to such purposes, and

"(B) provides for the purchase of farmland development rights by the State or a political subdivision thereof in order to carry out that purpose.

"(3) FARMING PURPOSES.—The term 'farming purposes' shall have the same meaning as in section 2032A(e)(5).

"(4) QUALIFIED FARMING PROPERTY.—The term 'qualified farming property' means—

"(A) any real property,

"(B) any improvement on real property, or

"(C) any item chargeable to capital account,

which is used by the taxpayer for farming purposes.

"(c) RECAPTURE.—

"(1) IN GENERAL.—If a taxpayer who has claimed the benefit of subsection (a) in connection with the sale of farmland development rights—

"(A) devotes the property from which the farmland development rights were sold to a use other than farming,

"(B) sells or exchanges such property for a use other than farming, or

"(C) uses the qualified farming property purchased during the period described in subsection (a) for purposes other than farming purposes within the 5-year period beginning on the date of sale of such farmland development rights,

then there shall be included in the taxable income of the taxpayer for the taxable year an amount equal to the amount not recognized under subsection (a).

"(2) SALE OR EXCHANGE FOR USE OTHER THAN FARMING.—For purposes of paragraph (1)(B), a taxpayer shall be treated as having sold or exchanged property for a use other than farming if the taxpayer knew that the property was going to be devoted by the person acquiring such property, directly or through another party or transaction, to purposes other than farming purposes.".

"(b) CLERICAL AMENDMENT.—The table of sections for such part is amended by adding at the end thereof the following new item:

"Sec. 1041. Rollover of gain from sale of farmland development rights.".

SEC. 2. ONE-TIME EXCLUSION OF GAIN FROM SALE OF FARMLAND DEVELOPMENT RIGHTS BY INDIVIDUAL WHO HAS ATTAINED AGE 55.

"(a) IN GENERAL.—Part III of subchapter B of chapter 1 of the Internal Revenue Code of 1954 (relating to items specifically excluded from gross income) is amended by redesignating section 128 as 129 and by inserting after section 127 the following new section:

"SEC. 128. ONE-TIME EXCLUSION OF GAIN FROM SALE OF FARMLAND DEVELOPMENT RIGHTS BY INDIVIDUAL WHO HAS ATTAINED AGE 55.

"(a) GENERAL RULE.—At the election of the taxpayer, gross income does not include gain from the sale of farmland development rights (as defined in section 1041(b)(1)) to a State or a political subdivision thereof under a qualified farmland preservation program (as defined in section 1041(B)(2)) if—

"(1) the taxpayer has attained the age of 55 before the date of such sale, and

"(2) during the 5-year period ending on the date of the sale, the property from which the farmland development rights were sold has been owned and used by the taxpayer for farming purposes (as defined in section 2032A(e)(5)) for periods aggregating 3 years or more.

"(b) LIMITATIONS.—

"(1) DOLLAR LIMITATION.—The amount of the gain excluded from gross income under subsection (a) shall not exceed $100,000 ($50,000 in the case of a separate return by a married individual).

"(2) APPLICATION TO ONLY 1 SALE.—Subsection (a) shall not apply to any sale by the taxpayer if an election by the taxpayer or his spouse under subsection (a) with respect to any other sale is in effect.

"(c) ELECTION.—An election under subsection (a) may be made or revoked at any time before the expiration of the period for making a claim for credit or refund of the tax imposed by this chapter for the taxable year in which the sale or exchange occurred, and shall be made or revoked in such manner as the Secretary shall by regulations prescribe. In the case of a taxpayer who is married, an election under subsection (a) or a revocation thereof may be made only if the spouse joins in such election or revocation.

"(d) SPECIAL RULES.—

"(1) PROPERTY HELD JOINTLY; PROPERTY OF DECEASED SPOUSE.—For purposes of this section, the rules set forth in paragraphs (1), (2), (4), (6), and (8) of section 121(d) shall apply to sales to which this section applies.

"(2) PROPERTY USED IN PART FOR FARMING.—In the case of property only a portion of which, during the 5-year period ending on the date of the sale, has been owned and used by the taxpayer for farming purposes for periods aggregating 3 years or more, this section shall apply with respect to so much of the gain from the sale of such property as is determined, under regulations prescribed by the Secretary to be attributable to the portion of the property so owned and used by the taxpayer.".

(b) CLERICAL AMENDMENT.—The table of sections for such part is amended by striking out the last item and inserting in lieu thereof the following:

"Sec. 128. One-time exclusion of gain from sale of farmland development rights by individual who has attained age 55.

"Sec. 129. Cross references to other Acts.".

SEC. 3. CHARITABLE CONTRIBUTION DEDUCTION ALLOWED FOR GAIN FOREGONE BY REASON OF SALE OF FARMLAND DEVELOPMENT RIGHTS.

Section 170 of the Internal Revenue Code of 1954 (relating to charitable, etc., contributions and gifts) is amended by redesignating subsections (i) and (j) as subsections (j) and (k), respectively, and by inserting after subsection (h) the following new subsection:

(i) SALE OF FARMLAND DEVELOPMENT RIGHTS.—In the case of a taxpayer who sells farmland development rights (as defined in section 1041(b)(1)) to a State or a political subdivision thereof under a qualified farmland preservation program (as defined in section 1041(b)(2)), the taxpayer shall be treated, for purposes of this section, as having made a charitable contribution to the State or a political subdivision thereof in an amount equal to the amount by which—

"(1) the fair market value of the property with respect to which the farmland development rights were sold (determined, as of the day before the date on which such rights were sold, on the basis of the highest and best permissible use of such property) minus the value of such property as farmland (determined as of such date), exceeds

"(2) the gain from the sale of the farmland development rights (determined without regard to section 1041).".

SEC. 4. EFFECTIVE DATE.

The amendments made by this Act shall apply with respect to sales occurring after December 31, 1983.●

By Mr. PROXMIRE (for himself, Mr. LEAHY, Mr. METZENBAUM, and Mr. CRANSTON):

S. 1774. A bill to amend the Federal Insecticide, Fungicide, and Rodenticide Act to better protect the environment and man from the hazards of pesticides, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

(The remarks of Mr. PROXMIRE on this legislation appear elsewhere in today's RECORD.)

By Mr. DOMENICI:

S. 1775. A bill to repeal the designation of the Georgia O'Keeffe National Historic Site; to the Committee on Energy and Natural Resources.

GEORGIA O'KEEFFE NATIONAL HISTORIC SITE

Mr. DOMENICI. Mr. President, this legislation is introduced at the request of Georgia O'Keeffe. Her letter, for which I ask unanimous consent to be included in the RECORD, is self explanatory.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

ABIQUIU, NEW MEXICO,
July 29, 1983.

Senator Pete V. Domenici,
U.S. Senate,
Washington, D.C.

DEAR SENATOR DOMENICI: As you may have heard by now, I have had some serious doubts about having my home become a national monument. I am afraid that after the Park Service has run it for a few months it will become a different place. Many people from the village of Abiquiu are also very worried about the tourist traffic that would be passing through. I think that what I have been able to give that is important has been my painting. This will be available for people to see on museum walls for many years. The landscapes that have meant most to me are also there for those who want to see them. Therefore, I have decided to ask you to rescind the bill that would have required the Government to maintain my Abiquiu home indefinitely.

I appreciate all that you have done and hope that this has not been too much of an inconvenience.

Wishing you the best.

Sincerely,

GEORGIA O'KEEFFE.

By Mr. DIXON:

S. 1776. A bill to document the vessel *Odyssey* as a vessel within a certain classification; to the Committee on Commerce, Science, and Transportation.

LEGISLATION TO RECLASSIFY THE ODYSSEY

Mr. DIXON. Mr. President, I rise today to introduce legislation to reclassify an Illinois pleasure craft so it can receive a Great Lakes license and engage in coastwide trade.

The *Odyssey*, a 95-foot white yacht launched in 1975, is home ported in Chicago, Ill., and is owned by the DuPage Marine Corp. She recently underwent an extensive refurbishment program with virtually every system—mechanical, electrical, plumbing, air-conditioning, pumps and motors—being overhauled or replaced. The *Odyssey* is of U.S. registry and carries a crew of five. The yacht is documented by the Coast Guard as a U.S. vessel for use as a pleasure craft. However, in order for her owners to charter her out with a crew, a Great Lakes license is required.

The recently refurbished *Odyssey* does not qualify for this license, not because of any inability to pass a Coast Guard inspection or any violation of the Coast Guard's stringent standards. It fails to qualify for this type of license because its hull and superstructure were not constructed in the United States, but in New Zealand. However, all refurbishing of this vessel has been done in the United States.

The *Odyssey* is a fine vessel, capable of transoceanic voyages. She is completely seaworthy.

In the event of any emergency situation which might be encountered during any voyage, she is equipped with two eight-man inflatable life rafts, ample life preservers, and automatic and manual firefighting systems. These safety devices most certainly would safeguard the passengers of the *Odyssey* during a charter voyage on the Great Lakes.

Representative WILLIAM LIPINSKI, a member of the Illinois Congressional delegation and a member of the House Merchant Marine and Fisheries Committee, has introduced similar legislation to upgrade this vessel's classification.

Mr. President, I ask that the full text of the bill be reprinted in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1776

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, notwithstanding sections 110(d), 111(a)(2), 112(a)(2), and 113(a)(2) of the Vessel Documentation Act (46 U.S.C. 65 h, i, j, k), and section 27 of the Merchant Marine Act, 1920 (46 U.S.C. 883) the Commandant of the Coast Guard shall document the vessel *Odyssey*, official number 602326, owned by the DuPage Marine Corporation, as a vessel of the United States with the privilege of engaging in the coastwise trade and the fisheries, upon compliance with all other requirements of law.

By Mr. TRIBLE:

S. 1777, a bill to amend part D of title IV of the Social Security Act to require each State to develop, implement, and enforce a system of mandatory wage deduction for the collection of child-support payments; to the Committee on Finance.

THE IMMEDIATE CHILD SUPPORT ENFORCEMENT ACT—EFFECTIVE AND UNIVERSAL SUPPORT FOR OUR NATION'S SINGLE-PARENT FAMILIES

● Mr. TRIBLE. Mr. President, today I am introducing a bill to deal with a pressing national problem—the enforcement of child support payments. Our Government has no more important duty than maintaining the integrity of the family bond. Our law must assert every parent's responsibility to support his children.

Right now, our Nation is failing in this area. A Census Bureau report published this spring showed that 28 percent of the mothers owed child support during 1981 received nothing during that entire year. More than half of the women owed support did not receive the full amount they were owed. The children in over 2.15 million homes across the United States are being shortchanged and cheated.

For the mothers involved, it is an economic catastrophe. It is theft from defenseless children. It has contributed to the feminization of poverty. We now find that while some 14 percent of the population-at-large falls below the poverty line, among single mothers caring for children, the figure more than doubles to 35 percent.

In nearly all cases the mother lacks either the time or money to go back to court and enforce what is already legally due. When she does go back to court she faces delays and roadblocks. The time has come for a new system of enforcing what is already a legal and moral obligation.

In America the economic status of families maintained by a mother raising children by herself have been in steady decline. In 1969, 17 percent of such families lived below the poverty level. In 1981, this figure had climbed to a shocking 35 percent. The percentage had more than doubled in just 12 years, and was a full 21 points higher than the 14-percent rate of poverty in the population at large. As Greg J. Duncan of the University of Michigan's Survey Research Center concluded in a study issued in June 1982: "Divorce is economically disastrous for many of the women and children involved in it, accounting for much of the flows into and out of poverty."

The reason it is economically disastrous is detailed in a Census Bureau report published this year. In the spring of 1982, there were 6,186,000 women living with children under age 21 who had no husband present in their homes. There were an additional 2,201,000 women who had remarried, but were caring for the children of a previous marriage; 59.2 percent of all these women were supposed to receive child support in 1981. Less than three-quarters (71.8 percent) received any of the support due them; and less than half (46.7 percent) received the entire amount due.

In other words, 28 percent of those mothers with court orders requiring child support actually received nothing during the entire year. More than half did not receive the full amount owed. This is an economic catastrophe for the mothers involved, and amounts to theft from defenseless children.

In far too many of these cases, the present enforcement system has failed to provide for these children. Unlike most bad debt cases, a court has already entered a legal order concerning the obligation. Yet many times the order is ignored by the absent parent. To obtain payment, the custodial parent then has to go back to court, and here the process becomes an ordeal for the children and mothers involved. In most cases, the mother lacks the time and money to seek in court what is already legally and morally their due. Many times what little time and money they do have is wasted as the courts permit unconscionable delays. Frequently, the courts further compound the problem by reducing obligations already due the children, and reducing future obligations as well.

Two studies cited by Judy Mann in the Washington Post, July 15, 1983, emphasize the need for action:

A California study found the income level of women dropped 73 percent after divorce while the man's income rose 42 percent. A Denver study found that two-thirds of the fathers paid less in court-ordered child support than they spent on monthly car payments.

The studies and statistics show there is a widespread pattern of irresponsibility and callousness on the part of absent parents. The legal system has yet to meet the challenge of dealing with them. The Federal Government needs to establish an enforcement program which helps children and custodial parents before they are forced to depend upon the aid for families with dependent children program.

The bill I am introducing meets that need.

First, the bill is universal in its application. All children with legally ordered support obligations would be covered, not simply children who are receiving support from the aid for families with dependent children program.

Second, the bill creates an effective enforcement mechanism. Employers would be required to deduct the necessary child support payments, plus an administrative fee to cover the costs of collection, from the absent parent's pay. This money would be forwarded to the custodial parent by the State agency responsible for the program. This would insure the legal obligation to support one's children is met.

Third, the bill requires an alternative enforcement system for those absent parents who receive their income from self-employment or other sources that would not be reached by payroll deduction.

Fourth, the bill puts this enforcement mechanism into effect immediately. Children would have the full support and protection of this Federal system from the beginning, from the moment obligations are legally due.

Fifth, the bill includes strong protections for the absent parent to insure they do not suffer any unfair hardship because of this enforcement system.

Finally, the bill introduces the idea of each State setting a minimum support payment. State courts should have a standard to base their determinations on, and this standard should be spelled out.

Mr. President, I would like to ask unanimous consent that several descriptions of the problems we face in child support enforcement be printed in the RECORD preceding the text of the bill. These items include two case histories of mothers in Virginia who have suffered through the system. Their cases were included in the testimony of the northern Virginia chapter of the Organization for the Enforcement of Child Support before the Senate Finance Committee on June 21, 1983. A second item is an excerpt from "The Politics of Welfare," by Blanche Bernstein which describes the author's experience with a family court judge when she was serving as administrator of New York City's Human Resources Administration. A third item is a chart from the Census Bureau report on this problem. The fourth item is the testimony of the "For Our Children's Unpaid Support" group of northern Virginia which was presented before the House Subcommittee on Public Assistance and Unemployment Compensation of the Ways and Means Committee on July 14, 1983. The presence of Jerry Cannizzaro as a leader of that group is a reminder that while we usually talk in terms of absent fathers, there are cases of absent mothers neglecting their responsibility of child support as well. In addition, I would like to include the complete column by Judy Mann mentioned earlier.

Mr. President, I would like to ask unanimous consent that the text of the bill be printed following these remarks.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1777

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This Act may be cited as the "Immediate Child Support Enforcement Act".

FINDINGS AND PURPOSE

SEC. 2. The Congress finds and declares that—

(1) the "feminization of poverty" is an urgent and increasing problem as the ranks of our Nation's poor are increasingly filled by women and children;

(2) divorce and single-parent families account for much of the flow into and out of poverty in our Nation; and

(3) our present child support enforcement is inadequate, and the Federal Government should accept the basic duty of enforcing family support obligations.

STRENGTHENING STATE CHILD SUPPORT PROCEDURES

SEC. 3. Part D of title IV of the Social Security Act is amended by adding at the end thereof the following new section:

"COLLECTION OF CHILD SUPPORT THROUGH MANDATORY DEDUCTIONS FROM WAGES UNDER STATE LAW

"SEC. 466. (a) In order for any State to be eligible for payments pursuant to this title or title XIX for any calendar quarter, such State must have enacted and implemented a State law providing for the collection of child support through a system of mandatory deductions from wages which satisfies the requirements of this section, and must be effectively enforcing such law throughout the State during that quarter as determined in accordance with regulations prescribed by the Secretary.

"(b) A State system of mandatory deductions from wages shall satisfy the requirements of this section only if—

"(1) the system applies in every case where an individual residing in the State owes child support (as defined in subsection (c)) under an order of a court of such State, or under an order of an administrative process established by a law of such State, whether or not the obligation involved is one which has been assigned to the State under section 402(a)(26) or which has been (or could upon application have been) undertaken to be collected by the State under section 454(6);

"(2) the system provides for the deduction from the wages of the individual involved in any pay period (without regard to the nature of his or her employment or the manner in which the wages are paid) of an amount equal to any child-support payment or payments due from the individual during such pay period, plus an additional amount, if the individual owes any past-due child support, equal to 100 percent of such past-due child support or 25 percent of the individual's gross wages for such pay period (whichever is less); plus a reasonable amount to cover the costs of collection incurred by the employer and the State;

"(3) the system provides for the distribution of all amounts deducted from wages or otherwise collected pursuant to this section, under regulations which shall be prescribed by the Secretary within 60 days after the date of the enactment of this section, in the same manner as would have been required under the preceding provisions of this part if the support involved had been collected under those provisions and without regard to wage deductions; except that any fees or charges imposed to cover the costs of collection shall be paid by the individual from whom the amounts involved were deducted or otherwise collected;

"(4) the system provides for the utilization of the services and facilities which are otherwise available under this part in locating such individual, in administering the deduction process, and in distributing the amounts deducted, and for the establishment of such additional administrative requirements and procedures as may be necessary or appropriate (as determined under regulations of the Secretary) to carry out the purposes and objectives of this section;

"(5) the system provides for advance notice to each individual from whose wages deductions are to be made regarding the deduction that will occur and the procedures such parent must follow if he or she believes that the deduction (including the amount to be deducted) is not proper because of mistakes of fact or, if applicable, payment by such parent of the arrearage;

"(6) the system provides for adequate notice to the employer of the specific amount to be deducted and the additional amount which may be retained by the employer as a fee for administrative costs in accordance with criteria established by the Secretary;

"(7) the system provides for as simple a deduction and payment process as possible, including permitting an employer to combine all deducted amounts into a single payment to the State or designated agency;

"(8) the system provides for procedures to notify employers that deductions are to be terminated when child support is no longer payable, consistent with such circumstances as the Secretary by regulation may prescribe;

"(9) the system provides for protection of the employee's privacy against disclosure of the deduction, and provides for a fine against any employer who discharges from employment or refuses to employ an individual because of the existence of the wage deduction requirement and the obligation it imposes upon the employer;

"(10) the system provides that the employer must be held liable to the State for any amount which such employer failed to deduct (up to the amount of the arrearage) from wages following the employer's receipt of proper notice;

"(11) the system provides for giving notice to, and requesting the enforcement of a State support order entered against an individual by, the child support enforcement agency of any other State in which such individual is employed;

"(12) the system provides that under State law the support collection under this section has priority over any other legal process applied against the same wages;

"(13) the system provides for a minimum subsistence amount which shall be established by each State, based upon such State's determination, which shall be the minimum amount ordered as child support;

"(14) the system provides for administrative procedures for—

"(A) entering child support orders which shall have the same force and effect under the State's law as ordered by a court,

"(B) enforcing support orders entered through the use of judicial, quasi-judicial or administration procedures whether under the procedures of that or any other State, and

"(C) utilizing the State's generally applicable judicial procedures only for review of the orders entered or enforcement action taken, upon request for such review by a party or by the parent or guardian with whom the child is living; and

"(15) the State demonstrates to the satisfaction of the Secretary that it has taken all of the actions, made all of the arrangements, and entered into all of the agreements, which are necessary to extend its wage deduction system as described in subsection (d).

"(c) For purposes of this section—

"(1) the term 'child support' with respect to any individual means payments which are due from such individual under a court order (or an order of an administrative process established under State law) for the support and maintenance of a child or of a child and the parent with whom the child is living;

"(2) the term 'past-due child support' with respect to any period means any amount of child support which was due for a prior period but which remains unpaid; and

"(3) the term 'wages' means any and all remuneration for employment, determined without regard to any exclusions from or limitations on such term (or the term 'employment') which may be applicable under other provisions of this Act or under other Federal, State, or local laws.

"(d) Consistent with the preceding provisions of this section, each State shall—

"(1) take such actions as may be necessary to extend its wage deduction system so that such system will include deductions of child support from forms of income other than wages, or will include the imposition of bonding, the use of State tax collection or refund procedures, or other requirement in cases involving individuals whose income is from sources other than wages, in order to assure that child support owed by individuals in the State will be collected without regard to the types of such individuals' income or the nature of their income-producing activities; and

"(2) make such arrangements and enter into such agreements with other States as may be necessary to extend its wage deduction system so that such system will include deductions of child support owed by an individual residing in such State where the applicable court order or administrative order was issued in another State, in order to assure that child support owed by individuals in the State will be collected without regard to the residence of the child or spouse to whom the support is payable.".

EFFECTIVE DATE

SEC. 4. The amendment made by this Act shall become effective on the first day of the eighteenth month which begins after the date of the enactment of this Act; but any State may at its option place such amendment in effect at any time prior to such first day.

CASE HISTORY OF ALEXIS KURSTEINER OF RESTON, VA.

In September 1981, I left Michigan and moved to Virginia with my two girls, aged 11 & 13, because of my husband's continued abuse and threats. I retained a lawyer in Michigan who advised me to try to establish my six month residency in Virginia before filing for divorce. However, in late December my husband filed a divorce action against me in Michigan and in February 1982 the Friend of the Court (FoC) awarded me temporary custody and a weekly child support payment of $35/child. No child support was paid after this order, and after several contacts with the FoC a show cause hearing was scheduled in late May. At that hearing, the judge ruled that all arrearages would be held in abeyance until the final hearing in July, at which time the arrearages (approximately $1000) were forgiven and my ex-husband was ordered to begin paying child support from that time forward. Despite semi-weekly phone or letter correspondence with the FoC, I received only one child support payment until an-

other show cause hearing was scheduled in January 1983.

The January hearing was canceled, which I learned of after the fact, and my ex-husband was issued a one month continuance contingent on his meeting his support obligation during that time. We were both also required to submit proofs of our income and expenses—a questionaire, pay check stubs, and previously filed income tax forms—by a specified date. Although my ex-husband did not pay the support or meet the timeline, he was granted two extensions. At one point, when I contacted the FoC to voice my dissatisfaction at the delay, he explained that he was allowing my ex-husband ample time so that he could make an equitable decision and asked if I had considered reconciliation since I was having so much financial difficulty. Another show cause hearing was finally scheduled in April. At that time my ex-husband purposely did not appear in court even though his lawyer and mine were both present, and a writ of body attachment was issued for his arrest. Nevertheless, the writ was never served and my ex-husband appeared in court unbeknownst to my lawyer or myself the following week. He claimed he had never received notification of the hearing and was not found in contempt of court by the judge. Also at that time the judge, upon the FoC's recommendation, lowered the support payments to $25/week per child with an additional $20 per week to be paid toward arrearages which amounted to approximately $2,000. This readjustment was made despite the fact that my ex-husband had reported a gross salary over double my gross salary and $9,000 more per year after deducting his business expenses. Still no support payments were made except for one payment just before the girls left to spend the summer in Michigan. My ex-husband is currently $2,300 in arrears.

CASE HISTORY OF MELISSA OWENS, ALSO OF NORTHERN VIRGINIA

I was separated from my ex-husband (Robert D. Owens) in July of 1978 at which time I was five months pregnant. My son, Ryan Steven Owens, was born on 12 November 1978. In November of 1979, my divorce became final. My ex-husband was directed, by my attorney, to pay $150/month in child support. These payments came directly to me. For the most part, these payments were late in arriving. Back in March of 1982, he started falling behind in his payments—one to two months. As of the present time, he is seven months behind ($1,050). I have attempted to reach him (by telephone—he had his number changed to an unpublished number; by mail—certified mail was returned), but with no success. He recently sent me a brief note expressing his dilemma over finances and how in debt he was and that he would try to send me some money at the end of June. There was no return address on the envelope, but it was mailed from Lesage, West Virginia (his mailing address is Annandale, Virginia). I have received nothing from him. He has never asked nor shown any concern for his son, whom he has not seen since Ryan was five months old. I am a single working mother who has to watch every penny. I live from pay day to pay day, and Ryan's care while I'm at work runs me $200+ a month. Needless to say, his clothing and food costs set me back. He will be attending kindergarten in September of this year, and I desperately need financial assistance. I cannot afford an attorney, even though my divorce papers state that my ex-husband would be responsible for any legal fees required should he be delinquent in his payments. This occurred when I retained an attorney for my divorce. My ex-husband was supposedly responsible for one-half of the legal fees—he did not pay promptly, so I was asked to pay his part until such time as he could pay my attorney, whereupon I would be reimbursed this amount.

Where do I go from here?

EXCERPT

Excerpt from The Politics of Welfare by Blanche Bernstein, quoting from a memo she wrote to New York City Mayor Ed Koch following her visit to a family court judge, Judge Philip Roache. (The Politics of Welfare, Abt Books, Cambridge, MA, 1982, p. 79–80.)

Judge Roache indicated a lack of sympathy with the IV-D program and I shall try to give the flavor of a series of complaints he made as follows [Judge Roache's comments are in italics; mine are not]:

1. *What is the point of bringing in all these 18 or 19 year olds who have not seen their fathers for 15 years to try to establish paternity? It's an utter waste of time.* I then responded with the fact that there are very, very few such cases. The great bulk of cases dealt with are young children.

2. *What was the use of bringing the fathers into court since they are all on public assistance?* I said, on the basis of available figures, this clearly was not true. Most of the fathers were not on public assistance. Further, even when they were, we might want to establish paternity in case they later become self-supporting. But we did *not* try to obtain support while they were on public assistance.

3. *What is the use of bringing these men in for support since none of them are earning very much?* I said some were not earning much and others were earning enough to provide some support according to the state standard which allowed the "absent father" to retain enough income to maintain the Bureau of Labor Statistics lower level standard of independent living. Judge Roache rejected the state standard and said, he "knew better what a man could afford to contribute to the support of his child". . . .

I then moved into Court with Judge Roache and observed the procedure in three child support/paternity cases. Among the six people involved, all were young—somewhere in their twenties. None were married. The three children involved were all very young. The three men were working and all three readily admitted paternity. With respect to this latter point, I felt that Judge Roache in his efforts to inform the men of their right to deny paternity overstressed the burdens this could impose on them without any counterbalancing statement indicating that if they were the fathers of the children, they had a responsibility toward them.

More disturbing, was what could almost be called a farce in terms of determining what the father could afford to pay toward support. Judge Roache asked what they paid for rent, a question each was generally able to answer; whether accurately or not, one could not say. He then asked how much they spent on food and what other bills they had—questions which each of the

TABLE B.—CHILD SUPPORT PAYMENTS AWARDED AND RECEIVED IN 1981—WOMEN WITH CHILDREN PRESENT BY SELECTED CHARACTERISTICS

Characteristics of women	Total (thousands)	Percent awarded child support payments [1]	Supposed to receive child support in 1981

three men found utterly confusing; clearly they had no idea. The three men respectively earned $91, $120 and $140 per week, net of taxes. In one case, the man offered to pay $15 per week, but Judge Roache decided that he should pay only $10; this was the man earning $120 a week who was living with his aunt and paying $25 a week for rent and board. The man earning $140 was already making a support contribution and the amount was not divulged or reviewed by the court.

I was later advised by staff who are frequently in Judge Roache's court that even the above sums, which are substantially below the state standard, were higher than he ordinarily allows and may have been due to my presence in court.

TESTIMONY ON THE ECONOMIC EQUITY ACT, H.R. 2090, TITLE V, CHILD SUPPORT ENFORCEMENT AND H.R. 2374, 926 AND 3354

Chairman Ford and Members of the Committee, I am Bettianne Welch, President and Co-Founder of F.O.C.U.S., For Our Children's Unpaid Support. My colleague is Gerald Cannizzaro, Vice President and Co-Founder. He is here to assist in responding to your questions. We are a citizen advocacy group, founded in July 1981, in Virginia. I am currently an Advisory Member of the Interstate Child Support Enforcement Study, being conducted by the Center for Human Studies, under a grant from the Social Security Administration. F.O.C.U.S. appreciates this opportunity to appear today in regard to the Child Support Improvement Act of 1983.

F.O.C.U.S. is founded on the premise that all children are entitled to the financial support necessary to meet their basic needs. This support is the moral and legal responsibility of both parents.

As you are aware, an alarming number of parents choose not to honor this responsibility. Instead of two parents providing support, the custodial parent is carrying the entire burden. Most often, the custodial parent is making the lesser salary, and the burden becomes unmanageable. At this point outside assistance must be sought, in the form of food stamps, subsidized housing, aid to dependent children and student aid for education. The taxpayer, in fact, picks up the burden of the parent who is delinquent in the support of its child. The most recent survey by the U.S. Census Bureau (June 1983) estimated $4 billion per year in delinquent support has not been collected.

We endorse any measures that will establish an improved national system of monitoring and collecting child support to be established.

We in F.O.C.U.S. are personally aware of the weaknesses in the present system of enforcement and collection of child support. The statistics that are being presented to your Committee overwhelmingly illustrate that unpaid child support is a problem of a national magnitude. Statistics often do not show us where the problems lie; only that they exist. Our personal experiences with child support collection may be helpful to you. For illustration, I will present, in brief sketches, three real cases.

(1) A custodial parent has experienced the phenomenon known to those of us "in the trenches" as "state-hopping." She has attempted collection of child support in five states in six years, with very little success. The procedure for obtaining a judgment in each new state is so lengthy that relocation occurs before collection. The new state will, of course, need to establish its own order for collection, and often waives prior arrearages. This has proven to be an effective method for the delinquent parent to avoid paying support.

(2) In another case familiar to our group, the custodial parent has attempted collection from a self-employed former spouse. Wages cannot be attached and true income cannot be proven. She has withdrawn from the child support system because it does not adequately address these problems. She is now grateful for the small amounts of support which are sporadically sent directly to her. She, as most custodial parents, makes no attempt to "budget in" her child support payments as a regular source of income. She receives each payment as a "bonus."

(3) Since 1979, the custodial parent of three children has been actively pursuing her case within the URESA system. She has received three payments to date. She holds five support orders, has had thousands of dollars in arrearages "held in abeyance," and has had the original support award reduced from $650 per month for three children to $400 per month to $300 per month and most recently to $100 per month. To date she has employed the intervention of two members of Congress, and the gratis intervention of two private attorneys. As stated, her three children have received three payments in four years. The documents in this latter case are available to the Committee at its request.

These cases vividly illustrate the inability of the current system to deal effectively with specific problems: self-employed non-custodial parents; the actual collection of Support Orders; and the "state-hopping" delinquent parent. Most custodial parents cannot afford private attorneys; they must depend on the Child Support System to obtain their payments. The pursuit of their cases within the system becomes frustrating and time consuming. With support officers handling 600-800 cases, and with the overcrowded court dockets, it is no wonder that these cases become a lengthy and often fruitless pursuit. It is also no wonder that many parents are forced to drop out of the system in despair. These families are no longer even a part of the national statistics on delinquent child-support. There are large "cracks" in the present system. Unfortunately, children are the ones falling down the "cracks."

As previously stated we believe the Child Support Enforcement Act is a very positive step in strengthening the effectiveness of our national child support collection efforts. However, the experience of our members has shown us that state jurisdictions do not always cooperate in collecting or enforcing child support awards. We have found that a lack of uniformity in state laws and judicial rulings lends itself to various interpretations of a child's basic rights and needs. Therefore, in many instances it is most difficult, if not impossible, for a spouse to collect child support payments when the non-paying spouse moves from state to state. The Act, as now written, will be most beneficial to those child support collection efforts based within an individual state. However, it will not solve the collection problems of thousands of spouses whose partners willingly move from state to state avoiding their child support obligations. In addition, if spouses who are collecting child support with the assistance of a state agency move to another state they create a nightmare of problems. Their new state of residency may delay or reduce their child support payments due to differences in its child support laws or in their collection agency's effectiveness and procedures.

F.O.C.U.S. believes that the only way to resolve the frustrating problems caused by interstate non-cooperation and legal differences is to make it a federal offense to willingly not pay or avoid basic child support payments. Making the failure to pay child support a federal offense would greatly help to eliminate the millions of dollars of lost support payments and, subsequent federal assistance money, that now escapes interstate collection loopholes.

Therefore, we urge the following recommendations be adopted as part of the Child Support Enforcement Act you are considering here today:

1. Establish a minimum Child Subsistence Payment level which must be paid to every custodial spouse for each dependent child regardless of parental, welfare or residency status. This payment should be an amount adequate to supply the dependent child with its basic needs (i.e., adequate food, clothing, education and medical aid, etc.) The creation of such a payment level would act as a standard for state courts to award and defend minimum child support payments. The creation of this minimum payment would not deny the requesting spouse from seeking a higher support award. It would however, disallow any reductions below this minimum at a later date. It would also provide the respective attorneys with a financial obligation that must be resolved prior to the final settlement of a child-related divorce or martial separation. We further recommend that this Child Subsistence Payment should be indexed on an annual basis according to the changes in the National Consumer Price Index. The federal government already has the adequate statistical resources and personnel to establish this minimum subsistance payment.

2. As previously stated, we believe that the federal government should make it a Federal offense to deliberately avoid paying child support. This offense should be punishable by a substantial fine, levied and enforced by the federal courts and revenue collection agencies. It is F.O.C.U.S. belief that the creation of a federal fine will be greatly instrumental in motivating those chronic nonpayers to recognize their parental responsibility.

3. We believe the federal government should offer its assistance and resources in helping State jurisdictions to attach both wages and property by honoring their valid support orders. This federal assistance would greatly help the state agencies in collecting child support payments due from non-paying spouses who hop from state to state to avoid their parental obligations. In addition, the use of federal resources coupled with a federal fine would make it more difficult for those non-paying "self-employed" spouses to avoid their support responsibilities.

We understand that there will be expenses incurred by the federal government in providing our recommended assistance. However, they would be more than offset by reductions in the amount of federal assistance payments now being paid to non-support receiving spouses. If the fedeal government does seek direct reimbursement for its services we urge that the non-paying spouse be charged and not the child supporting one. The burdens and frustration responsible spouses now endure in trying to raise their children with their own resources is ample reimbursement for any federal assistance.

In conclusion, we ask the federal govenment to enforce the payment of child support awards as aggressively as private industry pursues delinquent financial obligations for automobiles, homes and credit cards. The child support collection industry cannot remain a vehicle for employing people who only comfort those in misery. It must be an industry which becomes effective in ending the poverty and uncertainty now facing responsible spouses and their dependent children. In behalf of the millions of children who are not receiving support payments, we ask you to adopt the recommendations we have made today.

Addendum: Since July 14, FOCUS has investigated the precise figures they would suggest be used in determining a minimum level for child support. Based on U.S. Department of Agriculture figures and using 1982 dollars, the group suggest a national figure of $420 per month per couple for the first child, with a five percent reduction in the amount necessary for second and subsequent children. It is important to note their suggested figure encompasses the couple—it is not seen as just the responsibility of the absent parent.

[From the Washington Post, July 15, 1983]

NEWLY POOR

(By Judy Mann)

Gail Forsythe of Selmer, Tenn., is a single mother of two, and a teacher. She went to Capitol Hill yesterday to tell members of Congress just how tough it is for single mothers to collect child support from deadbeat fathers and just how rough it is on the children. She's seen it in her classroom and she's been through it at home.

"For years I have dealt with the children of mothers working in low-paying jobs who can't afford to leave work to care for sick children," she told the House subcommittee on public assistance and unemployment compensation. She told of single parents who couldn't afford optical and dental work for their children and of latchkey children who cared for younger siblings while their mothers worked.

She said she has seen cases in which mothers who have remarried have tolerated child abuse because they were afraid that leaving would plunge them into economic disaster.

And she testified about her own effort to support her family and to collect child support from her former husband, "a noted professor of nuclear physics at an Ivy League university," who "swore he would never pay a dime in child support." She testified that she went to court five times between 1972 and 1979, was forced to travel out of state and pay attorneys fees in an effort to collect. One trip, to Media, Pa., cost her $1,300 and while the court ruled in her favor including a $2,000 lump sum in arrears, her former husband did not obey the order.

Finally with the help of a district attorney in Tennessee, she tried to obtain support through the Federal Uniform Reciprocal Support Act. She testified that a court in Philadelphia, without notifying her of the hearing, reduced the support awarded months earlier by the Media, Pa., court, and allowed here former husband to pay off his arrears at $2 a week, "giving him 18 years to pay off." She testified she now receives $60 a week, "less than he was paying for psychological counseling and marriage counseling when we were living together."

Forsythe said she worked up to 85 hours a week until school was out, supplementing her full-time teaching income by teaching a night class and working nights and weekends at a department store. "I was off Christmas Day and Easter to be with my children," she said.

Forsythe is one of the 8.4 million American women raising children alone. The Census Bureau has estimated that 30 percent of those women and their children are living in poverty, and, while most should receive child support, more than half receive only partial payment or no payment at all. The Census Bureau has estimated that the children are cheated out of nearly $4 billion a year.

Margaret Heckler, Secretary of Health and Human Services, called it "a national disgrace" at the hearing yesterday, and she outlined an ambitious administration proposal to use Federal financial muscle to encourage States to collect child support from all delinquent parents.

Current state efforts to collect child support are erratic, she said, with only six of them doing a cost-effective job. The administration proposes to set penalties for the states that don't collect and a $200 million incentive pool to reward those that do. A significant breakthrough in the administration's proposal came during a meeting Wednesday afternoon between the Republican women in Congress. President Reagan and top administration officials. Rep. Marge Roukema (R-N.J.) argued persuasively that the incentive pool as well as other compliance efforts such as mandatory deductions from wages, should apply equally to the state's efforts to collect support from all delinquent parents not just those whose children end up on welfare.

Millions of mothers like Gail Forsythe, are struggling to raise children alone. The old image of the merry divorcee who keeps the house while her husband lives in a garret no longer applies. A California study found the income level of women dropped 73 percent after divorce while the man's income rose 42 per cent. A Denver study found that two-thirds of the fathers paid less in court-ordered child support than they spent on monthly car payments.

It is clear from both the administration proposals and the tenor of the hearing that the nation, faced with alarming data about the feminization of poverty, is about to take a long, hard look at the tolerance it has shown to deadbeat parents. "We have made a sea change of difference here." Said Roukema.

It's about time.●

By Mr. QUAYLE:

S. 1778. A bill to provide for a block grant to States for health planning activities, and for other purposes; to the Committee on Labor and Human Resources.

HEALTH PLANNING BLOCK GRANT ACT OF 1983

● Mr. QUAYLE. Mr. President, I introduce S. 1778, a bill to establish a block grant to the States to support health planning.

The latest authorization for the Federal health planning program expired at the conclusion of the last fiscal year. The program has been funded under a continuing resolution despite the fact that it has not been reauthorized. Health planning has been useful in many States in containing health care costs and assuring equitable access to health services. It is important that the Federal Government continue to encourage health planning on the State and local levels but the current health planning law should be replaced.

During the last session of Congress, I submitted a bill with Senators HATCH and HAWKINS to authorize a new health planning program. Our bill was less prescriptive than the existing Federal health planning law. It would have reversed the regulatory and bureaucratic burdens the existing health planning law imposed on the States and provided States with the flexibility to carry out the health planning function with a minimum of Federal intervention.

I joined attempts in the last session of the Congress to reach a bipartisan compromise on reform of the Federal health planning law. Unfortunately, these efforts did not lead to enactment of new health planning legislation. The failure of these efforts left us with the existing health planning law without authorized funding levels. The program under this law has continued under a continuing resolution as I pointed out. I believe that outlays for a program like this without appropriate authorizing legislation is bad public policy. When an authorization expires, Congress should evaluate the respective program and either give it renewed direction and funding or drop it from the books. This was not done in the case of the Federal health planning program.

Furthermore, operating a program, such as health planning without renewed congressional direction or appropriate authorizing language, leaves those responsible for implementing that program without a clear sense for its future. Officials in charge in State and local health planning agencies do not know how long Federal support for health planning is likely to continue or even from year to year whether it will be funded. This situation makes it difficult for them to plan and budget their activities and has the frequent side effect of causing many of their best and most sophisticated personnel to leave the programs because of this uncertainty.

These concerns should be resolved by the Congress. Efforts are now under way in the House of Representatives to reach a compromise on reform of the Federal health planning program. I commend these efforts and submit my bill to reflect interest in this body relative to a reauthorization of health planning. My bill will provide the direction needed for the application of health planning on the State and local levels and provide the States the resources and flexibility to develop the program most appropriate for specific health care marketplaces.

My bill repeals the current health planning law, title XV of the Public

Health Service Act, and replaces its function with a new block grant. The block grant will be included under title XIX of the Public Health Service Act with the other health block grants.

The bill authorizes funding through September 30, 1986. This date also marks the point at which capital costs for part A reimbursement under medicare will be integrated in medicare's new prospective payment methodology. The new payment mechanism will be different than the current pass through for capital costs now paid by medicare and should provide a sufficient disincentive for provider institutions to make unnecessary or uneconomic capital expenditures. Because of this change and its resulting effects on capital expenditures in the health care system, the start of this program provides a useful time at which to reassess health planning, at least as health planning pertains to the control of capital expenditures.

Under the block grant approach taken by my bill all funds for health planning would flow to the States with each given the discretion to design its own health planning programs, establish the role of its statewide health planning agency, and choose whether or not to continue or designate agencies at the regional or local levels. This approach allows States to limit health planning at the statewide and local levels to data collection, research, and the development of health plans or together with such activities to regulate capital expenditures of institutional health care providers through certificate-of-need type reviews. States also have the prerogative to experiment with alternative types of regulation to constrain unnecessary or uneconomic capital expenditures by institutional health care providers.

The usefulness of regulation to constrain such capital costs has varied from locale to locale. This bill recognizes this factor and gives States the option to develop nonregulatory experiments to reduce health care costs through the promotion of competition in the health care marketplace.

The existing health planning law was designed to contain health care costs by limiting excess bed capacity and duplication of services and to assure the availability of quality services to all Americans. My bill also would meet these objectives. It, however, avoids the needless imposition of Federal rules and regulations on those States which choose to have a health planning program.

We have created in this country the most advanced and sophisticated health care system in the world. This system has proven to be extremely expensive. Unless through better health planning and other means we are successful in checking the growth of the cost of this system, our preeminence in medical care will be threatened. To avoid this, I urge you to give strong consideration to this bill and other measures to help contain health care costs.

I ask unanimous consent that the text of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1778

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) this Act may be cited as the "Health Planning Block Grant Act of 1983".

(b) Title XV of the Public Health Service Act is repealed.

(c) Title XIX of such Act is amended by adding at the end thereof the following new part:

"PART D—HEALTH PLANNING BLOCK GRANT

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 1941. For the purpose of allotments to States to carry out this part, there are authorized to be appropriated $40,000,000 for each of the fiscal years 1984, 1985, and 1986.

"ALLOTMENTS

"SEC. 1942. (a)(1) From amounts appropriated under section 1941 for any fiscal year, the Secretary shall allot to each State an amount which bears the same ratio to the total amount appropriated under such section for such fiscal year as the population of the State bears to the population of all States, except as provided in paragraph (2).

"(2) Notwithstanding paragraph (1), the allotment of any State in any fiscal year under this subsection shall not be less than $100,000. If, under paragraph (1), the allotment of any State in any fiscal year will be less than $100,000, the Secretary shall increase the allotment of such State to $100,000 and shall proportionately reduce the allotments of all other States whose allotment exceeds $100,000 in a manner that will insure that the allotment of each State in such fiscal year is at least $100,000.

"(3) For purposes of this part, the population of a State shall be determined on the basis of the 1980 decennial census.

"(b) To the extent that all the funds appropriated under section 1941 for a fiscal year and available for allotment in such fiscal year are not otherwise allotted to States because—

"(1) one or more States have not submitted an application or description of activities in accordance with section 1945 for such fiscal year;

"(2) one or more States have notified the Secretary that they do not intend to use the full amount of their allotment; or

"(3) some State allotments are offset or repaid under section 1906(b)(3) (as such section applies to this part pursuant to section 1945(e));

such excess shall be allotted among each of the remaining States in proportion to the amount otherwise allotted to such States for such fiscal year without regard to this subsection.

"PAYMENTS UNDER ALLOTMENTS TO STATES

"SEC. 1943. (a) For each fiscal year, the Secretary shall make payments, as provided by section 6503(a) of title 31, United States Code, to each State from its allotments under section 1942 from amounts appropriated for that fiscal year.

"(b) Any amount paid to a State for a fiscal year and remaining unobligated at the end of such year shall remain available for the next fiscal year to such State for the purposes for which it was made.

"USE OF ALLOTMENTS

"SEC. 1944. (a) Except as provided in subsection (c), amounts paid to a State under section 1943 from its allotment under section 1942 for any fiscal year may be used at the discretion of the State for anyone or more of the following:

"(1) the compilation or conduct of studies and analyses, and the collection of data, by—

"(A) a State agency; or

"(B) local and regional public and private entities designated by the State,

with respect to the financing and delivery of health care in the State;

"(2) the development by a State agency of a plan for the allocation of health services and resources in the State;

"(3) the development by public or private entities designated by the State of local and regional plans for the allocation of health services and resources in the applicable locality or region;

"(4) activities carried out by a State agency to review and determine, to the extent deemed appropriate by the State, the need for—

"(A) capital expenditures by health care providers in the State;

"(B) the acquisition by health care providers of major medical equipment for use in the State; and

"(C) major expansions in the provision of institutional health care services in the State;

"(5) the participation of local and regional and public and private entities designated by the State in the reviews conducted, and the determinations made, by the State under paragraph (4);

"(6) experiments designed to demonstrate alternative regulatory strategies to limit the expenditures and services referred to in subparagraphs (A), (B), and (C) of paragraph (4); and

"(7) experiments designed to demonstrate nonregulatory strategies to promote competition in the financing and delivery of health care.

"(b) The secretary may provide technical assistance to States in planning and operating activities to be carried out under this part.

"APPLICATION AND DESCRIPTION OF ACTIVITIES; REQUIREMENTS

"SEC. 1945. (a) In order to receive an allotment for a fiscal year under section 1942, each State shall submit an application to the Secretary. Each such application shall be in such form and submitted by such date as the Secretary shall require. Each such application shall contain assurances that the legislature of the State has complied with the provisions of subsection (b) and that the State will meet the requirements of subsection (c).

"(b) After the expiration of the first fiscal year for which a State receives an allotment under section 1942, no funds shall be allotted to such State for any fiscal year under such section unless the legislature of the State conducts public hearings on the proposed use and distribution of funds to be provided under section 1943 for such fiscal year.

"(c) As part of the annual application required by subsection (a), the chief executive officer of each State shall—

"(1) certify that the State agrees to use the funds allotted to the State under section 1942 in accordance with the requirements of this part;

"(2) provide assurances that such chief executive officer will designate or establish a State agency to administer funds provided under this part;

"(3) agrees to cooperate with Federal investigations undertaken in accordance with section 1907 (as such section applies to this part pursuant to subsection (e) of this section); and

"(4) certify that the State agrees that Federal funds made available under section 1943 for any period will be so used as to supplement and increase the level of State, local, and other non-Federal funds that would in the absence of such Federal funds be made available for the programs and activities for which funds are provided under that section and will in no event supplant such State, local, and other non-Federal funds.

The Secretary may not prescribe for a State the manner of compliance with the requirements of this subsection.

"(d) The chief executive officer of a State shall, as part of the application required by subsection (a), also prepare and furnish the Secretary (in accordance with such form as the Secretary shall provide) with a description of the intended use of the payments the State will receive under section 1943 for the fiscal year for which the application is submitted, including information on the programs and activities to be supported. The description shall be made public within the State in such manner as to facilitate comment from any person (including any Federal or other public agency) during development of the description and after its transmittal. The description shall be revised (consistent with this section) throughout the year as may be necessary to reflect substantial changes in the programs and activities assisted by the State under this part, and any revision shall be subject to the requirements of the preceding sentence.

"(e) Except where inconsistent with the provisions of this part, the provisions of section 1903(b), section 1906(a), paragraphs (1) through (5) of section 1906(b), and sections 1907, 1908, and 1909 shall apply to this part in the same manner as such provisions apply to part A of this title.

"DEFINITION

"SEC. 1946. For purposes of this part, the term 'State' means each of the several States and the District of Columbia.".

(d) The amendments made by subsections (a) and (b) shall take effect on October 1, 1983.

(e) Effective October 1, 1986, part D of title XIX of the Public Health Service Act (as added by subsection (c) of this section) is repealed.●

By Mr. PROXMIRE:

S. 1779. A bill to amend the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 to generate additional revenues for the Superfund to provide incentives for hazardous waste recycling and to provide for certain additional forms of assistance respecting releases of hazardous substances to amend the Internal Revenue Code of 1954 to impose (in lieu of the Superfund taxes on petroleum chemical feedstocks) an additional tax on hazardous wastes, and for other purposes; to the Committee on Finance.

(The remarks of Mr. PROXMIRE on this legislation and the text of the legislation appear elsewhere in today's RECORD.)

By Mr. BUMPERS (for himself and Mr. DOMENICI):

S. 1780. A bill entitled the "Solar Energy National Security and Employment Act of 1983"; to the Committee on Energy and Natural Resources.

SOLAR ENERGY NATIONAL SECURITY AND EMPLOYMENT ACT OF 1983

Mr. BUMPERS. Mr. President, on February 25, 1983, Senator DOMENICI and I introduced the SENSE Act, which is intended to encourage the use of solar energy without requiring large Federal expenditures. That act was actually divided into several bills, according to their general thrust. Unfortunately, that treatment does not correspond with Senate committee jurisdictions, so it has been impossible to arrange for hearings. Consequently, I am introducing, for myself and for Senator DOMENICI, a redraft of some of the provisions of the SENSE Act which collects into a single legislative vehicle all of the provisions falling within the jurisdiction of the Senate Committee on Energy and Natural Resources. This new bill does not change the intent of the SENSE Act; it merely allows for appropriate hearings to be held.

Mr. President, I ask unanimous consent that a section-by-section analysis of the bill be printed in the RECORD.

There being no objection, the section-by-section analysis was ordered to be printed in the RECORD, as follows:

SECTION-BY-SECTION ANALYSIS

2. It extends the authorization of the Solar Energy and Energy Conservation Bank until 1990 and directs the Bank to fund active solar applications, to treat single and multifamily housing equally, and to allow entities other than the states (e.g., cities, credit unions, banks) to participate in the Bank program.

4. This provision provides clearer authorization for three complementary renewable energy information programs now conducted by the federal government. The Technical Information Program of the Solar Energy Research Institute (SERI) produces technical documents for the commercial renewable energy sector that draws on highly technical information from specific research activities. The Conservation and Renewable Energy Inquiry and Referral Service (CAREIRS) provides general information and business referrals to consumers, through a toll-free phone number as well as by mail. The National Appropriate Technology Assistance Service (NATAS) will provide technical assistance to individuals designing and building their own renewable energy systems or devices.

3. It allows a small portion of funds appropriated for energy aid to be used to create formal information exchanges among governments at all levels to improve the effectiveness of energy programs. Through meetings, publications exchanges, or other means, the states will be able to learn from one another's experiences and to enhance the effectiveness of their energy programs.

5. It expands the Small Business Innovation Act, which mandated that the Department of Energy and several other agencies set aside at least 1 percent of their research and development funds for small businesses, to guarantee that renewable energy businesses are included.

7. It requires all federal agencies to submit yearly reports of not more than 15 pages to Congress on their energy conservation and renewable energy program's impact on the production or use of renewable energy and energy conservation. In addition, it requires the Department of Energy in its Monthly Energy Review to include national statistics on energy conservation and renewable energy use as it does with other energy sources. Finally, the provisions requires information from the Department of Commerce on the impact of renewable energy exports on the international balance of payments of the U.S.; and the Department of Labor on the employment generation of the renewable energy and energy conservation industries in the U.S. and the Department of Energy on the imported petroleum displacement.

5. It reaffirms Congress' intentions to provide consumers with energy-efficiency labels on automobiles and appliances so they can make informed purchasing decisions. This provision also directs the Small Business Administration Energy Loan Program to fund small renewable energy businesses for the testing of their new products.

By Mr. KASTEN:

S. 1782. A bill to designate the U.S. Post Office Building in Oshkosh, Wis., as the "William A. Steiger Post Office Building"; to the Committee on Environment and Public Works.

TRIBUTE TO WILLIAM A. STEIGER

Mr. KASTEN. Mr. President, today, I am introducing legislation which will designate the post office building in Oshkosh, Wis., as the "William A. Steiger Post Office Building."

In 1979, the Congress lost one of its finest Members with the death of Bill Steiger. I knew Bill Steiger for many years and was privileged to have had the opportunity to work with him in the House of Representatives for 4 years. Bill Steiger's integrity and commitment to good government was a tremendous inspiration to every Member of Congress.

When Bill Steiger was elected to the House in 1966, he became the youngest Member of Congress at age 28. He quickly became a respected member of the House and soon took a seat on the Ways and Means Committee. As a member of this committee, Steiger was at the forefront of many efforts in the area of tax reform. His work on capital gains tax reform was his highest achievement, and many of us in recent years have continued to make progress in this area because of the sound foundation Bill Steiger's work provided. Mr. President, if this legislation is enacted into law, the people of Oshkosh, Wis., will gain a lasting memorial to a truly great man, Bill Steiger. I urge

my colleagues to join me in cosponsoring this resolution today.

By Mr. BAKER (for Mr. GOLDWATER):

S. 1783. A bill to eliminate the congressional budget process, abolish the Committee on the Budget of the Senate and the Committee on the Budget of the House of Representatives, and for other purposes; pursuant to the order of August 4, 1977, jointly to the Committee on the Budget and the Committee on Governmental Affairs.

ABOLISH THE CONGRESSIONAL BUDGET PROCESS

● Mr. GOLDWATER. Mr. President, I am presenting legislation today to eliminate the congressional budget process and to abolish the Senate and House Budget Committees.

Budget making by concurrent resolutions has been a failure. It has never worked and it will not work because of built-in defects.

Instead of Government by an orderly budget process, we have had Government by budget waivers and continuing appropriations resolutions. We have had nothing but higher spending and outrageous deficits. The budget is worse off today than it was in 1974, when the Budget Act was enacted, and the act effectively controls less than 40 percent of the budget.

WAIVERS

Time after time, we have ignored the procedures required by the Budget Act. This year alone we have agreed to five budget waivers in the Senate. Six others are waiting on the Senate Calendar and at least three more waiver requests are before the Budget Committee. It seems to be impractical or impossible to run the Government according to the strict schedule laid out in the 1974 law, and we evade that law by the waiver process repeatedly.

There are three forms of budget waivers set out in the 1974 law. First, there is a waiver to section 402(a), which states that it shall not be in order in either House of Congress to consider any bill or resolution which, directly or indirectly, authorizes the enactment of new budget authority for a fiscal year, unless that proposal is reported on or before May 15 preceding the beginning of the fiscal year. Since 1976, the Senate has approved 218 waivers under section 402.

Second, there is authority for a waiver of the budget law in section 303 of the 1974 Act. This section provides that it shall not be in order to consider any legislation, including amendments, which provides: First, new budget authority for a fiscal year, second, an increase or decrease in revenues to become effective during a fiscal year, third, an increase or decrease in the public debt limit to become effective during a fiscal year, or fourth, new entitlement authority for a fiscal year which is not provided for in advance by Appropriations Acts, until the first concurrent budget resolution for that fiscal year has been agreed to. Since 1976, the Senate has approved 31 waivers of section 303.

Third, from time to time the Senate has also waived various requirements of the Budget Act by means of a motion provided by section 904(b).

The proliferation of budget waivers indicates that there is a basic flaw in the Budget Act. The schedule required by the act is unrealistic. More often than not, Congress simply cannot or will not meet the timetable.

Stretching out the timetable is not the answer. The further apart in time we make the schedules, the less opportunity there will be of controlling the immediately succeeding fiscal year or having an orderly budget program. I do not believe we can predict economic conditions and governmental needs 2 or more years in advance with any more assurance than we can project budget deficits now. We will probably wind up with larger supplemental appropriations if we act for multiyear periods.

CONTINUING RESOLUTIONS

Then we come to the matter of continuing appropriations resolutions. When Congress fails to complete action on regular appropriations bills before the start of the fiscal year, it adopts a continuing resolution to continue the funding of necessary governmental operations.

If the Budget Act worked properly, there would be no need for continuing resolutions. We might occasionally need to enact a supplemental appropriation, but only for emergency circumstances.

For example, last October we enacted a continuing appropriations resolution for fiscal 1983 which applied to 12 out of the 13 regular appropriations measures Congress traditionally passes. This law, House Joint Resolution 599, covered the period from October 2, 1982, through December 17, 1982. In December of last year, Congress passed another continuing appropriations resolution for fiscal 1983, House Joint Resolution 631, which applied to seven major appropriations categories: Treasury; Foreign Assistance; Defense; Commerce; Justice; State; Labor-HHS; Interior; and Energy and Water Development.

Our action for fiscal year 1982 was no better. In October, we enacted House Joint Resolution 325, covering the period October 1, 1981, through November 20, 1981, and applying to all 13 major Appropriations Acts. House Joint Resolution 362 was enacted on November 23, 1981, and it continued appropriations through December 15, 1981, for 12 out of the 13 regular Appropriations Acts. House Joint Resolution 370, enacted on December 15, 1981, extended the continuing appropriations for 10 major appropriations categories through March 31 of 1982.

This record is hardly an improvement over the experience of Congress before the Budget Act of 1974. In some ways—in fact, in some significant ways—the situation has gotten much worse with the creation of the congressional budget process.

The pattern of usage of continuing resolutions has increased. The scope of these resolutions has increased. The Government operates for longer periods of time on continuing resolutions. And, the volume of continuing resolutions has increased, from a mere couple of pages in past years to 95 or more pages. Continuing appropriations resolutions have now become the equivalent of full blown separate appropriations acts.

ENTITLEMENTS

Not only do we fail to keep to the timetable established by the Budget Act, the budget process lacks effective controls on 60 percent of the budget, which is represented by entitlement programs, interest, and other mandatory spending.

For example, look at what happened earlier this year when Congress enacted sweeping amendments to the social security system. The social security measure makes enormous changes in taxing and spending programs for future years. We did approve a budget waiver for the part of that measure which affects fiscal 1984, but the waiver does not apply to fiscal 1994 or fiscal 2004, or beyond. Yet, the social security amendments do cover these future years and more. Thus, hundreds of billions of dollars of taxes and payments are untouched and uncontrolled by the Budget Act.

These are expected to be permanent appropriations and taxes, and I am not suggesting that we should reopen our decisions on the social security package. My point is that for most practical purposes, the budget process is irrelevant to a major part of the national budget and economy. We can repeal the Budget Act and not miss it.

While it may be impossible for any two Members of Congress to agree exactly on what all the purposes to be served by the Budget Act were, I think a majority of us will concur that one significant goal was to enable Congress to get a handle on the Federal budget. For those of us who viewed the budget process as a means for controlling runaway Government spending and for those of us who believed the budget process would offer a structure for having a national budget whose broad outline and designs would be known in advance, the process has been a colossal failure.

HIGHER SPENDING AND DEFICITS

Moreover, I believe the Budget Act results directly in higher spending, not controlled spending.

Budget Committees are just one more forum for advocates of higher spending to appeal before. If you can not get your pet program approved in the authorization committee, there is always the possibility of getting a line item addition to the budget resolution or to Budget Committee markup materials.

Let us look at the record. In fiscal year 1977, the first year of full implementation of the Budget Act, the final budget resolution set a spending ceiling of $409.2 billion. Compare this with the first budget resolution for fiscal year 1984, adopted on June 23, which raises the spending ceiling to $850 billion, or $859 billion if a special reserve fund is added.

The fiscal 1977 budget allowed a deficit of $52.6 billion, which was bad enough. The first budget resolution for fiscal 1984 projects a gigantic deficit of $179.3 billion with the reserve fund and $169.9 billion without the reserve fund. And we call this progress.

It is true that in 1981, the reconciliation procedure established by the Budget Act was used to limit total Government spending below previously approved levels. But the reconciliation approach is not well liked in Congress and I doubt if we will ever utilize it again in such a sweeping manner as was done in 1981.

BALANCED BUDGET CONSTITUTIONAL AMENDMENT

Instead, we should act promptly on a balanced budget constitutional amendment. Rather than use a budget process which Congress constantly must avoid and evade with waivers, continuing appropriations resolutions and emergency legislation, such as the 1983 Social Security Amendments, we should operate under a compulsory system of budget and fiscal discipline mandated by the Constitution itself.

Such a constitutional amendment would be comprehensive and include not only regular Appropriations Acts, but the funding of entitlement programs as well. Of course, it would allow sufficient flexibility for the Nation to cope with national emergencies.

SUMMARY OF BILL

Mr. President, I will take just a moment to explain the provisions of the bill I am introducing. As the title indicates, the bill has two major purposes. First, it eliminates the congressional budget process, including the requirement that Congress adopt one or more concurrent resolutions on the budget to fix spending, revenue, deficit, and debt levels for each fiscal year. Second, it eliminates the jurisdiction and duties of the Committees on the Budget of the Senate and the House of Representatives.

The bill does not, however, affect the requirement that the President submit a budget for each fiscal year. Nor does the bill abolish the Congressional Budget Office. I would preserve the CBO and require that it provide the Congress with an analysis of the budget submitted by the President and provide committees of Congress in both Houses with budgetary information to assist them in carrying out their responsibilities. As under current law, the Congressional Budget Office would also be required to prepare a report on the costs of carrying out the provisions of any bill reported by a committee.

The bill preserves provisions of the 1974 Budget Act, which subjects new contract and borrowing authority to the appropriations process. The bill aslo retains the current restriction set forth in section 401(b)(1) on the consideration of legislation providing new entitlement spending authority, which would become effective before the first day of the next fiscal year.

Finally, it leaves in place the provisions of the Impoundment Control Act of 1974 that govern the disposition of proposed deferrals and rescissions of budget authority. Whatever the status of the legislative veto may be under that act in light of the Supreme Court decision in the Chadha case, my bill will not address or alter it at all, and is solely limited to the budget process.

Mr. President, I ask that the text of the bill may appear in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1783

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Congressional Budget Process Repeal Act of 1983".

ELIMINATION OF THE CONGRESSIONAL BUDGET PROCESS

SEC. 2. (a) Title III of the Congressional Budget and Impoundment Control Act of 1974 (2 U.S.C. 631 et seq.) is repealed.

(b)(1)(A) Rule XI of the Rules of the House of Representatives is amended by striking out subdivision (C) of clause 2(l)(1).

(B)(i) Subdivision (A) of clause 2(l)(1) of Rule XI of the Rules of the House of Representatives is amended by striking out "(except as provided in subdivision (C))".

(ii) Subdivision (B) of Clause 2(l)(1) of Rule XI of the Rules of the House of Representatives is amended by striking out "does not apply to the reporting of a regular appropriation bill by the Committee on Appropriations prior to compliance with subdivision (C) and".

(2)(A)(i) Clause 2(1)(3) of Rule XI of the Rules of the House of Representatives is amended by striking out subdivision (B) and redesignating subdivisions (C) and (D) as subdivisions (B) and (C), respectively.

(ii) Clause (7)(d) of Rule XIII of the Rules of the House of Representatives is amended by striking out "2(1)(3)(C)" and inserting in lieu thereof "2(1)(3)(B)".

(B) Clause (2)(1)(5)(B) of Rule XI of the Rules of the House of Representatives is amended by striking out "(C) and (D)" and inserting in lieu thereof "(B) and (C)".

(3) Rule XXIII of the Rules of the House of Representatives is amended by striking out clause 8 and redesignating clause 9 as clause 8.

(4)(A) The Rules of the House of Representatives are amended by striking out Rule XLIX and redesignating Rule L as Rule XLIX.

(B) Section 3101(b) of title 31, United States Code, is amended by striking out "through the congressional budget process described in Rule XLIX of the Rules of the House of Representatives or otherwise".

(c) Subparagraphs (i) 1, (i) 8, and (k)(1) 2 of paragraph 1 of Rule XXV of the Standing Rules of the Senate are each amended by striking out ", except as provided in the Congressional Budget Act".

(d)(1) Section 401(b) of the Congressional Budget and Impoundment Control Act of 1974 is amended—

(A) by striking out paragraphs (2) and (3); and

(B) by striking out "(1)".

(2) Clause 4(a) of Rule X of the Rules of the House of Representatives is amended by striking out subparagraph (2) and redesignating subparagraph (3) as subparagraph (2).

(3) Subparagraph (b) of paragraph 1 of Rule XXV of the Standing Rules of the Senate is amended by striking out subdivision 4.

(e) (1) Section 402 of the Congressional Budget Act of 1974 is repealed.

(2) Clause 1 (g) of Rule X of the Rules of the House of Representatives is amended by striking out subparagraph (2) and redesignating subparagraphs (3) and (4) as subparagraphs (2) and (3), respectively.

(f) Section 1105 (a) (15) of title 31, United States Code, is amened to read as follows:

"(15) a separate statement on each of the following items:

"(A) the appropriate level of total budget outlays and of total new budget authority;

"(B) an estimate of budget outlays and an appropriate level of new budget authority for each major functional category, for contingencies, and for undistributed intragovernmental transactions, based on allocations of the appropriate level of total budget outlays and of total new budget authority;

"(C) the amount, if any, of the surplus or the deficit in the budget which is appropriate in light of economic conditions and all other relevant factors;

"(D) the recommended level of Federal revenues and the amount, if any, by which the aggregate level of Federal revenues should be increased or decreased by bills and resolutions to be reported by the appropriate committees; and

"(E) the appropriate level of the public debt, and the amount, if any, by which the statutory limit on the public debt should be increased or decreased by bills and resolutions to be reported by the appropriate committees.".

ABOLITION OF COMMITTEES ON THE BUDGET

SEC. 3. (a) Title I of the Congressional Budget and Impoundment Control Act of 1974 is repealed.

(b)(1)(A) Clause 1 of Rule X of the Rules of the House of Representatives is amended by striking out paragraph (e) and by redesignating paragraphs (f) through (v) as paragraphs (e) through (u), respectively.

(B) Subparagraphs (4) and (5) of clause 1(j) of Rule X of the Rules of the House of Representatives, as redesignated by subparagraph (A) of this paragraph, are each amended by striking out "1(p)(4)" and inserting in lieu thereof "1(o)(4)".

(2)(A) Clause 2(b)(1) of Rule X of the Rules of the House of Representatives is

amended by striking out "and the Committee on the Budget".

(B)(i) Clause 3 of Rule X of the Rules of the House of Representatives is amended by striking out paragraph (b) and redesignating paragraphs (c) through (h) as paragraphs (b) through (g), respectively.

(ii)(I) The matter following subparagraph (14) of clause 1(f) of Rule X of the Rules of the House of Representatives, as redesignated by paragraph (1)(A) of this subsection, is amended by striking out "3(c)" and inserting in lieu thereof "3(b)".

(II) The matter following subparagraph (18) of clause 1(g) of Rule X of the Rules of the House hf Representatives, as redesignated by paragraph (1)(A) of this subsection, is amended by striking out "3(h)" and inserting in lieu thereof "3(g)".

(III) The matter following subparagraph (17) of clause 1(h) of Rule X of the Rules of the House of Representatives, as redesignated by paragraph (1)(A) of this subsection, is amended by striking out "3(d)" and inserting in lieu thereof "3(c)".

(IV) The matter following subparagraph (17) of clause 1(k) of Rule X of the Rules of the House of Representatives, as redesignated by paragraph (1) (A) of this subsection, is amended by striking out "3 (e)" and inserting in lieu thereof "3 (d)".

(V) The matter following subparagraph (12) of clause 1 (q) of Rule X of the Rules of the House of Representatives, as redesignated by paragraph (1) (A) of this subsection, is amended by striking out "3 (f)" and inserting in lieu thereof "3 (e)".

(VI) The matter following subparagraph (2) of clause 1 (r) of Rule X of the Rules of the House of Representatives, as redesignated by paragraph (1) (A) of this subsection, is amended by striking out "3 (g)" and inserting in lieu thereof "3 (f)".

(C) (i) Clause 4 of Rule X of the Rules of the House of Representatives, is amended by striking out paragraphs (b), (g), (h), and (i) and redesignating paragraphs (c) through (f) as paragraphs (b) through (e), respectively.

(ii) (I) The matter following subparagraph (5) of clause 1 (i) of Rule X of the Rules of the House of Representatives, as redesignated by paragraph (1) (A) of this subsection, is amended by striking out "4 (c)" and inserting in lieu thereof "4 (b)".

(II) The matter following subparagraph (15) of clause 1 (j) of Rule X of the Rules of the House of Representatives, as redesignated by paragraph (1) (A) of this subsection, is amended by striking out "4 (d)" and inserting in lieu thereof "4 (c)".

(III) The matter following subparagraph (1) of clause 1 (s) of Rule X of the Rules of the House of Representatives, as redesignated by paragraph (1) (A) of this subsection, is amended by striking out "4 (e)" and inserting in lieu thereof "4 (d)".

(IV) Clause 2(1)(3)(D) of Rule XI of the Rules of the House of Representatives, as redesignated by section 2(b)(2)(A)(i) of this Act, is amended by striking out "4(c)(2)" and inserting in lieu thereof "4(b)(2)".

(D) Clause 6(c) of Rule X of the Rules of the House of Representatives is amended by striking out ", except the Committee on the Budget,".

(E) Clause 2(b)(2) of Rule XI of the Rules of the House of Representatives is amended by striking out ", the Committee on the Budget,".

(F) Clause 2(i) of Rule XI of the Rules of the House of Representatives is amended by striking out "the Committee on the Budget,".

(G) Clause 4(a) of Rule XI of the Rules of the House of Representatives is amended by striking out "the Committee on the Budget on the matters required to be reported by such committee under Titles III and IV of the Congressional Budget Act of 1974;".

(H) Clause 5(a) of Rule XI of the Rules of the House of Representatives is amended by striking out "and the Committee on the Budget".

(I) Clause 6(a)(5) and clause 6(b)(4) of Rule XI of the Rules of the House of Representatives are each amended by striking out "and to the Committee on the Budget".

(J) Clause 6(d) of Rule XI of the Rules of the House of Representatives is amended by striking out "and the Committee on the Budget".

(K) Clause 3 of Rule XLVIII of the Rules of the House of Representatives is amended by striking out paragraph (c).

(c)(1)(A) Paragraph 1 of Rule XXV of the Standing Rules of the Senate, as amended by section 2(c) of this Act, is further amended by striking out subparagraph (e) and redesignating subparagraphs (f) through (p) as subparagraphs (e) through (o), respectively.

(B) Paragraph 1(b)1 of Rule XXV of the Standing Rules of the Senate is amended by striking out the comma and "except as provided in subparagraph (e)".

(2) (A) The table set forth in paragraph 3 (a) of Rule XXV of the Standing Rules on the Senate is amended by striking out the item relating to the Committee on the Budget.

(B) Paragraph 4 (h) of the Rule XXV of the Standing Rules of the Senate is amended—

(i) by striking out clauses (1), (2), and (3); and

(ii) by striking out "(4)".

(C) Paragraph 4 of rule XXV of the Standing Rules of the Senate is further amended by striking out subparagraph (j) and redesignating subparagraph (k) as subparagraph (j).

(D) Paragraph 4 (a) of Rule XXVI of the Standing Rules of the Senate is amended by striking out "and the Committee on the Budget".

(E) Paragraph 5 (a) of Rule XXVI of the Standing Rules of the Senate is amended by striking out "or the Committee on the Budget".

(F) The first sentence of paragraph 8 (a) of Rule XXVI of the Standing Rules of the Senate is amended—

(i) by striking out "Committees" and inserting in lieu thereof "Committee"; and

(ii) by striking out "and the Budget".

(G) Paragraph 11 (a) of Rule XXVI of the Standing Rules of the Senate is amended by striking out "and the Committee on the Budget".

(d) (1) Section 201 (a)(2) of the Congressional Budget and Impoundment Control Act of 1974 (2 U.S.C. 601) is amended by striking out "after considering recommendations received from the Committees on the Budget of the House and the Senate".

(2) (A) (i) Subsections (a) and (e) of section 202 of such Act (2 U.S.C. 602) are repealed.

(ii) Subsections (b), (c), (d), (f), and (g) of section 202 of such Act are redesignated as subsections (a) through (e), respectively.

(B) Section 202(a) of such Act, as redesignated by clause (ii) of subparagraph (A) of this paragraph, is amended to read as follows:

"(a) Assistance to Committees on Appropriations, Ways and Means, and Finance.—At the request of the Committee on Appropriations of either House, the Committee on Ways and Means of the House of Representatives, or the Committee on Finance of the Senate, the Office shall provide to such Committee any information which will assist it in the discharge of matters within its jurisdiction, including (1) information with respect to the budget, appropriation bills, and other bills authorizing or providing budget authority or tax expenditures, (2) information with respect to revenues, receipts, estimated future revenues and receipts, and changing revenue conditions, and (3) such related information as such Committee may request.".

(C) Section 202(c) of such Act, as redesignated by clause (ii) of subparagraph (A), is amended—

(i) by striking out the first sentence;

(ii) by striking out "other"; and

(iii) by striking out "(b) or (c)" and inserting in lieu thereof "(a) or (b)".

(D)(i) Section 202(d) of such Act, as redesignated by clause (ii) of subparagraph (A), is amended—

(I) by striking out "Committees on the Budget of the House of Representatives and the Senate" each place it appears and inserting in lieu thereof "the Congress", and

(II) by striking out "such Committees" in paragraph (2) and inserting in lieu thereof "the Congress".

(ii) The subsection heading of section 202(d) of such Act, as redesignated by clause (ii) of subparagraph (A), is amended by striking out "Budget Committees" and inserting in lieu thereof "The Congress".

(e) Section 136(c) of the Legislative Reorganization Act of 1946 (2 U.S.C. 190d(c)) is amended—

(1) by striking out "Committees" the first place it appears and inserting in lieu thereof "Committee";

(2) by striking out "and the Budget"; and

(3) by striking out "the Budget,".

(f)(1) Section 1104(c) of title 31, United States Code, is amended by striking out "and on the Budget".

(2) Section 1109(b) of such title is amended by striking out "Committees on the Budget of both Houses" and inserting in lieu thereof "Congress".

(3) Section 1112(c)(3) of such title is amended by striking out "and on the Budget".

(4) Section 3524(b) of such title is amended by striking out "the Budget and".

TECHNICAL AND CONFORMING AMENDMENTS

SEC. 4. (a) Section 2 of the Congressional Budget and Impoundment Control Act of 1974 (2 U.S.C. 621) is amended by striking out paragraphs (1) and (2) and redesignating paragraphs (3) through (5) as paragraphs (1) through (3), respectively.

(b) Section 3, of the Congressional Budget and Impoundment Control Act of 1974 (2 U.S.C. 622) is amended by striking out paragraph (4) and redesignating paragraph (5) as paragraph (4).

(c) Section 606 of the Congressional Budget Act of 1974 (2 U.S.C. 661) is amended—

(1) by striking out "Committees on the Budget of" and inserting in lieu thereof "standing committees of";

(2) by inserting "those" before "agencies"; and

(3) by inserting "within the legislative jurisdiction of such committees" after "Federal Government".

(d) Section 703(a) of the Congressional Budget Act of 1974 (2 U.S.C. 623) is amended—

(1) by striking out "Committees on the Budget of the House of Representatives and the Senate" in paragraph (1) and inserting in lieu thereof "Committee on Government Operations of the House of Representatives and the Committee on Governmental Affairs of the Senate"; and

(2) by striking out "The Committees on the Budget of each House" and inserting in lieu thereof "Each such committee".

(e)(1) Subsection (a) of the first section of the Congressional Budget and Impoundment Control Act of 1974 (2 U.S.C. 621 note) is amended to read as follows:

"(a) SHORT TITLES.—This Act may be cited as the 'Budget Information, Fiscal Procedures, and Impoundment Control Act'. Titles I and II of this Act may be cited as the 'Budget Information and Fiscal Procedures Act of 1983', and title III may be cited as the 'Impoundment Control Act of 1974'.".

(2)(A) Clause 1(b)(4) of Rule X of the Rules of the House of Representatives is amended by striking out "Congressional Budget Act of 1974" and inserting in lieu thereof "Budget Information and Fiscal Procedures Act of 1983".

(B) Paragraph (p)(2) of clause 1 of Rule X of the Rules of the House of Representatives, as redesignated by section 3(b)(1)(A) of this Act, is amended by striking out "Congressional Budget Act of 1974" and inserting in lieu thereof "Budget Information and Fiscal Procedures Act of 1983".

(C) Paragraph (d) of clause 7 of Rule XIII of the Rules of House of Representatives is amended by striking out "Congressional Budget Act of 1974" and inserting in lieu thereof "Budget Information and Fiscal Procedures Act of 1983".

(D) Subdivision 3 of paragraph 1(b) of Rule XXV of the Standing Rules of the Senate is amended by striking out "Congressional Budget Act of 1974" and inserting in lieu thereof "Budget Information and Fiscal Procedures Act of 1983".

(E) Section 1105(a)(16) of title 31, United States Code, is amended by striking out "Congressional Budget Act of 1974" and inserting in lieu thereof "Budget Information and Fiscal Procedures Act of 1983".●

By Mr. SASSER (for himself, Mr. DURENBERGER, Mr. HEINZ, Mr. JACKSON, Mr. EAGLETON, Mr. WARNER, Mr. TSONGAS, Mrs. KASSEBAUM, Mr. BUMPERS, Mr. COCHRAN, Mr. RIEGLE, Mr. MELCHER, Mr. HOLLINGS, Mr. BOREN, Mr. PRYOR, Mr. MATSUNAGA, Mr. BURDICK, Mr. MOYNIHAN, Mr. RANDOLPH, Mr. GLENN, Mr. KENNEDY, Mr. DODD, Mr. ZORINSKY, and Mr. BAUCUS):

S. 1785. A bill to amend title II of the Social Security Act to eliminate the waiting period for disability benefits in the case of an individual who is terminally ill; to the Committee on Finance.

BENEFITS TO TERMINALLY III PATIENTS

● Mr. SASSER. Mr. President, for over 3 years now, there has been a tremendous amount of concern expressed in Congress over the Social Security Disability Program.

In 1980, Congress passed disability amendments which essentially tightened control over the administration and review of disabled beneficiaries in an attempt to curb the rising costs of the system. Since that time, however, increasing dissatisfaction with the way in which those changes have been administered and the attendant degree of individual despair and frustration which has resulted from such changes has led to some serious reexamination of the disability insurance system itself.

Indeed, I have instructed the general accounting office to undertake an exhaustive study of the need for major reform in the disability system and report its recommendations back to me by January 1, 1984. The need for reform was exemplified in last year's lameduck session by the passage of H.R. 7093, which contained important, although temporary, changes in the disability review process. At this very moment, the House Social Security Subcommittee is considering more permanent reforms, and this legislation should be before the Senate when we return from the August recess.

During deliberation on the 1980 amendments, there was extensive debate over one provision which is cause for my rising here today. The provision involved the elimination of the 5-month waiting period for disabled individuals diagnosed as terminally ill. This provision was adopted by the Senate by a vote of 70 to 23, however, it was consequently dropped in conference with the House and thus was never heard from again.

Today, I am pleased to join my distinguished colleague and friend from Minnesota, Mr. DURENBERGER, in introducing legislation which would serve the same purpose as the amendment offered by Senator Bayh and passed by the Senate in 1980.

At this time I would also like to add the following cosponsors to our bill: Senators JACKSON, HEINZ, RIEGLE, TSONGAS, EAGLETON, BUMPERS, MELCHER, HOLLINGS, BOREN, PRYOR, MATSUNAGA, BURDICK, MOYNIHAN, RANDOLPH, GLENN, KENNEDY, KASSEBAUM, DODD, COCHRAN, ZORINSKY, WARNER, and BAUCUS.

Mr. President, the bill that we are proposing is a simple one and it addresses what we feel is a fundamental inequity in the social security disability program. In essence, the bill eliminates the 5-month waiting period for individuals diagnosed as terminally ill, the bill stipulates that terminal illness be defined as a "medically determinable physical impairment which is expected to result in the death of such individual within the next 12 months and which has been confirmed by two physicians in accordance with regulations of the Secretary." By requiring that two physicians confirm the extent of the illness, the definition is necessarily restrictive in its application.

As it currently stands, disabled individuals must undergo a 5-month waiting period before the receipt of their disability benefits. In actuality, however, the beneficiary does not receive his or her first check until the seventh month, since benefits are paid for only the first full month after the waiting period. The waiting period concept was ostensibly designed to reduce the costs of the system. Now cost-saving measures, particularly in these times of exploding Federal budget deficits are certainly laudable, but there must be a line drawn between the benefits of reducing expenses and the costs in terms of human compassion and basic equity.

While no amount of money can ever replace the pain of a terminal illness or the fears of imminent death, the ability to collect rightfully owed compensation by virtue of a lifetime of contribution to the social security system can certainly work to ease the financial hardships and burdens facing those in the last months of their lives.

For those citizens who have paid into the social security system all of their working lives, who have contributed to our Nation through their labor and who expected to collect retirement benefits, it comes as a rude shock at the most trying time to discover that their Government has found a way to save money by withholding benefits for the first 5 months.

Sadder yet are statistics compiled by the Social Security Administration which show that over the past 3 years, the average person who is terminal and disabled will live for only 2½ months after that diagnosis.

For terminal patients with little means, the loss of income caused by the disabling condition coupled with escalating medical expenses can be particularly onerous. It is little comfort to know that the American Cancer Society estimates that 30 percent of us will have cancer, 855,000 this year alone. Two out of every three American families will have cancer afflict one of their family members.

For families with little savings in this country, the financial hardships caused by this disease and others can be absolutely devastating. On average, it costs $20,000 to die of cancer in this country.

When viewed in strictly monetary terms, the cost of our bill is large. The Congressional Budget Office unofficially estimates that the bill could cost from $200 million to $300 million per year. When viewed in terms of fairness and equity, however, the costs pale in comparison to the benefits gained.

In 1979, the distinguished former Senator from Indiana, and my good friend Mr. Bayh first introduced this

legislation. The bill took on significant importance because at the time his wife, Marvella, was dying of cancer. The Senator never has given up on his pledge to remedy this inequity in the social security system and I am honored to carry on that pledge before this body.

In 1980, the amendment enjoyed widespread and bipartisan support. It is my sincere hope that this bill will enjoy the same if not greater support at this time. I urge my colleagues to join me in cosponsoring this important and needed correction in the social security law.

At this time, Mr. President, I ask unanimous consent that the following correspondence from Mr. Birch Bayh, and Dr. Benjamin Byrd, Jr., who is clinical professor of surgery at Vanderbilt University, be inserted in the Record.

There being no objection, the material was ordered printed in the RECORD, as follows:

AMERICAN CANCER SOCIETY,
New York, August 3, 1983.

Hon. JIM SASSER,
U.S. Senate,
Washington, D.C.

DEAR SENATOR SASSER: The elimination of the five month waiting period for collection of Social Security Disability Insurance benefits for the terminally ill is a goal that the American Cancer Society has long sought.

As a physician who treats cancer patients, I am intimately aware of both the financial and psychological hardships these patients encounter. When, in addition to the devastating effects of their disease, these people also discover that they will be unable to collect Social Security disability benefits from a system they have supported all their working lives they are frequently disillusioned, angry and further distressed at the financial problems they are creating for their families, additional distress they should not have to deal with during these often difficult last days.

As a past National President of the American Cancer Society, a member of its Board of Directors and of its Public Issues Committee, I believe I can speak for the Society when I express to you and to Senator Durenberger and your other colleagues who have joined you in this effort, my great appreciation for your leadership on this issue. The passage of this bill can do so much good for the terminal cancer patient and for his or her family.

The American Cancer Society urges your colleagues in the Senate to act on this measure as quickly as possible. The years of delay, years of injustice to the terminally ill, must end. We will do all in our power to help you achieve final passage of this legislation. Once again, thank you for your leadership in this important cause.

Sincerely,

BENJAMIN F. BYRD, Jr., M.D.,
Clinical Professor of Surgery.

BIRCH BAYH,
August 3, 1983.

DEAR JIM: I was very pleased both as a private citizen and as the representative of the American Cancer Society, to hear that you and Dave Durenberger are going to be taking the leadership role in the elimination of the five month waiting period for the collection of disability benefits for the terminally ill.

As you know, Marvella and I worked for several years to try to pass this legislation and with your help, came close in 1980. I was deeply gratified then that our colleagues in the Senate overwhelmingly agreed with us. I know the same will be true again.

Jim, as someone who has lived with cancer in my family more than once, I understand the outrage the terminal cancer patient feels when he or she realizes that the government is not going to come through at this critical time with benefits the applicant knows he is entitled to. After all, this is not a form of welfare. This is a legitimate Social Security claim by someone who has helped support the system through all the years of their employment.

I know you are aware that this is a very high priority item for the American Cancer Society. Please be assured that anything I or the ACS can do to be of assistance will be done. I wish you luck and thank you for taking up the gauntlet on this terribly important human issue.

Best regards,

BIRCH.●

● Mr. JACKSON. Mr. President, I am pleased to cosponsor legislation to allow terminally ill persons to receive social security disability benefits immediately upon verification of their claim. Under current law, disability benefits do not begin to accrue until 5 months after the onset of the disabling condition. Consequently, terminally ill individuals are unable to meet the high costs of medical care during the last months of their lives. Simply put, at a time when these persons are rapidly exhausting their financial resources because of the specialized care which they need, no assistance is forthcoming from the Social Security Administration.

Additionally, I would point out that there is a difference between individuals who are dying and those who are suffering from a long-term disability. The terminally ill are often at the end of a long and costly illness rather than at the beginning of a disability. Moreover, unlike other disabled persons, the terminally ill may be unable to collect any disability benefits at all, even though they have contributed to the social security system with the expectation that benefits would be provided if they became incapacitated.

In sum, fairness and compassion dictate that the current situation should be remedied. Every year thousands of Americans discover that they are afflicted with a terminal illness. They should not have to face the additional burden of dealing with a Federal agency which to them seems uncaring and unmindful of their plight.

When this issue was previously considered by the Senate as part of the Disability Amendments of 1980, 70 Senators voted to provide immediate disability benefits for the terminally ill. Unfortunately, this provision was deleted in conference with the House. I urge the Senate to give prompt and favorable consideration to this matter so that terminally ill persons will receive the benefits they deserve.●

By Mr. MATHIAS:

S. 1786. A bill to amend title 5, United States Code, to provide Civil Service retirement credit for certain employees and former employees of nonappropriated fund instrumentalities of the Armed Forces, and for other purposes; to the Committee on Governmental Affairs.

RETIREMENT BENEFITS FOR CERTAIN EMPLOYEES OF NONAPPROPRIATED FUND INSTRUMENTALITIES

● Mr. MATHIAS. Mr. President, today I introduce legislation to provide a simple solution to a very pressing problem. It is designed to help a group of dedicated men and women who have, in effect, been deceived by the Federal Government.

These people, in search of rewarding careers following World War II, were encouraged to become members of the Special Services, a category of workers employed by the Federal Government to assist with activities designed to "enhance the morale, welfare and recreation of active and retired military and Coast Guard personnel and their dependents." Many of these positions were of a long-term nature, such as librarians, recreation center employees, and sports activity employees. Pamphlets urging young people, primarily young women, to submit Federal employee forms to the U.S. Civil Service Commission suggested that these positions would be paid on the GS scale, just like any other civil service position. In addition, the literature bore messages which led most applicants to believe that they were applying to the civil service, and indeed, joining the civil service. Certainly there was no thought that, as members of the civil service, they would not be entitled to the same benefits as other members of the civil service.

However, in 1952, the Congress enacted a law which exempted these employees from the laws pertaining to the civil service, including retirement, disability and death compensation provisions. The employees exempted by the 1952 statute included those whose positions were "conducted for the comfort, pleasure, contentment, and mental and physical improvement of personnel of the Armed Forces," as well as those "compensated from nonappropriated funds of the Army and Air Force exchange service, Army and Air Force motion picture service, Navy ship's stores ashore, Navy exchanges, Marine Corps exchanges and Coast Guard exchanges." The statute was enacted "in response to a Defense request so that nonappropriated fund instrumentalities could establish personnel management systems competitive in cost and flexibility with those of

private, commercial retail operations and recreation activities."

It is clear from the legislative history of the 1952 statute that it was designed to cover the short-term employee who was involved in commercial work. Presumably, these commercial operations would have been hindered by the employees' inclusion in civil service laws, counteracting the inherently short-term and uncomplicated nature of these positions.

One of the side effects of this statute, however, was the inclusion of the long-term career employees of the Special Services within its provisions. This was done, in a sense, inadvertently; and as a result, the Special Services employees who are now retired or close to retirement are unable to credit those years with the Special Services toward a civil service retirement.

The bill that I introduce today would remedy this injustice by narrowing the description of employees covered under the 1952 statute to include only those "conducting commercial activities under the jurisdiction of the Armed Forces." This would not alter the current system for short-term, commercial employees. It would, however, allow the long-term employees who would otherwise qualify as civil service employees, to come under the civil service retirement system. These employees would then be in a position to apply their years with the Special Services toward a civil service retirement.

As I said before, this proposal embodies a simple solution to a passing problem. I would urge my colleague's support for the measure.

Mr. President, I ask unanimous consent that the text of my bill be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows;

S. 1786

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the first sentence of section 2105(c) of title 5, United States Code, is amended by striking out "under the jurisdiction of the armed forces conducted for the comfort, pleasure, contentment, and mental and physical improvement of personnel of the armed forces" and inserting in lieu thereof "conducting commercial activities under the jurisdiction of the armed forces".

SEC. 2. Notwithstanding any other provision of law, for the purposes of subchapter III of chapter 83 of title 5, United States Code, an employee or former employee of instrumentalities of the United States under the jurisdiction of the Armed Forces paid from nonappropriated funds, other than employees to whom section 2105(c) of such title (as amended by the first section of this Act) applies, shall be entitled to credit only for service performed as an employee of any such instrumentality during periods for which such instrumentality did not provide a retirement system for such employees and only if such employee or former employee qualified as an employee during such service for the purposes of such subchapter and laws providing for Civil Service retirement as in effect during the time of such service.

SEC. 3. The appropriate nonappropriated fund instrumentality shall pay into the Civil Service Retirement and Disability Fund such amount as may be necessary to fund the increase in the unfunded liability of such Fund resulting from the credit given for service of an employee or former employee of such instrumentality by reason of this Act and the amendment made by this Act.

SEC. 4. This Act and the amendment made by this Act shall be effective with respect to service performed on or after June 19, 1952.●

By Mr. BIDEN (for himself, Mr. DECONCINI, Mr. PELL, Mr. KENNEDY, Mr. METZENBAUM, Mr. MOYNIHAN, Mr. EAGLETON, Mr. LEAHY, Mr. BAUCUS, Mr. CHILES, Mr. NUNN, Mr. ZORINSKY, Mr. SASSER, Mr. RANDOLPH, Mr. BURDICK, Mr. HOLLINGS, Mr. HEINZ, Mrs. HAWKINS, and Mr. CRANSTON.

S. 1787. A bill to establish an Office of the Director of National and International Drug Operations and Policy; to the Committee on the Judiciary.

NATIONAL NARCOTICS ACT OF 1983

Mr. BIDEN. Mr. President, the bipartisan crime bill I am introducing today together with Senators KENNEDY, THURMOND, and LAXALT, is the product of many years work in previous Congresses and hundreds of hours of work in this Congress by many of my colleagues. Nearly the entire bill passed the Senate last Congress and the major provisions passed the House. This bill will make substantial changes in many areas of Federal criminal law, most importantly in the areas of sentencing, bail, and forfeiture.

The proposed new sentencing procedures will, for the first time, establish a structure for the imposition of sentences—a structure which will include harsh sentences for repeat and violent offenders who cause a disproportionate number of crimes and prison sentences which will be served without early release on parole.

The bail reform proposals will give courts the power to protect the community from dangerous persons who have been arrested and are awaiting trial.

The forfeiture title of this bill is almost identical to the forfeiture provisions contained in the Violent Crime and Drug Enforcement Improvements Act of 1982 which passed the Senate by a vote of 95 to 1 on September 30, 1982.

It is also identical to the separate forfeiture bill, S. 948 (as amended by the Judiciary Committee) which I introduced along with Senators THURMOND, BAKER, NUNN, LAXALT, and LEAHY.

I have spent the last 3 years deeply involved in the forfeiture issue.

In July 1980, as chairman of the Senate Judiciary Subcommittee on Criminal Justice, I chaired hearings on the subject of the Government's efforts to obtain the assets of major drug traffickers. In April 1981, the General Accounting Office released a report that was done at my request entitled "Asset Forfeiture—A Seldom Used Tool in Combating Drug Trafficking." The central conclusion of both of these endeavors was that since enactment in 1970 of the racketeer influenced and corrupt organizations statute, commonly known as RICO, and the Comprehensive Drug Prevention and Control Act, which contained the first Federal criminal forfeiture statutes, the Federal Government's record in taking the profit out of organized crime, especially drug trafficking, has been far below Congress' expectations.

The forfeiture provisions of this bill are intended to serve two major purposes. First, they will serve as a signal to the Department of Justice that Congress is serious about forfeiture. In the last 2 years, due largely to pressure from Congress, the Department of Justice has begun to take forfeiture more seriously. For example, between 1970 and 1980 only $2 million in forfeited assets were turned over to the U.S. Treasury. But the Justice Department estimates that in 1982 alone $250 million in drug-related assets were forfeited or seized. Of course, compared to estimates that drug trafficking is an $80 to $90 billion a year business, we still have a long way to go.

The second purpose of the forfeiture title is to remove the legal snags that have stood in the way of forfeiture. The forfeiture provision will make it much easier to obtain forfeiture by clarifying and streamlining the laws and procedures, setting up a fund to finance forfeiture, and allowing the Government to get substitute assets when illegally obtained assets can't be found. At the same time, the requirements of due process are taken into account, including an amendment adopted by the Judiciary Committee to provide third parties with an opportunity to assert an interest in forfeitable property.

I still believe that a strong forfeiture statute that is actively implemented is the most effective weapon we have for breaking the backs of sophisticated drug traffickers. I believe the bill we are introducing today will serve that purpose.

This bipartisan package is also significant for what it does not contain. Many of us have bills we would like to have seen included in this package. My colleagues on both sides of the aisle have clearly demonstrated their commitment to moving a bipartisan pack-

age through the Senate by agreeing to move controversial bills separate from this package. A number of those bills have already been reported by the Judiciary Committee and are being reintroduced today as amended by the committee.

Today I am reintroducing one bill, recently reported by the Judiciary Committee, which I believe is essential to the Federal narcotics law enforcement effort. The bill establishes a Cabinet level position to coordinate and direct policy for the 9 Cabinet departments and 33 Federal agencies involved in the Federal narcotics effort.

That bill is not part of this package because it could slow or prevent enactment of the entire package. I urge my colleagues to support this bill as they did when it passed the Senate last Congress.

The Judiciary Committee has reported other crime bills which Senator THURMOND is reintroducing today. Those bills are not part of the bipartisan crime bill because there is not at this time a consensus that they should be enacted in their present form. Since these bills are before the full Senate for the first time I urge my colleagues to study them in detail.

I wish to commend Senators KENNEDY and LAXALT for their extraordinary efforts in bringing this truly bipartisan bill before the Senate. Improving Federal criminal law enforcement is not a partisan issue—it is a necessity. It is my sincere hope that we will pass the bipartisan bill in the very near future and that working together with our colleagues in the House we will see it enacted in this Congress.

Mr. President I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "National Narcotics Act of 1983".

SEC. 2. (a) The Congress hereby makes the following finding:

(1) The flow of illegal narcotics into the United States is a major and growing problem.

(2) The problem of illegal drug activity falls across the entire spectrum of Federal activities both nationally and internationally.

(3) Illegal drug trafficking is estimated by the General Accounting Office to be a $80,000,000,000 a year industry in the United States.

(4) The annual consumption of heroin in the Unitcd States is in the range of four metric tons, and annual domestic consumption of cocaine is estimated to be forty to forty-eight metric tons.

(5) Despite the efforts of the United States Government and other nations, the mechanisms for smuggling opium and other hard drugs into the United States remain virtually intact and United States agencies estimate that they are able to interdict no more than 5 to 15 per centum of all hard drugs flowing into the country.

(6) Such significant indicators of the drug problem as drug-related deaths, emergency room visits, hospital admissions due to drug-related incidents, and addiction rates are soaring.

(7) Increased drug trafficking is strongly linked to violent, addiction-related crime and recent studies have shown that over 90 per centum of heroin users rely upon criminal activity as a means of income.

(8) Much of the drug trafficking is handled by syndicates which results in increased violence and criminal activity because of the competitive struggle for control of the domestic drug market.

(9) Controlling the supply of illicit drugs is a key to reducing the crime epidemic confronting every region of the country.

(10) The magnitude and scope of the problem requires a director of National and International Drug Operations and Policy with the responsibility for the coordination and direction of all Federal efforts by the numerous agencies.

(11) Such a director must have broad authority and responsibility for making management, policy, and budgetary decisions with respect to all Federal agencies involved in attacking this problem so that a unified and efficient effort can be made to eliminate the illegal drug problem.

(b) It is the purpose of this Act to insure—

(1) the development of a national policy with respect to illegal drugs;

(2) the direction and coordination of all Federal agencies involved in the effort to implement such a policy; and

(3) that a single, competent, and responsible high level official of the United States Government, who is appointed by the President, by and with the advice and consent of the Senate, and who is accountable to the Congress and the American people, will be charged with the responsibility of coordinating the overall direction of United States policy, resources, and operations with respect to the illegal drug problem.

SEC. 3. There is established in the executive branch of the Government an office to be known as the "Office of the Director of National and International Drug Operations and Policy" (hereinafter in this Act referred to as the "Office of the Director"). There shall be at the head of the Office of the Director a Director of National and International Drug Operations and Policy (hereinafter in this Act referred to as the "Director"). There shall be a Deputy Director of National and International Drug Operations and Policy (hereinafter in this section referred to as the "Deputy Director") to assist the Director in carrying out the Director's functions under this Act.

SEC. 4. (a) The Director and the Deputy Director shall be appointed by the President, by and with the advice and consent of the Senate. The Director and the Deputy Director shall each serve at the pleasure of the President. No person may serve as Director or Deputy Director for a period of more than four years unless such person is reappointed to that same office by the President, by and with the advice and consent of the Senate. The Director shall be entitled to the compensation provided for in section 5313, title 5, United States Code. The Deputy Director shall be entitled to the compensation provided for in section 5314, title 5, United States Code.

(b) The Director shall serve as the principal director and coordinator of United States operations and policy on illegal drugs.

(c) The Director shall have the responsibility, and is authorized to—

(1) develop, review, implement, and enforce United States Government policy with respect to illegal drugs;

(2) direct and coordinate all United States Government efforts to halt the flow into, and sale and use of illegal drugs within the United States;

(3) develop in concert with governmental entities budgetary priorities and budgetary allocations of entities of the United States Government with respect to illegal drugs; and

(4) coordinate the collection and dissemination of information necessary to implement United States policy with respect to illegal drugs.

(d) In carrying out his responsibilities under subsection (c) the Director is authorized to—

(1) direct, with the concurrence of the head of the agency employing such personnel, the temporary reassigning of Government personnel within the United States Government in order to implement United States policy with respect to illegal drugs;

(2) procure temporary and intermittent services under section 3109(b) of title 5 of the United States Code, but at rates for individuals not to exceed the daily equivalent of the maximum annual rates of basic pay payable for the grade of GS-18 of the General Schedule;

(3) accept and use donations of property from all Government agencies; and

(4) use the mails in the same manner as any other department or agency of the executive branch.

(e) Notwithstanding any other provision of law, rule, or regulation to the contrary, the Director shall have the authority to direct each department or agency with responsibility for drug control to carry out the policies established by the Director consistent with the general authority of each agency or department.

(f) The Administrator of the General Services Administration shall provide to the Director on a reimbursable basis such administrative support services as the Director may request.

SEC. 5. The Director shall submit to the Congress, within nine months after enactment of this Act, and annually thereafter, a full and complete report reflecting United States policy with respect to illegal drugs, plans proposed for the implementation of such policy, and, commencing with the submisssion of the second report, a full and complete report reflecting accomplishments with respect to the United States policy and plans theretofore submitted to the Congress.

SEC. 6. For the purpose of carrying out this Act, there are authorized to be appropriated $500,000 for fiscal year 1984, and such sums as may be necessary for each of the four succeeding fiscal years, to be available until expended.

SEC. 7. This Act shall be effective January 1, 1984.

By Mr. ROTH:

S. 1788. A bill to change the term of the Chairman of the Board of Governors of the Federal Reserve System; to the Committee on Banking, Housing, and Urban Affairs.

TERM OF THE CHAIRMAN OF THE BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

Mr. ROTH. Mr. President, today I am introducing legislation that would change the term of the Chairman of the Board of Governors of the Federal Reserve System in order to make it approximately coterminous with that of the President of the United States. The term would end 1 year and 11 days after the expiration of the term of the President making the designation. To do so would not compromise the independence of the Fed, relative to present law, but would help insure that the policies of the Fed complement those of the President.

When the citizens of this country vote for an administration, they have a right to a consistent expression of economic policy that is compatible with the philosophy and outlook of that administration. A mandate on economic policy should not be frustrated by fiscal and monetary policies that are contradictory.

While it is important for the Fed to maintain its independence, it makes little sense to continue a situation in which a new President could be forced to spend the first 2 or 3 years of his term with a Fed Chairman whose political and economic philosophies may be totally at odds with those of his administration.

If we have learned anything from this recession that we are now recovering from, it is the power of monetary policy to influence the economy. I believe each new President should be given the opportunity to appoint a Fed chairman who can be expected to keep the Fed's policies in tune with the President's economic program.

By Mr. HUDDLESTON (for himself, Mr. COCHRAN, Mr. LEAHY, Mr. ANDREWS, and Mr. ZORINSKY):

S. 1789. A bill to provide for the restructuring of the Farmers Home Administration water and waste disposal loan and grant programs; to the Committee on Agriculture, Nutrition, and Forestry.

THE RURAL WATER AND WASTE DISPOSAL PROGRAM IMPROVEMENT ACT OF 1983

Mr. HUDDLESTON. Mr. President, today I am joining several of my colleagues in introducing legislation to amend the Consolidated Farm and Rural Development Act to strengthen the Farmers Home Administration's rural water and waste disposal loan and grant programs.

A nationwide study, required under a provision of the Safe Drinking Water Act, found that almost two-thirds of rural households consume water that fails to meet one or more of the health standards set under that act.

This health hazard can be corrected only through upgraded or expanded community water and waste disposal systems. The Farmers Home Administration provides financing to rural communities otherwise unable to afford the water and waste disposal facilities they need to provide safe and sanitary water and waste disposal service.

Despite the pressing need for the rural water and waste disposal programs, over the last several years, program changes have been implemented that restrict the availability of Farmers Home Administration assistance for rural communities. Funding for the water and waste disposal programs has been reduced—intensifying the need for establishing funding priorities based on community need. Other changes included raising the interest rates and restricting access to the grant program.

Some changes in the programs were needed to more accurately reflect conditions in financial markets and to achieve budget savings. However, some of the administrative changes in the Farmers Home Administration programs have effectively eliminated the only source of financing for many low-income rural communities.

In addition, for most rural communities, the only Farmers Home Administration assistance available is a market rate loan, which will increase user costs to a level higher than many communities can afford.

To help address this problem, the Farmers Home Administration is using grant funds in a manner not intended by Congress. In effect, the agency is subsidizing interest rates by using grant funds to reduce payments for nominally market rate loans. About 77 percent of the loan funds obligated in fiscal year 1982 carried the market rate of interest and 66 percent of the grant funds were absorbed by projects carrying market rate loans.

Congress intended for grant funds to be used to aid the lowest income communities—not reduce interest rates for loans made at market rates. Communities not able to pay market rates of interest should be provided a lower interest loan rather than a grant.

The bill we are introducing is designed to make the changes necessary to restore the programs to their original purpose of helping rural communities obtain the drinking water and waste disposal services they need, but cannot otherwise afford. The changes include:

First, a graduated interest rate for the loan program, with more communities made eligible for lower interest rate loans.

Second, a grant distribution formula based on a community's size and median household income.

Third, a project selection system that uses three basic need factors in determining which communities get preference for the available assistance. These factors include: potential threats to community health, community size, and median household income.

Fourth, authorization for a technical assistance program to aid communities in obtaining impartial advice on the type and size of facilities needed. Small communities need impartial advice that is not available from engineering and consulting firms that will participate in the design and construction of a project.

Fifth, establishment of a predevelopment fund to help communities with special needs, such as locating a new, more pure water source.

This legislation will insure that limited grant and loan funds will be used to assist communities with the greatest needs. This legislation will alleviate the problems caused by the contradictory and complex Farmers Home Administration regulations that have made the water and waste disposal programs unworkable for many communities.

The only change we are proposing that has a budgetary effect is the change in the interest rate rules. Under current conditions, making more communities eligible for the lower interest rate loans will cost an estimated additional $3.3 million per year.

The interest rate provisions in this bill were approved by the Senate Agriculture Committee last year, but the legislation was not considered by the Senate. All of the amendments incorporated in the bill have been approved by the House of Representatives.

I urge my colleagues to support this legislation.

I ask unanimous consent that the text of the bill and a short explanation be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1789

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Rural Water and Waste Disposal Program Improvement Act of 1983".

SEC. 2. Section 306(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926(a)) is amended by—

(1) adding at the end of paragraph (2) the following: "The Secretary shall fix the grant rate for each project in conformity with regulations promulgated by the Secretary that shall provide for a graduated scale of grant rates establishing higher rates for projects in communities that have lower community population and income levels and that are unable to obtain sufficient credit elsewhere to finance their actual needs at reasonable rates and terms, taking into consideration prevailing rates and terms in the area in which the applicant is located for loans for similar purposes and periods of time: *Provided*, That the grant rate shall be the maximum rate permitted under this paragraph for any project in a community that has a population of fifteen

hundred or less inhabitants and a median household income level below 80 per centum of the statewide nonmetropolitan median household income and that is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing rates and terms in the area in which the applicant is located for loans for similar purposes and periods of time."; and

(2) adding at the end thereof new paragraphs (16), (17), (18), (19), and (20) as follows:

"(16) In providing financial assistance for water and waste disposal facilities under this section, the Secretary shall use a project selection system to determine which of the applicants for assistance meeting the basic requirements of this section shall be selected to receive assistance. Such project selection system shall provide for the objective and uniform comparison of requests for assistance (in the form of preapplications) on the basis of relative need as reflected by (A) low community median income; (B) low population; and (C) severity of health hazards resulting from inadequate provision for the reliable supply of potable water or from inadequate means of disposing of waste. For purposes of the project selection system, each of these three factors shall be weighted equally.

"(17)(A) The Secretary may make payments to associations described in paragraph (1) of this subsection that are reasonably likely to receive financial assistance under paragraph (1) or paragraph (2) of this subsection for community water and waste disposal facilities, for predevelopment costs incurred in connection with the planning and design of such facilities. Such costs may include the costs of drilling test wells and of preparing alternative engineering designs to determine the most feasible and economical method to improve the water supply or waste disposal system of the community involved.

"(B)(i) The amount of any payment received under subparagraph (A) with respect to a project by an association that receives, before the expiration of the five-year period beginning on the date that such payment is received, a loan under paragraph (1) or a grant under paragraph (2) of this subsection to finance such project shall be treated as part of the amount of such loan or the amount of such grant, as the case may be.

"(ii) The amount of any payment received under subparagraph (A) with respect to a project by an association that does not receive, before the expiration of the five-year period beginning on the date that such payment is received, a loan under paragraph (1) or a grant under paragraph (2) of this subsection to finance such project shall be repaid to the Secretary as if such payment were a loan made under paragraph (1) unless the Secretary waives the repayment requirement with respect to all or part of such amount.

"(C) The total of payments made by the Secretary under subparagraph (A) for any fiscal year shall not be less than 5 per centum of any funds provided in appropriation acts to carry out paragraph (2) of this subsection for the fiscal year unless the applications for payments received by the Secretary from eligible associations for the fiscal year total less than 5 per centum of such amount.

"(D) For purposes of section 346 of this Act, each payment made under subparagraph (A) shall be deemed to be a loan unless and until such payment is offset against a grant or the Secretary waives the repayment of such payment.

"(18)(A) The Secretary may make grants to private nonprofit organizations for the purpose of enabling them to provide to associations described in paragraph (1) of this subsection technical assistance and training to—

"(i) identify, and evaluate alternative solutions to, problems relating to the development, storage, treatment, purification, or distribution of water or the collection, treatment, or disposal of waste in rural areas;

"(ii) prepare applications to receive financial assistance for any purpose specified in paragraph (2) of this subsection from any public or private source; and

"(iii) improve the operation and maintenance practices at any existing works for the storage, treatment, purification, or distribution of water or the collection, treatment, or disposal of waste in rural areas.

"(B) In selecting recipients of grants to be made under subparagraph (A), the Secretary shall give priority to private nonprofit organizations that have experience in providing the technical assistance and training described in subparagraph (A) to associations serving rural areas in which residents have low incomes and in which water supply systems or waste facilities are unhealthful.

"(C) The total of grants made by the Secretary under subparagraph (A) for any fiscal year shall not be less than 2 per centum of any funds provided in appropriation acts to carry out paragraph (2) of this subsection for the fiscal year unless the applications for grants received by the Secretary from eligible associations for the fiscal year total less than 2 per centum of such amount.

"(19) In the case of water and waste disposal projects serving more than one separate rural community, the Secretary shall use the median population level and the median community income level of all the separate communities to be served in applying the formulas provided in paragraphs (2) and (16) of this subsection and section 307(a)(3)(A) of this title.

"(20) In providing financial assistance for essential community facilities under this section, the Secretary shall use a project selection system to determine which of the applicants for assistance meeting the basic requirements of this section shall be selected to receive assistance. Such project selection system shall provide for the objective and uniform comparison of requests for assistance (in the form of preapplications) on the basis of the factors of (A) a community median household income level below 80 per centum of the statewide median household income, (B) a community rate of unemployment and underemployment that takes account of individuals employed on a part-time or seasonal basis, or both, and individuals not participating in the work force because of continued inability to find employment (commonly referred to as 'discouraged workers') and that exceeds the national nonmetropolitan average rate thereof by at least 10 per centum of such rate, and (C) a sudden economic dislocation the community has experienced or is about to experience resulting in a loss of jobs that is significant, both in terms of the number of jobs eliminated and the effect on the unemployment rate of the community. For purposes of the project selection system, each of the factors described in clauses (A), (B) and (C) of the preceding sentence shall be weighted equally.".

SEC. 3. Section 307(a)(3)(A) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1927(a)(3)(A)) is amended by—

(1) striking out "the poverty line prescribed by the Office of Management and Budget as adjusted under section 624 of the Economic Opportunity Act of 1964 (42 U.S.C. 2971(d)" and inserting in lieu thereof "80 per centum of the statewide nonmetropolitan median household income";

(2) inserting before the period at the end thereof the following: "; and not in excess of 7 per centum per annum on loans for such facilities that do not qualify for the 5 per centum per annum interest rate but are located in areas where the median household income of the persons to be served by the facilities does not exceed 100 per centum of the statewide nonmetropolitan median household income"; and

(3) adding at the end thereof the following: "The interest rate on loans for water and waste disposal facilities and loans for essential community facilities shall be the lower of (i) the rate in effect at the time of the loan approval, or (ii) the rate in effect at the time of the loan closing".

SEC. 4. The amendments made by this Act shall become effective on October 1, 1983, and shall apply to any association described in section 306(a)(1) of the Consolidated Farm and Rural Development Act without regard to whether the application for the loan or grant involved was made by such association before such effective date.

BRIEF EXPLANATION OF THE MAJOR PROVISIONS OF THE RURAL WATER AND WASTE DISPOSAL PROGRAM IMPROVEMENT ACT OF 1983

DEVELOPMENT GRANTS

Under existing law, the Secretary of Agriculture is authorized to award grants to rural communities to finance a portion of the cost involved in constructing rural water and waste disposal facilities. No grant can cover more than 75% of the development costs of a project. The bill will add new provisions to the law to require the Secretary to provide for a graduated scale of grant rates under which communities with lower populations and income levels and that can demonstrate a financial need will be eligible for grants that cover a higher percentage of development costs. The maximum grant rate (75% of costs) will be restricted to projects in communities with populations of 1,500 or less and a median household income level below 80% of the statewide nonmetropolitan median household income and that can meet a test for credit.

PROJECT SELECTION SYSTEM

The bill will require the Secretary to establish a project selection system for choosing among applicants for rural water and waste disposal facility loans and grants. The system will give equal weight to the factors of (i) low community income, (ii) low population, and (iii) health hazards resulting from lack of potable water or inadequate waste disposal systems.

PREDEVELOPMENT GRANTS AND TECHNICAL ASSISTANCE

The bill will authorize the making of advance payments to communities likely to receive rural water or waste disposal facility grants or loans to assist in meeting predevelopment costs. The bill will also authorize the making of grants to private nonprofit organizations for the purpose of enabling them to provide technical assistance and

training to communities likely to receive loans or grants.

LOAN INTEREST RATES

The bill will change the standard under which communities become eligible for five-percent water and waste disposal facility loans, from that limiting five-percent loans to rural communities having a median family income level below the Federal poverty line to a standard limiting five-percent loans to rural communities having a median household income level below 80% of the statewide nonmetropolitan median household income.

The bill will also establish a seven-percent maximum loan interest rate for rural water or waste disposal facility borrowers that do not qualify for five-percent loans but that have a median household income level not exceeding 100% of the statewide nonmetropolitan median household income.

By Mr. THURMOND:

S. 1790. A bill to authorize the Secretary of the Interior to enter into a contract or cooperative agreement with the Art Barn Association to assist in the preservation and interpretation of the Art Barn and Pierce Mill located in Rock Creek Park within the District of Columbia; to the Committee on Energy and Natural Resources.

THE ART BARN AND PIERCE MILL

Mr. THURMOND. Mr. President, today I am introducing legislation similar to a measure which I introduced in the 97th Congress, which will authorize the Secretary of the Interior to enter into a contract or cooperative agreement with the Art Barn Association to assist in the preservation and interpretation of the Art Barn and Pierce Mill located in Rock Creek Park within the District of Columbia.

Rock Creek Park is an area of natural beauty and tranquillity within the confines of the District of Columbia, managed and administered by the National Park Service. For over a decade, the National Park Service has entered into annual agreements with the Art Barn Association, a group of individuals from in and around the District of Columbia, to use the carriage house of the old Pierce Plantation in Rock Creek Park as an admission-free gallery for local artists to display their work.

Through the dedicated, volunteer efforts of the members of the Art Barn Association, this carriage house, known as the Art Barn, has presented an unparalleled opportunity for local artists to display the product of their artistic craft. Similarly, the Art Barn provides an ideal setting in which residents of our Nation's Capital, as well as visitors, may view these fine, contemporary works of art. This concept has proven to be a resounding success. The association would now like to extend its efforts to the Pierce Mill located adjacent to the carriage house.

This bill would authorize the Secretary of the Interior to enter into a contract or cooperative agreement with the association in furtherance of this endeavor. Additionally, this measure would allow that agreement to run for more than 1 year, thus eliminating the necessity of renewing the contract annually.

It is contemplated that, under such an agreement, the National Park Service would continue to maintain these properties, with the Art Barn Association providing the management and supervision for the art exhibitions and other community outreach cultural programs.

Mr. President, by extending the authority of the Park Service in these two ways, to include the Pierce Mill, as well as to contract for more than 1 year, the Art Barn Association will be able to provide services to meet an increasing demand and plan exhibitions and programs with greater certainty. I commend this measure to my colleagues in the Senate. I believe it is a highly desirable objective to which the members of the association aspire. This will benefit the whole cultural community, including area residents and visitors to our Nation's Capital. I would therefore hope that this measure will receive prompt, favorable consideration. I ask unanimous consent that this bill appear in the RECORD immediately following these remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1790

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) in furtherance of section 2(e) of the Act entitled "An Act to provide for the preservation of historic American sites, buildings, objects and antiquities of national significance, and for other purposes.", approved August 21, 1935 (49 Stat. 656; 16 U.S.C. 462(e)), and in order to preserve for the benefit and inspiration of the people of the United States the Art Barn and the Pierce Mill located in Rock Creek Park within the District of Columbia, the Secretary of the Interior is authorized to enter into contracts or cooperative agreements with the Art Barn Association to assist in the preservation and interpretation of the barn and mill.

(b) Pursuant to subsection (a) and subject to such terms and conditions as the Secretary of the Interior may prescribe, funds appropriated to the Secretary of the Interior for operation and maintenance of the Art Barn and Pierce Mill may be made available to the Art Barn Association.

By Mr. MOYNIHAN:

S. 1791. A bill to amend section 103(b)(3) of the Internal Revenue Code; to the Committee on Finance.

AMENDMENT OF INTERNAL REVENUE CODE

● Mr. MOYNIHAN. Mr. President, I rise today to introduce legislation to amend section 103(b)(3) of the Internal Revenue Code. We have in New York a most unique situation that involves the New York Power Authority. Due to the nature of its power marketing arrangements, the authority is denied a Federal tax exemption on any new bond it may issue. This comes about because, unlike other public power agencies, the power authority does not own and is not authorized to own any distribution facilities. What I am proposing is a very narrow and specific change to section 103(b)(3) that will simply attain for the power authority equitable treatment under the law.

The power authority was created by State law in 1931 with the mandate to develop the hydroelectric resources of the St. Lawrence River. It was then New York Gov. Franklin D. Roosevelt's notion to harness the hydropower, as he said, "* * * for the great purposes of bringing more and cheaper electricity into the homes of the State, into small shops and small industries and into farms." Over the years the power authority's activities have expanded. Today the authority operates two hydroelectric generating facilities, two nuclear powerplants, one fossil fuel plant and a pumped storage facility.

While the authority operates a transmission network that connects with the statewide power grid, the authority does not own any distribution facilities. As such the authority markets much of the output from its generation facilities through private utility companies. Such power, it is essential to note, is delivered to the ultimate consumer at no markup in purchase price. IRS regulations, however, treat sales to utility companies for delivery to ultimate consumers as sales to "nonexempt persons." This is the case even if the power sold to such utilities is delivered to the end-use consumers at no markup in price. It is this definition of "nonexempt person" that disqualified the authority from issuing tax exempt bonds.

The power authority has no way to sell power to residential and commercial customers except through utility companies. Thus the bill I am introducing today will change the law to permit the power authority to make sales through private utilities without being denied a Federal tax exemption on its bonds. The bill does not involve any Federal guarantee of any authority bonds. The bill has no application outside New York.

Mr. President, I believe this to be a fair request. The bill provides only for a most narrow and equitable change in the law. I therefore urge my colleagues to support this bill so that it may be enacted into law.

Mr. President, I ask unanimous consent that the text of the legislation be printed in full in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1791

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. Application of section 103(b)(3) to certain entities. For the purposes of section 103(b)(3) of the Internal Revenue Code of 1954 (relating to the definition of "exempt person"), the term "exempt person" shall include a regulated public utility having any customer service area within a State served by a public power authority which was required as a condition of a Federal Power Commission license specified by an Act of Congress enacted prior to the enactment of section 107 of the Revenue and Expenditure Control Act of 1968 (Public Law 90-364) to contract to sell power to one such utility and which is authorized by State law to sell power to other such utilities, but only with respect to the purchase by any such utility and resale to its customers of any output of any electrical generation facility or any portion thereof or any use of any electrical transmission facility or any portion thereof financed by such power authority and owned by it or by such State, and provided that by agreement between such power authority and any such utility there shall be no markup in the resale price charged by such utility of that component of the resale price which represents the price paid by such utility for such output or use.

SEC. 2. The provisions of section 1 hereof shall apply to obligations issued on or after January 1, 1974 to finance any facility or portion thereof referred to in said section.●

By Mr. LEVIN of Michigan (for himself, Mrs. HAWKINS, Mr. RANDOLPH, Mr. JOHNSTON Mr. MELCHER, and Mr. ZORINSKY):

S. 1792. A bill to amend title XIX of the Social Security Act to extend medicaid coverage of home care to certain disabled individuals over 18 years of age; to the Committee on Finance.

MEDICAID COVERAGE OF HOME CARE

● Mr. LEVIN of Michigan. Mr. President, I am today introducing legislation to expand the community care program under medicaid so that persons over the age of 18 could be cared for in their homes without losing medicaid eligibility, at no added cost to the State or Federal Government.

You may recall the news accounts last summer about a little 3-year-old girl named Katie Beckett. Katie, who is suffering from the side effects of viral encephalitis, had been hospitalized since she was 4 months old because her family could not afford to care for her in their home. If they had cared for her there, they would have lost their eligibility for medicaid benefits. The rationale for this loss of benefits is the deeming requirement under medicaid. This requirement deems the total household income to be eligible for care if the individual is cared for at home. In the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) Congress eliminated this deeming requirement for persons under the age of 18, thereby allowing people like Katie to return to their homes. Katie Beckett's hospital treatment was costing $12,000 to $14,000 a month. It now costs $2,500 to $3,000 a month to take care of her at home. There has been remarkable improvement in Katie's condition and doctors have advised her parents to enroll her in regular public school in the fall.

The legislation I am introducing today would remove this deeming requirement for all age groups. This would be logical expansion of the legislation which we passed during the last Congress. Congressman RALPH REGULA has introduced similar legislation in the House.

One of the major requirements of this legislation, as with the legislation included in TEFRA and in the Community Care Waivers of 1981 (section 2127) is that care in the home must be less expensive than care in the institution. Additionally, the total cost of community based care cannot exceed the cost of institutional care. The elimination of the age requirement combined with the maintenance of the cost limits would encourage States to expand their community care and not their nursing home. This would permit more people to receive care at no added cost to the State or Federal Government.

I am proud of Senators HAWKINS, RANDOLPH, JOHNSTON, MELCHER, and ZORINSKY as cosponsors of this much needed legislation.●

By Mr. MOYNIHAN:

S. 1793. A bill to amend the Internal Revenue Code of 1954 to prevent taxpayers from using certain straddles, foreign corporations, and other devices to avoid or defer payment of Federal income taxes, and for other purposes; to the Committee on Finance.

TAX STRADDLE REFORM ACT OF 1983

Mr. MOYNIHAN. Mr. President: I rise today to introduce legislation to close a tax loophole, one by which investors use corporations based in foreign tax haven countries to channel investment income earned in the United States around the Tax Code, specifically around provisions of the 1981 Economic Recovery Tax Act designed to regulate commodity transactions. And I am pleased to add, the Department of the Treasury stands in full and public concurrence that this loophole must be closed, and promptly.

In 1981, we passed legislation ending a pernicious abuse, by which investors were sheltering income from commodity and commodity future contract transactions, often indefinitely. The crucial aspect of this abuse centered on rolling-over short-term capital gains, so as to defer the tax liability at least past the 1-year threshold for long-term capital gains, while the deduction for the loss end of the straddle was promptly claimed. Under the major provision of this 1981 legislation, taxpayers who roll-over their future positions in the commodity markets became liable for tax on these positions, as well as realized gains and losses, at the end of the year and at a 32 percent rate (a rate between the maximum for long-term capital gains and that for ordinary income or short-term capital gains).

According to the Joint Committee on Taxation, certain investment firms have devised elaborate schemes built on loopholes in the Tax Code, to circumvent this provision. Essentially, the mechanism for tax deferral—and therefore, in an important sense, tax avoidance—has been moved off-shore. Under current law, a U.S. taxpayer can defer, and thereby reduce, his U.S. tax liability for earnings received through a foreign-based corporation until these earnings are distributed as dividends, or until the taxpayer liquidates his holdings in the corporation. When the foreign corporation is based in a tax haven country, which exacts little or no tax from the corporation on its earnings, this advantage is further enhanced.

Now we discover U.S. investment firms using these provisions to circumvent the commodity straddle provisions of the 1981 Economic Recovery Tax Act. One firm has organized two foreign-based corporations, one a wholly owned subsidiary of the other parent, and offers U.S. investors stock in the parent corporation. The subsidiary trades in commodity futures on the American commodity exchanges. The earnings from this trading, even though the subsidiary is incorporated offshore, should still be subject to the tax on U.S.-source accumulated earnings. Under this scheme, however, the subsidiary distributes all its earnings as dividends to its parent; in this way, the earnings become nontaxable foreign-source dividends. The investors escape tax on profits from commodity market trading, trading conducted wholly or largely on American commodity market exchanges, until they sell their investment, their stock, in the parent company. At that time, the long-term capital gains holding period requirement has been satisfied, and the investor reduces his liability on short-term income to a maximum tax rate of just 20 percent rather than the 32-percent rate prescribed in 1981 for taxpayers engaging in direct futures trading.

This arrangement also circumvents current law regarding a U.S. person's tax liability for earnings from the sale of stock in foreign investment companies. Under the foreign investment company rules in the Tax Code since 1962, gains attributable to untaxed corporate income are to be taxed as ordinary income. The problem: corporations trading in commodities and commodity instruments have not, thus far, been covered under these rules—because prior to the 1981 commodity straddle provisions, no foreign investment companies were trading in commodity instruments.

Under a related scheme promoted by another investment firm, American investors buy shares of a company, also incorporated in a tax haven country, which purchases U.S. Government-guaranteed debt instruments, such as Ginnie Mae certificates, on the American securities markets. At the same time, the investors, acting as individuals, enter into positions on the securities markets that offset the positions taken by the corporation. Under these arrangements, the foreign-based corporation escapes U.S. tax on its gains, so the investors' gain from the transactions go unrealized for tax purposes, while the investors claim tax deductions for the losses on their individually held offsetting positions. The investor gets the deduction for the loss from the offsetting position—while deferring tax on the correlative gains from the straddle until he sells his stock in the company, at which time the gain is liable only at long-term capital gains rates.

The legislation I offer today will prevent such flagrant abuses of the tax system. It removes the anomoly in the Tax Code that enables a U.S. person to avoid U.S. tax on gains from U.S. businesses, simply by conducting that business through a tax-haven corporation. It also removes the anomoly in current law that enables a U.S. person to circumvent the 1981 antiabuse rules on commodity straddle transactions by the simple device of transacting one leg of the straddle through a foreign-based corporation.

First, this legislation provides that a foreign corporation which engages primarily in trading in commodities or interests in commodities, and which is directly or indirectly at least 50 percent owned by U.S. persons, will be treated as a foreign investment company. Thus, when an investor sells his shares in such a corporation, the gains attributable to previously untaxed earnings will be treated as ordinary income rather than long-term capital gains.

This legislation also includes a new source-of-income rule to be applied with regard to the accumulated earnings tax. Under this provision, if more than 10 percent of a foreign-based corporation's earnings and profits are derived from U.S. sources, or effectively are connected to a U.S. trade or business, any dividends distributed directly from such a corporation, or through one of its entities, to a U.S.-owned foreign corporation will be treated as coming from U.S. sources. Under this provision, the term, "U.S. owned foreign corporation" refers to any foreign corporation of which 50 percent or more of the stock is owned, directly or indirectly, by U.S. persons. This provision will prevent U.S. persons from circumventing the accumulated earnings tax simply by interposing a holding company between the shareholders and a foreign corporation earning significant U.S.-source income.

The last provision of the legislation provides that, regarding loss-deferral rules under current law, that a limited category of stock will be treated as an offsetting position. The term, "offsetting position stock" is defined as any stock of a corporation formed or availed of to take positions in personal property that offset positions taken by such corporation's shareholders. This provision includes, then, "offsetting position stock" in the definition of property subject to the straddle rules.

How long can we expect the American taxpayer to pay his taxes when certain select investors can take advantage of ingenious and elaborate arrangements to circumvent the Tax Code and avoid paying a fair share? Not much longer, I expect. This legislation will eliminate one of the more transparent attempts to so evade the intent of Congress in the Tax Code.

I ask unanimous consent that the text of the legislation be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1793

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; AMENDMENT OF 1954 CODE.

(a) SHORT TITLE.—This Act may be cited as the "Tax Straddle Reform Act of 1983".

(b) AMENDMENT OF 1954 CODE.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

SEC. 2. DEFINITION OF FOREIGN INVESTMENT COMPANY.

(a) GENERAL RULE.—Paragraph (2) of section 1246(b) (defining foreign investment company) is amended to read as follows:

"(2) engaged (or holding itself out as being engaged) primarily in the business of investing, reinvesting, or trading in—

"(A) securities (as defined in section 2(a)(36) of the Investment Company Act of 1940, as amended),

"(B) commodities, or

"(C) any interest (including a futures or forward contract or option) in property described in subparagraph (A) or (B),

at a time when 50 percent or more of the total combined voting power of all classes of stock entitled to vote, or the total value of all classes of stock, was held directly (or indirectly through applying paragraphs (2) and (3) of section 958(a) and paragraph (4) of section 318(a)) by United States persons (as defined in section 7701(a)(30)).".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to sales and exchanges (and distributions) on or after May 23, 1983, in taxable years ending on or after such date.

SEC. 3. TREATMENT OF CERTAIN DISTRIBUTIONS RECEIVED BY U.S. OWNED FOREIGN CORPORATIONS.

(3) GENERAL RULE.—Section 535 (defining accumulated taxable income) is amended by adding at the end thereof the following new subsection:

"(d) U.S. Income Retains Source Even Though Distributed to U.S. Owned Foreign Corporation.—

"(1) IN GENERAL.—For purposes of this part, if more than 10 percent of the earnings and profits of any foreign corporation for any taxable year—

"(A) is derived from sources within the United States, or

"(B) is effectively connected with the conduct of a trade or business within the United States,

any distribution received (directly or through 1 or more other entities) by a U.S. owned foreign corporation out of such earnings and profits shall be treated as derived by such corporation from sources within the United States.

"(2) U.S. owned foreign corporation.—The term 'U.S. owned foreign corporation' means any corporation 50 percent or more of the total combined voting power of all classes of stock entitled to vote, or the total value of all classes of stock, was held directly (or indirectly through applying paragraphs (2) and (3) of section 958(a) and paragraph (4) of section 318(a)) by United States persons (as defined in section 7701(a)(30)).".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to distributions received by a United States owned foreign corporation (within the meaning of section 535(d) of the Internal Revenue Code of 1954) on or after May 23, 1983, in taxable years ending on or after such date.

SEC. 4. TREATMENT OF OFFSETTING POSITION STOCK.

(a) GENERAL RULE.—Paragraph (1) of section 1092(d) (defining personal property) is amended by adding at the end thereof the following new sentence: "Such term also includes any offsetting position stock.".

(b) DEFINITION OF OFFSETTING POSITION STOCK.—Subsection (d) of section 1092 is amended by adding at the end thereof the following new paragraph:

"(6) OFFSETTING POSITION STOCK.—The term 'offsetting position stock' means any stock of a corporation formed or availed of to take positions in personal property which offset positions taken by shareholder.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to positions established on or after May 23, 1983, in taxable years ending on or after such date.

By Mr. D'AMATO (for himself, Mr. WEICKER, and Mr. STEVENS):

S. 1794. A bill to require certain executive agencies to procure supplies or services from local commercial sources instead of from a multiple-award schedule of the Federal supply schedule under certain circumstances; to require the Administrator of General Services to remove contractors from multiple-award schedules under certain circumstances; and to increase the maximum amount of small purchases which may be made by such executive agencies from sums in an imprest fund for one transaction; to the Committee on Governmental Affairs.

GSA BILL

Mr. D'AMATO. Mr. President, I am introducing legislation today that will

both save taxpayer dollars and assist the backbone of America's economy, small business. This legislation will alter the General Services Administration's (GSA) multiple award schedule program by requiring a more efficient enforcement of existing procurement procedures. My bill is a painless way of reducing Federal procurement costs, while simultaneously assisting the small business sector.

The multiple-award schedule program establishes a mechanism through which Federal agencies make their non-defense-related purchases. Agencies use the multiple-award schedule to purchase thousands of items ranging from copying machines and pencil sharpeners to furniture and appliances. Each year, firms throughout the country submit bids in an effort to be placed on the multiple-award schedule.

Dozens of firms, for example, bid for the right to be included on the fiscal year 1983 copy machine multiple-award schedule. The GSA then selected 23 of these firms and negotiated appropriate price discounts to be available for all Federal agency purchases. The hundreds of different copying machine products offered by those firms selected comprise the multiple-award schedule for copy machines. Agencies are free to select any copying machine off this schedule.

The GSA's role is to determine what firms deserve to be placed on the schedule and what prices will be offered. The type of items offered and the prices quoted, though, vary from product to product within each category. In fiscal year 1982 along, the GSA negotiated 3,500 contracts for the multiple award schedule program, which accounted for over $2.6 billion of sales to Federal agencies.

The effect of multiple contracting is to offer Federal agencies a wide variety of items from which to choose. Agencies are better able, through the multiple award schedule program, to find the products most suited to their needs. The multiple award schedule program provides sufficient diversity of services to meet the wide range of demands by Federal agencies.

The GSA is supposed to receive the lowest possible price from the firms with which it negotiates contracts. The GSA requires that the Federal Government must be considered the firm's "most favored" customer. In other words, the price the Government will be purchasing at must be either equivalent to or better than the price of the dealer's best customer. Nowhere should a product be offered by retail stores at a lower price than the price listed on the multiple award schedule program.

In addition, because the GSA negotiates contracts annually and offers a range of items in a given product category, the program is able to maintain the highest level of technology available from the private sector. The GSA is not locked into contracts with single firms that provide services which may become obsolete. Single-sourced contracting through a centralized supplier of a given product would eliminate the flexibility currently available in the multiple award schedule program. Agencies would be restricted from purchasing products that best match their needs. Moreover, small firms would be excluded in a single-source procurement process.

The success of the multiple award schedule program depends on the negotiation of low priced contracts. But, in a 1979 report to the Congress, the General Accounting Office (GAO) found that "there is little or no price competition in the negotiation or monitoring of the items ordered by the agencies and little or no assurance that suppliers offer items at prices that reflect the Government's volume purchase." In short, Federal agencies were purchasing overpriced products from the schedule and thus, were wasting taxpayer dollars.

The GSA's philosophy has been to provide the widest possible selection of products to Federal agencies. The GSA has supplied agencies with all necessary information and materials with which to conduct purchasing. The problem with the multiple award schedule program, however, rests not with the GSA's services, but with its negotiated priced. As pointed out by the GAO, the GSA has not emphasized and, therefore, has not received price discounts.

I recently reviewed the prices of several products listed on the multiple award schedule and found that the over-the-counter retail prices for these products were lower than the prices offered through the schedule. For instance, I priced a name-brand calculator listed on the schedule in a Washington, D.C., retail store. The retail price for one calculator was $19.90: The GSA procurement price was $25.56, or 33 percent higher. This is not an anomaly. I also called a small business in New York City and again found that the nondiscounted retail price for a calculator was significantly lower than the price for that same calculator listed on the schedule. I was quoted a price of $66.50 for a calculator that was listed on the GSA schedule for $79.96, a 20-percent penalty for Federal agency purchases.

What this means is that any individual can receive cheaper prices at the retail level than the Federal Government can obtain through the supposedly discounted multiple award schedule program. This significant price discrepancy, moreover, exists in varying degrees throughout the entire program. It is a disgraceful example of Government waste. The GSA has used taxpayer money to arduously conduct extended and expensive negotiations with suppliers for the right to receive higher prices. This is ludicrous.

Put very simply, the GSA has not kept procurement costs down. The GSA has not received discounted prices for bulk purchases. The Federal Government cannot be the firm's "most favored" customer if retail stores are able to undercut the GSA's procurement price. Overtaxed citizens can no longer afford to have the Government pay prices well above the generally available market price. In this $2.6 billion program, the Federal Government is annually wasting hundreds of millions of dollars.

It is abudantly clear that the American taxpayer is being taken for a ride. It is inconceivable that the Federal Government should annually make purchases through the multiple award schedule program of over $2.6 billion and not receive a volume discount. I can buy products cheaper at the local five and dime than the Federal Government can after expensive, protracted negotiations with suppliers.

In response to the 1979 GAO study, the GSA issued regulations that were intended to remedy this wasteful problem. One such regulation encouraged Federal agencies to purchase off-schedule from local firms when lower price could be obtained. However, the GSA has failed to enforce this regulation. Products thus continue to be purchased off the schedule at exorbitant prices. The open market is not accessed as a prime source for Federal agency procurement. The GSA has turned its back on waste and inefficiency.

My bill will simply force GSA to implement its own local purchasing regulation. Federal agencies will be forced to purchase products from local firms whenever both the price and the quality of a product are the same or better than comparable products listed on the schedule. Officials of Federal agencies will not be able to purchase items from the schedule unless they have determined that similarly or lower priced products of the same or better quality are not available from local distributors. If an agency determined that a product offered locally was of the same or better quality and price, then it would be required to purchase that product locally.

A better price, without comparable or better quality, would not be sufficient to require local purchasing. Similarly, better quality merchandise, without a comparable or lower price would also be insufficient grounds to make a purchase locally. Local merchants, therefore, will be required to equal or beat the multiple award schedule on both price and quality if they are to sell their products and services to Federal agencies.

Local purchasing will rectify a problem that has existed in the multiple award schedule for years. Although the problem has been pointed out to the GSA by the GAO and others, no concrete action has been taken. Consequently, congressional oversight of the GSA multiple award schedule program is clearly required.

Expressing congressional intent by mandating implementation of this provision, however, is not enough. Therefore, I am putting additional teeth into this legislation and the GSA local purchasing provision. Within 60 days after the enactment of this bill, the Administrator of the GSA must issue regulations implementing this local purchasing provision. And for each of the next 3 years, the Administrator must report to Congress on the progress of local purchasing by Federal agencies. The intent of this provision is to add force to existing GSA regulations.

Rather than simply paying lipservice to encouraging local purchasing, this legislation will require agencies to canvas the local market before purchases can be made from the schedule. This legislation does not outline specific regulations on how Federal agencies should survey and conduct local purchases, but it does instruct the Administrator of the GSA to issue the necessary and specific local purchasing guidelines.

The effects of the local purchasing provision will be twofold. First, Federal agencies will be able to painlessly reduce their procurement costs. Instead of complacently relying upon the multiple award schedule, agency officials will have to survey local firms when purchasing products. The open market will, thereby, be used as a cost saving alternative. Not only will the implementation of this provision have a specific, cost-cutting effect on each individual purchase, but local purchasing will have a general effect on the entire multiple award schedule program. Firms contracting with the Government will be forced to make their prices competitive, not only with other firms on the schedule, but also with noncontracting businesses throughout the country. The entire multiple award schedule program will inevitably become more competitive.

The second, and equally important, result of local purchasing will be its impact on small business. Small businesses comprise over 99.6 percent of the more than 4.9 million business establishments in the United States today. Moreover, more than three out of every four workers are involved in small enterprises. However, it is this segment of our economy that has had the most difficulty acquiring the necessary financial and physical resources to remain economically viable. Local purchasing by Federal agencies will provide a much needed infusion of revenues into the small business community.

Small business, though, has traditionally had difficulty entering the Federal procurement process. The multiple award schedule program inherently favors large firms with strong marketing forces. Although small businesses hold over 70 percent of all multiple award schedule contracts, these firms account for only 29 percent of the total dollar volume. Through enforcement of existing GSA regulations, local purchasing will provide an important opportunity for small firms to participate in the Federal procurement process. Small businesses will be brought into the Federal procurement process in a way in which the GSA has already approved, but failed to implement. This local, off-schedule purchasing, therefore, will both save tax dollars and aid small business.

Another section of my bill will remove firms from the multiple-award schedule program for 2 years if they had not made any sales under the program in the past 3 years. Because contracts are negotiated annually in the multiple-award schedule program, this provision will save the Government the cost of negotiating contracts with firms that provide no goods or services. In addition, the removal of these firms will open the schedule for other firms who may be better able to successfully sell to Federal agencies. Within 60 days before a contractor becomes ineligible for the multiple-award schedule program, the GSA Administrator must notify the contractor. If the company proves to the satisfaction of the Administrator that there were extraordinary and extenuating reasons why no purchases were made, then the contractor will not become ineligible.

Since 1970, the multiple award schedule program has more than quadrupled in size. The GSA has made some progress in reducing the number of participants in the schedule. By removing those firms from the program that provide no services, the GSA would be further streamlining the entire multiple-award schedule program. I have specifically suggested a 3-year period of nonsales so as to allow small firms a sufficient opportunity to make a sale. The marketing capabilities of small firms is much less than that of big business. However, a 3-year period of time should be adequate for small businesses.

The final provision of my legislation will increase the maximum amount that an agency can spend out of its imprest funds: petty cash used by agencies for small purchases. The current permissible level is $150 which was established in 1975. This provision will raise the imprest funds level to $500, and $650 under emergency circumstances. This level will be adjusted annually with changes in the Producer Price Index as announced by the Department of Labor.

The raising of the imprest funds level to $500 will have two important effects. First, it is necessary to maintain an inflation adjusted imprest funds level in current dollars and, second, the higher level will facilitate local purchases without the usually required redtape. Agencies will be able to better access the open market to the benefit of small business.

My legislation does not drastically alter the multiple-award schedule program. The purpose of my bill is to refine the program, without tampering with the favorable aspects of the schedule. I reject as unworkable the centralized procurement method favored by some. This would destroy the innovation inherent in the program, and hurt small business. Moreover, centralized procurement only will allow purchasing from a few large firms and will not save tax dollars. The multiple-award schedule program allows for a decentralized procurement method that provides for enough flexibility to adapt to both changes in technology and to the diverse needs of the various Federal agencies.

The legislation I am introducing today is an important measure that will promote both efficiency and fairness in Federal purchasing. The Congress must begin to examine the procurement methods of the Federal Government. This legislation will bring the enormous multiple aware schedule program under control. The bill will make certain that Federal purchasing is conducted at the lowest possible cost and accomplished in the most equitable and competitive fashion, while also serving to help the small business community.

Mr. President, I ask unanimous consent that this legislation be printed in the RECORD in its entirety at the conclusion of my remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1794

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, for the purposes of this Act—

(1) the term "Administrator" means the Administrator of General Services;

(2) the term "executive agency" means any executive agency to which title III of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 251 et seq.) applies;

(3) the term "imprest fund" means a fixed cash or petty cash fund which (A) is in the form of currency, coin, or Government check which has been advanced by an official Government disbursing office, without charge to a Government appropriation or fund account, to a duly authorized cashier for cash payment or other cash requirement purposes as specified in the designation or authorization of such cashier and (B) may be of a revolving type, replenished to a fixed

amount as spent or used, or of a stationary nature such as a fund from which change is made;

(4) the term "multiple-award schedule" means a multiple-award schedule of the Federal Supply Schedule;

(5) the term "product package", when used with respect to the procurement of supplies or services, includes price, installation, training, warranties, guarantees, maintenance provisions, and any other comparable terms and conditions applicable to such procurement; and

(6) the term "small purchases" means purchases in an aggregate amount not exceeding $10,000.

SEC. 2. (a) Under such regulations as the Administrator may prescribe, before any executive agency procures supplies or services from a multiple-award schedule, the officer or employee of the executive agency procuring the supplies or services shall determine whether the supplies or services are available from a private commercial source in the local area (as defined by the Administrator) where the supplies or services are to be used. If the officer or employee determines that the supplies or services are available from such a source in a product package which is of the same or a similar quality as the product package available under a multiple-award schedule and which has the same or a lower price as such product package, the officer or employee shall procure the supplies or services from the private commercial source in the local area.

(b) Not later than 60 days after the date of enactment of this Act, the Administrator shall transmit to the Congress a report on the actions taken, including the promulgation of any regulations, to carry out the requirements set forth in subsection (a). At the end of each of the first three years after the date on which the report required by the first sentence is transmitted to the Congress, the Administrator shall transmit to the Congress a report on the actions taken, including the promulgation of any regulations, to carry out the requirement set forth in subsection (a) after the latest previous report transmitted to the Congress under this subsection.

SEC. 3. (a) Except as provided in subsection (b), if there are no purchases of supplies or services from a contractor under a multiple-award schedule contract during any three year period, the contractor shall not be eligible to be awarded a contract under any multiple-award schedule during the period of two years beginning on the date on which the latest multiple-award schedule contract with such contractor terminates.

(b) A contractor shall not be ineligible to be awarded a multiple-award schedule contract under subsection (a) if the Administrator finds that there were extraordinary and extenuating reasons that no supplies or services of the contractor were purchased during the applicable three-year period.

(c) Not later than 60 days before the date on which a contractor becomes ineligible to be awarded a multiple-award schedule contract pursuant to subsection (a), the Administrator shall transmit to the contractor a notice of the ineligibility. The notice shall include a statement that, within such period of 60 days, the contractor may submit information to the Administrator to support a finding described in subsection (b).

SEC. 4. (a) Subject to subsection (b), an executive agency may not use sums in any imprest fund to make small purchases in an amount exceeding—

(1) $500, or

(2) under emergency conditions, $650,

for one transation.

(b) On the date on which the Producer Price Index is published by the Department of Labor for a month beginning after the date which is one year after the date of enactment of this Act and on each date on which the Producer Price Index is published by the Department of Labor for the same month of the year in each year thereafter, the Administrator shall determine the percent increase or decrease, if any, in the Producer Price Index for such month over the Producer Price Index published by the Department of Labor for the same month of the preceding year. Effective on the first day of the first month beginning after the date on which the Administrator makes a determination under the preceding sentence, the maximum amounts specified in subsection (a) are increase or decrease, as the case may be, by the percent increase or decrease, as the case may be, if any, in the Producer Price Index determined under such sentence.

Mr. WEICKER. Mr. President, I am pleased to join with Senator D'AMATO and Senator STEVENS in introducing legislation which would implement basic reforms in the way Federal agencies procure goods through GSA's multiple-award schedule.

GSA annually procures products worth millions of dollars from its multiple-award schedule, which is simply a list of discount suppliers who have been placed on a schedule because they offer the Government a discount. Agencies select their particular product from the schedule which was intended to offer goods at prices lower than available through the open market.

In reality, according to a recent GAO report, this system does not result in the lowest price to the Government. GAO reports that although competition is recognized as the best means to achieve the lowest possible price, "such competition under the multiple-award program is virtually nonexistent."

GAO has concluded that most of the 4 million items on this schedule do not belong there and instead should be placed through competitive procurement. According to GAO, these problems are longstanding. GSA's management of the program has not made any substantive improvements, and legislation mandating action is needed.

Mr. President, the bill we are introducing today would insure competition by small businesses with firms on this multiple-award schedule and save the Government money by requiring Federal agencies to purchase products locally whenever both the price and quality of goods and services offered are the same or better than those listed in the multiple-award schedule. It would also remove from the schedule dormant firms that have not made any sales under this program in the last 3 years.

This legislation would help small businesses, the most innovative and productive segment of our economy, compete for Government procurement and bring competition into a system where currently there is none. The result should be that the Government should save substantial amounts of money and a procurement system fraught with abuse will finally be brought under control.

By Mr. MOYNIHAN:

S. 1795. A bill to further the national security and improve the economy of the United States by providing grants for the improvement of elementary and secondary foreign language instruction, and for per capita grants to reimburse institutions of higher education to promote the growth and improve the quality of postsecondary foreign language instruction; to the Committee on Labor and Human Resources.

FOREIGN LANGUAGE ASSISTANCE ACT OF 1983

Mr. MOYNIHAN. Mr. President, I offer today legislation to improve the foreign language proficiency of our Nation's students. The steady decline of foreign language skills in the United States has been well documented, most notably in three General Accounting Office studies over the last 10 years and in the 1979 report of the President's Commission on Foreign Language and International Studies. All of these investigations conclude that the decline of foreign language competency in the United States poses significant problems for the health of our economy, educational system, and foreign relations.

Lack of linguistic skills amongst Americans is indeed cause for concern. The President's Commission reported in 1979 that the number of high school students studying a foreign language had fallen to 15 percent from 24 percent in 1966. The Commission also noted that only "8 percent of American colleges and universities now require a foreign language for admission, compared with 34 percent in 1966."

The study of foreign languages bears directly on the quality of education that a student obtains. Educators have increasingly come to recognize the importance of foreign language study to the cognitive development of students. Writing in the February-March 1982 edition of Today's Education, Florence Barkin and Gail Gunterman stated:

> Numerous studies have acknowledged the important impact of acquiring a second language on the learning of English vocabulary, reading skills, self-concept, cultural enrichment, creativity, and communications—

Further adding that—

> students must display problem-solving skills and adaptability to "function" in new language, since the sociocultural situation as well as the linguistic forms are unfamiliar, complex, and often ambiguous to the learner. Nothing is so totally new to an American as is a foreign language.

In "A Nation At Risk," published last April, the National Commission on Excellence in Education recommended that foreign language instruction begin at the elementary grade levels because foreign language "introduces students to non-English-speaking cultures, heightens awareness and comprehension of one's native tongue, and serves the Nation's needs in commerce, diplomacy, defense, and education.

Just last March, in a proclamation declaring the week of March 5, "Foreign Language Week," President Reagan indicted his awareness of the need for greater emphasis on foreign language instruction when he asserted that:

The study of foreign language is vitally important to the basic education of American youth and adults. I urge parents and community and business leaders alike to join educators in encouraging our youth to begin the study of a foreign language at an early age and to continue the study of this language until a significant level of proficiency has been achieved.

My legislation, a companion measure to Representative PAUL SIMON's bill, H.R. 2708, is intended to serve as a catalyst for a national effort to address our language shortcomings. Summer institutes would provide training for exceptional language instructors and hone the skills of outstanding high school students. Elementary and secondary schools, as well as junior and community colleges, would receive assistance to develop foreign language curricula. Colleges and universities with language requirements would receive supplemental Federal aid, which aid would be expanded for programs offering less commonly taught languages, such as Russian, Chinese, or Japanese. Finally, overseas study combining language programs with courses in international business, diplomacy, or journalism would be funded. Total allocations would be $50 million annually.

This legislation takes into account the complexity of our foreign language needs. Programs for elementary students will help youngsters grow up with a language and thus promote lifelong fluency in a foreign language. Programs for secondary and postsecondary students will help provide for the short- and medium-term needs of our Nation's diplomacy and international trade. Through funding curriculums for both exceptional and typical children, the benefits of foreign language study are spread equally. In sum, the measure provides multiple solutions to a chronic and complex situation.

I would note, finally, that this is not the first time this issue has come before the Senate. On November 5, 1981, I introduced the Foreign Language Assistance Act (S. 1817). At that time, I said that:

The state of foreign language skills in the United States is damaging to our national welfare. Moreover, to paraphrase the report of the President's Commission, this welfare depends on the intellectual and psychological strengths derived from perceptive visions of the world beyond our borders. We now contemplate increases in defense spending, yet we fail to invest in a more elemental form of security: The ability to communicate with and understand not only our adversaries, but also our allies throughout the world. Our foreign language capability makes us an anomaly among nations, and is sadly paradoxical in this ethnically rich and culturally diverse land.

I made these observations 21 months ago. Since then, the urgency of the situation has only increased.

The need, I think, is obvious. I urge my colleagues to join me in support of this measure to improve our Nation's foreign language skills.

Mr. President, I ask unanimous consent that the full text of my remarks and the bill be printed in the CONGRESSIONAL RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1795

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Act may be cited as "Foreign Language Assistance for National Security Act of 1983".

SEC. 2. The Congress finds that—

(1) the economic and security interests of this Nation require significant improvement in the quantity and quality of foreign language instruction offered in the Nation's educational institutions, and Federal funds should be made available to assist this purpose;

(2) many endeavors in both the public and private sectors involving such matters as international relations or multinational business transactions require the skills of individuals with knowledge of foreign language; and

(3) the educational institutions of the Nation should provide students with an understanding of the history and culture which influence the perspectives, values, and attitudes of the people of other countries, and foreign language instruction is one means of achieving this goal.

SEC. 3. (a) The Secretary shall make grants to State educational agencies whose applications are approved under subsection (b) in order that such agencies may fund model programs, designed and operated by local educational agencies, providing for commencement or improvement and expansion of foreign language study for students residing within their school districts. Any State whose application is approved shall receive an amount equal to the sum of (1) $50,000, plus (2) the product of $0.04 multiplied by the population of the State (as determined in accordance with the most recent decennial census). The amount described in the preceding sentence shall be made available to the State for two additional years after the first fiscal year during which the State received a grant under this section if the Secretary determines that the funds made available to the State during the first year of funding were used in the manner required under the State's approved application.

(b) Any State educational agency desiring to receive a grant under this section shall submit an application therefor to the Secretary at such time, in such form, and containing such information and assurances as the Secretary may require. No application may be approved by the Secretary unless the application—

(1) contains a description of model programs designed by local educational agencies, and representing a variety of alternative and innovative approaches to foreign language instruction, which were selected by the State educational agency for funding under this section;

(2) provides assurances that all children aged five through seventeen who reside within the school district of the local educational agency shall be eligible to participate in any model program funded under this section (without regard to whether such children attend schools operated by such agency),

(3) provides assurances that, if the application of the State educational agency is approved, each model program described in the application shall have available to it sufficient funds from State and local sources, in addition to any funds under this section, to ensure that the program is carried out as described in the application; and

(4) provides that the local educational agency will provide reliable and valid evaluations of pupils' proficiency at appropriate intervals in the program, and provide such evaluations to the State educational agency.

(c)(1) To the extent consistent with the number of children in the State or in the school district of each local educational agency who are enrolled in private elementary and secondary schools, such State or agency shall, after consultation with appropriate private school representatives, make provision for including special educational services and arrangements (such as dual enrollment, educational radio and television, and mobile educational services and equipment) in which such children can participate and which meet the requirements of this section. Expenditures for educational services and arrangements pursuant to this subsection for children in private schools shall be equal (taking into account the number of children to be served and the needs of such children) to expenditures for children enrolled in the public schools of the State or local educational agency.

(2) If by reason of any provision of law a State or local educational agency is prohibited from providing for the participation of children from private schools as required by paragraph (1), or if the Secretary determines that a State or local educational agency has substantially failed or is unwilling to provide for such participation on an equitable basis, the Secretary shall waive such requirements and shall arrange for the provision of services to such children which shall be subject to the requirements of this subsection. Such waivers shall be subject to consultation, withholding, notice, and judicial review requirements in accordance with section 557(b) (3) and (4) of the Education Consolidation and Improvement Act of 1981.

(d) If sums appropriated to carry out this section are not sufficient to permit the Secretary to pay in full the grants which State educational agencies may receive under subsection (a), the amount of such grants shall be ratably reduced.

SEC. 4. (a) The Secretary shall make grants to State agencies whose applications are approved under subsection (b) for the purpose of providing assistance to model programs designed and operated by community and junior colleges providing for the

commencement or improvement and expansion of foreign language studies at those institutions. Any State whose application is so approved shall receive an amount equal to the sum of (1) $30,000, plus (2) the product of $0.01 multiplied by the population of the State (as determined in accordance with the most recent decennial census).

(b) Any State desiring to receive a grant under this section shall, through a State agency designated (in accordance with State law) for this purpose, submit an application therefor to the Secretary at such time, in such form, and containing such information and assurances as the Secretary may require. No application may be approved by the Secretary unless the application—

(1) contains a description of model programs designed by community and junior colleges, and representing a variety of alternative and innovative approaches to foreign language instruction, which were selected by the State agency for funding under this section;

(2) provides assurances that, if the application of the State agency is approved, each model program described in the application shall have available to it sufficient funds from State and local sources, in addition to any funds under this section, to ensure that the problem is carried out as described in the application; and

(3) provides that the community and junior colleges will provide reliable and valid evaluations of pupils' proficiency at appropriate intervals in the program, and provide such evaluations to the State agency.

(c) If sums appropriated to carry out this section are not sufficient to permit the Secretary to pay in full the grants which State agencies may receive under subsection (a), the amount of such grants shall be ratably reduced.

SEC. 5. (a)(1) The Secretary shall make grants to institutions of higher education to reimburse such institutions for part of the costs of providing undergraduate foreign language instruction to students at such institutions. Any institution of higher education desiring to receive a grant under this section shall submit an application to the Secretary at such time, in such form, and containing such information and assurances as the Secretary may require.

(2)(A) An institution of higher education shall not be eligible for a grant under this section for a fiscal year unless—

(i) the sum of the number of students enrolled at such institution in qualified postsecondary language courses on October 1 of that fiscal year exceeds 5 per centum of the total number of students enrolled at such institution; and

(ii) such institution requires that such entering student have successfully completed at least two years of secondary school foreign language instruction or requires that each graduating student have earned two years of postsecondary credit in a foreign language (or have demonstrated equivalent competence in a foreign language).

(B) For purposes of subparagraph (A)(i), the total number of students enrolled in an institution shall be considered to be equal to the sum of (i) the number of full-time degree candidate students enrolled at the institution, and (ii) the number of part-time degree candidate students who are enrolled at the institution for an academic workload which is at least half the full-time academic workload, as determined by the institution in accordance with standards prescribed by the Secretary.

(3) As a condition for the award of any grant under this section, the Secretary may establish criteria for evaluating programs assisted with funds under this section and require an annual report which evaluates the progress and proficiency of students in such programs.

(b)(1) Any institution of higher education which submits an application under this section for a grant for any fiscal year, and which has sufficient undergraduate enrollment in postsecondary language courses and foreign language requirements as required under subsection (a)(2), shall be eligible to receive an amount equal to the sum of the following:

(A) To provide assistance for the costs of postsecondary foreign language instruction at the level of the first or second year of postsecondary study of a language, an amount equal to—

(i) $30, multiplied by

(ii) the remainder, if any, of—

(I) the number of students enrolled in a qualified postsecondary foreign language course at such level on October 1 of such fiscal year, minus

(II) the number of students equal to 5 per centum of the total number of students enrolled at such institution.

(B) To provide assistance for the costs of foreign language instruction above the level of the second year of postsecondary study of a language, an amount equal to—

(i) $40, multiplied by

(ii) the number of students enrolled in a qualified postsecondary foreign language course at such level on October 1 of such fiscal year.

(2) Any institution which is eligible to receive an amount under paragraph (1) shall be eligible to receive an additional amount equal to $40 multiplied by the number of students enrolled (at any level of instruction) in any foreign language instruction in languages determined by the Secretary to be less commonly taught.

(c) If sums appropriated to carry out this section are not sufficient to permit the Secretary to pay in full the grants which an institution of higher education may receive under subsection (b), the amount of such grants shall be ratably reduced.

SEC. 6. (a) The Secretary shall make grants to an institution of higher education (or a consortium of such institutions) in each Federal region whose application is approved under subsection (b) for the purposes of providing assistance to summer intensive language training institutes for exceptional secondary school students. Any institution or consortium whose application is so approved shall receive an amount equal to not more than $3,000 multiplied by the number of students, not to exceed one hundred and fifty, enrolled in such institute.

(b) Any institution of higher education or consortium of such institutions desiring to receive the grant for its region shall submit an application therefor to the Secretary at such time, in such form, and containing such information and assurances as the Secretary may require. No such application may be approved by the Secretary unless the application—

(1) contains a description of the proposed program of intensive instruction, which may include, but is not limited to, the languages described in section 8(b)(1);

(2) provides adequate assurance that students from any Federal region who wish to participate will be selected on the basis of aptitude in that language, as determined by appropriate testing and verified by their teachers, and of motivation;

(3) provides assurances that the institution of higher education will seek to enroll at least eighty qualified students in the institute; and

(4) provides assurances that the program of intensive instruction will be developed and operated in close cooperation with secondary school teachers and administrators.

(c) The Secretary shall encourage, to the extent possible, diversity in the languages taught in institutes during any summer with the United States.

(d) Awards under this section shall be made to institutes (or consortia) on the basis of excellence of the program proposed in the application, taking into consideration such elements as library resources, faculty achievement, and language learning facilities.

(e) Funds available to institutes under this section may be used to cover costs associated with enrollment in an institute, including tuition, fees, administration, and living expenses.

(f) If sums appropriated to carry out this section are not sufficient to permit the Secretary to pay in full the grants which institutions of higher education may receive under subsection (a), the amount of such grants shall be ratably reduced.

SEC. 7. (a) The Secretary shall make grants to an institution of higher education (or a consortium of such institutions) in each Federal region whose application is approved under subsection (b) for the purposes of providing assistance to summer language training institutes for the professional development of the proficiency of elementary and secondary school language teachers. Any institution or consortium whose application is so approved shall receive an amount equal to not more than $3,000 multiplied by the number of teachers, not to exceed three hundred, enrolled in such institute.

(b) Any institution of higher education or consortium of such institutions desiring to receive the grant for its region shall submit an application therefor to the Secretary at such time, in such form, and containing such information and assurances as the Secretary may require. No such application may be approved by the Secretary unless the application—

(1) contains a description of the proposed program of instruction;

(2) provides adequate assurance that teachers from any Federal region who wish to participate will be selected on the basis of recommendations from a principal or other supervisory official and a demonstrated commitment to the teaching of the language studied in the institute; and

(3) provides assurances that the institution of higher education will seek to enroll at least eighty qualified teachers in the institute.

(c) Awards under this section shall be made to institutes (or consortia) on the basis of excellence of the program proposed in the application, taking into consideration such elements as library resources, faculty achievement, and language learning facilities.

(d) Funds available to institutes under this section may be used to cover costs associated with enrollment in an institute, including tuition, fees, administration, and living expenses.

(e) If sums appropriated to carry out this section are not sufficient to permit the Secretary to pay in full the grants which institutions of higher education may receive

under subsection (a), the amount of such grants shall be ratably reduced.

SEC. 8. (a) The Secretary shall make grants to institutions of higher education, or to consortia of such institutions, whose application is approved under subsection (b) for the purposes of providing assistance to enable advanced foreign language students to develop their language skills and their knowledge of foreign cultures and societies through study abroad. Such study abroad may be combined with an internship in an international business enterprise. Any institution or consortium whose application is so approved shall be eligible to receive a grant in an amount not to exceed one-half the cost of providing such assistance.

(b) Any institution of higher education or consortium of such institutions desiring to receive a grant under this section shall submit an application therefor to the Secretary at such time, in such form, and containing such information and assurances as the Secretary may require. No such application may be approved by the Secretary unless the application—

(1) contains a description of the proposed program of study abroad in any of the following areas:

(A) Latin America, the Caribbean, and Puerto Rico for the study of Spanish, Portuguese, and other major languages of that region;

(B) the Middle East for the study of Arabic and other major languages of that region;

(C) Japan for the study of Japanese;

(D) the People's Republic of China or the Republic of China for the study of Chinese;

(E) the Republic of Korea for the study of Korean;

(F) the union of Soviet Socialist Republics for the study of Russian and other major languages of that region;

(G) Africa for the study of major languages of that region;

(H) South Asia for the study of Hindi and other major languages of that region;

(I) Eastern Europe for the study of major languages of that region; and

(J) Southeast Asia for the study of major languages of that region;

(2) provides adequate assurance that those who wish to participate will be selected on the basis of demonstrated proficiency in the language, as shown by testing comparable to that conducted by the Foreign Service Institute of the Department of State; and

(3) demonstrates that the program will provide the opportunity to combine language study with the study of journalism, international business, finance, economic development, science, engineering, political science, international studies, or other related areas and is open to students majoring in those areas if they can qualify under paragraph (2).

(c) Funds available to institutions under this section may be used to cover costs associated with the study abroad program, including tuition, fees, administration, and living expenses.

(d) If sums appropriated to carry out this section are not sufficient to permit the Secretary to pay in full the grants which institutions of higher education may receive under subsection (a), the amount of such grants shall be ratably reduced.

SEC. 9. No grants shall be made or contracts entered into under this Act except to such extent, or in such amounts, as may be provided in appropriation Acts.

SEC. 10. For purposes of this Act:

(1) The term "institution of higher education" means any institution of higher education, as defined under section 1201(a) of the Higher Education Act of 1965, which is located within a State, but does not include a community or junior college.

(2) The terms "community college" and "junior college" mean any institution of higher education, as defined under section 1201(a) of such Act, which is located within a State and which provides a two-year program for which awards an associate degree or which is acceptable for full credit toward a bachelor's degree.

(3) The terms "local educational agency" and "State educational agency" have the same meaning given such terms under section 198 of the Elementary and Secondary Education Act of 1965.

(4) The term "Secretary" means the Secretary of Education.

(5) The term "State" means any of the several States, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.

(6) The term "qualified postsecondary foreign language course" means a course of foreign language instruction which (A) is scheduled to meet at least five days each week for at least fifty minutes each day, or (B) provides instruction each week for a period of time equivalent to the period described under clause (A).

SEC. 11. There are authorized to be appropriated for each of the fiscal years 1984, 1985, and 1986—

(1) $10,000,000 to carry out section 3 of this Act;

(2) $4,000,000 to carry out section 4 of this Act;

(3) $11,000,000 to carry out section 5 of this Act;

(4) $5,000,000 to carry out section 6 of this Act;

(5) $10,000,000 to carry out section 7 of this Act; and

(6) $10,000,000 to carry out section 8 of this Act.

By Mr. GORTON (for himself, Mr. ANDREWS, and Mr. RUDMAN):

S. 1796. A bill relating to equality of rights under law regardless of sex; to the Committee on the Judiciary.

EQUALITY OF RIGHTS UNDER LAW

Mr. GORTON. Madam President, I reintroduce today, for myself and Senators ANDREWS and RUDMAN, a bill designed to guarantee equality of rights under law to all persons, regardless of sex. This bill is a slightly modified version of what was Senate bill 2851 in the 97th Congress.

Madam President, as the Senate and the House move toward consideration of the equal rights amendment, I urge my colleagues to consider the prospect of affording the protection of the equal rights amendment during the ratification process through the vehicle of a bill such as this bill. It is not intended to be a substitute for the equal rights amendment. Rather, it is my intent that is serve as a bridge in the process; not only a bridge to provide the much needed substantive rights contained within it but an educational bridge as well.

Madam President, there are some people, who share in my hope for and support of the equal rights amendment, who fear that a statute such as this will undermine its passage and ratification effort. I do not share that fear. In fact, I believe a passage of this bill would enhance the ratification effort. To date, the biggest obstacle to ratification has been the fear that grows from ignorance about what the amendment will do. A statutory enactment of the substance of the amendment will educate all our citizens, and that fear will fade.

The embodiment in an amendment of the substance of an existing statute is not without precedent, Madam President. Section 1 of the 14th amendment was taken directly from the Civil Rights Act of 1866. That act became effective on April 9, 1866. During the debate on the 14th amendment in the House of Representatives which took place between May 10 to May 12, 1866, one of the strong supporters of the proposed 14th amendment, Representative James Garfield of Ohio, reponded to the query of Representative William Finck of Ohio regarding the need for an amendment on the same subject as the recently passed Civil Rights Act in the following way:

". . . [w]e propose to lift that great and good law above the reach of political strife, beyond the reach of the plots and machinations of any party, and fix it in the serene sky, in the eternal firmament of the Constitution, where no storm of passion can shake it and no cloud can obscure it. . . ."

And so it must be with the concept of equality of rights under law without regard to sex. We must lift that principle above the reach of political strife in the eternal firmament of the Constitution. But in our quest to do so, we must not lose sight of our underlying purpose. We must do all we can to aid those who now suffer the burdens of discriminatory treatment.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1796

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

PURPOSE AND FINDINGS

SECTION 1. (a) Congress finds and declares that—

(1) classifications based on sex have often resulted in individuals being relegated to an inferior legal status without regard to individual capability, worth or need; and

(2) classifications based on sex which are not necessary to achieve a compelling governmental interest tend to perpetuate the effects of past sex discrimination; and

(3) classifications based on sex are inherently invidious and suspect.

(b) In light of the findings contained in this section and in order to secure the equal protection of the laws for all persons regardless of sex, Congress, pursuant to the necessary and proper clause of article I of

the Constitution of the United States, and pursuant to section 5 of the fourteenth amendment to the Constitution of the United States, enacts this Act.

CLASSIFICATION BASED ON SEX

SEC. 2. (a) Each person has the right to be free from any classification based on sex and made by the United States unless such classification is necessary to achieve a compelling interest of the United States.

(b) No State shall make a classification based on sex unless such classification is necessary to achieve a compelling interest of the State.

(c) Every person who, under color of any Federal or State law, subjects, or causes to be subjected, any citizen of the United States or any other person within the jurisdiction thereof to a classification based on sex which is not necessary to achieve a compelling governmental interest shall be liable to the person injured in an action at law, suit in equity, or other proper proceedings for redress.

RELIEF

SEC. 3. (a) Any person aggrieved by a violation of this Act may bring a civil action in the appropriate district court of the United States for such legal and equitable relief as may be appropriate: *Provided*, That, no cause of action for damages may arise under this Act until one year after the date of enactment of this Act.

(b) The Attorney General may bring an action for declaratory or injunctive relief in any case in which the Attorney General determines that the rights of persons aggrieved under this Act will be served by bringing such action.

DEFINITIONS

SEC. 4. (a) The term "State" as used in this Act includes each of the several States, any Commonwealth or territory of the United States, and any political subdivision thereof.

(b) The term "law" as used in this Act includes any statute, ordinance, rule, regulation or the administration thereof, or any custom or usage.

(c) The term "classification based on sex" as used in this Act includes any de jure, gender-based classification including any classification based on pregnancy, childbirth, or related medical conditions and any law of the United States or of any State which has a disparate impact on individuals of different gender who are otherwise similarly situated.

APPLICATION

SEC. 5. (a) If any provisions of this Act or the application of this Act to any person or circumstance is judicially determined to be invalid, the remainder of the Act or the application of such provision to other persons or circumstances shall not be affected by such determination.

(b) This Act shall supersede any inconsistent provision of Federal law.

By Mr. DECONCINI:

S. 1798. A bill to require the executive agencies of the Federal Government to identify all appropriate costs of operating, maintaining, leasing, and acquiring motor vehicles; to require all executive agencies to study the cost benefits of the use of outside private sector fleet management contractors as an alternative to the Interagency Motor Pool System and other existing systems, to require certain cost saving measures in current motor vehicle operations, to reduce the total amount spent for non-tactical, non-law-enforcement-motor vehicle operation, maintenance, leasing, acquisition, and disposal by $100,000,000 in fiscal year 1985, and for other purposes; to the Committee on Governmental Affairs.

FEDERAL MOTOR VEHICLE EXPENDITURE CONTROL ACT

Mr. DECONCINI. Mr. President, today I am introducing the Federal Motor Vehicle Expenditure Control Act of 1983, legislation that hopefully will lock into place some significant cost savings in fiscal year 1985 and subsequent years in the operation and maintenance of the Federal motor vehicle fleet.

Mr. President, the bill I am introducing today is similar to the one I introduced on July 27, 1982, almost 1 year ago to the day. Let me briefly tell my colleagues why I believe this legislation is absolutely essential if we are going to get serious about bringing down the cost of operating and maintaining our Federal motor vehicle fleet.

Back on April 7, 1981, I requested the General Services Administration and the General Accounting Office to collaborate on a study of the Federal motor vehicle fleet and its cost to the taxpayers. According to the March 1982 final report of the study team, the cost to own, operate, and maintain the Federal motor vehicle fleet is in excess of $1.1 billion a year—an increase of $959 million or 680 percent since 1954 and a jump of $724 million or 192 percent in just the last 10 years. To add insult to injury, the GSA study team found that the actual cost of Federal motor vehicle operations could be even higher than the $1.1 billion since some agencies apparently do not even identify all fleet operations costs. In fact, GSA's latest "Federal Motor Vehicle Fleet Report" indicates that in fiscal year 1982, the total cost of operating the Federal fleet had reached nearly $1,270,000,000.

Mr. President, the study also confirmed my suspicions that the number of nontactical motor vehicles used by Uncle Sam is excessive and must be pared back sharply. In 1980, for example, the number of federally owned vehicles had reached a staggering 445,000—almost double the number of federally owned vehicles in 1954. What makes this increase all the more astounding is that the Defense Department, our largest owner of motor vehicles, has actually reduced its fleet by 48,000 over the past decade. GSA's latest "Federal Fleet Report" shows, fortunately, that the total number of Federal motor vehicles has actually dropped slightly since the end of fiscal year 1980, with most of the drop coming in the U.S. Postal Service. But we still have a long way to go.

Mr. President, my legislation takes a number of essential "first steps" in bringing the size, cost, and management of the Federal motor vehicle fleet under control. I would hope that as the President embarks on his new attack on waste, fraud, and abuse entitled "Reform, 1988", he will lend his support to this bill—a bill that calls for, among other things, $100,000,000 in actual cost savings in fiscal year 1985. Specifically, here is what my legislation would do;

First. Instructs the Director of the Office of Management and Budget to direct each agency head to establish a central monitoring system for the oversight of agency motor vehicle operations and related activities.

Second. Instructs the Director of OMB to require each agency head to develop a system to identify, collect, and analyze data with respect to all costs incurred by the agency in operating motor vehicles, including Government-owned vehicles, leased vehicles, and privately owned vehicles used for official purposes, and to promulgate standards for the agencies to follow in establishing and identifying the costs associated with the Federal fleet.

Third. Directs the heads of all executive branch agencies to tell the Congress in their annual budget justifications the amounts spent or requested for motor vehicle acquisition, maintenance, leasing and operations and to justify why the existing and new motor vehicle operations requirements of the agency cannot be met by using the GSA motor pool system, or by using an outside private sector fleet management firm.

Fourth. Directs the President to report to the Congress a compilation of the agency reports on their motor vehicle operating costs.

Fifth. Directs each executive agency with motor vehicle fleets of at least 450 vehicles to conduct a detailed cost-benefit study of the feasibility of and possible cost savings to be realized by using a qualified private sector fleet management firm to handle the operation and maintenance of their respective motor vehicle fleets, as a possible alternative to the current use of the interagency motor pool at GSA.

Sixth. Directs the Director of OMB to require the head of each agency to identify opportunities for consolidating intra-agency motor vehicle facilities where shown to be cost effective, and to report to OMB on any possible impediments to such consolidations.

Seventh. Instructs the OMB Director, in cooperation with GSA, to require each agency to identify opportunities for consolidation of motor vehicle administration and maintenance between executive agencies of the Government where shown to be cost effective.

Eighth. Directs the head of GSA to take steps necessary to reduce motor vehicle storage and disposal costs and to improve the rate of return on motor vehicle sales through better reconditioning of vehicles on sale.

Ninth. Reduces the cost of operating and maintaining the Federal motor vehicle fleet governmentwide by $100 million in fiscal 1985.

Tenth. Directs OMB, GSA, and GAO to make various reports to the Congress on the implementation of the provisions and directives made in this legislation.

Mr. President, the time has come for Uncle Sam to take a top-to-bottom look at its billion-dollar motor vehicle program. But improving the management and reducing the cost of the Federal motor vehicle fleet is not going to happen overnight. It is not going to grab any headlines nor will it ever compete with taxes, the defense budget, El Salvador, or social security in dominating the time, attention, and energy of the Congress over the next few years. Improving this important general Government activity is mundane and will take a lot of hard work. But a systematic effort by OMB, GSA, the private sector, and the Congress to reduce the cost of the operation and maintenance of the Federal fleet has the potential to save hundreds of millions of tax dollars through better management and closer scrutiny by both the executive and legislative branches. Hopefully, this legislation will force OMB, the executive agencies, and—yes, the Congress, to roll up their sleeves and get this important job done.

Mr. President, in closing, I believe that this legislation presents the administration with a golden opportunity to kick off "Reform, 1988" and save the taxpayers a bundle of money. I applaud the President's waste, fraud, and abuse initiatives and look forward to working with him in making Government more efficient and less costly to the American taxpayer.

Mr. President, I urge my colleagues to support this legislation and to enact it as soon as possible. I ask unanimous consent that the text of the bill be included in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1798

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) the Director of the Office of Management and Budget shall direct the head of each executive agency to designate one office, officer, or employee of the agency to establish and operate a central monitoring system for the oversight of agency motor vehicle operations and related activities.

(b)(1) The Director shall require the head of each executive agency to develop a system to identify, collect, and analyze data with respect to all costs incurred by the agency in operating, maintaining, acquiring, and disposing of motor vehicles, including government-owned vehicles, leased vehicles, and privately owned vehicles used for official purposes. The Director shall promulgate standards governing the establishment and operation by executive agencies of the system required by the preceding sentence, including standards with respect to the uniform collection and submission of data.

(2) The head of each executive agency shall include with the requests for fiscal year 1985 and all subsequent fiscal years submitted under section 215 of the Budget and Accounting Act, 1921 (31 U.S.C. 23) a statement—

(A) specifying the total motor vehicle acquisition, maintenance, leasing, operating, and disposal costs incurred by such agency in such fiscal years and the previous two fiscal years, using the data standards promulgated under section (b)(1) above; and

(B) describing why the existing and any new motor vehicle acquisition, maintenance, leasing, operating or disposal requirements of the agency cannot be met through the Interagency Motor Pool System operated by the Adminstrator of General Services; or

(C) describing how the existing and any new motor vehicle acquisition, maintenance, leasing, operating, or disposal requirements of the agency could be met through a qualified fleet management firm or other contractor in the private sector.

(3) The President shall include with the Budget transmitted for fiscal year 1985 pursuant to section 201 of the Budget and Accounting Act, 1921 (31 U.S.C. 11), or in a separate written report to the Congress, a summary and analysis of the statements submitted by the heads of executive agencies pursuant to paragraph (2) above. Such summary and analysis should include, but not be restricted to, a review of the potential cost savings that could be achieved through the use of an outside fleet management firm or other private sector contractor as opposed to the use of the Interagency Motor Pool System operated by the Administrator of General Services, or other existing motor vehicle management systems.

(4) The head of each executive agency shall conduct a comprehensive, detailed cost benefit study of the feasibility of contracting with a qualified fleet management firm or other private sector contractor to meet its motor vehicle operation, maintenance, leasing, acquisition, and disposal requirements, as a possible alternative to their current motor vehicle operations and/or the use of the Interagency Motor Pool System operated by the Administrator of General Services. Such studies shall be submitted concurrently to the Director of the Office of Management and Budget and the Comptroller General of the United States, by no later than six (6) months from the date of enactment of this Act. The Comptroller General of the United States shall submit an analysis of these studies to the Congress by no later than one (1) year from the date of enactment of this Act.

(c)(1) The Director shall require the head of each executive agency to review motor pool, storage, maintenance, and other intra-agency motor vehicle facilities of the agency, to consolidate such facilities where feasible and cost-effective, and to submit to the Director a report identifying possible impediments to such consolidation, such as current accounting methods, budget processes, or organizational structures.

(2) The Director, in consultation with the Administrator, shall require the head of each executive agency to identify opportunities for consolidation among executive agencies of motor vehicle administration and maintenance facilities in order to reduce the cost of Government motor vehicle operations. The Director shall direct the heads of executive agencies to consolidate such facilities for interagency use whenever the Director and the Administrator determine that such consolidation will be cost-effective.

(d) The Administrator shall take such actions as may be necessary to reduce motor vehicle storage and disposal costs, including actions to increase the frequency of motor vehicle sales by public auction, to reduce presale storage costs, and to improve the rate of return on motor vehicle sales through a program of vehicle reconditioning prior to sale and other activities.

(e) Of the total amount of budget authority provided for fiscal year 1985 that would otherwise be available for the operation, maintenance, leasing, and acquisition of non-tactical, non-law enforcement motor vehicles, $100,000,000 of the amount intended for such purposes in the President's budget for fiscal year 1985, as amended, for any executive agency, department, or entity subject to apportionment by the Executive shall be placed in reserve and not made available for obligation or expenditure. The Director of the Office of Management and Budget shall report to the Committees on Appropriations of the House of Representatives and the Senate, the Committee on Governmental Affairs of the Senate, and the Committee on Government Operations of the House of Representatives not later than three (3) months from the date of enactment of this Act, with respect to the implementation of this subsection.

(f) The Director and the Administrator of General Services shall closely cooperate in the implementation of the provisions of this Act, and shall report to the Congress not later than six (6) months from the date of enactment of this Act on the progress made in carrying out subsections (a) through (d) of this section.

(g) Not later than eighteen (18) months from the date of enactment of this Act, the Comptroller General of the United States shall prepare and transmit a report to the Congress on the activities of the Director, the Administrator, and executive agencies in carrying out this Act. After transmitting the report required by the preceding sentence, the Comptroller General shall make periodic reports to the Congress on the activities referred to in such sentence.

(h) For purposes of this Act—

(1) the term "executive agency" means an executive agency (as such term is defined in section 105 of title 5, United States Code), which operates at least four hundred and fifty (450) motor vehicles, except that such term does not include the Postal Service, the Postal Rate Commission, and the General Accounting Office;

(2) the term "Director" means the Director of the Office of Management and Budget;

(3) the term "Administrator" means the Administrator of General Services; and

(4) the term "Comptroller General" means the Comptroller General of the United States.

(i) This Act shall be cited as the "Federal Motor Vehicle Expenditure Control Act of 1983."

By Mr. NUNN (for himself and Mr. HUDDLESTON):

S. 1799. A bill to provide financial assistance to States for training for unemployed individuals, especially long-term unemployed individuals and dislocated workers, and for other purposes; to the Committee on Labor and Human Resources.

S. 1800. A bill to amend the Internal Revenue Code of 1954 to provide tax-exempt accounts for job training, and for other purposes; to the Committee on Finance.

S. 1801. A bill to amend the Internal Revenue Code of 1954 to allow a credit for employee training expenses; to the Committee on Finance.

JOB TRAINING LEGISLATION

Mr. NUNN. Mr. President, today I am introducing a series of bills designed to deal with the growing problem of long-term structural unemployment in this country. As I have stated before, even if we are fortunate enough to experience a sustained recovery over a period of years, there are factors at work that will, unless dealt with, maintain unemployment at painfully high levels. These factors are principally the acute and growing shortages of skilled labor, and the permanent displacement of labor in industries that are increasingly resorting to automation in their production processes.

According to the Department of Labor, throughout this decade we can expect an annual shortage of 57,000 positions in industrial machinery repair; 28,000 computer operators; 21,300 machinists; 30,000 computer systems analysts and technicians; 5,000 tool and diemakers; and 19,000 licensed nurses. By 1990, the Labor Department projects a cumulative skilled labor shortage of 2.5 million workers in just 13 occupations. Further, it is important to note that the skilled labor shortage may also impair our efforts to maintain or improve our national defense capabilities. The Pentagon has expressed concerns about whether the labor market will be able to supply the skilled labor needed for our ongoing defense efforts. In the preliminary findings of a congressionally mandated defense manpower study undertaken at my request last year, it appears that potential shortages may occur in 32 skilled occupations, including drafters, electrical and electronic technicians, mechanical engineering technicians, computer programers, and systems analysts.

At the same time, the changing structure of American industry is resulting in the permanent loss of jobs in many mature industries. According to the Congressional Budget Office, roughly 25 percent of those currently unemployed will not be able to continue working in the same job because those jobs are disappearing. According to researchers at the Robotics Institute at Carnegie-Mellon University, the present generation of robots now in use could, by 1990, replace about 1 million of the 9 million manufacturing workers currently employed in welding, painting, and operating machine tools. In addition, they found that another 3 million inspectors, packagers, assemblers, grinders, and electroplaters may be displaced by a new generation of robots that will be able to "see" and "feel."

In 1981 alone, the number of industrial robots increased by 30 percent, and the researchers at Carnegie-Mellon predict at least a tenfold increase in robot purchases by 1990. General Motors expects to increase its robot force from 1,400 to 14,000 over that same timeframe. To make matters worse, up to three-fourths of the workers most vulnerable to displacement were less than 45 years old in 1980. In short, we face a present and future labor displacement problem of massive proportions which will affect thousands of individuals during their prime working years.

Mr. President, in my opinion, to adequately address both the skilled labor shortage and labor displacement problems will require a long-term and significant Federal commitment, beginning now, to target our policies and to invest more heavily in programs that will improve the quality of our Nation's most precious resource—its people. This Federal commitment should be on a scale comparable to that Congress provided through the National Defense Education Act, enacted in the aftermath of Sputnik. This commitment must translate into policies that place a high premium on promoting marketable labor skills development through programs that can be implemented quickly, that are simple to administer, and that do not require the creation of resource-draining bureaucracies.

More specifically, this amendment must produce mechanisms that provide incentives for State governments to more actively seek-out those long-term unemployed in need of training or retraining, and to then enroll those individuals in job training programs at the earliest stages of their unemployment. At the same time we are making this commitment of Federal resources, it should be recognized that the scope of the labor market problems we face can only be handled by the massive job-creating capacities of the private sector. As such, any policy measures intended to address the problems of inadequate and obsolete labor skills must keep the private sector's needs in the forefront.

Mr. President, the package of legislation I am introducing today will, when enacted, provide the incentives needed to carry out the Federal leadership commitment I believe is necessary to get at the roots of the problem of growing structural unemployment. The package consists of three major proposals: first, establish a job training grants system designed to provide states with incentives and funds to encourage and facilitate getting the long-term unemployed that are collecting unemployment insurance to enroll in job training programs at the earliest possible stage of their unemployment; second, provide employers and employees with the option of establishing "individual training accounts" which would be available to workers to obtain any necessary training or retraining; and third, provide businesses a 25-percent tax credit to be applied against training expenditures above a firm's 3-year average training costs.

The primary objective of the training grants legislation is to establish incentives to encourage the States to develop programs specifically designed to place identified long-term unemployed individuals that are collecting unemployment insurance, in State-approved job training programs at the earliest possible stage of their unemployment. To my knowledge, there are no incentives currently in place that encourage hard-to-employ individuals that are drawing unemployment compensation to simultaneously enroll in training programs that will enhance their marketability in the labor force. The majority of long-term unemployed individuals are lacking in marketable jobs skills, and as a practical matter, unless these people receive training to develop needed skills, there is little chance they will ever obtain permanent and productive private sector work.

Under Federal law, no State may deny unemployment benefits to individuals who are enrolled in job training programs with State approval. However, unless the unemployed are actually enrolled in training programs with State approval, State law requirements relating to "availability for work", "active search for work", or "refusal to accept work" create a direct and powerful disincentive for the majority of unemployed people to enroll in job training programs, since they would forfeit their eligibility for unemployment compensation by doing so.

In fact, a very small proportion of those collecting unemployment benefits are actually enrolled in training programs. For example, according to the U.S. Department of Labor, of the 7 million unemployment insurance claimants nationwide registered with the Employment Service at any given time during fiscal year 1982, only 17,680, or one-quarter of 1 percent, were enrolled in training programs while collecting benefits. In Georgia, of the 190,000 unemployment insurance claimants registered with the Employment Service in fiscal year

1982, only 870, or less than one-half of 1 percent, were simultaneously enrolled in training. In Massachusetts, only 38 of the 148,022 insured unemployed registered with the Employment Service participated in job training, and in California only 1,140 of the average 546,140 insured unemployed were enrolled in training programs. So, it is clear that we as a Nation are failing miserably in doing anything significant to help the long-term unemployed develop new skills to improve their own chances of rejoining the active labor force.

While the States have been at the vanguard in promoting innovative job training programs, the scarcity of job training funds has limited the States' abilities to promote participation among the long-term unemployed in existing job training programs on a wide scale. At the same time, State employment agency personnel have little incentive to place unemployed individuals in job training programs, since their principal responsibility is successful job placements. Similarly, the main responsibility of the State unemployment insurance agencies is to disburse unemployment checks to qualified individuals, not to advise claimants on job training opportunities. As a direct consequence, and not surprisingly, no one is charged with the mandate, let alone the responsibility, to promote job training, and the number of unemployed people enrolled in training with State approval is tragically small.

The job training grants program proposed in the first bill will help reverse this state of affairs. Under my proposal, the Secretary of Labor, in coordination with the Secretary of Education, would be required to establish a grant program to help State governments finance the enrollment of the long-term unemployed in State-approved job training programs. Program participants would remain eligible to collect unemployment insurance benefits while in training, since individuals enrolled in these training programs would be in training with the approval of the State. Further, program participants who have exhausted their unemployment benefits, or who would exhaust them prior to completion of training, would be eligible to receive training payments for the duration of their training, subject to an overall time limit of collecting both unemployment compensation and training payments. The training payments would equal the dollar amount that would have been provided to that individual if they were to continue their eligibility under the State's unemployment insurance system, would be administered directly by the State UI agencies, and would be funded from Federal general revenues.

To be eligible for a grant under this bill, a State must adopt a plan acceptable to the Secretary of Labor demonstrating that the State:

Has established or will establish collaborative mechanisms to develop, monitor and, where appropriate, conduct the programs described in paragraphs (B) and (C) below. These collaborative mechanisms should at least involve private sector representatives, including business and labor, and the following State and local authorities: First, unemployment insurance agency; second, employment service; third, vocational/technical education systems; and fourth, economic development authorities.

Is designing or has designed training programs so that hard-to-employ and dislocated workers are enrolled in job training programs in the earliest possible stages of their initial eligibility to collect unemployment compensation under the State's existing UI program;

Is directly supporting or will directly support the design and implementation of special programs for the retraining of hard-to-employ and dislocated workers in identified skills-shortage areas;

Will not require the creation of new State agencies or bureaucracies.

Mr. President, let me emphasize that the fundamental premise of this training grants proposal is that it makes no sense to permit people who we know are unlikely to find jobs unless trained, to collect unemployment benefits for up to 65 weeks, and in the interim, do nothing to improve their chances of finding work by the time their unemployment benefits are exhausted. Yet this is exactly what we have permitted to happen. My proposals, particularly this grant program, is an effort to reverse the poor record of simultaneously training those who are collecting unemployment. In light of the limited existing participation in training by the long-term unemployed, I believe this proposal also introduced a degree of coordination to the current disjointed Federal and State efforts in dealing with structural unemployment.

By allowing a greater number of unemployed people to collect unemployment benefits and/or federally supported training payments while in training, my proposal encourages hard-to-employ people to develop skills that will permit them to obtain productive private sector jobs. Moreover, since the proposal makes it possible for a greater number of the unemployed to use their out-of-work time productively, and decreases the likelihood that they will return to the unemployment lines, it represents a much wiser use of taxpayer's money. In addition, since the training grants proposal would use existing State agencies and delivery systems, the creation of costly bureaucracies is avoided, and the program can be implemented very quickly.

As important for what this bill does, the program does not tamper with the Federal unemployment insurance system in any way. Training payments for job trainees who have exhausted all unemployment benefits would be funded out of Federal general revenues. As a result, providing subsistence funds for trainees would not drain the UI trust funds. At the same time, the program encourages a greater degree of cooperation among the State and local authorities and the private sector. In short, the training grants proposal represents a needed reorientation in our national priorities concerning investment in human capital, and by focusing on skills development, helps get to the root of the problem of growing structural unemployment.

Mr. President, the second bill in this legislative package builds on a concept developed by Mr. Pat Choate, senior policy analyst at TRW. It encourages the establishment of savings accounts to help workers finance the cost of needed retraining. As the structure of American industry continues to change, and the permanent displacement of labor grows in magnitude, the need for self-financing sources of training funds will also grow in importance. For example, heavy manufacturing industries, faced with rising labor costs, declining productivity, and stiff import competition, are permanently reducing the size of their labor forces and increasing the pace of investments in automation and technology. This process is just beginning and will likely continue through the remainder of the century. As a consequence, we face a tremendous labor displacement problem, with the majority of the displaced workers still in their prime working years. These displaced workers will have to receive training in skills that are, and will be, in demand by business in the future. The costs associated with these increased training needs will be enormous, and it is unrealistic to expect the Federal Government to finance all or even a significant portion of those training costs in light of the Federal budgetary situation.

To help finance these training and retraining costs, I propose allowing employers and employees to establish tax-deductible training accounts. Employers and employees would be allowed to jointly contribute up to $6,000 into these individual training accounts (ITA's), with the amounts contributed by each to be mutually agreed upon between the employer and employee. Under the proposal, contributions made by both parties into ITA's would be tax deductible, up to $1,000 per year, per party. Employees could use the accumulated ITA contributions to obtain retraining, and if necessary, to cover relocation and job-search expenses. The choice of the

training, and the provider, would be left up to the worker, and, as with the GI bill, the Federal Government would certify training establishments.

If the training account is not used by the time an employee retires, the money would revert, with the accumulated interest, to the employer and employee in proportion to their respective contribution. If the employee voluntarily leaves, the respective contributions into the ITA would be refunded to the employer and the employee. The employee could roll over his/her portion of the ITA contributions into a new ITA; if the employee does not roll over his/her portion into a new ITA, the funds would be treated as income to the employee, however.

Mr. President, in my view, the concept of allowing employers and employees to establish training accounts makes a great deal of sense, particularly in this era of changing industrial structure and scarce Federal funds. It is to our advantage individually, and as a society, to prepare ourselves for this change and dislocation, just as we should take it upon ourselves to prepare for our retirement years. By encouraging the establishment of individual training accounts, we could significantly ease this very difficult transition for millions of American workers involuntarily dislocated from their present jobs.

In addition to being self-financing, simple to understand and easy to administer, the financial burden of the ITA's on the employer and employee is limited, and if not used for training purposes, the funds could supplement the worker's retirement savings or estate. Further, the proposal has the added advantage of providing a high degree of flexibiilty. The certification process provides greater assurances of quality training, and since the worker would have an equity interest in the ITA, the funds would probably be spent more wisely. Moreover, widespread use of ITA's would further encourage savings that will aid the capital markets. Similarly, the strains on State unemployment insurance trust funds could be minimized because displaced workers with ITA's will be more financially able to enroll themselves in training programs of their own choosing to assist them in more quickly reentering the labor force. In anticipation of the changes that will be taking place in the U.S. labor market, encouraging the establishment of individual training accounts would be a prudent policy step.

The third bill in this series would provide businesses with an additional incentive to continually upgrade the skills level of their employees. Over the last 15 years, the U.S. economy has experienced a steady deterioration in its productivity growth. While disincentives to capital formation and investment have contributed to this decline in productivity, insufficient investment in our human capital is equally at the root of our poor productivity performance. Although the private sector spends over $30 billion a year on training, the speed with which the structure of the economy is changing will create training demands that will far exceed the private sector's current training activities. Consequently, many feel that incentives must be established that are specifically designed to encourage employers to provide training for upgrading labor's skills and/or obtaining new skills. To provide such an incentive, I am proposing that businesses be allowed to take a 25-percent tax credit, to be applied against training expenditures incurred above the previous 3-year average. This training tax credit would be the counterpart of the existing 25-percent tax credit for research and development spending that was enacted in the Economic Recovery Tax Act of 1981. The 25-percent training tax credit would be in addition to any other deduction allowed the taxpayer.

In my view, labor training expenses incurred by businesses should receive the same treatment as the Tax Code affords capital outlays on plant and equipment, research and development spending or accelerated depreciation. By allowing a training tax credit, business spending on labor training will be placed on the same basis as outlays on plant and equipment, and on R&D spending. Further, by providing for favorable tax treatment of training expenditures, the training credit institutionalizes the need to continually upgrade the quality of the American labor force. It should also be noted that since the training would be provided by and within the private sector, there would be greater assurance that the training received is immediately and productively used. In sum, with the strong likehood that structural unemployment will remain high throughout the decade, it makes sense to establish a tax incentive designed to encourage investments in the quality of our human capital, and help insure that the American work force can meet the Nation's changing industrial and national security needs.

As I indicated earlier, Mr. President, the bulk of the hiring necessary to significantly and permanently address this Nation's unemployment problem must be done in the private sector. Further, the greatest opportunity for significant private sector employment growth is in the small business community. I have already introduced bills that would increase the program levels for three highly successful programs at the Small Business Administration, including the "503" Certified Development Company program (S. 742); the Small Business Investment Company (SBIC) program (S. 743); and the Minority Enterprise SBIC (MESBIC) program (S. 744). These programs, through a partnership with the private venture capital sector, provide an additional source of needed capital for small business to assist them in their growth and development. Hearings have already been held in the Senate Small Business Committee on these bills, and they have been combined into an authorization bill favorably reported by the Small Business Committee (S. 1323). This bill is awaiting action by the Senate. Similar legislation has been introduced in the House, as well. These three proposals relating to increasing the opportunities for expanding the job creation potential in the small business sector, form an additional and important element of my total job training package.

While I have been working with the education, tax, labor, and small business communities in the development of these proposals, some of the ideas may need to be further refined. I would welcome constructive comments on the principles of this approach, and on the specifics of the three bills, from those who have an interest in, or a responsibility for, hiring and training.

Mr. President, Congress has already addressed a portion of the need for Federal assistance in job training through the enactment last year of the Job Training Partnership Act (JTPA), and I supported that bill. But as we pursue efforts to improve the viability of the American work force, I feel it is critically important to recognize the dilemma we face as a Nation. The task of successfully upgrading labor's skills will require an enormous Federal financial commitment at a time when we are incurring huge Federal budget deficits. Until those deficits are eliminated, we will not be able to commit the resources which I believe are necessary to adequately address the structural problems that exist today in the labor market. By the same token, however, we cannot afford to postpone any longer the beginning steps of coordinating the resources we are already commiting to job training.

The legislation I am introducing today with Senator HUDDLESTON will build on the work we have begun in this critical area by presenting a coordinated package of job training proposals that will maximize the efficient use of limited Federal resources, and increase the likelihood that those who receive training will be better able to perform the jobs of today, and be in a position to compete for the jobs of tomorrow.

Mr. President, I ask unanimous consent that fact sheets on these bills, as well as the text of the legislation, be printed in the RECORD following my remarks.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

FACT SHEET ON JOB TRAINING GRANT PROPOSAL

THE PROBLEM

Currently, there are no incentives in place that encourage hard-to-employ individuals that are drawing unemployment compensation, to simultaneously enroll in training programs that enhance their marketability in the labor market. In 1982, 34% of the unemployed were out of work for over 15 weeks, and the majority of these long-term unemployed individuals are lacking in marketable jobs skills. As a practical matter, unless these people receive training to help them develop needed jobs skills, there is little chance that they will ever obtain permanent and productive private sector work.

Under Federal law, no state may deny unemployment benefits to individuals enrolled in job training programs with state approval. However, unless the unemployed are enrolled in training programs with state approval, state law requirements relating to "availability for work", "active search for work", or "refusal to accept work", create a direct and powerful disincentive for the majority of unemployed people to enroll in job training programs, since they would forfeit their eligibility for unemployment compensation by doing so.

In fact, a very small proportion of those collecting unemployment benefits are enrolled in training programs. For example, according to the U.S. Department of Labor, of the 7 million unemployment insurance claimants across the country registered with the Employment Service at any given time during FY 1982, only 17,680, or one quarter of one percent, were enrolled in training programs while collecting benefits. In Georgia, of the 190,000 unemployment insurance claimants registered with the Employment Service in FY 1982, only 870, or less than one half of one percent, were simultaneously enrolled in training. In Massachusetts, only 38 of the 148,022 insured unemployed registered with the Employment Service participated in job training, and in California only 1,140 of the 546,140 insured unemployed were enrolled in training programs. So, it is clear that we are failing to offer any significant help to the unemployed to improve their chances of rejoining the active labor force through retraining.

While the states have been at the vanguard in promoting innovative job training programs, the scarcity of job training funds has limited the states' abilities to promote participation among the long-term unemployed in existing job training programs on wide scale. At the same time, state employment agency personnel have little incentive to place unemployed individuals in job training programs, since their principal responsibility is successful job placements. Similarly, the main responsibility of the state unemployment insurance agencies is to disburse unemployment checks to qualified individuals, not to advise claimants on job training opportunities. As a consequence, the number of unemployed people enrolled in training with state approval is minuscule.

SUMMARY OF THE PROPOSAL

The proposal will provide an incentive to establish mechanisms to develop programs specifically designed to place identified long-term unemployed individuals in *state-approved job training programs at the earliest possible stage of their unemployment.* Under the bill, the Secretary of Labor, in coordination with the Secretary of Education, would be required to establish a grant program to help state governments finance the enrollment of the long-term unemployed in state-approved job training programs. Program participants would remain eligible to collect unemployment insurance benefits while in training, since individuals enrolled in these training programs would be "in training with state approval." In addition, program participants who have exhausted their unemployment benefits, or who would exhaust them prior to completion of training, would be eligible to receive training payments for the duration of their training, subject to an overall time limit of collecting both unemployment compensation and training payments. The training payments would equal the dollar amount that would have been provided under the unemployment insurance (UI) system, would be administered by the state unemployment insurance agencies, and funded out of Federal general revenues.

To be eligible for a grant under the bill, a state must adopt a plan demonstrating that:

A. It has established or will establish collaborative mechanisms to develop, monitor and, where appropriate, conduct the programs described in paragraphs (B) and (C) below. This collaboration should involve at least the following state and local authorities:

(1) Unemployment insurance agency;

(2) Employment service;

(3) Vocational/technical education system;

(4) Economic development authorities; and

(5) Private sector representatives, including business and labor.

B. It is designing or has designed training programs, so that hard-to-employ dislocated workers are enrolled in job training programs at the earliest possible point in their initial eligibility to collect unemployment compensation under that state's regular program.

C. It is directly supporting or will directly support the design and implementation of special programs for the retraining of hard-to-employ and dislocated workers in identified skills-shortage areas.

D. It will not require the creation of new state agencies or bureaucracies.

RATIONALE OF THE PROPOSAL

The fundamental premise of this training grants proposal is that it makes no sense to permit people we know are unlikely to find jobs unless trained to collect unemployment benefits for up to 65 weeks, and in the interim do nothing to improve their chances of finding work by the time their unemployment benefits are exhausted. Unfortunately, under existing conditions, this is exactly what happens.

By encouraging the states to develop and/or expand existing programs that are designed to quickly identify hard-to-employ and permanently displaced workers, and to then get those individuals enrolled in training programs at the earliest possible date, the proposal introduces a degree of coordination to the present disjointed manner in dealing with structural unemployment.

BENEFITS OF THE PROPOSAL

By allowing the unemployed to collect unemployment benefits and/or federally-supported training payments while in training, the hard-to-employ will be encouraged to develop skills that will permit them to obtain productive jobs in the private sector.

It represents a much wiser use of taxpayers' money since it makes it possible for the unemployed to use their time out of work productively, and decreases the likelihood that they will return to the unemployment lines.

It uses existing state agencies and delivery systems, thus avoiding the creation of new costly bureaucracies.

The program can be implemented quickly because it uses existing state agencies and delivery systems.

The program does not tamper with or change the unemployment insurance system in any way; also, since training payments for job trainees who have exhausted all unemployment benefits would be funded out of Federal general revenues, providing training payments does not drain the UI trust funds.

It represents a needed reorientation in our national priorities concerning investment in human capital; it places a premium on skills development, which helps gets to the root of the growing structural unemployment problem.

The program encourages the use of well-tested training programs that have been successfully piloted in many states.

It encourages a greater degree of cooperation among state and local authorities and the private sector, a necessary requirement to reduce structural unemployment.

FACT SHEET ON TAX CREDIT FOR BUSINESS TRAINING EXPENSES

THE PROBLEM

Over the last fifteen years, the U.S. economy has experienced a steady deterioration in its productivity growth. If this reduced productivity is not reversed, inflationary pressures will mount, the competitiveness of American business will continue to suffer, and the American standard of living will deteriorate. While disincentives to capital formation and investment have contributed to declining productivity, insufficient investment in our human capital stock is equally at the root of our poor productivity performance. Technological innovation, changing industrial structure and the maturation of many industries are placing a premium on greater productivity. Although the private sector spends over $30 billion a year on training, the speed with which the structure of the economy is changing will create training demands which will exceed the private sector's current training activities. Consequently, many feel that incentives must be established that are designed to encourage employers to provide training for upgrading and/or obtaining new skills.

SUMMARY OF THE PROPOSAL

The bill proposes that businesses be provided with a 25% tax credit to be applied against training expenditures above the firm's average training expenditures during the three previous years. This training tax credit would be the counterpart of the existing 25% tax credit for research and development that was enacted in the Economic Recovery Tax Act of 1981. The proposed 25% training tax credit would be in addition to any other deduction allowed the taxpayer.

RATIONALE OF THE PROPOSAL

Labor training expenses incurred by businesses should receive the same treatment in the tax code afforded to spending on plant and equipment, and on R&D spending. From a public policy standpoint, it makes just as much sense to encourage quality improvements in the human capital as it does

to promote quality improvements in plant and equipment. Given the strong likelihood that structural unemployment will rise throughout the decade, it makes even more sense to establish an incentive specifically designed to improve the quality and capability of the American labor force.

BENEFITS OF THE PROPOSAL

It places business spending on labor training on the same basis as spending on plant and equipment.

By providing more favorable treatment of training expenditures in the tax code, the proposal institutionalizes the need to continually upgrade the quality of the American labor force.

The training provided would be done by, and within the business sector, insuring that the training received could be immediately and productively used.

FACT SHEET ON INDIVIDUAL TRAINING ACCOUNTS PROPOSAL

THE PROBLEM

The structure of American industry is changing rapidly, causing severe dislocations in the labor market. Heavy manufacturing industries, faced with rising labor costs, declining productivity, and stiff import competition, are permanently reducing the size of their labor forces and increasing the pace of investments in automation and technology. This process is just beginning and will likely continue through the remainder of the century. As a consequence, we face a labor displacement problem of massive proportions, with the majority of the displaced workers still in their prime working years. These displaced workers will have to receive training in skills that, are and will be, in demand for the forseeable future. The costs associated with these increased training needs will be enormous, and it is unrealistic to expect the Federal government to finance even a significant portion of those training costs in light of its own budgetary situation.

SUMMARY OF THE PROPOSAL

To help finance these training and retraining costs, the bill proposes allowing employers and employees to establish tax-deductible accounts, earmarked for training and/or retraining. Employers and employees would be allowed to jointly contribute up to $6,000 into these Individual Training Accounts (ITAs), with the amounts contributed by each to be mutually agreed upon between the employer and employee. Under the proposal, contributions made by each party into ITAs would be tax-deductible, up to $1,000 per year each. Employees could use the accumulated ITA contributions to obtain training and to cover relocation and job-search expenses. The choice of the training and the provider would be left up to the worker, and, as with the G.I. bill, the Federal government would certify training establishments. If the training account is not used, the money would revert with interest to the employer and employee upon the employee's death or retirement. If the employee voluntarily leaves the job, the employer's contributions into the ITA would be refunded to the employer, with interest, and the employee could "roll over" his/her portion of the ITA contributions into a new ITA.

RATIONALE OF THE PROPOSAL

The structure of the U.S. economy will always be in a state of flux, and as a consequence, the demand for differing types of labor skills will also change. No one is immune from the impact of the changing structure of American industry. As a result, it is to our advantage as a society to prepare ourselves for these changes and worker dislocations by encouraging the establishment of self-financing mechanisms to help minimize the impact of dislocation when it does occur.

BENEFITS OF THE PROPOSAL

It is self-financing, and simple to understand and administer.

Since the worker has an equity interest in the training account, the funds will probably be used more wisely.

The financial burden to the employer and employee is limited, and the funds can supplement the worker's retirement savings or estate if unused.

Savings will be encouraged, which will aid the capital markets, especially during times of high federal borrowing.

The proposal provides a high degree of flexibility, and the certification process provides greater assurance of quality training.

Strains on the state unemployment insurance funds will be minimized since displaced workers with ITA's will more likely enroll in training course that will assist them to more quickly reenter the labor force.

S. 1799

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Training for the Unemployed Assistance Act".

STATEMENT OF PURPOSE

SEC. 2. It is the purpose of this Act—

(1) to support job training programs under which job training is furnished as quickly as possible to unemployed individuals, particularly long-term unemployed individuals and dislocated workers, and

(2) to strengthen the coordination between business concerns and State agencies and local offices responsible for unemployment compensation benefits, for employment services, for vocational education, technical education, and other job training activities within the State.

DEFINITIONS

SEC. 3. As used in this Act—

(1) The term "dislocated workers" means individuals determined to be dislocated workers under section 302 of the Job Training Partnership Act, and additional individuals determined to be dislocated workers in accordance with criteria prescribed by the Secretary.

(2) The term "Governor" means the chief executive of the State.

(3) The term "local education agency" has the same meaning given that term by section 195(10) of the Vocation Education Act of 1963.

(4) The term "long-term unemployed individuals" means individuals who are unemployed for at least fifteen weeks.

(5) The term "postsecondary education institution" has the same meaning given that term by section 195(12) of the Vocation Education Act of 1963.

(6) The term "Secretary" means the Secretary of Labor.

(7) The term "State" means each of the several States and the District of Columbia.

(8) The term "State board" has the same meaning given that term by section 195(9) of the Vocation Education Act of 1963.

(9) The term "State educational agency" has the same meaning given that term by section 195(11) of the Vocation Education Act of 1963.

(10) The term "unemployed individuals" means individuals who are without jobs and who want and are available for work. The determination of whether individuals are without jobs shall be made in accordance with the criteria used by the Bureau of Labor Statistics of the Department of Labor in defining individuals as unemployed.

JOB TRAINING ASSISTANCE PROGRAM AUTHORIZED

SEC. 4. (a) The Secretary is authorized, in accordance with the provisions of this Act and in coordination with the Secretary of Education, to make grants to States for job training programs for unemployed individuals, particularly for long-term unemployed individuals and dislocated workers.

(b)(1) There are authorized to be appropriated for the fiscal year 1984 and for each succeeding fiscal year thereafter such sums as may be necessary to carry out the provisions of this Act.

(2) Funds appropriated pursuant to paragraph (1) of this subsection shall remain available for the succeeding fiscal year.

USES OF FUNDS

SEC. 5. Grants under this Act may be used—

(1) for job training programs for unemployed individuals, particularly long-term unemployed individuals and dislocated workers, and support services;

(2) for training payments for unemployed individuals, including long-term unemployed individuals, paid in accordance with an approved State plan pursuant to section 7 of this Act;

(3) for improving the mechanisms under which—

(A) the State agency established pursuant to title III of the Social Security Act and local offices of that agency having responsibility for unemployment compensation services;

(B) the State agency and local offices of such agency furnishing employment services within the State;

(C) the State board with respect to vocational education component of job training program for which assistance is sought;

(D) the State educational agency and postsecondary educational institutions with respect to technical education and other educational components of the job training program for which assistance is sought; and

(E) business concerns;

will cooperate to carry out the job training program within the State; and

(4) such additional State services as may improve the provisions of job training programs within the State as is consistent with the approved State plan and the provisions of this Act.

STATE PLAN APPLICATIONS

SEC. 6. (a) Each State desiring to receive a grant under this Act shall submit a State plan application to the Secretary, at such time, in such manner and containing or accompanied by such information as the Secretary determines necessary. Each such application shall—

(1) designate an agency of the State to be determined by the Governor to administer the job training programs assisted under this Act;

(2) describe the purposes for which assistance is sought in accordance with section 5, with special emphasis on job training programs for retraining dislocated workers in skilled shortage job classifications;

(3) describe the arrangements for coordination and cooperation in the job training program between—

(A) the State agency established pursuant to title III of the Social Security Act and local offices of that agency having responsibility for unemployment compensation services;

(B) the State agency and local offices of such agency furnishing employment services within the State;

(C) the State board with respect to vocational education component of job training program for which assistance is sought;

(D) the State educational agency and postsecondary educational institutions with respect to technical education and other educational components of the job training program for which assistance is sought; and

(E) business concerns within the State;

(4) provide for the payment of training payments consistent with the provisions of section 7;

(5) describe the training activities to be furnished by local educational agencies and other agencies and organizations providing job training, including arrangements for the supervision of such training by the State board and the State educational agency;

(6) provide such fiscal control and funds accounting procedures as may be necessary to assure the proper disbursal of and accounting for Federal funds paid to the State under this Act.

(b) (1) The Secretary shall expeditiously grant approval of any State plan application which meets the requirements of subsection (a) of this section.

(2) Such approval shall be subject to the Secretary first obtaining the approval of the Secretary of Education for those elements of the application required by paragraphs 3 (C), 3 (D), and 5 of subsection (a).

TRAINING PAYMENT: LIMITATIONS

SEC. 7. (a) That portion of the grant to each State for training payments made under the State plan approved under section 6 shall be—

(1) deposited into a separate account within the unemployment trust funds of the State;

(2) made to individuals who are enrolled in training with State approval and only while actually enrolled in such training;

(3) made to individuals through the existing State agency responsible for distributing unemployment benefits; and

(4) made on a periodic basis equal to the period under which any individual who qualifies for unemployment benefits under applicable provisions of Federal and State law would receive such benefit.

(b) Training payments made under the State plan approved under section 6 may not exceed—

(1) for any unemployed individual who qualifies for unemployment benefits after the date of enactment of this Act, an amount equal to the weekly unemployment benefit available under the applicable provisions of Federal and State law to such individual for the length of the period of the job training minus the period during which such benefits are actually paid to such individual;

(2) for unemployed individuals who are receiving unemployment benefits on the date of enactment of this Act, an amount equal to weekly unemployment benefits available under the applicable provisions of Federal and State law to such individuals for the length of the period of job training minus the period during which such benefits are paid to such individual after the date of enactment of this Act; and

(3) for unemployed individuals who have exhausted unemployment benefits available under all applicable Federal and State laws, an amount equal to the weekly unemployment benefit previously paid to such individual for the period of the job training program.

(c) In no case may an individual receive a training payment under subsections (a) and (b) plus unemployment benefits paid pursuant to applicable Federal and State laws for a period in excess of 78 weeks.

(d) Any training payment is to be treated by an individual as unemployment compensation for purposes of section 85 of the Internal Revenue Code of 1954.

PAYMENTS

SEC. 8. (a) The Secretary shall pay to the State which has a plan approved under section 6 an amount equal to the amount needed for the purposes set forth in th State plan.

(b) Payments under this Act may be made in installments in advance or by way of reimbursement, with necessary adjustments on account of overpayments and underpayments.

WITHHOLDING

SEC. 9. Whenever the Secretary, after reasonable notice to any State and opportunity for hearing within the State, finds that there has been a failure to comply with any provision set forth in the State plan of that State approved under section 6, the Secretary shall notify the State that further payments will not be made under this Act until the Secretary is satisfied that there is no longer any such failure to comply. Until the Secretary is so satisfied, no further payments shall be made under this Act.

AUDIT

SEC. 10. The Comptroller General of the United States, and any of his duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of any applicant and any contractee receiving assistance under this Act that are pertinent to the sums received and disbursed under this Act.

NONDISCRIMINATION PROVISIONS

SEC. 11. (a) No person shall on the ground of race, color, national origin, or sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under, any program or activity funded in whole or in part with funds made available under this Act. Any prohibition against discrimination on the basis of and under the Age Discrimination Act of 1975 or with respect to otherwise qualified handicapped individuals as provided in section 504 of the Rehabilitation Act of 1973 shall also apply to any such program or activity.

(b) Whenever the Secretary determines that a State that has received a payment under this Act has failed to comply with subsection (a) or an applicable regulation, he shall notify the Governor of the State and shall request him to secure compliance. If within a reasonable period of time, not to exceed 60 days, the Governor fails or refuses to secure compliance, the Secretary is authorized to (1) refer the matter to the Attorney General with a recommendation that an appropriate civil action be instituted; (2) exercise the power and functions provided by title VI of the Civil Rights Act of 1964, the Age Discrimination Act of 1975, or section 504 of the Rehabilitation Act of 1973, as may be applicable; or (3) take such other action as may be provided by law.

(c) When a matter is referred to the Attorney General pursuant to subsection (b), or whenever, he has reason to believe that the State is engaged in a pattern or practice in violation of the provisions of this section, the Attorney General may bring a civil action in any appropriate United States district court for such relief as may be appropriate, including injunctive relief.

ADMINISTRATION

SEC. 12. (a) (1) (A) Subject to subparagraph (B), the Secretary may delegate any function under this Act to any officer or employee of the Department of Labor.

(B) Subparagraph (A) shall not apply to—

(i) the making of regulations, and

(ii) the process by which the Secretary of Education approves State plan applications under section 6.

(2) The Secretary after consultation with the Secretary of Education shall issue regulations to carry out the provisions of this Act.

(3) The Secretary of Education shall issue such regulations as are necessary to carry out the provisions of this Act.

(b) In administering the provisions of this Act, the Secretary is authorized to utilize the services and facilities of any agency of the Federal Government and of any other public agency or institution, to the extent such services and facilities are otherwise authorized to be made available for such purpose, in accordance with appropriate agreements, and to pay for such services either in advance or by way of reimbursement as may be agreed upon.

(c) The Secretary shall establish procedures for Federal monitoring of State administration of programs assisted under this Act.

S. 1800

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE

This Act may be cited as the "Training Act of 1983".

SEC. 2. ESTABLISHMENT OF TRAINING ACCOUNTS.

(a) IN GENERAL.—Part VII of subchapter B of chapter 1 of the Internal Revenue Code of 1954 (relating to additional itemized deductions for individuals) is amended by inserting after section 219 the following new section:

"SEC. 220. TRAINING ACCOUNTS.

"(a) ALLOWANCE FOR DEDUCTIONS.—

"(1) INDIVIDUAL TRAINING ACCOUNTS.—In the case of an individual, there shall be allowed as a deduction for the taxable year an amount equal to the contributions of such individual for the taxable year to an individual training account established for the benefit of such individual.

"(2) EMPLOYEE TRAINING ACCOUNTS.—In the case of an employer, there shall be allowed as a deduction for the taxable year an amount equal to the aggregate contributions of such employer to employee training accounts established for the benefit of employees of such employer.

"(b) LIMITATIONS.—

"(1) INDIVIDUAL TRAINING ACCOUNTS.—The amount allowable to any individual as a deduction under subsection (a)(1) for any taxable year shall not exceed the excess of—

"(A) $1,000, over

"(B) the amount of contributions made for the taxable year to any employee train-

ing account established for the benefit of such individual.

"(2) EMPLOYEE TRAINING ACCOUNTS.—The amount of contributions of any employer to an employee training account established for the benefit of any employee which may be taken into account under subsection (a)(2) for any taxable year shall not exceed the excess of—

"(A) $1,000 over

"(B) the amount of contributions made for such taxable year to any individual training account established for the benefit of such employee.

"(3) RECONTRIBUTED AMOUNTS.—No deduction shall be allowed under subsection (a) with respect to a qualified rollover contribution.

"(c) INDIVIDUAL TRAINING ACCOUNTS.—For purposes of this section—

"(1) IN GENERAL.—The term 'individual training account' means a trust created or organized in the United States for the exclusive benefit of an individual or his beneficiaries, but only if the written governing instrument creating the trust meets the following requirements.

"(A) Only cash contributions will be accepted.

"(B) Contributions will not be accepted for the taxable year in excess of the amount of such contributions for which a deduction is allowable under subsection (a)(1) for such taxable year.

"(C) No contribution (other than a qualified rollover contribution) will be accepted if, at the time such contribution is offered, the balance of funds in the trust equals or exceeds the excess of—

"(i) $6,000, over

"(ii) the balance of funds in any employee training account established for the benefit of such employee.

"(D) No distribution, other than a qualified individual development distribution or a qualified rollover contribution, shall be made from the trust to such individual until such individual—

"(i) attains 59½ years of age, or

'(ii) becomes disabled (within the meaning of section 72(m)(7)).

"(E) The trustee is a bank (as defined in section 401(d)(1)) or another person who demonstrates to the satisfaction of the Secretary that the manner in which that person will administer the trust will be consistent with the requirements of this subsection.

"(F) No part of the trust assets will be invested in life insurance contracts.

"(G) The assets of the trust will not be commingled with other property except in a common trust fund or common investment fund.

"(H) The interest of such individual in the balance of funds in the trust is nonforfeitable.

"(I) The entire interest of an individual for whose benefit the trust is maintained will be distributed to him not later than the close of the taxable year in which he attains age 70½, or will be distributed, commencing before the close of such taxable year, in accordance with regulations prescribed by the Secretary, over—

"(i) the life of such individual or the lives of such individual and his spouse, or

"(ii) a period not extending beyond the life expectancy of such individual or the life expectancy of such individual and his spouse.

"(J) If an individual for whose benefit the trust is maintained dies before his entire interest has been distributed to him, or if distribution has been commenced as provided in subparagraph (I) to his surviving spouse and such surviving spouse dies before the entire interest has been distributed to such spouse, the entire interest (or the remaining part of such interest if distribution thereof has commenced) will, within 5 years after his death (or the death of the surviving spouse), be distributed, of applied to the purchase of an immediate annuity for his beneficiary or beneficiaries (or the beneficiary or beneficiaries (or for a term certain not extending beyond the life expectancy of such beneficiary or beneficiaries. The preceding sentence does not apply if distributions over a term certain commenced before the death of the individual for whose benefit the trust was maintained and the term certain is for a period permitted under subparagraph (I).

"(2) QUALIFIED INDIVIDUAL DEVELOPMENT DISTRIBUTION.—The term 'qualified individual development distribution' means a distribution made to an individual from an individual training account established for the benefit of such individual—

"(A) upon furnishing to the trustee of such account a qualified training certificate which indicates the certified distribution amount for such individual, and

"(B) in an amount which does not exceed the sum of—

"(i) 50 percent of such certified distribution amount, plus

"(ii) the excess, if any, of—

"(I) 50 percent of such certified distribution amount, over

"(II) the balance of funds in any employee training account established for the benefit of such individual (determined prior to any qualified employee development distribution made with respect to such certificate).

"(3) LIMITATION.—Only one individual training account may be maintained for the benefit of any individual at any time. If more than one trust described in paragraph (1) is maintained for the benefit of any individual at any time, such individual shall designate (at such time and in such manner as the Secretary shall by regulations prescribe) which trust will be treated as the individual training account of such individual for purposes of this title.

"(d) EMPLOYEE TRAINING ACCOUNTS.—For purposes of this section—

"(1) IN GENERAL.—The term 'employee training account' means a trust created or organized in the United States by an employer for the exclusive benefit of an employee, but only if the written governing instrument creating the trust meets the following requirements:

"(A) Only cash contributions from the employer who establishes the trust will be accepted.

"(B) Contributions will not be accepted for the taxable year in excess of the amount of such contributions for which a deduction is allowable to such employer under subsection (a)(2) for such taxable year.

"(C) No contribution (other than a qualified rollover contribution) will be accepted if, at the time such contribution is offered, the balance of funds in the trust equals or exceeds the excess of—

"(i) $6,000 over

"(ii) the balance of funds in any individual training account established for the benefit of such employee.

"(D) The only distributions which may be made to, or for the benefit of, such employee are qualified employee development distributions and qualified rollover contributions.

"(E) The balance of funds in the trust will be distributed to the employer who established the trust when such employee—

"(i) dies, retires, or

"(ii) voluntarily terminates employment with such employer.

"(F) The trustee of the trust—

"(i) in the case of an employee for whom an individual training account is maintained, is also the trustee of such individual training account, or

"(ii) in the case of an employee for whom no individual training account is maintained, is a bank (as defined in section 401(d)(1)) or another person who demonstrates to the satisfaction of the Secretary that the manner in which that person will administer the trust will be consistent with the requirements of this subsection.

"(G) No part of the trust assets will be invested in life insurance contracts.

"(H) The assets of the trust will not be commingled with other property except in a common trust fund or common investment fund.

"(2) QUALIFIED EMPLOYEE DEVELOPMENT DISTRIBUTION.—The term 'qualified employee development distribution' means a distribution made to an employee from an employee training account established for the benefit of such employee—

"(A) upon furnishing to the trustee of such account a qualified training certificate which indicates the certified distribution amount for such employee, and

"(B) in an amount which does not exceed the sum of—

"(i) 50 percent of such certified distribution amount, plus

"(ii) the excess, if any, of—

"(I) 50 percent of such certified distribution amount, over

"(II) the balance of funds in any individual training account established for the benefit of such employee (determined prior to any qualified individual development distribution made with respect to such certificate).

"(3) QUALIFIED ROLLOVER CONTRIBUTION.—The term 'qualified rollover contribution' means—

"(A) a distribution of the entire balance of funds in an employee training account established for the benefit of an employee which—

"(i) is paid to the trustee of an individual training account established for the benefit of such employee, but only if—

"(I) such distribution is made after such employee has ceased to be employed by the employer who established such employee training account, and

"(II) such employment was not voluntarily terminated by such employee or terminated by reason of the death or retirement of such employee, or

"(II) is paid to the person designated in a trust agreement as the trustee of a trust which—

"(I) is established for the benefit of such employee (or will be so established upon such payment), and

"(II) meets the requirements of paragraph (1), or

"(B) a distribution of the entire balance of funds in an individual training account established for the benefit of an individual which is paid to the person designated in a trust agreement as the trustee of a trust which—

"(i) is established for the benefit of such employee (or will be so established upon such payment), and

"(ii) meets the requirements of subsection (c)(1).

"(4) LIMITATION.—Only one employee training account may be maintained for the benefit of an employee at any time.

"(e) TAX TREATMENT OF DISTRIBUTIONS.—

"(1) IN GENERAL.—Except as otherwise provided in this subsection, any amount paid or distributed out of an individual training account or an employee training account shall be included in the gross income of the payee or distributee for the taxable year in which the payment or distribution is received. Notwithstanding any other provision of this title, the basis of any person in such an account is zero.

"(2) CERTAIN AUTHORIZED DISTRIBUTIONS.—Paragraph (1) shall not apply to any—

"(A) qualified individual development distribution,

"(B) qualified employee development distribution, or

"(C) qualified rollover contribution.

"(3) EXCESS CONTRIBUTIONS RETURNED BEFORE DUE DATE OF RETURN.—Paragraph (1) does not apply to the distribution of any contribution paid during a taxable year to an individual training account or an employee training account to the extent that such contribution exceeds the amount allowable as a deduction under subsection (a) if—

"(A) such distribution is received on or before the day prescribed by law (including extensions of time) for filing such individual's return for such taxable year,

"(B) no deduction is allowed under subsection (a) with respect to such excess contribution, and

"(C) such distribution is accompanied by the amount of net income attributable to such excess contribution.

Any net income described in subparagraph (c) shall be included in the gross income of the individual for the taxable year in which it is received.

"(f) TAX TREATMENT OF ACCOUNTS.—

"(1) EXEMPTION FROM TAX.—Any individual training account or employee training account is exempt from taxation under this subtitle unless such account has ceased to be an individual training account or employee training account by reason of paragraph (2) or (3). Notwithstanding the preceding sentence, any such account is subject to the taxes imposed by section 511 (relating to imposition of tax on unrelated business income of charitable, etc., organizations).

"(2) LOSS OF EXEMPTION OF ACCOUNT WHERE INDIVIDUAL ENGAGES IN PROHIBITED TRANSACTION.—

"(A) IN GENERAL.—If, during any taxable year of the individual for whose benefit an individual training account or employee training account is established, that individual engages in any transaction prohibited by section 4975 with respect to such account, such account shall cease to be an individual training account or employee training account as of the first day of that taxable year. For purposes of this subparagraph, the individual for whose benefit any account was established is treated as the creator of the account.

"(B) ACCOUNT TREATED AS DISTRIBUTING ALL ITS ASSETS.—In any case in which an account ceases to be an individual training account or employee training account by reason of subparagraph (A) on the first day of any taxable year, subsection (e)(1) applies as if there were a distribution on such first day in an amount equal to the fair market value (on such first day) of all assets in the account (on such first day).

"(3) EFFECT OF PLEDGING ACCOUNT AS SECURITY.—If, during any taxable year, the individual for whose benefit an individual training account or employee training account is established uses such account or any portion thereof as security for a loan, the portion so used shall be treated as distributed to that individual.

"(g) ADDITIONAL TAX ON CERTAIN AMOUNTS INCLUDED IN GROSS INCOME.—

"(1) UNAUTHORIZED DISTRIBUTIONS.—If a distribution from an individual training account or employee training account is made to the individual for whose benefit such account was established before such individual attains 59½ years of age, the tax liability of such individual under this chapter for the taxable year in which such distribution is received shall be increased by an amount equal to 10 percent of the amount of the distribution which is includible in the gross income of such payee or distributee for such taxable year.

"(2) DISQUALIFICATION CASES.—If an amount is includible in the gross income of an individual for a taxable year under subsection (f), his tax under this chapter for such taxable year shall be increased by an amount equal to 10 percent of such amount required to be included in his gross income.

"(h) OTHER DEFINITIONS.—For purposes of this section—

"(1) QUALIFIED TRAINING CERTIFICATE.—The term 'qualified training certificate' means a certificate issued to an individual by the Secretary of Labor under section 3(f) of the Training Act of 1983.

"(2) CERTIFIED DISTRIBUTION AMOUNT.—The term 'certified distribution amount' has the meaning given such term in section 3(g) of the Training Act of 1983.

"(i) COMMUNITY PROPERTY LAWS.—This section shall be applied without regard to any community property laws.

"(j) CUSTODIAL ACCOUNTS.—For purposes of this section, a custodial account shall be treated as a trust if the assets of such account are held by a bank (as defined in section 401(d)(1)) or another person who demonstrates, to the satisfaction of the Secretary, that the manner in which he will administer the account will be consistent with the requirements of this section, and if the custodial account would, except for the fact that it is not a trust, constitute an individual training account or employee training account. For purposes of this title, in the case of a custodial account treated as a trust by reason of the preceding sentence, the custodian of such account shall be treated as the trustee thereof.

"(k) REPORTS.—The trustee of an individual training account or employee training account shall make such reports regarding such account to the Secretary, to the individual for whom the account is maintained, and to the employer of such individual with respect to contributions, and such other matters as the Secretary may require under regulations. The reports required by this subsection shall be filed at such time and in such manner and furnished to such individuals at such time and in such manner as may be required by those regulations.".

(b) DENIAL OF BUSINESS EXPENSE DEDUCTION FOR CONTRIBUTIONS.—Section 162 of such Code (relating to trade or business expenses) is amended—

(1) by redesignating subsection (j) (relating to cross references) as subsection (k), and

(2) by inserting after subsection (i) the following new subsection:

"(j) CONTRIBUTIONS TO EMPLOYEE TRAINING ACCOUNTS.—No deduction shall be allowed under this section or section 212 for any contribution to an employee training account or to an individual training account.".

(c) DEDUCTION ALLOWED IN ARRIVING AT ADJUSTED GROSS INCOME.—Section 62 of such Code (relating to adjusted gross income) is amended by inserting after paragraph (16) the following new paragraph:

"(17) TRAINING ACCOUNTS.—The deductions allowed by section 220 (relating to training accounts).".

(d) EXCLUSION FROM INCOME AND WAGES OF EMPLOYER CONTRIBUTIONS TO EMPLOYEE TRAINING ACCOUNTS.—

(1) EXCLUSION FROM INCOME.—Part III of subchapter B of chapter 1 of such Code (relating to items excluded from gross income) is amended by redesignating section 132 as section 133 and by inserting after section 131 the following new section:

"SEC. 132. EMPLOYER CONTRIBUTIONS TO EMPLOYEE TRAINING ACCOUNTS.

"(a) IN GENERAL.—Gross income of an employee does not include amounts contributed by the employer pursuant to a qualified employee training program to an employee training account established for the benefit of such employee.

"(b) QUALIFIED EMPLOYEE TRAINING PROGRAM.—

"(1) IN GENERAL.—For purposes of this section, the term 'qualified employee training program' means a separate written plan of an employer to make contributions to employee training accounts for the exclusive benefit of his employees which meets the requirements of paragraphs (2) through (7).

"(2) DISCRIMINATION.—The contributions made under the program shall not discriminate in favor of employees who are officers, owners, or highly compensated (or their dependents).

"(3) ELIGIBILITY.—The program shall benefit employees who qualify under a classification set up by the employer and found by the Secretary not to be discriminatory in favor of employees who are officers, owners, or highly compensated, or their dependents. For purposes of this paragraph, there shall be excluded from consideration employees not included in the program who are included in a unit of employees covered by an agreement which the Secretary of Labor finds to be a collective bargaining agreement between employee representatives and one or more employers, if there is evidence that training benefits were the subject of good faith bargaining between such employee representatives and such employer or employers.

"(4) PRINCIPAL SHAREHOLDERS OR OWNERS.—Not more than 25 percent of the contributions made by the employer to employee training accounts during the year may be provided for the class of individuals who are shareholders or owners (or their spouses or dependents), each of whom (on any day of the year) owns more than 5 percent of the stock or of the capital or profits interest in the employer.

"(5) NO FUNDING REQUIRED.—A program referred to in paragraph (1) is not required to be funded.

"(6) NOTIFICATION OF ELIGIBLE EMPLOYEES.—Reasonable notification of the availability and terms of the program must be provided to eligible employees.

"(7) STATEMENT OF EXPENSES.—The plan shall furnish to an employee, on or before January 31 of each year, a written statement showing the amounts contributed during the previous calendar year by the employer to an employee training account

established for the benefit of such employee.

"(c) DEFINITIONS AND SPECIAL RULES.— For purposes of this section—

"(1) EMPLOYEE TRAINING ACCOUNT.—The term 'employee training account' has the meaning given to such term by section 220(d).

"(2) EMPLOYEE—The term 'employee' includes, for any year, an individual who is an employee within the meaning of section 401(c)(1) (relating to self-employed individuals).

"(3) EMPLOYER.—An individual who owns the entire interest in an unincorporated trade or business shall be treated as his own employer. A partnership shall be treated as the employer of each partner who is an employee within the meaning of paragraph (3).

"(4) ATTRIBUTION RULES.—

"(A) OWNERSHIP OF STOCK.—Ownership of stock in a corporation shall be determined in accordance with the rules provided under subsections (d) and (e) of section 1563 (without regard to section 1563(e)(3)(C)).

"(B) INTEREST IN UNINCORPORATED TRADE OR BUSINESS.—The interest of an employee in a trade or business which is not incorporated shall be determined in accordance with regulations prescribed by the Secretary which shall be based on principles similar to the principles which apply in the case of subparagraph (A).".

(2) EXCLUSION FROM WAGES.—

(A) EMPLOYMENT TAXES AND COLLECTION OF INCOME TAX.—Section 3121(a)(18) (relating to the Federal Insurance Contributions Act), section 3306(b)(13) (relating to the Federal Unemployment Tax Act), and section 3401(a)(19) (relating to collection of income at source on wages) are each amended by striking out "or 129" and inserting in lieu thereof ", 129, or 132".

(B) SOCIAL SECURITY ACT.—Subsection (q) of section 209 of the Social Security Act (42 U.S.C. 409) is amended by striking out "or 129" and inserting in lieu thereof ", 129, or 132".

(e) TAX ON EXCESS CONTRIBUTIONS.—Section 4973 of such Code (relating to tax on excess contributions to individual retirement accounts, certain section 403(b) contracts, certain individual retirement annuities, and certain retirement bonds) is amended—

(1) by inserting "TRAINING ACCOUNTS," after "INDIVIDUAL RETIREMENT ACCOUNTS," in the heading of such section,

(2) by striking out "or" at the end of subsection (a)(2),

(3) by inserting after paragraph (3) of subsection (a) the following:

"(4) an individual training account (within the meaning of section 220(c)), or

"(5) an employee training account (within the meaning of section 220(d)),", and

(4) by adding at the end thereof the following new subsection:

"(d) EXCESS CONTRIBUTIONS TO TRAINING ACCOUNTS.—For purposes of this section, in the case of an individual training account or employee training account, the term 'excess contributions' means the amount by which the amount contributed for the taxable year to such account exceeds the amount by which the amount contributed for the taxable year to such account exceeds the amount allowable as a deduction under section 220 for such taxable year. For purposes of this subsection, any contribution which is distributed out of such account and a distribution to which section 220(e)(3) applies shall be treated as an amount not contributed.".

(f) TAX ON PROHIBITED TRANSACTIONS.—Section 4975 of such Code (relating to prohibited transactions) is amended—

(1) by adding at the end of subsection (c) the following new paragraph:

"(4) SPECIAL RULE FOR TRAINING ACCOUNTS.—An individual for whose benefit an individual training account or employee training account (within the meaning of section 220) is established shall be exempt from the tax imposed by this section with respect to any transaction concerning such account (which would otherwise be taxable under this section) if, with respect to such transaction, the account ceases to be such an account by reason of the application of section 220(f)(2)(A) or if section 220(f)(3) applies to such account.", and

(2) by inserting "or an individual training account described in section 220(c) or an employee training account described in section 220(d)" in subsection (e)(1) after "described in section 408(a)".

(g) FAILURE TO PROVIDE REPORTS ON TRAINING ACCOUNTS.—Section 6693 of such Code (relating to failure to provide reports on individual retirement accounts or annuities) is amended—

(1) by inserting "OR TRAINING ACCOUNTS" after "ANNUITIES" in the heading of such section, and

(2) by adding at the end of subsection (a) the following: "The person required by section 220(k) to file a report regarding an individual training account or employee training account at the time and in the manner required by such section shall pay a penalty of $10 for each failure unless it is shown that such failure is due to reasonable cause.".

(h) CONFORMING AMENDMENTS.—

(1) The table of sections for part VII of subchapter B of chapter 1 of such Code is amended by inserting after the item relating to section 219 the following:

"Sec. 220. Training accounts.".

(2) The table of sections for chapter 43 of such Code is amended by striking out the item relating to section 4973 and inserting in lieu thereof the following:

"Sec. 4973. Tax on excess contributions to individual retirement accounts, training accounts, certain 403(b) contracts, certain individual retirement annuities, and certain retirement bonds.".

(3) The table of sections for subchapter B of chapter 68 of such Code is amended by striking out the item relating to section 6693 and inserting in lieu thereof the following:

"Sec. 6693. Failure to provide reports on individual retirement accounts or annuities or training accounts.".

(4) The table of sections for part III of subchapter B of chapter 1 of such Code is amended by striking out the items following the item relating to section 128 and inserting in lieu thereof the following:

"Sec. 129. Dependent care assistance programs.
"Sec. 130. Certain personal injury liability assignments.
"Sec. 131. Certain foster care payments.
"Sec. 132. Employer contributions to employee training accounts.
"Sec. 133. Cross references to other Acts.".

(i) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as otherwise provided in this subsection, the amendments made by this section shall apply to taxable years beginning after December 31, 1982.

(2) EXCLUSION FROM WAGES.—The amendments made by subsection (d)(2) shall apply with respect to remuneration paid after December 31, 1982.

SEC. 3. CERTIFICATION FOR QUALIFIED INDIVIDUAL AND EMPLOYEE DEVELOPMENT DISTRIBUTIONS.

(a) IN GENERAL.—Upon application of an individual under subsection (d), the Secretary of Labor shall certify for such individual, in accordance with the provisions of this section, training activities, including basic and remedial education, institutional and on-the-job training, retraining, counselling, occupational training, preparation for work, and any other activities designed to provide employment for the individual.

(b) CERTIFICATION PROCEDURES.—In order to provide the certification required under subsection (a), the Secretary of Labor shall use existing accrediting institutions, including State approving agencies established under chapter 36 of title 38, United States Code, accrediting agencies assisting the Secretary of Education, and any other institution or agency engaged in approving training and courses of study in the field of employment training.

(c) PRIVATE INDUSTRY COUNCILS.—The Secretary may enter into agreements with private industry councils and other administering agencies receiving Federal financial assistance under the Comprehensive Employment and Training Act, or successor legislation for job training, to assist in carrying out the provisions of this section.

(d) APPLICATIONS FOR CERTIFICATION.—Each individual who has an individual training account or an employee training account (within the meaning of section 220 of the Internal Revenue Code of 1954) and who desires a distribution from that account shall make application to the Secretary of Labor at such time, in such manner, and containing or accompanied by such information, as the Secretary determines to be reasonably necessary.

(e) APPROVAL CRITERIA.—The Secretary of Labor shall establish uniform criteria for the approval of applications under this section.

(f) QUALIFIED TRAINING CERTIFICATE.—The Secretary of Labor shall furnish to each individual having an application approved under this section a qualified training certificate. The certificate shall—

(1) state that the individual is, or will be, a participant in any activity certified under subsection (a), and

(2) state the certified distribution amount for such individual.

(g) CERTIFIED DISTRIBUTION AMOUNT.—For purposes of this section, the term, "certified distribution amount" means the amount of expenses which the Secretary of Labor determines the individual has incurred, or will incur, with respect to any activity certified under subsection (a) in which such individual is, or will be, a participant.

S. 1801

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EMPLOYEE TRAINING CREDIT.

(a) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1954 (relating to credits allowable against tax) is amended by inserting after section 44H the following new section:

"SEC. 44I. EMPLOYEE TRAINING CREDIT.

"(a) IN GENERAL.—There shall be allowed as a credit against the tax imposed by this

chapter for the taxable year an amount equal to 25 percent of the excess, if any, of—

"(1) the qualified training expenses of the taxpayer for such taxable year, over

"(2) the base period training expenses of such taxpayer.

"(b) QUALIFIED TRAINING EXPENSES.—For purposes of this section—

"(1) IN GENERAL.—The term 'qualified training expenses' means the aggregate amount of expenses paid or incurred by the taxpayer during the taxable year in connection with the training of employees under approved training programs.

"(2) Approved training programs.—The term 'approved training program' means—

"(A) any State or federally registered apprenticeship program,

"(B) any employer-designed program which meets such minimum requirements with respect to supervised on-the-job experience and classroom instruction as the Secretary of Labor shall by regulations prescribe,

"(C) any cooperative education programs of work and study (within the meaning of the Vocational Education Act of 1963 (20 U.S.C. 2301 et seq.), as amended),

"(D) any training program designated by the Secretary of Labor which is carried out under the supervision of an institution of higher education (within the meaning of section 1201(a) of the Higher Education Act of 1965 (20 U.S.C. 1141 (a))), or

"(E) such other programs as the Secretary of Labor shall designate.

"(c) BASE PERIOD TRAINING EXPENSES.—For purposes of this section—

"(1) IN GENERAL.—The term 'base period training expenses' means the average of the qualified training expenses for each year in the base period.

"(A) IN GENERAL.—The term 'base period' means the 3 taxable years immediately preceding the taxable year for which the determination is being made (hereinafter in this section referred to as the 'determination year').

"(B) TRANSITIONAL RULES.—Subparagraph (A) shall be applied—

"(i) by substituting 'first taxable year' for '3 taxable years' in the case of the first determination year beginning after December 31, 1982, and

"(ii) by substituting '2' for '3' in the case of the second determination year beginning after December 31, 1982.

"(3) MINIMUM BASE PERIOD TRAINING EXPENSES.—In no event shall the base period training expenses be less than 50 percent of the qualified training expenses for the determination year.

"(d) LIABILITY FOR TAX.—The credit allowed by subsection (a) for any taxable year shall not exceed the amount of the tax imposed by this chapter for such taxable year reduced by the sum of the credits allowable under a section of this part having a lower number or letter designation than this section (other than the credits allowable by sections 31, 39, and 43). For purposes of the preceding sentence, the term 'tax imposed by this chapter' shall not include any tax treated as not imposed by this chapter under the last sentence of section 53 (a).

"(e) SPECIAL RULES.—For purposes of this section—

"(1) AGGREGATION OF QUALIFIED WAGES.—

"(A) CONTROLLED GROUP OF CORPORATIONS.—In determining the amount of the credit under this section—

"(i) all members of the same controlled group of corporations shall be treated as a single taxpayer, and

"(ii) the credit (if any) allowable by this section to each such member shall be its proportionate share of the increase in qualified training expenses giving rise to the credit.

"(B) COMMON CONTROL.—Under regulations prescribed by the Secretary, in determining the amount of credit under this section—

"(i) all trades or businesses (whether or not incorporated) which are under common control shall be treated as a single taxpayer, and

"(ii) the credit (if any) allowable by this section to each such trade or business shall be its proportionate share of the increase in qualified training expenses giving rise to the credit.

The regulations prescribed under this subparagraph shall be based on principles similar to the principles which apply in the case of subparagraph (A).

"(2) ALLOCATIONS—

"(A) PASSTHROUGH IN THE CASE OF SUBCHAPTER S CORPORATIONS, ETC.—Under regulations prescribed by the Secretary, rules similar to the rules of subsections (d) and (e) of section 52 shall apply.

"(B) ALLOCATION IN THE CASE OF PARTNERSHIPS.—In the case of partnerships, the credit shall be allocated among partners under regulations prescribed by the Secretary.

"(3) ADJUSTMENTS FOR CERTAIN ACQUISITIONS, ETC.—Under regulations prescribed by the Secretary—

"(A) ACQUISITIONS.—If, after December 31, 1982, a taxpayer acquires the major portion of a trade or business of another person (hereinafter in this paragraph referred to as the 'predecessor') or the major portion of a separate unit of a trade or business of a predecessor, then, for purposes of applying this section for any taxable year ending after such acquisition, the amount of qualified training expenses paid or incurred by the taxpayer during periods before such acquisition shall be increased by so much of such expenses paid or incurred by the predecessor with respect to the acquired trade or business as is attributable to the portion of such trade or business or separate unit acquired by the taxpayer.

"(B) DISPOSITORS.—If, after December 31, 1982—

"(i) a taxpayer disposes of the major portion of any trade or business or the major portion of a separate unit of a trade or business in a transaction to which subparagraph (A) applies, and

"(ii) the taxpayer furnished the acquiring person such information as is necessary for the application of subparagraph (A),

then, for purposes of applying this section for any taxable year ending after such disposition, the amount of qualified training expenses paid or incurred by the taxpayer during periods before such dispositor shall be decreased by so much of such expenses as is attributable to the portion of such trade or business or separate unit disposed of by the taxpayer.

"(4) SHORT TAXABLE YEARS.—In the case of any short taxable year, qualified training expenses shall be annualized in such circumstances and under such methods as the Secretary may prescribe by regulations.

"(5) CONTROLLED GROUP OF CORPORATIONS.—The term 'controlled group of corporations' has the same meaning given to such term by section 1563(a), except that—

"(A) 'more than 50 percent' shall be substituted for 'at least 80 percent' each place it appears in section 1563(a)(1), and

"(B) the determination shall be made without regard to subsections (a)(4) and (e)(3)(C) of section 1563.

"(f) ADDITIONAL BENEFIT.—The credit allowable under this section with respect to qualified training expenses of the taxpayer shall be in addition to any deduction or credit allowed the taxpayer under any other provision of this chapter with respect to such expenses.".

(b) CONFORMING AMENDMENTS.—

"(1) The table of sections for subpart A of part IV of subchapter A of chapter 1 of such Code is amended by inserting after the item relating to section 44H the following new item:

"Sec. 44I. Employee training credit.".

"(2) Subsection (b) of section 6096 (relating to designation of income tax payment to Presidential Election Campaign Fund) is amended by striking out "and 44H" and inserting in lieu thereof "44H, and 44I".

SEC. 2. EFFECTIVE DATE.

The amendments made by this Act shall apply to taxable years beginning after December 31, 1983.

By Mr. PERCY (for himself and Mr. DIXON):

S. 1802. A bill to amend the Housing and Community Development Act of 1974 to allow newly designated metropolitan cities to retain their former status, permitting a county which was an urban county to retain its status as an urban county; to the Committee on Banking, Housing and Urban Affairs.

ST. CLAIR AND MADISON COUNTIES, ILL.

Mr. PERCY. Mr. President, I am introducing legislation today, with my distinguished colleague from Illinois, Senator DIXON, which allow St. Clair and Madison Counties in Illinois to continue receiving community development block grant (CDBG) funds beyond fiscal year 1984. The CDBG program has been a vital source of funds for these two counties in the southern part of my State.

As a result of new regulations developed by the Office of Management and Budget and the Department of Housing and Urban Development, combined with the use of new census data, a very unfortunate and unanticipated situation has developed. These counties will no longer be eligible for the CDBG program because the cities of Belleville in St. Clair County, and Granite City and Alton in Madison County have been designated as "metropolitan cities." Under HUD's rules, the counties are no longer able to count the population of these cities as part of the county.

I do not believe that it was the intent of Congress in establishing this program, or of the administration in drafting these regulations to knock these counties out of the program. I should add that there are only three counties in the country—of the more than 90 urban counties in the program—that are affected this way. St. Clair and Madison Counties stand to lose over $3 million each as a result of these changes. Belleville, Alton, and

Granite City, along with these two counties in Illinois, want the counties to continue to be eligible for CDBG funds as urban counties.

Mr. President, I feel strongly that the cities and counties, together, should have the right to decide for themselves the best way to administer these funds. I know that my colleague, Senator DIXON, also feels strongly about this matter. Senator DIXON's hometown is Belleville in St. Clair County—he knows the importance of the program to this part of Illinois. For the past 3 years, St. Clair County has used its $11 million CDBG funds for senior citizen home construction, housing rehabilitation, sewer and water installation and repair, and other important projects. Madison County has made tremendous use of its funds for economic development, public works projects and housing rehabilitation, and loans.

Mr. President, while unemployment is dropping in Illinois, it is still higher than the national average. The unemployment rate in St. Clair County is 13 percent, and 15 percent in Madison County. Now would be the worst possible time to pull out the rug from under Madison and St. Clair Counties. I have been doing everything I can do to speed this recovery in Illinois. Just 2 months ago, I announced that Madison County was awarded a $2.5 million Federal urban development action grant which will create 300 new permanent jobs, 40 construction jobs, and a $24 million investment for Granite City.

The bill Senator DIXON and I am sponsoring will simply provide that when a county was previously eligible for the program, but has lost its eligibility because of the designation of a new metropolitan city, it may remain an urban county. Under the bill, the county can only retain its eligibility if the newly designated metropolitan city in the county decides not to be a metropolitan city, for the purposes of this program. This legislation will not cost the Treasury any additional funds over appropriations in fiscal year 1983.

Senator DIXON and I will fight for the continuation of this program in Madison and St. Clair Counties. We intend to offer this bill language as an amendment to the housing authorization bill, or other appropriate vehicles, when the Senate returns this fall.

Mr. DIXON. Mr. President, I am pleased to join my distinguished friend and colleague, the senior Senator from Illinois, Mr. PERCY, in offering legislation which is aimed at rectifying a situation that has placed in jeopardy the participation in the community development block grant (CDGB) program of two counties in my State.

Under changes drafted by the Office of Management and Budget (OMB) and implemented by the Department of Housing and Urban Development (HUD), the cities of Belleville in St. Clair County, and Alton and Granite City in Madison County, would be classified as "central cities" in their metropolitan areas. Because of the classification, the population of these cities will no longer be included in the total population of their counties.

That, in turn, would cause the population of the counties to fall below the level required for urban county participation in the CDBG program.

I have received notice from the mayors of the cities affected by the changes, informing me that they prefer to continue to have their counties undertake the essential community development and housing assistance activities. The county officials desire to continue to undertake these activities.

The purpose of this legislation is to permit just that. It would permit a city that becomes classified as a metropolitan city and whose population is already included in the population of the county, to defer the classification and to continue to have its population included in the population of the county.

According to HUD, it appears that the only counties affected by the change are the two in Illinois, one in New Jersey, and possibly one in California.

Mr. President, I sincerely hope that my colleagues will join us in attempting to remedy this problem.

By Mr. PRYOR:

S. 1803. A bill to reduce paperwork in the administration of certain construction provisions of law relating to wage rates; to the Committee on Governmental Affairs.

REDUCING THE PAPERWORK BURDEN ON FEDERAL CONSTRUCTION CONTRACTORS

Mr. PRYOR. Mr. President, I am today introducing legislation to reduce the paperwork burden on Federal construction contractors. The bill has a simple purpose. It would change the requirement that construction contractors on Federal building projects report weekly concerning wages paid. The weekly report has become an unnecessary paperwork burden, so I propose to require instead that reports be filed with the contracting agencies only at the beginning and the end of the contract period.

This measure is intended to do something concrete and meaningful about burdensome Government regulations—something that will actually provide relief to the individuals affected.

The Copeland Antikickback Act, originally passed in 1934, makes it illegal to ask workers on Federal construction projects to kick back or return a portion of their wages to the contractor as a means of circumventing the prevailing wage standards of the Davis-Bacon Act. The Copeland Act and Department of Labor regulations implementing it require contractors to furnish weekly statements with respect to wages paid each employee during the preceding week.

In 1958 the Senate Government Operations Committee approved legislation amending the original act to remove the requirement that the weekly statements be "sworn affidavit(s)," and substituted instead the word "statement," making it subject to the False Information Act and, therefore, liable to criminal sanction. The purpose of that action is the same as the purpose of this proposal—that is, to simplify the filing of payroll information without reducing its usefulness as an enforcement tool.

It is the intention of this proposal to eliminate the requirement for submission of the weekly statement of wages and the requirement for submission of weekly payroll records. This proposal is intended to mean the total elimination of weekly filing requirements on federally involved construction contracts.

The language of the Copeland Act directs the Secretary of Labor to make reasonable regulations in furtherance of its purpose. Under current regulations, contractors must send weekly payroll reports to the contracting agency or to a Department of Labor area representative. The prime contractor is made responsible for assuring that all subcontractors used on the project adhere to the requirements, and for certifying and transmitting the subcontractors weekly payrolls to the contracting agency. This is in addition to a requirement that payroll and other basic records be preserved by contractors for a period of 3 years after the work is completed.

The information which is required to be reported weekly includes the following: Name and address of the contractor, project and its location, or contract number, payroll number, week of filing; and for each employee: Name, address, social security number, number of withholding exemptions, number of hours worked each day of the week, rate of pay, gross earnings, FICA, withholding tax and other deductions, and net wages paid for the week.

Additional requirements include more certifications that no rebates have been made, and certifications about fringe benefits paid.

Theoretically, the weekly reports are examined by Department of Labor inspectors or other contract specialists, and the payroll information is compared to the prevailing wages prescribed by the Labor Department. However, Labor authorities have reported that real enforcement comes not from examination of these weekly payroll records submitted but rather from spot checking carried out by the

contracting agencies as well as the Department of Labor. When a worker reports an apparent violation, an onsite check is made.

Although it is difficult to pinpoint precisely the exact costs of complying weekly with the payroll reporting requirements, it is obvious that the paperwork involved is immense and the costs high.

Furthermore, the costs are not to the contractors alone. The monitoring requirement placed on contracting agencies is made burdensome and unwieldy when payrolls must be submitted weekly.

In a report released in 1979, the General Accounting Office estimated that the annual cost to contractors throughout the country is about $190 million. Although only a portion of this amount is directly attributable to the weekly reports required by the Copeland Act, I believe it to be a substantial portion.

My hope and aim is that Federal reporting requirements in this area will be amended to resemble the 1969 Arkansas law for public works construction. Section 14-635 of the Arkansas State Code requires simply that contractors and subcontractors keep records of the names, occupations, hours worked, and actual wages paid each workman, and that such records be available for inspection by the department which awarded the contract.

We, at the Federal level, can learn from this simple and reasonable approach.

By Mr. DOLE (for himself, Mr. BOREN, Mr. SYMMS and Mr. DANFORTH):

S. 1804. A bill to amend the Internal Revenue Code of 1954 with respect to the tax treatment of foreign sales corporations; to the Committee on Finance.

FOREIGN SALES CORPORATION ACT

Mr. DOLE. Mr. President, I am pleased to introduce the administration's Foreign Sales Corporation Act proposal to replace the Domestic International Sales Corporation (DISC). The introduction of this proposal is, I hope, the final chapter in a dispute with other signatories of the General Agreement on Tariffs and Trade (GATT), who have contended that DISC amounts to an illegal export subsidy. The DISC was enacted in 1971 in an effort to enable U.S. exporters to receive tax treatment of their export income comparable to that which many foreign countries have afforded to their exporters. The disadvantage faced by our exporters was largely of our own making, and reflected the differences between our system of taxing worldwide income and territorial systems of taxation which are common in Europe. Without mirroring these territorial systems, the DISC attempted to remove this export disincentive by conferring tax benefits which would be comparable to those afforded by territorial systems.

But several of our European trading partners filed complaints with the GATT arguing that DISC is an export subsidy which contravenes our commitment under the GATT. The United States also filed GATT complaints against certain export tax practices of Belgium, France, and the Netherlands. A GATT panel concluded that both the DISC and certain tax practices of the three European countries had some characteristics of an illegal export subsidy. In 1982, after years of negotiation and debate in the GATT, the GATT Council urged the United States to bring DISC clearly into conformity with the GATT. The European Community requested authorization from the GATT Council to take retaliatory action against the United States. In the interest of removing this continuing irritant to our trading relationship, the President made a commitment to the GATT Council in October 1, 1982, to propose legislation which would address the concerns of the GATT members.

The proposal I am introducing today is the result of the adminstration's substantial effort to replace DISC with a simpler, GATT-legal system which will not place American exporters at a competitive disadvantage. I am determined to defend the competitive posture of our exporters; our exporters must be permitted to meet their foreign competition on a level playing field. Neither DISC nor the administration's proposed substitute seeks to give American exporters any unfair advantage over their foreign competitors; rather these measures seek to compensate for the disadvantage which our exporters would face in the absence of such measures.

We shall examine this proposal carefully and work with the administration in making appropriate changes, if necessary. I ask unanimous consent to have a summary of the proposal and its legislative language printed in the RECORD immediately following this statement.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SUMMARY OF THE FOREIGN SALES CORPORATION ACT

Generally, the Foreign Sales Corporation Act provides tax rules for exports of goods and services. It repeals the present Domestic International Sales Corporation (DISC) rules, with an exception for small exporters, and forgives tax on DISC income that has already benefited from tax deferral. The DISC provisions would be replaced by rules which would exempt from tax 17 percent of the taxable income that a foreign sales corporation and a related party derive from an export transaction. Alternatively, up to 1.35 percent of the gross receipts from the transaction would be tax exempt.

A foreign sales corporation is a new kind of entity. It must be organized under the laws of a jurisdiction outside the U.S. customs area and must have at least one director who is not a U.S. resident. It must maintain an office outside U.S. customs territory, and it must keep tax records both at that office and in the United States. In addition, it must elect foreign sales corporation treatment.

The legislation applies to the export income of a foreign sales corporation if the corporation is managed outside the United States and if economic processes of the transaction take place outside the United States. In addition, the legislation provides special rules in income of small foreign sales corporations with up to $2,500,000 of export receipts.

To be managed outside the United States, a foreign sales corporation must have its shareholders' meetings, board meetings, and principal bank account outside the United States. To meet the economic process test, the foreign sales corporation or its agent must solicit, negotiate, or make the contract relating to the transaction outside the United States. In addition, half of the costs the foreign sales corporation incurs for advertising, handling orders, transportation, collection, and assumption of credit risk must be for performance outside the United States. Alternatively it may incur 85 percent of its costs for any two of these five activities for their performance outside the United States.

Some export transactions between foreign sales corporations and related U.S. taxpayers qualify for administrative transfer pricing rules. These administrative rules are available only if the foreign sales corporation or its agent performs all the activities of the economic process test. Under these rules, the foreign sales corporation generally earns the greater of 23 percent of the taxable income that it and its related party derive from the transaction or 1.83 percent of the gross receipts from the transaction.

The legislation exempts a portion of the export income of a foreign sales corporation from U.S. tax. If the transaction is subject to one of the administrative transfer pricing rules, this exempt portion is 17⅓ of the foreign sales corporation's income from the transaction. Otherwise, this exempt portion is 34 percent of its export income. The rest of export income is subject to U.S. tax. All investment income of a foreign sales corporation is also subject to U.S. tax. Dividends from export income of a foreign sales corporation to a U.S. corporate shareholder are tax exempt.

The legislation also provides tax deferral under the DISC rules for companies with up to $10 million of export receipts, but requires those companies to pay interest on the deferred tax.

In addition, the legislation requires that foreign sales corporations and DISC's have the same taxable year as their parent corporations. It provides that income from trade receivables of a related party is passive income subject to antiincorporated pocketbook and antitax haven rules. Finally, it treats accumulated DISC income as having been previously taxed.

S. 1804

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE: AMENDMENT OF 1954 CODE.

(a) Short Title.—This Act may be cited as the "Foreign Sales Corporation Act of 1983".

(b) Amendment of 1954 Code.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

SEC. 2. FOREIGN SALES CORPORATIONS.

(a) In General.—Part III of subchapter N of chapter 1 (relating to income from sources outside the United States) is amended by inserting after subpart B the following new subpart:

Subpart C—Taxation of Foreign Sales Corporations

"Sec. 921. Exempt foreign trade income excluded from gross income.
"Sec. 922. FSC defined.
"Sec. 923. Exempt foreign trade income.
"Sec. 924. Foreign trading gross receipts.
"Sec. 925. Transfer pricing rules.
"Sec. 926. Distributions to shareholders.
"Sec. 927. Other definitions and special rules.

"SEC. 921. EXEMPT FOREIGN TRADE INCOME EXCLUDED FROM GROSS INCOME.

"(a) Exclusion.—Exempt foreign trade income of a FSC shall be treated as foreign source income which is not effectively connected with the conduct of a trade or business within the United States.

"(b) Proportionate Allocation Of Deductions To Exempt Foreign Trade Income.—Any deductions of the FSC properly apportioned and allocated to the foreign trade income derived by a FSC from any transaction shall be allocated between—

"(1) the exempt foreign trade income derived from such transaction, and

"(2) the foreign trade income (other than exempt foreign trade income) derived from such transaction,

on a proportionate basis.

"(c) Denial of Credits.—Notwithstanding any other provision of this chapter, no credit (other than a credit allowable under section 32, 33(a), 39, or 901) shall be allowed under this chapter to any FSC.

"(d) Foreign Trade Income, Investment Income, and Carrying Charges Treated as Effectively Connected With United States Business.—For purposes of this chapter—

"(1) all foreign trade income of a FSC (other than exempt foreign trade income),

"(2) all interest, dividends, royalties, and other investment income received by a FSC, and

"(3) all carrying charges received by a FSC,

shall be treated as income effectively connected with the conduct of a trade or business conducted through permanent establishment of such corporation within the United States. Income described in paragraph (1) shall be treated as derived from sources within the United States.

"SEC. 922. FSC DEFINED.

"(a) FSC Defined.—For purposes of this title, the term 'FSC' means any corporation—

"(1) which—

"(A) was created or organized—

"(i) under the laws of any foreign country, or

"(ii) under the laws applicable to any possession of the United States,

"(B) has no more than 25 shareholders at any time during the taxable year,

"(C) does not have any preferred stock outstanding at any time during the taxable year,

"(D) during the taxable year—

"(i) maintains an office located outside the United States,

"(ii) maintains a set of the permanent books of account of such corporation at such office, and

"(iii) maintains at a location within the United States the records which such corporation is required to keep under section 6001,

"(E) at all times during the taxable year, has a board of directors which includes at least one individual who is not a resident of the United States, and

"(F) is not a member, at any time during the taxable year, of any controlled group of corporations of which a DISC is a member, and

"(2) which has made an election (at the time and in the manner provided in section 927(f)(1)) which is in effect for the taxable year to be treated as a FSC.

"(b) Small FSC Defined.—For purposes of this title, a FSC is a small FSC with respect to any taxable year if—

"(1) such corporation has made an election (at the time and in the manner provided in section 927(f)(1) which is in effect for the taxable year to be treated as a small FSC, and

"(2) such corporation is not a member, at any time during the taxable year, of a controlled group of corporations which includes a FSC unless such other FSC has also made an election under paragraph (1) which is in effect for such year.

"SEC. 923. EXEMPT FOREIGN TRADE INCOME.

"(a) Exempt Foreign Trade Income.—For purposes of this subpart—

"(1) In general.—The term 'exempt foreign trade income' means the aggregate amount of all foreign trade income of a FSC for the taxable year which is described in paragraph (2) or (3).

"(2) Income determined without regard to administrative pricing rules.—In the case of any transaction to which paragraph (3) does not apply, 34 percent of the foreign trade income derived from such transaction shall be treated as described in this paragraph.

"(3) Income determined with regard to administrative pricing rules.—In the case of any transaction with respect to which paragraph (1) or (2) of section 925(a) (or the corresponding provisions of the regulations prescribed under section 925(b)) applies, 17/23 of the foreign trade income derived from such transaction shall be treated as described in this paragraph.

"(b) Foreign Trade Income Defined.—For purposes of this subpart, the term 'foreign trade income' means the gross income of a FSC attributable to foreign trading gross receipts.

"SEC. 924. FOREIGN TRADING GROSS RECEIPTS.

"(A) In General.—Except as otherwise provided in this section, for purposes of this subpart, the term 'foreign trading gross receipts' means the gross receipts of any FSC which are—

"(1) from the sale, exchange, or other disposition of export property,

"(2) from the lease or rental of export property for use by the lessee outside the United States,

"(3) for services which are related and subsidiary to—

"(A) any sale, exchange, or other disposition of export property by such corporation, or

"(B) any lease or rental of export property described in paragraph (2) by such corporation,

"(4) for engineering or architectural services for construction projects located (or proposed for location) outside the United States, or

"(5) for the performance of managerial services in furtherance of the production of gross receipts described in paragraphs (1), (2), (3), or (4).

"(b) Foreign Management and Foreign Economic Process Requirements.—

"(1) In general.—Except as provided in paragraph (2)—

"(A) a FSC shall be treated as having foreign trading gross receipts for the taxable year only if the management of such corporation during such taxable year takes place outside the United States as required by subsection (c), and

"(B) a FSC has foreign trading gross receipts from any transaction only if economic processes with respect to such transaction take place outside the United States as required by subsection (d).

"(2) Exception for small FSC.—

"(A) In general.—Paragraph (1) shall not apply with respect to any small FSC.

"(B) Limitation on amount of foreign trading gross receipts of small FSC taken into account.—

"(i) In general.—Any foreign trading gross receipts of a small FSC for the taxable year which exceed $2,500,000 shall not be taken into account in determining the exempt foreign trade income of such corporation and shall not be taken into account under any other provision of this subpart.

"(ii) Allocation of limitation.—If the foreign trading gross receipts of a small FSC exceed the limitation of clause (i), the corporation may allocate such limitation among such gross receipts in such manner as it may select (at such time and in such manner as may be prescribed in regulations).

"(iii) Receipts of controlled group aggregated.—For purposes of applying clauses (i) and (ii), all small FSCs which are members of the same controlled group of corporations shall be treated as a single corporation.

"(iv) Allocation of limitation among members of controlled group.—The limitation under clause (i) shall be allocated among the foreign trading gross receipts of small FSCs which are members of the same controlled group of corporations in a manner provided in regulations prescribed by the Secretary.

"(c) Requirement That FSC Be Managed Outside the United States.—The management of a FSC meets the requirements of this subsection for the taxable year if—

"(1) all meetings of the board of directors of the corporation, and all meetings of the shareholders of the corporation, are outside the United States,

"(2) the principal bank account of the corporation is maintained outside the United States at all times during the taxable year, and

"(3) all dividends, legal and accounting fees, and salaries of officers and members of the board of directors of the corporation disbursed during the taxable year are disbursed out of bank accounts of the corporation maintained outside the United States.

"(d) REQUIREMENT THAT ECONOMIC PROCESSES TAKE PLACE OUTSIDE THE UNITED STATES.—

"(1) IN GENERAL.—The requirements of this subsection are met with respect to the gross receipts of a FSC derived from any transaction if—

"(A) such corporation (or any person acting under a contract with such corporation) has participated outside the United States in the solicitation (other than advertising), the negotiation, or the making of the contract relating to such transaction, and

"(B) the foreign direct costs incurred by the FSC attributable to the transaction equal or exceed 50 percent of the total direct costs incurred by the FSC attributable to the transaction.

"(2) ALTERNATIVE 85-PERCENT TEST—A corporation shall be treated as satisfying the requirements of paragraph (1)(B) with respect to any transaction if, with respect to each of at least 2 paragraphs of subsection (e), the foreign direct costs incurred by such corporation attributable to activities described in such paragraph equal or exceed 85 percent of the total direct costs attributable to activities described in such paragraph.

"(3) DEFINITIONS—For purposes of this subsection—

"(A) TOTAL DIRECT COSTS—The term 'total direct costs' means, with respect to any transaction, the total direct costs incurred by the FSC attributable to activities described in subsection (e) performed at any location by the FSC or any person acting under a contract with such FSC.

"(B) FOREIGN DIRECT COSTS—The term 'foreign direct costs' means, with respect to any transaction, the portion of the total direct costs which are attributable to activities performed outside the United States.

"(4) RULES FOR COMMISSIONS, ETC.—The Secretary shall prescribe such regulations as may be necessary to carry out the purposes of this subsection and subsection (e) in the case of commissions, rentals, and furnishing of services.

"(e) ACTIVITIES RELATING TO DISPOSITION OF EXPORT PROPERTY.—The activities referred to in subsection (d) are—

"(1) advertising and sales promotion,

"(2) the processing of customer orders and the arranging for delivery (outside the United States) of the export property.

"(3) transportation from the time of acquisition by the FSC (or, in the case of a commission relationship, from the beginning of such relationship for such transaction) to the delivery to the customer.

"(4) the determination and transmittal of a final invoice or statement of account and the receipt of payment, and

"(5) the assumption of credit risk.

"(f) BURDEN OF PROOF REGARDING FOREIGN MANAGEMENT AND ECONOMIC PROCESS REQUIREMENTS.—

"(1) IN GENERAL.—In any judicial or administrative proceeding involving the issue of whether—

"(A) a FSC meets the requirements of subsection (c) for a taxable year, or

"(B) a transaction meets the requirements of subsection (d),

the burden of proof with respect to such issue shall be upon the Secretary if a written statement addressing such issue has been filed by an officer of such corporation under paragraph (2).

"(2) AFFIDAVIT.—An authorized officer of a FSC who is a citizen and resident of the United States may file with the Secretary (at such time and in such manner as the Secretary shall by regulations prescribe) a verified written statement made by such officer under penalties of perjury which—

"(A) declares that such corporation meets the requirements of subsection (c) for the taxable year and specifies how such requirements have been met, or

"(B) declares that specified transactions of such corporation for the taxable year meet the requirements of subsection (d) and specifies how such requirements have been met.

"(g) CERTAIN RECEIPTS NOT INCLUDED IN FOREIGN TRADING GROSS RECEIPTS.—

"(1) CERTAIN RECEIPTS EXCLUDED ON BASIS OF USE; SUBSIDIZED RECEIPTS AND RECEIPTS FROM RELATED PARTIES EXCLUDED.—The term 'foreign trading gross receipts' shall not include receipts of a FSC from a transaction if—

"(A) the export property or services—

"(i) are for ultimate use in the United States, or

"(ii) are for use by the United States or any instrumentality thereof and such use of export property or services is required by law or regulation,

"(B) such transaction is accomplished by a subsidy granted by the United States or any instrumentality thereof, or

"(C) such receipts are from another FSC which is a member of the same controlled group of corporations of which such corporation is a member.

"(2) ONE-HALF OF RECEIPTS FROM MILITARY PROPERTY EXCLUDED.—The term 'foreign trading gross receipts' shall not include 50 percent of the gross receipts for the taxable year attributable to the disposition of, or services relating to, military property (within the meaning of section 995(b)(3)(B)).

"(3) INVESTMENT INCOME; CARRYING CHARGES.—The term 'foreign trading gross receipts' shall not include any investment income or carrying charges.

"SEC. 925. TRANSFER PRICING RULES.

"(a) IN GENERAL.—In the case of a sale of export property to a FSC by a person described in section 482, the taxable income of such FSC and such person shall be based upon a transfer price which would allow such FSC to derive taxable income attributable to such sale (regardless of the sale price actually charged) in an amount which does not exceed the greatest of—

"(1) 1.83 percent of the foreign trading gross receipts derived from the sale of such property by such FSC,

"(2) 23 percent of the combined taxable income of such FSC and such person which is attributable to the foreign trading gross receipts derived from the sale of such property by such FSC, or

"(3) taxable income based upon the sale price actually charged (but subject to the rules provided in section 482).

Paragraphs (1) and (2) shall apply only if the FSC meets the requirements of subsection (c) with respect to the sale.

"(b) RULES FOR COMMISSIONS, RENTALS, AND MARGINAL COSTING.—The Secretary shall prescribe regulations setting forth—

"(1) rules which are consistent with the rules set forth in subsection (a) for the application of this section in the case of commissions, rentals, and other income, and

"(2) rules for the allocation fo expenditures in computing combined taxable income under subsection (a)(2) in those cases where a FSC is seeking to establish or maintain a market for export property.

"(c) REQUIREMENTS FOR USE OF ADMINISTRATIVE PRICING RULES.—A sale by a FSC meets the requirements of this subsection if—

"(1) all of the activities described in section 924(e) attributable to such sale, and

"(2) all of the activities relating to the solicitation (other than advertising), negotiation, and making of the contract for such sale.

have been performed by such FSC (or by another person acting under a contract with such FSC).

"(d) LIMITATION ON GROSS RECEIPTS PRICING RULE.—The amount determined under subsection (a)(1) with respect to any transaction shall not exceed 2 times the amount which would be determined under subsection (a)(2) with respect to such transaction.

"(e) TAXABLE INCOME.—For purposes of this section, the taxable income of a FSC shall be determined without regard to section 921.

"SEC. 926. DISTRIBUTIONS TO SHAREHOLDERS.

"(a) DISTRIBUTIONS MADE FIRST OUT OF FOREIGN TRADE INCOME.—For purposes of this title, any distribution to a shareholder of a FSC by such FSC which is made out of earnings and profits shall be treated as made—

"(1) first, out of earnings, and profits attributable to foreign trade income, to the extent thereof, and

"(2) then, out of any other earnings and profits.

"(b) DISTRIBUTIONS BY FSC TO NONRESIDENT ALIENS AND FOREIGN CORPORATIONS TREATED AS U.S. CONNECTED.—For purposes of this title, any distribution by a FSC which is made out of earnings and profits attributable to foreign trade income to any shareholder of such corporation which is a foreign corporation or a nonresident alien individual shall be treated as a distribution which is effectively connected with the conduct of a trade or business conducted through a permanent establishment of such shareholder within the United States.

"(c) FSC INCLUDES FORMER FSC.—For purposes of this section, the term 'FSC' includes a former FSC.

"SEC. 927. OTHER DEFINITIONS AND SPECIAL RULES.

"(a) EXPORT PROPERTY.—For purposes of this subpart—

"(1) IN GENERAL.—The term 'export property' means property—

"(A) manufactured, produced, grown, or extracted in the United States by a person other than a FSC,

"(B) held primarily for sale, lease, or rental, in the ordinary course of trade or business, by, or to, a FSC, for direct use, consumption, or disposition outside the United States, and

"(C) not more than 50 percent of the fair market value of which is attributable to articles imported into the United States.

For purposes of subparagraph (C), the fair market value of any article imported into the United States shall be its appraised value, as determined by the Secretary under section 402 of the Tariff Act of 1930 (19 U.S.C. 1401a) in connection with its importation.

"(2) EXCLUDED PROPERTY.—The term 'export property' shall not include—

"(A) property leased or rented by a FSC for use by any member of a controlled group of corporations of which such FSC is a member,

"(B) patents, inventions, models, designs, formulas, or processes whether or not patented, copyrights (other than films, tapes, records, or similar reproductions, for com-

mercial or home use), good will, trademarks, trade brands, franchises, or other like property.

"(C) oil or gas (or any primary product thereof), or

"(D) products the export of which is prohibited or curtailed under section 7(a) of the Export Administration Act of 1979 to effectuate the policy set forth in paragraph (2)(C) of section 3 of such Act (relating to the protection of the domestic economy).

"(3) PROPERTY IN SHORT SUPPLY.—If the President determines that the supply of any property described in paragraph (1) is insufficient to meet the requirements of the domestic economy, he may by Executive order designate the property as in short supply. Any property so designated shall not be treated as export property during the period beginning with the date specified in the Executive order and ending with the date specified in an Executive order setting forth the President's determination that the property is no longer in short supply.

"(4) FUNGIBLE AGRICULTURAL PRODUCTS MARKETED THROUGH COOPERATIVES.—

"(A) IN GENERAL.—Fungible agricultural products which are marketed through pooling arrangements of a cooperative described in section 521(b)(1) shall be treated as meeting the requirements of paragraph (1)(B) to the extent that such products are sold for direct use, consumption, or disposition outside the United States, and each member of such pool shall be considered as a producer of such property to the extent of his ratable share of such products based upon his contribution of products to the pool.

"(B) SUBPARAGRAPH (A) SHALL NOT APPLY WHERE COOPERATIVE SELLS THROUGH FSC OR DISC.—Subparagraph (A) shall not apply to any products which are sold by the cooperative through a FSC or DISC.

"(C) COOPERATIVE AS AGENT.— A cooperative marketing the products of its patrons shall be treated as acting as the agent of such patrons, regardless of any formal transfer of title to the cooperative.

"(b) GROSS RECEIPTS.—

"(1) IN GENERAL.—For purposes of this subpart, the term 'gross receipts' means—

"(A) the total receipt from the sale, lease, or rental of property held primarily for sale, lease, or rental in the ordinary course of trade or business, and

"(B) gross income from all other sources.

"(2) GROSS RECEIPTS TAKEN INTO ACCOUNT IN CASE OF COMMISSIONS.—In the case of commissions on the sale, lease, or rental of property, the amount taken into account for purposes of this subpart as gross receipts shall be the gross receipts on the sale, lease, or rental of the property on which such commissions arose.

"(c) INVESTMENT INCOME.—For purposes of this subpart, the term 'investment income' means—

"(1) dividends,

"(2) interest,

"(3) royalties,

"(4) annuities,

"(5) rents (other than rents from the lease or rental of export property for use by the lessee outside of the United States),

"(6) gains from the sale or exchange of stock or securities,

"(7) gains from futures transactions in any commodity on, or subject to the rules of, a board of trade or commodity exchange (other than gains which arise out of a bona fide hedging transaction reasonably necessary to conduct the business of the FSC in the manner in which such business is customarily conducted by others),

"(8) amounts includible in computing the taxable income of the corporation under part I of subchapter J, and

"(9) gains from the sale or other disposition of any interest in an estate or trust.

"(d) OTHER DEFINITIONS.—For purposes of this subpart—

"(1) CARRYING CHARGES.—The term 'carrying charges' means—

"(A) carrying charges, and

"(B) under regulations prescribed by the Secretary, any amount in excess of the price for an immediate cash sale and any other unstated interest.

"(2) TRANSACTION.—

"(A) IN GENERAL.—The term 'transaction' means—

"(i) any sale, exchange, or other disposition,

"(ii) any lease or rental, and

"(iii) any furnishing of services.

"(B) GROUPING OF TRANSACTIONS.—To the extent provided in regulations, any provision of this subpart which, but for this subparagraph, would be applied on a transaction-by-transaction basis may be applied by the taxpayer on the basis of groups of transactions based on product lines or recognized industry or trade usage. Such regulations may permit different groupings for different purposes.

"(3) UNITED STATES DEFINED.—The term 'United States' includes the Commonwealth of Puerto Rico.

"(4) CONTROLLED GROUP OF CORPORATIONS.—The term 'controlled group of corporations' has the meaning given to such term by section 1563(a), except that—

"(A) 'more than 50 percent' shall be substituted for 'at least 80 percent' each place it appears therein, and

"(B) section 1563(b) shall not apply.

"(5) POSSESSIONS.—The term 'possession of the United States' means Guam American Samoa, the Commonwealth of the Northern Mariana Islands, and the Virgin Islands of the United States.

"(e) SPECIAL RULES.—

"(1) SOURCE RULES FOR RELATED PERSONS.—Under regulations, the income of a person described in section 482 from a transaction giving rise to foreign trading gross receipts of a FSC which is treated as from sources outside the United States shall not exceed the amount which would be treated as foreign source income earned by such person if the pricing rule under section 994 which corresponds to the rule used under section 925 with respect to such transaction applied to such transaction.

"(2) PARTICIPATION IN INTERNATIONAL BOYCOTTS, ETC.—Under regulations prescribed by the Secretary, the exempt foreign trade income of a FSC for any taxable year shall be limited under rules similar to the rules of clauses (i) and (ii) of section 995(b)(1)(F).

"(f) ELECTION OF STATUS AS FSC (AND AS SMALL FSC).—

"(1) ELECTION.—

"(A) TIME FOR MAKING.—An election by a corporation under section 992(a)(2) to be treated as a FSC, and an election under section 992(b)(1) to be a small FSC, shall be made by such corporation for a taxable year at any time during the 90-day period immediately preceding the beginning of the taxable year, except that the Secretary may give his consent to the making of an election at such other times as he may designate.

"(B) MANNER OF ELECTION.—An election under subparagraph (A) shall be made in such manner as the Secretary shall prescribe and shall be valid only if all persons who are shareholders in such corporation on the first day of the first taxable year for which such election is effective consent to such election.

"(2) EFFECT OF ELECTION.—If a corporation makes an election under paragraph (1), then the provisions of this subpart shall apply to such corporation for the taxable year of the corporation for which made and for all succeeding taxable years.

"(3) TERMINATION OF ELECTION.—

"(A) REVOCATION.—An election under this subsection made by any corporation may be terminated by revocation of such election for any taxable year of the corporation after the first taxable year of the corporation for which the election is effective. A termination under this paragraph shall be effective with respect to such election—

"(i) for the taxable year in which made, if made at any time during the first 90 days of such taxable year, or

"(ii) for the taxable year following the taxable year in which made, if made after the close of such 90 days, and

for all suceeding taxable years of the corporation. Such termination shall be made in such manner as the Secretary shall prescribe by regulations.

"(B) CONTINUED FAILURE TO BE FSC.—If a corporation is not a FSC for each of any 5 consecutive taxable years of the corporation for which an election under this subsection is effective, the election to be a FSC shall be terminated and not be in effect for any taxable year of the corporation after such 5th year."

(b) DIVIDEND RECEIVED DEDUCTION FOR DOMESTIC CORPORATIONS.—

(1) IN GENERAL.—Section 245 (relating to dividends received from certain foreign corporations) is amended by redesignating subsection (c) as subsection (d) and by inserting after subsection (b) the following new subsection:

"(c) CERTAIN DIVIDENDS RECEIVED FROM FSC.—In the case of a domestic corporation, there shall be allowed as a deduction an amount equal to 100 percent of any dividend received by such corporation from another corporation which is distributed out of earnings and profits attributable to foreign trade income (within the meaning of section 923(b)) for a period during which such other corporation was a FSC. The deduction allowable under the preceding sentence with respect to any dividend shall be in lieu of any deduction allowable under subsection (a) or (b) with respect to such dividend."

(2) CONFORMING AMENDMENTS.—

(A) Paragraph (1) of section 246(b) (relating to limitation on aggregate amount of deduction) is amended by striking out "245" each place it appears and inserting in lieu thereof "subsection (a) or (b) of section 245".

(B) Subsection (d) of section 245 (relating to property distributions), as redesignated by paragraph (1), is amended by striking out "subsections (a) and (b)" and inserting in lieu thereof "this section".

(c) TREATMENT OF CERTAIN TRADE RECEIVABLES.—

(1) Subsection (a) of section 553 (defining foreign personal holding company income) is amended by adding at the end thereof the following new paragraph:

"(8) INCOME FROM TRADE RECEIVABLES OF RELATED PERSONS.—Income from an account receivable or evidence of indebtedness arising out of the disposition of property described in section 1221(1), or the performance of

services, by a related person (within the meaning of section 954(d)(3))".

(2) Subsection (b) of section 956 (defining United States person) is amended by adding at the end thereof the following new paragraph:

"(3) TRADE RECEIVABLES OF RELATED UNITED STATES PERSON.—Notwithstanding paragraph (2), the term 'United States property' includes an account receivable or evidence of indebtedness arising out of the disposition of property described in section 1221(1), or the performance of services, by a United States person who is a related person (within the meaning of section 954(d)(3))."

(d) CONFORMING AMENDMENTS.—

(1) Section 901 (relating to foreign tax credit) is amended by redesignating subsection (h) as subsection (i) and inserting after subsection (g) the following new subsection:

"(h) TAXES PAID WITH RESPECT TO FOREIGN TRADE INCOME.—No credit shall be allowed under this section for any income, war profits, and excess profits taxes paid or accrued with respect to the foreign trade income (within the meaning of section 923(b)) of a FSC."

(2) Section 902 (relating to credit for corporate stockholders in foreign corporation) is amended by redesignating subsection (d) as subsection (e) and inserting after subsection (c) the following new subsection:

"(d) TAXES PAID WITH RESPECT TO FOREIGN TRADE INCOME.—No corporation shall be deemed to have paid any income, war profits, or excess profits taxes with respect to foreign trade income (within the meaning of section 923(b)) of a FSC by reason of any provision of this section."

(3) Paragraph (1) of section 904(d) (relating to application of section in case of certain interest income and dividends from a DISC) is amended—

(A) by striking out "and" at the end of subparagraph (B),

(B) by striking out subparagraph (C) and inserting in lieu thereof the following:

"(C) taxable income attributable to foreign trade income (within the meaning of section 923(b)).

"(D) distributions from a FSC (or former FSC) out of earnings and profits attributable to foreign trade income (within the meaning of section 923(b)), and

"(E) income other than income described in subparagraph (A), (C), or (D)", and

(C) by striking out the heading and inserting in lieu thereof:

"(d) SEPARATE APPLICATION OF SECTION WITH RESPECT TO CERTAIN INTEREST INCOME AND INCOME FROM DISC, FORMER DISC, FSC, OR FORMER FSC.—".

(4) Subsection (b) of section 906 (relating to special rules) is amended by adding at the end thereof the following new paragraph:

"(5) No credit shall be allowed under this section for any income, war profits, and excess profits taxes paid or accrued with respect to the foreign trade income (within the meaning of section 923(b)) of a FSC."

(5) Section 951 (relating to amounts included in gross income of shareholders) is amended by adding at the end thereof the following new subsection:

"(e) FOREIGN TRADE INCOME NOT TAKEN INTO ACCOUNT.—The foreign trade income (within the meaning of section 923(b)) of a FSC and any deductions which are apportioned or allocated to such income shall not be taken into account under this subpart."

(6) Paragraph (4) of section 275(a) (relating to disallowance of deduction for certain taxes) is amended to read as follows:

"(4) Income, war profits, and excess profits taxes imposed by the authority of any foreign country or possession of the United States if—

"(A) the taxpayer chooses to take to any extent the benefits of section 901, or

"(B) such taxes are paid or accrued with respect to foreign trade income (within the meaning of section 923(b)) of a FSC."

(7) Subsection (d) of section 1248 (relating to exclusions from earnings and profits) is amended by adding at the end thereof the following new paragraph:

"(6) FOREIGN TRADE INCOME.—Earnings and profits of the foreign corporation attributable to foreign trade income (within the meaning of section 923(b)) of a FSC."

(8) Section 934 (relating to limitation on reduction in income tax liability incurred to the Virgin Islands) is amended by adding at the end there of the following new subsection:

"(f) FSC.—Subsection (a) shall not apply in the case of a Virgin Islands corporation which is a FSC."

SEC. 2. INTEREST CHARGE DISC.

(a) INTEREST CHARGE ON DEFERRED TAX.—Section 995 (relating to taxation of DISC income to shareholders) is amended—

(1) by striking our subsections (e) and (f),

(2) by redesignating subsection (g) as subsection (e), and

(3) by adding at the end thereof the following new subsection:

"(f) INTEREST ON DISC-RELATED DEFERRED TAX LIABILITY.—

"(1) IN GENERAL.—A shareholder of a DISC shall pay for each taxable year interest in an amount equal to the product of—

"(A) the shareholder's DISC-related deferred tax liability for such year, and

"(B) the base period T-bill rate.

"(2) SHAREHOLDER'S DISC-RELATED DEFERRED TAX LIABILITY.—

For purposes of this subsection—

"(A) IN GENERAL.—The term 'shareholder's DISC-related deferred tax liability' means, with respect to any taxable year of a shareholder of a DISC, the excess of—

"(i) the amount which would be the tax liability of the shareholder for the taxable year if the deferred DISC income of such shareholder for such taxable year were included in gross income as ordinary income, over

"(ii) the actual amount of the tax liability of such shareholder for such taxable year.

Determinations under the preceding sentence shall be made without regard to carrybacks to such taxable year.

"(B) ADJUSTMENTS FOR LOSSES, CREDITS, AND OTHER ITEMS.—The Secretary shall prescribe regulations which provide such adjustments—

"(i) to the accounts of the DISC, and

"(ii) to the amount of any carryover or carryback of the shareholder,

as many be necessary or appropriate in the case of net operating losses, credits, and carryovers and carrybacks of losses and credits.

"(C) TAX LIABILITY.—The term 'tax liability' means the amount of the tax imposed by this chapter for the taxable year reduced by credits allowable against such tax (other than credits allowable under sections 31, 39, and 43).

"(3) Deferred DISC Income.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'deferred DISC income' means, with respect to any taxable year of a shareholder, the excess of—

"(i) the shareholder's pro rata share of accumlated DISC income (for periods after 1983) of the DISC as of the close of the computation year, over

"(ii) the amount of the distributions-in-excess-of-income for the taxable year of the DISC following the computation year.

"(B) COMPUTATION YEAR.—For purposes of applying subparagraph (A) with respect to any taxable year of a shareholder, the computation year is the taxable year of the DISC which ends with (or within) the taxable year of the shareholder which precedes the taxable year of the shareholder for which the amount of deferred DISC income is being determined.

"(C) DISTRIBUTIONS-IN-EXCESS-OF-INCOME.—For purposes of subparagraph (A), the term 'distributions-in-excess-of-income' means, with respect to any taxable year of a DISC, the excess (if any) of—

(i) the amount of actual distributions to the shareholder out of accumulated DISC income, over

(ii) the shareholder's pro rata share of the DISC income for such taxable year.

"(3) BASE PERIOD T-BILL RATE.—For purposes of this subsection, the term 'base period T-bill rate' means the annual rate of interest determined by the Secretary to be equivalent to the average investment yield of United States Treasury bills with maturities of 52 weeks which were auctioned during the 1-year period ending on September 30 of the calendar year ending with (or of the most recent calendar year ending before) the close of the taxable year of the shareholder.

"(4) SHORT YEARS.—The Secretary shall prescribe such regulations as may be necessary for the application of this subsection to short years of the DISC, the shareholder, or both.

"(5) Payment and assessment and collection of interest.—

The interest accrued during any taxable year which a shareholder is required to pay under paragraph (1) shall be treated, for purposes of this title, as interest payable under section 6601 and shall be paid by the shareholder at the time the tax imposed by this chapter for such taxable year is required to be paid."

(b) TAXABLE INCOME IN EXCESS OF $10,000,000 DEEMED DISTRIBUTED.—

"(1) IN GENERAL.—Subparagraph (E) of section 995(b)(1) (relating to base period export gross receipts) is amended to read as follows:

"(E) the taxable income of the DISC attributable to qualified export receipts of the DISC for the taxable year which exceed $10,000,000,".

(2) AGGREGATION OF RECEIPTS.—Subsection (b) of section 995 (relating to deemed distributions) is amended by adding at the end thereof the following new paragraph:

"(4) AGGREGATION OF QUALIFIED EXPORT RECEIPTS.—

"(A) IN GENERAL.—For purposes of applying paragraph (1)(E), all DISCs which are members of the same controlled group shall be treated as a single corporation.

"(B) ALLOCATION.—The dollar amount under paragraph (1)(E) shall be allocated among the DISCs which are members of the same controlled group in a manner provided in regulations prescribed by the Secretary."

(c) ELIMINATION OF CERTAIN DEEMED DISTRIBUTIONS RELATING TO TAXABLE INCOME OF DISC.—Subparagraph (F) of section 995(b)(1) (relating to distributions in qualified years) is amended to read as follows:

"(F) the sum of—

"(i) an amount equal to the product of—

"(I) the international boycott factor determined under section 999, multiplied by

"(II) one-half of the excess of the taxable income of the DISC for the taxable year (before reduction for any distributions during the year) over the sum of the amounts deemed distributed for the taxable year under subparagraphs (A), (B), (C), (D), and (E), plus

"(ii) any illegal bribe, kickback, or other payment (within the meaning of section 162(c)) paid by or on behalf of the DISC directly or indirectly to an official, employee, or agent in fact of a government, and".

(d) TREATMENT OF SALES THROUGH AGRICULTURAL COOPERATIVES.—Subsection (c) of section 993 (defining export property) is amended by adding at the end thereof the following new paragraph:

"(4) FUNGIBLE AGRICULTURAL PRODUCTS MARKETED THROUGH COOPERATIVES.—

"(A) IN GENERAL.—Fungible agricultural products which are marketed through pooling arrangements of a cooperative described in section 521(b)(1) shall be treated as meeting the requirements of paragraph (1)(B) to the extent that such products are sold for direct use, consumption, or disposition outside the United States, and each member of such pool shall be considered as a producer of such property to the extent of his ratable share of such products based upon his contribution of products to the pool.

"(B) SUBPARAGRAPH (A) SHALL NOT APPLY WHERE COOPERATIVE SELLS THROUGH DISC OR FSC.—Subparagrpah (A) shall not apply to any products which are sold by the cooperative through a DISC or FSC.

"(C) COOPERATIVE AS AGENT.—A cooperative marketing the products of its patrons shall be treated as acting as the agent of such patrons, regardless of any formal transfer of title to the cooperative.

(e) CONFORMING AMENDMENTS.—

(1) Subsection (a) of section 291 (relating to corporate preference items) is amended by striking out paragraph (4) and redesignating paragraph (5) as paragraph (4).

(2) Paragraph (1) of section 291(c) (relating to special rules for pollution control facilities) is amended by striking out "subsection (a)(5)" and inserting in lieu thereof "subsection (a)(4)".

(3) Subsection (a) of section 992 (relating to definition of DISC) is amended—

(A) by striking out "and" at the end of subparagraph (C),

(B) by striking out the period at the end of subparagraph (D) and inserting in lieu thereof ", and", and

(C) by adding at the end thereof the following new subparagraph:

"(E) such corporation is not a member of any controlled group of which a FSC is a member."

(4) Paragraph (3) of section 993(a) (relating to controlled groups) is amended by striking out "such term by" and inserting in lieu thereof "the term 'controlled group of corporations' by".

(5) Subsection (c) of section 999 (relating to international boycott factor) is amended by striking out "995(b)(1)(F)(ii)" each place it appears and inserting in lieu thereof "995(b)(1)(F)(i)".

(6) The table of subparts for part III of subchapter N of chapter 1 is amended by inserting after the item relating to subpart B the following new item:

"Subpart C. Taxation of foreign sales corporations."

SEC. 3. TAXABLE YEAR OF DISC AND FSC REQUIRED TO CONFORM TO TAXABLE YEAR OF MAJORITY SHAREHOLDER.

(a) IN GENERAL.—Subsection (b) of section 441 (relating to period for computation of taxable income) is amended—

(1) by striking out "or" at the end of paragraph (2),

(2) by striking out the period at the end of paragraph (3) and inserting in lieu thereof "; or", and

(3) by adding at the end thereof the following new paragraph:

"(4) in the case of a FSC or DISC filing a return for a period of at least 12 months, the period determined under subsection (h)."

(b) DETERMINATION OF TAXABLE YEAR.—Section 441 is amended by adding at the end thereof the following new subsection:

"(h) TAXABLE YEAR OF FSC'S AND DISC'S.—

"(1) IN GENERAL.—For purposes of this subtitle, the taxable year of any FSC or DISC shall be the taxable year of that shareholder (or group of shareholders with the same 12-month taxable year) who has the highest percentage of voting power.

"(2) SPECIAL RULE WHERE MORE THAN ONE SHAREHOLDER (OR GROUP) HAS HIGHEST PERCENTAGE.—If 2 or more shareholders (or groups) have the highest percentage of voting power under paragraph (1), the taxable year of the FSC or DISC shall be the same 12-month period as that of any such shareholder (or group).

"(3) SUBSEQUENT CHANGES OF OWNERSHIP.—The Secretary shall prescribe regulations under which paragraphs (1) and (2) shall apply to a change of ownership of a corporation after the taxable year of the corporation has been determined under paragraph (1) or (2) only if such change is a substantial change of ownership.

"(4) VOTING POWER DETERMINED.—For purposes of this subsection, voting power shall be determined on the basis of total combined voting power of all classes of stock of the corporation entitled to vote."

SEC. 4. EFFECTIVE DATE; TRANSITION RULES.

(a) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this Act shall apply to transactions after December 31, 1983, in taxable years ending after such date.

(2) TREATMENT OF CERTAIN TRADE RECEIVABLES.—The amendments made by section 2(c) shall apply to accounts receivable and evidences of indebtedness acquired by the foreign corporation after August 4, 1983, in taxable years ending after such date.

(b) TRANSITION RULES FOR DISC'S.—

(1) CLOSE OF 1983 TAXABLE YEARS OF DISC'S—

(A) IN GENERAL.—For purposes of applying the Internal Revenue Code of 1954, the taxable year of each DISC which begins before January 1, 1984, and which (but for this paragraph) would include January 1, 1984, shall close on December 31, 1983.

(B) UNDERPAYMENTS OF ESTIMATED TAX.—To the extent provided in regulations prescribed by the Secretary of the Treasury or his delegate, no addition to tax shall be made under section 6654 or 6655 of such Code with respect to any underpayment of any installment required to be paid before April 13, 1984, to the extent the underpayment was created or increased by reason of subparagraph (A).

(2) EXEMPTION OF ACCUMULATED DISC INCOME FROM TAX.—For purposes of applying the Internal Revenue Code of 1954 with respect to actual distributions made by a DISC or former DISC after December 31, 1983, any accumulated DISC income of a DISC or former DISC (within the meaning of section 996(f)(1) of such Code) which is derived before January 1, 1984, shall be treated as previously taxed income (within the meaning of section 996(f)(2) of such Code).

(3) TIME CERTAIN DISTRIBUTIONS ARE DEEMED RECEIVED BY SHAREHOLDERS.—Notwithstanding section 995(b) of such Code, if a shareholder of a DISC elects the application of this paragraph (at such time and in such manner as the Secretary of the Treasury or his delegate shall prescribe by regulations) any distribution which such shareholder is deemed to have received by reason of section 995(b) of such Code with respect to income derived by the DISC in the taxable year of the DISC which begins in 1983 after the date in 1983 on which the taxable year of such shareholder begins shall be treated, for purposes of such Code, as received by such shareholder in 4 equal installments on the last day of each of the 4 taxable years of such shareholder which begins after the taxable year of such shareholder which begins in 1983. The preceding sentence shall apply without regard to whether the DISC exists after December 31, 1983.

(4) TREATMENT OF TRANSFERS FROM DISC TO FSC.—Except to the extent provided in regulations, section 367 of such Code shall not apply to transfers made before January 1, 1985 (or, if later, the date 1 year after the date on which the corporation ceases to be a DISC) to a FSC of qualified export assets (as defined in section 993(b) of such Code) held on August 4, 1983, by a DISC in a transaction described in section 351 or 368(a)(1) of such Code.

(5) DEFINITIONS.—For purposes of this subsection, the terms "DISC" and "former DISC" have the respective meanings given to such terms by section 992 of such Code.

Mr. DANFORTH. Mr. President, I am pleased to cosponsor the bill the distinguished chairman of the Finance Committee has just introduced. This bill, as I understand it, was worked out by the joint efforts of the staffs of the Finance Committee, the Joint Committee on Taxation, the Ways and Means Committee, and the administration.

Mr. President, I am and have been a firm supporter of the provisions of current law relating to Domestic International Sales Corporations, so-called DISC's. However, many of our trading partners who are signatories of the General Agreement on Tariffs and Trade (GATT) have complained that the DISC provisions, which provide income tax incentives to companies which increase their exports, provide export subsidies which are outlawed by the GATT. The administration, through the Office of the U.S. Trade Representative, has committed itself to address these complaints.

This proposal, which, in effect, replaces the Domestic International Sales Corporations with new Foreign Sales Corporations, is intended to provide essentially the same tax incentives to companies who increase their export activities as do the DISC provisions, while at the same time satisfying the requirements of the GATT. It is also intended to be revenue-neutral.

Mr. President, I applaud the efforts of the administration and the various

congressional staff who have put this proposal together. However, while I am cosponsoring the bill, I do not necessarily embrace it in its entirety.

In the coming months, as we study this proposal and the implications it has for our country's trade policy, I intend to look very critically at each provision of this bill. For example, there is some concern that the provisions of the bill may be overly burdensome on small businesses. Agricultural groups have indicated concerns about parts of the bill. In short, while I view this proposal as a good starting point, I do not necessarily see it as representing the best solution to the problem.

By Mr. THURMOND:

S. 1805. A bill to permit the surviving spouse and unmarried children of a person interred in a cemetery located on a military installation to be interred in such cemetery; to the Committee on Veterans Affairs.

BURIAL ON A MILITARY BASE

Mr. THURMOND. Mr. President, a few years ago, one of my constituents contacted me concerning his mother's request to be buried next to his father in a military cemetery. This was an unusual situation.

His father had died in 1940 and was buried in a church cemetery. Since that time, Fort Jackson annexed this property and made it a post cemetery. Since this cemetery is now a military cemetery, this lady could not be buried next to her husband because she did not meet the requirements spelled out in the provisions of an act entitled: "An Act to establish eligibility for burial in national cemeteries, and for other purposes," (62 Stat. 234; 24 U.S.C. 281). A private relief bill had to be passed to allow this lady to be buried next to her husband.

This situation has occurred twice in recent years for constituents of mine in South Carolina. Each time a private relief bill has to be passed by the Congress to allow a widow to be buried next to her husband at a military cemetery on the Fort Jackson Reservation.

Mr. President, there are other individuals in this same situation at Fort Jackson and other areas across the country. I do not believe a private relief bill should have to be passed in each such instance.

For this reason, I am introducing this bill which would allow any surviving spouse and unmarried children of a person buried in a post cemetery or the post section of a national cemetery located in the United States or any territory of the United States to be buried in the gravesite or the adjoining gravesite of such person.

Mr. President, I ask unanimous consent for this bill to be printed in the CONGRESSIONAL RECORD at the conclusion of my remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1805

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) in any case in which a military department has acquired lands in the United States on which there is a cemetery at the time such lands were acquired by such military department, the Secretary of such military department may authorize the interment in such cemetery of the surviving spouse and unmarried children of any person who was interred in such cemetery at the time such lands were acquired by such military department.

(b) The Secretary of a military department may also authorize the interment of the surviving spouse and unmarried children of any person interred in a post cemetery located on any lands in the United States under the jurisdiction of such Secretary.

SEC. 2. As used in this Act—

(1) The term "cemetery" includes any lands on which there is one or more burial plots.

(2) The term "United States" means the several States, the District of Columbia, the Commonwealth of Puerto Rico, and any territory or possession of the United States.

By Mr. PERCY (for himself and Mr. DIXON):

S. 1807. A bill to amend the Internal Revenue Code of 1954 to clarify the taxation of certain income derived from agricultural commodities not grown in the United States in commercially marketable quantities; to the Committee on Finance.

TAXATION OF CERTAIN INCOME DERIVED FROM AGRICULTURAL COMMODITIES

Mr. PERCY. Mr. President, Senator DIXON and I are introducing legislation today to clarify the taxation of certain income derived from agricultural commodities not grown in the United States in commercially marketable quantities.

This bill is comparable to legislation introduced in the House of Representatives by my Illinois colleagues, Congressman ROSTENKOWSKI (H.R. 8110) in 1980 and Congressman RUSSO (H.R. 3581) in 1981, and my friend and distinguished colleague Senator DIXON and myself in 1982. There has been a hearing in the House Ways and Means Committee on this matter. As I will explain briefly below, our bill amends the law dealing with the operation of the Subpart F foreign tax rules and recognizes that certain business situations in foreign countries did not arise for the purpose of substantially reducing U.S. taxes. I hope my colleagues on the Committee on Finance will promptly schedule a hearing on this legislation.

The U.S. tax laws that have brought about this problem are complex, even for tax lawyers. However, the concepts involved are less complex. Generally, amounts earned by a foreign subsidiary of a U.S. company are not subject to tax in the United States until remitted to this country. However, certain classes of income derived by such a subsidiary are taxable currently in the year when realized even though not repatriated in that year. One type of income subject to current taxation is gain from the sale of personal property between related persons for use outside of the subsidiary's country of incorporation. These rules were designed to eliminate the use of foreign subsidiaries organized in tax haven countries to defer the U.S. tax on overseas income while it is retained abroad.

This treatment clearly is reflected in the taxation of agricultural commodities which are not grown in commercially marketable quantities in the United States. The Tax Reduction Act of 1975 amended the rules dealing with the taxation of tax haven income, or subpart F income, to exclude income from the sale between related persons of agricultural commodities which are not grown in the United States in commercially marketable quantities. It was thought by Congress that taxpayers deriving income from the growing or sale of agricultural commodities such as coffee and bananas were operating abroad not to avoid U.S. taxes but instead because these commodities would not otherwise be grown or marketed here. In other words we could not grow them here even if we wanted to. These situations are unlike other tax haven operations which could otherwise be operated in the United States. Furthermore, it was felt that an exception to the tax haven rules was appropriate since these type of commodities could not be marketed worldwide from the countries in which they typically are grown. Consequently, a subsidiary of a U.S. company operating overseas can trade in such non-U.S. type commodities, buying them from or selling them to related parties, without the trading income being currently subjected to U.S. tax under the subpart F (tax haven) rules.

It has come to our attention that although a foreign subsidiary of a U.S. corporation operating abroad may itself earn this non-U.S. type commodity income without current U.S. taxation, if the foreign subsidiary establishes another subsidiary which earns that income, and the latter pays all of the commodity income back to the former in the form of a dividend, there is triggered an immediate U.S. tax. This adverse result occurs merely because the form of the income has been changed from agricultural commodity income to dividend income, and even though the income would not have been taxed currently if the commodity income had been derived directly by the first-tier subsidiary rather than through the second-tier one. In other words if the first-tier

subsidiary had operated through a branch it would have been exempt from current tax but since it operated through a second-tier subsidiary, it is subject to immediate U.S. taxation on all income it receives by way of a dividend even though that dividend comes from otherwise tax deferred income. It is clear to us that the form of the transaction is dictating the way this income is to be taxed, instead of the substance dictating its taxation. It is a well-established U.S. tax principle that substance should be the key factor in determining taxation, and that form should be disregarded. This legislation goes back to these well-established tax principles.

Under this proposal, if a foreign subsidiary of a U.S. company receives a dividend from a foreign subsidiary of its own, that dividend will continue to be generally subject to immediate taxation back in the United States unless at least 70 percent of the income giving rise to that dividend is derived from the purchase or sale of agricultural commodities not grown in the United States in commercially marketable quantities; that is, this income would normally be exempted had it been earned directly by the receiving company.

This legislation would be effective for taxable years of foreign corporations beginning on or after January 1, 1984.

By Mr. MATTINGLY (for himself and Mr. BOREN):

S. 1808. A bill to amend the Tariff Act of 1930 regarding the country of origin marking requirements for certain imported pipe, pipe fittings, and compressed-gas cylinders; to the Committee of Finance.

IMPORTED PIPE, PIPE FITTINGS, AND CYLINDERS

Mr. MATTINGLY. Mr. President, I send a bill to the desk and ask that it be printed in the RECORD and appropriately referred.

Mr. President, today I am introducing a bill with Senator BOREN which would require imported pipe, pipe fittings, and cylinders be permanently marked with the country in which the pipe, pipe fittings, and cylinders were manufactured. The bill is intended to give American buyers better consumer information about the origin of the product they are purchasing.

To provide some brief background, in 1937 a list known as the J list cited certain products, mostly those with low import volumes, that would not need to be indelibly marked with country of original manufacture. Imported pipe and pipe fittings were included on that list.

According to the U.S. Department of Commerce, 28 percent of ferrous castings used in the United States were imported in 1982. As far as I know, of all those imported castings, only those iron and iron pipe fittings on the J list are excluded from the requirement that the casting be identified with country-of-origin markings.

As for imported compressed-gas cylinders, country of origin markings are required under current law with only two exceptions. This legislation eliminates those exceptions in a simple and clear manner which results in a concise and less complicated statute.

This legislation therefore gives the American consumer an opportunity to know what he is purchasing and the chance to buy American-made products if he wishes to do so. I believe the consumer deserves and has the right to know.

However, there are other reasons why I support this bill. First, the pipe fittings are used to construct systems which require a great degree of product reliability, such as natural gas distribution and fire protection systems. In these applications, quality assurance and traceability are of the utmost importance because of the tremendous potential loss of life and property should a failure occur. But because of country-of-origin marking exemptions allowed by schedule J, neither the country-of-origin nor the manufacturer can be traced.

Additionally, many customers of pipe, pipe fittings, and compressed gas cylinders would prefer, all things being equal, to buy American-made products for patriotic reasons. Others simply believe that American-made products have value added because they provide jobs and income for U.S. citizens and tax revenue for the U.S. Government.

By offering such legislation, I am not advocating protectionist trade barriers. The requirement to identify iron castings and compressed gas cylinders with country-of-origin works no hardship on anyone. The exclusion of iron or steel pipe and fittings of cast or malleable iron from the J list would not result in a nontariff barrier. It is, in fact, no barrier at all. The same is true for compressed gas cylinders. Cost is not a factor.

I am also not introducing legislation which suggests buy American provisions. My bill merely allows American consumers to be given the chance to choose whether or not to buy American products. If they care to do so is another matter and one they choose themselves.

In summary, I am not here to ask for trade restrictions or nontariff barriers. I am not against fair trade with other countries of the world. I want to support programs which will ultimately result in jobs for Americans, tax revenue for Americans, and a healthier American economy. Those Americans who wish to buy American-made products should be given that opportunity. They have that right. This bill will help secure these goals. I ask my colleagues, therefore, to favorably consider this bill. Thank you Mr. President.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1808

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 304 of the Tariff Act of 1930 (19 U.S.C. 1304) is amended—

(1) by redesignating subsections (c), (d), and (e) as subsections (e), (f), and (g), respectively;

(2) by inserting immediately after subsection (b) the following new subsections:

"(C) MARKING OF CERTAIN PIPE AND FITTINGS.—No exception may be made under subsection (a)(3) with respect to pipes of iron, steel or stainless steel, or to pipe fittings of steel, stainless steel, chrome-moly steel, or cast and malleable iron, each of which shall be marked with the English name of the country of origin by means of die stamping, cast-in-mold lettering, etching or engraving.

"(d) MARKING OF METAL PRESSURE CONTAINERS.—No exception may be made under subsection (a)(3) with respect to metal pressure containers designed and used for the transport and storage of compressed gases whether or not certified prior to exportation to have been made in accordance with the safety requirements of sections 178.36 through 178.68 of title 49 C.F.R., each of which shall be marked with the English name of the country of origin by means of die stamping, molding, etching, raised lettering, or an equally permanent method of marking."; and

(3) by striking out "subsection (c)" in subsection (f) (as so redesignated) and inserting in lieu thereof "subsection (e)".

SEC. 2. The amendments made by the first section of this Act shall apply with respect to articles entered on or after date of enactment of this Act; except for such of those articles that, on or before such date of enactment, had been taken on board for transit to the customs territory of the United States.

Mr. BOREN. Mr. President, as a cosponsor of this bill, I rise in support of this legislation which requires country of origin markings on imported compressed gas cylinders, pipes, and pipe fittings.

Under current law, compressed gas cylinders, imported individually or sold by a distributor for resale to ultimate purchasers in the United States, must be permanently and legibly marked with the country of origin. There are two exceptions from the general country of origin marking requirements for imported compressed gas cylinders. If a compressed gas cylinder is imported directly from a foreign supplier for use by the importer and not intended for sale in its imported or any other form, the cylinder may be excepted from the country of origin marking, or if a compressed gas cylinder is imported directly from the foreign supplier by a contractor or other ultimate purchaser in the United States who will use it and not offer it for resale. The exceptions may be used if the importer can conclusive-

ly prove that the imported cylinders will not be sold during the life of the cylinder.

However, because the useful life of a cylinder is 30 years, it is virtually impossible to determine whether the initial purchaser of compressed gas cylinders will resell any of the cylinders imported in bulk within the useful life of the cylinders. Given the industry's widespread practices of reselling as well as leasing cylinders, a unique situation is presented to customs with regard to cylinders.

Even the U.S. Government practices a "turn over" policy. For example, there are currently many thousands of cylinders which have Army or Navy markings which were produced in the 1940's and sold to the U.S. Government; however these same cylinders—as a result of resale—are now in commercial service. Many foreign made cylinders are brought to this country and put into stock by the importer prior to being resold. Often, cylinders are leased—not resold—to end users. Thus, the end users of these articles will be unaware of the country of origin unless such labeling is permanently and indelibly imprinted on the compressed gas cylinder.

Mr. President, I believe that many Americans want to purchase or use American-made products. They have a right to know where any goods is manufactured. I see no reason to continue exceptions to the country of origin marking requirements for compressed gas cylinders.

Country of origin markings do not interfere with the operation or safety of compressed gas cylinders. Many compressed gas cylinders which are brought into this country are already required to have country of origin markings.

I commend this legislation to my colleagues and urge their support.

By Mr. BAUCUS:

S. 1809. A bill to amend the Internal Revenue Code of 1954 to disregard the attribution between limited partners of stock of publicly owned investment company for purposes of determining whether such company is a personal holding company or regulated investment company; to the Committee on Finance.

TECHNICAL CORRECTION IN THE TAX RULES GOVERNING REGULATED INVESTMENT COMPANIES

Mr. BAUCUS. Mr. President, today I am introducing legislation that makes a technical correction in the tax rules governing regulated investment companies. This correction reverses an IRS ruling that prevents companies from qualifying as regulated investment companies solely on the ground that they are considered personal holding companies because of stock attribution among limited partners.

BACKGROUND

Before 1935, Federal tax laws discouraged middle-income investors from joining together, to diversify risks and obtain expert advice, the way wealthy investors did with their individual portfolios. This discouragement occurred because a group of middle-income investors who formed an investment company to jointly manage their investments would end up being taxed twice—once at the corporate level and once at the individual level.

To eliminate this double taxation, Congress enacted provisions that essentially exempted regulated investment companies ("RIC's") from tax. (Revenue Act of 1936, sec. 13(a)(2), 48(e), 49 stat. 1648, 1665, 1669; I.R.C. sec. 851-53 (current version).) The basic concept underlying these provisions is that investment companies that "submit to public regulation and perform the function of permitting small investors to obtain the benefit of diversification of risks" should be exempt from tax at the corporate level. (H. Rep. 1681, 74th Cong., 1st sess. (1935), reprinted in 1939-1 C.B. (part 2) 642, 644 (letter from President Roosevelt to Congress; H. Rep. 2020, 86th Cong., 2d sess. 3-4 (1960).)

To qualify as a RIC, a company must meet several requirements. For example, it generally must be registered under the Investment Company Act of 1940, I.R.C. section 851(a)(1); must derive at least 90 percent of its income from investments, I.R.C. section 851(b)(2); and must distribute at least 90 percent of its annual investment income as shareholder dividends, I.R.C. section 852(1).

THE PERSONAL HOLDING COMPANY EXCLUSION

Another requirement is the one relevant here. Congress intended to deny tax-exempt RIC status to closely held corporations that were not diversifying risks for many investors but instead effectively serving as holding companies for one or a few investors. To accomplish this, it provided that a RIC must not be a "personal holding company" ("PHC") within the meaning of section 542. (I.R.C. sec. 851(a).) Generally, section 542 provides that a company is a PHC if at least 60 percent of its adjusted ordinary gross income is personal holding company income and more than 50 percent of its stock is actually or constructively owned by five or fewer people. (I.R.C. secs. 542(a), 544(a).) Since most investment companies automatically will meet the income test, the effect of the exclusion is to deny RIC status to investment companies which meet the stock-ownership test. A company meets the stock ownership test, again, if over 50 percent of its stock is actually or constructively owned by five or fewer people. For this purpose, a partner is deemed to constructively own any stock owned by other members of the same partnership. (I.R.C. sec. 544(a)(2).)

Turning to the specific problem, section 544(a)(2) does not distinguish between active and limited partners. Consequently, if any number of people owning 51 percent of the investment company's stock have limited partnership interests of any size in any of five totally unrelated limited partnerships, a literal application of section 544(a)(2) would prevent the investment company from qualifying as a RIC. Many other combinations could produce the same result.

To determine whether so literal a reading of section 544(a)(2) was correct, in 1979, an investment company asked the IRS whether the IRS could deny RIC status to investment companies which met the stock-ownership test only because of constructive ownership attribution among limited, rather than active, partners. In a private letter ruling, the IRS replied that it would not. In 1982, however, the IRS reversed its position, holding that, for RIC purposes, section 544(a)(2) requires stock ownership to be aggregated between limited partners in syndicated limited partnerships, without discussing the closeness of the limited partners' business relationship. (Rev. Rul. 82-107 82-1 C.B. 103.)

As a result of this ruling, the stock ownership partner-attribution test of present law can prevent a publicly owned investment company from qualifying as a RIC, if, unknown to each other, some of the shareholders of the company happen to invest in one or more unrelated limited partnerships.

This result is unintended and anomalous. Indeed, Assistant Secretary Chapoton recently wrote that:

> Treasury believes that the historical purpose of the RIC provisions—to permit small investors to obtain the benefits of investment diversification and professional management through a widely held investment vehicle taxed in a manner comparable to direct ownership of securities—is not served by denying RIC status to an investment company with a large number of unrelated individual shareholders merely because some of them have passive limited partnership investments in common.

PROPOSED LEGISLATIVE CHANGES

Mr. President, the legislation I am introducing today would amend section 542(c) of the Code to reverse the 1982 revenue ruling. That way, it would reflect Congress' original—and continuing—intent that the RIC provisions should not be available to certain closely held corporations. But, in contrast to current interpretation of the law, it would permit a company to qualify as a RIC if it has many shareholders and meets the current PHC test only because of constructive ownership attribution among limited, not active, partners.

Specifically, the bill provides that an otherwise qualifying RIC will not be a PHC (and will therefore continue to qualify as a RIC) if at all times during the last half of such corporation's taxable year it has at least 100 actual shareholders who are individuals (or organizations treated as individuals by IRS sec. 542(a)(2)) and does not satisfy the PHC stock ownership test applied without attribution of stock ownership to or from a limited partner.

Mr. President, this bill, which has the support of the Treasury Department, makes a technical correction in the RIC rules, without undermining any of the policies underlying those rules or creating any significant revenue loss. I hope that my colleagues will support the bill and help me enact it into law.

Mr. President, I ask unanimous consent that the text of the bill be printed in full, immediately after this statement.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1809

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) subsection (c) of section 542 of the Internal Revenue Code of 1954 (relating to exceptions from the definition of personal holding company) is amended—

(1) by striking out "and" at the end of paragraph (8),

(2) by striking out the period at the end of paragraph (9) and inserting in lieu thereof "; and", and

(3) by adding at the end thereof the following new paragraph:

"(10) with respect to any taxable year, a regulated investment company (within the meaning of section 851 (a) but without regard to whether such company is a personal holding company) if, at all times during the second half of such taxable year—

"(A) such company has at least 100 shareholders (determined without regard to section 544) who are—

"(i) individuals, or

"(ii) organizations or portions of trusts treated as individuals under section 542 (a) (2), and

"(B) not more than 50 percent in value of such company's outstanding stock is owned (determined after application of section 544), directly or indirectly, by or for 5 or less individuals, except that in applying section 544 (a) (2), the term 'partner' shall not include any limited partner.".

(b) The amendments made by subsection (a) shall apply to taxable years ending on or after the date of the enactment of this Act.

By Mr. HUMPHREY (for himself and Mr. LEVIN):

S. 1810. A bill to authorize appropriations for exploration, prospecting, conservation, development, use, and operation of the naval petroleum reserves, for fiscal years 1984 and 1985; to the Committee on Armed Services.

NAVAL PETROLEUM RESERVES

Mr. HUMPHREY. Mr. President, I am introducing a bill today on behalf of myself and Mr. LEVIN to authorize expenditures for the operation of the naval petroleum reserves.

The administration has requested $266.1 million for exploration, prospecting, conservation, development, use, and operation of the naval petroleum reserves under chapter 641 of title 10, United States Code, during the fiscal years 1984 and 1985.

In 1976, Congress passed the Naval Petroleum Reserves Production Act. The act authorized production from naval petroleum reserves one, two and three.

The need for a petroleum reserve became obvious during the time of the Arab oil embargo 10 years ago.

Proceeds from the sales of oil produced from the naval petroleum reserves were to be deposited into a special account within the Department of the Treasury.

The funds were to be made available for administrative costs of operating and maintaining the stockpile of reserves. Additionally, these funds were to be utilized to build and fill a strategic petroleum reserve.

Mr. President, I support production from our naval petroleum reserves, because I am concerned about our Nation's ability to sustain our forces in time of conflict. After the upcoming August recess, my Subcommittee on Preparedness of the Senate Committee on Armed Services will conduct a series of hearings around the national strategic stockpile. The hearings will examine the capability of the United States to sustain operations in time of national emergency. The focus of the hearings will not be solely on fuel consumption and production from naval petroleum reserves. Other issues such as our dependence on limited stocks of strategic and critical materials, techniques such as barter to acquire additional materials for the national strategic stockpile, and management problems will also be reviewed. The primary purpose is to improve our current system of stockpiling.

By Mr. NICKLES (for himself, Mr. EXON, and Mr. ZORINSKY):

S. 1811. A bill to authorize and direct the Secretary of the Interior to engage in a special study of the potential for ground water recharge in the High Plains States, and for other purposes; to the Committee on Energy and Natural Resources.

HIGH PLAINS STATES GROUND WATER DEMONSTRATION PROGRAM

Mr. NICKLES. Mr. President, the measure that I am introducing today is identical to H.R. 71 as passed by the House on June 20, 1983. Both this bill and H.R. 71, the High Plains States Ground Water Demonstration Program Act of 1983, will be the subject of a hearing before my Subcommittee on Water and Power on September 29, 1983. The hearing will be held in room SD-366 of the Dirksen Senate Office Building beginning at 10 a.m. For further information you may contact Russell Brown, professional staff on the subcommittee, at 224-2366.

Mr. President, this legislation embodies an exciting concept. As passed by the House on June 20, 1983, H.R. 71 authorizes a program of study and demonstration projects to investigate the potential of artificial aquifer recharge as a method of alleviating ground water shortages in the Western States. Although the physical aspects of the program to be authorized would be confined to the Western States, I am confident that what is learned will have application nationwide. The problems and solutions associated with ground water depletion in the arid West have equal application to those areas in the Eastern United States which face now, or in the future, ground water shortages.

The bill authorizes the appropriation of funds in two parts: First, $500,000 is authorized initially for the studies to be conducted pursuant to the measure, and second, $20,000,000 is authorized to carry out demonstration projects based upon those studies. I would point out that under the terms of the bill, non-Federal entities would be required to assume a 20-percent matching share for the demonstration projects. This share may be in the form of a cash contribution or inkind services.

All of us are familiar with the recent problems associated with efforts to authorize and construct water shortage projects. In many areas, the most economic sites for dams and reservoirs have already been developed. Other potential sites, which may be economically attractive, turn out to be unfeasible because of environmental or other reasons. Ground water recharge research and demonstration projects may point the way to future water storage without the need for massive dams and the ensuing costs—both economic and environmental—that such projects entail. It may be that our future reservoirs will be underground; with all the obvious advantages that such a method of storage would provide. This is an exciting concept and worthy of investigation.

As chairman of the Subcommittee on Water and Power, I would like to express my strongest support for this legislation and my hope is that this measure will receive the attention of the full Senate in the near future.

By Mr. METZENBAUM:

S. 1812. A bill to provide work for long-term unemployed jobseekers, and for other purposes; to the Committee on Labor and Human Resources.

LONG-TERM UNEMPLOYED ASSISTANCE ACT

Mr. METZENBAUM. Mr. President, in recent months the rate of unem-

ployment has declined from a peak of 10.8 percent in December 1982—the highest rate since World War II—to a level of 10.0 percent in June.

But despite this favorable economic trend, 11 million people remain out of work.

And it is increasingly clear that even if this economic recovery continues at a robust pace, it is not going to reemploy millions of those workers in the long-term future.

Today we are seeing a new problem, one not experienced in past recessions. It is the problem of long-term unemployment.

While the economic recovery is putting many people back to work, millions more are being left behind.

And the problem is especially acute for those people who have been out of work for the longest periods, some for 2 years or more. Those people are still not finding jobs, even with the recovery underway.

In June, testifying before the Joint Economic Committee, Dr. Janet Norwood, Director of the Bureau of Labor Statistics pointed out that the median duration of unemployment has continued to increase, even as the national rate of unemployment has started to decline.

According to Dr. Norwood, fully 25 percent of the total number of unemployed people have been out of work for 6 months or longer.

That 25 percent equals 2.8 million people who have been out of work for 26 weeks or longer.

Since May 1982, the percentage of the unemployed who have been out of work for over 26 weeks has actually increased from 15.7 percent to 25.3 percent today.

As Dr. Norwood stated:

As the economy begins to improve, the number of persons who become unemployed through layoff or job termination usually declines. Since December, the number of job losers has dropped by more than 500,000, and the short-term jobless, those employed from 1 to 4 weeks, has become a small proportion of the unemployed. In May, 32 percent of the unemployed were jobless for less than 5 weeks, down substantially from the proportions just prior to and in the early stages of the recession.

On the other hand, those who have been unemployed for long periods of time generally have more difficulty in finding jobs than the short-term jobless do. The first out are often the last to be recalled • • • with the short-term count declining and the long-term rising, the measures of average duration of unemployment have risen markedly.

This problem of long-term unemployment, defined as people who are out of work for 26 weeks or longer, is a new phenomenon.

As the following chart shows, we had only 535,000 people in this category in 1979, but in March, 1983, we have 2.7 million people. By June, that number of long-term unemployed had increased to 2.8 million people.

TOTAL UNEMPLOYMENT AND LONG-TERM UNEMPLOYMENT OVER LAST 10 YEARS

Year	Total average number of unemployed	Total unemployment rate (percent)	Unemployed for more than 26 weeks
1974	5,156,000	5.6	381,000
1975	7,929,000	8.5	1,203,000
1976	7,406,000	7.7	1,348,000
1977	6,991,000	7.1	1,028,000
1978	6,202,000	6.1	648,000
1979	6,137,000	5.8	535,000
1980	7,637,000	7.1	820,000
1981	8,273,000	7.6	1,162,000
1982	10,678,000	9.7	1,776,000
1st Qtr 1983	11,439,000	10.3	2,712,000

Sources: Economic Report of the President: 1983; tables B–34 and B–35. U.S. Department of Labor, Bureau of Labor Statistics.

Today I am introducing legislation to address the problem of long-term unemployment. This bill authorizes funds to be allocated to high-unemployment areas so those people out of work for 26 weeks or longer can be put back to work in their home community. Under this bill, 400,000 to 500,000 individuals who have been out of work for 26 weeks or more can be employed by local municipalities, counties, and school boards to work in the communities in which they live.

There have been many critics of public service employment programs in the past, and I have criticized former programs myself. This legislation incorporates reforms of past public service programs to insure that funds are spent as intended to help the long-term unemployed while aiding the community.

This bill has several provisions that are especially noteworthy.

First, this bill is targeted specifically to those who have been out of work for 26 weeks or longer. It is not a full-scale public service employment program, but one that is premised on the fact that those long-term unemployed are not finding employment in the private sector. They have suffered already for a long period of time. All of these people have either exhausted unemployment benefits or were never eligible for them in the first place. These people want work, and this bill provides them work in their community.

Second, this bill is within the budget for fiscal year 1984 recently passed by Congress. That budget resolution allowed room for authorization of a jobs program of $3.5 billion in the reserve account. This bill does not establish an entitlement program. Instead, it remains subject to funding under the appropriations process.

Third, this legislation helps those people most in need. It directs more funds to those areas with the highest levels of unemployment. Priority for hiring under this program goes to people who are heads of households, men and women, where there is no other income. It mandates that people will be hired to fill entry level positions, a provision that insures that wages will be lower on the average.

Fourth, this bill does not attempt to address all unemployment concerns. I have been an outspoken proponent of legislation to address unemployment in all sectors—youth, aged, displaced workers, and other categories. But this bill is limited in scope to addressing the specific problem of employing adults who have been out of work for 26 weeks or longer. I will soon introduce other legislation dealing with the specific issue of youth unemployment.

Fifth, this bill incorporates language that has previously been worked out in the House between cities and local unions to avoid the problem of substitution that has plagued past public service employment programs. This bill has been reviewed by Washington representatives of AFSCME (The American Federation of County, State, and Municipal Employees) and the AFL–CIO, and meets with their approval.

Sixth, funds allocated under this bill may be used for a wide variety of programs by the State and local governments. Any project eligible for funding under the community development block grant and revenue sharing programs is eligible for funding under this bill. This provision insures that funds will not be used only for brick-and-mortar construction programs, which tend to employ fewer people for the Federal dollar, and it encourages communities to hire women and minorities who have been out of work for 26 weeks or longer.

Seventh, 25 percent of the funds allocated will go to school boards around this country, so they may hire the long-term unemployed to assist in a variety of services, ranging from upgrading school facilities to employment in service positions throughout the school system.

Finally, this bill allocates about 30 percent of the total funds to State governments. It specifically earmarks 10 percent of funds to the States, but also includes a balance of State allocation that will put the States in charge of about 20–25 percent of the local programs in communities of less than 50,000 population. This insures the States will play an active role in developing service jobs to put long-term unemployed people back to work in rural areas and in State job positions.

Mr. President, in January, the Republican mayor of Cleveland, George Voinovich, testified before the Subcommittee on Employment and Productivity of the Senate Committee on Labor on Human Resources. I am ranking member of that subcommittee.

In that testimony, Mayor Voinovich, speaking on behalf of the National League of Cities, called for a public service employment program along

these lines to help people in Cleveland and other hardhit communities around the country.

"If putting additional employees to work in the public sector is philosophically upsetting to some, I would suggest that standing in a free cheese line or losing your house because you cannot afford the mortgage payments is a lot more upsetting to many more people," Mayor Voinovich testified.

"Let's put a limited PSE program back on the front burner."

I ask unanimous consent that the remarks of Mayor Voinovich pertaining to the need for a public service employment program be printed in the RECORD.

Mr. President, the economy has bottomed out, but the recession is not over for millions of Americans. I believe this program is targeted to help the right people at the right time in the right place. I urge my colleagues to join with me in support of this legislation.

There being no objection, the remarks of Mayor Voinovich were ordered to be printed in the RECORD, as follows:

STATEMENT OF HON. GEORGE VOINOVICH, MAYOR OF CLEVELAND, OHIO

Mr. Chairman and members of the Subcommittee, I am George Voinovich, Mayor of Cleveland, Ohio and Second Vice President of the National League of Cities. I am here to testify on behalf of the League and the 15,000 cities it represents.

We appreciate the opportunity to discuss with you potential options for dealing with our nation's unprecedented unemployment problems early in this congressional session. The need for governmental action is clear. What is less clear is the appropriate course of action.

As a Harvard law professor recently stated in another context, "It's a peculiar American habit that we oscillate between panaceas." In the 1960's, public works construction was the apparent answer to unemployment; in the 1970's public service jobs; in the 1980's at least so far, many are looking to the private sector for answers. Each approach is legitimate, but none is perfect.

The League of Cities has no special wisdom and can offer no instant cure-all. The best we can do is examine what we see to be the context of the problem and suggest responses that, separately or in combination, are appropriate for this time.

As of last Friday, the national unemployment rate was 10.8 percent. In Cleveland, the most recent figure is 16 percent; in neighboring Lorain County it is 26 percent; in Rockford, Illinois, Gadsden, Alabama, and Duluth, Minnesota, it is nearly 20 percent. Furthermore, predictions are that these extraordinary rates are unlikely to decline substantially in the foreseeable future, certainly not before 1984 and perhaps even later. And we must never forget that these numbers really represent people, not statistics or charts.

We are also confronted with a stale economy that features interest rates that are still too high and a federal deficit that threatens our nation's economic recovery. The problem is compounded by what appears to be a significant structural change in American industries as well as changes in our workforce. What do we do with the millions of people who are not going back to work? What do we do with the one out of five workers in the current workforce who are functionally illiterate, the increasing number of women entering the labor force, and an aging workforce.

While the recently passed Job Training Partnership Act is a good and innovative piece of legislation, it addresses only a small part of the problems facing the American workforce. To those who say things are getting better, I say what is happening to our unemployed Americans who are suffering perhaps irreparable psychological and financial damage?

Since the federal deficit is of major concern to everyone, let me first touch upon the costs of any federal job creation initiatives. It is accepted theory, if not fact, that every one percent of unemployment costs the federal government $28 billion in lost revenues and increased expenditures. (There are no reliable estimates of the accompanying costs to states and local governments. I have no doubt, though, they are equally significant.)

On the other hand, if Congress provided $28 billion for a public service jobs program, employing 2.8 billion people who are now unemployed, the net reduction in federal revenue losses and outlays would be double that amount—$56 billion—and the unemployment rate would decline by 2.8 percent.

Let me add quickly that I am not proposing a $28 billion PSE program. It must be emphasized, however, that not every expenditure results in a net loss to the federal treasury or a net increase in the deficit.

The two most obvious approaches to alleviate unemployment are to create a new but traditional public works program and to reestablish a public service jobs program.

The arguments against a public works program, which have some legitimacy, are that the lag time between development of a legislative proposal and implementation is too long; there is too little net new job creation; and the jobs are too expensive. While the lag time argument is less relevant given current long term economic forecasts, the other arguments are generally valid. On the other hand, a PSE program is the quickest and least expensive method of job creation.

The question we've heard most often from Congress is, "can local governments gear up quickly?" The answer is an unqualified "yes", especially if we are talking about maintaining, repairing, and rehabilitating public buildings, installing ramps for the handicapped, repairing, and rehabilitating water systems, filling potholes, upgrading home security for the elderly, carrying out public health programs for the immunization of children, and the like. Such a program should be your first priority in this new session.

In Cleveland, a city that has been hit as hard as any by this recession, we developed such a model last year. By combining Community Development Block Grant funds, CETA Youth Employment funds, with in-kind services supplied by several city departments, we were able to employ 1,217 Clevelanders, chosen by lottery, for several months starting in April and ending in October.

This program led to the beautification and increased cleanliness of my city. Over 4,300 vacant lots were cleared of debris, cut and cleaned. 160 of them were barricaded to prevent further illegal dumping. That may not sound like much, but many of those employed were grateful for a chance to work and they worked very hard during the program. In an area that traditionally is viewed as "make-work" by most taxpayers, we received nothing but compliments by our citizens who were appreciative of the clean up effort by the city. Many of those employed expressed a desire to continue on in the program, which could not be accommodated due to limitations on the amount of money that was available.

In addition to simply cleaning up health hazards and unsightly lots, many of the workers were also assigned to our "Summer Sprout" program. The idea of urban gardens has been around for awhile, but we took the opportunity to expand the program far beyond its original scope. We turned 187 plots of land into production, ultimately harvesting 8.5 tons of produce. About one-half of the produce was turned over to Cleveland's Hunger Task Force for distribution to the various food kitchens that have sprung up this past year.

Other employees were assigned related tasks in other divisions, most important of which was a large contingent in the Department of Parks and Recreation. There, they performed such tasks as cutting grass, pruning trees and hedges, landscaping, tree planting and rubbish removal. Our parks have never look so good.

This was a small seasonal program, one that was made possible by a combination of federal and local dollars. But for 1,217 people it was one small measure of hope and self-esteem. It was put together relatively quickly, administered fairly, and resulted in a city that was able to take a small step back in the right direction. This is one type of light, short term public employment program I would recommend for your consideration.

Another seasonal program, funded by a combination of federal and private dollars is the City of Cleveland home weatherization program. Over the space of one year 1,000 homes will be weatherized by 16 individuals who, previous to the program, were unemployed. Not only does the program employ people, but it also saves the elderly money on their fuel bills. Interestingly, it also formed a meaningful bridge between the young people who were doing the work and the elderly who benefited from their labor. This is a good program that can be emulated across the country.

Up to this point I have only been talking about short term, seasonal type public employment programs.

Notwithstanding its unpopularity, however, I think Congress has got to reconsider its view on a longer term PSE-type program for areas of chronic high unemployment. Instead of a countrywide CETA PSE, I am suggesting it be limited to areas where unemployment exceeds eight percent. The legislation can have a fixed life of two or three years. I would also suggest that participants be paid wages consistent with those paid in the geographic area where the employment occurs. It should be administered locally by units of general purpose local governments.

In my city people need jobs—and my city administration needs their services. We appreciated PSE when it existed and were sorry when it ended. If putting additional employees to work in the public sector is philosophically upsetting to some. I would suggest that standing in a free cheese line or losing your house because you can't afford the mortgage payments is a lot more upsetting to many people.

Let's put a limited PSE program back on the front burner.

By Mr. JEPSEN:

S. 1813. A bill to amend the Consolidated Farm and Rural Development Act, to require the Secretary of Agriculture to make and insure loans to certain farm supply businesses which have been adversely affected by the payment-in-kind program; to the Committee on Agriculture, Nutrition, and Forestry.

AGRIBUSINESS LOAN ACT OF 1983

Mr. JEPSEN. Mr. President, this bill, entitled the "Agribusiness Loan Act of 1983," will enable those agribusinesses that have been adversely affected by the payment-in-kind (PIK) program to receive insured loans from the Farmers Home Administration at a lowered rate of interest.

Large surpluses of grain, reduced farm commodity prices, and high interest rates, are just a few of the problems that have been plaguing farmers in recent years. In response to these problems, our Government offered to help the American farmer by initiating the PIK program. Farmers overwhelmingly responded to this program by voluntarily setting aside 30 to 40 percent of their valuable land in hopes of improving the farm economy.

Many farmers have been able to hang on one more year because of the PIK program. However, the farmers' gain has been agribusiness' loss. Agribusiness has supported PIK even though a significant amount of their business has been lost. Nearly 83 million acres of productive farmland—nationwide—has been set aside under the 1983 PIK program. Estimates of the loss to American agribusiness attributable to this unique program range from $4.9 to $5.4 billion in sales.

Seed, fertilizer, pesticide, and farm machinery, manufacturers, distributors, wholesalers and retailers, have all suffered financially.

For example, according to the Economic Research Service of the U.S. Department of Agriculture, production expenses for seed are expected to decline by $0.6 billion. Expenses for fertilizer are expected to decline by $1.3 billion. Expenses for pesticides are expected to decline by $0.5 billion, for fuel by $1 billion, and for machinery purchases and repairs by $1.5 billion, all since 1982.

This is even more devastating when you total these reductions in demand on a percentage basis. Pesticide demand for 1983 is down between 12 and 15 percent from the 1982 level. Fuel demand is down from between 3 and 10 percent; fertilizer demand is down from between 12 and 14 percent; machinery is down about 3 percent; and machinery repairs are down 12 to 15 percent.

According to the Fertilizer Institute, the reduction in fertilizer is even higher than USDA estimates. The institute expects 1983 demand at a full 15- to 16-percent below the 1982 levels. In my own State of Iowa, the retail sales for fertilizer are 22 percent below last year's sales.

The Iowa Grain and Feed Association reports a more substantial decline—sales for fertilizer are down 30 to 33 percent and chemical sales are down 40 percent with the State. The Farm and Industrial Equipment Institute notes that two-wheel drive tractor sales are down 1.5 percent, four-wheel drive tractors are down 40 percent, and self-propelled combine sales are down 3 percent, all lower than the 1982 levels.

Additionally, according to Richard J. Mahoney, chief executive officer of Monsanto, overall agricultural input markets are expected to decline by between 4 and 5 percent this year, for a $5.4 billion reduction in sales.

In testimony before the House Small Business Committee this past April, L. W. Lowry, president of Nutra-Flo Chemical Co., a Iowa family-owned fertilizer business, noted the following:

PIK was thrust on the fertilizer industry at the beginning of the farming season. This disrupted pricing at all levels—manufacturing, wholesale, and retail.

Lowry went on to note that although the USDA estimates for fertilizer demand were at roughly only 12 to 14 percent below last year's level, demand in some States—for example, Nebraska—is expected to be down 25 to 50 percent. This reduction was attributed to a decline in irrigated farming. Lowry feels that the PIK program has placed agribusiness in one of the most disastrous situations ever, and poses one of the greatest challenges to the agribusiness community in years.

Most businesses have been able to survive so far, but they cannot withstand another year of reduced sales. If the 1984 farm program contains a PIK, or closely related set-aside program, agribusinesses will definitely need funds available at a reduced interest rate.

A community in Iowa has witnessed the closing of an implement dealer and the bankruptcy of a grain storage construction company. A farm supply elevator in this town gave out $600,000 in patronage refunds in their 1981-82 fiscal year. This fiscal year they are projecting they will finish in the red. There will not be any patronage refunds for 1983.

The problem will continue through next year. There is an extremely high inventory of grain. Fifty to sixty percent of this grain inventory is pledged to the 1983 PIK program. There will be a significant drop in the new grain crop coming in. This means that elevators may lose a large percentage of their income normally generated by drying and handling charges. The problems are continually building. If financial help is not provided, elevators in Iowa and everywhere across this Nation will all be in dire straits. Help can be provided through this initiative.

The Agribusiness Loan Act of 1983 will supply some immediate relief for affected agribusiness.

If a business shows sufficient need for loan money, it will be eligible for a maximum of $75,000. The rate of interest on the principal amount will be 3 percent less than the operating loan rate under the USDA's limited resource program. The repayment period will be 18 months, and the Secretary of Agriculture will be responsible for developing the guidelines for the program. This is not, however, a permanent program. It will be in effect beginning with the enactment of the bill and end September 30, 1984.

When money is needed, there must be a source to turn to. Banks may be able to help at their normal lending rate. The Small Business Administration has funds available but not all agribusinesses will qualify. This bill that I am proposing offers a reduced interest rate to farm industries. It does not require new funds to be appropriated. Money is available from the Farmers Home Administration business and industry loan program. The difference between a normal lending rate and the rate which I am proposing is 3 percent. This is a significant difference, and may contribute substantially to industries remaining in operation through the 1984 crop year.

The farm program in 1984 will determine the extent to which many businesses will need a loan program, similar to the one I am submitting today.

The Iowa Grain and Feed Association has reported that many of the farm supply businesses have been able to keep their heads above water, so far.

However, if demand for farm inputs and machinery continues to decline, financial assistance will make the critical difference in a business's survival.

I am sure that other Senators have heard similar concerns from those affected by the PIK program. PIK was designed to reduce the financial strain on the American farmer. It has accomplished this. However, the strain is equally great on other sectors of the farm economy. Without help, a total farm economic recovery can never occur.

The need for this bill is timely. Support and action on the measure is critical. I ask the Members of the Senate for their consideration and enthusiastic support for this bill.

Mr. President, I ask unanimous consent that a copy of my bill appear in the RECORD immediately following my remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1813

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Agribusiness Loan Act of 1983".

SEC. 2. Effective for the period beginning with the date of the enactment of this Act and ending September 30, 1984, section 310B(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1932(a)) is amended by adding at the end thereof the following new subsection:

"(f) Notwithstanding any other provision of law—

"(1) The Secretary shall make and insure loans under this subsection to small business which—

"(A) are located in rural areas;

"(B) are engaged in furnishing to farmers and ranchers machinery, supplies, and services directly related to the production of commodities diverted from production under payment-in-kind land diversion programs carried out by the Secretary; and

"(C) establish by substantial evidence that they are experiencing severe economic hardship directly attributable to the operation of such programs.

"(2) A loan shall be made or insured under this subsection for the purpose of assisting an eligible borrower to continue to operate the business of the borrower during the period of economic hardship described in paragraph (1)(C).

"(3) The principal amount of a loan made or insured under this subsection may not exceed $75,000.

"(4) The period of repayment of a loan made or insured under this subsection shall be eighteen months.

"(5) The rate of interest on a loan made or insured under this subsection shall be the rate of interest applicable to an operating loan under section 316(a)(1), reduced by 3 per centum.

"(6) To the extent necessary to make or insure loans to eligible borrowers who have applied for assistance under this subsection, no less than 10 per centum of the funds appropriated under the heading "RURAL DEVELOPMENT INSURANCE FUND" in title II of the Act entitled "An Act making appropriations for Agriculture, Rural Development, and Related Agencies programs for the fiscal year ending September 30, 1983, and for other purposes", approved December 18, 1982 (96 Stat. 1799), for the purpose of guaranteeing industrial development loans, shall be made available to make or insure loans under this subsection.

"(7) No later than sixty days after the date of the enactment of the Agribusiness Loan Act of 1983, the Secretary shall issue regulations to carry out this subsection.".

By Mr. PACKWOOD:

S. 1814. A bill to amend the Internal Revenue Code of 1954 to allow an amortization deduction for bus operating rights based on a 60-month period; to the Committee on Finance.

TAX TREATMENT OF BUS OPERATING CERTIFICATES

Mr. PACKWOOD. Mr. President, today I am introducing legislation to provide tax treatment for bus route operating rights comparable to rules enacted in 1981 for truck route operating rights. This change is needed because of deregulation of intercity buses, enacted in 1982.

The issue for buses is identical to that facing the trucking industry following trucking deregulation in 1980. From 1935 to 1980 the Interstate Commerce Commission granted a limited number of certificates of operating authority to motor carriers. Persons wishing to enter the motor carrier business or expand an existing business often would purchase operating authorities from an existing trucking company. Substantial amounts were paid. The operating rights provided a substantial part of a carrier's asset structure, and a source of loan collateral.

Because of trucking deregulation, provided by the Motor Carrier Act of 1980, truck route operating rights issued by the ICC became virtually worthless. The tax rules applicable to loss of value of a Government license because of deregulation were not entirely clear in 1981. As a result, in 1981 Congress approved legislation allowing trucking companies to deduct over a 5-year period their basis in the operating rights.

The bill I am introducing today provides the same treatment for bus operating rights. In 1982, the President signed into law the Bus Regulatory Reform Act of 1982, which deregulated intercity buses. This important deregulation bill allows intercity bus companies to enter routes, expand routes, drop routes, and change routes without Federal barriers. Prior to bus deregulation, bus operators were required to acquire route operating rights prior to providing service on a particular route. Issuance of bus operating authorities was highly restricted. As with motor carrier operating rights, bus operating rights were bought and sold for significant sums, used as collateral for loans, and constituted an important part of the capital costs of the company.

The Bus Regulatory Reform Act changed that, By allowing virtually free entry of bus companies into routes of their choice, the existing route operating rights became virtually worthless.

The bill I am introducing today applies to owners of bus operating rights as of November 19, 1982—or persons who acquired the rights after that date as a result of a binding contract in effect on November 19—the date bus deregulation was signed into law by the President. It allows the owner of the operating right to deduct ratably over 60 months its adjusted basis in the bus operating authority. The bill requires proper adjustment to the carrier's basis in the operating authority. The bill also contains provisions assuring comparable treatment for noncorporate carriers, comparable to provisions applicable to motor carriers contained in the Technical Corrections Act of 1982.

Mr. President, I request unanimous consent that the text of the bill appear in the CONGRESSIONAL RECORD following these remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1814

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DEDUCTION FOR BUS OPERATING AUTHORITY.

(a) GENERAL RULE.—For purposes of chapter 1 of the Internal Revenue Code of 1954, in computing the taxable income of a taxpayer who, on November 19, 1982, held one or more bus operating authorities, an amount equal to the aggregate adjusted basis of all bus operating authorities held by the taxpayer on November 19, 1982, or acquired subsequent thereto pursuant to a binding contract in effect on November 19, 1982, shall be allowed as a deduction ratably over a period of 60 months. Such 60-month period shall begin with the later of the month of November 1982 or the month in which acquired, or, if later, at the election of the taxpayer, the first month of the taxpayer's first taxable year beginning after November 19, 1982.

(b) DEFINITION OF BUS OPERATING AUTHORITY.—For purposes of this section, the term "bus operating authority" means—

(1) a certificate or permit held by a motor common or contract carrier of passengers and issued pursuant to subchapter II of chapter 109 of title 49 of the United States Code, or

(2) a certificate or permit held by a motor carrier authorizing the transportation of passengers over regular routes in intrastate commerce, and issued by the appropriate State agency.

(c) SPECIAL RULES.—

(1) ADJUSTED BASIS.—For purposes of the Internal Revenue Code of 1954, proper adjustments shall be made in the adjusted basis of any bus operating authority for the amounts allowable as a deduction under this section.

(2) CERTAIN STOCK ACQUISITIONS.—

(A) IN GENERAL.—Under regulations prescribed by the Secretary of the Treasury or his delegate, and at the election of the holder of the authority, in any case in which a corporation—

(1) on or before November 19, 1982 (or after such date pursuant to a binding contract in effect on such date), acquired stock in a corporation which held, directly or indirectly, any bus operating authority at the time of such acquisition, and

(ii) would have been able to allocate to the basis of such authority that portion of the acquiring corporation's cost basis in such stock attributable to such authority if the acquiring corporation had received such authority in the liquidation of the acquired corporation immediately following such acquisition and such allocation would have been proper under section 334(b)(2) of such code,

the holder of the authority may, for purposes of this section, allocate a portion of the basis of the acquiring corporation in the stock of the acquired corporation to the basis of such authority in such manner as the Secretary may prescribe in such regulations. The preceding sentence shall not apply if an election under section 338 of

such Code is in effect with respect to the corporation described in clause (i).

(B) TREATMENT OF CERTAIN NONCORPORATE TAXPAYERS.—Under regulations prescribed by the Secretary of the Treasury or his delegate, and at the election of the holder of the authority, in any case in which—

(i) a noncorporate taxpayer or group of noncorporate taxpayers on or before November 19, 1982, acquired in one purchase stock in a corporation which held, directly or indirectly, any bus operating authority at the time of such acquisition, and

(ii) the acquisition referred to in clause (i) would have satisfied the requirements of subparagraph (A) if the stock had been acquired by a corporation.

then, for purposes of subparagraphs (A) and (C), the noncorporate taxpayer or group of noncorporate taxpayers referred to in clause (i) shall be treated as a corporation. The preceding sentence shall apply only if such noncorporate taxpayer (or group of noncorporate taxpayers) on November 19, 1982, held stock constituting control (within the meaning of section 368 (c) of the Internal Revenue Code of 1954) of the corporation holding (directly or indirectly) the bus operating authority.

(C) ADJUSTMENT TO BASIS.—Under regulations prescribed by the Secretary of the Treasury or his delegate, proper adjustment shall be made to the basis of the stock or other assets in the manner provided by such regulations to take into account any allocation under subparagraph (A).

(3) SECTION 381 OF THE INTERNAL REVENUE CODE OF 1954 TO APPLY.—For purposes of section 381 of the Internal Revenue Code of 1954, any item described in this section shall be treated as an item described in subsection (c) of such section 381.

(d) EFFECTIVE DATE.—The provisions of this section shall apply to taxable years ending after November 18, 1982.

By Mr. PACKWOOD:

S. 1815. A bill to amend the Internal Revenue Code of 1954 to exempt from taxation corporations which acquire and manage real property for certain other exempt organizations, and for other purposes; to the Committee on Finance.

REAL ESTATE INVESTMENTS BY CHARITABLE ORGANIZATIONS

Mr. PACKWOOD. Mr. President, today I am introducing a bill to help organizations tax exempt under section 501(c)(3) and pension funds diversify their real estate investments. This bill will be particularly helpful to colleges and universities, pension funds, and foundations with smaller endowments.

Foundations, private colleges and universities, and other institutions face severe financial pressure. Federal budget cuts and diminished tax incentives for certain contributions have reduced funds available to charities. We need to act to help these groups survive, especially the smaller ones. Facilitating diversification in real estate holdings is one way to help.

Increased real estate investments by these organizations can also help expand funds available for real estate construction and renovation.

This bill creates a new section 501(c)(24), based largely on existing section 501(c)(2), a relatively little known part of the tax rules for nonprofit organizations. Section 501(c)(2) makes tax free the income of certain corporations established to hold real estate for an exempt organization. To be tax free, all of the income of the section 501(c)(2) corporation must be derived from passive real estate investments, and must be turned over to an exempt organization after being collected. The purpose of new section 501(c)(24) is, in effect, to revise section 501(c)(2) to make it more workable for smaller tax-exempt entities.

Section 501(c)(2) states that the income must be turned over to "an organization." IRS interprets this today to mean that the income may not be given to two or more unrelated organizations. The effect of this interpretation is to block section 501(c)(2) organizations from serving more than one unrelated tax-exempt organization.

This has the harshest effect on exempt organizations with smaller endowments. Those groups may not have sufficient endowments to diversify real estate holdings. Diversification is made easier if several charities and pension funds are permitted to share in ownership of a section 501(c)(2) corporation. Diversification allows a sounder investment mix. For example, a university or a foundation may prefer to own 10 percent of 10 buildings than to own 100 percent of 1 building.

Under this bill, more than one 501(c)(3) organization or pension fund would be permitted to own stock in a new section 501(c)(24) real estate holding corporation.

The IRS, on occasion, has suggested that a section 501(c)(2) corporation must be created by an exempt organization. That interpretation thwarts use of section 501(c)(2) because it bars those tax exempt organizations not equipped to organize a section 501(c)(2) holding company from benefiting. Therefore, this bill provides that the 501(c)(3) organization or pension fund which is a stockholder in a 501(c)(24) need not organize it.

Also, this bill provides that section 501(c)(24) organizations will be eligible for the acquisition indebtedness rules enacted in 1980 for pension plans.

Mr. President, I request unanimous consent that the text of this bill be inserted in the RECORD following my remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1815

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 501(c) of the Internal Revenue Code of 1954 (relating to the list of exempt organizations) is amended by adding at the end thereof the following new paragraph:

"(24) (A) Any corporation organized for the exclusive purposes of—

"(i) acquiring property and holding title to, and collecting income from, such property, and

"(ii) turning over the entire amount of income from such property (less expenses) to 1 or more organizations described in subparagraph (C).

"(B) A corporation shall be described in subparagraph (A) without regard to whether the corporation is organized by 1 or more organizations described in subparagraph (C).

"(C) An organization is described in this subparagraph if such organization is—

"(i) any qualified pension, profit-sharing, or stock bonus plan which meets the requirements of section 401 (a),

"(ii) a governmental plan (within the meaning of section 414 (d)),

"(iii) the United States, any State or political subdivison thereof, or any agency or instrumentality of any such governmental unit, or

"(iv) any organization described in paragraph (3).".

(b) Subparagraph (A) of section 514(c)(9) of the Internal Revenue Code of 1954 (relating to real property acquired by qualified trust) are amended by inserting "or an organization described in section 501(c)(24)" after "qualified trust".

(c) The amendments made by this section shall apply to taxable years beginning after December 31, 1983.

By Mr. THURMOND:

S. 1816. A bill to amend the Textile Fiber Products Identification Act, the Tariff Act of 1930, and the Wool Products Labeling Act of 1939 to improve the labeling of textile fiber and wool products; to the Committee on Commerce, Science, and Transportation.

TEXTILE FIBER AND WOOL PRODUCTS IDENTIFICATION ACT

Mr. THURMOND. Mr. President, I am today introducing legislation that is directed at strengthening domestic law as it relates to country of origin labeling requirements for textile products.

There are presently several laws that require clear marking of textile products entering the United States as to their country of origin. The Textile Fiber Products Identification Act and the Tariff Act of 1930 provide that the country of origin be affixed to the textile product in a clear and conspicuous manner. Nevertheless, there have been increasing instances where textiles and apparel products are entering the United States in violation of domestic labeling laws.

One of the major problems in enforcement of existing law is the fact that labels are often placed in inconspicuous places. This bill would designate that the label be attached to the most conspicuous place as the inner side of the product. This will allow easy identification of the label by consumers and will help with enforcement of present textile agreements.

Mr. President, there is no requirement in present law for a label denoting domestic manufacture of a textile/apparel product. The consuming public must infer that a textile/apparel product is made in the United States if it does not specifically say it is manufactured in a foreign country on the garment label. The bill I am introducing today would require that the product be labeled as having been made in the United States if it were produced in this country. Studies have shown that U.S. consumers prefer to buy American-made textile products. By mandating that textile products made in this country be labeled to that effect, we will be helping consumers to identify textile goods made in this country.

Mr. President, another provision of the bill would require that both the textile product, as well as the package in which it is contained, be labeled as to country of origin. There have been numerous instances where bulk shipments have been made to the United States and the packages have been properly marked. However, once the packages are opened, the individual products have not been labeled and therefore have appeared on retail counters without required labeling. In the case of packaging that is transparent in nature where the label could be read through the package, it would not be required that the bulk container be marked as to the country of origin.

Mr. President, the final major feature of the bill would mandate that catalog sale descriptions and other advertisements for textile products contain country of origin information. While there has been FTC rulings to the effect that catalog sale offerings include country of origin material, it is not provided for in the statute itself, and the regulation in many cases has gone unenforced.

Mr. President, I realize that this is a complex subject and that my bill touches on only a few of the major problems that exist in the area of textile labeling. However, I feel that it is extremely important that the groundwork be laid toward resolving some of these problems. We must clarify our labeling laws in order to give consumers every opportunity to buy American-made products. I hope that this legislation will have a full and expeditious review at the committee stage, so that it can be considered by the full Senate in the near future.

By Mr. SYMMS (for himself, Mr. MOYNIHAN, and Mr. MATSUNAGA):

S. 1817. A bill to provide equitable rules for the tax treatment of fringe benefits; to the Committee on Finance.

FRINGE BENEFITS TAX ACT OF 1983

Mr. SYMMS. Mr. President, Mr. MOYNIHAN and Mr. MATSUNAGA and I are introducing the Fringe Benefits Tax Act of 1983, a bill intended to end the controversy over the proper tax treatment of fringe benefits.

This controversy has existed since the Department of the Treasury published a discussion draft of regulations in this area in 1975. It has continued since that time because Congress has failed to take decisive and permanent action with respect to the taxation of fringe benefits. Instead, the Congress continually extended a moratorium on the Department of the Treasury's ability to propose regulations. Extending that moratorium again, at the end of this year, is not a solution to the controversy.

The lack of a national uniform policy on the treatment of fringe benefits imposes costs, burdens, uncertainty, and inequity among taxpayers. These adverse consequences are beginning to be felt, and I believe the time has come to find a permanent solution to this problem.

While attempting to establish a uniform policy, the bill accommodates many existing practices of employers so that the current business and working environment will not be disrupted. I believe it is important to recognize the longstanding practices that are accepted business procedures in the private sector, but I also believe that we should establish certain guidelines and rules so that this issue will not be settled by the courts or the regulators.

One area of concern that is not addressed by this legislation is the so-called cafeteria plans. There are two reasons that this legislation does not address this issue. First, cafeteria plans are provided for by statute in the code and would, therefore not be affected by the expiration of the moratorium at the end of this year. Second, there has not been sufficient information gathered to determine if this is an area about which the Congress should be concerned. Consequently, I believe that it would be more appropriate to address this issue at a separate time after the Senate Finance Committee has had the opportunity to review the matter.

I urge my colleagues to carefully review the effects of my legislation, and then support it.

Mr. President, I ask unanimous consent that the text of the bill be printed in the CONGRESSIONAL RECORD as follows:

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1817

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE

This Act may be cited as the "Fringe Benefits Tax Act of 1983."

SECTION 2. EXCLUSION OF CERTAIN FRINGE BENEFITS FROM GROSS INCOME.

(a) EXCLUSION OF CERTAIN FRINGE BENEFITS.—

(1) IN GENERAL.—Part III of subchapter B of Chapter 1 of the Internal Revenue Code of 1954 (relating to items specifically excluded from gross income) is amended by redesignating section 132 as section 133 and by inserting after section 131 the following new section:

SECTION 132. CERTAIN FRINGE BENEFITS.

"(a) EXCLUSION FROM GROSS INCOME.—Gross income shall not include any fringe benefit which qualifies as a—

"(1) no-additional-cost-service or discount property,

"(2) working condition fringe, or

"(3) de minimis fringe.

"(b) NO-ADDITIONAL-COST-SERVICE OR DISCOUNT PROPERTY DEFINED.—For purposes of this section, the term 'no-additional-cost-service or discount property' means any service or property provided or sold by an employer to an employee if—

"(1) such service is provided to customers in the ordinary course of the trade or business of the employer, and

"(2) the employer incurs no substantial additional cost in providing such service to the employee; or

"(3) such service or property is offered for sale to customers in the ordinary course of the trade or business of the employer and sold or provided to the employee at an amount by which—

"(A) the price at which such service or property is provided to the employee by the employer, is less than

"(B) the price at which such service or property being offered by the employer to customers who are not employees.

"(c) WORKING CONDITION FRINGE DEFINED.—For purposes of this section, the term 'working condition fringe' means any services or property if—

"(1) such services or property are provided primarily for the purpose of facilitating the employee's performance of service for the employer, and

"(2) substantially all of the use of the services or property can reasonably be expected to occur in connection with the employee's performance of services.

"(d) DE MINIMIS FRINGE DEFINED.—For purposes of this section the term 'de minimis fringe' means any service or property the value of which is so small as to make accounting for it unreasonable or administratively impracticable.

"(e) CERTAIN INDIVIDUALS TREATED AS EMPLOYEES FOR PURPOSES OF SUBSECTION (a)(1).—

"(1) SPOUSES, PARENTS, SURVIVING SPOUSE, AND DEPENDENT CHILDREN.—

"(A) IN GENERAL.—For purposes of paragraph (1) of subsection (a) the spouses, parents, surviving spouse or dependent child of the employee shall be treated as an employee.

"(B) DEPENDENT CHILD.—For purposes of subparagraph (A), the term 'dependent child' means any child (as defined by section 151(e)(3) of the employee who is a dependent of the employee. For purposes of the preceding sentence, any child to whom section 152(e) applies shall be treated as the dependent of both parents.

"(2) RETIRED, DISABLED AND DECEASED EMPLOYEES.—For purposes of paragraph (1) of

subsection (a), the term 'employee' includes, with respect to a trade or business of any employer, any individual (including spouse or surviving spouse) who was formerly employed by such employer in such trade or business and who separated from service with such employer in such trade or business by reason of retirement, death or disability.

"(3) AFFILIATED EMPLOYEES.—For purposes of paragraph (1) of subsection (a), the term 'employee' includes all employees of all corporations which are members of a controlled group of corporations within the meaning of section 1563 (a), except that—

"(A) "more than 50 percent" shall be substituted for "at least 80 percent" each place it appears in section 1563(a)(1), and

"(B) the determination shall be made without regard to subsection (a)(4) and (e)(3)(C) of section 1563."

"(4) MEMBERS OF THE BOARD OF DIRECTORS.—For the purpose of paragraph (1) of subsection (a), the term 'employee' includes, with respect to a trade or business of an employer, any individual who is currently serving as a member of the Board of Directors of the employer.

"(f) SPECIAL RULES.—

"(1) INTERCHANGE ARRANGEMENTS.—Exclusions under subsection (a)(1) shall apply to such fringe benefits extended by employers to employees of other employers in the same trade or business where such interchange arrangements have been authorized by federal law or regulations issued thereunder; or by tradition and custom within the same trade or business.

"(2) SPECIAL RULE FOR LEASED SECTIONS OF DEPARTMENT STORES.—For purposes of subsection (a) and paragraph (1) of subsection (f), in the case of a leased section of a department store—

"(A) such section shall be treated as part of the trade or business of the person operating the department store, and

"(B) employees in the leased section shall be treated as employees of the person operating the department store.

"(3) AUTO SALESMEN.—

"(A) IN GENERAL.—For purposes of subsection (c)(2), qualified automobile demonstration use shall be treated as use in connection with the employee's performance of service.

"(B) QUALIFIED AUTOMOBILE DEMONSTRATION USE.—For purposes of subparagraph (A), the term 'qualified automobile demonstration use' means any use of an automobile by an automobile salesman in the sales area in which the automobile dealer's sales office is located if there are substantial restrictions on the personal use of such automobile by such salesman.

"(4) ON-PREMISES GYMS AND OTHER RECREATIONAL FACILITIES.—

"(A) IN GENERAL.—Gross income shall not include the value of any on-premises recreational facility provided by an employer to this employees.

"(B) ON-PREMISES RECREATIONAL FACILITY.—For purposes of this paragraph, the term 'on-premises recreational facility' means any gym or other recreational facility—

"(i) which is located on the premises of the employer,

"(ii) which is operated by the employer, and

"(iii) substantially all the use of which is by employees of the employer, their spouses, and their dependent children within the meaning of subsection (e)(1)(B).

"(5) PARKING.—For purposes of this section, the term 'working condition fringe' includes providing parking to an employee.

"(6) FOOD SERVICES.—For purposes of this section, the term 'working condition fringe' includes providing food services (including a cafeteria) to an employee.

"(g) SECTION NOT TO APPLY TO FRINGE BENEFITS EXPRESSLY PROVIDED ELSEWHERE.—This section (other than subsection (d) shall not apply to any fringe benefit of a type the tax treatment of which is expressly provided for in any other section of this chapter.

"(h) REGULATIONS.—The Secretary shall prescribe such regulations as may be necessary to carry out the purposes of this section."

(2) CLERICAL AMENDMENT.—The table of sections for such part III is amended by striking out the item relating to section 132 and inserting in lieu thereof the following:

"Sec. 132. Certain fringe benefits.

"Sec. 133. Cross references to other Acts.".

(b) CONFORMING AMENDMENT TO EMPLOYMENT TAXES.—

(1) SOCIAL SECURITY TAXES.—

"(A) Subsection (a) of section 3121 of such Code (defining wages) is amended by striking out "or" at the end of paragraph (18), by striking out the period at the end of paragraph (19) and inserting in lieu thereof "; or", and by inserting after paragraph (19) the following new paragraph:

"(20) any benefit provided to or on behalf of an employee if at the time such benefit is provided it is reasonable to believe that the employee will be able to exclude such benefit from income under section 132."

"(B) Section 209 of the Social Security Act is amended by striking out "or" at the end of subsection (q), by striking out the period at the end of subsection (r) and inserting in lieu thereof "; or", and by inserting after subsection (r) the following new subsection:

"(s) Any benefit provided to or on behalf of an employee if at the time such benefit is provided it is reasonable to believe that the employee will be able to exclude such benefit from income under section 132 of the Internal Revenue Code of 1954."

(2) RAILROAD RETIREMENT TAX.—Subsection (e) of section 3231 of such Code (defining compensation) is amended by adding at the end thereof the following new paragraph.

"(5) The term 'compensation' shall not include any benefit provided to or on behalf of an employee if at the time such benefit is provided it is reasonable to believe that the employee will be able to exclude such benefit from income under section 132."

(3) UNEMPLOYMENT TAX.—Subsection (b) of section 3306 of such Code (defining wages) is amended by striking out "or" at the end of paragraph (13), by striking out the period at the end of paragraph (14) and inserting in lieu thereof "; or", and by inserting after paragraph (14) the following new paragraph:

"(15) any benefit provided to or on behalf of an employee if at the time such benefit is provided it is reasonable to believe that the employee will be able to exclude such benefit from income under section 132."

(4) WITHHOLDING.—Subsection (a) of section 3401 of such Code (defining wages) is amended by striking out "or" at the end of paragraph (18), by striking out the period at the end of paragraph (19) and inserting in lieu thereof "; or", and by adding at the end thereof the following new paragraph:

"(20) any benefit provided to or on behalf of an employee if at the time such benefit is provided it is reasonable to believe that the employee will be able to exclude such benefit from income under section 132."

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 1984.

SECTION 3. EXCLUSION FROM GROSS INCOME OF CERTAIN REDUCTIONS IN TUITION.

(a) IN GENERAL.—Section 117 of the Internal Revenue Code of 1954 (relating to scholarships and fellowship grants) is amended by adding at the end thereof the following new subsection:

"(d) QUALIFIED TUITION REDUCTIONS.—

"(1) IN GENERAL.—Gross income shall not include any qualified tuition reduction.

"(2) QUALIFIED TUITION REDUCTION.—For purposes of this subsection, the term 'qualified tuition reduction' means the amount of any reduction in tuition provided by an organization described in section 170 (b)(1)(A)(ii) to an employee of such organization or to an employee of a similar organization under a reciprocal agreement or a portable tuition plan, for the education (below graduate level) at such organization of such employee.

"(3) CERTAIN INDIVIDUALS TREATED AS EMPLOYEES FOR PURPOSES OF SUBSECTION (D)(2).—

"(1) SPOUSE, SURVIVING SPOUSE, AND DEPENDENT CHILDREN.—

"(A) IN GENERAL.—For purposes of paragraph (1) of subsection (a), the spouse, surviving spouse or dependent child of the employee shall be treated as an employee.

"(B) DEPENDENT CHILD.—For purposes of subparagraph (A), the term 'dependent child' means any child (as defined by section 151(e)(3) of the employee who is dependent of the employee. For purposes of the preceding sentence, any child to whom section 152(e) applies shall be treated as the dependent of both parents.

"(2) RETIRED, DISABLED, AND DECEASED EMPLOYEES.—For purposes of paragraph (2) of subsection (d), the term 'employee' includes any individual (including the spouse or surviving spouse and dependent children) who was formerly employed by such employer in such trade or business and who separated from service with such employer by reason of retirement, death or disability."

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to qualified tuition reductions (as defined in section 117(d)(2) of the Internal Revenue Code of 1954) for education furnished after June 30, 1954, in taxable years ending after such date.

SECTION 4. EXCLUSION FROM GROSS INCOME FOR THE VALUE OF CERTAIN LODGING.

(a) IN GENERAL.—Section 119 of the Internal Revenue Code of 1954 (relating to meals or lodging furnished for the convenience of the employer) is amended by adding at the end thereof the following new subsection:

"(d) LODGING FURNISHED BY CERTAIN EDUCATIONAL INSTITUTIONS TO EMPLOYEES.—

"(1) IN GENERAL.—There shall be excluded from the gross income of an employee of an educational institution described in section 170(b)(1)(A)(ii) the value of lodging—

"(A) located on campus of, or in the proximity of, such institution, and

"(B) furnished to the employee, his spouse, or any of his dependents by or on behalf of such institution.

"(2) RENT MUST NOT BE LESS THAN DIRECT COST OF LODGING.—Paragraph (1) shall not apply to the value of any lodging to the extent that the direct cost of such lodging to the educational institution exceeds amounts paid by the employee for the use of such lodging.

"(3) EMPLOYEES RESIDING IN UNIVERSITY HOUSING MUST NOT RECEIVE REDUCED COMPENSATION.—Paragraph (1) shall not apply to employees of an educational institution whose compensation is reduced because of their residence in lodging furnished by such institution."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years beginning after December 31, 1981.

(c) TRANSITIONAL RULE.—

(1) IN GENERAL.—For purposes of the employment taxes, subsection (d) of section 119 of the Internal Revenue Code of 1954 (other than paragraph (2) thereof), as added by this Act, shall apply to all open taxable years beginning before January 1, 1982, if the education institution had a reasonable basis for not treating the value of lodging described in paragraph (1) of such subsection as being subject to such taxes.

(2) REASONABLE BASIS.—For purposes of paragraph (1), an educational institution shall in any case be treated as having a reasonable basis for not treating the value of lodging as subject to the employment taxes if the educational institution charged a reasonable rental amount for such lodging, taking into account such factors as—

(A) the necessary direct costs of such institution in furnishing the lodging,

(B) the value of the lodging to the employees to whom the lodging is furnished, and

(C) the institution's educational purposes in furnishing such lodging.

The reasonableness of the rental amount shall not be affected by the fact that the fair rental value of the lodging may have exceeded the rental amount.

"(3) DEFINITIONS.—For purposes of this subsection—

(A) The term "open taxable year" means any taxable year for which the assessment of a deficiency, or the allowance of any credit or refund, with respect to the employment tax involved is not barred by any law or rule of law, and

(B) the term "employment taxes" means the taxes imposed by subtitle C of the Internal Revenue Code of 1954.

By Mr. BRADLEY:

S. 1818. A bill to provide that a certain portion of the Hudson River shall be declared nonnavigable; to the Committee on Environment and Public Works.

CAVEN POINT LAND

Mr. BRADLEY. Mr. President, I am introducing legislation to declare a portion of the Hudson River nonnavigable. Actually, this is only a formality due to the fact that this portion of the Hudson has been dry land since the turn of the century. Nevertheless, congressional action is necessary since navigable waterways are the constitutional domain of the Federal Government.

This measure has been requested by both Governor Kean and by the city of Jersey City, N.J., so that plans may proceed with the development of Caven Point. This development will include construction of Route 185, an important thoroughfare for the area, and a private investment project including 700 housing units, a 300 to 500 room hotel, and 400,000 square feet of office space. Until Congress designates this parcel of land nonnavigable, these plans cannot be executed.

Since we rarely rely on 19th century geographic surveys, this process is infrequently required; however, this kind of legislative action is not without precedent. For example, in 1980 the Congress declared a parcel of land in Buffalo, N.Y., nonnavigable that used to be a part of Buffalo Harbor on Lake Erie. This is now Public Law 96-520 (H.R. 8228), signed on December 12, 1980.

Although this legislation I am introducing today will have absolutely no effect on the use of the Hudson, it is of considerable importance to the citizens of Jersey City, N.J.

I ask that the text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1818

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That portion of the Hudson River in the New York Bay lying within the following described area is hereby declared to be not a navigable water of the United States within the meaning of the Constitution and the laws of the United States:

All that piece or parcel of land, situate, lying and being in the city of Jersey City, Hudson County, State of New Jersey, upon or around that certain lot or piece of land known as the Caven Point Area, being more particularly described as follows:

Beginning at a point in the southeasterly end of Caven Point Road, said point being located the following two courses from the intersection of the southeasterly right-of-way line of Caven Point Road with the northeasterly boundary line of the whole tract of land (course number 9 in Deed Book 3145, Page 439): (a) Along said line of Caven Point Road south 31 degrees 21 minutes 52 seconds west 359.61 feet to an angle point in the northeasterly right-of-way of Caven Point Road; (b) thence along same line south 52 degrees 42 minutes 47 seconds east 47.22 feet to the proper point of beginning;

Thence south 58 degrees 49 minutes 22 seconds east along a line 287.51 feet to a point;

Thence south 50 degrees 13 minutes 51 seconds east along a line 460.77 feet to a point;

Thence south 13 degrees 06 minutes 47 seconds east along a line 312.39 feet to a point;

Thence south 11 degrees 10 minutes 08 seconds east along a line 368.44 feet to a point;

Thence north 69 degrees 48 minutes 51 seconds east along a line 328.80 feet to a point;

Thence south 04 degrees 53 minutes 00 seconds west along a line 516.88 feet to a point;

Thence south 02 degrees 42 minutes 32 seconds east along a line 931.04 feet to a point;

Thence south 04 degrees 42 minutes 41 seconds west along a line 644.45 feet to a point;

Thence south 24 degrees 29 minutes 01 seconds west along a line 231.78 feet to a point in the southerly edge of an existing concrete pier (41.30 feet wide);

Thence south 44 degrees 26 minutes 38 seconds west along a line (being course number 28 in the above mentioned deed) 6.87 feet to a point;

Thence north 47 degrees 47 minutes 04 seconds west along a line (being course number 29 in the above mentioned deed) 231.00 feet to a point;

Thence south 44 degrees 16 minutes 49 seconds west along a line (being course number 30 in the above mentioned deed) 26.34 feet to a point;

Thence north 45 degrees 30 minutes 22 seconds west along the northeasterly line of lands now or formerly of the United States Government (Caven Point Marine Base) and the projection of same 1,905.57 feet to a point;

Thence north 88 degrees 14 minutes 02 seconds west along a line 1,184.70 feet to a point in the southwesterly; boundary line of the whole tract (course number 33 of the above mentioned deed);

Thence north 49 degrees 07 minutes 25 seconds west along said boundary line 340.61 feet to a point in the southeasterly right-of-way line of New Jersey State Highway Route 185;

Thence along the same several courses and distances as recorded on the right-of-way plans for said Route 185 to the point or place of beginning, containing 108 acres, more or less;

Also that piece or parcel of land situate on the northwesterly side of New Jersey State Highway Route 185, more particularly described as follows:

Beginning at a point in the southeasterly right-of-way line of lands now or formerly of Lehigh Valley Railroad Company (National Docks Branch), said point being the intersection of said line with the southwesterly lines (if projected) of lands now or formerly of the United States Government (Caven Point Army Terminal);

Thence south 45 degrees 37 minutes 46 seconds east along said southwesterly line of U.S. Government property 774.30 feet to a point in the northwesterly right-of-way line of New Jersey State Highway Route 185;

Thence in a southwesterly direction along the several courses and distances along the right-of-way line of said Route 185 to the intersection with the northeasterly line of lands now or formerly of the Trustee of the Lehigh Valley Railroad;

Thence north 49 degrees 07 minutes 25 seconds west along said line and also along lands now or formerly of the Linden Urban Renewal Association 724.27 feet to a point in the aforesaid southeasterly right-of-way of the Lehigh Valley Railroad Company;

Thence north 37 degrees 13 minutes 52 seconds east along the same line 953.84 feet to the point or place of beginning, containing 18 acres, more or less;

Subject, however, to a right-of-way and access easement for ingress and egress granted to the U.S. Government, and slope and drainage easements granted to the New Jersey Department of Transportation.

By Mr. EXON:

S. 1819. A bill to specify the manner in which uncompensated services provided by a skilled nursing facility or an intermediate care facility shall be calculated for purposes of titles VI and SVI of the Public Health Service Act, and to require the Secretary of Health and Human Services to promulgate

regulations under section 1621(b)(1)(K) of the Public Health Service Act; to the Committee on Labor and Human Resources.

THE MADONNA BILL

Mr. EXON. Mr. President, today I am introducing a bill which will change the way Hill-Burton regulations apply to nursing homes. The Hill-Burton program began in 1946 as a way to provide Federal aid for the construction and modernization of hospitals and was made available to non-profit nursing homes in 1954. More than 500 nursing homes in virtually every State in the Nation have benefited from aid delivered through the Hill-Burton Act.

As a condition for receiving Hill-Burton aid, a facility must assure the government of two things: first, that it will provide a reasonable amount of free care for the poor and, second, that it will open its doors to persons living in the community served by the facility.

In 1979, the program regulations were significantly changed after very limited consultation with affected parties. The Department of Health and Human Services has told us that the primary target of these new regulations were hospitals that were failing to live up to their Hill-Burton promises. HHS has repeatedly admitted that these new rules were designed and imposed without taking the special needs of long-term care facilities—nursing homes—into account. And, in numerous letters to my office, HHS has conceded that the regulations, which replaced a reasonable set of requirements issued in 1972, have had an unintended damaging effect on nursing homes. Yet, the same regulations imposed on hospitals continue to be imposed also on nursing homes.

But a nursing home is not a hospital. It is not a place where a patient spends a few days but a residence where an elderly person may spend the rest of his or her life. A properly-run nursing home, such as most of those nonprofit homes that took advantage of Hill-Burton aid, provides a community setting which fills a patient's social needs while it ministers to his medical ailments.

Because a nursing home provides services unlike those of a hospital and to a different type of patient, it faces a different set of economic problems. The 1979 regulations, however, have forced nursing home to try to comply with financial requirements fundamentally unsuited to their mission. As a result, many have suffered, or will soon suffer, severe financial problems.

America's nursing homes are well aware of their obligations to care for the poor under the Hill-Burton Act. However, in 1979 the rules were changed in midstream. Because of the 1979 rules some homes have been forced to change their patient admissions rules and the way they calculate services provided to the poor. This has seriously damaged the financial underpinnings of the affected homes. They have also been forced to respond to the ill advised 1979 change by passing higher costs along to private patients. These private patients are not rich. They are retirees who have worked hard to accumulate social security benefits and modest pensions.

If we do nothing, these private patients will bear an even greater burden. But passing my bill will not cost the Federal or State governments an extra penny. In fact, by helping nursing homes maintain their financial stability, some elderly people may be able to afford nursing home care for a longer period without resorting to costly medicaid.

My bill would alleviate the current costly situation for the 548 nonprofit homes facing a further squeeze by permitting some technical changes which better reflect the ways in which nursing homes differ from hospitals.

First, my bill would require the Department of Health and Human Services to develop admissions standards for Hill-Burton nursing homes which mirror those already found adequate by HHS for all other medicaid and medicare-certified long-term care facilities under its jurisdiction. There is no legitimate reason why Hill-Burton homes should be treated more harshly than their sister institutions that participate solely in other Federal medical aid programs.

Second, this bill would allow Hill-Burton nursing homes to count, as uncompensated care for the poor, the different between their true costs and their Medicaid reimbursement for patients who have resided at the home for longer than an average hospital stay—12 days. The 12-day provision, I feel, is a suitable dividing line between short-term care and the long-term residency provided by nursing homes.

I believe that nursing homes that have benefited from the Hill-Burton program cannot and must not shirk their responsibilities to provide care for the indigent. However, I also believe Federal regulations must be interpreted in such a way that these non-profit homes can reasonably comply without putting their entire existence in financial peril. Inappropriate regulations, no matter how well-meaning, fail in their purpose if neither compliance nor enforcement are possible. That, I fear, has been the case with these Hill-Burton regulations, insofar as nursing homes are concerned.

Mr. President, let me conclude with these final arguments in favor of this legislation:

First. Non-profit nursing homes should be able to meet their Hill-Burton obligations as they existed at the time they accepted the financial assistance. The rules should not be changed after the fact.

Second. HHS has acknowledged that the 1979 regulations were not aimed at nursing homes, and that nursing homes will suffer because of the 1979 regulations. "We are aware that this issue is not adequately addressed in the regulations," HHS has written.

Third. Failure to take corrective action will result in shifting costs onto private paying patients, who cannot afford them, or in nonprofit nursing home bankruptcies, or both.

Fourth. Keeping non-profit nursing homes financially healthy will provide better access for paying and nonpaying patients alike. This legislation entails no cost to the Government.

I urge my colleagues to act promptly on this bill.

Mr. President, I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1819

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) with respect to whether a skilled nursing facility or an intermediate care facility which received assistance under title VI or title XVI of the Public Health Service Act (as such title XVI was in effect on September 30, 1979) has complied with the provisions of section 603(e)(2) or section 1604(b)(1)(J)(ii) of such Act (as such section 1604(b)(1)(J)(ii) was in effect on September 30, 1979)—

(1) the amount of services provided by the facility without compensation to an individual unable to pay therefor shall be equal to the difference between the reasonable cost of such services and the amount charged, and paid by or on behalf of such individual, for such services; and

(2) the amount of services provided by the facility without compensation to an individual unable to pay therefor shall include any portion of such reasonable cost in excess of the amount that the facility has received, or is entitled to receive, under Medicare or Medicaid.

(b) Subsection (a)(2) shall not apply to services provided by a skilled nursing facility or an intermediate care facility to an individual during any 12-day period which begins with the date on which such individual—

(1) initially receives such services; or

(2) first receives such services after a period of at least 30 consecutive days during which such individual did not receive such services.

SEC. 2. The Secretary shall promulgate regulations under section 1621(b)(1)(K) of the Public Health Service Act to establish requirements for admission by skilled nursing facilities or intermediate care facilities of individuals eligible for insurance benefits under title XVIII of the Social Security Act or of individuals eligible for aid or assistance under a State plan approved under title XIX of such Act which are identical to the requirements for such admissions specified in rules and regulations promulgated under section 1861(j) and section 1905(c) of the Social Security Act.

SEC. 3. For purposes of this Act—

(1) the term "skilled nursing facility" has the same meaning as in section 1861(j) of the Social Security Act;

(2) the term "intermediate care facility" has the same meaning as in section 1905(c) of such Act;

(3) the term "reasonable cost" means the cost of providing services to an individual in accordance with the cost determination principles and requirements under title XVIII of such Act;

(4) the term "Medicare" means the program of health insurance established under title XVIII of such Act; and

(5) the term "Medicaid" means the program of medical assistance provided under a State plan approved under title XIX of such Act.

By Mr. LEVIN:

S. 1820. A bill to amend the Federal-State Extended Unemployment Compensation Act of 1970 to provide that an individual may meet the 20 weeks of work requirement during either of their two most recent base periods; and to provide that the entitlement for extended compensation shall continue for 6 months beyond the end of their benefit year; to the Committee on Finance.

EXTENDED BENEFITS AND FEDERAL SUPPLEMENTAL COMPENSATION

Mr. LEVIN. Mr. President, today I am introducing legislation which will deal with a problem which has arisen with respect to the receipt of Extended Benefits and Federal Supplemental Compensation.

Under current law, workers who have been fortunate to have been called back to work can be penalized if their callback turns out to be for only a short period of time, but, nevertheless, long enough to carry them outside of their benefit year. The benefit year refers to the year from the date on which an individual filed for State unemployment benefits.

The consequence of this situation is that these individuals may not resume receipt of extended benefits or Federal supplemental compensation even though they had not yet exhausted their entitlement to these benefits prior to their temporary callback. Furthermore, their temporary employment may not have lasted for at least 20 weeks, so they would not be eligible for a new entitlement to State benefits. These workers will thus have been penalized for having had the initiative to go back to work at the first chance open to them.

The legislation which I am introducing would provide assistance to these individuals by providing that the entitlement for extended benefits and Federal supplemental compensation shall continue for 6 months beyond the end of their benefit year. Therefore, for example, an individual who at the end of their benefit term still had 6 weeks remaining on their extended benefit entitlement and 10 weeks on their Federal supplemental compensation entitlement could receive their remaining entitlement after their callback had ended, instead, as under current law, of being laid off a second time with the prospect of neither qualifying for a new entitlement of State benefits nor resuming receipt of extended benefits or Federal supplemental compensation.

In addition, for the purposes of extended benefits and Federal supplemental compensation, this legislation would allow either of an individual's two most recent work periods to be considered in determining whether they meet the 20 week work requirement. This would provide an individual who has a steady work history with a greater opportunity to meet the 20 week work requirement.

Mr. President, I have recently brought this problem to the attention of the Senate Finance Committee in testimony before it on the extended benefit program. I offer this legislation to further assist the committee in its consideration of what might be done to rectify a situation which has left people embittered and disillusioned because it can act as a penalty to those who have eagerly sought to leave the unemployment rolls and to go on a payroll.

I ask unanimous consent that a copy of this bill be printed following my remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1820

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 202(a)(5) of the Federal-State Extended Unemployment Compensation Act of 1970 is amended by inserting "or in the base period immediately preceding such base period," and after "the base period with respect to which the individual exhausted all rights to regular compensation under State law,".

(b) Section 202(a)(5) of the Federal-State Extended Unemployment Compensation Act of 1970 is amended by adding at the conclusion of such subsection "An individual's entitlement to extended compensation which has not been exhausted by the end of such individual's benefit year shall continue for six months subsequent to the end of the benefit year."

(c) The amendments made by subsections (a) and (b) shall apply to compensation payable for weeks which begin after the date of the enactment of this Act.

By Mr. GARN (for himself and Mr. TOWER):

S. 1821. A bill to amend the Securities Act of 1933 and the Securities Exchange Act of 1934 with respect to the treatment of mortgage-backed securities, to increase the authority of the Federal Home Loan Mortgage Corporation, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

S. 1822. A bill to amend the Internal Revenue Code of 1954 to encourage investments in mortgage-backed securities through trusts for investments in mortgages, and for other purposes; to the Committee on Finance.

SECONDARY MORTGAGE MARKET ENHANCEMENT ACT AND THE TRUST FOR INVESTMENT IN MORTGAGES ACT

Mr. TOWER. Mr. President, today Senator GARN and I are pleased to introduce S. 1821, the Secondary Mortgage Market Enhancement Act of 1983 and S. 1822, the Trust for Investment in Mortgages Act of 1983. The time has come for legislation in this area. We discussed in our May 20, 1983, joint statement to the press that we intended to "write a comprehensive secondary mortgage market bill designed to encourage a broadening of the market through more extensive involvement of the private sector." Hearings held this spring convinced us of the importance of drafting this act.

Mr. President, I would like to give a brief historical perspective on these measures and submit a section-by-section analysis for my colleagues to study during the course of the recess. Further, we might add that we will be scheduling hearings in early September to discuss all of the policy considerations of these proposals. We look forward to receiving the bipartisan support of our colleagues. The positive support and assistance that has been received to date from members of the administration has been most gratifying.

HISTORICAL PERSPECTIVE

Assistance to housing has been preeminent in American public policy since our Founding Fathers pledged themselves to the pursuits of freedom and private property. Administrations since have supported the continuing dream of American generations—home ownership.

The disaster of the Great Depression saw the first major commitment of Federal capital dollars and guaranty ability. Subsidized interest rates, FHA insurance, and incentives for our depositary institutions provided a continual stimulus toward this goal. The great question during the Depression was to what extent can private capital play an important role in providing liquidity in the housing market. In 1938, President Roosevelt requested the FHA Administrator to establish the Federal National Mortgage Association as a subsidiary of the Reconstruction Finance Corporation. It is possible that had the banks, savings and loan institutions, and insurance companies formed their own national mortgage associations, as had been suggested during debate on the Housing Act of 1934, there would have been no need for the formation of Fannie Mae. However, before such private companies could start up, the economic recovery stumbled in 1937, building additional pressure to stimulate the

construction industry. The urgency of the time say the Federal Government enter the secondary market business.

It was 33 years later and the Congress was again faced with a crunch in the housing industry. In the spring of 1970, Senator John Sparkman was Senate Banking and Currency Committee chairman and our distinguished ranking minority member, Senator PROXMIRE, was then ranking majority member.

The Senate committee was deep in hearings regarding the Emergency Home Finance Act of 1970. Cost of housing to the American public was the key question—just as it is today. Freddie Mac was born out of this major housing legislation. In the words of Preston Martin, then Chairman of the Federal Home Loan Bank Board, this new corporation would deal in "conventional mortgages" originated by the members of the Federal Home Loan Bank system. Further, Chairman Martin proposed an amendment that would allow the bank board to deal in the mortgages of all FSLIC- and FDIC-insured institutions, as throughout the years Fannie Mae primarily dealt with the mortgage banking industry. In a discussion of this agency's creation, Arthur Burns, then Chairman of the Federal Reserve Board, in a March 16, 1970, letter to Chairman Sparkman, expressed his concern over creating yet another Federal agency exempt from taxation and with Federal borrowing ties. He questioned whether or not the "public benefits" would "outweigh the costs." Thus, even as a new agency was created, the impact of further intrusion of the Federal Government in the credit markets was critically questioned. This concern remains of ever more importance as we face severe strain on our Federal budget.

In his May 5, 1983 testimony before the Senate Subcommittee on Housing and Urban Affairs, Mr. Lawrence A. Kudlow, then Associate Director for Economics and Planning at the Office of Management and Budget, stated:

The avalanche of new Federal and federally-sponsored debt issues continuously offered to the market will keep interest rates higher than would otherwise be the case, forcing all private firms to shoulder more expensive financing costs and in many cases crowding out unsubsidized private borrowers who cannot absorb the higher interest expense.

By example, in the January 24, 1983 issue of Fortune magazine, Fannie Mae refinancing accounted for 15 of 50 largest "deals of the year." In dollar terms Fannie Mae debentures amounted to $12.2 billion of the $48.2 billion in total deals, which included such corporate landmarks as United States Steel's acquisition of Marathon, Occidental's purchase of Cities Service, and Allied's picking up of Bendix.

Mr. Kudlow elaborated the growth of Federal and federally sponsored agency borrowings since 1974:

In the recession of 1974, Federal and federally sponsored agencies borrowed a total of $24.4 billion, or 12.9% of the non-financial capital raised in U.S. credit markets. During the recession year of 1982, however, total funds raised by Federal entities jumped to $199.7 billion, or 48.9 percent of the non-financial domestic credit market. Hence, the Federal absorption rate has jumped by 36 percent, while the actual level of funds raised has increased by a staggering 725 percent. In the administration's view, unless these credit trends are reversed, the expectations of strong economic growth and low inflation in the 1980's will be particularly difficult to achieve.

CURRENT ENVIRONMENT

Since the dark days of the thirties Federal involvement in Housing has grown to huge proportions. Over 90 percent of all mortgages under the current Fannie Mae, Freddie Mac mortgage ceiling of $108,300 placed in the public secondary market are sold through the Federal agencies. At the end of 1982, Fannie held $70 billion in portfolio mortgages; and it had purchased $13 billion in mortgages and issued $11.5 billion in pool securities. Brother Freddie Mac during the same period held $5 billion in mortgages, 80 percent of which were conventionals. Additionally, the mortgage corporation bought $20 billion of conventional loans and sold some $22 billion of participation certificates (PC's). Approximately $43 billion in PC's were outstanding at the end of 1982.

The purely Government agency sister, Ginnie Mae, the Government National Mortgage Association, at fiscal 1982 yearend had approximately $114 billion of guaranteed mortgage backed securities (MBS) outstanding of the $135 billion issued from program inception in 1970.

As pointed out these Federal and quasi-Federal entities dominate the secondary market under the mortgage limit ceiling. Primarily, this is due to their ability to raise capital at agency costs or a relatively few basis points above comparable Treasury borrowing rates, and to use streamlined regulatory exemptions and their wide, national level marketing capabilities. A description of this preferential financing was outlined in testimony on May 5, 1983 before the Senate Housing and Urban Affairs Subcommittee by Lawrence A. Kudlow, of the Office of Management and Budget.

The special benefit afforded these agencies by the Federal Government provide them with highly significant advantages relative to their private sector competitors: the agencies can finance their operations at interest rates that are lower than comparably dated private issues—over the 1975–82 period 7-year FNMA bond yields averaged 16 basis points above 7-year treasury bonds but 63 basis points below AA-rated corporate bonds with 7–10 year maturities.

These agencies have been very innovative in providing liquidity to the housing markets. They are to be congratulated for their successful accomplishment of the public policy goals of housing support during periods of economic distress. However, in recent months a growing number of private sector firms have begun to make inroads in providing mortgages a route to the public secondary market, primarily in the high cost mortgages over $108,300. This is in addition to the many private placements of mortgage pools between savings and loans and mortgage bankers—both over and under the limit. However, in the total scheme of the market this activity is limited and regional in scope. As more and more demands are placed on the credit markets and mortgage lenders we must provide new outlets for originations of all sizes. The Federal agencies by their own admission will not be able to provide all the mortgage liquidity that will be needed over the next 10 years. These bills make a small contribution toward this effort—the effort of encouraging private sector firms to invest capital, create mortgage-backed securities, and serve these markets.

The two private players that one reads the most about are General Electric Credit Corp. and Residential Funding Corp., a subsidiary of Norwest Bancorporation. At year end 1982, nearly one-third of GECC's net receivables were related to housing activities. Its direct current investment of $3.5 billion is composed of manufactured housing loans—$1.7 billion—commercial real estate loans—$790 million—residential first mortgages—$100 million—and second mortgages—$760 million. Further, GECC services an additional $2.4 billion in loans owned by investors. GE and GECC have a firm commitment to housing and housing finance.

Residential Funding Corp. (RFC) continues to innovate in the markets with extremely flexibile products with both fixed and variable rates. Currently, Norwest Mortgage, Inc., services over $8 billion in loans and is the third largest mortgage banker in the Nation. Combining RFC's efforts with private mortgage insurors and a top Wall Street investment banking house, over 1,400 lender applicants have been attracted to their products. Those homebuyers served are those needing mortgage money substantially above the reach of citizens of moderate means. They are homebuyers whose mortgages exceed loan limits currently placed on our agencies. These are individuals far from needing Government assistance, But the interesting aspect of this phenomenon is that the gap between yield on Freddie and Fannie PC's and yield on pass through securities issued by GECC, RFC, Prudential

Bache and others has closed to as little as one-eighth of a percent. The intent of our bills is to close the gap entirely and make the private sector not only fully competitive but increasingly able to pick up the almost insatiable demand for mortgage credit in the secondary market. The following tables illustrate the size and cost related to mortgages issued in the upper tiers of the market:

TABLE I.—MORTGAGE LOANS ORIGINATED

[Percentage of dollar volume]

	Loans less than $110,000	Loans over $110,000
1982:		
June	94.1	5.9
July	92.8	7.2
August	93.4	6.6
September	92.6	7.4
October	92.1	7.9
November	92.2	7.8
December	93.6	6.4
1983:		
January	93.5	6.5
February	92.2	7.8

It is our belief that this private sector growth should be nurtured and fostered. One should note that a great deal of research has been done on this issue of Federal agency dominance of the secondary markets. Now, we do not mean the countercyclical presence that has been dictated by the Government policies of the past. It has been important. Now we have opportunity before us to encourage growth of the private sector.

The President's housing commission report released April 29, 1982, studied this issue at length. It recommends that ultimately, over some well determined time frame, Fannie and Freddie should be weened of their agency benefits. However, the report points out that care should especially be taken with regard to any change to Fannie Mae. Due to this quasi-private entity's role as the historic purchaser of long-term, fixed rate mortgages, high interest rates have caused severe earnings troubles for the company. We are sensitive to this problem. Fannie Mae's countercyclical support of housing led its longtime Chairman Oakley Hunter to often claim that funding such a business was the world's largest floating crap game. In addition to the Commission's thoughts on the Federal agencies, this legislative proposal attempts to crystalize their recommendations for encouragement of private mortgage backed securities and the administration's TIM's proposal.

Further, the President's private sector survey on cost control led by Chairman Peter Grace, has recommended the same course of action, that is encouragement of the private companies with less dependence over the long term on the quasi-government agencies.

It should be of interest to my colleagues that encouragement of these private conduits has had the support in the past of both Fannie Mae and Freddie Mac. Acknowledging the size of the job to be done, David Maxwell, Chairman of Fannie Mae, in March 10, 1983, in testimony before the Senate Banking Committee:

Congress acted very prudently by creating Fannie Mae, FHLMC, and GNMA, but they cannot be expected to do the whole job. The private sector must be given greater incentives to develop its own secondary market institutions. Providing for the entry of these more private competitors is not easy, but it must be done.

Freddie Mac's testimony echoed this view:

The housing finance system will increasingly rely on the secondary mortgage market for the delivery of home mortgage credit. To understand fully how and why this will happen, it is useful to look more closely at the role of secondary markets in the delivery of mortgage credit. In so doing, an important point will become clear. The key to the ability of secondary market institutions to provide tremendous benefit to homebuyers, without congressional appropriation, is their interaction with, and reliance on, private financial market participants. (Statement of Kenneth J. Thygerson, March 10, 1983.)

As one can see in the foregoing discussion, the bills that we are introducing today, which are explained in more detail in an accompanying section-by-section analysis, come at a critical juncture in the emergence of a private secondary market. Deregulation of the financial community, which began in earnest a little over 2 years ago, produced material changes in requirements imposed on corporate borrowers and market makers. Shelf registration for securities issues, reduction in regulation T margin requirements and other important changes by both the Securities and Exchange Commission, the Federal Reserve Board and other regulators have stripped away some of the unnecessarily tough hurdles corporate securities must clear on their way to the market; moving them closer to the very smooth trip made by Federal agency securities. Deregulation coupled with resourcefulness, efficiency and commitment have seen passthrough mortgage securities issued by the likes of RFC, GE credit, Prudential-Bache and others begin to trade at interest rates closely approaching those on Fannie and Freddie passthroughs. One must compare this gain to the fact that such private securities were once trading as much as 2 percentage points (200 basis points) above Fannie and Freddie.

We are convinced that these bills will begin to close the gap further and, with the powerful economic tool offered by the TIM's proposal, enable the private sector to compete directly with Fannie Mae and Freddie Mac.

This legislative effort can best be characterized as an effort to achieve two goals: First, we want to remove any remaining regulatory impediments which prevent mortgage passthrough securities from trading at least as well as other corporate securities.

Second, we want to broaden investor interest in these securities, a goal toward which the TIM's proposal will have a particularly strong effect.

Mr. President, there is a title missing from this bill which is still under study and which raises a number of broad policy issues deserving further thoughtful debate. We have reached a point where Congress should legitimately rationalize the modern day role of Fannie Mae and Freddie Mac.

There can be no dispute that both corporations have been eminently successful in reaching the goals Congress originally set for them. We now have a fully functioning, impersonal, secondary market for conventional mortgages and have provided liquidity for investors in mortgage backed securities. Moreover, both corporations have contributed significantly to standardization of mortgage instruments and the procedures requisite to conducting an orderly securities market.

But, we are introducing these measures today precisely because of these successes and because the private sector now finds the incentives present to commit capital and other resources to a fully private marketplace for mortgage backed securities.

Thus, we can legitimately ask whether or not there is a need for two governmental agencies performing essentially the same functions and if not, how best do we make the transition to less reliance on the specific agency benefits necessary to meet their original purposes.

If we were going to argue in behalf of a set of contemporary goals for one of these corporations, we believe they would be as follows: to continue to meet the needs of the lower end of the mortgage market, Fannie's and Freddie's traditional business, until the private market can assume that demand—to continue a countercyclical presence in the mortgage market to assist the housing industry and homebuyers in recession periods—to innovate new mortgage instruments and markets for such instruments—to stabilize Fannie Mae's financial condition

which is highly interest sensitive due to its past practice of purchasing high volumes of mortgages for its own portfolio.

But none of these goals, collectively or individually, necessarily requires two or any government related corporations. And this is the substance of the debate. At what rate, under what scheme, and to what end may we wind down the reliance on these agencies in favor of a healthy, viable private sector. In the course of examining viable options for determining the future of the two corporations, we are guided by the intent of our bill, to foster a strong, totally private secondary market, fully capable of responding to the demand for mortgage related investor capital. While that capacity will require time to mature, we intend that our ultimate goal be that both Fannie Mae and Freddie Mac join the cadre of private sector players. Three options are currently under discussion, option No. 1 would entail the merger of Freddie Mac and Fannie Mae. Assuming that one governmentally chartered corporation is sufficient to meet the goals discussed before, this option would have the obvious advantage of providing a powerful solution to Fannie Mae's financial problems. The combination of Freddie Mac's very strong financial condition and its large earnings stream would provide an important infusion of resources to help offset the negative spread inherent in carrying Fannie's portfolio in high interest rate periods.

If this option is selected, the preferred course of action would be to establish a commission representing the boards of the two corporations and the public which would be charged to present to Congress, within a specified time, a plan to effect a merger which would be implemented by statute. While the actual structuring of the surviving corporation would be left to the commission to propose, certain conditions would seem appropriate.

First, such a merger would have to occur at no cost to the Government. Second, given Freddie Mac's traditional relationship to the thrift industry, provision would have to be made in the surviving corporation to service the special needs of thrifts in the post Garn-St Germain Act period. Third, it would seem appropriate that the surviving corporation be endowed with fewer indices of agency status than its predecessors and that the Commission would propose a plan which would convert the new corporation, over time, to a completely private status governed by the laws applicable to the private financial industry.

The second option currently under discussion would leave Fannie Mae intact but would transfer ownership of Freddie Mac to private status.

On the same theory that the need for two agencies is no longer as strong in the current environment, it has been proposed that Freddie Mac be moved to the status of a private corporation separated from all agency benefits. One version of this plan would initially see the stock currently owned by the bank board system sold to the thrift industry whereupon it would be eligile to be traded on the stock markets. As transition is made, a new board would be formed reflecting new ownership, but initially retaining bank board involvement, including current chairmanship for a specified period. A scheduled phaseout of agency benefits would occur including phaseout of tax exemption. Upon initial evolution of ownership to the thrift industry, any future sale of equity would be made to the general public with concomitant broadening of board representation. Limitations on control of ownership would be imposed.

The attractiveness of this proposal lies in the great financial strength of Freddie Mac. Because of its highly efficient, low risk role as a conduit for mortgages to the investor community and its strong capital base, it would have little difficulty in making the transition to a private status. Moreover, by initial sales of Freddie Mac to the thrift industry, thrifts would retain access to the benefits afforded them by Freddie and have more direct policy control over its operations. Moreover, while not all thrifts would purchase shares in a private Freddie Mac, they would be indirect financial beneficiaries of the sale by virtue of the return on investment realized by the Federal home loan banks which are in turn owned by member savings and loan associations.

The third option under consideration would leave both corporations essentially intact. However, it would be expressly understood that the principal objective with respect to Fannie Mae would be to stabilize its financial condition. We, in fact, believe that changes effected by current management in the way Fannie does business coupled with the development of new products and a less volatile interest rate environment, will, over time, correct Fannie Mae's asset/liability mismatch.

Freddie Mac's role under this scenario would see the corporation acting as an innovator for the creation of new mortgage instruments and acting as an adjunct to the Federal Home Loan Bank Board's efforts to help the savings and loan industry improve its asset-liability management.

It would be understood, however, that this option represents a new status for both corporations in that no additional powers would be obtained by either. Moreover, as the private market continues to expand its capacity to provide mortgage capital, the continuing role and status of each corporation as agencies of the government would be carefully reappraised as conditions warrant.

Mr. President, obviously each of these options raises important public policy issues which we believe should continue to be discussed over the next month and one half, then addressed formally when we hold hearings on the bills in September.

We have asked the housing and finanical industry to participate in the drafting of this bill which has contributed significantly to its quality. We will continue to ask the industry to participate in the policy discussions related to these options and will depend on our colleagues to contribute as well.

Now, Mr. President, I request unanimous concent that the section-by-section analysis and the text of the Secondary Mortgage Market Enhancement Act of 1983 be included at this point in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SECTION-BY-SECTION ANALYSIS

The title of the bill is: "The Secondary Mortgage Market Enhancement Act of 1983."

TITLE I

Title I contains a number of securities amendments that will remove technical impediments to trading and investing in mortgage-related securities. Many of these impediments exist merely because mortgage-related securities were not even conceived of when the securities laws and financial institutions investment statutes were enacted. Similarly, State restrictions concerning legal investments for various State-chartered or regulated institutions, pension funds, and trust managers have generally not specifically considered mortgage-related securities when they were enacted. The amendments in this title will allow flexibility in mortgage security transactions and expand the potential base of investors and thus substantially enhance the ability of private issuers of mortgage securities to provide liquidity to mortgage lenders and reduce the roots of mortgage credit for homebuyers.

Section 101 rewrites Section 4(5) of the Securities Act of 1933 to increase the applicability of the current exemption from security registration requirements for large transactions in mortgage securities issued by financial institutions. First, the current exemption only applies for traditional first mortgages on real estate. The rewrite would also apply for securities backed by second mortgages, cooperative housing loans, and manufactured home loans. Second, the type of allowable security is expanded to cover mortgage-related payment bonds in addition to notes directly secured by mortgages. Third, the exemption is made available to securities originated by any HUD-approved mortgagee (principally mortgage bankers) in addition to financial institutions. Fourth, the current minimum transaction amount of $250,000 is clarified to apply only to the initial purchase amount rather than the current interpretation which requires considerably larger initial amount to allow for future mortgage prepayments. Fifth, the 60-day limit for cash payment on the security is extented to 120 days. Finally, purchasers

are allowed to buy for another person's account.

Section 102 amends the Securities Exchange Act of 1934 so that broker-dealers may extend credit to buyers of mortgage-related securities on the same basis as they may for government agency securities.

Section 103 amends the net capital requirements applied to broker-dealers so that "investment grade" mortgage-related securities may be carried in the inventory of broker-dealers without adverse effect on the net capital they are required to have by the Securities Exchange Commission. Investment grade mortgage securities held in a dealer's inventory would only require the same amount of capital as government securities of comparable maturity.

Sections 104 and 105 will allow Federally-chartered financial institutions to invest in mortgage-related securities subject only to limitations that the appropriate regulator might impose. Currently, investment by national banks is statutorily limited as if the securities were only backed by the single issuer rather than a diverse pool of mortgages. Thus no more than 15 percent of unimpaired capital and surplus may be invested in an issuer's mortgage-related securities. Federally-chartered credit unions are not permitted currently to invest in mortgage securities at all. With the amendment, the regulators retain authority to specify appropriate characteristics of the securities such as geographic diversity in the underlying pool of mortgages.

Section 105 will allow national banks to underwrite and deal in investment grade mortgage-related securities. National banks already conduct these activities for housing revenue bonds and for GNMA guaranteed mortgage-backed securities. This section extends the same authority for privately issued mortgage securities.

Section 106 preempts State blue sky and legal investment laws and regulations so that investment grade mortgage-related securities may be purchased by State-chartered and regulated financial institutions, insurance companies, pension funds, trustees or other regulated entities as if they were Federal agency securities. Many current State provisions were written when mortgage-related securities did not generally exist. In consequence, these securities are adversely affected by investor limitations. States may reassert limitations on investment in mortgage securities if they find them necessary within 2 years from enactment of the bill. This preemption section would apply equally to mortgage-related securities issued by private entities or by FNMA and FHLMC.

Section 107 directs the Securities and Exchange Commission to permanently extend its experimental self registration rule, at least for securities which fall within the definition of Section 4(5) of the Act, beyond the current September 1983 expiration date.

TITLE II

Title II contains several purely technical amendments to the FHLMC and FNMA charter acts.

Sections 201 and 202 correct a technical oversight in the authority recently granted for FNMA and FHLMC to issue preferred stock. The correction requires any issuance to comply with the New York Stock Exchange rules and procedures regarding the rights of preferred stockholders.

Section 203 will allow FHLMC to purchase or deal in junior lien mortgages on the same basis as FNMA. Thus they need not be limited to loans which are used exclusively for home purchase or improvement.

Section 204 clarifies FHLMC's manufactured home loan authority to cover such loans even where the manufactured home may be considered personal or mixed property rather than strictly real property.

Section 205 clarifies the definition of conventional mortgage so it will include mortgages that are insured by a State agency. Thus these mortgages would be eligible for inclusion in FHLMC conventional mortgage programs.

Section 206 makes it clear that FHLMC may not guarantee securities issued by another entity. This preserves the status quo so that FHLMC may only guarantee (and implicitly extend the financial backing of the Federal Home Loan Bank System) its own securities.

S. 1821

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Secondary Mortgage Market Enhancement Act of 1983".

TITLE I—SECURITIES LAWS AMENDMENTS

REGISTRATION EXEMPTION

SEC. 101. Section 4(5) of the Securities Act of 1933 is amended to read as follows:

"(5) transactions involving offers and sales of one or more promissory notes—

"(A) which are directly secured by a first lien (or a second lien where the proceeds of the note were applied to the purchase of the security property or to improvements thereon) on—

"(i) a single parcel of real estate (including stock allocated to a dwelling unit in a residential cooperative housing corporation) upon which is located a dwelling or other residential or commercial structure, or

"(ii) a residential manufactured home, as defined in section 501(e) of the Depository Institutions Deregulation and Monetary Control Act of 1980,

and participation interests in such notes or mortgage related payment bonds secured by such notes or participation interests; and

"(B) where (i) the sales price for such note, participation interest, or mortgage related payment bond is not less than $250,000 or such note, participation interest, or mortgage related payment bond represents a participation interest or denomination which, if sold on the initial sale date, would have been sold for at least $250,000 based upon the percentage of principal represented by the initial sales price, (ii) the purchaser pays cash upon the earlier of (I) the date of delivery of such note, participation interest, or mortgage related payment bond, or (II) 120 days after the date upon which the purchaser committed to make such purchase, and (iii) such note or notes were originated by a savings and loan association, savings bank, commercial bank, credit union, insurance company, or similar institution which is supervised and examined by a Federal or State authority or were originated by a mortgagee approved by the Secretary of Housing and Urban Development pursuant to sections 203 and 211 of the National Housing Act.

For the purpose of subparagraph (A), a mortgage related payment bond means an obligation (which may be with or without recourse to the issuer thereof) which, by its terms, provides for payments of principal in relation to payments, or reasonable projections of payments, on notes meeting the above requirements or participation interests therein which are pledged as security for such obligation and which are rated in one of the four highest rating categories by at least one nationally recognized statistical rating organization.".

EXTENSION OF CREDIT

SEC. 102. Section 11(d) of the Securities Exchange Act of 1934 is amended by inserting "or securities described in section 4 (5) of the Securities Act of 1933" after "exempted security" each place it appears.

NET CAPITAL REQUIREMENT

SEC. 103. Section 15(c)(3) of the Securities Exchange Act of 1934 is amended by adding at the end thereof the following: "In establishing such requirements, the Commission shall accord the same treatment to securities described in section 4(5) of the Securities Act of 1933 which are rated in one of the four highest rating categories by at least one nationally recognized statistical rating organization as the treatment accorded in the case of securities described in section 3(a)(2) of such Act.".

INVESTMENT BY DEPOSITORY INSTITUTIONS

SEC. 104. (a) Section 5(c)(1) of the Home Owner's Loan Act of 1933 (12 U.S.C. 1464 (c)(1)) is amended by adding at the end thereof the following:

"(S) Mortgage backed securities.—

Investments in securities described in section 4(5) of the Securities Act of 1933, subject to such regulations as the Board may prescribe.".

(b) Section 107 of the Federal Credit Union Act (12 U.S.C. 1757) is amended—

(1) by redesignating paragraph (15) as paragraph (16); and

(2) by inserting after paragraph (14) the following:

"(15) to invest in securities described in section 4(5) of the Securities Act of 1933, subject to such regulations as the Board may prescribe.".

SECURITIES ACTIVITIES OF NATIONAL BANKS

SEC. 105. Section 5136 of the Revised Statutes (12 U.S.C. 24) is amended by adding at the end of paragraph Seven the following: "The limitations and restrictions contained in this paragraph as to an association dealing in, underwriting, and purchasing for its own account investment securities shall not apply to securities described in section 4 (5) of the Securities Act of 1933, subject to such limitations as the Comptroller of the Currency may prescribe.".

PREEMPTION OF STATE LAW

SEC. 106. (a) Any person, trust, or organization created pursuant to or existing under the laws of the United States or any State shall be authorized to purchase, hold, and invest in securities which are described in section 4 (5) of the Securities Act of 1933, without regard to the requirement of subparagraph (B)(1) thereof, but which are registered under section 6 of such Act, to the same extent that such person, trust, or organization is authorized under any applicable law to purchase, hold, or invest in obligations issued by or guaranteed as to principal and interest by the United States or any agency or instrumentality thereof. Where State law limits the purchase, holding, or investment in obligations issued by the United States by such a person, trust, or organization, such securities described in section 4 (5) of the Securities Act of 1933 shall be considered to be obligations issued by the United States for purposes of the limitation.

(b) The provisions of subsection (a) shall not apply with respect to a particular

person, trust, or organization or class thereof in any State which, prior to the expiration of 2 years after the date of enactment of this Act, enacts a statute which specifically refers to this section and either prohibits or provides for a more limited authority to purchase, hold, or invest in such securities by such person, trust, or organization or class thereof than is provided in subsection (a). The enactment by any State of any statute of the type described in the preceding sentence shall not affect the validity of any contractual commitment to purchase, hold, or invest which was made prior thereto.

SHEIF REGISTRATION

SEC. 107. The Securities and Exchange Commission shall, by rule or regulation, provide for the registration pursuant to section 6 of the Securities Act of 1933 of securities which are to be offered on a delayed or continuing basis in the future, and which meet all the requirements of section 4 (5) of the Securities Act of 1933, except for the requirement of subparagraph (B) (i).

TITLE II—FEDERAL HOME LOAN MORTGAGE CORPORATION AND FEDERAL NATIONAL MORTGAGE ASSOCIATION AMENDMENTS

FHLMC PREFERRED STOCK

SEC. 201. Section 306 (f) of the Federal Home Loan Mortgage Corporation Act is amended by adding at the end thereof the following: "Such preferred stock may have such rights as are permitted by the rules of the New York Stock Exchange in the case of securities listed on such Exchange".

FNMA PREFERRED STOCK

SEC. 202. (a) The first sentence of section 303(a) of the National Housing Act is amended to read as follows: "The corporation shall have common stock, without par value, which shall be vested with voting rights, each share being entitled to one vote with rights of cumulative voting at all elections of directors.".

(b) Section 303 of such Act is amended by adding at the end thereof the following:

"(h) Any preferred stock of the corporation may have such rights as are permitted by the rules of the New York Stock Exchange in the case of securities listed on such Exchange.".

(c) Section 308(b) of such Act is amended by striking out the word "common" in the first sentence.

FHLMC PURCHASE OF JUNIOR LIENS

SEC. 203. The first sentence of section 302 (h) of the Federal Home Loan Mortgage Corporation Act is amended by striking out "status as a first lien" and inserting in lieu thereof "priority of lien status".

FHLMC MANUFACTURED HOUSING LOANS

SEC. 204. Section 302(h) of the Federal Home Loan Mortgage Corporation Act is amended by adding at the end thereof the following: "The term 'residential mortgage' also includes loans or advances or credit secured by mortgages or other liens against manufactured homes whether the security property is real, personal, or mixed.".

FHLMC AUTHORITY TO PURCHASE STATE AGENCY INSURED MORTGAGES

SEC. 205. Section 302(i) of the Federal Home Loan Mortgage Corporation Act is amended by striking out "a State or an agency or instrumentality of either" and inserting in lieu thereof "any of its agencies or instrumentalities".

FHLMC GUARANTEE OF MORTGAGE-BACKED SECURITIES ISSUED BY OTHERS

SEC. 206. Section 306 of the Federal Home Loan Mortgage Corporation Act is amended by adding at the end thereof the following:

"(h) The Corporation may not guarantee mortgage-backed securities other than mortgage-backed securities issued by the Corporation.".

Mr. TOWER. Mr. President, now, I would like to turn briefly to a discussion of our TIMS bill, specifically.

Mortgage-backed securities which are issued for sale by nonfederally sponsored entities are currently disadvantaged by the tax laws in their competition for funds with corporate obligations and federally related agency debt. This TIMS initiative is designed to remove the constraints in existing tax laws which control pooled asset investments which do not account for the characteristics of mortgages.

The problem with current tax law has been described as follows:

To avoid tax at the pool level, virtually all existing mortgage pools, including the mortgage-backed securities of FNMA, FHLMC and GNMA, are organized as "grantor trusts" issuing passthrough securities. However, the grantor trust has proven an inflexible and limited tool, severely constraining the ability of mortgage securities to compete in the capital markets. A grantor trust is, by definition, a passive vehicle with no ability for the trustee to manage assets—the cash flow on the mortgages is simply passed through to investors. The trustee has no investment discretion and little ability to manage cash flows. The grantor trust certificate holder merely has an undivided proportionate interest in the mortgage pool. This inflexible mechanism for pooling assets is particularly ill suited to mortgages because of the inability of the trustee to reinvest or manage cash flows. This makes it impossible to provide investors with protection against prepayment of "call' of the mortgages. Because investors cannot know the duration of their investment, they have no certainty as to maturity or yield. For most investors, this yield uncertainty and related reinvestment risks are unacceptable. In addition, since each certificate represents an undivided interest in all mortgages in the pool, each security must have a nominal maturity coincident with the payoff of the last pool mortgage. This limits mortgage securities to the long-term debt market.

To be competitive with other capital market participants, mortgage securities issuers must be able to pay their investors the net pretax yield on the mortgage pool. Yet, a general rule of tax law is that earnings of any actively managed business must be taxed at the business (or pool) level, and its after-tax cardinal rule of the mortgage securities market has been to avoid this double tax by not having a pool entity whose earnings are taxable.

The TIMS legislative proposal is intended to resolve the problems of the grantor trust by creating a new form of flowthrough entity for mortgage securities allowing for call protection and for multiple classes of securities.

Mr. President, recognizing that this important tax legislation affecting housing will be referred to the Finance Committee, we want to point out that the Banking, Housing, and Urban Affairs Committee will undoubtedly have formal recommendations regarding the importance of these matters for improving housing finance and the appropriate role for Government chartered entities in TIMS securities.

Now, Mr. President, I request unanimous consent that the section-by-section analysis and the next of the Trust for Investment In Mortgages Act of 1983 be printed at this point in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Section 1 amends Subchapter M of chapter 1 of the Internal Revenue Code of 1954 by adding the following new part:

"PART IV—TRUSTS FOR INVESTMENTS IN MORTGAGES

Section 860A(a) defines the term TIM as a corporation, trust or association which is managed by one or more trustees or directors, where the beneficial ownership is evidenced by registered transferrable shares or certificates of beneficial interest, which would otherwise be taxable as a domestic corporation which is not a financial institution or an insurance company, and which meets the tests set forth in Section 860A (b), (c), (d), and (e).

Section 860A(b) describes the investment requirements for TIMs by setting forth a gross income test, a gross income test from qualified obligations, an asset test, and restrictions on gross income from certain types of assets.

Section 860A(c) requires that a TIM shall have no income from the active conduct of a trade or business, and clarifies that income from commitment fees and points received in connection with any qualified obligation shall not be treated as income from the active conduct of a trade or business.

Section 860A(d) sets forth the election and termination of election requirements for a TIM.

Section 860A(e) states that a TIM shall have only one class of stock or equity interest unless the TIM debt is 10 percent or less of the aggregate face amount of the assets of the TIM, and the par value of the other equity interest is equal to the aggregate of qualified obligations held by the TIM.

Section 860A(f) sets forth special rules for the application of this section.

Section 860A(g) provides that the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation are not eligible trustees, directors, or shareholders of a TIM.

Section 860B(a) states that a TIM is exempt from taxation.

Section 860B(b) requires that a TIM shall use the cash method of accounting, and use

the calendar year as its accounting period, for purposes of determining its taxable income for any taxable year.

Section 860C(a) requires that a TIM shareholder shall be treated as if the TIM were a partnership, and the shareholder were a partner.

Section 860C(b) describes the treatment of dispositions of Qualified Obligations. If the proceeds from the disposition by a TIM are distributed to any shareholder, that portion of the distribution which is allocable to the principle amount of the obligation shall be treated as a redemption of the shareholder's shares, except that the character of the gain from this redemption shall be the same as the character of the gain would have been if the gain had been taxable to the TIM. If the proceeds from the disposition by a TIM are used to acquire any other qualified obligation, then each shareholder shall be treated as having received a distribution of his pro rata share of such proceeds, and each shareholder shall be treated as having recontributed such amount to the TIM in exchange for shares having a par value equal to the face amount of the other qualified obligations.

Section 860C(c) sets forth special rules for shareholders owning 20 percent or more of a TIM and requires that any gain from the disposition of any qualified obligation which is allocated to such a shareholder be treated as ordinary income.

Section 860D(a) states that the basis in any qualified first or second mortgage received by a TIM in exchange for an equitable interest in such TIM shall be the fair market value of the mortgage at the time of the transfer.

Section 860D(b) sets forth the gain or loss rules for recognition by shareholders. In general, gain or loss shall be recognized by anyone transferring any qualified mortgage to a TIM to the extent such person's basis in such mortgage is greater (or less) then the fair market value of such mortgage. The gain or loss shall be recognized ratably over the remaining term of the qualified first or second mortgage. If any loss is treated as an ordinary loss, any gain from the sale or exchange of an equity interest in the TIM shall be treated as ordinary income to the extent of the loss.

Section 860E(a) defines a qualified obligation as a qualified first or second mortgage, qualified participation, cash-flow mortgage-backed bond secured by a qualified first or second mortgage, equity interest in a TIM, qualified repurchase obligation, or qualified income investment.

Section 860E(b) defines a qualified first or second mortgage as a first or second mortgage secured by a single family residence which is the principle residence of the mortgagee and which is used to acquire or to improve such residence. This definition includes cooperatives; it does not include construction loans or mortgages originated with an original issue discount. The mortgage amount may not exceed the value of the residence.

Section 860E(c) defines the term qualified participation as any participation in a mortgage or pool of mortgages if the mortgages would be qualified first or second mortgages held by a TIM, and the mortgagees of the mortgages remain the primary obligors.

Section 860E(d) defines the term qualified repurchase obligations as a qualified first or second mortgage subject to a repurchase agreement where the amount payable to the TIM does not exceed the payments due on the mortgage subject to the agreement, and the TIM purchases such mortgages for not more than their fair market value, and the amount paid for the repurchase is fixed at the time the agreement is entered into.

Section 860E(e) defines the terms qualified income investments as any security, letter of credit, certificate of deposit, surety, or other similar instrument which is acquired during an 18-month period beginning on the date the TIM is incorporated; and is acquired to provide cash to meet fixed obligations or to provide income to the TIM to offset income lost because of prepayment or liquidation. The qualified obligation shall be terminated after the earlier of 7 years following the incorporation of a TIM or the date on which the first one-third of the term of the TIM with a fixed term has expired.

Section 2 amends Chapter 44 of the Internal Revenue Code by adding the following new part:

"SEC. 4982. EXCISE TAX ON PROHIBITED TRANSACTIONS OF TIM'S.

Section 4982(a) states that on each prohibited transaction of a TIM a tax is imposed which is equal to the gain or loss allocable to such transaction.

Section 4982(b) defines the term prohibited transaction as a disposition of a qualified obligation held by the TIM for less than 3 years, or any qualified obligation held by a TIM for 3 years or more and described in Section 122(l).

Section 4982(c) states an exception from the prohibited transaction rules. A disposition from a TIM will not be treated as a prohibited transaction if it is in connection with the prepayment, retirement, or renegotiation of a qualified obligation; the disposition is of any defective qualified obligation, foreclosure property, or qualified short-term investment; or the disposition is in connection with the involuntary liquidation or dissolution of a TIM. Certain transactions described in this subsection will not be treated as prohibited transactions.

Section 4982(d) defines the term qualified short-term investments as a qualified obligation designated by a TIM as a qualified short-term investment on the date the obligation is acquired, is held by the TIM for less than 180 days or maturity and whose proceeds are used to acquire other qualified obligations or are distributed to the TIM's shareholders. Notwithstanding this rule, during the 18-month period beginning on the date a TIM is incorporated, proceeds from the disposition of a qualified short-term investment may be invested in other qualified short-term investments.

Section 4982(e) defines the term "TIM" and "qualified obligation" as set forth in part IV of subchapter M of chapter 1; the term "foreclosure property" is the same as set forth in section 856(e) without regard to whether such property is held by a real estate investment trust.

S. 1822

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SPECIAL RULES FOR TAXATION OF TRUSTS FOR INVESTMENTS IN MORTGAGES.

(a) IN GENERAL.—Subchapter M of chapter 1 of the Internal Revenue Code of 1954 (relating to taxation of regulated investment companies and real estate investment trusts) is amended by adding at the end thereof the following new part:

"PART IV—TRUSTS FOR INVESTMENTS IN MORTGAGES

"Sec. 860A. TIMS defined.
"Sec. 860B. Taxation of TIMS.
"Sec. 860C. Taxation of shareholders.
"Sec. 860D. Special rules for contributions of property to TIMS.
"Sec. 860E. Qualified obligations.

"SEC. 860A. TIMS DEFINED.

"(a) IN GENERAL.—For purposes of this title, the term 'TIM' means a corporation, trust, or association—

"(1) which is managed by one or more trustees or directors.

"(2) the beneficial ownership of which is evidenced by registered transferrable shares, or by transferrable certificates of beneficial interest,

"(3) which (but for the provisions of this part) would be taxable as a domestic corporation,

"(4) which is not—

"(A) a financial institution to which section 585, 586, or 593 applies, or

"(B) an insurance company to which subchapter L applies, and

"(5) which meets the requirements of subsections (b), (c), (d), and (e).

"(b) INVESTMENT REQUIREMENTS.—A TIM meets the requirements of this subsection if—

"(1) GROSS INCOME TEST.—At least 95 percent of the TIM's gross income (excluding gross income from prohibited transactions) is derived from—

"(A) qualified obligations, and

"(B) cash, cash items (including receivables), and Government securities.

"(2) GROSS INCOME TEST FROM QUALIFIED OBLIGATIONS.—At least 75 percent of the TIM's gross income (excluding gross income from prohibited transactions) is derived from qualified obligations.

"(3) ASSET TEST.—

"(A) IN GENERAL.—At the close of each quarter of the taxable year, at least 85 percent of the TIM's total assets consists of qualified obligations (other than a commitment to purchase any such obligation), cash and cash items (including receivables), and Government securities.

"(B) CERTAIN FAILURES TO MEET ASSET TEST MAY BE CORRECTED.—Under regulations prescribed by the Secretary, rules similar to the rules of the two sentences following section 856(c)(5) shall apply.

"(4) RESTRICTION ON GROSS INCOME FROM CERTAIN TYPES OF ASSETS.—Not more than 20 percent of the TIM's gross income may be derived from the disposition of—

"(A) stocks or securities held for less than 1 year (other than a qualified short-term investment within the meaning of section 4982(d)), and

"(B) property in a transaction which is a prohibited transaction.

"(c) ACTIVE BUSINESS INCOME NOT PERMITTED.—

"(1) IN GENERAL.—A TIM meets the requirements of this subsection if such trust has no income from the active conduct of a trade or business.

"(2) TREATMENT OF FEES AND POINTS WHICH ARE NOT FEES FOR SERVICES.—For purposes of paragraph (1), income received from commitment fees and points in connection with any qualified obligation shall not be treated as income from the active conduct of a trade or business unless such income is for services performed by the TIM.

"(d) ELECTION; TERMINAION OF ELECTION.—

"(1) IN GENERAL.—A TIM meets the requirements of this subsection with respect to any taxable year if—

"(A) within 75 days of the date on which the TIM is incorporated or formed, the TIM elected to have this part apply, and

"(B) such election (or a subsequent election under paragraph (4)) remains in effect through the close of such taxable year.

"(2) FAILURE TO QUALIFY.—An election under paragraph (1) made by a corporation, trust, or association shall terminate if the corporation, trust, or association is not a TIM to which the provisions of this part apply for the taxable year with respect to which the election is made, or for any succeeding taxable year. Such termination shall be effective for the taxable year for which the corporation, trust, or association is not a TIM to which the provisions of this part apply, and for all succeeding taxable years.

"(3) REVOCATION.—An election under paragraph (1) made by a corporation, trust, or association may be revoked by it for any taxable year after the first taxable year for which the election is effective. A revocation under this paragraph shall be effective for the taxable year in which made and for all succeeding taxable years. Such revocation must be made on or before the 90th day after the first day of the first taxable year for which the revocation is to be effective. Such revocation shall be made in such manner as the Secretary shall prescribe by regulations.

"(4) ELECTION AFTER TERMINATION OR REVOCATION.—Except as provided in paragraph (5), if a corporation, trust, or association has made an election under paragraph (1) and such election has been terminated or revoked under paragraph (2) or paragraph (3), such corporation, trust, or association) shall not be eligible to make an election under paragraph (1) for any taxable year prior to the fifth taxable year which begins after the first taxable year for which such termination or revocation is effective.

"(5) EXCEPTION.—If the election of a corporation, trust, or association has been terminated under paragraph (2), paragraph (4) shall not apply if—

"(A) the corporation, trust, or association does not willfully fail to file within the time prescribed by law an income tax return for the taxable year with respect to which the termination of the election under paragraph (1) occurs;

"(B) the inclusion of any incorrect information in the return referred to in subparagraph (A) is not due to fraud with intent to evade tax; and

"(C) the corporation, trust, or association establishes to the satisfaction of the Secretary that its failure to qualify as a TIM to which the provisions of this part apply is due to reasonable cause and not due to willful neglect.

"(e) CLASSES OF STOCK.—

"(1) IN GENERAL.—Except as provided in paragraph (2), a TIM meets the requirements of this subsection only if such trust has only 1 class of stock or other equity interest.

"(2) AUTHORITY FOR MORE THAN 1 CLASS OF EQUITY INTEREST.—A TIM may have more than 1 class of stock or other equity interest if at all times—

"(A) the debt of such TIM is 10 percent or less of the aggregate face amount of the assets of such trust, and

"(B) the par value of such stock or other equity interest equals the aggregate of qualified obligations held by such TIM.

"(f) SPECIAL RULES FOR APPLICATION OF THIS SECTION.—

"(1) CERTAIN TESTS NOT TO APPLY DURING PHASE-IN PERIOD OR FOR COMPLETE LIQUIDATION.—Paragraphs (2) and (4) of subsection (b) shall not apply—

"(A) to any taxable year which includes any portion of the 18-month period beginning on the date on which a TIM is incorporated or formed, or

"(B) under regulations prescribed by the Secretary, during the 6-month period beginning on the date of the adoption of a plan of complete liquidation of such TIM, but only to the extent necessary to carry out such liquidation.

"(2) QUALIFIED OBLIGATIONS HELD AS INVENTORY OR FOR SALE.—Gross income from the sale of any qualified obligation which, in the hands of the trust, is property described in section 1221(1) shall not be taken into account under subsection (b)(2).

"(g) INELIGIBLE TRUSTEES, DIRECTORS, AND SHAREHOLDERS.—The Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation are ineligible to be trustees, directors, or shareholders of a TIM.

"SEC. 860B. TAXATION OF TIMS.

"(a) TRUSTS NOT TAXABLE.—A TIM is exempt from taxation under this subtitle.

"(b) ACCOUNTING METHOD.—For purposes of determining taxable income for any taxable year, a TIM shall—

"(1) use the cash method of accounting, and

"(2) have as its accounting period the calendar year.

"SEC. 860C. TAXATION OF SHAREHOLDERS.

"(a) IN GENERAL.—Except as provided in this part, any shareholder of a TIM shall, for purposes of this title, be treated in the same manner as if—

"(1) the TIM was a partnership, and

"(2) the shareholder was a partner.

"(b) TREATMENT OF DISPOSITIONS OF QUALIFIED OBLIGATIONS.—

"(1) ACTUAL DISTRIBUTIONS.—If the proceeds from the disposition by a TIM of any qualified obligation are distributed to any shareholder, that portion of such distribution which is properly allocable to the principal amount of such obligation shall be treated—

"(A) as if in redemption of the shareholder's shares or certificate, except that—

"(B) the character of the gain from such redemption shall be the same as the character of such gain would have been if such gain had been taxable to the TIM.

"(2) REINVESTMENT OF PROCEEDS.—if the proceeds from the disposition of any qualified obligation by a TIM are used to acquire any other qualified obligation—

"(A) each shareholder shall be treated as having received a distribution of the shareholder's pro rata share of such proceeds (and such distribution shall be treated as an actual distribution), and

"(B) each shareholder shall be treated as having recontributed such amount to the TIM in exchange for shares or certificates having a par value equal to the face amount of the other qualified obligations so acquired.

"(c) SPECIAL RULES FOR 20-PERCENT OR MORE SHAREHOLDERS.—

"(1) IN GENERAL.—In the case of any—

"(A) 20-percent sharehoder of a TIM who is a dealer in qualified obligations, or

"(B) financial institution to which section 585, 586, or 593 applies,

any gain from the disposition of any qualified obligation which is allocated to such shareholder shall be treated as ordinary income.

"(2) 20-PERCENT SHAREHOLDER DEFINED.—

"(A) IN GENERAL.—For purposes of this subsection, the term '20-percent shareholder' means any shareholder of a TIM whose equity and debt interest in a TIM at any time equals 20-percent or more of the total equity and debt interests in such TIM at such time.

"(B) RELATED PERSONS' INTERESTS TAKEN INTO ACCOUNT.—In determining the equity and debt interest of any shareholder under subparagraph (A), there shall be taken into account the equity and debt interests of any person related (within the meaning of section 103(b)(6)(C)) to such person.

"(d) SHAREHOLDER DEFINED.—For purposes of this section, the term 'shareholder' means any beneficial owner of a TIM.

"SEC. 860D. SPECIAL RULES FOR CONTRIBUTIONS OF QUALIFIED FIRST OR SECOND MORTGAGES TO TIMS.

"(a) BASIS OF TIM IN QUALIFIED FIRST OR SECOND MORTGAGES.—A TIM's basis in any qualified first or second mortgage received by the TIM in exchange for an equitable interest in such TIM shall be the fair market value of such mortgage at the time of the transfer.

"(b) GAIN OR LOSS RECOGNIZED BY SHAREHOLDERS.—

"(1) IN GENERAL.—In the case of an exchange described in subsection (a), gain or loss shall be recognized by the person transferring any qualified mortgage to the TIM to the extent such person's basis in such mortgage is greater (or less) than the fair market value of such mortgage.

"(2) TIME FOR RECOGNITION.—Any gain or loss described in paragraph (1) shall be recognized ratably over the remaining term of the qualified first or second mortgage.

"(3) ORDINARY LOSSES.—If any loss recognized by any person under this subsection is treated as an ordinary loss, any gain from the sale or exchange of such person's equity interest in such TIM shall be treated as ordinary income to the extent of such loss.

"SEC. 860E. QUALIFIED OBLIGATIONS.

"For purposes of this part—

"(a) IN GENERAL.—The term 'qualified obligation' means any—

"(1) qualified first or second mortgage,

"(2) qualified participation,

"(3) cash-flow, mortgage backed bond which is secured by any qualified first and second mortgage,

"(4) equity interest in a TIM,

"(5) qualified repurchase obligation, or

"(6) qualified income investment.

"(b) QUALIFIED FIRST OR SECOND MORTGAGES.—

"(1) IN GENERAL.—The term 'qualified first or second mortgage' means a first or second mortgage (whether or not insured) which—

"(A) is secured by a single-family residence which is (or can reasonably be expected to become) the principal residence of the mortgagor, and

"(B) is used (or can reasonably be expected to be used) to acquire, or to make a home and improvement in connection with, such residence.

"(2) SINGLE-FAMILY RESIDENCE; COOPERATIVES.—Under regulations prescribed by the Secretary, rules similar to the rules of paragraphs (9) and (10) of section 103A (1) shall apply.

"(3) MORTGAGE MAY NOT EXCEED VALUE OF RESIDENCE.—The principal amount of any qualified first or second mortgage on any residence, when added to the aggregate out-

standing principal amount of all previous such mortgages on such residence, shall not, on the date such mortgage is issued, exceed the fair market value of such residence on such date.

"(4) CONSTRUCTION LOANS NOT PERMITTED.—The term 'qualified first or second mortgage' shall not include any construction loan.

"(5) ORIGINAL ISSUE DISCOUNT.—Except to the extent provided in regulations prescribed by the Secretary, the term 'qualified first or second mortgage' does not include any mortgage originated with an original issue discount.

"(c) QUALIFIED PARTICIPATION.—The term 'qualified participation' means any participation in any mortgage or pool of mortgages but only if—

"(1) such mortgages would be qualified first or second mortgages if held directly by the TIM, and

"(2) the mortgages of such mortgages remain the primary obligors.

"(d) QUALIFIED REPURCHASE OBLIGATIONS.—The term 'qualified repurchase obligation' means any qualified first or second mortgage which is subject to a repurchase agreement under which—

"(1) any amount payable to the TIM does not exceed the payments due on the mortgage subject to the agreement.

"(2) such TIM purchases such mortgage for not more than the fair market value of such mortgage, and

"(3) the amount paid for repurchase is fixed at the time the agreement is entered into.

"(e) QUALIFIED INCOME INVESTMENTS.—

"(1) IN GENERAL.—The term 'qualified income investment' means any security, letter of credit, certificate of deposit, surety bond, or other similar instrument or device which—

"(A) is acquired during the 18-month period beginning on the date the TIM is incorporated or formed, and

"(B) is acquired—

"(1) to provide cash to meet fixed obligations of such TIM which cannot be met from investments in other qualified obligations, or

"(ii) to provide income to the TIM to offset income which is lost by reason of the prepayment or liquidation (other than by sale by such TIM) of any qualified obligation before maturity.

"(2) TERMINATION AS QUALIFIED OBLIGATION.—Any qualified income investment shall not be treated as a qualified obligation after the earlier of—

"(A) the date which is 7 years after a TIM is incorporated or formed, or

"(B) in the case of such a TIM with a fixed term, the date on which the first one-third of such term has expired.".

(b) CONFORMING AMENDMENT.—The table of parts for subchapter M of chapter 1 of such Code is amended by adding at the end therof the following new part:

"PART IV—TRUSTS FOR INVESTMENTS IN MORTGAGES.".

SEC 2. TAX ON PROHIBITED TRANSACTIONS OF TIMS.

(a) IMPOSITION OF TAX.—Chapter 44 of the Internal Revenue Code of 1954 (relating to excise tax on real estate investment trusts) is amended by adding at the end thereof the following new section:

"SEC. 4982. EXCISE TAX ON PROHIBITED TRANSACTIONS OF TIMS.

"(a) IMPOSITION OF TAX.—There is hereby imposed on each prohibited transaction of a TIM a tax in an amount equal to the gain or loss allocable to such transaction.

"(b) PROHIBITED TRANSACTION DEFINED.—For purposes of this section, the term 'prohibited transaction' means the disposition by a TIM of—

"(1) any qualified obligation held by such TIM for less than 3 years, or

"(2) any qualified obligation which is—

"(A) held by the TIM for 3 years or more, and

"(B) described in section 1221(1).

"(c) EXCEPTION FROM PROHIBITED TRANSACTIONS.—

"(1) IN GENERAL.—A disposition shall not be treated as a prohibited transaction if—

"(A) such disposition is in connection with the prepayment, retirement, or renegotation of a qualified obligation,

"(B) such disposition is of—

"(i) any defective qualified obligation,

"(ii) foreclosure property, or

"(iii) qualified short-term investment, or

"(C) such disposition is in connection with the involuntary liquidation or dissolution of a TIM.

"(2) CERTAIN TRANSACTIONS NOT TREATED AS PROHIBITED TRANSACTIONS.—Paragraph (2) of subsection (b) shall not apply to any qualified obligation described in such paragraph for any taxable year if—

"(A) not more than 20 percent of the aggregate face amount of all such qualified obligations are disposed of during such taxable year,

"(B) not more than 50 percent of the aggregate face amount of all such qualified obligations are disposed of during taxable year, but not more than 5 obligations are disposed of during such taxable year, or

"(C) the disposition is—

"(i) pursuant to a bulk sale as part of a plan of complete liquidation, and

"(ii) by a TIM which has been a TIM for a least 3 taxable years before such disposition.

"(d) QUALIFIED SHORT-TERM INVESTMENTS.—

"(1) IN GENERAL.—For purposes of this section, the term 'qualified short-term investment' means any qualified obligation which—

"(A) is designated by a TIM as a qualified short-term investment on the date such obligation is acquired,

"(B) is held by a TIM for less than 180 days (or if longer than 180 days, is held to maturity), and

"(C) the proceeds of which are—

"(i) used to acquire other qualified obligations, or

"(ii) distributed by the TIM to its shareholders.

"(2) SPECIAL RULE FOR REINVESTMENT DURING PHASE-IN PERIOD.—Notwithstanding paragraph (1), during the 18-month period beginning on the date a TIM is incorporated or formed, proceeds from the disposition of a qualified short-term investment may be invested in other qualified short-term investments.

"(e) DEFINITION.—For purposes of this section—

"(1) TIM; QUALIFIED OBLIGATIONS.—The term 'TIM' and 'qualified obligation' have the same meanings as when used in part IV of subchapter M of chapter 1.

"(2) FORECLOSURE PROPERTY.—The term 'foreclosure property' has the same meaning given such term by section 856 (e) without regard to whether such property is held by a real estate investment trust.".

"(b) CONFORMING AMENDMENTS.—The table of sections for chapter 44 of the Internal Revenue Code of 1954 is amended—

(1) by inserting "AND TIMS" after "TRUSTS" in the heading thereof, and

(2) by adding at the end thereof the following new item:

"SEC. 4982. Excise tax on prohibited transactions of TIMS.".

By Mr. LEVIN:

S. 1823. A bill to provide for an alternative to the present adversarial rulemaking procedure by establishing a process to facilitate the formation of regulatory negotiation commissions; to the Committee on Governmental Affairs.

REGULATORY NEGOTIATION ACT OF 1983

Mr. LEVIN. Mr. President, I am pleased to introduce today a bill that provides for an alternative to the present adversarial rulemaking procedure by facilitating the use of a process called regulatory negotiation.

The current approach to regulatory policymaking has evolved into a very adversarial and litigious process. Affected businesses, interest groups, and regulatory agencies all tend to adopt antagonistic postures during the promulgation and implementation of Federal regulations. Thus, it is not surprising that the policies and regulations that result are often considered inappropriate and ineffective by both business and interest groups and that litigation and conflict have become an integral and inevitable part of the process. The resulting regulatory policy crisis has become so severe that innovative alternatives are needed to encourage a more cooperative and productive process, where as many common positions as possible can be reached and incorporated into regulations.

One of the most exciting and promising new approaches to the regulatory policy procedure is a process called regulatory negotiation. Regulatory negotiation operates on the premise that industry, government, and interested groups can sit down together and, with the aid of a mediator, attempt to fashion a consensus in areas of mutual concern. The basic notion is that if responsible people commit themselves to find points of agreement in a cooperative atmosphere, regulations can be designed which better meet true policy needs, and needless conflict and delay can be avoided.

The need for such an approach is apparent. Regulations often create anxiety among the parties who have an interest in their promulgation and implementation. Business often sees regulations as limiting its freedom to function as it desires. Other interested groups believe that the public welfare is sacrificed in the regulatory process and that interest groups are not represented and not heard. Legislators, who thought the problem was solved when they adopted legislation are faced with a continuing battle throughout the rulemaking and enforcement process.

If a party has little or no role in the formulation of a rule, it has little or no vested interest in following that rule.

Attempts to use regulatory negotiation as an alternative have been successful in several areas, most recently in the area of environmental issues.

The most recent environmental negotiation involved the Environmental Protection Agency (EPA), the steel industry and the Natural Resources Defense Council (NRDC).

In May 1982, the EPA proposed in "final" form a rather controversial regulation on the control of water pollution in the steel industry. The law set July 1984, as the deadline for companies to limit their water pollution to levels at or below those attainable with the "best available technology, economically achieveable." Of approximately 700 specifications outlined in the regulation, the industry challenged about 30 of them as being based on faulty information. In addiiton, the NRDC challenged the EPA's use of a "bubble" concept that would have allowed companies to make cost-saving tradeoffs among effluent sources so long as the aggregate pollution result was no worse. Inevitably the matter landed in the courts.

However, in October 1982, the parties began a negotiation process in an effort to avoid the delays and conflicts of litigation. On the one hand, industry was concerned about ending the uncertainty attendant to the incomplete regulatory process and on the other hand, the NRDC and the environmentalists were concerned with expediting matters because the steel industry regulations were to be the forerunners to many industrywide regulations.

In a settlement reached in late February of this year, the steel industry won concessions on the technical numbers, the NRDC and the environmentalists won a modification of the "bubble" provision, and costly and time-consuming litigation was avoided.

The most well-known regulatory negotiation success story is probably that of the national coal policy project (NCPP). The NCPP was an outgrowth of the recognition that it was important for the United States to shift from oil and natural gas to coal. In order to accomplish this, there had to be a reconciliation of environmental and industrial interests.

In July 1976, business representatives and environmentalists endorsed the regulatory negotiation concept and agreed to pursue important coal related environmental and energy policy issues using this approach.

The participants in the negotiations used the following principles known as the "rules of reason" to resolve differences and develop workable solutions:

First. Data should not be withheld from the other side.

Second. Delaying tactics should not be used.

Third. Tactics should not be used to mislead.

Fourth. Motives should not be impugned lightly.

Fifth. Dogmatism should be avoided.

Sixth. Extremism should be countered forcefully but not in kind.

Seventh. Integrity should be given first priority.

The Georgetown University Center for Strategic and International Studies (CSIS) served as the neutral meeting place for the project participants. It also raised funds and provided administrative support for the project. The project itself was financed by grants and contributions from foundations, Government agencies, and industry.

Five task forces were established to cover the following coal policy issues: mining, transportation, air pollution, fuel utilization and conservation, and energy pricing. The governing body for the project was called the plenary group and was made up of task force cochairmen and vice cochairmen. The duties of the plenary group were to define the nature and scope of the project, provide guidance, review and finally approve task force recommendations, and resolve task force disputes. Of the 200 task force recommendations 90 percent we unanimously achieved.

The NCPP report found that the project was very successful in dispelling stereotypes:

Quite apart from the substance of the recommendations, the project has been valuable in disspelling stereotypes. Those environmentalists who had previously regarded the position of industry on environment and energy issues as being monolithic and intransigent were rather quickly disabused of that notion. This was largely because of the differing perspectives of the industry members. For example, producers of fuel, regulated utilities and industrial users of large quantities of energy each tended to have different interests and views on questions of energy pricing.

In similar fashion, those industrialists who expected the environmentalists to be opposed to economic growth and to the introduction of new technology, and in favor of governmental rather than marketplace decisions on the allocation of resources, were pleasantly surprised to find that their suppositions were incorrect. The environmentalists opposed a pattern of growth that produced wasteful use of natural resources and an environmental impact which they felt was unacceptable; they did not oppose economic growth in itself. They welcomed new technology that would serve to increase efficiency and reduce adverse environmental impacts and demands on natural resources. They preferred marketplace decisions to economic regulation by government when markets are workably competitive; when this was not the case, or when important (external) environmental and social impacts were not properly valued in the market, the environmentalists were eager to explore methods of influencing the market (as with emission charges) so that the desired goals would be achieved while retaining the advantages of keeping detailed decisions in the private sector.

The report stated further that:

We are not proposing that the process of discussion and negotiation in which we have participated should replace the adversary process. Indeed many of the policy recommendations on which we have agreed would have to be implemented through the traditional adversary system; that is, they require action by legislative and judicial bodies . . . there are others that simply do not lend themselves to negotiated agreements.

We believe, however, that exclusive reliance on adversial processes is likely to produce decisions that are less desirable (from the point of view of either of the parties) than those in which a common position serving both interests could have been agreed to in a non-adversial context.

The NCPP recommendations have received agency support from the Office of Surface Mining (OSM) and the Federal Energy Regulatory Commission (FERC). OSM adopted word-for-word project recommendations regarding bonding concerns and operations. FERC adopted the coal generation and small power recommendations.

Two bill were also introduced in May 1980: H.R. 7464 and H.R. 7465, which adopted the recommendations that called for the use of incentives to develop pollution control technology and the development of plant siting procedures.

In addition to the two projects that I have just mentioned, regulatory negotiation has been tried in the environmental area of toxic substances. The Conservation Foundation was involved in this approach during the implementation of the Toxic Substances Control Act (TOSCA).

Specifically, approximately 13 business persons and environmentalists met to discuss the training of toxicologists, the testing of new chemicals and the prioritizing of what chemicals should be tested and the nature and scope of agency followup on the chemical after it reaches the market.

With respect to the testing of new chemicals, the Conservation Foundation's committee made four recommendations:

First. That a conceptual framework for a testing program be developed to test chemicals using a tier system.

Second. That all relevant aspects of the potential impact on human and animal health be tested, starting with inexpensive tests and ending with more complex tests.

Third. That the tests within the tier be required on a selective and necessary basis.

Fourth. That tier 0, the first tier, should be viewed as a minimal test—therefore, all substances should be tested under the first two tiers at a minimum.

The EPA is now developing guidelines—regulations—to effectuate the first recommendations.

In the area of labor relations, regulatory negotiations have also emerged. For example, the joint labor management-committee for the retail food industry utilized the process to reach an agreement on an OSHA regulation for protective equipment for employees in the meat department of supermarkets. This concensus took several months of hard work but once labor and management agreed, the two groups were able to reach an agreement with OSHA.

On July 29 and 30, 1980, the Subcommittee on Oversight of Government Management, of which I was the chairman, and the Select Committee on Small Business, of which I was a member, held a hearing on the regulatory negotiation approach. We received testimony from representatives of both the private and public sectors who have had specific experiences in regulatory negotiations, including the NCPP, the Conservation Foundation, and the EPA. These witnesses supported regulatory negotiation as a valuable aid to achieving more flexible and workable regulatory policy and suggested ways to strengthen the process.

The bill reflects many of these suggestions, as well as the suggestions of other experts in the private sector who have been involved in the regulatory negotiation process in several different areas. The bill also reflects some of the recommendations of Department of Transportation that is currently involved in regulatory negotiations between the FAA, the airlines, and pilot association on the subject of pilot flight time and scheduling.

Essentially the bill creates a process for establishing regulatory negotiation commissions. These commissions are composed of balanced interests in the area being reviewed. These commissions are to develop a proposed rule representing a consensus of the commissions' participants.

The bill gives the Administrative Conference of the United States (ACUS) and its Chairperson the responsibility of administering the program. A $1 million fund is authorized to fund the program for each of the 3 years beginning in 1985.

Specifically, an agency or interested party may request that the Chairman of ACUS conduct a preliminary investigation to determine the feasibility of using a regulatory negotiation commission to formulate a proposed rule. If the Chairman determines that a commission would be a viable means of developing a proposed rule, the Chairman will announce in the Federal Register, along with the agency involved, the intention to establish a regulatory negotiation commission. The Chairman will then accept applications for participation on the commission from interested parties. The Chairman may also suggest that an interested party seek a grant from the Conference if it is determined that the party is eligible for participation but unable to afford the expense of such participation. Grants would be available to not only assist participants, but also to cover the expenses of the operation of the commission. A commission could be established to develop a proposed rule in any area that is subject to Government regulation and conducive to resolution in the negotiation process; however, the decision to select a particular area for negotiation would be at the discretion of the Chairman with the advice of the agency involved.

The bill outlines the status and function of the parties during the process, and makes the agency an equal voting member. The commission would also have the responsibility of reporting to the agency, ONB, and the Congress on the results of the negotiation.

Upon receipt of the commission's report, the agency must comment on the report and is permitted to amend and modify the proposed rule, if it feels that amendments or modifications are necessary. However, it must give the commission and the public an opportunity to review and comment on the proposed rule and any amendments or modifications.

The NCPP and the environmental negotiations demonstrate the vital progress that can result from regulatory negotiation. Yet, despite the promise that this approach holds, its use has been limited. The failure to use regulatory negotiation more frequently stems in part from our traditional reliance on the adversarial proceedings and in part from the possible costs involved in the process.

Expanding the use of regulatory negotiation will require some encouragement from the regulators. Private parties need to know that there is a process and funds available to meet the cost of negotiation and facilitate the establishment of a workable negotiation mechanism. This will enable many parties in the private sector to participate in the process who would otherwise be left out and demonstrates that the Government will take the results seriously and insures that the negotiation will be fairly and impartially structured so that all points of view can be effectively represented.

The program envisioned in this bill will give the concept of regulatory negotiation impetus and the initial funding it needs and deserves. Moreover, in the next few years, several major regulatory policy decisions will be made in several areas. Certainly the time for a less adversarial and more productive approach to regulatory policymaking can be no more urgent than it is now.

I view this bill as a unique opportunity to foster more effective and appropriate regulations and to reduce conflict and delay in the regulatory process. I hope that you share this view and that you will join me in supporting it.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1823

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Regulatory Negotiation Act of 1983".

FINDINGS

SEC. 2. The Congress finds and declares that:

(1) Government regulation of the economy has increased rapidly since the enactment of the Administrative Procedure Act.

(2) Although this increase in regulation has had commendable purposes, it has been accompanied by a formalization of the rulemaking process which has frequently resulted in unjustifiably expensive, contradictory, and often counterproductive rules.

(3) The adversarial nature of the rulemaking process has often resulted in unnecessary regulations which have a significant adverse effect on the economy.

(4) In the current rulemaking process, the parties often assume antagonistic positions and the best solutions to the problems under consideration are often ignored by the parties since the parties act in a manner which maintains their bargaining positions.

(5) In the current rulemaking process, the parties rarely have the opportunity to meet as a group and communicate directly with each other, and the lack of this opportunity effectively limits the ability of the parties to reach agreement on a rule that fulfills the intent of Congress and is acceptable to all parties.

(6) The adversarial nature of the rulemaking process frequently limits the extent to which the expertise, technical ability, and great resources of persons working in a regulatory area are used to solve the problem under consideration.

PURPOSE

SEC. 3. The purpose of this Act is to establish an alternative rulemaking procedure which permits the establishment of regulatory negotiation commissions that can be used in appropriate circumstances to permit direct participation of interested parties in a rulemaking, the negotiation of regulatory policy by such parties, and the development of rules that represent a consensus of the members of the commission.

DEFINITIONS

SEC. 4. For purposes of this Act—

(1) the term "agency" has the same meaning as in section 551 (1) of title 5, United States Code;

(2) the term "person" has the same meaning as in section 551 (2) of such title;

(3) the term "party" has the same meaning as in section 551 (3) of such title;

(4) the term "rule" has the same meaning as in section 551 (4) of such title;

(5) the term "rule making" has the same meaning as in section 551 (5) of such title;

(6) the term "Conference" means the Administrative Conference of the United States;

(7) the term "Chairman" means the Chairman of the Administrative Conference of the United States;

(8) the term "consensus" means a unanimous agreement among all interests represented in the negotiation of a proposed rule under this Act, and does not mean a unanimous agreement among all individual members involved in the negotiation;

(9) the term "interest" means a position with respect to an issue that may be considered by a regulatory negotiation commission and that may be represented by one or more persons;

(10) the term "mediator" means the individual selected to mediate discussions between the members of a regulatory negotiation commission and to facilitate communications between such members in the development of a proposed rule;

(11) the term "member" means a person who is a member of a regulatory negotiation commission; and

(12) the term "regulatory negotiaton commission" means a voluntary group established by the Conference in accordance with this Act to consider issues for the purpose of reaching a consensus in the development of a proposed rule.

REQUEST FOR REGULATORY NEGOTIATION COMMISSION

SEC. 5. (a) An agency or a person who is qualified to represent an interest with respect to an issue may request the Chairman to determine whether to recommend to the agency having jurisdiction over the development of a proposed rule with respect to such issue that a regulatory negotiation commission be established to develop such a proposed rule. The request shall explain the reasons why the agency or person believes that the use of a regulatory negotiation commission would be an appropriate method of developing a proposed rule.

(b) The Chairman shall consider each request made under subsection (a) for the establishment of a regulatory negotiation commission to develop a proposed rule with respect to a particular issue. If the Chairman determines that there is a substantial likelihood that the agency having jurisdiction over the development of such a rule will seriously consider issuing a proposed rule relating to such issue, the Chairman may conduct an informal investigation with respect to the advisability of establishing a regulatory negotiation commission to develop such a proposed rule. In conducting such an investigation, the Chairman may consider and make determinations concerning—

(1) whether there are a limited number of interests which would be substantially affected by a proposed rule relating to the issue;

(2) whether persons can be selected as members of a regulatory commission who would represent the interests identified pursuant to paragraph (1), including recommendations for persons to be selected;

(3) whether the persons recommended for selection as members of a regulatory negotiation commission would be willing to make a commitment to negotiate in good faith to reach a consensus on a proposed rule concerning such issue;

(4) whether the agency having jurisdiction over the development of such a proposed rule would use the regulatory negotiation commission to develop such rule;

(5) the scope of the issues to be considered by the regulatory negotiation commission in developing such rule; and

(6) a preliminary schedule for the completion of the work of the regulatory negotiation commission.

(c) Within sixty days after receiving a request under subsection (a) with respect to the development of a proposed rule concerning an issue, the Chairman shall report to the Conference and the agency having jurisdiction over the development of such a proposed rule the determinations of the Chairman under subsection (b) and the recommendations of the Chairman as to whether a regulatory negotiation commission should be established to develop such a proposed rule.

(d) The Chairman, with the advice of the agency having jurisdiction over the development of a proposed rule with respect to an issue for which a request is submitted under subsection (a), shall have complete discretion in determining the subjects to be considered by any regulatory negotiation commission established to develop such a rule. Any determination by the Chairman with respect to the subjects to be considered by a regulatory negotiation commission shall not be subject to judicial review in any court.

USE OF REGULATORY NEGOTIATION COMMISSION

SEC. 6. (a) If, on the recommendation of the Chairman, an agency decides to use a regulatory negotiation commission, the agency shall publish in the Federal Register a notice concerning the proposed use of such commission in the development of a proposed rule. Such notice shall include—

(1) an announcement that the agency intends to use a regulatory negotiation commission in the development of the proposed rule;

(2) a general description of the subject matter to be considered by the regulatory negotiation commission; and

(3) a list of mediators compiled and approved by the Conference, from which persons applying for membership on the commission may select a proposed mediator.

(b)(1) For a period of at least thirty days after the date on which the agency publishes a notice with respect to a regulatory negotiation commission under subsection (a), the Chairman shall accept applications from persons who are qualified to represent an interest on the commission. Each such application shall specify—

(A) the name of the person submitting the application and a description of the interest such person will represent;

(B) the persons recommended for membership on the commission and the reasons of the applicant for such recommendations;

(C) whether a mediator will be needed by the commission, and, if necessary, the name of a proposed mediator;

(D) recommendations for the issues to be considered by the commission;

(E) recommendations for rules for the operation of the commission;

(F) a proposed organizational plan and a proposed agenda for the commission;

(G) a proposed schedule for completing the work of the commission; and

(H) a written commitment that the applicant will—

(i) negotiate the issues under consideration by the commission in good faith; and

(ii) produce a report on the negotiation within a time period appropriate to the issues under consideration.

(2) In order to ensure that all interests, including interests represented by public interest groups, have an adequate opportunity to participate in a regulatory negotiation commission, the Chairman may suggest that a person submitting an application under paragraph (1) request a grant under section 9 of this Act to pay the expenses that will be incurred by such person as a result of participation on the regulatory negotiation commission.

(c) during the period in which the Chairman is accepting applications under subsection (b)(1), an agency which published a notice under subsection (a) with respect to a regulatory negotiation commission shall submit to the Chairman a written statement specifying—

(1) the name and position of a senior official of the agency who will represent the agency or the commission;

(2) whether a mediator will be necessary for the commission, and, if necessary, the name of a proposed mediator;

(3) the persons recommended for membership on the commission and the reasons of the agency for such recommendations;

(4) recommendations for the issues to be considered by the commission;

(5) recommendations for rules for the operation of the commission;

(6) a proposed organizational plan and a proposed agenda for the commission;

(7) a proposed schedule for completing the work of the commission; and

(8) a written commitment that the agency will—

(A) negotiate the issue under consideration by the commission in good faith; and

(B) produce a report on the negotiation within a time period appropriate to the issues under consideration.

(d) After the period for applications for membership on a regulatory negotiation commission under subsection (b) has expired, the Chairman shall consider all of the applications submitted under such subsection and the statement submitted by the agency under subsection (c). If, after considering such applications and statement, the Chairman determines that all necessary interests will be represented on the regulatory negotiation commission for which the applications are made and that person representing such interests will have an opportunity to contribute to the negotiation of a proposed rule, the Chairman shall announce the establishment of such a commission in accordance with subsection (e).

(e) The Chairman shall announce the establishment of a regulatory negotiation commission for the development of a proposed rule through publication in the Federal Register and through notices in appropriate journals, newsletters, and other media. Such announcement shall include—

(1) a description of the issue to be considered by the commission;

(2) a tentative list of the subjects to be considered by the commission in negotiating with respect to the issue described pursuant to in paragraph (1);

(3) the name and position of the senior official of the agency having jurisdiction over the development of such a rule who is proposed to represent the agency on the commission;

(4) the name of each person proposed for selection as a member of the commission, and a specification of the interest to be represented by each such member;

(5) the name of a proposed mediator for the commission, if any;

(6) a proposed schedule for the completion of the work of the commission; and

(7) a request that members of the public comment on the proposed commission, including comments on—

(A) whether each appropriate interest will be represented on the commission;

(B) the persons selected to represent each such interest;

(C) the official proposed to represent the agency; and

(D) the issues to be considered by the commission.

(f) For a period of at least thirty days after the date on which the notice required under subsection (e) is published in the Federal Register, the Chairman shall accept comments from the public with respect to the matters specified in such notice. The Chairman, with the advice of the agency having jurisdiction over the proposed rule to be developed by the commission, shall consider all relevant matter and comments submitted, and may notify the proposal for the use of a regulatory negotiation commission specified in such notice with the agreement of the agency and the members proposed by the Chairman in such notice to represent the major interests on the commission.

(g) The agency shall publish in the Federal Register a final notice concerning the establishment of a regulatory negotiation commission to develop a proposed rule. The notice shall specify the matters described in paragraphs (1) through (6) of subsection (e) with respect to the regulatory negotiation commission that will be established.

PROCEDURES FOR REGULATORY NEGOTIATION COMMISSIONS

SEC. 7. (a) Each regulatory negotiation commission established pursuant to this Act shall consider the subjects specified by the Chairman for consideration by the commission and shall attempt to reach a consensus concerning a proposed rule with respect to such issues.

(b) The official representing the agency on a regulatory negotiation commission shall participate in the deliberations and activities of the commission as a voting member who is equal to all other members of the commission.

(c)(1) Any mediator selected by the Chairman for a regulatory negotiation commission shall—

(A) chair the meetings of the commission;

(B) assist the members of the commission in conducting discussions;

(C) keep the Congress informed of the activities of the commission; and

(D) assist in the deliberations of the commission.

a mediator shall not vote on any matter before the commission or participate in any agreement made by the commission.

(2) If the Chairman has not selected a mediator for a regulatory negotiation commission, the commission shall elect a chairperson from among its members to carry out the functions of a mediator described in paragraph (1). A chairperson elected under this paragraph shall be entitled to vote on any matter before the commission and participate in any agreement made by the commission.

(d) Whenever possible, not more than fifteen members of a regulatory negotiation commission shall participate in the deliberations of the commission at any one time. The total number of members of a regulatory negotiation commission may exceed fifteen.

(e) A regulatory negotiation commission may change its membership, rules, or agenda if a majority of the interests represented on the commission agree to such change and if the commission submits such change to the Chairman for review. If the Chairman determines that any such change will substantially impair the ability of the commission to carry out the purposes of this Act, the Chairman may—

(1) suggest additional changes in the membership, rules, or agenda of the commission in order to assure consistency with the purposes of this Act; or

(2) require that the commission, and any members thereof, repay the Government the amount of any grant provided under this Act which has not been obligated or expended.

The Chairman may not require a commission to make repayment under paragraph (2) of this subsection unless the Chairman determines that efforts by the commission to assure consistency with the purposes of this Act have failed.

(f) At the conclusion of negotiations, each regulatory negotiation commission shall prepare and transmit to the Chairman, the head of the agency participating in the commission, each committee of the Senate and House of Representatives having legislative jurisdiction over the subjects considered by the commission, and the Director of the Office of Management and Budget a report with respect to the negotiations conducted by the commission. If the commission reached a consensus and developed a proposed rule, the report shall contain the proposed rule developed by the commission and a concise general statement of the basis and purpose of that rule. If the commission did not develop a consensus and a proposed rule, the report shall specify the areas in which the commission reached a consensus, the areas of disagreement among the commission, and such recommendations and background material the commission may consider appropriate.

(g) Any meeting of a regulatory negotiation commission shall be open to the public, unless a majority of the members of the commission determine by vote that a closed meeting is necessary to achieve the purposes of the commission. Each open meeting shall be announced at least fifteen days prior to the date of the meeting in the Federal Register if possible, and a record shall be prepared of each such meeting.

(h)(1) A regulatory negotiation commission which developed a proposed rule shall be terminated—

(A) on the date on which the agency that participated in the commission publishes a notice of proposed rulemaking under section 8(a) for such proposed rule; or

(B) in any case in which the agency chooses not to publish a notice of proposed rule making for such proposed rule, on a date determined by the Chairman which occurs—

(i) after the commission has had an opportunity to comment on the agency action with respect to such proposed rule; and

(ii) after the commission has transmitted the report required under subsection (f) to the committees of the Senate and the House of Representatives referred to in such subsection.

(2) A regulatory negotiation commission which did not develop a proposed rule shall terminate fifteen days after the date on which the commission transmits the report required by subsection (f) to the committees of the Senate and the House of Representatives referred to in such subsection.

AGENCY ACTION

SEC. 8. (a) An agency shall publish in the Federal Register a notice of proposed rule making in accordance with section 553 of title 5, United States Code, for any proposed rule developed by a regulatory negotiation commission unless the agency determines that there is good cause for not publishing such notice. The agency may propose amendments to or modifications to the proposed rule developed by the regulatory negotiation commission and shall publish such amendments or modifications in the Federal Register with the notice of proposed rule making. The agency may publish with such notice such additional explanatory material as the agency considers appropriate.

(b) The agency shall make available the report transmitted under section 7(f) by the regulatory negotiation commission concerning the proposed rule developed by such commission.

(c) The agency shall allow a period of at least thirty days for the public to review and comment on—

(1) the notice of proposed rule making published under subsection (a);

(2) any amendments or modifications proposed by the agency under such subsection to the proposed rule developed by a regulatory negotiation commission; and

(3) any other material published under such subsection.

(d) The agency shall provide a regulatory negotiation commission which developed a proposed rule an opportunity to review and comment upon any material received by the agency pursuant to the notice of proposed rule making for such rule published under subsection (a) and an opportunity to participate in any additional proceedings the agency conducts with respect to such proposed rule.

GRANTS FOR REGULATORY NEGOTIATION COMMISSIONS

SEC. 9. (a) In order to carry out the purposes of this Act, the Conference, through the Chairman, shall make grants to—

(1) regulatory negotiation commissions for the payment of administrative expenses of such commissions; and

(2) members of a regulatory negotiation commission who are unable to afford to pay the costs of participation in the commission.

(b) The Chairman shall announce through publication in the Federal Register and through notice in appropriate journals, newsletters, and other media, the availability of grants under this Act, and shall take such other actions as may be necessary to provide notice to the public concerning the availability of such grants.

EXEMPTIONS FROM CERTAIN PROVISIONS OF LAW

SEC. 10. (a) The Federal Advisory Committee Act shall not apply to any regulatory negotiation commission established pursuant to this Act.

(b) Notwithstanding any other provision of law, no written or oral communication—

(1) between the members or staff of a regulatory negotiation commission and the staff of an agency;

(2) the members of a regulatory negotiation commission or their staff; or

(3) between any person and a regulatory negotiation commission and its staff;

shall be regarded as an improper ex parte communication subject to any sanction imposed by statute, regulation, or judicial precedent.

(c) Information or records submitted to a regulatory negotiation commission shall not be regarded as agency records for purposes of section 552(a)(3) of title 5, United States Code.

(d) The members of a regulatory negotiation commission and any mediator of such commission shall not be regarded as employees or agents of the United States solely be-

cause of their participation in the commission.

STAFF FACILITIES AND RESEARCH

SEC. 11. (a)(1) The Chairman of the Administrative Conference of the United States is authorized to—

(A) employ an individual to carry out the duties of the Chairman under section 5(b); and

(B) subject to paragraphs (2), (3), and (4), enter into contracts with individuals to serve as mediators for regulatory negotiation commissions.

(2) The Chairman may not enter into any contract under paragraph (1)(B) with an individual if such individual—

(A) may represent any interest with respect to the issue to be considered by a regulatory negotiation commission in developing a proposed rule; and

(B) is a member of, or is associated with, any organization which may represent such an interest.

(3) The Chairman may compensate any individual employed under paragraph (1)(B) at a daily rate equal to the maximum daily rate of pay for level 15 of the General Schedule under section 5332 of title 5, United States Code.

(4) The authority of the Chairman to enter into contracts under this subsection shall be to such extent or in such amounts as are provided in appropriation Acts.

(b) A regulatory negotiation commission is authorized to utilize the services and facilities of Federal agencies and public and private agencies and instrumentalities with the consent of such agencies and instrumentalities and with or without reimbursement to such agencies, and to accept voluntary and uncompensated services without regard to the provisions of section 1342 of title 31, United States Code.

(c) Members of a regulatory negotiation commission may agree to share the research and scientific and technical data available to such members.

AUTHORIZATION OF APPROPRIATIONS

SEC. 12. To carry out this Act, there are authorized to be appropriated to the Conference not in excess of $1,000,000 for each of the fiscal years 1985, 1986, and 1987.

By Mr. GRASSLEY (for himself and Mr. SYMMS):

S. 1824. A bill to amend the Internal Revenue Code of 1954 to remove the limitation on estate tax exclusions under section 2039; to the Committee on Finance.

REMOVAL OF LIMITATION ON ESTATE TAX EXCLUSIONS UNDER SECTION 2039

Mr. GRASSLEY. Mr. President, I rise to introduce a bill designed to remedy a problem caused by the Tax Equity and Fiscal Responsibility Act of 1982.

Under the Economic Recovery Tax Act of 1981, taxpayers were permitted to roll over pension accumulations into individual retirement accounts or annuities without estate tax liability upon their death. In TEFRA, we limited the estate tax exclusion on these accumulations to $100,000. Unfortunately, many taxpayers made this irrevocable election before TEFRA was passed. If the $100,000 estate tax exclusion had existed when they made the election, they would have made a different decision about the best use for these funds. While I have no quarrel with the conferees' decision to require pension beneficiaries to use these earnings for retirement savings, I feel retroactive application of this rule will cause undue hardship.

Consequently, I am proposing that Congress retain the full estate tax exclusion for those taxpayers who rolled over pension contributions into tax sheltered annuities or individual retirement accounts in reliance upon ERTA. Taxpayers acting after the conferees decision to limit the contributions to $100,000 of estate tax exclusion will be bound by current law. My intent is only to remedy the hardship caused by taxpayers making an irrevocable rollover decision before TEFRA was enacted.

By Mr. GRASSLEY (for himself and Mr. SYMMS):

S. 1825. A bill to amend to the Internal Revenue Code of 1954 to revise the addition tax for failure to pay estimated income tax; to the Committee on Finance.

ESTIMATED TAX SIMPLIFICATION ACT OF 1983

Mr. GRASSLEY. Mr. President, I rise to introduce this measure with Senator SYMMS to address many of the problems surrounding the estimated tax penalty.

The estimated tax provision has long been a source of concern to taxpayers. As currently written, the estimated tax penalty automatically applies if a taxpayers fails to make a quarterly filing. The Commissioner has no authority to waive this penalty, hence many innocent taxpayers are snared by this penalty each year even if they had no prior knowledge that the penalty or the obligation of file existed. Taxpayers commonly subjected to the penalty are workers who have had wage withholding their entire employment careers. Upon retirement, they often have a legal obligation to file quarterly statements but have no knowledge of this requirement. Many of these taxpayers consider their legal tax obligation to be an annual filing of a tax return. Suddenly, they find they have triggered a tax penalty for failure to file a return they never knew existed. Lifelong taxpayers who pride themselves on good compliance records are penalized for their lack of knowledge. Since the estimated tax penalty is a no fault penalty, even in the most sympathetic cases the Commissioner lacks the authority to waive the penalty.

Other taxpayers subject to this penalty are individuals who are unemployed or disabled and are unaware of their obligation to file quarterly. The penalty rate is equal to the statutory interest rate. The Treasury argues that taxpayers had the use of dollars rightfully owed the United States and should be responsible to pay interest on this loan. Unlike other creditors, taxpayers who have triggered the estimated tax penalty often have no knowledge that their bill is overdue. To penalize these taxpayers is not just.

My bill gives the Commissioner the discretion to waive the penalty for reasonable cause. The sponsors of this bill intend to define reasonable cause in the legislative history as those situations which I have chronicled above.

Also, my bill changes the penalty to an interest charge which is deductible by the taxpayer in the year paid or accrued. It retains the same safe harbors that exist in current law and redrafts the section to read more clearly.

It is my hope that this type of needed tax reform can be enacted swiftly. Arbitrary laws breed disrespect for our revenue collection system and enourage noncompliance. These modifications should improve taxpayer attitudes about their financial obligations to their Government.

By Mr. DANFORTH:

S. 1826. A bill entitled the "Hunger Relief Incentives Tax Act of 1983"; to the Committee on Finance.

HUNGER RELIEF INCENTIVES TAX ACT OF 1983

Mr. DANFORTH. Mr. President, I ask unanimous consent that the text of this bill, as well as the explanation of the bill, be printed in full in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1826

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That a. Section 170(e)(3) of the Internal Revenue Code of 1954 is amended to read as follows:

"(3) SPECIAL RULE FOR CERTAIN CONTRIBUTIONS OF INVENTORY AND OTHER PROPERTY.—

"(A) QUALIFIED CONTRIBUTIONS, IN GENERAL.—For purposes of this paragraph, a qualified contribution shall mean a charitable contribution of property described in paragraph (1) and (2) of section 1221, by a corporation (other than a corporation which is an electing small business corporation within the meaning of section 1371(b)) to an organiazation which is described in section 170(c)(1) or to an organization which is described in section 170(c)(2) and is exempt under section 501(a) (other than a private foundation, as defined in section 509(a), which is not an operating foundation, as defined in section 492(j)(3)), but only if—

"(i) the use of the property by the donee is related to its governmental purpose or function or to the purpose or function constituting the basis for its exemption under section 501 and the property is to be used by the donee solely for the care of the ill, the needy, or infants;

"(ii) the property is not transferred by the donee in exchange for money, other property, or service;

"(iii) the taxpayer receives from the donee a written statement representing that its use and disposition of the property will be in accordance with the provisions of clauses (i) and (ii); and

"(iv) in the case where the property is subject to regulation under the Federal Food, Drug, and Cosmetic Act, as amended, such property must fully satisfy the applicable requirements of such Act and regulations promulgated thereunder on the date of transfer and for one hundred and eighty days prior thereto.

"(B) SPECIAL RULE FOR CONTRIBUTIONS OF FOOD.—

"(i) IN GENERAL.—In the case of a charitable contribution of food, a contribution which otherwise meets the definition of a qualified contribution under subparagraph (A) shall not be disqualified solely because the taxpayer is not a corporation described in subparagraph (A), if such taxpayer is actively engaged in the trade or business of production or wholesale or retail marketing of food.

"(ii) DEFINITION OF FOOD.—For purposes of this subparagraph, the term "food" shall mean any agricultural product which is intended for, and at the date of contribution is suitable for, human consumption, and which is not subject to the federal excise tax on alcohol and tobacco under Chapters 51 and 52 of the Internal Revenue Code.

"(iii) GLEANING.—For purposes of this subparagraph, a charitable contribution of food shall include contributions of food which a donee organization described in subparagraph (A) has removed from the taxpayer's fields, if the contribution otherwise meets the definition of a qualified contribution under subparagraph (A).

"(iv) Notwithstanding any other provision, a contribution of food may qualify under this paragraph in spite of the donee-organization charging a fee to the ill or needy individuals or infants who receive the property from such organization if the fee is small or nominal in relation to the value of the transferred property and is not determined by its value, and the fee is designed to reimburse the donee-organization for its administrative, warehousing, or similar costs.

"(C) SPECIAL RULE FOR CONTRIBUTIONS OF CERTAIN TRANSPORTATION SERVICES.—For purposes of this paragraph, a qualified contribution shall include the charitable contribution by a taxpayer of transportation services for the movement of food which is described in subparagraph (A) or (B), but only if—

"(i) the taxpayer receives from the donee a written statement representing that the property being moved is a qualified contribution, as defined in this paragraph, and

"(ii) the taxpayer is actively engaged in the trade or business of providing such services, or is the donor of such property.

"(D) AMOUNT OF DEDUCTION.—The deduction under the subsection (a) for any qualified contribution (as defined in this paragraph) shall be—

"(i) except as provided in clause (ii), in the case of a qualified contribution described in subparagraph (A) or (B), determined by limiting the reduction under paragraph (1)(A) to the sum of—

(a) one-half of the amount computed under paragraph (1)(A) (computed without regard to this paragraph), and

(b) the amount (if any) by which the charitable contribution deduction under this section for any qualified contribution (computed by taking into account the amount determined in subclause (a), but without regard to this subclause) exceeds twice the basis of such property.

"(ii) in the case of a qualified contribution of food, by a taxpayer which is not required to and does not use inventories to compute taxable income, 50 percent of the gross receipts the taxpayer would have realized if such food had been sold in the ordinary course of the taxpayer's business.

"(iii) in the case of a qualified contribution described in subparagraph (C), the least of—

(a) the fair market value of the services contributed,

(b) twice the incremental direct costs incurred by the taxpayer in providing the services, or

(c) such direct costs, added to one-half the amount of gain the taxpayer would have realized if the services contributed had been provided by the taxpayer at their fair market value.

"(E) This paragraph shall not apply to so much of the gain described in paragraph (1)(A) which would be long-term capital gain but for the application of sections 617, 1245, 1250, 1251, or 1252."

b. EFFECTIVE DATE.—The amendments made by this legislation shall be effective for qualified contributions made after the date of enactment.

EXPLANATION OF S. 1826

SUMMARY

This bill amends section 170(e)(3) of the Internal Revenue Code, which provides a special rule for certain charitable contributions of inventory and other property.

The general rule of present law, expressed in section 170(e)(1), provides that when a taxpayer contributes inventory (or other noncapital gain property), the deduction for the contribution is limited to the taxpayer's basis in the property, even though the value of the property may far exceed that basis. This rule was adopted in 1969; prior to that time, a deduction was allowed for the full value of the property.

In 1976, § 170(e)(3) was adopted. This section provides an exception to the general rule described above in the case of certain contributions of inventory to be used for the "care of the ill, needy, or infants." Under this exception, the taxpayer making such a contribution may deduct the lesser of twice its basis in the property, or basis plus one-half the profit which would have been realized from selling the property. This exception applies only to contributions made by corporations, to organizations described in section 501(c)(3).

This bill makes three basic changes to this section which are intended to encourage increased contributions of food by taxpayers to organizations, such as food banks, which are involved in feeding the needy.

First, the bill would clarify that governmental organizations, such as welfare departments, are eligible recipients of contributions under this section. Under current law, only organizations described in section 501(c)(3) are included, and that section excludes some governmental organizations.

Second, in the case of contributions of food to qualifying organizations, the bill would allow individuals, cooperatives, and other non-corporate taxpayers to take advantage of the enhanced deduction now available only to corporations. However, where the donor is on the cash basis of accounting for tax purposes (as many non-corporate farmers are), there will be no basis in the property. In such cases, the deduction is 50 percent of the gross receipts the taxpayers would have received from the sale of the property.
